OFFICE OF ECONOMICS

UNITED STATES INTERNATIONAL TRADE COMMISSION

WASHINGTON, DC 20436

December 7, 2001

MEMORANDUM EC-Y-051

TO: THE COMMISSION

THRU: Robert B. Koopman
Director, Office of Economics

FROM: Catherine DeFilippo
Chief, Applied Economics Division

SUBJECT: Investigation No. TA-201-73: STEEL–Additional remedy information

Attached is additional information that has been requested by Commissioner offices in the above investigation.

FLAT PRODUCTS

The following tables show the estimated effects of a TRQ on slab. The different scenarios are as follows:

1. TRQ set at 6.5 million -- 5% over-quota rate

2. TRQ set at 6.5 million -- 10% over-quota rate

3. TRQ set at average 1999-2000 imports (around 7.1 million), assume 5% demand growth -- 5% over-quota rate

4. TRQ set at average 1999-2000 imports, assume 5% demand growth -- 10% over-quota rate.

The first table shows the estimated effects if Mexico and all other (non-NAFTA) imports are included under the same quota and the second table shows the effects if Mexico has a separate TRQ. Canada is excluded in all scenarios.

Table 1

Summary effects of remedy

	Slab - 6,500,000 tons total	Slab - 6,500,000 tons total	Slab - 5% growth	Slab - 5% Growth
Domestic price	1.7 to 3.2	3.4 to 6.4	2.5 to 4.2	2.7 to 7.3

PLAT-7

Replacement for run contained in previous economic analysis packet distributed 11/30/01.

The following run shows the estimated effects of a $100/ton specific tariff on each of the flat products. Mexico is included and Canada is excluded from the remedy.

Table 1
Summary effects of remedy

PLAT-9

The following runs show the estimated effects of a quota on flat products. The quota is based on 1996-97 market share which is then applied to import quantities during July 2000-June 2001. Four different scenarios are presented: (1) zero growth, (2) 5% demand growth (3) 10% demand growth, and (4) 15% demand growth.

Table 1 Quota based on 1996-97 market share, 21100-11101 quantities, no growth

PLAT-32

The attached table shows the estimated effect of a tariff-rate quota (TRQ) on slab. This TRQ is based on the following tariff and quota levels:

Up to 6 million tons	Duty-free
6.0-6.5 million tons	10%
6.5-7.0 million tons	15%
Over 7 million tons	20%

Mexican and non-NAFTA imports are included and Canadian imports are excluded.

Total Imports	35.3	34.7	34.1	33.6	33.0	32.4
Consumer costs ($1,000)	(29,692)	(32,386)	(35,035)	(37,640)	(40,203)	(42,724)
Net welfare effects ($1,000)	2,147	2,077	1,963	1,806	1,607	1,369

The following tables show the estimated effects of different quotas on the welded tubular industry and the carbon and alloy fittings. The various runs are described below

For welded tubular products:

(1) Quota based on annualized imports levels for 2001 (using interim 2001 data). Canada and non-NAFTA imports have one combined quota and Mexico has a separate quota.

(2) Quota based on annualized imports levels for 2001 (using interim 2001 data). Canada, Mexico, and non-NAFTA imports have separate quotas.

For fittings and flanges

(3) Quota based on 1997-99 import levels. Non-NAFTA and Canada have one combined quota and Mexico has a separate quota.

(4) Quota based on 1998-2000 import levels. Non-NAFTA and Canada have one combined quota and Mexico has a separate quota.

(5) Quota based on 1998-2000 import levels. Canada, Mexico, and non-NAFTA imports have separate quotas.

Consumer costs ($1,000)	(65,581) to (50,565)	(85,409) to (50,565)	(85,410) to (50,565)	(85,410) to (50,565)	(85,410) to (50,565)
Net welfare effects ($1,000)	(45,832) to (35,065)	(56,649) to (35,065)	(56,650) to (35,065)	(56,650) to (35,065)	(56,650) to (35,065)

The following tables show the estimated effects of different quotas on the welded tubular industry and the carbon and alloy fittings. The various runs are described below

For welded tubular products:

(1) Quota based on annualized imports levels for 2001 (using interim 2001 data). Canada and non-NAFTA imports have one combined quota and Mexico has a separate quota.

(2) Quota based on annualized imports levels for 2001 (using interim 2001 data). Canada, Mexico, and non-NAFTA imports have separate quotas.

For fittings and flanges

(3) Quota based on 1997-99 import levels. Non-NAFTA and Canada have one combined quota and Mexico has a separate quota.

(4) Quota based on 1998-2000 import levels. Non-NAFTA and Canada have one combined quota and Mexico has a separate quota.

(5) Quota based on 1998-2000 import levels. Canada, Mexico, and non-NAFTA imports have separate quotas.

Summary of effects of imposition of a quota based on 1996-98 import levels and tariff levels of 5, 10, and 15 percent on the domestic tool steel market, Canada and Mexico excluded

U.S. market effects (in percent unless otherwise noted)	5% tariff and 1996-98 quota	10% tariff and 1996-98 quota	15% tariff and 1996-98 quota
Domestic price	1.3 to 2.7	1.3 to 2.7	1.3 to 2.7
Domestic quantity	9.2 to 14.7	9.2 to 14.7	9.2 to 14.7
Domestic revenue	11.1 to 17.6	11.1 to 17.6	11.1 to 17.6
Canada:			
Price	1.2 to 3.1	1.2 to 3.1	1.2 to 3.1
Quantity	8.4 to 15.5	8.4 to 15.5	8.4 to 15.6
Mexico			
Price	1.0 to 2.7	1.0 to 2.7	1.0 to 2.7
Quantity	9.2 to 16.9	9.2 to 16.9	9.2 to 17.0
All other:			
Price	9.4 to 17.3	9.4 to 17.3	9.9 to 17.3
Quantity	-23.5 to -23.5	-23.5 to -23.5	-25.5 to -23.5
Import market share:			
Covered imports	44.4 to 45.6	44.4 to 45.7	44.3 to 45.6
Total imports	53.2 to 54.2	53.2 to 54.2	53.2 to 54.2
Consumer costs ($1,000)	(31,707) to (17,435)	(31,706) to (17,435)	(31,707) to (18,931)
Net welfare effects ($1,000)	(18,980) to (7,866)	(13,139) to (2,416)	(7,766) to 1,868

Pages STAINLESS-13 through STAINLESS-18 of the confidential version of this memo were corrected and appeared on pages STAINLESS-19 through STAINLESS-24 of the confidential version of this memo. Only the corrected pages (i.e., STAINLESS-19 through STAINLESS-24) are contained in this public version.

Public Version

CORRECTED PAGES

Attached on pages 1-4 are COMPAS estimates of the effects of quotas and tariffs on the combined stainless steel bar, rod and tool steel market; the stainless steel wire market; and the stainless steel fitting/flange market. The representative period for the quota on combined imports of stainless steel bar, rod, and tool steel is 1996-98. The representative period for the quota on imports of stainless steel wire is 1998-2000. The representative period for the quota on imports of stainless steel flanges/fittings is 1996-98.

In addition, attached on page 5 are COMPAS estimates of the effects of quotas on the stainless steel bar and rod market. The representative period for these quotas is 1997-99.

Public Version
