INTRODUCTION

This compilation summarizes information on all investigations that the United States Tariff Commission has been requested to make under the provisions of section 22 of the Agricultural Adjustment Act. ^{1/} Because of the length and complexity of the Commission's findings and recommendations and the President's actions in most section 22 investigations, only a brief outline of them can be given in a resume of this kind. For complete details of the Commission's findings and recommendations and the President's actions, the reader should consult the various reports of the Tariff Commission to the President, references to which are given in the compilation.

Section 22 of the Agricultural Adjustment Act, as amended, authorizes the President to restrict the importation of commodities, by the imposition either of fees or quotas, if such importation renders or tends to render ineffective or materially interfere with programs of the U.S. Department of Agriculture relating to agricultural commodities. Section 22 requires the Tariff Commission on direction of the President, to conduct an immediate investigation, including a public hearing, and to make a report and recommendation to the President.

Section 22 was amended by section 8(b) of the Trade Agreements Extension Act of 1951 to provide that no trade agreement or other international agreement may be applied in a manner inconsistent with the requirements of section 22. ^{2/}

^{1/} See 49 Stat. 750, 62 Stat. 1247, and 64 Stat. 261 (7 U.S.C. 624) for original section and its amendments.

^{2/} See 65 Stat. 75 for addition of paragraph (f) to section 22.

Section 22(b) was amended by section 104 of the Trade Agreements Extension Act of 1953 by the addition of a paragraph which permitted the President to take immediate action in certain emergency situations pending a Commission investigation, report, and recommendations on the matter. ^{1/}

^{1/} See 67 Stat. 472 for addition of last paragraph of section 22(b).

Outcome or current status of all investigations conducted by the United States Tariff Commission under the provisions of section 22 of the Agricultural Adjustment Act, as amended

Commodity	Status
<p>Short harsh cotton (supplemental investigation) (1957). (Investigation No. 1, sec. 22)</p>	<p><u>Origin of investigation:</u> Harsh or rough cotton having a staple of less than 3/4 inch in length was subjected to an annual absolute import quota of 70,000,000 pounds by Presidential Proclamation 2715 (12 F.R. 823; 3 C.F.R., 1943-1948 Comp., 102), of Feb. 1, 1947, after investigation under sec. 22 by the Tariff Commission. In the proclamation the President found that the imposition of this annual quota was then necessary to protect cotton programs of the Department of Agriculture. The Tariff Commission has maintained a continuous review of the situation with respect to cotton, and it appeared that the continuance of the quota restrictions on this type of cotton might no longer be necessary to carry out the purposes of sec. 22. The purpose of the 1957 supplemental investigation was to determine whether there was in fact need for continuing the quota restrictions on the short harsh cotton described above.</p> <p><u>Investigation ordered:</u> Aug. 23, 1957. <u>Hearing held:</u> Nov. 13, 1957. <u>Report sent to the President:</u> Dec. 23, 1957. <u>Recommendation of the Commission:</u> The Commission found that the circumstances requiring the import quota of 70,000,000 pounds per year on harsh or rough cotton having a staple of less than three-fourths of one inch in length, established by Presidential Proclamation 2715 of Feb. 1, 1947, no longer exist. The Commission, therefore, recommended to the President that the quota be terminated.</p> <p><u>Vote of the Commission:</u> 6-0. <u>Action of the President:</u> By Proclamation 3220 (23 F.R. 635) of Jan. 28, 1958, effective immediately, the President terminated the quota on imports of short harsh cotton, as recommended by the Commission.</p> <p><u>Reference:</u> U. S. Tariff Commission, <u>Short Harsh Cotton: Report to the President on Investigation Supplemental to Investigation No. 1 Under Section 22 1957</u> (processed).</p>

Commodity	Status
<p>Extra-long-staple cotton (supplemental investigation) (1958). (Investigation No. 1, sec. 22)</p>	<p><u>Origin of investigation:</u> Cotton having a staple of 1-1/8 inches or more in length was subjected to an annual absolute import quota of 45,656,420 pounds by Presidential Proclamation 2531 (4 F.R. 3822; 3 C.F.R., Cum. Supp., 113) of Sept. 5, 1939, effective Sept. 20, 1939, after investigation under sec. 22 by the Tariff Commission. The quota year begins on Aug. 1 of each year. The Commission was informed that the quota for the quota year ending July 31, 1958, had been filled. It was further informed that, because of unusual circumstances, a substantial part of the quota for that year was filled by cotton of a staple length which normally has not entered under this quota, with resultant hardship to importers normally entering cotton of a greater staple length, thus threatening domestic users of foreign extra-long-staple cotton with a short supply. The purpose of the 1958 supplemental investigation was to determine whether the admission of an additional quantity of cotton having a staple 1-3/8 inches or more in length during the quota year ending July 31, 1958, might be permitted without materially interfering with the cotton programs of the U. S. Department of Agriculture.</p> <p><u>Investigation ordered:</u> Jan. 29, 1958. <u>Hearing scheduled:</u> Apr. 8, 1958. <u>Investigation dismissed and hearing canceled:</u> Apr. 4, 1958.</p> <p><u>Vote of the Commission:</u> 6-0.</p> <p><u>Remarks:</u> Interested parties who had sought the modification of the existing quota regulations, to permit entry of an additional quantity of extra-long-staple cotton during the quota year ending July 31, 1958, subsequently withdrew their request. Accordingly, the Commission dismissed the supplemental investigation and canceled the scheduled hearing.</p>

<p>Long-staple cotton (supplemental investigation)(1958). (Investigation No. 1, sec. 22)</p>	<p><u>Origin of investigation:</u> Letter from the President, dated Apr. 7, 1958. The purpose of the investigation was to determine whether changed circumstances required the modification of the quota established for long-staple cotton pursuant to sec. 22. The "changed circumstances" referred to by the President in his letter of Apr. 7, 1958, "are the entry within the quota of large and increasing quantities of Mexican upland cotton having staple lengths of less than 1-3/8 inches. This results in the exclusion of substantial quantities of cotton having a staple length of 1-3/8 inches or more."</p> <p><u>Investigation ordered:</u> Apr. 8, 1958.</p> <p><u>Hearing held:</u> May 13, 1958.</p> <p><u>Report sent to the President:</u> June 20, 1958.</p> <p><u>Recommendation of the Commission:</u> The Commission found that changed circumstances required modification of the quota. The Commission, therefore, recommended to the President (Commissioners Schreiber and Sutton dissenting) that of the total quantity of 45,656,420 pounds of cotton having a staple of 1-1/8 inches or more in length that might be imported in any year beginning Aug. 1, not more than 39,590,778 pounds consist of cotton having a staple of 1-3/8 inches or more in length; that not more than 1,500,000 pounds consist of harsh or rough cotton of a type</p>

<p>Long-staple cotton (supplemental investigation) (1958)--Continued.</p>	<p>known as Tanguis cotton (having a staple of 1-5/32 inches or more but less than 1-3/8 inches in length); and that not more than 4,565,642 pounds consist of other cotton having a staple of 1-1/8 inches or more but less than 1-3/8 inches in length.</p> <p>Commissioners Schreiber and Sutton concurred in the finding of the majority of the Commission that changed circumstances required the modification of the quota on long-staple cotton, but were of the view that long-staple cotton was being and was practically certain to continue to be imported under such conditions and in such quantities as to materially interfere with the price-support program for that commodity undertaken by the Department of Agriculture. They, therefore, recommended that the overall quota be reduced to 24,000,000 pounds, which was not less than 50 percent of the imports for consumption of long-staple cotton during the representative period--the crop years 1934/35 through 1938/39. They further recommended that the reduced quota be allocated to foreign supplying countries as follows: Egypt, 18,948,000 pounds; Peru, 3,979,200 pounds, of which not more than 1,500,000 pounds should consist of harsh or rough cotton (except cotton of perished staple, grabbots, and cotton pickings), white in color and having a staple of 1-5/32 inches or more but less than 1-3/8 inches in length (Tanguis cotton), and not more than 2,479,200 pounds should consist of other cotton; Sudan, 724,800 pounds; Mexico, 309,600 pounds; British West Indies, 19,200 pounds; and all other foreign countries, 19,200 pounds.</p> <p><u>Vote of the Commission:</u> 5-0. The new proclamation provided that, of the total quantity of 45,656,420 pounds of cotton having a staple of 1-1/8 inches or more in length which might be entered, or withdrawn from warehouse, for consumption during the year beginning Aug. 1, 1958, and in any subsequent year beginning Aug. 1, not more than 39,590,778 pounds shall consist of cotton having a staple of 1-3/8 inches or more in length, and not more than 6,065,642 pounds shall consist of cotton having a staple of 1-1/8 inches or more but less than 1-3/8 inches in length: <u>Provided</u>, that of such 6,065,642 pounds, not more than 1,500,000 pounds shall consist of harsh or rough cotton (except cotton of perished staple, grabbots, and cotton pickings), white in color and having a staple of 1-5/32 inches or more in length, and not more than 4,565,642 pounds shall consist of other cotton.</p> <p><u>Reference:</u> U.S. Tariff Commission, <u>Long-Staple Cotton: Report to the President on Investigation Supplemental to Investigation No. 1 Under Section 22 . . .</u>, 1958 (processed).</p>

On Sept. 17, 1956, the Commission informed the Secretary of Agriculture that thereafter the Commission would undertake formal proceedings for the purpose of sec. 22(a) with respect to edible tree nuts only upon the receipt of instructions from the President in accordance with the provisions of sec. 22(a).</p>

(Commissioners Ryder and Edminster dissented.) <u>Action of the President:</u> On Mar. 4, 1954, the President announced that he had determined, on the basis of a study prepared by the Secretary of Agriculture, that domestic wool growers required continued price or income assistance in a more effective form than was then provided. He had, therefore, accepted the principal recommendations of the Secretary of Agriculture, and had submitted those recommendations to the Congress. (Most of these recommendations were included in the National Wool Act of 1954, which was subsequently passed by the Congress, and approved by the President on Aug. 28, 1954.) The President, in his announcement of Mar. 4, 1954, stated that, in view of the fact that enactment of the proposed program by the Congress would eliminate the necessity for an increase in import fees or other limitations on imports of wool, he was taking no action on the Commission's report. <u>Reference:</u> U. R. 7265; 3 C. F. R., 1957 Supp., 43) of Sept. 9, 1957, the President restricted imports of tung oil for the remainder of the crop year ending Oct. 31, 1957, and for the 3 crop years ending Oct. 31 of 1958, 1959, and 1960. In taking this action, the President accepted the unanimous finding of the Tariff Commission that imports were interfering with the price-support program for tung oil. However, instead of imposing the 3-cent-per-pound import fee that the Tariff Commission recommended, the President decided upon a quota restriction. The proclamation establishes annual quotas of 26 million pounds each. The period covered by the first quota, however, includes the remainder of the current crop year as well as the crop year beginning Nov. 1, 1957. In the first quota period, the proclamation provides for imports not in excess of a monthly rate of 1,154,000 pounds through January of 1958. For the second and third crop years, not more than one-fourth of the annual quotas may be imported during the first quarter of each year. Of the annual quotas of 26 million pounds, not more than 22,100,000 pounds may be imported from Argentina, not more than 2,964,000 pounds from Paraguay, and not more than 936,000 pounds from other countries.</p> <p><u>Reference:</u> U. The Commission, therefore, made no recommendation to the President for the imposition of import restrictions on dates under the provisions of sec. 22. <u>Vote of the Commission:</u> 4-1 (Commissioner Brossard dissented). <u>Action of the President:</u> On Dec. 2, 1957, the President accepted the Commission's report. <u>Reference:</u> U. <p>Tung nuts (1958)----- (Investigation No. 20, sec. 22)</p>	<p><u>Origin of investigation:</u> Letter from the President, dated Feb. 20, 1958. <u>Investigation ordered:</u> Feb. 21, 1958. <u>Hearing held:</u> Mar. 10, 1958. <u>Report sent to the President:</u> Mar. 19, 1958. <u>Recommendation of the Commission:</u> The Commission found that tung nuts are practically certain to be imported into the United States under such conditions and in such quantities as to interfere materially with the price-support program for tung oil and tung nuts undertaken by the Department of Agriculture. To prevent such interference, the Commission recommended to the President that the oil content of imported tung nuts be charged against the existing quotas applicable to imported tung oil. <u>Vote of the Commission:</u> 6-0. <u>Action of the President:</u> The President adopted the Commission's recommendation. By Proclamation 3236 (23 F. R. 2959) of Apr. 28, 1958, effective immediately, he subjected imports of tung nuts to the existing quota on imports of tung oil established by Proclamation 3200 (22 F. R. 7265; 3 C. F. R., 1957, Supp., 43) of Sept. 9, 1957. The Proclamation specified that, for its purposes, the oil content of tung nuts shall be computed on the basis of 15.9 pounds of oil for each 100 pounds of whole nuts, and on the basis of 35.8 pounds of oil for each 100 pounds of decorticated nuts. The Proclamation also made a technical adjustment which provides that only direct shipments from supplying countries may be imported under the quota on tung oil and tung nuts. <u>Reference:</u> U. S. <p>Shelled almonds and blanched, roasted, or otherwise prepared or preserved almonds (1959). (Investigation No. 21, sec. 22)</p>	<p><u>Origin of investigation:</u> Letter from the President, dated July 28, 1959. <u>Investigation ordered:</u> July 29, 1959. <u>Hearing held:</u> Aug. 25, 1959. <u>Report sent to the President:</u> Sept. 25, 1959. <u>Recommendation of the Commission:</u> The four Commissioners participating in the decision in this investigation divided equally in their findings. Commissioners Talbot and Schreiber found that shelled almonds, and blanched, roasted, or otherwise prepared or preserved almonds (not including almond paste) were practically certain to be imported into the United States during the period Oct. 1, 1959, to Sept. 30, 1960, both dates inclusive, under such conditions and in such quantities as to materially interfere with the U.S. Department of Agriculture marketing-order program with respect to almonds undertaken pursuant to the Agricultural Marketing Agreement Act of 1937, as amended. These Commissioners also found that in order to prevent such interference it would be necessary that a fee of 10 cents per pound, but not more than 50 percent ad valorem, be imposed on all such products imported during the 12-month period beginning Oct. 1, 1959, in excess of an aggregate quantity of 3 million pounds. The fee recommended was to be in addition to the regular import duties then in effect, irrespective of the quantities imported, of 16-1/2 cents per pound on shelled almonds and 18-1/2 cents per pound on blanched, roasted, or otherwise prepared or preserved almonds.</p>

To prevent such interference, the Commission recommended to the President that, for the 12-month period beginning Nov. 1, 1960, a quota of 14,000,000 pounds be imposed on tung oil and tung nuts (in terms of their oil equivalent), and that imports for the first quarter of the specific period be limited to 3,500,000 pounds. <u>Vote of the Commission:</u> 5-0. <u>Action of the President:</u> By Proclamation 3378 (25 F.R. 10449) of Oct. 27, 1960, the President extended for 3 years the existing quota on imports of tung oil and tung nuts. Under the proclamation, the annual import quota for tung oil and tung nuts continued to be 26,000,000 pounds, of which not more than 22,100,000 pounds might be the product of Argentina; not more than 2,964,000 pounds, the product of Paraguay; and not more than 936,000 pounds, the product of other foreign countries. The proclamation also specified that not more than 6,500,000 pounds of tung oil and tung nuts (in terms of their oil equivalent) might be entered or withdrawn during the first quarter of each quota year, and specified the quantities that might be the product of Argentina, Paraguay, and other foreign countries. <u>Reference:</u> U.S. Tariff Commission, <u>Tung Oil and Tung Nuts: Report to the President on Investigation No. 22-23 Under Section 22 . . . , 1960 (processed).</u></p>

Accordingly, the Commission made no recommendation for the termination of the quotas. <u>Vote of the Commission:</u> 5-0. <u>Action of the President:</u> The President did not concur in the Commission's finding. <p>Dairy products (1967). (Investigation No. 26, sec. 22)</p>	<p>Origin of investigation: Letter from the President, dated Apr. 7, 1967. Investigation ordered: Apr. 10, 1967. Hearing held: May 15-17, 1967. Report sent to the President: June 15, 1967. Recommendation of the Commission: The Commission found, <u>inter alia</u>, that American-type cheese, including Colby, washed curd, and granular cheese, and butterfat-sugar mixtures, such as Junex, were practically certain to be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, the price-support programs of the U.S. Department of Agriculture for milk and butterfat. The Commission recommended that annual import quotas on the above-mentioned products equivalent to the 1966 imports be imposed; such quotas would permit the entry each calendar year of 46 million pounds of American-type cheese (other than Cheddar, which was already subject to quota) and 107.6 million pounds of butterfat-sugar mixtures. Quotas recommended for the last 6 months of 1967 were one-half the recommended annual quotas.</p> <p>The Commission found that the existing import quota on Cheddar cheese could be modified to include the recommended quota on other American-type cheeses and that the existing quota on butter could be modified to include the butter equivalent of most of the recommended quota for butterfat-sugar mixtures without rendering or tending to render ineffective or materially interfering with the price-support programs. The Commission made no recommendation, however, with respect to the merging of these quotas.</p> <p>The Commission recommended that the quotas on dairy products be changed from a fiscal-year basis (with certain quotas being allocated three times a year) to a calendar-year basis (with certain quotas being allocated semi-annually and with unused portions of the first semi-annual allocations to carry over to the latter half of each calendar year).</p>

Dairy products (1967)-- Continued.	<p>The Commission further recommended that the proposed quotas be regulated by means of a licensing system administered by the Department of Agriculture in such a manner as to provide an equitable distribution among importers, users, and supplying countries. It recommended that the quotas be administered in accordance with the provisions of Article XIII of the General Agreement on Tariffs and Trade. Allocation of the quotas should take into account the historic pattern of shipments of products to the United States by each country and any special factors which may have affected or may be affecting the trade in these products, such as the restraint exercised by some countries in not increasing their exports of Colby cheese and butterfat-sugar mixtures to the U.S. market.</p> <p>The Commission found that process Edam and Gouda cheeses, Italian-type cheeses not in original loaves, cream, condensed or evaporated milk or cream, and chocolate crumb are not being, and were not practically certain to be, imported under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, the price-support programs.</p> <p><u>Vote of the Commission:</u> 5-0.</p> <p><u>Action of the President:</u> Presidential Proclamation 3790 of June 30, 1967 (32 F.R. 9803), imposed section 22 quantitative restrictions on: (1) Milk and cream, fluid or frozen, fresh or sour, containing over 5.5 percent but not over 45 percent by weight of butterfat; the quota, allocated entirely to New Zealand, amounted to 1.5 million gallons annually; <u>1/</u> (2) American-type cheese, including Colby, washed curd, and granular cheese (but not including Cheddar) and cheese and substitutes for cheese containing, or processed from, such American-type cheese; the quota amounted to 6,096,600 pounds annually; <u>1/</u> (3) certain</p>

The proclamation also enlarged the existing quota on Cheddar cheese, and cheese and substitutes for cheese containing, or processed from, Cheddar cheese to 10,037,500 pounds annually, <u>1/</u> of which not more than 8,812,500 pounds shall be products other than natural Cheddar cheese made from unpasteurized milk and aged not less than 9 months; no license shall be required to import such natural Cheddar cheese-- 1,225,000 pounds annually <u>1/</u>--which prior to exportation has been certified to meet such requirements by an official of a government agency of the country where the cheese was produced.
