

U.S. International Trade Commission

Report on Compliance with Laws and Regulations for 2012

OIG-AR-13-05

November 9, 2012

Office of Inspector General

The U.S. International Trade Commission is an independent, nonpartisan, quasi-judicial federal agency that provides trade expertise to both the legislative and executive branches of government, determines the impact of imports on U.S. industries, and directs actions against certain unfair trade practices, such as patent, trademark, and copyright infringement. USITC analysts and economists investigate and publish reports on U.S. industries and the global trends that affect them. The agency also maintains and publishes the Harmonized Tariff Schedule of the United States.

OIG-KK-021

Chairman Williamson:

This memorandum transmits the Independent Auditor's Report on Compliance with Laws and Regulations (OIG-AR-13-05) associated with the audit of the Commission's financial statements for fiscal year 2012.

We contracted with the independent certified public accounting firm, Castro & Company LLC, to conduct the financial statement audit. The contract required that the audit be conducted in accordance with U.S. generally accepted government auditing standards and these auditing standards require a report on Compliance with Laws and Regulations to be produced as part of the audit.

The auditors did not identify any instances of noncompliance that would have a direct or material effect on the determination of financial statement amounts.

Throughout the audit and at its conclusion, my office followed procedures and conducted a final review designed to assure that the work performed by non-Federal auditors complied with the auditing standards. Our final review disclosed no instances where Castro & Company did not comply, in all material respects, with the U.S. generally accepted government auditing standards; however, this final review cannot be construed as an audit, and is not intended to enable us to express, and we do not express, any opinion on the Commission's compliance with laws and regulations. Castro & Company is solely responsible for this report dated November 8, 2012, and the conclusions expressed in the report.

Thank you for the cooperation and courtesies extended to both Castro & Company and my staff during this audit.

Sincerely,

Philip M. Heneghan
Inspector General

**Independent Auditor's Report on
Compliance with Laws and Regulations**

Inspector General
U.S. International Trade Commission

We have audited the financial statements of the U.S. International Trade Commission (ITC) as of and for the year ended September 30, 2012, and have issued our report thereon dated November 8, 2012.

The management of ITC is responsible for complying with laws and regulations applicable to ITC. We performed tests of its compliance with certain provisions of laws and regulations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts, and certain other laws and regulations specified in the Office of Management and Budget (OMB) Bulletin No. 07-04, *Audit Requirements for Federal Financial Statements*, as amended, including the requirements referred to in the Federal Managers' Financial Integrity Act of 1982 (FMFIA). We limited our tests of compliance to these provisions, and we did not test compliance with all laws and regulations applicable to ITC.

The results of our tests of compliance with applicable laws and regulations, and government-wide policies described in the preceding paragraph identified no instances of noncompliance that is required to be reported under *Government Auditing Standards* or OMB guidance.

Providing an opinion on compliance with certain provisions of laws and regulations, and government-wide policies was not an objective of our audit, and accordingly, we do not express such an opinion.

This report is intended solely for the information and use of management and the Office of Inspector General of ITC, OMB, GAO, and Congress, and is not intended to be and should not be used by anyone other than these specified parties.

Castro & Company, LLC

Alexandria, VA

“Thacher’s Calculating Instrument” developed by Edwin Thacher in the late 1870s. It is a cylindrical, rotating slide rule able to quickly perform complex mathematical calculations involving roots and powers quickly. The instrument was used by architects, engineers, and actuaries as a measuring device.
