CHAPTER 69

CERAMIC PRODUCTS

XIII
69-1

Notes

1. This chapter applies only to ceramic products which have been fired after shaping. Headings 6904 to 6914 apply only to such products other than those classifiable in headings 6901 to 6903.
2. This chapter does not cover:
 - (a) Products of heading 2844;
 - (b) Articles of heading 6804;
 - (c) Articles of chapter 71 (for example, imitation jewelry);
 - (d) Cermets of heading 8113;
 - (e) Articles of chapter 82;
 - (f) Electrical insulators (heading 8546) or fittings of insulating material (heading 8547);
 - (g) Artificial teeth (heading 9021);
 - (h) Articles of chapter 91 (for example, clocks and clock cases);
 - (ij) Articles of chapter 94 (for example, furniture, lamps and lighting fittings, prefabricated buildings);
 - (k) Articles of chapter 95 (for example, toys, games and sports equipment);
 - (l) Articles of heading 9606 (for example, buttons) or of heading 9614 (for example, smoking pipes); or
 - (m) Articles of chapter 97 (for example, works of art).

Additional U.S. Notes

1. For the purposes of this chapter, a "ceramic article" is a shaped article having a glazed or unglazed body of crystalline or substantially crystalline structure, the body of which is composed essentially of inorganic nonmetallic substances and is formed and subsequently hardened by such heat treatment that the body, if reheated to pyrometric cone 020, would not become more dense, harder, or less porous, but does not include any glass articles.
2. For the purposes of headings 6902 and 6903, the term "refractory" is applied to articles which have a pyrometric cone equivalent of at least 1500°C when heated at 60°C per hour (pyrometric cone 18). Refractory articles have special properties of strength and resistance to thermal shock and may also have, depending upon the particular uses for which designed, other special properties such as resistance to abrasion and corrosion.
3. For the purposes of heading 6902, a brick which contains both chromium and magnesium is classifiable according to which of those components (expressed as Cr₂O₃ or MgO, respectively) is the greater by weight.
4. For the purposes of headings 6905, 6907 and 6908, the term "tiles" does not include any article 3.2 cm or more in thickness.

69-2

5. For the purposes of headings 6909 through 6914:
- (a) The terms "porcelain," "china" and "chinaware" embrace ceramic ware (other than stoneware), whether or not glazed or decorated, having a fired white body (unless artificially colored) which will not absorb more than 0.5 percent of its weight of water and is translucent in thicknesses of several millimeters. The term "stoneware" as used in this note, embraces ceramic ware which contains clay as an essential ingredient, is not commonly white, will absorb not more than 3 percent of its weight of water, and is naturally opaque (except in very thin pieces) even when absorption is less than 0.1 percent.
 - (b) The term "bone chinaware" embraces chinaware or porcelain the body of which contains 25 percent or more of calcined bone or tricalcium phosphate.
 - (c) The term "earthenware" embraces ceramic ware, whether or not glazed or decorated, having a fired body which contains clay as an essential ingredient, and will absorb more than 3 percent of its weight of water.
 - (d) The water absorption of a ceramic body shall be determined by ASTM test method designated C373 (except that test specimens may have a minimum weight of 10 g, and may have one large surface glazed).
6. For the purposes of headings 6911 and 6912:
- (a) The term "available in specified sets" embraces plates, cups, saucers and other articles principally used for preparing, serving or storing food or beverages, or food or beverage ingredients, which are sold or offered for sale in the same pattern, but no article is classifiable as being "available in specified sets" unless it is of a pattern in which at least the articles listed below in (b) of this note are sold or offered for sale.
 - (b) If each of the following articles is sold or offered for sale in the same pattern, the classification hereunder in subheadings 6911.10.35, 6911.10.37, 6911.10.38, 6912.00.35 or 6912.00.39, of all articles of such pattern shall be governed by the aggregate value of the following articles in the quantities indicated, as determined by the appropriate customs officer under section 402 of the Tariff Act of 1930, as amended, whether or not such articles are imported in the same shipment:
 - 12 plates of the size nearest to 26.7 cm in maximum dimension, sold or offered for sale,
 - 12 plates of the size nearest to 15.3 cm in maximum dimension, sold or offered for sale,
 - 12 tea cups and their saucers, sold or offered for sale,
 - 12 soups of the size nearest to 17.8 cm in maximum dimension, sold or offered for sale,
 - 12 fruits of the size nearest to 12.7 cm in maximum dimension, sold or offered for sale,
 - 1 platter or chop dish of the size nearest to 38.1 cm in maximum dimension, sold or offered for sale,
 - 1 open vegetable dish or bowl of the size nearest to 25.4 cm in maximum dimension, sold or offered for sale,
 - 1 sugar of largest capacity, sold or offered for sale,
 - 1 creamer of largest capacity, sold or offered for sale.

If either soups or fruits are not sold or offered for sale, 12 cereals of the size nearest to 15.3 cm in maximum dimension, sold or offered for sale, shall be substituted therefor.
 - (c) The percentage of water absorption of cast and jiggered ceramic articles of the same pattern, which are "available in specified sets" and which are imported together in a ratio of at least 5 jiggered articles to 1 cast article in the same shipment shall be the average water absorption of such cast and jiggered articles, of the same pattern in the shipment, which average absorption shall be deemed to be equivalent to 5 percent of the water absorption of a representative sample of such cast articles plus 95 percent of the water absorption of a representative sample of such jiggered articles.
7. For the purposes of headings 6911, 6912 and 6913, those provisions which classify merchandise according to the value of each "article," an article is a single tariff entity which may consist of more than one piece. For example, a vegetable dish and its cover, or a beverage pot and its lid, imported in the same shipment, constitute an article.

Statistical Notes

1. For the purposes of headings 6904 and 6905, a "heat insulating" article, whether or not shaped, is one having a specific gravity of 1.2 or less and designed to impede or resist the flow of heat at temperatures above 870°C.
2. For the purposes of heading 6904:
 - (a) The term "solid bricks" refers to bricks containing not more than 25 percent voids.
 - (b) The term "hollow bricks" refers to bricks containing more than 25 percent voids.

CHAPTER 70

GLASS AND GLASSWARE

XIII
70-1

Notes

1. This chapter does not cover:
 - (a) Goods of heading 3207 (for example, vitrifiable enamels and glazes, glass frit, other glass in the form of powder, granules or flakes);
 - (b) Articles of chapter 71 (for example, imitation jewelry);
 - (c) Optical fiber cables of heading 8544, electrical insulators (heading 8546) or fittings of insulating material of heading 8547;
 - (d) Optical fibers, optically worked optical elements, hypodermic syringes, artificial eyes, thermometers, barometers, hydrometers or other articles of chapter 90;
 - (e) Lamps or lighting fittings, illuminated signs, illuminated name-plates or the like, having a permanently fixed light source, or parts thereof of heading 9405;
 - (f) Toys, games, sports equipment, Christmas tree ornaments or other articles of chapter 95 (excluding glass eyes without mechanisms for dolls or for other articles of chapter 95); or
 - (g) Buttons, fitted vacuum flasks, scent or similar sprays or other articles of chapter 96.
2. For the purposes of headings 7003, 7004 and 7005:
 - (a) Glass is not regarded as "worked" by reason of any process it has undergone before annealing;
 - (b) Cutting to shape does not affect the classification of glass in sheets;
 - (c) The expression "absorbent, reflecting or non-reflecting layer" means a microscopically thin coating of metal or of a chemical compound (for example, metal oxide) which absorbs, for example, infrared light; or which improves the reflecting qualities of the glass while still allowing it to retain a degree of transparency or translucency; or which prevents light from being reflected on the surface of the glass.
3. The products referred to in heading 7006 remain classified in that heading whether or not they have the character of articles.
4. For the purposes of heading 7019, the expression "glass wool" means:
 - (a) Mineral wools with a silica (SiO_2) content not less than 60 percent by weight;
 - (b) Mineral wools with a silica (SiO_2) content less than 60 percent but with an alkaline oxide (K_2O or Na_2O) content exceeding 5 percent by weight or a boric oxide (B_2O_3) content exceeding 2 percent by weight.

Mineral wools which do not comply with the above specifications fall in heading 6806.
5. Throughout the tariff schedule, the expression "glass" includes fused quartz and other fused silica.

Subheading Note

1. For the purposes of subheadings 7013.21, 7013.31 and 7013.91, the expression "lead crystal" means only glass having a minimum lead monoxide (PbO) content by weight of 24 percent.

Harmonized Tariff Schedule of the United States (2001) (Rev. 1)

70-2

Additional U.S. Notes

1. For the purposes of this chapter, the term "fused quartz or other fused silica" means glass containing more than 95 percent silica by weight.
2. For the purposes of headings 7003 through 7005, the expression "colored throughout the mass" refers to glass that has a transmittance of normally incident light of less than 66 percent at one or more wavelengths from 400 to 700 millimicrons, inclusive, or a transmittance of less than 80 percent at one or more wavelengths from 525 to 575 millimicrons, inclusive, for glass 6 mm in thickness, or of the equivalent transmittances for any other thickness, provided that, in determining such light transmittances, the effect of surface irregularities or configurations, or of other surface treatment (except flashing applied prior to solidification) and the effect of wire netting within the glass, shall be eliminated.
3. For the purposes of headings 7003 and 7004, glass of the same size and thickness imported in any shipment in quantities over 4.6 m² shall be denied entry unless it is--
 - (a) Packed in units containing, as nearly as the particular size permits, 4.6 m², or multiples thereof; or
 - (b) Packed in units containing multiples of the number of sheets of the same size and thickness which would be contained in a unit if packed to contain, as nearly as such size permits, 4.6 or 9.3 m²; or
 - (c) Otherwise packed in a manner which conforms to the packing practices of the domestic glass industry as determined and published from time to time by the Secretary of the Treasury.
4. For the purposes of heading 7005, the expression "polished," as used with reference to glass, refers to glass one or both of the surfaces of which have been made smooth and glossy, in whole or in part, by abrasive or chemical means or by floating the glass over molten metal.
5. For the purposes of subheading 7018.10.20, the term "imitation precious or semiprecious stones" means glass made into shapes suitable for use in jewelry or for other ornamental purposes in a manner similar to natural gemstones, whether or not in imitation thereof, but does not include natural gemstones, synthetic gemstones, reconstructed natural gemstones or imitation pearls.

Statistical Note

1. For the purposes of headings 7003 and 7004, in determining the surface area of cast or rolled glass having irregular surfaces (such as corrugated glass), superficial area shall be used.

5. For the purposes of this chapter, any alloy (including a sintered mixture and an inter-metallic compound) containing precious metal is to be treated as an alloy of precious metal if any one precious metal constitutes as much as 2 percent, by weight, of the alloy. Alloys of precious metal are to be classified according to the following rules:

 - (c) Other alloys containing 2 percent or more, by weight, of silver are to be treated as alloys of silver.
6. Except where the context otherwise requires, any reference in the tariff schedule to precious metal or to any particular precious metal includes a reference to alloys treated as alloys of precious metal or of the particular metal in accordance with the rules in note 5 above, but not to metal clad with precious metal or to base metal or non-metals plated with precious metal.
7. Throughout the tariff schedule the expression "metal clad with precious metal" means material made with a base of metal upon one or more surfaces of which there is affixed by soldering, brazing, welding, hot-rolling or similar mechanical means a covering of precious metal. In chapters 73 to 76 and 78 to 82 (but not in heading 7315) references to parts of goods do not include references to parts of general use as defined above.

Subject to the preceding paragraph and to note 1 to chapter 83, the articles of chapter 82 or 83 are excluded from chapters 72 to 76 and 78 to 81.
3. Throughout the schedule, the expression "base metals" means: iron and steel, copper, nickel, aluminum, lead, zinc, tin, tungsten (wolfram), molybdenum, tantalum, magnesium, cobalt, bismuth, cadmium, titanium, zirconium, antimony, manganese, beryllium, chromium, germanium, vanadium, gallium, hafnium, indium, niobium (columbium), rhenium and thallium.

5. Classification of alloys (other than ferroalloys and master alloys as defined in chapters 72 and 74):
 - (a) An alloy of base metals is to be classified as an alloy of the metal which predominates by weight over each of the other metals.

Harmonized Tariff Schedule of the United States (2001) (Rev. 1)

Annotated for Statistical Reporting Purposes

XV-2

6. Unless the context otherwise requires, any reference in the tariff schedule to a base metal includes a reference to alloys which, by virtue of note 5 above, are to be classified as alloys of that metal.

7. Classification of composite articles:

Except where the headings otherwise require, articles of base metal (including articles of mixed materials treated as articles of base metal under the General Rules of Interpretation) containing two or more base metals are to be treated as articles of the base metal predominating by weight over each of the other metals. For this purpose:

- (a) Iron and steel, or different kinds of iron or steel, are regarded as one and the same metal;
- (b) An alloy is regarded as being entirely composed of that metal as an alloy of which, by virtue of note 5, it is classified; and
- (c) A cermet of heading 8113 is regarded as a single base metal.

8. In this section, the following expressions have the meanings hereby assigned to them:

(a) Waste and scrap

Metal waste and scrap from the manufacture or mechanical working of metals, and metal goods definitely not usable as such because of breakage, cutting-up, wear or other reasons.

(b) Powders

Products of which 90 percent or more by weight passes through a sieve having a mesh aperture of 1 mm.

Additional U.S. Note

1. For the purposes of this section, the term "unwrought" refers to metal, whether or not refined, in the form of ingots, blocks, lumps, billets, cakes, slabs, pigs, cathodes, anodes, briquettes, cubes, sticks, grains, sponge, pellets, flattened pellets, rounds, rondelles, shot and similar manufactured primary forms, but does not cover rolled, forged, drawn or extruded products, tubular products or cast or sintered forms which have been machined or processed otherwise than by simple trimming, scalping or descaling.

Harmonized Tariff Schedule of the United States (2001) (Rev. 1)

Annotated for Statistical Reporting Purposes

XV
72-3

(k) Flat-rolled products

Rolled products of solid rectangular (other than square) cross section, which do not conform to the definition at (ij) above in the form of:

- coils of successively superimposed layers, or
- straight lengths, which if of a thickness less than 4.75 mm are of a width measuring at least 10 times the thickness or if of a thickness of 4.75 mm or more are of a width which exceeds 150 mm and measures at least twice the thickness.

Flat-rolled products include those with patterns in relief derived directly from rolling (for example, grooves, ribs, checkers, tears, buttons, lozenges) and those which have been perforated, corrugated or polished, provided that they do not thereby assume the character of articles or products of other headings.

Flat-rolled products of a shape other than rectangular or square, of any size, are to be classified as products of a width of 600 mm or more, provided that they do not assume the character of articles or products of other headings.

Hot-rolled products in irregularly wound coils, which have a solid cross section in the shape of circles, segments of circles, ovals, rectangles (including squares), triangles or other convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). These products may have indentations, ribs, grooves or other deformations produced during the rolling process (reinforcing bars and rods).

(m) Other bars and rods

Products which do not conform to any of the definitions at (ij), (k) or (l) above or to the definition of wire, which have a uniform solid cross section along their whole length in the shape of circles, segments of circles, ovals, rectangles (including squares), triangles or other convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). These products may:

- have indentations, ribs, grooves or other deformations produced during the rolling process (reinforcing bars and rods);
- be twisted after rolling.

(n) Angles, shapes and sections

Products having a uniform solid cross section along their whole length which do not conform to any of the definitions at (ij), (k), (l) or (m) above or to the definition of wire.

Chapter 72 does not include products of heading 7301 or 7302.

(p) Hollow drill bars and rods

Hollow bars and rods of any cross section, suitable for drills, of which the greatest external dimension of the cross section exceeds 15 mm but does not exceed 52 mm, and of which the greatest internal dimension does not exceed one half of the greatest external dimension. Hollow bars and rods of iron or steel not conforming to this definition are to be classified in heading 7304.

2. Ferrous metals clad with another ferrous metal are to be classified as products of the ferrous metal predominating by weight.
3. Iron or steel products obtained by electrolytic deposition, by pressure casting or by sintering are to be classified according to their form, their composition and their appearance, in the headings of this chapter appropriate to similar hot-rolled products.

(c) Silicon electrical steel

Alloy steels containing by weight at least 0.6 percent but not more than 6 percent of silicon and not more than 0.08 percent of carbon. They may also contain by weight not more than 1 percent of aluminum but no other element in a proportion that would give the steel the characteristics of another alloy steel.

(d) High-speed steel

Alloy steels containing, with or without other elements, at least two of the three elements molybdenum, tungsten and vanadium with a combined content by weight of 7 percent or more, 0.6 percent or more of carbon and 3 to 6 percent of chromium.

(e) Silico-manganese steel

- not more than 0.7 percent of carbon,
- 0.5 percent or more but not more than 1.9 percent of manganese, and
- 0.6 percent or more but not more than 2.3 percent of silicon, but no other element in a proportion that would give the steel the characteristics of another alloy steel.

2. For the classification of ferroalloys in the subheadings of heading 7202 the following rule should be observed:

A ferroalloy is considered as binary and classified under the relevant subheading (if it exists) if only one of the alloy elements exceeds the minimum percentage laid down in chapter note 1(c); by analogy, it is considered respectively as ternary or quaternary if two or three alloy elements exceed the minimum percentage.

For the application of this rule, the unspecified "other elements" referred to in chapter note 1(c) must each exceed 10 percent by weight.

CHAPTER 73

ARTICLES OF IRON OR STEEL

XV
73-1

Notes

1. In this chapter the expression "cast iron" applies to products obtained by casting in which iron predominates by weight over each of the other elements and which do not comply with the chemical composition of steel as defined in Note 1(d) to chapter 72.
2. In this chapter the word "wire" means hot- or cold-formed products of any cross-sectional shape, of which no cross-sectional dimension exceeds 16 mm.

Additional U.S. Notes

1. For the purposes of heading 7304 or 7306, the rate of duty "Free (C)" appearing in the "Special" subcolumn applies only to tubes and pipes with attached fittings, suitable for conducting gases or liquids.
2. For the purposes of subheading 7307.19.30, the expression "ductile fittings" refers to fittings which contain over 2.5 percent carbon and over 0.02 percent of magnesium or of magnesium and cerium, by weight.

CHAPTER 74

COPPER AND ARTICLES THEREOF

XV
74-1

Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Refined copper

Metal containing at least 99.85 percent by weight of copper; or

Metal containing at least 97.5 percent by weight of copper, provided that the content by weight of any other element does not exceed the limit specified in the following table:

TABLE - Other elements

Element	Limiting content percent by weight	
Ag	Silver	0.25
As	Arsenic	0.5
Cd	Cadmium	1.3
Cr	Chromium	1.4
Mg	Magnesium	0.8
Pb	Lead	1.5
S	Sulfur	0.7
Sn	Tin	0.8
Te	Tellurium	0.8
Zn	Zinc	1
Zr	Zirconium	0.3
Other elements*, each		0.3

* Other elements are, for example, Al, Be, Co, Fe, Mn, Ni, Si.

(b) Copper alloys

Metallic substances other than unrefined copper in which copper predominates by weight over each of the other elements, provided that:

- (i) The content by weight of at least one of the other elements is greater than the limit specified in the foregoing table; or
- (ii) The total content by weight of such other elements exceeds 2.5 percent.

(c) Master alloys

Alloys containing with other elements more than 10 percent by weight of copper, not usefully malleable and commonly used as an additive in the manufacture of other alloys or as deoxidants, desulfurizing agents or for similar uses in the metallurgy of nonferrous metals. However, copper phosphide (phosphor copper) containing more than 15 percent by weight of phosphorus falls in heading 2848.

XV
74-2

(d) Bars and rods

Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width. The expression also covers cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

Wire bars and billets with their ends tapered or otherwise worked simply to facilitate their entry into machines for converting them into, for example, drawing stock (wire rod) or tubes, are, however, to be taken to be unwrought copper of heading 7403.

(e) Profiles

Rolled, extruded, drawn, forged or formed products, coiled or not, of a uniform cross section along their whole length, which do not conform to any of the definitions of bars, rods, wire, plates, sheets, strip, foil, tubes or pipes. The expression also covers cast or sintered products, of the same forms, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(f) Wire

Rolled, extruded or drawn products, in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width.

In the case of heading 7414, however, the term "wire" applies only to products, whether or not in coils, of any cross-sectional shape, of which no cross-sectional dimension exceeds 6 mm.

(g) Plates, sheets, strip and foil

Flat-surfaced products (other than the unwrought products of heading 7403), coiled or not, of solid rectangular (other than square) cross section with or without rounded corners (including "modified rectangles" of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel) of a uniform thickness, which are:

- of rectangular (including square) shape with a thickness not exceeding one-tenth of the width,
- of a shape other than rectangular or square, of any size, provided that they do not assume the character of articles or products of other headings.

Headings 7409 and 7410 apply, *inter alia*, to plates, sheets, strip and foil with patterns (for example, grooves, ribs, checkers, tears, buttons, lozenges) and to such products which have been perforated, corrugated, polished or coated, provided that they do not thereby assume the character of articles or products of other headings.

(h) Tubes and pipes

Hollow products, coiled or not, which have a uniform cross section with only one enclosed void along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons, and which have a uniform wall thickness. Products with a rectangular (including square), equilateral triangular or regular convex polygonal cross section, which may have corners rounded along their whole length, are also to be taken to be tubes and pipes provided the inner and outer cross sections are concentric and have the same form and orientation. Tubes and pipes of the foregoing cross sections may be polished, coated, bent, threaded, drilled, waisted, expanded, cone-shaped or fitted with flanges, collars or rings.

Subheading Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Copper-zinc base alloys (brasses)

Alloys of copper and zinc, with or without other elements. When other elements are present:

- zinc predominates by weight over each of such other elements;
- any nickel content by weight is less than 5 percent (see copper-nickel-zinc alloys (nickel silvers)); and
- any tin content by weight is less than 3 percent (see copper-tin alloys (bronzes)).

(b) Copper-tin base alloys (bronzes)

Alloys of copper and tin, with or without other elements. When other elements are present, tin predominates by weight over each of such other elements, except that when the tin content is 3 percent or more the zinc content by weight may exceed that of tin but must be less than 10 percent.

(c) Copper-nickel-zinc base alloys (nickel silvers)

Alloys of copper, nickel and zinc, with or without other elements. The nickel content is 5 percent or more by weight (see copper-zinc alloys (brasses)).

(d) Copper-nickel base alloys

Alloys of copper and nickel, with or without other elements but in any case containing by weight not more than 1 percent of zinc. When other elements are present, nickel predominates by weight over each of such other elements.

Additional U.S. Note

1. The deduction provided for in additional U.S. note 1 to chapter 26 shall apply to cement copper and copper precipitates of subheading 7401.20.

Statistical Note

1. For the purposes of this chapter, the term "beryllium copper master alloy" refers to master alloys which contain by weight at least 3 percent but not more than 10 percent beryllium.

NICKEL AND ARTICLES THEREOF

XV
75-1

Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Bars and rods

Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width. The expression also covers cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(b) Profiles

Rolled, extruded, drawn, forged or formed products, coiled or not, of a uniform cross section along their whole length, which do not conform to any of the definitions of bars, rods, wire, plates, sheets, strip, foil, tubes or pipes. The expression also covers cast or sintered products, of the same forms, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(c) Wire

Rolled, extruded or drawn products, in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width.

(d) Plates, sheets, strip and foil

Flat-surfaced products (other than the unwrought products of heading 7502), coiled or not, of solid rectangular (other than square) cross section with or without rounded corners (including "modified rectangles" of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel) of a uniform thickness, which are:

- of rectangular (including square) shape with a thickness not exceeding one-tenth of the width,
- of a shape other than rectangular or square, of any size, provided that they do not assume the character of articles or of products of other headings.

Heading 7506 applies, *inter alia*, to plates, sheets, strip and foil with patterns (for example, grooves, ribs, checkers, tears, buttons, lozenges) and to such products which have been perforated, corrugated, polished or coated, provided that they do not thereby assume the character of articles or of products of other headings.

(e) Tubes and pipes

Hollow products, coiled or not, which have a uniform cross section with only one enclosed void along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons, and which have a uniform wall thickness. Products with a rectangular (including square), equilateral triangular or regular convex polygonal cross section, which may have corners rounded along their whole length, are also to be taken to be tubes and pipes provided the inner and outer cross sections are concentric and have the same form and orientation. Tubes and pipes of the foregoing cross sections may be polished, coated, bent, threaded, drilled, waisted, expanded, cone-shaped or fitted with flanges, collars or rings.

Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Bars and rods

Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width. The expression also covers cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(b) Profiles

Rolled, extruded, drawn, forged or formed products, coiled or not, of a uniform cross section along their whole length, which do not conform to any of the definitions of bars, rods, wire, plates, sheets, strip, foil, tubes or pipes. The expression also covers cast or sintered products, of the same forms, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(c) Wire

Rolled, extruded or drawn products, in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width.

(d) Plates, sheets, strip and foil

Flat-surfaced products (other than the unwrought products of heading 7601), coiled or not, of solid rectangular (other than square) cross section with or without rounded corners (including "modified rectangles" of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel) of a uniform thickness, which are:

- of rectangular (including square) shape with a thickness not exceeding one-tenth of the width,
- of a shape other than rectangular or square, of any size, provided that they do not assume the character of articles or products of other headings.

Headings 7606 and 7607 apply, *inter alia*, to plates, sheets, strip and foil with patterns (for example, grooves, ribs, checkers, tears, buttons, lozenges) and to such products which have been perforated, corrugated, polished or coated, provided that they do not thereby assume the character of articles or products of other headings.

(e) Tubes and pipes

Hollow products, coiled or not, which have a uniform cross section with only one enclosed void along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons, and which have a uniform wall thickness. Products with a rectangular (including square), equilateral triangular or regular convex polygonal cross section, which may have corners rounded along their whole length, are also to be considered as tubes and pipes provided the inner and outer cross sections are concentric and have the same form and orientation. Tubes and pipes of the foregoing cross sections may be polished, coated, bent, threaded, drilled, waisted, expanded, cone-shaped or fitted with flanges, collars or rings.

Subheading Notes

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Aluminum, not alloyed

Metal containing by weight at least 99 percent of aluminum, provided that the content by weight of any other element does not exceed the limit specified in the following table:

TABLE - Other elements

Element	Limiting content percent by weight
Fe + Si (iron plus silicon)	1
Other elements ⁽¹⁾ , each	0.1 ⁽²⁾

⁽¹⁾ Other elements are, for example, Cr, Cu, Mg, Mn, Ni, Zn.

⁽²⁾ Copper is permitted in a proportion greater than 0.1 percent but not more than 0.2 percent, provided that neither the chromium nor manganese content exceeds 0.05 percent.

(b) Aluminum alloys

Metallic substances in which aluminum predominates by weight over each of the other elements, provided that:

(i) The content by weight of at least one of the other elements or of iron plus silicon taken together is greater than the limit specified in the foregoing table; or

(ii) The total content by weight of such other elements exceeds 1 percent.

2. Notwithstanding the provisions of chapter note 1(c), for the purposes of subheading 7616.91 the term "wire" applies only to products, whether or not in coils, of any cross-sectional shape, of which no cross-sectional dimension exceeds 6 mm.

Additional U.S. Note

1. For the purposes of heading 7608, the rate of duty "Free (C)" appearing in the "Special" subcolumn applies only to tubes and pipes with attached fittings, suitable for conducting gases or liquids.

Statistical Notes

1. For the purposes of this chapter, the term "aluminum vanadium master alloy" refers to aluminum alloys which contain by weight 20 percent or more of vanadium.

2. For the purposes of this chapter, the term "aluminum can stock" refers to sheets and strip in coils, of alloys of aluminum in which either manganese or magnesium is the predominant alloying element, not painted, over 0.175 mm but not over 0.432 mm in thickness, and over 254 mm in width, comprising "body stock" and "lid stock" as specified below:

(a) The term "body stock" refers to aluminum can stock having manganese as the predominant alloying element and having a minimum tensile strength of 262 MPa; and

(b) The term "lid stock" refers to aluminum can stock having magnesium as the predominant alloying element and having a minimum tensile strength of 345 MPa.

CHAPTER 78

LEAD AND ARTICLES THEREOF

XV
78-1

Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Bar and rods

Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width. The expression also covers cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(b) Profiles

Rolled, extruded, drawn, forged or formed products, coiled or not, of a uniform cross section along their whole length, which do not conform to any of the definitions of bars, rods, wire, plates, sheets, strip, foil, tubes or pipes. The expression also covers cast or sintered products, of the same forms, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(c) Wire

Rolled, extruded or drawn products, in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width.

(d) Plates, sheets, strip and foil

Flat-surfaced products (other than the unwrought products of heading 7801), coiled or not, of solid rectangular (other than square) cross section with or without rounded corners (including "modified rectangles" of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel) of a uniform thickness, which are:

- of rectangular (including square) shape with a thickness not exceeding one-tenth of the width,
- of a shape other than rectangular or square, of any size, provided that they do not assume the character of articles or products of other headings.

Heading 7804 applies, *inter alia*, to plates, sheets, strip and foil with patterns (for example, grooves, ribs, checkers, tears, buttons, lozenges) and to such products which have been perforated, corrugated, polished or coated, provided that they do not thereby assume the character of articles or products of other headings.

(e) Tubes and pipes

Hollow products, coiled or not, which have a uniform cross section with only one enclosed void along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons, and which have a uniform wall thickness. Products with a rectangular (including square), equilateral triangular or regular convex polygonal cross section, which may have corners rounded along their whole length, are also to be considered as tubes and pipes provided the inner and outer cross sections are concentric and have the same form and orientation. Tubes and pipes of the foregoing cross sections may be polished, coated, bent, threaded, drilled, waisted, expanded, cone-shaped or fitted with flanges, collars or rings.

TABLE - Other elements

Element	Limiting content percent by weight
Ag Silver	0.02
As Arsenic	0.005
Bi Bismuth	0.05
Ca Calcium	0.002
Cd Cadmium	0.002
Cu Copper	0.08
Fe Iron	0.002
S Sulfur	0.002
Sb Antimony	0.005
Sn Tin	0.005
Zn Zinc	0.002
Other (for example Te), each	0.001

Statistical Note

1. For the purposes of this chapter, "alloys of lead" are metals in which the lead content is, by weight, less than 99 percent, but not less than any other metallic element.

CHAPTER 82

TOOLS, IMPLEMENTS, CUTLERY, SPOONS AND FORKS, OF BASE METAL; PARTS THEREOF OF BASE METAL

XV
82-1

Notes

1. Apart from blow torches and similar self-contained torches, portable forges, grinding wheels with frameworks, manicure or pedicure sets, and goods of heading 8209, this chapter covers only articles with a blade, working edge, working surface or other working part of:
 - (a) Base metal;
 - (b) Metal carbides or cermets;
 - (c) Precious or semiprecious stones (natural, synthetic or reconstructed) on a support of base metal, metal carbide or cermet; or
 - (d) Abrasive materials on a support of base metal, provided that the articles have cutting teeth, flutes, grooves or the like, of base metal, which retain their identity and function after the application of the abrasive.
2. Parts of base metal of the articles of this chapter are to be classified with the articles of which they are parts, except parts separately specified as such and toolholders for handtools (heading 8466). However, parts of general use as defined in note 2 to section XV are in all cases excluded from this chapter.

Heads, blades and cutting plates for electric shavers and electric hair clippers are to be classified in heading 8510.
3. Sets consisting of one or more knives of heading 8211 and at least an equal number of articles of heading 8215 are to be classified in heading 8215.

Additional U.S. Notes

1. The provisions in this chapter which specifically refer to kitchen or tableware include articles of types which are used outdoors as well as those which are used indoors.
2. In determining the length of files and rasps (heading 8203), the tang (if any) should not be included.
3. For the purposes of determining the rate of duty applicable to sets provided for in heading 8205, 8211 or 8215, a specific rate of duty or a compound rate of duty for any article in the set shall be converted to its ad valorem equivalent rate, i.e., the ad valorem rate which, when applied to the full value of the article determined in accordance with section 402 of the Tariff Act of 1930, as amended, would provide the same amount of duties as the specific or compound rate.

Statistical Notes

1. For the purposes of statistical reporting of sets in heading 8205, 8206, 8211 or 8215, the number of pieces reported shall be the total number of separate pieces in the set(s).
2. For the purposes of subheading 8211.92, the term "sheath-type knives" refers to fixed-blade knives contained in a substantial holster, i.e., "sheath" and of a kind used in hunting and fishing.

Notes (con.)

4. Where a machine (including a combination of machines) consists of individual components (whether separate or interconnected by piping, by transmission devices, by electric cables or by other devices) intended to contribute together to a clearly defined function covered by one of the headings in chapter 84 or chapter 85, then the whole falls to be classified in the heading appropriate to that function.
5. For the purposes of these notes, the expression "machine" means any machine, machinery, plant, equipment, apparatus or appliance cited in the headings of chapter 84 or 85.

Additional U.S. Note

1. For the purposes of this section, the term "printed circuit assembly" means goods consisting of one or more printed circuits of heading 8534 with one or more active elements assembled thereon, with or without passive elements. For the purposes of this note, "active elements" means diodes, transistors and similar semiconductor devices, whether or not photosensitive, of heading 8541, and integrated circuits and microassemblies of heading 8542.

Statistical Note

1. Provisions for semiconductor manufacturing and testing machines and apparatus cover products for the growth and processing of semiconductor materials, such as silicon and gallium arsenide, the processing of such materials into semiconductor devices and the testing of such devices (in general the testing equipment, as well as some of the processing equipment, is classified in chapter 90). More specifically the goods include the following:
 - (a) Wafer manufacturing equipment:
 - (i) Crystal growers & pullers. - used to produce extremely pure monocrystalline semiconductor boules from which wafers can be sliced. Most common methods employed in these crystal growers and pullers are the Czochralski and float zone methods.
 - (ii) Wafer preparation equipment:
 - (A) Crystal grinders - used to grind the crystal boule to precise diameter required for wafers and to grind the flats on the boule to indicate the conductivity type and resistivity of the crystal.
 - (B) Wafer slicing saws - used to slice wafers from a boule of monocrystalline semiconductor material.
 - (C) Wafer grinders, lappers and polishers - used to prepare the semiconductor wafer for the fabrication process. This involves bringing the wafer within dimensional tolerances. Especially critical is the flatness of its surface.
 - (b) Mask fabrication and repair equipment -
 - (i) Fabrication equipment - used to transfer design patterns to a mask or reticle, this equipment generally utilizes optical, electron beam or X-rays to write circuit patterns on photoresist coated substrates. After development, these substrates become the mask or reticle for wafer fabrication.
 - (ii) Repair equipment - this equipment generally utilizes focused ion beams or laser beams. They are used directly on the mask or reticle to remove chrome.
 - (c) Wafer fabrication equipment:
 - (i) Film formation equipment - used to apply or produce various films on the surface of the wafer during the fabrication process. These films serve as conductors, insulators and semiconductors on the finished device. They may include oxides and nitrides of the substrate surface, metals, and epitaxial layers. The processes and equipments listed below are not necessarily limited to the generation of a particular type of film.
 - (A) Oxidation furnaces - used to form a "film" of oxide on the wafer. The oxide is formed by the chemical reaction of the top molecular layers of the wafer with the applied oxygen or steam under heat.
 - (B) Chemical Vapor Deposition (CVD) equipment - used to deposit various types of films which are obtained by combining the appropriate gases in a reactant chamber at elevated temperatures. This constitutes a thermochemical vapor-phase reaction. Operations may take place at atmospheric or low pressure (LPCVD) and may use plasma enhancement (PECVD).

Statistical Note (con.)

- (C) Physical Vapor Deposition (PVD) equipment - used to deposit various types of films which are obtained by vaporizing a solid.
 - (1) Evaporation equipment - in which the film is generated by heating the source material.
 - (2) Sputtering equipment - in which the film is generated by bombarding the source material (target) with ions.
- (D) Molecular Beam Epitaxy (MBE) equipment - used to grow epitaxial layers on a heated monocrystalline substrate in an ultrahigh vacuum using beams of molecules. The process is similar to PVD.
- (ii) Doping equipment - which is used to introduce dopants into the wafer surface in order to modify the conductivity or other characteristics of a semiconductor layer:
 - (A) Thermal diffusion equipment - in which the dopants introduced into the surface of the wafer by the application of gases under high temperatures.
 - (B) Ion Implantation - in which the dopants are "driven" into the crystal lattice structure of the surface of the wafer in the form a beam of accelerated ions.
 - (C) Annealing furnaces - which are used to repair the crystal lattice structures of the wafer damaged by ion implantation.
- (iii) Etching and stripping equipment - used for etching or cleaning surfaces of the wafers.
 - (A) Wet etching equipment - in which chemical etching materials are applied by spraying or immersion. Spray etchers provide more uniform results than bath etchers, since they perform the operation on one wafer at a time.
 - (B) Dry plasma etching - in which etching materials are presented as gases within a plasma energy field, providing an anisotropic etch profile.
 - (C) Ion beam milling equipment - in which ionized gas atoms are accelerated toward the wafer surface. The impact results in the top layer being physically removed from the surface.
 - (D) Strippers or ashers - using techniques similar to etching this apparatus removes the spent photoresist from the surface of the wafer after it has served its purpose as a "stencil". This equipment is also used for removal of nitrides, oxides, and polysilicon, with an isotropic etch profile.
- (iv) Lithography equipment - used to transfer the circuit designs to the photoresist coated surface of the semiconductor wafer.
 - (A) Equipment for coating wafers with photoresist - these include the photoresist spinners which are used to apply liquid photoresist evenly over the surface of the wafer.
 - (B) Equipment for exposing the photoresist coated wafer with the circuit design (or a part thereof):
 - (1) Using a mask or reticle and exposing the photoresist to light (generally ultraviolet) or, in some instances, X-rays:
 - (a) Contact printers - where the mask or reticle is in contact with the wafer during exposure.
 - (b) Proximity aligners - similar to contact aligners except actual contact doesn't take place between the mask or reticle and the wafer.
 - (c) Scanning aligners - which use projection techniques to expose a continuously moving slit across the mask and wafer.
 - (d) Step and repeat aligners - which use projection techniques to expose the wafer a portion at a time. Exposure can be by reduction from the mask to the wafer or 1:1. Enhancements include the use of an excimer laser.
 - (2) Direct write on wafer equipment - these apparatus operate with no mask or reticle. They use a computer controlled "writing beam" (such as, an electron beam (E-beam), ion beam or laser) to "draw" the circuit design directly on the photoresist coated wafer.
 - (C) Equipment for developing exposed wafers - these include chemical baths similar to those used in photographic laboratory applications

Statistical Note (con.)

(d) Assembly equipment

- (i) Dicing equipment - these include sawing machines and scribing machines (including laser scribes) and dicing accessories such as wafer breaking equipment.
- (ii) Die bonding equipment - which installs the die to the package by soldering or gluing
- (iii) Wire bonding equipment - used for attaching thin wires or tapes (usually of gold, aluminum or copper) from the die bonding pads to the corresponding pads on the package.
- (iv) Packaging equipment - which are used to encapsulate or package a semiconductor device. They include sealing furnaces, lid welders, plastic encapsulation presses, lead trim and form equipment, package deflashers, and tin dip and solder plate equipment.

(e) Testing and inspection equipment

- (i) Optical inspection equipment - These include equipment that "examines" portions of the wafer surface and compares them either to a standard pattern or to other portions of the wafer surface.
- (ii) Electrical testing equipment - These include computer controlled systems that test the functions and electrical specifications of semiconductor devices through the application and detection of electrical signals or patterns. Testing is performed on both unencapsulated dice and packaged integrated circuits.

Notes (con.)

5. (A) For purposes of heading 8471, the expression "automatic data processing machines" means:
- (a) Digital machines, capable of (1) storing the processing program or programs and at least the data immediately necessary for execution of the program; (2) being freely programmed in accordance with the requirements of the user; (3) performing arithmetical computations specified by the user; and, (4) executing, without human intervention, a processing program which requires them to modify their execution, by logical decision during the processing run;
 - (b) Analog machines capable of simulating mathematical models and comprising at least: analog elements, control elements and programming elements;
 - (c) Hybrid machines consisting of either a digital machine with analog elements or an analog machine with digital elements.
- (B) Automatic data processing machines may be in the form of systems consisting of a variable number of separate units. Subject to paragraph (E) below, a unit is to be regarded as being a part of a complete system if it meets all the following conditions:
- (a) It is of a kind solely or principally used in an automatic data processing system;
 - (b) It is connectable to the central processing unit either directly or through one or more other units; and
 - (c) It is able to accept or deliver data in a form (codes or signals) which can be used by the system.
- (C) Separately presented units of an automatic data processing machine are to be classified in heading 8471.
- (D) Printers, keyboards, X-Y coordinate input devices and disk storage units which satisfy the conditions of paragraphs (B)(b) and (B)(c) above, are in all cases to be classified as units of heading 8471.
- (E) Machines performing a specific function other than data processing and incorporating or working in conjunction with an automatic data processing machine are to be classified in the headings appropriate to their respective functions or, failing that, in residual headings.
6. Heading 8482 applies, inter alia, to polished steel balls, the maximum and minimum diameters of which do not differ from the nominal diameter by more than 1 percent or by more than 0.05 mm, whichever is less. Other steel balls are to be classified under heading 7326.
7. A machine which is used for more than one purpose is, for the purposes of classification, to be treated as if its principal purpose were its sole purpose.
- Subject to note 2 to this chapter and note 3 to section XVI, a machine the principal purpose of which is not described in any heading or for which no one purpose is the principal purpose is, unless the context otherwise requires, to be classified in heading 8479. Heading 8479 also covers machines for making rope or cable (for example, stranding, twisting or cabling machines) from metal wire, textile yarn or any other material or from a combination of such materials.
8. For the purposes of heading 8470, the term "pocket-size" applies only to machines the dimensions of which do not exceed 170 mm x 100 mm x 45 mm.

CHAPTER 85

ELECTRICAL MACHINERY AND EQUIPMENT AND PARTS THEREOF; SOUND RECORDERS AND REPRODUCERS, TELEVISION IMAGE AND SOUND RECORDERS AND REPRODUCERS, AND PARTS AND ACCESSORIES OF SUCH ARTICLES

XVI
85-1

Notes

1. This chapter does not cover:
 - (a) Electrically warmed blankets, bed pads, foot-muffs or the like; electrically warmed clothing, footwear or ear pads or other electrically warmed articles worn on or about the person;
 - (b) Articles of glass of heading 7011; or
 - (c) Electrically heated furniture of chapter 94.
2. Headings 8501 to 8504 do not apply to goods described in heading 8511, 8512, 8540, 8541 or 8542.
However, metal tank mercury arc rectifiers remain classified in heading 8504.
3. Heading 8509 covers only the following electromechanical machines of the kind commonly used for domestic purposes:
 - (a) Vacuum cleaners, floor polishers, food grinders, processors or mixers, and fruit or vegetable juice extractors, of any weight;
 - (b) Other machines provided the weight of such machines does not exceed 20 kg, exclusive of extra interchangeable parts or detachable auxiliary devices.

The heading does not, however, apply to fans or ventilating or recycling hoods incorporating a fan, whether or not fitted with filters (heading 8414), centrifugal clothes dryers (heading 8421), dishwashing machines (heading 8422), household washing machines (heading 8450), roller or other ironing machines (heading 8420 or 8451), sewing machines (heading 8452), electric scissors (heading 8508) or to electrothermic appliances (heading 8516).
4. For the purposes of heading 8534 "printed circuits" are circuits obtained by forming on an insulating base, by any printing process (for example, embossing, plating-up, etching) or by the "film circuit" technique, conductor elements, contacts or other printed components (for example, inductances, resistors, capacitors) alone or interconnected according to a pre-established pattern, other than elements which can produce, rectify, modulate or amplify an electrical signal (for example, semiconductor elements).

The term "printed circuits" does not cover circuits combined with elements other than those obtained during the printing process, nor does it cover individual, discrete resistors, capacitors or inductances. Printed circuits may, however, be fitted with non-printed connecting elements.

Thin- or thick-film circuits comprising passive and active elements obtained during the same technological process are to be classified in heading 8542.
5. For the purposes of headings 8541 and 8542:
 - (a) "Diodes, transistors and similar semiconductor devices" are semiconductor devices the operation of which depends on variations in resistivity on the application of an electric field;
 - (b) "Electronic integrated circuits and microassemblies" are:
 - (i) Monolithic integrated circuits in which the circuit elements (diodes, transistors, resistors, capacitors, interconnections, etc.) are created in the mass (essentially) and on the surface of a semiconductor material (doped silicon, for example) and are inseparably associated;
 - (ii) Hybrid integrated circuits in which passive elements (resistors, capacitors, interconnections, etc.) obtained by thin- or thick-film technology and active elements (diodes, transistors, monolithic integrated circuits, etc.) obtained by semiconductor technology, are combined to all intents and purposes indivisibly, on a single insulating substrate (glass, ceramic, etc.). These circuits may also include discrete components;
 - (iii) Microassemblies of the molded module, micromodule or similar types, consisting of discrete, active or both active and passive, components which are combined and interconnected.

For the classification of the articles defined in this note, headings 8541 and 8542 shall take precedence over any other heading in the tariff schedule which might cover them by reference to, in particular, their function.

Notes (con.)

6. Records, tapes and other media of heading 8523 or 8524 remain classified in those headings, whether or not they are entered with the apparatus for which they are intended.
7. For the purposes of heading 8548, "spent primary cells, spent primary batteries and spent electric storage batteries" are those which are neither usable as such because of breakage, cutting up, wear or other reasons, nor capable of being recharged.

Subheading Note

1. Subheadings 8519.92 and 8527.12 cover only cassette players with built-in amplifier, without built-in loudspeaker, capable of operating without an external source of electric power and the dimensions of which do not exceed 170 mm x 100 mm x 45 mm.

Additional U.S. Notes

1. For the purposes of headings 8501 and 8503, 746 watts (W) is taken to be equivalent to 1 horsepower (hp).
2. For the purposes of subheading 8516.72, the term "toasters" includes toaster-ovens which are designed essentially for toasting bread but can also bake small items, such as potatoes.

2. For statistical reporting purposes under subheading 8539.10, the size of a sealed beam lamp unit is determined by measuring the largest diagonal dimension across the faceplate.
3. For statistical reporting purposes under subheading 8544.70, the unit of quantity "fiber m", as it pertains to optical fiber cables, is determined by multiplying the number of individual fibers contained therein by the length in meters.
4. For statistical reporting purposes under subheadings 8525.10.70, 8525.10.90, 8525.20.30 and 8527.90.95, the lowest operating frequency will determine the classification.

 - (a) The term "static read-write random access (SRAM)" refers to integrated circuit memory devices in which the memory cells may be addressed in any sequence, randomly, for the storage or retrieval of data and in which the stored information is retained without further intervention as long as electric power is supplied to the device.
 - (b) The term "volatile memory" refers to integrated circuit memory devices which lose all stored information in the absence of electric power.
 - (c) The term "dynamic read-write random access (DRAM)" refers to integrated circuit memory devices in which the memory cells may be addressed in any sequence, randomly, for the storage or retrieval of data and in which the stored information must continually be refreshed in order to hold the information in memory.
 - (d) The term "electrically erasable programmable read-only memory (EEPROM)" refers to user programmable integrated circuit memory devices which retain the stored information in the absence of electric power and in which the stored information may be altered electrically.
 - (e) The term "erasable (except electrically) programmable read-only memory (EPROM)" refers to user programmable integrated circuit memory devices which retain the stored information in the absence of electric power and from which the stored information may be removed (except electrically). Such devices are usually erased by exposure to ultraviolet light after which they may be rewritten with new information.
 - (f) The term "microprocessor" refers to a central processing unit (CPU) fabricated as a monolithic integrated circuit.
 - (g) The term "kilobit" refers to 1,024 bits of data storage capacity and the term "megabit" refers to 1,024 kilobits of data storage capacity.
6. For statistical reporting purposes under subheading 8532.22, the diameter of aluminum electrolytic capacitors not having a circular cross-section shall be the maximum dimension measured through the center.

2. The expressions "parts" and "parts and accessories" do not apply to the following articles, whether or not they are identifiable as for the goods of this section:
 - (a) Joints, washers or the like of any material (classified according to their constituent material or in heading 8484) or other articles of vulcanized rubber other than hard rubber (heading 4016);
 - (b) Parts of general use, as defined in note 2 to section XV, of base metal (section XV) or similar goods of plastics (chapter 39);
 - (c) Articles of chapter 82 (tools);
 - (d) Articles of heading 8306;
 - (e) Machines or apparatus of headings 8401 to 8479, or parts thereof; articles of heading 8481 or 8482 or, provided they constitute integral parts of engines or motors, articles of heading 8483;
 - (f) Electrical machinery or equipment (chapter 85);
 - (g) Articles of chapter 90;
 - (h) Articles of chapter 91;
 - (i) Arms (chapter 93);
 - (k) Lamps or lighting fittings of heading 9405; or

3. References in chapters 86 to 88 to "parts" or "accessories" do not apply to parts or accessories which are not suitable for use solely or principally with the articles of those chapters. A part or accessory which answers to a description in two or more of the headings of those chapters is to be classified under that heading which corresponds to the principal use of that part or accessory.
4. For the purposes of this section:
 - (a) Vehicles specially constructed to travel on both road and rail are classified under the appropriate heading of chapter 87;
 - (b) Amphibious motor vehicles are classified under the appropriate heading of chapter 87;
 - (c) Aircraft specially constructed so that they can also be used as road vehicles are classified under the appropriate heading of chapter 88.
5. Air-cushion vehicles are to be classified within this section with the vehicles to which they are most akin as follows:
 - (a) In chapter 86 if designed to travel on a guide-track (hovertrains);
 - (b) In chapter 87 if designed to travel over land or over both land and water;
 - (c) In chapter 89 if designed to travel over water, whether or not able to land on beaches or landing-stages or also able to travel over ice.

Parts and accessories of air-cushion vehicles are to be classified in the same way as those of vehicles of the heading in which the air-cushion vehicles are classified under the above provisions.

Hovertrain track fixtures and fittings are to be classified as railway track fixtures and fittings, and signalling, safety or traffic control equipment for hovertrain transport systems as signalling, safety or traffic control equipment for railways.

CHAPTER 87

VEHICLES OTHER THAN RAILWAY OR TRAMWAY ROLLING-STOCK, AND PARTS AND ACCESSORIES THEREOF

XVII
87-1

Notes

1. This chapter does not cover railway or tramway rolling-stock designed solely for running on rails.
2. For the purposes of this chapter, "tractors" means vehicles constructed essentially for hauling or pushing another vehicle, appliance or load, whether or not they contain subsidiary provision for the transport, in connection with the main use of the tractor, of tools, seeds, fertilizers or other goods.

Machines and working tools designed for fitting to tractors of heading 8701 as interchangeable equipment remain classified in their respective headings even if presented with the tractor, and whether or not mounted on it.

3. Motor chassis fitted with cabs fall in headings 8702 to 8704, and not in heading 8706.
4. Heading 8712 includes all children's bicycles. Other children's cycles fall in heading 9501.

Additional U.S. Notes

1. Road tractors, trailers and semi-trailers remain separately classified in headings 8701 and 8716, respectively, even when entered together.
2. For the purposes of classifying bicycles under the provisions therefore in heading 8712, the diameter of each wheel is the diameter measured to the outer circumference of the tire which is mounted thereon or, if none is mounted thereon, of the usual tire for such wheel.

Notes (con.)

6. Heading 9032 applies only to:
- (a) Instruments and apparatus for automatically controlling the flow, level, pressure or other variables of liquids or gases, or for automatically controlling temperature, whether or not their operation depends on an electrical phenomenon which varies according to the factor to be automatically controlled; and

Additional U.S. Notes

1. For the purposes of headings 9001 and 9002, the term "optically worked" refers to glass the surface of which has been ground or polished in order to produce the required optical properties.
2. For the purposes of this chapter, the term "electrical" when used in reference to instruments, appliances, apparatus and machines, refers to those articles the operation of which depends on an electrical phenomenon which varies according to the factor to be ascertained.
3. For the purposes of this chapter, the terms "optical appliances" and "optical instruments" refer only to those appliances and instruments which incorporate one or more optical elements, but do not include any appliances or instruments in which the incorporated optical element or elements are solely for viewing a scale or for some other subsidiary purpose.
4. For the purposes of this chapter, the term "printed circuit assembly" means goods consisting of one or more printed circuits of heading 8534 with one or more active elements assembled thereon, with or without passive elements. For the purposes of this note, "active elements" means diodes, transistors and similar semiconductor devices, whether or not photosensitive, of heading 8541, and integrated circuits and microassemblies of heading 8542.

CHAPTER 91

CLOCKS AND WATCHES AND PARTS THEREOF

XVIII
91-1

Notes

1. This chapter does not cover:
 - (a) Clock or watch glasses or weights (classified according to their constituent material);
 - (b) Watch chains (heading 7113 or 7117, as the case may be);
 - (c) Parts of general use defined in note 2 to section XV, of base metal (section XV), or similar goods of plastics (chapter 39) or of precious metal or metal clad with precious metal (generally heading 7115); clock or watch springs are, however, to be classified as clock or watch parts (heading 9114);
 - (d) Bearing balls (heading 7326 or 8482, as the case may be);
 - (e) Articles of heading 8412 constructed to work without an escapement;
 - (f) Ball bearings (heading 8482); or
 - (g) Articles of chapter 85, not yet assembled together or with other components into watch or clock movements or into articles suitable for use solely or principally as parts of such movements (chapter 85).
2. Heading 9101 covers only watches with case wholly of precious metal or of metal clad with precious metal, or of the same materials combined with natural or cultured pearls, or precious or semiprecious stones (natural, synthetic or reconstructed) of headings 7101 to 7104. Watches with case of base metal inlaid with precious metal fall in heading 9102.
3. For the purposes of this chapter, the expression "watch movements" means devices regulated by a balance wheel and hairspring, quartz crystal or any other system capable of determining intervals of time, with a display or a system to which a mechanical display can be incorporated. Such watch movements shall not exceed 12 mm in thickness and 50 mm in width, length or diameter.
4. Except as provided in note 1, movements and other parts suitable for use both in clocks or watches and in other articles (for example, precision instruments) are to be classified in this chapter.

Additional U.S. Notes

1. For the purposes of this chapter:
 - (a) The term "watches" embraces timepieces (including timepieces having special features, such as chronographs, calendar watches and watches designed for use in skin diving) of a kind for wearing or carrying on the person whether or not the movement contained therein conforms to the definition of "watch movements" in note 3, above. Timepieces incorporating a stand, however simple, are not classifiable as watches.
 - (b) The term "cases" embraces inner and outer cases, containers and housings for movements, together with parts or pieces, such as, but not limited to, rings, feet, posts, bases and outer frames, and any auxiliary or incidental features, which (with appropriate movements) serve to complete the watches, clocks, time switches and other apparatus provided for in this chapter.
 - (c) The term "jewels" includes substitutes for jewels.
 - (d) The term "clock movements" means devices regulated by a balance wheel and hairspring, quartz crystal or any other system capable of determining intervals of time, with a display or a system to which a mechanical display can be incorporated. Such clock movements shall either exceed 12 mm in thickness or 50 mm in width, length or diameter, or both.
 - (e) The term "complete watch or clock movements, unassembled or partly assembled (movement sets)" refers to sets which consist of all parts necessary to assemble a watch or clock movement, except that for movements having mechanical displays the set may or may not include the dial and hands.

XVIII
91-2

Additional U.S. Notes (con.)

- (f) The term "incomplete watch or clock movements, assembled" refers to:
 - (i) Mechanical movements which are mounted but lack certain parts other than the dial, hands or winding spindle (e.g., the escapement or the barrel bridge);
 - (ii) Battery powered movements with mechanical displays which are mounted but lack certain parts other than the dial, hands, setting spindle or battery (e.g., the motor); or
 - (iii) Other movements intended to operate with opto-electronic displays which are mounted but lack certain parts other than the battery (e.g., the display).
 - (g) The term "rough watch or clock movements" refers to sets of unassembled parts for the assembly of watch or clock movements of a kind constructed to work with an escapement. These sets do not include escapement, balance wheel and hairspring or other regulating device, mainspring, dial or hands; they therefore consist mainly of the base plate (and any additional plates), bridges, train, motion work, winding and setting mechanism and any additional mechanisms such as automatic winding device, calendar mechanisms, chronograph, alarm, etc. These sets may be entered with or without a barrel. Each element, intended for use as it is, may itself consist of one simple piece or of several parts fitted inseparably together, but such elements may not themselves be assembled to each other.
2. Watch straps, watch bands and watch bracelets entered with wrist watches and of a kind normally sold therewith, whether or not attached, are classified with the watch in heading 9101 or 9102. Otherwise, watch straps, watch bands and watch bracelets shall be classified in heading 9113.
3. Batteries entered with battery powered watches or clocks, or with the complete, assembled movements thereof, and intended for use therewith, are classifiable under the provision for the watch, clock or movement. Similarly, batteries entered with a complete watch or clock movement, unassembled or partly assembled (movement set) or with an incomplete watch or clock movement, assembled, and intended for use therewith, are classifiable under the provision for such movement. Batteries are otherwise classifiable in heading 8506 or 8507, whether or not suitable for use with watches or clocks.
4. Special Marking Requirements: With the following exceptions, any movement or case provided for in this chapter, whether imported separately or attached to an article provided for in this chapter, shall not be permitted to be entered unless conspicuously and indelibly marked by cutting, die-sinking, engraving, stamping (including by means of indelible ink), or mold-marking (either indented or raised), as specified below. Movements with opto-electronic display only and cases designed for use therewith, whether entered as separate articles or as components of assembled watches or clocks, are excepted from the marking requirements set forth in this note. The special marking requirements are as follows:
- (a) Watch movements shall be marked on one or more of the bridges or top plates to show:
 - (i) the name of the country of manufacture;
 - (ii) the name of the manufacturer or purchaser; and
 - (iii) in words, the number of jewels, if any, serving a mechanical purpose as frictional bearings.
 - (b) Clock movements shall be marked on the most visible part of the front or back plate to show:
 - (i) the name of the country of manufacture;
 - (ii) the name of the manufacturer or purchaser; and
 - (iii) the number of jewels, if any.
- © Watch cases shall be marked on the inside or outside of the back to show:
- (i) the name of the country of manufacture; and
 - (ii) the name of the manufacturer or purchaser.
- (d) Clock cases provided for in this chapter shall be marked on the most visible part of the outside of the back to show the name of the country of manufacture.

5. Products of Insular Possessions

- (a) Except as provided in paragraphs (b) through (ij) of this note, any article provided for in this chapter which is the product of the Virgin Islands, Guam and American Samoa (hereinafter referred to as the "insular possessions") and which contains any foreign component shall be subject to duty:
 - (i) At the rates set forth in column 1, if the countries of origin of more than 50 percent in value of the foreign components are countries to products of which column 1 rates apply; and
 - (ii) At the rates set forth in column 2, if the countries of origin of 50 percent or more in value of the foreign components are countries to products of which column 2 rates apply.
- (b) Watch movements and watches (including watch straps, watch bands, and watch bracelets assembled onto watches) that are produced or manufactured in a United States insular possession which contain any foreign component may be admitted free of duty without regard to the value of the foreign materials such watches contain if they conform with the provisions of this note, but the total quantity of such articles entered free of duty shall not exceed the amounts established by or pursuant to paragraph (d) of this note.
- © Notwithstanding the provisions of paragraph (b) of this note, the provisions of this note and the benefits thereunder shall not apply to any article containing any material which is the product of any country with respect to which column 2 rates of duty apply.
- (d)
 - (i) In calendar year 1983 the total quantity of such articles which may be entered free of duty shall not exceed 4,800,000 units.
 - (ii) In subsequent calendar years, the Secretary of Commerce and the Secretary of the Interior (hereinafter referred to as the "Secretaries"), acting jointly, shall establish a limit on the quantity which may be entered free of duty during the calendar year, and shall consider whether such limit is in the best interest of the insular possessions and not inconsistent with domestic or international trade policy considerations. The quantity the Secretaries establish in any calendar year under this paragraph shall not--
 - (A) exceed 10,000,000 units or one-ninth of apparent domestic consumption (as determined by the International Trade Commission pursuant to paragraph (e) of this note), whichever is greater;
 - (B) be decreased by more than 10 percent of the quantity established for the immediately preceding calendar year; and
 - © be increased to more than 7,000,000 units or by more than 20 percent of the quantity established for the immediately preceding calendar year, whichever is greater.
- (e) On or before April 1 of each calendar year (beginning with the first year in which watch imports from the United States insular possessions exceed 9,000,000 units), the International Trade Commission shall determine the apparent United States consumption of watches and watch movements during the preceding calendar year, shall report such determination to the Secretaries, and shall publish such determination in the Federal Register.
- (f)
 - (i) In calendar year 1983, not more than 3,000,000 units of the total quantity of articles described in paragraph (d) which may be entered free of duty shall be the product of the Virgin Islands, not more than 1,200,000 units shall be the product of Guam, and not more than 600,000 units shall be the product of American Samoa.
 - (ii) For calendar year 1984 and thereafter, the Secretaries may establish new territorial shares of the total amount which may be entered free of duty, taking into account the capacity of each territory to produce and ship its assigned amounts. A territory's share in any year shall not be reduced:
 - (A) by more than 200,000 units in calendar year 1984 or 1985; and
 - (B) by more than 500,000 units in calendar year 1986 or thereafter, except that no territorial share shall be established at less than 500,000 units.
- (g) The Secretaries, acting jointly, shall allocate the calendar year duty exemptions provided by paragraphs (b), (d) and (f) of this note on a fair and equitable basis among producers located in the insular possessions, and shall issue appropriate licenses thereof. Allocations made by the Secretaries shall be final. In making the allocations, the Secretaries shall consider the potential impact of territorial production on domestic production of like articles and shall establish allocation criteria (including minimum assembly requirements) that will reasonably maximize the net amount of direct economic benefits to the insular possessions.

Additional U.S. Notes (con.)

- (h) (l) In the case of each calendar year beginning after December 31, 1982, and before January 1, 2007, the Secretaries, acting jointly, shall:
 - (A) verify the wages paid by each producer to permanent residents of the insular possessions during the preceding calendar year; and
 - (B) issue to each producer (not later than March 1 of such year) a certificate for the applicable amount.
- (ii) For purposes of subparagraph (l), except as provided in subparagraphs (iii) and (iv), the term "applicable amount" means an amount equal to the sum of:
 - (A) 90 percent of the producer's creditable wages on the assembly during the preceding calendar year of the first 300,000 units; plus
 - (B) the applicable graduated declining percentage (determined each year by the Secretaries) of the producer's creditable wages on the assembly during the preceding calendar year of units in excess of 300,000 but not in excess of 750,000.
- (iii) The aggregate amount of all certificates which are issued during any calendar year shall not exceed an amount which bears the same ratio to \$5,000,000 as:
 - (A) the gross national product of the United States (as determined by the Secretary of Commerce) for the preceding calendar year, bears to:
 - (B) the gross national product of the United States (as so determined) for 1982.
- (iv) (A) Subject to the provision of clause (B), if the amount of the certificates issued under subparagraph (l) would exceed the limit under subparagraph (iii), the applicable amount of each producer's certificate shall be reduced proportionately by the amount of such excess.
- (B) The applicable amount of any producer's certificate shall not be reduced below the amount determined under subparagraph (ii)(A), except that if the application of this clause would result in the aggregate amount of the certificates exceeding the limit under subparagraph (iii), the applicable amount of each producer's certificate shall again be reduced proportionately by the amount of the excess determined after application of this clause.
- (v) Any certificate issued under subparagraph (l) shall entitle the certificate holder to secure the refund of duties equal to the face value of the certificate on watches, watch movements and, with the exception of discrete cases, parts therefor imported into the customs territory of the United States by the certificate holder. Such refunds shall be made under regulations issued by the Treasury Department. Not more than 5 percent of such refunds may be retained as a reimbursement to the Customs Service for the administrative costs of making the refunds.
- (vi) Any certificate issued under subparagraph (l), or any portion thereof, shall be negotiable.
- (vii) Any certificate issued under subparagraph (l) shall expire 1 year from the date of issuance and may be applied against duties on imports of watches and watch movements the entry of which were made within 2 years prior to the date of issuance of the certificate.
- (viii) For purposes of determining the applicable amount of any producer's certificate to be issued during calendar year 1983, the greater of:
 - (A) the producer's creditable wages for calendar year 1982; or
 - (B) 60 percent of the producer's creditable wages for calendar year 1981 shall be considered the creditable wages for calendar year 1982.
- (ij) the Secretaries are authorized to issue such regulations, not inconsistent with the provisions of this note, as they determine necessary to carry out their respective duties under this note. Such regulations shall include minimum assembly requirements. Any duty-free entry determined not to have been made in accordance with applicable regulations shall be subject to the applicable civil remedies and criminal sanctions, and, in addition, the Secretaries may cancel or restrict the license or certificate of any manufacturer found in willful violation of the regulations.

Statistical Notes

1. The calculation of duties on various watches, clocks, watch movements and clock movements requires that these articles be constructively separated into their component parts and each component separately valued. The individual components shall be separately reported under the statistical suffixes show below. In each instance the sum of the values of the individual components shall be equal to the total value of the article. In those instances where the components of an article are to be separately reported under the following reporting scheme, the entry should include all the individually named components even if not included in the shipment. In such instance the entered quantity and value would be zero. For example, entry of a battery powered watch, imported without a battery, classifiable under subheading 9101.11.40 would include a line for the statistical reporting number for the battery (9101.11.4040) with the quantity and value shown as zero. To determine the proper statistical reporting number(s) for the subheadings enumerated below, the importer shall combine the applicable 8-digit subheading number with the applicable statistical suffix found below.

CHAPTER 97

WORKS OF ART, COLLECTORS' PIECES AND ANTIQUES

XXI
97-1

Notes

1. This chapter does not cover:
 - (a) Unused postage or revenue stamps, postal stationery (stamped paper) or the like, of current or new issue in the country to which they are destined (chapter 49);
 - (b) Theatrical scenery, studio backdrops or the like, of painted canvas (heading 5907) except if they may be classified in heading 9706; or
 - (c) Pearls, natural or cultured, or precious or semiprecious stones (headings 7101 to 7103).
2. For the purposes of heading 9702, the expression "original engravings, prints and lithographs" means impressions produced directly, in black and white or in color, of one or of several plates wholly executed by hand by the artist, irrespective of the process or of the material employed by him, but not including any mechanical or photomechanical process.
3. Heading 9703 does not apply to mass-produced reproductions or works of conventional craftsmanship of a commercial character, even if these articles are designed or created by artists.
4. (a) Subject to notes 1 through 3 above, articles of this chapter are to be classified in this chapter and not in any other chapter of the tariff schedule.

(b) Heading 9706 does not apply to articles of the preceding headings of this chapter.
5. Frames around paintings, drawings, pastels, collages or similar decorative plaques, engravings, prints or lithographs are to be classified with those articles, provided they are of a kind and of a value normal to those articles. Frames which are not of a kind or of a value normal to the articles referred to in this note are to be classified separately.

Additional U.S. Notes

1. Heading 9703 covers not only original sculpture made by the sculptor, but also the first 12 castings, replicas or reproductions made from a sculptor's original work or model, by the sculptor himself or by another artist, with or without a change in scale and whether or not the sculptor is alive at the time the castings, replicas or reproductions are completed.
2. Whenever an article is entered for sale under heading 9706, and thereafter determined to be not over 100 years of age, a duty of 6.6 percent ad valorem for articles subject to column 1-general treatment, free of duty for goods originating in the territory of Canada or a duty of 25 percent ad valorem for articles subject to column 2 treatment shall be assessed thereon in addition to any other duty or penalty imposed on such article under the tariff schedule.

CHAPTER 98

SPECIAL CLASSIFICATION PROVISIONS

XXII
98-1

U.S. Notes

1. The provisions of this chapter are not subject to the rule of relative specificity in general rule of interpretation 3(a). Any article which is described in any provision in this chapter is classifiable in said provision if the conditions and requirements thereof and of any applicable regulations are met.
2. In the absence of a specific provision to the contrary, the tariff status of an article is not affected by the fact that it was previously imported into the customs territory of the United States and cleared through customs whether or not duty was paid upon such previous importation.
3. Any article exempted under subchapters IV through VII, inclusive, or subchapter IX from the payment of duty shall be exempt also from the payment of any internal-revenue tax imposed upon or by reason of importation.

Statistical Notes

1. Statistical data are not to be furnished with respect to articles classified in those headings of this chapter for which no statistical suffix is shown.
2. For articles provided for in this chapter, the rate of duty for which is derived from a provision elsewhere in the tariff schedule, the citation to be used in statistical reporting shall be the 10-digit statistical reporting number provided in this chapter followed by the reporting number of the provision from which such rate is derived. The unit of quantity reported hereunder for such articles shall be the same as the unit of quantity for the provision from which the rate was derived. For example, 10 new fully automatic arc welding machines exported for repairs or alterations pursuant to a warranty and returned to the United States the statistical reporting number shall be 9802.00.4040-8515.31.0000, with the quantity being shown as 10 and the value as dutiable value.

NOTICE TO EXPORTERS

The statistical reporting numbers contained in this chapter apply only to imports and may not be reported on Shipper's Export Declarations. See Notice to Exporters preceding chapter 1.

SUBCHAPTER I

ARTICLES EXPORTED AND RETURNED, NOT ADVANCED OR IMPROVED IN CONDITION; ANIMALS EXPORTED AND RETURNED

XXII
98-3

U.S. Notes

1. The provisions in this subchapter (except subheadings 9801.00.70 and 9801.00.80) shall not apply to any article:
 - (a) Exported with benefit of drawback;
 - (b) Of a kind with respect to the importation of which an internal-revenue tax is imposed at the time such article is entered, unless such article was subject to an internal-revenue tax imposed upon production or importation at the time of its exportation from the United States and it shall be proved that such tax was paid before exportation and was not refunded; or
 - (c) Manufactured or produced in the United States in a customs bonded warehouse or under heading 9813.00.05 and exported under any provision of law.
2. For the purposes of subheadings 9801.00.70 and 9801.00.80:
 - (a) When because of the destruction of customs records or for other cause it is impracticable to establish whether drawback was allowed, or the amount allowed, on a returned article, there shall be assessed thereon an amount of duty equal to the estimated drawback and internal-revenue tax which would be allowable or refundable if the imported merchandise used in the manufacture or production of the returned article were dutiable or taxable at the rate applicable to such merchandise on the date of entry, but in no case more than the duty and tax that would apply if the article were wholly of foreign origin;
 - (b) Tobacco products and cigarette papers and tubes classifiable under such subheading may be released from customs custody, without payment of that part of duty attributable to the internal-revenue tax, for return to internal-revenue bond as provided by section 5704(d) of the Internal Revenue Code of 1954; and
 - (c) In order to facilitate the ascertainment and collection of the duty provided for, the Secretary of the Treasury is authorized to ascertain and specify the amounts of duty equal to drawback or internal-revenue tax which shall be applied to articles or classes or kinds of articles, and to exempt from the assessment of duty articles or classes or kinds of articles with respect to which the collection of such duty involves expense and inconvenience to the Government which is disproportionate to the probable amount of such duty.

SUBCHAPTER II

ARTICLES EXPORTED AND RETURNED, ADVANCED OR IMPROVED ABROAD

XXII
98-11

U.S. Notes

1. Except for goods subject to NAFTA drawback, this subchapter shall not apply to any article exported:
 - (a) From continuous customs custody with remission, abatement or refund of duty;
 - (b) With benefit of drawback;
 - (c) To comply with any law of the United States or regulation of any Federal agency requiring exportation; or
 - (d) After manufacture or production in the United States under heading 9813.00.05.
2. (a) Except as provided in paragraph (b), any product of the United States which is returned after having been advanced in value or improved in condition abroad by any process of manufacture or other means, or any imported article which has been assembled abroad in whole or in part of products of the United States, shall be treated for the purposes of this Act as a foreign article, and, if subject to a duty which is wholly or partly ad valorem, shall be dutiable, except as otherwise prescribed in this part, on its full value determined in accordance with section 402 of the Tariff Act of 1930, as amended. If such product or such article is dutiable at a rate dependent upon its value, the value for the purpose of determining the rate shall be its full value under the said section 402.
 - (b) No article (except a textile article, apparel article, or petroleum, or any product derived from petroleum, provided for in heading 2709 or 2710) may be treated as a foreign article, or as subject to duty, if--
 - (i) the article is--
 - (A) assembled or processed in whole of fabricated components that are a product of the United States, or
 - (B) processed in whole of ingredients (other than water) that are a product of the United States, in a beneficiary country; and
 - (ii) neither the fabricated components, materials or ingredients, after exportation from the United States, nor the article itself, before importation into the United States, enters the commerce of any foreign country other than a beneficiary country.

As used in this paragraph, the term "beneficiary country" means a country listed in general note 7(a).
3. Articles repaired, altered, processed or otherwise changed in condition abroad.--The following provisions apply only to subheadings 9802.00.40 through 9802.00.60, inclusive:
 - (a) The value of repairs, alterations, processing or other change in condition outside the United States shall be:
 - (i) The cost to the importer of such change; or
 - (ii) If no charge is made, the value of such change, as set out in the invoice and entry papers; except that, if the appraiser concludes that the amount so set out does not represent a reasonable cost or value, then the value of the change shall be determined in accordance with section 402 of the Tariff Act of 1930, as amended.
 - (b) No appraisal of the imported article in its changed condition shall be required unless necessary to a determination of the rate or rates of duty applicable to such article.
 - (c) The duty, if any, upon the value of the change in condition shall be at the rate which would apply to the article itself, as an entirety without constructive separation of its components, in its condition as imported if it were not within the purview of this subchapter. If the article, as returned to the United States, is subject to a specific or compound rate of duty, such rate shall be converted to the ad valorem rate which when applied to the full value of such article determined in accordance with said section 402 would provide the same amount of duties as the specific or compound rate. In order to compute the duties due, the ad valorem rate so obtained shall be applied to the value of the change in condition made outside the United States.
 - (d) For the purposes of subheadings 9802.00.40 and 9802.00.50, the rates of duty in the "Special" subcolumn of column 1 followed by the symbol "CA" or "MX" in parentheses shall apply to any goods which are returned to the United States after having been repaired or altered in Canada or in Mexico, respectively, whether or not such goods are goods of Canada or goods of Mexico under the terms of general note 12 to the tariff schedule.

U.S. Notes (con.)

- (e) For purposes of subheading 9802.00.60, the term "metal" covers (1) the base metals enumerated in note 3 to section XV; (2) arsenic, barium, boron, calcium, mercury, selenium, silicon, strontium, tellurium, thorium, uranium and the rare-earth elements; and (3) alloys of any of the foregoing.
4. Articles assembled abroad with components produced in the United States.--The following provisions apply only to headings 9802.00.80 and 9802.00.90:
- (a) The value of the products of the United States assembled into the imported article shall be:
 - (i) The cost of such products at the time of the last purchase; or
 - (ii) If no charge is made, the value of such products at the time of the shipment for exportation,

as set out in the invoice and entry papers; except that, if the appraiser concludes that the amount so set out does not represent a reasonable cost or value, then the value of such products shall be determined in accordance with section 402 of the Tariff Act of 1930, as amended.
 - (b) The duty, if any, on the imported article shall be at the rate which would apply to the imported article itself, as an entirety without constructive separation of its components, in its condition as imported if it were not within the purview of this subchapter. If the imported article is subject to a specific or compound rate of duty, the total duties shall be reduced in such proportion as the cost or value of such products of the United States bears to the full value of the imported article.
5. No imported article shall be accorded partial exemption from duty under more than one provision in this subchapter.
6. Notwithstanding the partial exemption from ordinary customs duties on the value of the metal product exported from the United States provided under subheading 9802.00.60, articles imported under subheading 9802.00.60 are subject to all other duties, and any other restrictions or limitations, imposed pursuant to title VII of the Tariff Act of 1930 (19 U.S.C. 1671 et seq.), or chapter 1 of title II or chapter 1 of title III of the Trade Act of 1974 (19 U.S.C. 2251 et seq., 19 U.S.C. 2411 et seq.).

However, if any such article (other than an article provided for in subheading 9810.00.20 or heading 9810.00.70) is transferred other than as provided by the preceding sentence, or is used for commercial purposes, within 5 years after being entered, the institution for which such article was entered shall promptly notify customs officers at the port of entry and shall be liable for the payment of duty on such article in an amount determined on the basis of its condition as imported and the rate applicable to it (determined without regard to this subchapter) when entered. If, with a view to a transfer (other than a transfer permitted by the second sentence) or the use for commercial purposes of an instrument or apparatus, a repair component admitted under subheading 9810.00.65 has been assembled into such instrument or apparatus, such component shall, for purposes of the preceding sentence, be treated as a separate article.

but the term does not include materials or supplies, nor does it include ordinary equipment for use in building construction or maintenance or for use in supporting activities of the institution such as its administrative offices or its eating or religious facilities. The term "instruments and apparatus" under subheading 9810.00.60 includes separable components of an instrument or apparatus listed in this subdivision that are imported for assembly in the United States in such instrument or apparatus where the instrument or apparatus, due to its size, cannot be feasibly imported in its assembled state.

- (b) An institution desiring to enter an article under subheading 9810.00.60 shall make application therefor to the Secretary of the Treasury including therein (in addition to such other information as may be prescribed by regulation) a description of the article, the purposes for which the instrument or apparatus is intended to be used, the basis for the institution's belief that no instrument or apparatus of equivalent scientific value for such purposes is being manufactured in the United States, and a statement that either the institution has already placed a bona fide order for the instrument or apparatus or has a firm intention, in the event of favorable action on its application, to place such an order on or before the final day specified in paragraph (d) of this U.S. note for the placing of an order. If the application is made in accordance with the applicable regulations, the Secretary of the Treasury shall promptly forward copies thereof to the Secretary of Commerce and to the Secretary of Health and Human Services. If, at any time while its application is under consideration by the Secretary of Commerce or by the Court of Appeals for the Federal Circuit on appeal from a finding by him, an institution cancels an order for the instrument or apparatus to which its application relates or ceases to have a firm intention to order such instrument or apparatus, it shall promptly so notify the Secretary of Commerce or such Court, as the case may be.
- (c) Upon receipt of the application, the Secretary of Commerce shall, by publication in the Federal Register, afford interested persons and other Government agencies reasonable opportunity to present their views with respect to the question whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. After considering any views presented pursuant to this paragraph, including any written advice from the Secretary of Health and Human Services, the Secretary of Commerce shall determine whether an instrument or apparatus of equivalent scientific value to such article, for the purposes for which the instrument or apparatus is intended to be used, is being manufactured in the United States. Each finding by the Secretary of Commerce under this paragraph shall be promptly reported to the Secretary of the Treasury and to the applicant institution. Each such finding shall be published in the Federal Register, with a statement of the reasons therefor, on or before the ninetieth day following the date on which the application was made to the Secretary of the Treasury in accordance with applicable regulations.
- (d) (i) If the Secretary of Commerce determines under this U.S. note that an instrument or apparatus is being manufactured in the United States that is of equivalent scientific value to a foreign-origin instrument or apparatus for which application is made (but which, due to its size, cannot be feasibly imported in its assembled state), the Secretary shall report the findings to the Secretary of the Treasury and to the applicant institution, and all components of such foreign-origin instrument or apparatus shall remain dutiable.
- (ii) If the Secretary of Commerce determines that the instrument or apparatus for which application is made is not being manufactured in the United States, the Secretary is authorized to determine further whether any component of such instrument or apparatus of a type that may be purchased, obtained, or imported separately is being manufactured in the United States and shall report the findings to the Secretary of the Treasury and to the applicant institution, and any component found to be domestically available shall remain dutiable.
- (iii) Any decision by the Secretary of the Treasury which allows for duty-free entry of a component of an instrument or apparatus which, due to its size cannot be feasibly imported in its assembled state, shall be effective for a specified maximum period, to be determined in consultation with the Secretary of Commerce, taking into account both the scientific needs of the importing institution and the potential for development of comparable domestic manufacturing capacity.
- (e) Subheading 9810.00.60 shall not apply with respect to any instrument or apparatus unless a bona fide order therefor has been placed, by the institution making the application under this U.S. note, on or before the sixtieth day following the day on which a finding of the Secretary of Commerce favorable to the institution has become final and conclusive.

- (i) by the institution which made the application under paragraph (b) of this U.S. note;

- I. (a) The articles described in the provisions of this subchapter, when not imported for sale or for sale on approval, may be admitted into the United States without the payment of duty, under bond for their exportation within 1 year from the date of importation, which period, in the discretion of the Secretary of the Treasury, may be extended, upon application, for one or more further periods which, when added to the initial 1 year, shall not exceed a total of 3 years, except that (1) articles imported under heading 9813.00.75 shall be admitted under bond for their exportation within 6 months from the date of importation and such a 6-month period shall not be extended, and (2) in the case of professional equipment and tools of trade admitted into the United States under heading 9813.00.50 which have been seized (other than by seizure made at the suit of private persons), the requirement of reexportation shall be suspended for the duration of the seizure. For purposes of this note, an aircraft engine or propeller, or any part or accessory of either, imported under heading 9813.00.05, which is removed physically from the United States as part of an aircraft departing from the United States in international traffic shall be treated as exported.
 - (b) For articles admitted into the United States under heading 9813.00.50, entry shall be made by the nonresident importing the articles or by an organization represented by the nonresident which is established under the laws of a foreign country or has its principal place of business in a foreign country.
 - (c) For purposes of this subchapter, if an article imported into the United States, for processing, under heading 9813.00.05 is withdrawn for exportation to the territory of Canada or of Mexico, the duty assessed shall be waived or reduced in an amount that does not exceed the lesser of the total amount of duty payable on the article that would have been payable on importation under chapters 1 through 97, inclusive, of the Harmonized Tariff Schedule of the United States or the total amount of customs duties paid to Canada or to Mexico on the exported article, unless such article is covered by section 203(a)(1) through 203(a)(8), inclusive, of the NAFTA Implementation Act. The amount of duties or refunds calculated on such articles pursuant to this note shall be adjusted to take into account any subsequent claim for preferential tariff treatment made to another NAFTA country. This note shall apply to shipments to Canada on or after January 1, 1996, and to Mexico on or after January 1, 2001.
2. Merchandise may be admitted into the United States under heading 9813.00.05 only on condition that:
 - (a) Such merchandise will not be processed into an article manufactured or produced in the United States if such article is:
 - (i) Alcohol, distilled spirits, wine, beer or any dilution or mixture of any or all of the foregoing;
 - (ii) A perfume or other commodity containing ethyl alcohol (whether or not such alcohol is denatured); or
 - (iii) A product of wheat; and
 - (b) If any processing of such merchandise results in an article (other than an article described in (a) of this U.S. note) manufactured or produced in the United States:
 - (i) A complete accounting will be made to the Customs Service for all articles, wastes and irrecoverable losses resulting from such processing; and
 - (ii) All articles and valuable wastes resulting from such processing will be exported or destroyed under customs supervision within the bonded period; except that in lieu of the exportation or destruction of valuable wastes, duties may be tendered on such wastes at rates of duties in effect for such wastes at the time of importation.
 3. Upon satisfactory proof that any article admitted under heading 9813.00.30 has been destroyed because of its use for any purpose provided for therein, the obligation under the bond to export such article shall be treated as satisfied.
 4. District Directors of Customs may defer the exaction of a bond for not to exceed 90 days after the date of importation for vehicles and craft entered under heading 9813.00.35 to take part in races or other specific contests for other than money purses; but unless any such vehicle or craft is exported or the bond is given within the period of such deferment, such vehicle or craft shall be subject to forfeiture.
 5. Articles may be admitted under heading 9813.00.75 only on condition that the Secretary of the Treasury shall have found that the foreign country from which the articles were imported allows, or will allow, substantially reciprocal privileges in respect of similar imports to such country from the United States; and if the Secretary finds that a foreign country has discontinued, or will discontinue, the allowance of such privileges, the privileges of heading 9813.00.75 shall not apply thereafter in respect of imports from such foreign country.

U.S. Note

1. The duties provided for in this subchapter are cumulative duties which apply in addition to the duties, if any, otherwise imposed on the articles involved. The duties provided for in this subchapter apply only with respect to articles entered during the period specified in the last column.
2. If the importer of record certifies nonliquid motor fuel use for purposes of establishing actual use or suitability under heading 9901.00.50, the Commissioner shall not liquidate the entry of ethyl alcohol until he is satisfied that the ethyl alcohol has in fact not been used for liquid motor fuel use or use in producing liquid motor fuel related mixtures. If he is not satisfied within a reasonable period of time not less than 18 months from the date of entry, then the duties provided for in heading 9901.00.50 shall be payable retroactive to the date of entry. Such duties shall also become payable, retroactive to the date of entry, immediately upon the diversion to liquid motor fuel use of any ethyl alcohol or ethyl alcohol mixture certified upon entry as having been imported for nonliquid motor fuel use.

SUBCHAPTER III

TEMPORARY MODIFICATIONS ESTABLISHED PURSUANT TO TRADE LEGISLATION

XXII
99-39

U.S. Notes

1. This subchapter contains the temporary modifications of the provisions in the tariff schedule established pursuant to trade legislation. Unless otherwise stated, the modified provisions are effective until suspended or terminated. Unless the context requires otherwise, any article described in the provisions of this subchapter, for which rates of duty are herein provided, if entered during the period specified, is subject to duty at the rate set forth herein in lieu of the rate provided therefor in chapters 1 to 98.

[U.S. note 2 deleted]

3. For the purposes of subheadings 9903.41.05 and 9903.41.10, the duties provided for in this subchapter are cumulative duties which apply in addition to the duties otherwise imposed on the articles involved.

[U.S. note 4 deleted]

5. The following provisions have been suspended pursuant to executive action: subheadings 9903.04.05 and 9903.04.10, headings 9903.04.15 through 9903.04.55, inclusive, subheading 9903.41.25, and subheadings 9903.41.35 through 9903.41.45, inclusive.
6. Import quotas for upland cotton.--The provisions of this note apply beginning August 1, 1991, to imports of upland cotton as provided in subheadings 9903.52.00 through 9903.52.26.

(a) Special Upland Cotton Import Quota Based on Northern Europe Prices.--

- (i) Whenever the Secretary of Agriculture determines and announces that for any consecutive 10-week period, the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling one and three-thirty-seconds inch cotton, delivered C.I.F. Northern Europe, adjusted for the value of any certificates issued under section 103B(a)(5)(E) of the Agricultural Act of 1949, as amended, exceeds the Friday through Thursday average price of the five lowest-priced growths of upland cotton, as quoted for Middling one and three-thirty-seconds inch cotton, delivered C.I.F. Northern Europe (Northern Europe price) by more than 1.25 cents per pound, there shall be in effect, as of the effective date of such announcement, a special import quota equal to 1 week's consumption of upland cotton by domestic mills at the seasonally adjusted average rate of the most recent 3 months for which data are available. During the period when both a price quotation for cotton for shipment no later than August/September of the current calendar year (current shipment price) and a price quotation for cotton for shipment no earlier than October/November of the current calendar year (forward shipment price) are available for such growths, the current shipment price shall be used. An announcement under this clause shall be known as a Special Cotton Import Quota Announcement.
- (ii) Application.--The quota shall apply to upland cotton purchased not later than 90 days after the effective date of the Secretary's announcement under clause (i) and entered into the United States not later than 180 days after such date.
- (iii) Overlap.--A quota period may be established that overlaps any existing quota period if required by clause (i), except that a quota period may not be established under this paragraph if a quota period has been established under paragraph (b) of this note.
- (iv) The Secretary of Agriculture shall inform the Secretary of the Treasury of the establishment of any special import quota under this paragraph and shall file a notice of such quota with the Federal Register.

(b) Upland Cotton Import Quota Based on Spot Market Prices.--

- (i) Whenever the Secretary of Agriculture determines and announces that the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for a month exceeded 130 percent of the average price of such quality of cotton in such markets for the preceding 36 months, there shall immediately be in effect a limited global import quota equal to 21 days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent 3 months for which data are available. An announcement under this clause shall be known as a Limited Global Cotton Import Quota Announcement.
- (ii) Quantity if prior quota.--If a quota has been established under this paragraph during the preceding 12 months, the quantity of the quota next established under this paragraph shall be the smaller of 21 days of domestic mill consumption, calculated as set forth in clause (i), or the quantity required to increase the supply to 130 percent of the demand.

Whenever a quantity is allocated to a country, to "other countries" or to the European Community under such subheadings, and the quota quantity specified for such country or countries or for the European Community has been entered for the specified restraint period, any shipments of wheat gluten the product of such country or countries or of the European Community entered in excess of such allocated quota quantity shall be charged to the allocation for such country or countries or for the European Community for the subsequent restraint period. If the allocated quantity for a country or countries or for the European Community under subheading 9903.11.07, including any quantity carried over from the restraint periods provided for in subheadings 9903.11.05 and 9903.11.06 and charged against the appropriate allocation under subheading 9903.11.07, has been entered, any imports in excess of the allocated quota quantity for a country or countries or for the European Community shall be entered into bonded warehouse or shall be exported, and shall not be entered into the customs territory of the United States until 12:00 a.m. e.d.t. June 1, 2001. The Secretary of the Treasury is authorized to take any necessary action in order to ensure that no shipments in excess of the allocation for a country or countries or for the European Community for the period from June 1, 2000 through June 1, 2001, inclusive, is entered into the customs territory of the United States.

SUBCHAPTER IV

SAFEGUARD MEASURES PURSUANT TO THE AGREEMENT ON AGRICULTURE AND ADDITIONAL IMPORT RESTRICTIONS ESTABLISHED PURSUANT TO SECTION 22 OF THE AGRICULTURAL ADJUSTMENT ACT, AS AMENDED

XXII
99-61

U.S. Notes

1. This subchapter contains safeguard measures established pursuant to Article 5 of the Agreement on Agriculture (as approved by section 101 of the Uruguay Round Agreements Act), which allows the imposition of additional duties based upon either the value or the quantity of goods imported into the United States for certain agricultural products. In addition, the subchapter contains provisions which may be proclaimed pursuant to section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624). All of the duties provided for in this subchapter are cumulative duties which apply in addition to the duties, if any, otherwise imposed in the tariff schedule on the goods described herein. Unless otherwise stated, the duties or limitations provided for in this subchapter apply until suspended or terminated. Goods of Canada or Mexico imported into the United States shall not be subject to any of the provisions, duties or limitations of this subchapter.
2. The provisions imposing safeguard duties based upon value set forth in this subchapter shall apply to all goods described herein (other than sheep meat, which is not subject to safeguard duties based upon value) except during periods announced in the Federal Register by the Secretary of Agriculture in consultation with the United States Trade Representative as the effective periods of the provisions imposing safeguard duties based upon quantity with respect to such goods, during which period the safeguard duties based upon value shall be deemed suspended and only the safeguard duties based upon quantity shall apply to such goods. Unless the Secretary of Agriculture invokes safeguard duties based upon quantity for specified goods and so announces in the Federal Register (as provided in the first sentence of this note), the tariff provisions providing for such duties shall be deemed suspended and shall not apply to the goods described herein. No safeguard duties based upon quantity shall apply to goods en route on the basis of a contract settled before the effective date of such measures specified in a notice issued by the Secretary of Agriculture.
3. For the purposes of this subchapter, imports of peanuts in the shell shall be charged against the quantities in this note on the basis of 75 kilograms for each 100 kilograms of peanuts in the shell.

SUBCHAPTER VI

TEMPORARY MODIFICATIONS ESTABLISHED PURSUANT TO THE NORTH AMERICAN FREE TRADE AGREEMENT

XXII
99-85

U.S. Notes

1. This subchapter contains temporary modifications of the provisions of the tariff schedule established pursuant to the North American Free Trade Agreement. Goods of Mexico, entered under the terms of general note 12 to the tariff schedule, and described in the provisions of this subchapter, for which a rate of duty followed by the symbol "(MX)" is herein provided, are subject to duty at the rate set forth in this subchapter in lieu of the rate provided therefor in chapters 1 through 97. Notwithstanding quota provisions provided for elsewhere in the tariff schedule, originating goods of Mexico shall be permitted to enter the United States to the extent allowable in the provisions of this subchapter. Furthermore, any quota quantity provided for Mexico on goods described in this subchapter (except brooms, other than whiskbrooms, wholly or in part of broomcorn) shall not be counted toward any quota or tariff-rate quota provided for such good elsewhere in the tariff schedule. No other preferential tariff treatment provided for under general notes 4 through 11, inclusive, to the tariff schedule shall be afforded to goods described in the provisions of this subchapter. Whenever the pertinent special rate or rates in provisions of chapters 1 through 97, inclusive, of the tariff schedule, shall be reduced to "free" for all of the goods described in a provision of this subchapter and entered from Mexico under the terms of general note 12 to the tariff schedule, such provision shall be deleted from this subchapter, and the appropriate subheading for the good in chapters 1 through 97 shall be modified by deleting from the Rates of Duty 1 Special subcolumn the symbol "MX" in parentheses and the phrase preceding such symbol and by inserting in a "Free" rate of duty in such subcolumn the symbol "MX", alphabetical order. Unless otherwise provided, the provisions and notes of this subchapter are effective as to such goods of Mexico entered, under general note 12 to the tariff schedule, through the close of December 31, 2008, at the close of which date this subchapter shall be deleted from the tariff schedule and shall cease to apply to any goods entered after that date.
2. For purposes of this subchapter, the rate of duty followed by the symbol "(MX)" provided for in subheadings 9906.04.01 through 9906.22.05, inclusive, in subheadings 9906.23.01, 9906.23.02, and 9906.23.03 and in subheadings 9906.52.01 through 9906.52.07, inclusive, shall apply only to qualifying goods of Mexico.
3. Whenever goods are classifiable under a provision for which the temporary modification of the applicable North American Free Trade Agreement rate of duty is provided for in a subheading in this subchapter, the reporting number, in the absence of specific instructions to the contrary, shall be the appropriate statistical reporting number for the basic provision (the appropriate provision for classification purposes in chapters 1 through 97) preceded by the subheading number of this subchapter. For statistical purposes, both the basic provision statistical reporting number and the applicable subheading number of this subchapter shall be collected by the United States Bureau of Census.

U.S. Notes

1. This subchapter contains temporary modifications of the provisions of the tariff schedule established pursuant to the United States' agreement with Israel concerning certain aspects of trade in agricultural products, dated November 4, 1996. Products of Israel eligible for benefits of the agreement when imported into the customs territory, and described in the provisions of this subchapter for which quantitative limits are prescribed along with rates of duty followed by the symbol "(IL)" are herein provided, are subject to duty under the provisions and at the rates set forth in this subchapter in lieu of the rates provided therefor in chapters 1 through 97 in rates of duty column 1 when entered in quantities that are within the limits provided in this subchapter. Notwithstanding quota provisions elsewhere in the tariff schedule, eligible products of Israel shall be permitted to enter the United States to the extent and at the duty rates herein provided. No goods entered under the quantitative limits set forth in this subchapter shall be counted toward any quota or tariff-rate quota provided for such goods elsewhere in the tariff schedule. Unless otherwise provided, the provisions and notes in this subchapter are effective as to such products of Israel that are entered, or withdrawn from warehouse for consumption, on or after December 4, 1996, and through the close of December 31, 2001, after which date this subchapter shall cease to apply to any goods entered after that date.

ANNEX A

Schedule C - Classification of Country and Territory Designations for U.S. Foreign Trade Statistics

Schedule C contains the country and territory designations for use in compiling the U.S. export and import statistics. These designations should be shown in all cases where statistical information is required. The first part of this schedule contains the country designations arranged in numeric order by continent and listed in sequence within each continent generally from north to south and west to east. Abbreviated country designations, which are used in lieu of complete country names in some foreign trade reports, are also shown. The second part contains a listing in alphabetical arrangement of the countries, territories, etc., with their numeric codes. The names of the entities listed are generally the conventional spellings as approved by the U.S. Board on Geographic Names.

Revisions to Schedule C will be announced in the form of "special notices" to data users, as Public Bulletins to Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, and as supplements to the Harmonized Tariff Schedule of the United States Annotated for statistical purposes (HTS). HTS also includes a list of International Standard (ISO) Country Codes to be used by importers to report country of origin.

Harmonized Tariff Schedule of the United States (2001) (Rev. 1)

Annotated for Statistical Reporting Purposes

ANNEX C

Schedule D - Classification of U.S. Customs Districts and Ports for U.S. Foreign Trade Statistics

Schedule D provides a list of U.S. Customs districts, the ports included under each district, and the corresponding numeric codes used in compiling the U.S. foreign trade statistics. The Schedule contains a code for each official U.S. Customs district and port, with some additional codes provided to meet specific compiling requirements of the foreign trade statistics program. The headquarters port for each district is underlined. Some Customs ports show two codes. Exporters and importers may report either code. The first part of this schedule contains the Customs districts and ports arranged in numeric order by code, while the second part lists the ports in alphabetic order.

Revisions to Schedule D will be announced in the form of "special notices" to data users, as Public Bulletins to Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, and as supplements to the Harmonized Tariff Schedule of the United States Annotated for Statistical Purposes.

TITLE I—EXTENSION OF CERTAIN TRADE BENEFITS TO SUB-SAHARAN AFRICA

Subtitle A—Trade Policy for Sub-Saharan Africa

19 USC 3701
note.

SEC. 101. SHORT TITLE.

This title may be cited as the “African Growth and Opportunity Act”.

19 USC 3701.

SEC. 102. FINDINGS.

Congress finds that—

(1) it is in the mutual interest of the United States and the countries of sub-Saharan Africa to promote stable and sustainable economic growth and development in sub-Saharan Africa;

(2) the 48 countries of sub-Saharan Africa form a region richly endowed with both natural and human resources;

(3) sub-Saharan Africa represents a region of enormous economic potential and of enduring political significance to the United States;

(4) the region has experienced the strengthening of democracy as countries in sub-Saharan Africa have taken steps to encourage broader participation in the political process;

(5) certain countries in sub-Saharan Africa have increased their economic growth rates, taken significant steps towards liberalizing their economies, and made progress toward regional economic integration that can have positive benefits for the region;

(6) despite those gains, the per capita income in sub-Saharan Africa averages approximately \$500 annually;

(7) trade and investment, as the American experience has shown, can represent powerful tools both for economic development and for encouraging broader participation in a political process in which political freedom can flourish;

(8) increased trade and investment flows have the greatest impact in an economic environment in which trading partners eliminate barriers to trade and capital flows and encourage the development of a vibrant private sector that offers individual African citizens the freedom to expand their economic opportunities and provide for their families;

(9) offering the countries of sub-Saharan Africa enhanced trade preferences will encourage both higher levels of trade and direct investment in support of the positive economic and political developments under way throughout the region; and

(10) encouraging the reciprocal reduction of trade and investment barriers in Africa will enhance the benefits of trade and investment for the region as well as enhance commercial and political ties between the United States and sub-Saharan Africa.

SEC. 103. STATEMENT OF POLICY.

19 USC 3702.

Congress supports—

(1) encouraging increased trade and investment between the United States and sub-Saharan Africa;

(2) reducing tariff and nontariff barriers and other obstacles to sub-Saharan African and United States trade;

(3) expanding United States assistance to sub-Saharan Africa's regional integration efforts;

(4) negotiating reciprocal and mutually beneficial trade agreements, including the possibility of establishing free trade areas that serve the interests of both the United States and the countries of sub-Saharan Africa;

(5) focusing on countries committed to the rule of law, economic reform, and the eradication of poverty;

(6) strengthening and expanding the private sector in sub-Saharan Africa, especially enterprises owned by women and small businesses;

(7) facilitating the development of civil societies and political freedom in sub-Saharan Africa;

(8) establishing a United States-Sub-Saharan Africa Trade and Economic Cooperation Forum; and

(9) the accession of the countries in sub-Saharan Africa to the Organization for Economic Cooperation and Development (OECD) Convention on Combating Bribery of Foreign Public Officials in International Business Transactions.

President.
19 USC 3703.

SEC. 104. ELIGIBILITY REQUIREMENTS.

(3) the United States Trade Representative should have adequate funding and staff to carry out the duties of the Assistant United States Trade Representative for African Affairs described in paragraph (2), subject to the availability of appropriations.

Subtitle C—Economic Development Related Issues

SEC. 121. SENSE OF THE CONGRESS REGARDING COMPREHENSIVE DEBT RELIEF FOR THE WORLD'S POOREST COUNTRIES.

19 USC 3731.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The burden of external debt has become a major impediment to economic growth and poverty reduction in many of the world's poorest countries.

(2) Until recently, the United States Government and other official creditors sought to address this problem by rescheduling loans and in some cases providing limited debt reduction.

(3) Despite such efforts, the cumulative debt of many of the world's poorest countries continued to grow beyond their capacity to repay.

(4) In 1997, the Group of Seven, the World Bank, and the International Monetary Fund adopted the Heavily Indebted Poor Countries Initiative (HIPC), a commitment by the international community that all multilateral and bilateral creditors, acting in a coordinated and concerted fashion, would reduce poor country debt to a sustainable level.

(5) The HIPC Initiative is currently undergoing reforms to address concerns raised about country conditionality, the amount of debt forgiven, and the allocation of savings realized through the debt forgiveness program to ensure that the Initiative accomplishes the goals of economic growth and poverty alleviation in the world's poorest countries.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) Congress and the President should work together, without undue delay and in concert with the international community, to make comprehensive debt relief available to the world's poorest countries in a manner that promotes economic growth and poverty alleviation;

(2) this program of bilateral and multilateral debt relief should be designed to strengthen and expand the private sector, encourage increased trade and investment, support the development of free markets, and promote broad-scale economic growth in beneficiary countries;

(3) this program of debt relief should also support the adoption of policies to alleviate poverty and to ensure that benefits are shared widely among the population, such as through initiatives to advance education, improve health, combat AIDS, and promote clean water and environmental protection;

(4) these debt relief agreements should be designed and implemented in a transparent manner and with the broad participation of the citizenry of the debtor country and should ensure that country circumstances are adequately taken into account;

(5) no country should receive the benefits of debt relief if that country does not cooperate with the United States on terrorism or narcotics enforcement, is a gross violator of the human rights of its citizens, or is engaged in conflict or spends excessively on its military; and

(6) in order to prevent adverse impact on a key industry in many developing countries, the International Monetary Fund must mobilize its own resources for providing debt relief to eligible countries without allowing gold to reach the open market, or otherwise adversely affecting the market price of gold.

19 USC 3732.

SEC. 122. EXECUTIVE BRANCH INITIATIVES.

(a) STATEMENT OF THE CONGRESS.—The Congress recognizes that the stated policy of the executive branch in 1997, the “Partnership for Growth and Opportunity in Africa” initiative, is a step toward the establishment of a comprehensive trade and development policy for sub-Saharan Africa. It is the sense of the Congress

that this Partnership is a companion to the policy goals set forth in this title.

(b) TECHNICAL ASSISTANCE TO PROMOTE ECONOMIC REFORMS AND DEVELOPMENT.—In addition to continuing bilateral and multi-lateral economic and development assistance, the President shall target technical assistance toward—

(1) developing relationships between United States firms and firms in sub-Saharan Africa through a variety of business associations and networks;

(2) providing assistance to the governments of sub-Saharan African countries to—

(A) liberalize trade and promote exports;

(B) bring their legal regimes into compliance with the standards of the World Trade Organization in conjunction with membership in that Organization;

(C) make financial and fiscal reforms; and

(D) promote greater agribusiness linkages;

(3) addressing such critical agricultural policy issues as market liberalization, agricultural export development, and agribusiness investment in processing and transporting agricultural commodities;

(4) increasing the number of reverse trade missions to growth-oriented countries in sub-Saharan Africa;

(5) increasing trade in services; and

(6) encouraging greater sub-Saharan African participation in future negotiations in the World Trade Organization on services and making further commitments in their schedules to the General Agreement on Trade in Services in order to encourage the removal of tariff and nontariff barriers.

SEC. 123. OVERSEAS PRIVATE INVESTMENT CORPORATION INITIATIVES. 19 USC 3733.

(a) INITIATION OF FUNDS.—It is the sense of the Congress that the Overseas Private Investment Corporation should exercise the authorities it has to initiate an equity fund or equity funds in support of projects in the countries in sub-Saharan Africa, in addition to the existing equity fund for sub-Saharan Africa created by the Corporation.

(b) STRUCTURE AND TYPES OF FUNDS.—

(1) STRUCTURE.—Each fund initiated under subsection (a) should be structured as a partnership managed by professional private sector fund managers and monitored on a continuing basis by the Corporation.

(2) CAPITALIZATION.—Each fund should be capitalized with a combination of private equity capital, which is not guaranteed by the Corporation, and debt for which the Corporation provides guaranties.

(3) INFRASTRUCTURE FUND.—One or more of the funds, with combined assets of up to \$500,000,000, should be used in support of infrastructure projects in countries of sub-Saharan Africa.

(4) EMPHASIS.—The Corporation shall ensure that the funds are used to provide support in particular to women entrepreneurs and to innovative investments that expand opportunities for women and maximize employment opportunities for poor individuals.

(c) OVERSEAS PRIVATE INVESTMENT CORPORATION.—

- 22 USC 2193. (1) INVESTMENT ADVISORY COUNCIL.—Section 233 of the Foreign Assistance Act of 1961 is amended by adding at the end the following:
“(e) INVESTMENT ADVISORY COUNCIL.—The Board shall take prompt measures to increase the loan, guarantee, and insurance programs, and financial commitments, of the Corporation in sub-Saharan Africa, including through the use of an investment advisory council to assist the Board in developing and implementing policies, programs, and financial instruments with respect to sub-Saharan Africa. In addition, the investment advisory council shall make recommendations to the Board on how the Corporation can facilitate greater support by the United States for trade and investment with and in sub-Saharan Africa. The investment advisory council shall terminate 4 years after the date of the enactment of this subsection.”
- Termination date.
- Deadline. (2) REPORTS TO CONGRESS.—Within 6 months after the date of the enactment of this Act, and annually for each of the 4 years thereafter, the Board of Directors of the Overseas Private Investment Corporation shall submit to Congress a report on the steps that the Board has taken to implement section 233(e) of the Foreign Assistance Act of 1961 (as added by paragraph (1)) and any recommendations of the investment advisory council established pursuant to such section.
- 19 USC 3734. **SEC. 124. EXPORT-IMPORT BANK INITIATIVES.**
(a) SENSE OF THE CONGRESS.—It is the sense of the Congress that the Board of Directors of the Bank shall continue to take comprehensive measures, consistent with the credit standards otherwise required by law, to promote the expansion of the Bank’s financial commitments in sub-Saharan Africa under the loan, guarantee and insurance programs of the Bank.
(b) SUB-SAHARAN AFRICA ADVISORY COMMITTEE.—The sub-Saharan Africa Advisory Committee (SAAC) is to be commended for aiding the Bank in advancing the economic partnership between the United States and the nations of sub-Saharan Africa by doubling the number of sub-Saharan African countries in which the Bank is open for traditional financing and by increasing by tenfold the Bank’s support for sales to sub-Saharan Africa from fiscal year 1998 to fiscal year 1999. The Board of Directors of the Bank and its staff shall continue to review carefully the sub-Saharan Africa Advisory Committee recommendations on the development and implementation of new and innovative policies and programs designed to promote the Bank’s expansion in sub-Saharan Africa.
- 19 USC 3735. **SEC. 125. EXPANSION OF THE UNITED STATES AND FOREIGN COMMERCIAL SERVICE IN SUB-SAHARAN AFRICA.**
(a) FINDINGS.—The Congress makes the following findings:
(1) The United States and Foreign Commercial Service (hereafter in this section referred to as the “Commercial Service”) plays an important role in helping United States businesses identify export opportunities and develop reliable sources of information on commercial prospects in foreign countries.
(2) During the 1980s, the presence of the Commercial Service in sub-Saharan Africa consisted of 14 professionals providing services in eight countries. By early 1997, that presence had been reduced by half to seven professionals in only four countries.

(3) Since 1997, the Department of Commerce has slowly begun to increase the presence of the Commercial Service in sub-Saharan Africa, adding five full-time officers to established posts.

(4) Although the Commercial Service Officers in these countries have regional responsibilities, this kind of coverage does not adequately service the needs of United States businesses attempting to do business in sub-Saharan Africa.

(5) The Congress has, on several occasions, encouraged the Commercial Service to focus its resources and efforts in countries or regions in Europe or Asia to promote greater United States export activity in those markets, and similar encouragement should be provided for countries in sub-Saharan Africa as well.

(6) Because market information is not widely available in many sub-Saharan African countries, the presence of additional Commercial Service Officers and resources can play a significant role in assisting United States businesses in markets in those countries.

(b) APPOINTMENTS.—Subject to the availability of appropriations, by not later than December 31, 2001, the Secretary of Commerce, acting through the Assistant Secretary of Commerce and Director General of the United States and Foreign Commercial Service, shall take steps to ensure that—

Deadline.

(1) at least 20 full-time Commercial Service employees are stationed in sub-Saharan Africa; and

(2) full-time Commercial Service employees are stationed in not less than 10 different sub-Saharan African countries.

(c) INITIATIVE FOR SUB-SAHARAN AFRICA.—In order to encourage the export of United States goods and services to sub-Saharan African countries, the International Trade Administration shall make a special effort to—

(1) identify United States goods and services which are the best prospects for export by United States companies to sub-Saharan Africa;

(2) identify, where appropriate, tariff and nontariff barriers that are preventing or hindering sales of United States goods and services to, or the operation of United States companies in, sub-Saharan Africa;

(3) hold discussions with appropriate authorities in sub-Saharan Africa on the matters described in paragraphs (1) and (2) with a view to securing increased market access for United States exporters of goods and services;

(4) identify current resource allocations and personnel levels in sub-Saharan Africa for the Commercial Service and consider plans for the deployment of additional resources or personnel to that region; and

(5) make available to the public, through printed and electronic means of communication, the information derived pursuant to paragraphs (1) through (4) for each of the 4 years after the date of the enactment of this Act.

SEC. 126. DONATION OF AIR TRAFFIC CONTROL EQUIPMENT TO ELIGIBLE SUB-SAHARAN AFRICAN COUNTRIES.

19 USC 3736.

It is the sense of the Congress that, to the extent appropriate, the United States Government should make every effort to donate to governments of sub-Saharan African countries determined to

be eligible under section 104 air traffic control equipment that is no longer in use, including appropriate related reimbursable technical assistance.

19 USC 3737.

SEC. 127. ADDITIONAL AUTHORITIES AND INCREASED FLEXIBILITY TO PROVIDE ASSISTANCE UNDER THE DEVELOPMENT FUND FOR AFRICA.

(a) **USE OF SUSTAINABLE DEVELOPMENT ASSISTANCE TO SUPPORT FURTHER ECONOMIC GROWTH.**—It is the sense of the Congress that sustained economic growth in sub-Saharan Africa depends in large measure upon the development of a receptive environment for trade and investment, and that to achieve this objective the United States Agency for International Development should continue to support programs which help to create this environment. Investments in human resources, development, and implementation of free market policies, including policies to liberalize agricultural markets and improve food security, and the support for the rule of law and democratic governance should continue to be encouraged and enhanced on a bilateral and regional basis.

(b) **DECLARATIONS OF POLICY.**—The Congress makes the following declarations:

(1) The Development Fund for Africa established under chapter 10 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2293 et seq.) has been an effective tool in providing development assistance to sub-Saharan Africa since 1988.

(2) The Development Fund for Africa will complement the other provisions of this title and lay a foundation for increased trade and investment opportunities between the United States and sub-Saharan Africa.

(3) Assistance provided through the Development Fund for Africa will continue to support programs and activities that promote the long term economic development of sub-Saharan Africa, such as programs and activities relating to the following:

(A) Strengthening primary and vocational education systems, especially the acquisition of middle-level technical skills for operating modern private businesses and the introduction of college level business education, including the study of international business, finance, and stock exchanges.

(B) Strengthening health care systems.

(C) Supporting democratization, good governance and civil society and conflict resolution efforts.

(D) Increasing food security by promoting the expansion of agricultural and agriculture-based industrial production and productivity and increasing real incomes for poor individuals.

(E) Promoting an enabling environment for private sector-led growth through sustained economic reform, privatization programs, and market-led economic activities.

(F) Promoting decentralization and local participation in the development process, especially linking the rural production sectors and the industrial and market centers throughout Africa.

(G) Increasing the technical and managerial capacity of sub-Saharan African individuals to manage the economy of sub-Saharan Africa.

(H) Ensuring sustainable economic growth through environmental protection.

(4) The African Development Foundation has a unique congressional mandate to empower the poor to participate fully in development and to increase opportunities for gainful employment, poverty alleviation, and more equitable income distribution in sub-Saharan Africa. The African Development Foundation has worked successfully to enhance the role of women as agents of change, strengthen the informal sector with an emphasis on supporting micro and small sized enterprises, indigenous technologies, and mobilizing local financing. The African Development Foundation should develop and implement strategies for promoting participation in the socioeconomic development process of grassroots and informal sector groups such as nongovernmental organizations, cooperatives, artisans, and traders into the programs and initiatives established under this title.

(c) ADDITIONAL AUTHORITIES.—

(1) IN GENERAL.—Section 496(h) of the Foreign Assistance Act of 1961 (22 U.S.C. 2293(h)) is amended—

(A) by redesignating paragraph (3) as paragraph (4); and

(B) by inserting after paragraph (2) the following:

“(3) DEMOCRATIZATION AND CONFLICT RESOLUTION CAPABILITIES.—Assistance under this section may also include program assistance—

“(A) to promote democratization, good governance, and strong civil societies in sub-Saharan Africa; and

“(B) to strengthen conflict resolution capabilities of governmental, intergovernmental, and nongovernmental entities in sub-Saharan Africa.”.

(2) CONFORMING AMENDMENT.—Section 496(h)(4) of such Act, as amended by paragraph (1), is further amended by striking “paragraphs (1) and (2)” in the first sentence and inserting “paragraphs (1), (2), and (3)”.

SEC. 128. ASSISTANCE FROM UNITED STATES PRIVATE SECTOR TO PREVENT AND REDUCE HIV/AIDS IN SUB-SAHARAN AFRICA. 19 USC 3738.

It is the sense of the Congress that United States businesses should be encouraged to provide assistance to sub-Saharan African countries to prevent and reduce the incidence of HIV/AIDS in sub-Saharan Africa. In providing such assistance, United States businesses should be encouraged to consider the establishment of an HIV/AIDS Response Fund in order to provide for coordination among such businesses in the collection and distribution of the assistance to sub-Saharan African countries.

SEC. 129. SENSE OF THE CONGRESS RELATING TO HIV/AIDS CRISIS IN SUB-SAHARAN AFRICA. 19 USC 3739.

(a) FINDINGS.—The Congress finds the following:

(1) Sustained economic development in sub-Saharan Africa depends in large measure upon successful trade with and foreign assistance to the countries of sub-Saharan Africa.

(2) The HIV/AIDS crisis has reached epidemic proportions in sub-Saharan Africa, where more than 21,000,000 men, women, and children are infected with HIV.

(3) Eighty-three percent of the estimated 11,700,000 deaths from HIV/AIDS worldwide have been in sub-Saharan Africa.

(4) The HIV/AIDS crisis in sub-Saharan Africa is weakening the structure of families and societies.

(5)(A) The HIV/AIDS crisis threatens the future of the workforce in sub-Saharan Africa.

(B) Studies show that HIV/AIDS in sub-Saharan Africa most severely affects individuals between the ages of 15 and 49—the age group that provides the most support for the economies of sub-Saharan African countries.

(6) Clear evidence demonstrates that HIV/AIDS is destructive to the economies of sub-Saharan African countries.

(7) Sustained economic development is critical to creating the public and private sector resources in sub-Saharan Africa necessary to fight the HIV/AIDS epidemic.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) addressing the HIV/AIDS crisis in sub-Saharan Africa should be a central component of United States foreign policy with respect to sub-Saharan Africa;

(2) significant progress needs to be made in preventing and treating HIV/AIDS in sub-Saharan Africa in order to sustain a mutually beneficial trade relationship between the United States and sub-Saharan African countries; and

(3) the HIV/AIDS crisis in sub-Saharan Africa is a global threat that merits further attention through greatly expanded public, private, and joint public-private efforts, and through appropriate United States legislation.

SEC. 131. SENSE OF THE CONGRESS REGARDING EFFORTS TO COMBAT DESERTIFICATION IN AFRICA AND OTHER COUNTRIES.

(a) FINDINGS.—The Congress finds that—

(1) desertification affects approximately one-sixth of the world's population and one-quarter of the total land area;

(2) over 1,000,000 hectares of Africa are affected by desertification;

(3) dryland degradation is an underlying cause of recurrent famine in Africa;

(4) the United Nations Environment Programme estimates that desertification costs the world \$42,000,000,000 a year, not including incalculable costs in human suffering; and

(5) the United States can strengthen its partnerships throughout Africa and other countries affected by desertification, help alleviate social and economic crises caused by misuse of natural resources, and reduce dependence on foreign aid, by taking a leading role to combat desertification.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that the United States should expeditiously work with the international community, particularly Africa and other countries affected by desertification, to—

(1) strengthen international cooperation to combat desertification;

(2) promote the development of national and regional strategies to address desertification and increase public awareness of this serious problem and its effects;

(3) develop and implement national action programs that identify the causes of desertification and measures to address it; and

(4) recognize the essential role of local governments and nongovernmental organizations in developing and implementing measures to address desertification.

TITLE II—TRADE BENEFITS FOR CARIBBEAN BASIN

United States-
Caribbean Basin
Trades
Partnership Act.

Subtitle A—Trade Policy for Caribbean Basin Countries

SEC. 201. SHORT TITLE.

This title may be cited as the “United States-Caribbean Basin Trade Partnership Act”.

19 USC 2701
note.

SEC. 202. FINDINGS AND POLICY.

(a) FINDINGS.—Congress makes the following findings:

(1) The Caribbean Basin Economic Recovery Act (in this title referred to as “CBERA”) represents a permanent commitment by the United States to encourage the development of strong democratic governments and revitalized economies in neighboring countries in the Caribbean Basin.

(2) In 1998, Hurricane Mitch and Hurricane Georges devastated areas in the Caribbean Basin region, killing more than 10,000 people and leaving 3,000,000 homeless.

(3) The total direct impact of Hurricanes Mitch and Georges on Honduras, Nicaragua, the Dominican Republic, El Salvador, and Guatemala amounts to \$4,200,000,000, representing a severe loss to income levels in this underdeveloped region.

(4) In addition to short term disaster assistance, United States policy toward the region should focus on expanding

19 USC 2701
note.

international trade with the Caribbean Basin region as an enduring solution for successful economic growth and recovery.

(5) Thirty-four democratically elected leaders agreed at the 1994 Summit of the Americas to conclude negotiation of a Free Trade Area of the Americas (in this title referred to as “FTAA”) by the year 2005.

(6) The economic security of the countries in the Caribbean Basin will be enhanced by the completion of the FTAA.

(7) Offering temporary benefits to Caribbean Basin countries will preserve the United States commitment to Caribbean Basin beneficiary countries, promote the growth of free enterprise and economic opportunity in these neighboring countries, and thereby enhance the national security interests of the United States.

(8) Given the greater propensity of countries located in the Western Hemisphere to use United States components and to purchase United States products compared to other countries, increased trade and economic activity between the United States and countries in the Western Hemisphere will create new jobs in the United States as a result of expanding export opportunities.

(b) POLICY.—It is the policy of the United States—

(1) to offer Caribbean Basin beneficiary countries willing to prepare to become a party to the FTAA or another free trade agreement, tariff treatment essentially equivalent to that accorded to products of NAFTA countries for certain products not currently eligible for duty-free treatment under the CBERA; and

(2) to seek the participation of Caribbean Basin beneficiary countries in the FTAA or another free trade agreement at the earliest possible date, with the goal of achieving full participation in such agreement not later than 2005.

19 USC 2701
note.

SEC. 203. DEFINITIONS.

In this title:

(1) NAFTA.—The term “NAFTA” means the North American Free Trade Agreement entered into between the United States, Mexico, and Canada on December 17, 1992.

(2) NAFTA COUNTRY.—The term “NAFTA country” means any country with respect to which the NAFTA is in force.

(3) WTO AND WTO MEMBER.—The terms “WTO” and “WTO member” have the meanings given those terms in section 2 of the Uruguay Round Agreements Act (19 U.S.C. 3501).

Subtitle B—Trade Benefits for Caribbean Basin Countries

SEC. 211. TEMPORARY PROVISIONS TO PROVIDE ADDITIONAL TRADE BENEFITS TO CERTAIN BENEFICIARY COUNTRIES.

(a) TEMPORARY PROVISIONS.—Section 213(b) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(b)) is amended to read as follows:

“(b) IMPORT-SENSITIVE ARTICLES.—

“(1) IN GENERAL.—Subject to paragraphs (2) through (5), the duty-free treatment provided under this title does not apply to—

“(A) textile and apparel articles which were not eligible articles for purposes of this title on January 1, 1994, as this title was in effect on that date;

“(B) footwear not designated at the time of the effective date of this title as eligible articles for the purpose of the generalized system of preferences under title V of the Trade Act of 1974;

“(C) tuna, prepared or preserved in any manner, in airtight containers;

“(D) petroleum, or any product derived from petroleum, provided for in headings 2709 and 2710 of the HTS;

“(E) watches and watch parts (including cases, bracelets, and straps), of whatever type including, but not limited to, mechanical, quartz digital or quartz analog, if such watches or watch parts contain any material which is the product of any country with respect to which HTS column 2 rates of duty apply; or

“(F) articles to which reduced rates of duty apply under subsection (h).

“(2) TRANSITION PERIOD TREATMENT OF CERTAIN TEXTILE AND APPAREL ARTICLES.—

“(A) ARTICLES COVERED.—During the transition period, the preferential treatment described in subparagraph (B) shall apply to the following articles:

“(i) APPAREL ARTICLES ASSEMBLED IN ONE OR MORE CBTPA BENEFICIARY COUNTRIES.—Apparel articles assembled in one or more CBTPA beneficiary countries from fabrics wholly formed and cut in the United States, from yarns wholly formed in the United States, (including fabrics not formed from yarns, if such fabrics are classifiable under heading 5602 or 5603 of the HTS and are wholly formed and cut in the United States) that are—

“(I) entered under subheading 9802.00.80 of the HTS; or

“(II) entered under chapter 61 or 62 of the HTS, if, after such assembly, the articles would have qualified for entry under subheading 9802.00.80 of the HTS but for the fact that the articles were embroidered or subjected to stone-washing, enzyme-washing, acid washing, perma-pressing, oven-baking, bleaching, garment-dyeing, screen printing, or other similar processes.

“(ii) APPAREL ARTICLES CUT AND ASSEMBLED IN ONE OR MORE CBTPA BENEFICIARY COUNTRIES.—Apparel articles cut in one or more CBTPA beneficiary countries from fabric wholly formed in the United States from yarns wholly formed in the United States (including fabrics not formed from yarns, if such fabrics are classifiable under heading 5602 or 5603 of the HTS and are wholly formed in the United States), if such articles are assembled in one or more such countries with thread formed in the United States.

“(iii) CERTAIN KNIT APPAREL ARTICLES.—(I) Apparel articles knit to shape (other than socks provided for in heading 6115 of the HTS) in a CBTPA beneficiary country from yarns wholly formed in the United States,

and knit apparel articles (other than t-shirts described in subclause (III)) cut and wholly assembled in one or more CBTPA beneficiary countries from fabric formed in one or more CBTPA beneficiary countries or the United States from yarns wholly formed in the United States (including fabrics not formed from yarns, if such fabrics are classifiable under heading 5602 or 5603 of the HTS and are formed in one or more CBTPA beneficiary countries), in an amount not exceeding the amount set forth in subclause (II).

“(II) The amount referred to in subclause (I) is—

“(aa) 250,000,000 square meter equivalents during the 1-year period beginning on October 1, 2000, increased by 16 percent, compounded annually, in each succeeding 1-year period through September 30, 2004; and

“(bb) in each 1-year period thereafter through September 30, 2008, the amount in effect for the 1-year period ending on September 30, 2004, or such other amount as may be provided by law.

“(III) T-shirts, other than underwear, classifiable under subheadings 6109.10.00 and 6109.90.10 of the HTS, made in one or more CBTPA beneficiary countries from fabric formed in one or more CBTPA beneficiary countries from yarns wholly formed in the United States, in an amount not exceeding the amount set forth in subclause (IV).

“(IV) the amount referred to in subclause (III) is—

“(aa) 4,200,000 dozen during the 1-year period beginning on October 1, 2000, increased by 16 percent, compounded annually, in each succeeding 1-year period through September 30, 2004; and

“(bb) in each 1-year period thereafter, the amount in effect for the 1-year period ending on September 30, 2004, or such other amount as may be provided by law.

“(V) It is the sense of the Congress that the Congress should determine, based on the record of expansion of exports from the United States as a result of the preferential treatment of articles under this clause, the percentage by which the amount provided in subclauses (II) and (IV) should be compounded for the 1-year periods occurring after the 1-year period ending on September 30, 2004.

“(iv) CERTAIN OTHER APPAREL ARTICLES.—(I) Subject to subclause (II), any apparel article classifiable under subheading 6212.10 of the HTS, if the article is both cut and sewn or otherwise assembled in the United States, or one or more of the CBTPA beneficiary countries, or both.

“(II) During the 1-year period beginning on October 1, 2001, and during each of the six succeeding 1-year periods, apparel articles described in subclause (I) of a producer or an entity controlling production shall

be eligible for preferential treatment under subparagraph (B) only if the aggregate cost of fabric components formed in the United States that are used in the production of all such articles of that producer or entity during the preceding 1-year period is at least 75 percent of the aggregate declared customs value of the fabric contained in all such articles of that producer or entity that are entered during the preceding 1-year period.

“(III) The United States Customs Service shall develop and implement methods and procedures to ensure ongoing compliance with the requirement set forth in subclause (II). If the Customs Service finds that a producer or an entity controlling production has not satisfied such requirement in a 1-year period, then apparel articles described in subclause (I) of that producer or entity shall be ineligible for preferential treatment under subparagraph (B) during any succeeding 1-year period until the aggregate cost of fabric components formed in the United States used in the production of such articles of that producer or entity in the preceding 1-year period is at least 85 percent of the aggregate declared customs value of the fabric contained in all such articles of that producer or entity that are entered during the preceding 1-year period.

“(v) APPAREL ARTICLES ASSEMBLED FROM FABRICS OR YARN NOT WIDELY AVAILABLE IN COMMERCIAL QUANTITIES.—(I) Apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more CBTPA beneficiary countries, from fabrics or yarn that is not formed in the United States or in one or more CBTPA beneficiary countries, to the extent that apparel articles of such fabrics or yarn would be eligible for preferential treatment, without regard to the source of the fabrics or yarn, under Annex 401 of the NAFTA.

“(II) At the request of any interested party, the President is authorized to proclaim additional fabrics and yarn as eligible for preferential treatment under subclause (I) if—

“(aa) the President determines that such fabrics or yarn cannot be supplied by the domestic industry in commercial quantities in a timely manner;

“(bb) the President has obtained advice regarding the proposed action from the appropriate advisory committee established under section 135 of the Trade Act of 1974 (19 U.S.C. 2155) and the United States International Trade Commission;

“(cc) within 60 days after the request, the President has submitted a report to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate that sets forth the action proposed to be proclaimed and the reasons for such actions, and the advice obtained under division (bb);

Deadline.
Reports.

“(dd) a period of 60 calendar days, beginning with the first day on which the President has met the requirements of division (cc), has expired; and

“(ee) the President has consulted with such committees regarding the proposed action during the period referred to in division (cc).

“(vi) HANDLOOMED, HANDMADE, AND FOLKLORE ARTICLES.—A handloomed, handmade, or folklore article of a CBTPA beneficiary country identified under subparagraph (C) that is certified as such by the competent authority of such beneficiary country.

“(vii) SPECIAL RULES.—

“(I) EXCEPTION FOR FINDINGS AND TRIMMINGS.—(aa) An article otherwise eligible for preferential treatment under this paragraph shall not be ineligible for such treatment because the article contains findings or trimmings of foreign origin, if such findings and trimmings do not exceed 25 percent of the cost of the components of the assembled product. Examples of findings and trimmings are sewing thread, hooks and eyes, snaps, buttons, ‘bow buds’, decorative lace, trim, elastic strips, zippers, including zipper tapes and labels, and other similar products. Elastic strips are considered findings or trimmings only if they are each less than 1 inch in width and are used in the production of brassieres.

“(bb) In the case of an article described in clause (ii) of this subparagraph, sewing thread shall not be treated as findings or trimmings under this subclause.

“(II) CERTAIN INTERLINING.—(aa) An article otherwise eligible for preferential treatment under this paragraph shall not be ineligible for such treatment because the article contains certain interlinings of foreign origin, if the value of such interlinings (and any findings and trimmings) does not exceed 25 percent of the cost of the components of the assembled article.

“(bb) Interlinings eligible for the treatment described in division (aa) include only a chest type plate, ‘hymo’ piece, or ‘sleeve header’, of woven or weft-inserted warp knit construction and of coarse animal hair or man-made filaments.

“(cc) The treatment described in this subclause shall terminate if the President makes a determination that United States manufacturers are producing such interlinings in the United States in commercial quantities.

SEC. 409. AGRICULTURAL TRADE NEGOTIATING OBJECTIVES AND CONSULTATIONS WITH CONGRESS.

7 USC 1736r
note.

- (a) FINDINGS.—Congress finds that—
- (1) United States agriculture contributes positively to the United States balance of trade and United States agricultural exports support in excess of 1,000,000 United States jobs;
 - (2) United States agriculture competes successfully worldwide despite the fact that United States producers are at a competitive disadvantage because of the trade distorting support and subsidy practices of other countries and despite the fact that significant tariff and nontariff barriers exist to United States exports; and
 - (3) a successful conclusion of the current World Trade Organization agricultural negotiations is critically important to the United States agricultural sector.
- (b) OBJECTIVES.—The agricultural trade negotiating objectives of the United States with respect to the current World Trade Organization agricultural negotiations include as matters of the highest priority—
- (1) the expeditious elimination of all export subsidies worldwide while maintaining bona fide food aid and preserving United States market development and export credit programs that allow the United States to compete with other foreign export promotion efforts;

(2) leveling the playing field for United States producers of agricultural products by eliminating blue box subsidies and disciplining domestic supports in a way that forces producers to face world prices on all production in excess of domestic food security needs while allowing the preservation of nontrade distorting programs to support family farms and rural communities;

(3) the elimination of state trading enterprises or the adoption of rigorous disciplines that ensure operational transparency, competition, and the end of discriminatory pricing practices, including policies supporting cross-subsidization and price undercutting in export markets;

(4) affirming that the World Trade Organization Agreement on the Application of Sanitary and Phytosanitary Measures applies to new technologies, including biotechnology, and that labeling requirements to allow consumers to make choices regarding biotechnology products or other regulatory requirements may not be used as disguised barriers to trade;

(5) increasing opportunities for United States exports of agricultural products by reducing tariffs to the same levels that exist in the United States or to lower levels and by eliminating all nontariff barriers, including—

(A) restrictive or trade distorting practices, including those that adversely impact perishable or cyclical products;

(B) restrictive rules in the administration of tariff-rate quotas; and

(C) other barriers to agriculture trade, including unjustified restrictions or commercial requirements affecting new technologies, including biotechnology;

(6) eliminating government policies that create price-depressing surpluses; and

(7) strengthening dispute settlement procedures to ensure prompt compliance by foreign governments with their World Trade Organization obligations including commitments not to maintain unjustified restrictions on United States exports.

(c) CONSULTATION WITH CONGRESSIONAL COMMITTEES.—

(1) CONSULTATION BEFORE OFFER MADE.—In developing and before submitting an initial or revised negotiating proposal that would reduce United States tariffs on agricultural products or require a change in United States agricultural law, the United States Trade Representative shall consult with the Committee on Agriculture, Nutrition, and Forestry and the Committee on Finance of the Senate and the Committee on Agriculture and the Committee on Ways and Means of the House of Representatives.

(2) CONSULTATION WITH CONGRESSIONAL TRADE ADVISERS.—Prior to and during the course of current negotiations on agricultural trade, the United States Trade Representative shall consult closely with the congressional trade advisers.

(3) CONSULTATION BEFORE AGREEMENT INITIALED.—Not less than 48 hours before initialing an agreement reached as part of current World Trade Organization agricultural negotiations, the United States Trade Representative shall consult closely with the committees referred to in paragraph (1) regarding—

(A) the details of the agreement;

(B) the potential impact of the agreement on United States agricultural producers; and

(C) any changes in United States law necessary to implement the agreement.

(4) DISCLOSURE OF COMMITMENTS.—Any agreement or other understanding addressing agricultural trade with a foreign government or governments (whether oral or in writing) that relates to a trade agreement with respect to which Congress must enact implementing legislation and that is not disclosed to Congress before legislation implementing that agreement is introduced in either House of Congress shall not be considered to be part of the agreement approved by Congress and shall have no force and effect under United States law or in any dispute settlement body.

(d) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) granting the President trade negotiating authority is essential to the successful conclusion of the new round of World Trade Organization agricultural negotiations;

(2) reaching a successful agreement on agriculture should be the top priority of United States negotiators; and

(3) if by the conclusion of the negotiations, the primary agricultural competitors of the United States do not agree to reduce their trade distorting domestic supports and eliminate export subsidies in accordance with the negotiating objectives expressed in this section, the United States should take steps to increase the leverage of United States negotiators and level the playing field for United States producers.

Generalized System of Preferences**

Presidential Documents

Title 3—

Proclamation 7328 of July 6, 2000

The President

To Amend the Generalized System of Preferences

By the President of the United States of America

A Proclamation

1. Section 502(c)(7) of the Trade Act of 1974, as amended (the “Trade Act”) (19 U.S.C. 2462(c)(7)), provides that, in determining whether to designate any country a beneficiary developing country under this section, the President shall take into account whether that country has taken or is taking steps to afford internationally recognized worker rights to workers in that country. Section 502(d)(1) of the Trade Act (19 U.S.C. 2462(d)(1)) provides that the President may withdraw, suspend, or limit the application of duty-free treatment under the Generalized System of Preferences (GSP) with respect to any designated beneficiary developing country based on consideration of the factors set forth in sections 501 and 502(c) of the Trade Act (19 U.S.C. 2461 and 2462(c)). Section 502(f)(2) of the Trade Act (19 U.S.C. 2462(f)(2)) requires the President to notify the Congress and the affected country, at least 60 days before termination, of the President’s intention to terminate the affected country’s designation as a beneficiary developing country for purposes of the GSP.

2. Section 502(e) of the Trade Act (19 U.S.C. 2462(e)) provides that the President shall terminate the designation of a country as a beneficiary developing country if the President determines that such country has become a “high income” country as defined by the official statistics of the International Bank for Reconstruction and Development. Termination is effective on January 1 of the second year following the year in which such determination is made.

3. Pursuant to section 502(d) of the Trade Act, and having considered the factors set forth in sections 501 and 502(c), I have determined that it is appropriate to suspend Belarus’s GSP benefits because it has not taken and is not taking steps to afford workers in that country internationally recognized worker rights. In order to reflect the suspension of benefits under the GSP for articles imported from Belarus, I have determined that it is appropriate to modify general note 4(a) of the Harmonized Tariff Schedule of the United States (HTS).

4. Pursuant to section 502(e) of the Trade Act, I have determined that Malta, French Polynesia, New Caledonia, and Slovenia meet the definition of a “high income” country as defined by the official statistics of the International Bank for Reconstruction and Development. Accordingly, pursuant to section 502(e) of the Trade Act, I am terminating the preferential treatment under the GSP for articles that are currently eligible for such treatment and that are imported from Malta, French Polynesia, New Caledonia, and Slovenia, effective January 1, 2002.

5. Section 604 of the Trade Act, as amended (19 U.S.C. 2483), authorizes the President to embody in the HTS the substance of the relevant provisions of that Act, and of other Acts affecting import treatment, and actions thereunder.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States of America, including but not limited to Title V and section 604 of the Trade Act, do proclaim that:

(1) In order to reflect the suspension of benefits under the GSP with respect to Belarus, general note 4(a) of the HTS is modified by deleting "Belarus" from the list of independent countries, effective with respect to articles entered, or withdrawn from warehouse for consumption, on or after 60 days after the date of publication of this proclamation in the **Federal Register**.

(2) In order to terminate the designation of Malta, French Polynesia, New Caledonia, and Slovenia as beneficiary developing countries under the GSP, general note 4(a) of the HTS is modified by:

(a) deleting "Malta" and "Slovenia" from the list of independent countries, and

(b) deleting "French Polynesia" and "New Caledonia" from the list of nonindependent countries and territories, effective with respect to articles entered, or withdrawn from warehouse for consumption, on or after January 1, 2002.

(3) Any provisions of previous proclamations and Executive Orders that are inconsistent with the actions taken in this proclamation are superseded to the extent of such inconsistency.

IN WITNESS WHEREOF, I have hereunto set my hand this sixth day of July, in the year of our Lord two thousand, and of the Independence of the United States of America the two hundred and twenty-fifth.

2. Pursuant to sections 501 and 502 of the 1974 Act, and having due regard for the eligibility criteria set forth therein, I have determined that it is appropriate to designate Nigeria as a beneficiary developing country for purposes of the GSP.

A Proclamation

1. Section 111(a) of the African Growth and Opportunity Act (Title I of Public Law 106–200) (AGOA) amends Title V of the Trade Act of 1974, as amended (the “1974 Act”), to provide, in new section 506A(a) (19 U.S.C. 2466a(a)), that the President is authorized to designate countries listed in section 107 of the AGOA as “beneficiary sub-Saharan African countries.”
2. Section 112(a) of the AGOA (19 U.S.C. 3721(a)) provides that eligible textile and apparel articles that are imported directly into the customs territory of the United States from a beneficiary sub-Saharan African country shall enter the United States free of duty and free of quantitative limitations, provided that the country has satisfied the requirements of section 113(a) of the AGOA (19 U.S.C. 3722(a)) relating to the establishment of procedures to protect against unlawful transshipments, and section 113(b)(1)(B) of the AGOA (19 U.S.C. 3722(b)(1)(B)) relating to the implementation of procedures and requirements similar to those in chapter 5 of the North American Free Trade Agreement (NAFTA).

4. Section 112(c) of the AGOA (19 U.S.C. 3721(c)) provides that the President shall eliminate the existing quotas on textile and apparel articles imported into the United States (a) from Kenya within 30 days after that country adopts an effective visa system to prevent unlawful transshipment of textile and apparel articles and the use of counterfeit documents relating to the importation of the articles into the United States, and (b) from Mauritius within 30 days after that country adopts such a visa system.
5. In order to implement the tariff treatment provided under the AGOA, it is necessary to modify the Harmonized Tariff Schedule of the United States (HTS), thereby incorporating the substance of the relevant provisions of the AGOA.

8. I have determined that it is appropriate to authorize the United States Trade Representative (USTR) to perform the functions specified in sections 112(c) and 113(b)(1)(B) of the AGOA and to make the findings identified in section 113(a) of the AGOA and to perform certain functions under section 604 of the 1974 Act.

Proclamation 7351 of October 2, 2000

To Implement the United States-Caribbean Basin Trade Partnership Act

By the President of the United States of America

A Proclamation

1. Section 211 of the United States-Caribbean Basin Trade Partnership Act (Title II of Public Law 106-200) (CBTPA), which amends section 213(b) of the Caribbean Basin Economic Recovery Act (CBERA) (19 U.S.C. 2703(b)), provides that certain preferential tariff treatment may be provided to eligible articles that are the product of any country that the President designates as a "CBTPA beneficiary country" pursuant to section 213(b)(5)(B) of the CBERA (19 U.S.C. 2703(b)(5)(B)), provided that the President determines that the country has satisfied the requirements of section 213(b)(4)(A)(ii) of the CBERA (19 U.S.C. 2703(b)(4)(A)(ii)) relating to the implementation of procedures and requirements similar to those in chapter 5 of the North American Free Trade Agreement (NAFTA).

2. Section 211 of the CBTPA, which amends section 213(b) of the CBERA (19 U.S.C. 2703(b)), provides that eligible textile and apparel articles of a designated CBTPA beneficiary country shall enter the United States free of duty and free of quantitative limitations, provided that the President determines that the country has satisfied the requirements of section 213(b)(4)(A)(ii) of the CBERA relating to the implementation of procedures and requirements similar to those in chapter 5 of the NAFTA.

3. Section 212 of the CBTPA, which amends section 213(a) of the CBERA (19 U.S.C. 2703(a)), provides duty-free treatment for certain liqueurs and spirituous beverages produced in Canada from rum that originates in a designated beneficiary country or the Virgin Islands of the United States.

4. In order to implement the tariff treatment provided under the CBTPA, it is necessary to modify the Harmonized Tariff Schedule of the United States (HTS), thereby incorporating the substance of the relevant provisions of the CBTPA.

5. Section 604 of the Trade Act of 1974 (the "1974 Act") (19 U.S.C. 2483) authorizes the President to embody in the HTS the substance of the relevant provisions of that Act, and of other acts affecting import treatment, and actions thereunder, including the removal, modification, continuance, or imposition of any rate of duty or other import restriction.

6. I have determined that it is appropriate to authorize the United States Trade Representative (USTR) to perform the functions specified in section 213(b)(4)(A)(ii) of the CBERA and certain functions under section 604 of the 1974 Act.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States, including section 301 of title 3, United States Code, sections 211 and 212 of the CBTPA, section 213 of the CBERA, and section 604 of the 1974 Act, do proclaim that:

(1) In order to provide for the preferential treatment provided for in section 213 of the CBERA (19 U.S.C. 2703), as amended by the CBTPA, the HTS is modified as provided in the Annex to this proclamation.

(2) The following countries are designated as CBTPA beneficiary countries pursuant to section 213(b)(5)(B) of the CBERA:

Antigua and Barbuda
Aruba
Bahamas
Barbados
Belize
Costa Rica
Dominica
Dominican Republic
El Salvador
Grenada
Guatemala
Guyana
Haiti
Honduras
Jamaica
Montserrat
Netherlands Antilles
Nicaragua
Panama
St. Kitts and Nevis
Saint Lucia
Saint Vincent and the Grenadines
Trinidad and Tobago
British Virgin Islands

(3) The USTR is authorized to determine whether each designated beneficiary country has satisfied the requirements of section 213(b)(4)(A)(ii) of the CBERA relating to the implementation of procedures and requirements similar in all material respects to the relevant procedures and requirements under chapter 5 of the NAFTA. To implement such determination or determinations, the USTR is authorized to exercise the authority provided to the President under section 604 of the 1974 Act to embody modifications and technical or conforming changes in the HTS. The determination or determinations of the USTR under this paragraph shall be set forth in a notice or notices that the USTR shall cause to be published in the **Federal Register**. Such notice or notices shall modify general note 17 of the HTS by listing the countries that satisfy the requirements of section 213(b)(4)(A)(ii) of the CBERA.

(4) Any provisions of previous proclamations and Executive orders that are inconsistent with the actions taken in this proclamation are superseded to the extent of such inconsistency.

(5) This proclamation is effective on the date of signature of this proclamation, except that the modifications to the HTS made by the Annex to this proclamation, as further modified by any notice to be published in the **Federal Register** as described in paragraph 3 of this proclamation, shall be effective on the date announced by the USTR in such notice.

IN WITNESS WHEREOF, I have hereunto set my hand this second day of October, in the year of our Lord two thousand, and of the Independence of the United States of America the two hundred and twenty-fifth.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Determination Under the Caribbean Basin Trade Partnership Act

AGENCY: Office of the United States Trade Representative.

ACTION: Notice.

SUMMARY: The United States Trade Representative has determined that Belize, Costa Rica, Dominican Republic, El Salvador, Guatemala, Haiti, Honduras, Jamaica, Nicaragua, and Panama have implemented and follow, or are making substantial progress toward implementing and following, the customs procedures required by the Caribbean Basin Trade Partnership Act and, therefore, imports of eligible products from these countries qualify for the enhanced trade benefits provided under the Act.

EFFECTIVE DATE: October 2, 2000.

FOR FURTHER INFORMATION CONTACT:

Christopher Wilson, Director for Central America and the Caribbean, Office of the United States Trade Representative, (202) 395-5190.

SUPPLEMENTARY INFORMATION: The Caribbean Basin Trade partnership Act (Title II of the Trade and Development Act of 2000, Pub. L. No. 106-200) (CBTPA) expands the trade benefits available to Caribbean and Central American countries under the Caribbean Basin Economic Recovery Act (CBERA). The CBTPA reduces or eliminates tariffs and eliminates quantitative restrictions on certain products that previously were not eligible for preferential treatment under the CBERA. The enhanced trade benefits provided by the CBTPA are available to imports of eligible products from countries that (1) are designated as "CBTPA beneficiary countries," and (2) have implemented and follow, or are making substantial progress toward implementing and following, certain customs procedures, drawn from Chapter 5 of the North American Free Trade Agreement, that allow U.S.

Customs to verify the origin of the products.

On October 2, 2000, the President designated all 24 current beneficiaries under the CBERA as "CBTPA beneficiary countries." Proclamation 7351 delegated to the United States Trade Representative (USTR) the authority to determine whether the designated CBTPA beneficiary countries have implemented and follow, or are making substantial progress toward implementing and following, the customs procedures required by the CBTPA. The President directed the USTR to announce any such determinations in the **Federal Register** and to implement any such determinations in the Harmonized Tariff Schedule (HTS).

Based on information and commitments received from beneficiary countries to date, I have determined that Belize, Costa Rica, Dominican Republic, El Salvador, Guatemala, Haiti, Honduras, Jamaica, Nicaragua, and Panama have implemented and follow, or are making substantial progress toward implementing and following, the customs procedures required by the CBTPA. Accordingly, pursuant to the authority vested in the USTR by Proclamation 7351, the HTS is modified as provided in Proclamation 7351 and as specified in the Annex to this notice, effective with respect to articles entered, or withdrawn from warehouse, on or after October 2, 2000. The USTR will publish additional notices in the **Federal Register** announcing any determinations that other CBTPA beneficiary countries have satisfied the required customs procedures.

Charlene Barshefsky,

United States Trade Representative.

Annex

Pursuant to the authority created in Proclamation 7351, the HTS is modified as follows:

1(a). General note 17(a) to the HTS, as established by the annex to such Proclamation, is modified by inserting at the end of the text the following new sentence and enumeration:

"The following countries have been determined by the USTR to have satisfied the customs requirements of the CBTPA and, therefore, to be afforded the tariff treatment provided for in this note:

Belize, Costa Rica, Dominican Republic, El Salvador, Guatemala, Haiti, Honduras, Jamaica, Nicaragua, Panama"

(b). General note 17(d) to the HTS, as established by the annex to such Proclamation, is modified by striking "the date announced in a **Federal Register** notice issued by the United

¹¹ 17 CFR 200.30-3(a)(12)

States Trade Representative" and by inserting in lieu thereof "October 2, 2000."

2. The text of U.S. note 7 to subchapter II of chapter 98 of the HTS, as established by the annex to such Proclamation, is modified by inserting before it the paragraph designation "(b)". Such paragraph is modified by inserting at the end thereof the following new sentence and enumeration:

"The following countries have been determined by the USTR to have satisfied the customs requirements of the CBTPA and, therefore, to be afforded the tariff treatment provided for in this note:

Belize, Costa Rica, Dominican Republic, El Salvador, Guatemala, Haiti, Honduras, Jamaica, Nicaragua, Panama"

3. U.S. note 1 subchapter XX of chapter 98 of the HTS, as established by the annex to such Proclamation, is modified by adding at the end of the text of such note the following new sentence and enumeration:

"The following countries have been determined by the USTR to have satisfied the customs requirements of the CBTPA and, therefore, to be afforded the tariff treatment provided for in this note:

Belize, Costa Rica, Dominican Republic, El Salvador, Guatemala, Haiti, Honduras, Jamaica, Nicaragua, Panama"

4. U.S. note 2(b) and (c) are each modified by striking the expression "the date announced in a **Federal Register** notice issued by the United States Trade Representative" and by inserting in lieu thereof "October 2, 2000".

Federal Railroad Administration

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration, DOT.

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) and its implementing regulations, this 30-day notice announces that the Information Collection Requirement (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected burden. The **Federal Register** notice with a 60-day comment

period soliciting comments on the following collections of information was published on July 25, 2000 (65 FR 45825).

DATES: Comments must be submitted on or before November 9, 2000.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1120 Vermont Ave., NW., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493-6292), or Dian Deal, Office of Information Technology and Productivity Improvement, RAD-20, Federal Railroad Administration, 1120 Vermont Ave., NW., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6133). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Pub. L. No. 104-13, § 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 C.F.R. Part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. 44 U.S.C. 3506, 3507; 5 C.F.R. 1320.5, 1320.8(d)(1), 1320.12. On July 25, 2000, FRA published a 60-day notice in the **Federal Register** soliciting comment on ICRs that the agency was seeking OMB approval. 65 FR 45825. FRA received no comments in response to this notice.

Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5 CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30 day notice is published. 44 U.S.C. 3507 (b)-(c); 5 CFR 1320.12(d); see also 60 FR 44978, 44983, Aug. 29, 1995. OMB believes that the 30 day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); see also 60 FR 44983, Aug. 29, 1995.

The summaries below describe the nature of the information collection requirements (ICRs) and the expected burden. The revised requirements are being submitted for clearance by OMB as required by the PRA.

Title: Regional Inspection Point Listing Forms.

OMB Control Number: 2130-New.

Type of Request: New collection.

Affected Public: Businesses.

Form(s): FRA F 6180.106(a)-(e).

Abstract: Through a direct comparison of inspection data with accident/incident data, the collection of information proposes to develop a profile county-by-county of what there is to inspect, and how much inspection activity was done by Federal and State railroad inspectors each year nationwide. The information collected will produce "snapshots" which will allow FRA to determine where the gaps are in inspection territories so that it can focus inspection resources where they will do the most good. As a result of the proposed information collection, FRA will be better able to equalize inspector workloads, and will be able to make informed hiring decisions regarding the most effective placement of new inspectors. More targeted inspections will permit FRA to maximize its limited resources, and will serve to enhance overall safety on the nation's rail system.

Annual Estimated Burden Hours: 3,387.

**CHAPTER 2—SPECIAL CLASSIFICATION RELATING TO
PRODUCT DEVELOPMENT AND TESTING**

SEC. 1431. SHORT TITLE.

This chapter may be cited as the “Product Development and Testing Act of 2000”.

SEC. 1432. FINDINGS; PURPOSE.

(a) **FINDINGS.**—The Congress finds the following:

(1)(A) A substantial amount of development and testing occurs in the United States incident to the introduction and manufacture of new products for both domestic consumption and export overseas.

(B) Testing also occurs with respect to merchandise that has already been introduced into commerce to insure that it continues to meet specifications and performs as designed.

(2) The development and testing that occurs in the United States incident to the introduction and manufacture of new products, and with respect to products which have already been introduced into commerce, represents a significant industrial activity employing highly-skilled workers in the United States.

(3)(A) Under the current laws affecting the importation of merchandise, such as the provisions of part I of title IV of the Tariff Act of 1930 (19 U.S.C. 1401 et seq.), goods commonly referred to as “prototypes”, used for product development testing and product evaluation purposes, are subject to customs duty upon their importation into the United States unless the prototypes qualify for duty-free treatment under special trade programs or unless the prototypes are entered under a temporary importation bond.

(B) In addition, the United States Customs Service has determined that the value of prototypes is to be included in the value of production articles if the prototypes are the result of the same design and development effort as the articles.

(4)(A) Assessing duty on prototypes twice, once when the prototypes are imported and a second time thereafter as part of the cost of imported production merchandise, discourages development and testing in the United States, and thus encourages development and testing to occur overseas, since, in that case, duty will only be assessed once, upon the importation of production merchandise.

(B) Assessing duty on these prototypes twice unnecessarily inflates the cost to businesses, thus reducing their competitiveness.

(5) Current methods for avoiding the excessive assessment of customs duties on the importation of prototypes, including the use of temporary importation entries and obtaining drawback, are unwieldy, ineffective, and difficult for both importers and the United States Customs Service to administer.

(b) **PURPOSE.**—The purpose of this chapter is to promote product development and testing in the United States by permitting the importation of prototypes on a duty-free basis.

SEC. 1433. AMENDMENTS TO HARMONIZED TARIFF SCHEDULE OF THE UNITED STATES.

(a) **HEADING.**—Subchapter XVII of Chapter 98 is amended by inserting in numerical sequence the following new heading:

9817.85.01	Prototypes to be used exclusively for development, testing, product evaluation, or quality control purposes	Free	
			The rate applicable in the absence of this heading

(b) **U.S. NOTE.**—The U.S. Notes to subchapter XVII of chapter 98 are amended by adding at the end the following:

“6. The following provisions apply to heading 9817.85.01:

“(a) For purposes of this subchapter, including heading 9817.85.01, the term ‘prototypes’ means originals or models of articles that—

“(i) are either in the preproduction, production, or postproduction stage and are to be used exclusively for development, testing, product evaluation, or quality control purposes; and

“(ii) in the case of originals or models of articles that are either in the production or postproduction stage, are associated with a design change from current production (including a refinement, advancement, improvement, development, or quality control in either the product itself or the means for producing the product).

For purposes of clause (i), automobile racing for purse, prize, or commercial competition shall not be considered to be “development, testing, product evaluation, or quality control.”

“(b)(i) Prototypes may be imported only in limited noncommercial quantities in accordance with industry practice.

“(ii) Except as provided for by the Secretary of the Treasury, prototypes or parts of prototypes may not be sold after importation into the United States or be incorporated into other products that are sold.

“(c) Articles subject to quantitative restrictions, antidumping orders, or countervailing duty orders may not be classified as prototypes under this note. Articles subject to licensing requirements, or which must comply with laws, rules, or regulations administered by agencies other than the United States Customs Service before being imported, may be classified as prototypes if they comply with all applicable provisions of law and otherwise meet the definition of ‘prototypes’ under paragraph (a).”

SEC. 1434. REGULATIONS RELATING TO ENTRY PROCEDURES AND SALES OF PROTOTYPES.

(a) **IDENTIFICATION OF PROTOTYPES.**—The Secretary of the Treasury shall promulgate regulations regarding the identification of prototypes at the time of importation into the United States in accordance with the provisions of this chapter and the amendments made by this chapter.

(b) **SALES OF PROTOTYPES.**—Not later than 10 months after the date of the enactment of this Act, the Secretary of the Treasury shall promulgate final regulations regarding the sale of prototypes entered under heading 9817.85.01 of the Harmonized Tariff Schedule of the United States as scrap, or waste, or for recycling, if all duties are tendered for sales of the prototypes, including prototypes and parts of prototypes incorporated into other products, as scrap, waste, or recycled materials, at the rate of duty in effect

for such scrap, waste, or recycled materials at the time of importation of the prototypes.

SEC. 1435. EFFECTIVE DATE.

This chapter, and the amendments made by this chapter, shall apply with respect to—

(1) an entry of a prototype under heading 9817.85.01, as added by section 1433(a), on or after the date of the enactment of this Act; and

(2) an entry of a prototype (as defined in U.S. Note 6(a) to subchapter XVII of chapter 98, as added by section 1433(b)) under heading 9813.00.30 for which liquidation has not become final as of the date of the enactment of this Act.

CHAPTER 3—PROHIBITION ON IMPORTATION OF PRODUCTS MADE WITH DOG OR CAT FUR

SEC. 1441. SHORT TITLE.

This chapter may be cited as the “Dog and Cat Protection Act of 2000”.

SEC. 1442. FINDINGS AND PURPOSES.

(a) **FINDINGS.**—Congress makes the following findings:

(1) An estimated 2,000,000 dogs and cats are slaughtered and sold annually as part of the international fur trade. Internationally, dog and cat fur is used in a wide variety of products, including fur coats and jackets, fur trimmed garments, hats, gloves, decorative accessories, stuffed animals, and other toys.

(2) The United States represents one of the largest markets for the sale of fur and fur products in the world. Market demand for fur products in the United States has led to the introduction of dog and cat fur products into United States commerce, frequently based on deceptive or fraudulent labeling of the products to disguise the true nature of the fur and mislead United States wholesalers, retailers, and consumers.

(3) Dog and cat fur, when dyed, is not easily distinguishable to persons who are not experts from other furs such as fox, rabbit, coyote, wolf, and mink, and synthetic materials made to resemble real fur. Dog and cat fur is generally less expensive than other types of fur and may be used as a substitute for more expensive types of furs, which provides an incentive to engage in unfair or fraudulent trade practices in the importation, exportation, distribution, or sale of fur products, including deceptive labeling and other practices designed to disguise the true contents or origin of the product.

(4) Forensic texts have documented that dog and cat fur products are being imported into the United States subject to deceptive labels or other practices designed to conceal the use of dog or cat fur in the production of wearing apparel, toys, and other products.

(5) Publicly available evidence reflects ongoing significant use of dogs and cats bred expressly for their fur by foreign fur producers for manufacture into wearing apparel, toys, and other products that have been introduced into United States commerce. The evidence indicates that foreign fur producers also rely on the use of stray dogs and cats and stolen pets for the manufacture of fur products destined for the world and United States markets.

(6) The methods of housing, transporting, and slaughtering dogs and cats for fur production are generally unregulated and inhumane.

(7) The trade of dog and cat fur products is ethically and aesthetically abhorrent to United States citizens. Consumers in the United States have a right to know if products offered for sale contain dog or cat fur and to ensure that they are not unwitting participants in this gruesome trade.

(8) Persons who engage in the sale of dog or cat fur products, including the fraudulent trade practices identified above, gain an unfair competitive advantage over persons who engage in legitimate trade in apparel, toys, and other products, and derive an unfair benefit from consumers who buy their products.

(9) The imposition of a ban on the sale, manufacture, offer for sale, transportation, and distribution of dog and cat fur products, regardless of their source, is consistent with the international obligations of the United States because it applies equally to domestic and foreign producers and avoids any discrimination among foreign sources of competing products. Such a ban is also consistent with provisions of international agreements to which the United States is a party that expressly allow for measures designed to protect the health and welfare of animals and to enjoin the use of deceptive trade practices in international or domestic commerce.

(b) PURPOSES.—The purposes of this chapter are to—

(1) prohibit imports, exports, sale, manufacture, offer for sale, transportation, and distribution in the United States of dog and cat fur products, in order to ensure that United States market demand does not provide an incentive to slaughter dogs or cats for their fur;

(2) require accurate labeling of fur species so that consumers in the United States can make informed choices and ensure that they are not unwitting contributors to this gruesome trade; and

(3) ensure that the customs laws of the United States are not undermined by illicit international traffic in dog and cat fur products.

“(C) FACTORS IN ASSESSING PENALTIES.—In determining the amount of civil penalties under this paragraph, the designated authority shall take into account the degree of culpability, any history of prior violations under this section, ability to pay, the seriousness of the violation, and such other matters as fairness may require.

“(3) CIGARETTES INTENDED FOR NONCOMMERCIAL USE, REEXPORT, OR REPACKAGING.—Cigarettes—

“(A) for which the owner of such United States trademark registration for cigarettes (or a person authorized to act on behalf of such owner) has consented to the importation of such cigarettes into the United States; and

For purposes of this section, a trademark is registered in the United States if it is registered in the United States Patent and Trademark Office under the provisions of title I of the Act of July 5, 1946 (popularly known as the ‘Trademark Act of 1946’), and a copy of the certificate of registration of such mark has been filed with the Secretary. The Secretary shall make available to interested parties a current list of the marks so filed.

“(c) CUSTOMS CERTIFICATIONS REQUIRED FOR CIGARETTE IMPORTS.—The certificates that must be submitted by the importer of cigarettes at the time of entry in order to comply with subsection (a)(5) are—

“(2) a certificate signed by such importer or an authorized official of such importer stating under penalties of perjury that—

“(3)(A) if such cigarettes bear a United States trademark registered for cigarettes, a certificate signed by the owner of such United States trademark registration for cigarettes (or a person authorized to act on behalf of such owner) stating under penalties of perjury that such owner (or authorized person) consents to the importation of such cigarettes into the United States; and

“(B) a certificate signed by the importer or an authorized official of such importer stating under penalties of perjury that the consent referred to in subparagraph (A) is accurate, remains in effect, and has not been withdrawn.

The Secretary may provide by regulation for the submission of certifications under this section in electronic form if, prior to the entry of any cigarettes into the United States, the person required to provide such certifications submits to the Secretary a written statement, signed under penalties of perjury, verifying the accuracy and completeness of all information contained in such electronic submissions.

“SEC. 803. ENFORCEMENT.

“(a) CIVIL PENALTY.—Any person who violates a provision of section 802 shall, in addition to the tax and any other penalty provided by law, be liable for a civil penalty for each violation equal to the greater of \$1,000 or 5 times the amount of the tax imposed by chapter 52 of the Internal Revenue Code of 1986 on all cigarettes that are the subject of such violation.

“(b) FORFEITURES.—Any tobacco product, cigarette papers, or tube that was imported into the United States or is sought to be imported into the United States in violation of, or without meeting the requirements of, section 802 shall be forfeited to the United States. Notwithstanding any other provision of law, any product forfeited to the United States pursuant to this title shall be destroyed.”.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Determination Under the Caribbean Basin Trade Partnership Act

AGENCY: Office of the United States Trade Representative.

ACTION: Notice.

SUMMARY: The United States Trade Representative has determined that Guyana is making substantial progress toward implementing and following the customs procedures required by the Caribbean Basin Trade Partnership Act and, therefore, imports of eligible products from Guyana qualify for the enhanced trade benefits provided under the Act.

EFFECTIVE DATE: November 9, 2000.

FOR FURTHER INFORMATION CONTACT: Christopher Wilson, Director for Central America and the Caribbean, Office of the United States Trade Representative, (202) 395-5190.

SUPPLEMENTARY INFORMATION: The Caribbean Basin Trade Partnership Act (Title II of the Trade and Development Act of 2000, Pub. L. No. 106-200) (CBTPA) expands the trade benefits available to Caribbean and Central American countries under the Caribbean Basin Economic Recovery Act (CBERA). The CBTPA reduces or eliminates tariffs and eliminates quantitative restrictions on certain products that previously were not eligible for preferential treatment under the CBERA. The enhanced trade benefits provided by the CBTPA are available to imports of eligible products from countries that (1) are designated as "CBTPA beneficiary countries," and (2) have implemented and follow, or are making substantial progress toward implementing and following, certain customs procedures, drawn from Chapter 5 of the North American Free Trade Agreement, that allow U.S. Customs to verify the origin of the products.

On October 2, 2000, the President designated all 24 current beneficiaries under the CBERA as "CBTPA beneficiary countries." Proclamation 7351 delegated to the United States Trade Representative (USTR) the authority to determine whether the designated CBTPA beneficiary countries have implemented and follow, or are

making substantial progress toward implementing and following, the customs procedures required by the CBTPA. The President directed the USTR to announce any such determinations in the **Federal Register** and to implement any such determinations in the Harmonized Tariff Schedule of the United States (HTS).

Based on information and commitments provided by the Government of Guyana, I have determined that Guyana is making substantial progress toward implementing and following the customs procedures required by the CBTPA. Accordingly, pursuant to the authority vested in the USTR by Proclamation 7351, general note 17(a) to the HTS, U.S. note 7 to subchapter II of chapter 98 of the HTS, and U.S. note 1 to subchapter XX of chapter 98 of the HTS are each modified by inserting in alphabetical sequence in the list of eligible CBTPA beneficiary countries the name "Guyana." General note 17(d) to the HTS is modified by striking "duty-free" and inserting in lieu thereof "tariff" and by striking "October 2, 2000" and inserting in lieu thereof "the date announced in one or more **Federal Register** notices issued by the United States Trade Representative as the date on which each CBTPA beneficiary country qualifies for the tariff treatment provided in this note." The foregoing modifications to the HTS are effective with respect to articles entered, or withdrawn from warehouse for consumption, on or after November 9, 2000. The USTR will publish additional notices in the **Federal Register** announcing any determinations that other CBTPA beneficiary countries have satisfied the required customs procedures.

Richard Fisher,

Deputy United States Trade Representative.

National Highway Traffic Safety Administration

[Docket No. NHTSA-2000-8241]

Notice of Receipt of Petition for Decision That Nonconforming 1991- 1995 BMW 8 Series Passenger Cars Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of receipt of petition for decision that nonconforming 1991-1995 BMW 8 Series passenger cars are eligible for importation.

SUMMARY: This document announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a decision that 1991-1995 BMW 8 Series passenger cars that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards are eligible for importation into the United States because (1) they are substantially

similar to vehicles that were originally manufactured for importation into and sale in the United States and that were certified by their manufacturer as complying with the safety standards, and (2) they are capable of being readily altered to conform to the standards.

DATE: The closing date for comments on the petition is December 21, 2000.

ADDRESSES: Comments should refer to the docket number and notice number, and be submitted to: Docket Management, Room PL-401, 400 Seventh St., SW, Washington, DC 20590. Docket hours are from 9 am to 5 pm.

FOR FURTHER INFORMATION CONTACT: George Entwistle, Office of Vehicle Safety Compliance, NHTSA (202-366-5306).

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR Part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

J.K. Technologies of Baltimore, Maryland ("J.K.") (Registered Importer 90-006) has petitioned NHTSA to decide whether 1991-1995 BMW 8 Series passenger cars are eligible for importation into the United States. The vehicles which J.K. believes are substantially similar are 1991-1995 BMW 8 Series passenger cars that were manufactured for importation into, and sale in, the United States and certified by their manufacturer, Bayerische Motoren Werke, A.G., as conforming to

Social Security numbers, and telephone numbers.

The Committee's sessions from 1:30 p.m. until 5:00 p.m. on Monday, December 11, 2000, will be closed in accordance with section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463). The agenda calls for discussions of agency declassification decisions concerning the Foreign Relations series. These are matters not subject to public disclosure under 5 U.S.C. 552b(c)(1) and the public interest requires that such activities be withheld from disclosure. The remaining session of the Committee will meet in open session from 9:00 a.m. through 11:00 a.m. on Tuesday, December 12, 2000, to discuss transfer of Department of State electronic records to the National Archives and Records Administration and the modernization of the Foreign Relations series.

Questions concerning the meeting should be directed to David Patterson, Acting, Executive Secretary, Advisory Committee on Historical Diplomatic Documentation, Department of State, Office of the Historian, Washington, DC, 20520, telephone (202) 663-1127, (e-mail history@state.gov).

Dated: November 17, 2000.

**OFFICE OF THE UNITED STATES
TRADE REPRESENTATIVE**

**Implementation of the Third Round of
Accelerated Tariff Eliminations Under
Provisions of the North American Free
Trade Agreement**

AGENCY: Office of the United States Trade Representative.

ACTION: Notification of articles proposed for accelerated tariff elimination under the North American Free Trade Agreement.

SUMMARY: Section 201(b) of the North American Free Trade Agreement

Implementation Act ("the Act") (19 U.S.C. 3331(b)) grants the President, subject to the consultation and layover requirements of section 103(a) of the Act (19 U.S.C. 3313(a)), the authority to proclaim any accelerated schedule for duty elimination that may be agreed to by the United States, Mexico and Canada under Article 302(3) of the North American Free Trade Agreement ("the NAFTA"). This notice is intended to inform the public of the list of products with respect to which the United States has provisionally agreed to accelerate the elimination of duties as a result of the third round of consultations with Mexico and Canada.

FOR FURTHER INFORMATION CONTACT: Kent Shigetomi, Director, Mexico and NAFTA Affairs, Office of Western Hemisphere Affairs, Office of the United States Trade Representative, Room 523, 600 17th Street, NW, Washington, DC, 20508; telephone: (202) 395-3412; fax: (202) 395-9517. The list of products with respect to which the United States has provisionally agreed to accelerate tariff elimination, as well as the lists for Mexico can be obtained from the USTR Internet Web Page, at www.ustr.gov under [World Regions/Western Hemisphere/North American Free Trade Agreement/NAFTA Reports and Publications].

SUPPLEMENTARY INFORMATION: Article 302(3) of the NAFTA provides that the Parties may consider and agree to accelerate the elimination of customs duties set out in their schedules. Pursuant to this provision, on May 27, 1999, the Office of the U.S. Trade Representative ("USTR") published a **Federal Register** notice (64 FR 28857) soliciting petitions from interested persons regarding products for which accelerated tariff elimination would be appropriate. For trade between the United States and Canada, all duties subject to tariff reductions were eliminated on January 1, 1998. Therefore, this acceleration round has resulted in two parallel agreements, one between the United States and Mexico and another between Mexico and Canada.

Section 201(b) of the Act authorizes the President to proclaim such modifications in NAFTA duty treatment as the President determines to be necessary or appropriate to maintain the general level of reciprocal and mutually advantageous concessions provided in the NAFTA, subject to the consultation and layover requirements of section 103(a) of the Act. Pursuant to section 103(a), a report has been submitted to the House Ways and Means and Senate Finance Committees that sets forth the proposed action to be proclaimed, the reasons therefore, and the advice obtained from the U.S. International Trade Commission ("USITC") and appropriate advisory committees. After expiration of the 60-day consultation and layover period, the President may proclaim the proposed changes in NAFTA duty treatment. In developing the list of products proposed for tariff acceleration, USTR considered the advice of the USITC and consulted with the appropriate private sector trade advisory groups. As was the practice under the prior NAFTA and United States-Canada Free Trade Agreement tariff acceleration processes, the United States did not agree to provide accelerated tariff elimination for any products with respect to which the domestic industry opposed tariff elimination. The United States has agreed to accelerated tariff elimination, effective January 1, 2001, on the products listed in the Annex to this notice. These products currently are dutiable when entered from Mexico under the NAFTA. Each of these products was considered during the second round of tariff acceleration discussions, but no agreement was reached at that time. However, the Governments agreed to continue appropriate domestic procedures with the goal of reaching agreement at a later date (63 FR 32036). Such agreements have now been reached on the products listed.

Peter Allgeier,

Associate U.S. Trade Representative for the Western Hemisphere.

Research and Special Programs Administration

[Cooperative Agreement DTRS656-00-H-0004]

Quarterly Performance Review Meeting on the Cooperative Agreement "Better Understanding of Mechanical Damage in Pipelines"

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Notice of meeting.

SUMMARY: RSPA has entered into a cooperative agreement with the Gas Research Institute (GRI) to co-fund a two year research program to identify and characterize mechanical damage, the leading cause of reportable accidents in both gas and hazardous liquid pipelines, using the technology of magnetic flux leakage (MFL) oriented in the circumferential direction on an in-line inspection tool. RSPA along with GRI invite the pipeline industry, in-line inspection ("smart pig") vendors, and the general public to a quarterly performance review meeting hosted by RSPA to report on progress with the research "Better Understanding of Mechanical Damage in Pipelines." The meeting is open to anyone, and no registration is required. This work is being managed by GRI and performed by Battelle Memorial Institute (Battelle), along with the Southwest Research Institute (SwRI). The meeting will cover a review of the overall project plan, the status of the contract tasks, progress made during the past quarter, and projected activity for the next quarter.

DATES: The quarterly performance review meeting will be held on Thursday, December 7, 2000 beginning at 9 a.m. and ending around 1 p.m.

ADDRESSES: The quarterly review meeting will be held in room 6244 of the Department of Transportation Headquarters Building, 400 7th Street, SW., Washington, DC. Non-federal personnel must enter the building through the southwest entrance at 7th and E Streets, SW., in order to receive a temporary building pass.

FOR FURTHER INFORMATION CONTACT: Lloyd W. Ulrich, Agreement Officer's Technical Representative, Office of Pipeline Safety, telephone: (202) 366-4556, FAX: (202) 366-4566, e-mail: lloyd.ulrich@rspa.dot.gov. You may also contact Harvey Haines, Principal

Investigator, GRI, telephone: (773) 399-8223, FAX: (773) 864-3495, e-mail: harvey.haines@gastechnology.org.

SUPPLEMENTARY INFORMATION:

I. Background

RSPA has entered into a Cooperative Agreement (Cooperative Agreement DTRS656-00-H-0004) with the Gas Research Institute (GRI) to co-fund a two year research program to identify and characterize mechanical damage, the leading cause of reportable accidents in both gas and hazardous liquid pipelines, using the technology of magnetic flux leakage (MFL) oriented in the circumferential direction on an in-line inspection tool.

We plan to conduct public semi-annual quarterly performance review meetings for the duration of this research. This meeting is the first semi-annual one to be conducted to update the public and interested governmental parties on the research, such as pipeline operators, vendors, RSPA technical and regional staff and the National Transportation Safety Board. Semi-annual meetings in the future will be held in conjunction with industry meetings, such as the American Petroleum Institute Pipeline Conference, in order to reach a broad audience. We want the pipeline industry and especially that segment of the pipeline industry involved with in-line inspection to be aware of the status of this research. The meetings allow disclosure of the results to interested parties and provide an opportunity for interested parties to ask questions concerning the research. Attendance at this meeting is open to all and does not require advanced registration nor advanced notification to RSPA. Each of the semi-annual meetings will be announced in the **Federal Register** at least two weeks prior to the meeting.

The quarterly performance review meetings held between the semi-annual meetings described above will be held in conjunction with meetings of the joint GRI/PRCI Technical Committee.

II. The Research

This research continues work that DOT supported at Battelle to improve In-Line Inspection NDE measurements of mechanical damage and more closely coordinates work that GRI is supporting at SwRI to develop a critical assessment criteria based on these NDE measurements. This program extends the work conducted under the DOT-funded contract "Detection of Mechanical Damage in Pipelines"

(Contract DTRS-56-96-C-0010)¹ by looking at the circumferential magnetic flux leakage field instead of the traditional axial field and extends the critical assessment criteria research to work with full scale samples that are being used for MFL measurements. The goal of the research is to evaluate and develop techniques for assessing pipeline metal loss, mechanical damage, and cracks using circumferential MFL. These techniques are expected to complement the techniques used for axial MFL systems.

The research will extend the failure assessment methodology for mechanically damaged pipes to include the influence of local cold working due to the gouging/denting process on the pipe's remaining life. The program will combine full scale tests and MFL monitoring of pipes, laboratory tests and elastic-plastic finite element analyses to develop a validated methodology for determining the remaining life of a damaged pipe. The proposed SwRI research will complement the work at Battelle in developing MFL methods for detecting and characterizing mechanical damage.

Executive Order 13177—National Commission on the Use of Offsets in Defense Trade and President's Council on the Use of Offsets in Commercial Trade

Presidential Documents

Title 3—

Proclamation 7383 of December 1, 2000

The President

To Implement Title V of the Trade and Development Act of 2000 and To Modify the Generalized System of Preferences

By the President of the United States of America

A Proclamation

1. Title V of the Trade and Development Act of 2000 (Public Law 106–200) (the “Act”) modifies the tariff treatment of certain imported wool articles.

2. Section 501(a)(1) of the Act amends the Harmonized Tariff Schedule of the United States (HTS) to create a new heading, 9902.51.11, for imports of certain worsted wool fabrics with average fiber diameters greater than 18.5 microns. Section 501(d) of the Act limits the quantity of imports under heading 9902.51.11, on an annual basis, to 2,500,000 square meter equivalents or such other quantity proclaimed by the President pursuant to section 504(b)(3) of the Act.

3. Section 501(b)(1) of the Act amends the HTS to create a new heading, 9902.51.12, for imports of certain worsted wool fabrics with average fiber diameters of 18.5 microns or less. Section 501(d) of the Act limits the quantity of imports under heading 9902.51.12, on an annual basis, to 1,500,000 square meter equivalents or such other quantity proclaimed by the President pursuant to section 504(b)(3) of the Act.

4. Section 501(b)(2) of the Act authorizes the President to proclaim a reduction in the rate of duty applicable to imports of worsted wool fabrics classified under heading 9902.51.12 of the HTS that is necessary to equalize such rate of duty with the most favored nation rate of duty applicable to imports of such worsted wool fabrics into Canada.

5. Section 501(e) of the Act provides that in implementing the limitation on the quantity of imports of worsted wool fabrics under headings 9902.51.11 and 9902.51.12 of the HTS, the President, consistent with U.S. international obligations, shall take such action as he determines appropriate to ensure that such fabrics are fairly allocated to persons who cut and sew men’s and boys’ worsted wool suits and suit-type jackets and trousers in the United States and who apply for an allocation based on the amount of such suits cut and sewn during the prior calendar year.

6. Section 503(a) of the Act requires the President to proclaim 8-digit tariff categories for certain wool yarn and wool fabrics with an average fiber diameter of 18.5 microns or less, and men’s or boys’ suits, suit-type jackets, and trousers of worsted wool fabric, made of wool yarn with an average diameter of 18.5 microns or less. Section 503(b) of the Act authorizes the President to make conforming changes in the HTS to take into account the new tariff categories proclaimed under section 503(a).

7. Section 504(a) of the Act requires the President to monitor market conditions in the United States, including domestic demand, domestic supply, and increases in domestic production, of worsted wool fabrics and their components in the market for (i) men’s or boys’ worsted wool suits, suit-type jackets, and trousers, (ii) worsted wool fabrics and yarn used in the manufacture of such apparel articles, and (iii) wool used in the production of such fabrics and yarn.

8. Section 504(b)(1) requires the President, on an annual basis, to consider requests from domestic manufacturers of apparel products made of worsted wool fabrics described in section 504(a) to modify the limitation on the quantity of imports of worsted wool fabrics under headings 9902.51.11 and 9902.51.12 of the HTS.

9. Section 504(b)(3) of the Act authorizes the President, after taking into account the market conditions set forth in section 504(b)(2) of the Act, to modify the limitation on the quantity of imports of worsted wool fabrics under headings 9902.51.11 and 9902.51.12 of the HTS, provided that any such modification shall not exceed 1,000,000 square meter equivalents annually for each heading, and to proclaim any such modifications.

10. Section 504(c) requires the President to issue regulations to implement the provisions of section 504.

11. I have determined that it is appropriate to authorize the Secretary of Commerce (Secretary) to perform certain functions specified in sections 501(e) and 504(b) of the Act.

12. I have determined that it is appropriate to authorize the United States Trade Representative (USTR) to perform certain functions specified in section 504(a) of the Act.

13. Sections 501 and 502 of the Trade Act of 1974, as amended (the "1974 Act") (19 U.S.C. 2461 and 2462), authorize the President to designate countries as beneficiary developing countries and as least-developed beneficiary developing countries for purposes of the Generalized System of Preferences (GSP).

14. Pursuant to Executive Order 11888 of November 24, 1975, Western Samoa was designated as a beneficiary developing country for purposes of the GSP. I have determined that the designation of Western Samoa as a beneficiary developing country under the GSP should be modified so that the designation applies to Samoa. Furthermore, pursuant to section 502 of the 1974 Act, and having due regard for the eligibility criteria set forth therein, I have determined that it is appropriate to designate Samoa as a least-developed beneficiary developing country for purposes of the GSP.

15. Proclamation 6425 of April 29, 1992, suspended the application of duty-free treatment under the GSP for certain handloomed cotton fabrics imported from India. On September 14, 2000, the United States Government and the Government of India entered into a Memorandum of Understanding in which the United States agreed to restore GSP treatment for certain handloomed cotton fabrics. Pursuant to section 501 of the 1974 Act, I have determined that it is appropriate to restore GSP treatment for these articles to give effect to the Memorandum of Understanding.

16. Section 604 of the 1974 Act (19 U.S.C. 2483) authorizes the President to embody in the HTS the substance of the relevant provisions of that Act, and of other acts affecting import treatment, and actions thereunder, including the removal, modification, continuance, or imposition of any rate of duty or other import restriction.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States of America, including section 301 of title 3, United States Code, title V of the Act, and sections 501, 502, and 604 of the 1974 Act, do proclaim that:

(1) In order to provide separate tariff treatment for the articles specified in section 503(a) of the Act, the HTS is modified as provided in section A of the Annex to this proclamation.

(2) In order to make conforming changes to take into account the new permanent tariff categories established in section A of the Annex to this proclamation, the HTS is further modified as provided in section B of the Annex to this proclamation.

(3) The Secretary is authorized to exercise the authority set forth in section 501(e) of the Act to allocate the quantity of imports of worsted wool fabrics under headings 9902.51.11 and 9902.51.12. Any determination by the Secretary under this paragraph shall be set forth in a notice or notices that the Secretary shall cause to be published in the **Federal Register**.

(4) The Secretary is authorized to monitor the most favored nation rate of duty applicable to imports into Canada of worsted wool fabrics of the kind classified under heading 9902.51.12 of the HTS and shall notify the President of any reduction, effective on or after May 18, 2000, in the Canadian most favored nation rate of duty on such imports. The Secretary shall cause to be published in the **Federal Register** a notice describing any such reduction.

(5) The Secretary is authorized to exercise the authority set forth in section 504(b)(1) of the Act to consider, on an annual basis, requests from domestic manufacturers of apparel products made of worsted wool fabrics described in section 504(a) to modify the limitation on the quantity of imports of worsted wool fabrics under headings 9902.51.11 and 9902.51.12 of the HTS.

(6) The Secretary is authorized to determine, under section 504(b)(3) of the Act, whether the limitation on the quantity of imports of worsted wool fabrics under headings 9902.51.11 and 9902.51.12 of the HTS should be modified and to recommend to the President that appropriate modifications be made.

(7) The Secretary is authorized to issue regulations to implement the provisions of sections 501 and 504(b) of the Act, the implementation of which have been delegated to the Secretary pursuant to paragraphs 3, 4, 5, and 6 of this proclamation.

(8) The USTR is authorized to exercise the authority set forth in section 504(a) of the Act to monitor market conditions in the United States for the worsted wool articles specified in that section.

(9) In order to reflect a change in the name of a designated beneficiary developing country for purposes of the GSP, general note 4(a) to the HTS is modified by striking "Western Samoa" and by inserting in alphabetical sequence in lieu thereof "Samoa" in the enumeration of independent beneficiary developing countries.

(10) Samoa is designated as a least-developed beneficiary developing country for purposes of the GSP and title V of the 1974 Act. In order to reflect such designation, general note 4(b)(i) to the HTS, enumerating those countries designated as least-developed beneficiary developing countries for purposes of the GSP, is modified by inserting in alphabetical sequence "Samoa."

(11) In order to provide that India is again treated as a beneficiary developing country with respect to certain certified handloomed cotton fabrics for purposes of the GSP program, the HTS is modified as provided in section C of the Annex to this proclamation.

(12) Any provisions of previous proclamations and Executive Orders that are inconsistent with the actions taken in this proclamation are superseded to the extent of such inconsistency.

(13) This proclamation is effective on the date of signature of this proclamation, except that the designation of Samoa as a least-developed beneficiary developing country shall be effective with respect to articles entered, or withdrawn from warehouse for consumption, on or after the date that is 60 days from the date of publication of this proclamation in the **Federal Register**.

IN WITNESS WHEREOF, I have hereunto set my hand this first day of December, in the year of our Lord two thousand, and of the Independence of the United States of America the two hundred and twenty-fifth.

William Clinton

Proclamation 7388 of December 18, 2000

To Modify Duty-Free Treatment Under the Generalized System of Preferences for Sub-Saharan African Countries and for Other Purposes

By the President of the United States of America

A Proclamation

1. Section 506A(b)(1) of the Trade Act of 1974, as amended (the "1974 Act") (19 U.S.C. 2466a(b)(1)), as added by section 111(a) of the African Growth and Opportunity Act (Title I of Public Law 106-200) (AGOA), authorizes the President to provide duty-free treatment under the Generalized System of Preferences (GSP) to any article described in section 503(b)(1)(B) through (G) of the 1974 Act (19 U.S.C. 2463(b)(1)(B)-(G)) that is the growth, product, or manufacture of a designated beneficiary sub-Saharan African country, if, after taking into account the advice of the United States International Trade Commission (USITC), the President determines that such article is not import-sensitive in the context of imports from beneficiary sub-Saharan African countries.
2. Proclamation 7350 of October 2, 2000, designated certain countries listed in section 107 of the AGOA as beneficiary sub-Saharan African countries.
3. Pursuant to section 506A(b)(1) of the 1974 Act, and having taken into account the advice of the USITC, I have determined that certain articles are not import-sensitive in the context of imports from beneficiary sub-Saharan African countries. I have determined to designate those articles as eligible for duty-free treatment under the GSP. I have decided to designate these articles by inserting the symbol "D" in the Rates of Duty 1-Special subcolumn of the Harmonized Tariff Schedule of the United States (HTS) for subheadings covering such articles.
4. Section 213(b)(3)(A) of the Caribbean Basin Economic Recovery Act (CBERA) (19 U.S.C. 2703(b)(3)(A)), as amended by section 211(a) of the United States-Caribbean Basin Trade Partnership Act (Title II of Public Law 106-200) (CBTPA), provides that the tariff treatment accorded at any time during the transition period defined in section 213(b)(5)(D) of the CBERA (19 U.S.C. 2703(b)(5)(D)), as amended by section 211(a) of the CBTPA, to certain articles that are originating goods of designated CBTPA beneficiary countries shall be identical to the tariff treatment that is accorded at such time under Annex 302.2 of the North American Free Trade Agreement (NAFTA) to an article described in the same 8-digit subheading of the HTS that is a good of Mexico and is imported into the United States. Such articles are described in section 213(b)(1)(B) through (F) of the CBERA (19 U.S.C. 2703(b)(1)(B)-(F)), as amended by section 211(a) of the CBTPA.
5. Proclamation 7351 of October 2, 2000, designated certain countries as CBTPA beneficiary countries and reflected in the HTS the tariff treatment provided under the CBTPA, which became effective on that date with respect to those CBTPA beneficiary countries enumerated in a **Federal Register** notice issued by the United States Trade Representative. The Annex to Proclamation 7351 designated certain HTS subheadings covering articles described in section 213(b)(1)(B) through (F) of the CBERA as eligible for the tariff treatment authorized by section 213(b)(3)(A) of the CBERA. Certain

HTS provisions covering watches and watch parts and footwear were inadvertently omitted. I have determined that these provisions should be designated as covering articles eligible for the tariff treatment authorized by section 213(b)(3)(A) of the CBERA.

6. Proclamation 7351 incorporated into the HTS the provisions of the CBTPA concerning the tariff treatment of certain textile and apparel articles imported into the United States from designated CBTPA beneficiary countries, pursuant to section 213(b)(2) of the CBERA (19 U.S.C. 2703(b)(2)), as amended by section 211(a) of the CBTPA. I have determined that a technical error in one of the legal notes to chapter 98 of the HTS created by the Annex to that proclamation should be corrected.

7. Section 604 of the 1974 Act (19 U.S.C. 2483) authorizes the President to embody in the HTS the substance of the relevant provisions of that Act, and of other acts affecting import treatment, and actions thereunder, including the removal, modification, continuance, or imposition of any rate of duty or other import restriction.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States of America, including title V and section 604 of the 1974 Act, section 111 of the AGOA, section 211 of the CBTPA, and section 213 of the CBERA, do proclaim that:

(1) In order to provide duty-free treatment under the GSP to certain articles when imported from designated beneficiary sub-Saharan African countries, the HTS is modified as provided in Annex I to this proclamation.

(2) In order to accord, at any time during the transition period, to certain watches and watch parts described in section 213(b)(1)(E) of the CBERA, when such watches and watch parts are CBTPA originating goods, the identical tariff treatment that is accorded at such time under Annex 302.2 of the NAFTA to an article described in the same 8-digit subheading of the HTS that is a good of Mexico and is imported into the United States, chapter 91 of the HTS is modified as provided in Annex II to this proclamation.

(3) In order to make a technical correction in U.S. note 2(c) to subchapter XX of chapter 98 of the HTS, such note is modified as provided in Annex II to this proclamation.

(4) Any provisions of previous proclamations and Executive orders that are inconsistent with this proclamation are superseded to the extent of such inconsistency.

(5)(a) The modifications made by Annex I to this proclamation shall be effective with respect to articles entered, or withdrawn from warehouse for consumption, on or after the date of publication of this proclamation in the **Federal Register**.

(b) The modifications made by Annex II to this proclamation shall be effective with respect to articles entered, or withdrawn from warehouse for consumption, on or after October 2, 2000.

IN WITNESS WHEREOF, I have hereunto set my hand this eighteenth day of December, in the year of our Lord two thousand, and of the Independence of the United States of America the two hundred and twenty-fifth.

Annex I

Section A. Effective with respect to goods entered, or withdrawn from warehouse for consumption, on or after the date of publication of this proclamation in the *Federal Register*, the Harmonized Tariff Schedule of the United States (HTS) is modified as set forth herein.

(1). General note 3(c)(i) to the tariff schedule is modified by inserting, immediately above the line reading "Caribbean Basin Economic Recovery Act...E or E*", a new line reading "African Growth and Opportunity Act....D".

(2). The following new general note 16 is inserted in numerical sequence:

"16. Products of Countries Designated as Beneficiary Countries under the African Growth and Opportunity Act (AGOA).

(a) The following sub-Saharan African countries, having been designated as beneficiary sub-Saharan African countries for purposes of the African Growth and Opportunity Act (AGOA), have met the requirements of the AGOA and, therefore, are to be afforded the tariff treatment provided in this note, shall be treated as beneficiary sub-Saharan African countries for purposes of this note:

Republic of Benin	Republic of Mali
Republic of Botswana	Islamic Republic of Mauritania
Republic of Cape Verde	Republic of Mauritius
Republic of Cameroon	Republic of Mozambique
Central African Republic	Republic of Namibia
Republic of Chad	Republic of Niger
Republic of Congo	Federal Republic of Nigeria
Republic of Djibouti	Republic of Rwanda
State of Eritrea	Democratic Republic of Sao Tome and Principe

(b) Articles provided for in a provision for which a rate of duty appears in the "Special" subcolumn followed by the symbol "D" in chapters 1 through 97 of the tariff schedule are those designated by the President to be eligible articles pursuant to section 111(a) of the AGOA and section 506A of the Trade Act of 1974 ("the 1974 Act"). Whenever an eligible article which is a good of a designated beneficiary sub-Saharan African country enumerated in subdivision (a) of this note is imported directly into the customs territory of the United States, such article shall be entitled to receive the duty-free treatment provided for herein, without regard to the limitations on preferential treatment of eligible articles in section 503(c)(2)(A) of the 1974 Act, provided that such good—

- (i) is the growth, product or manufacture of a designated beneficiary sub-Saharan African country enumerated in subdivision (a) of this note, and
- (ii) the sum of—
- (A) the cost or value of the materials produced in one or more designated beneficiary sub-Saharan African countries, plus
- (B) the direct costs of processing operations performed in the designated beneficiary sub-Saharan African country or any two or more designated beneficiary sub-Saharan African countries that are members of the same association of countries which is treated as one country under section 507(a)2 of the 1974 Act,

is not less than 35 per centum of the appraised value of such article at the time it is entered. If the cost or value of the materials produced in the customs territory of the United States is included with respect to an eligible article, an amount not to exceed 15 per centum of the appraised value of such article at the time it is entered that is attributed to such United States cost or value may be applied toward determining the percentage referred to in clause (ii)(B) above. No article or material of a designated beneficiary sub-Saharan African country enumerated in subdivision (a) of this note and receiving the tariff treatment specified in this note shall be eligible for such duty-free treatment by virtue of having merely undergone simple combining or packing operations, or mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.

Annex (con.)

- (c) The duty-free treatment provided for in this note shall be effective with respect to eligible articles entered, or withdrawn from warehouse for consumption, as of the date proclaimed by the President and shall continue in effect through the close of September 30, 2008."

Conforming change: General note 4(b)(ii) is modified by deleting "section 502(a)(3)" and by inserting in lieu thereof "section 507(2)".

- (3). For the following HTS provisions, the Rates of Duty 1-Special subcolumn is modified by inserting, in alphabetical order, the symbol "D" in the parentheses following the "Free" rate of duty in such subcolumn.

Title 3—

Proclamation 7400 of January 17, 2001

The President

To Designate Swaziland as a Beneficiary Sub-Saharan African Country and for Other Purposes**By the President of the United States of America****A Proclamation**

1. Section 506A(a)(1) of the Trade Act of 1974, as amended (the “1974 Act”) (19 U.S.C. 2466a(a)(1)), as added by section 111(a) of the African Growth and Opportunity Act (Title I of Public Law 106–200) (AGOA), authorizes the President to designate countries listed in section 107 of the AGOA (19 U.S.C. 3706) as “beneficiary sub-Saharan African countries.”

2. Section 112(b)(3)(B) of the AGOA (19 U.S.C. 3721(b)(3)(B)) provides special rules for certain apparel articles imported from “lesser developed beneficiary sub-Saharan African countries.”

3. Proclamation 7350 of October 2, 2000, designated certain countries listed in section 107 of the AGOA as beneficiary sub-Saharan African countries and identified which designated beneficiary sub-Saharan African countries would be considered lesser developed beneficiary sub-Saharan African countries under section 112(b)(3)(B) of the AGOA.

4. Pursuant to section 506A(a)(1) of the 1974 Act, and having due regard for the eligibility criteria set forth therein, I have determined that it is appropriate to designate the Kingdom of Swaziland as a beneficiary sub-Saharan African country.

5. The Kingdom of Swaziland satisfies the criteria for treatment as a lesser developed beneficiary sub-Saharan African country under section 112(b)(3)(B) of the AGOA (19 U.S.C. 3721(b)(3)(B)).

6. Annex II to Proclamation 7388 of December 18, 2000, listed certain products that are eligible for preferential tariff treatment under section 213(b)(3)(A) of the Caribbean Basin Economic Recovery Act (CBERA) (19 U.S.C. 2703(b)(3)(A)), as amended by section 211(a) of the Caribbean Basin Trade Partnership Act (CBTPA) (Title II of Public Law 106–200). Section C of that Annex incorrectly stated the staged rate of duty to be applied to certain imports under subheading 6402.99.70 of the Harmonized Tariff Schedule of the United States (HTS). I have determined that this error should be corrected.

7. Proclamations 7350 and 7351 of October 2, 2000, added new general notes 16 and 17 to the HTS and renumbered other general notes. I have determined that general note 1 to the HTS should be modified to reflect these changes.

8. Section 604 of the 1974 Act (19 U.S.C. 2483) authorizes the President to embody in the HTS the substance of the relevant provisions of that Act, and of other acts affecting import treatment, and actions thereunder, including the removal, modification, continuance, or imposition of any rate of duty or other import restriction.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States of America, including sections 506A and 604 of the 1974 Act, sections 111 and 112 of the AGOA, section 211 of the CBTPA, and section 213 of the CBERA, do proclaim that:

(1) The Kingdom of Swaziland is designated as a beneficiary sub-Saharan African country.

(2) In order to reflect this designation in the HTS, general note 16(a) to the HTS is modified by inserting in alphabetical sequence in the list of beneficiary sub-Saharan African countries "Kingdom of Swaziland".

(3) For purposes of section 112(b)(3)(B) of the AGOA, the Kingdom of Swaziland shall be considered a lesser developed beneficiary sub-Saharan African country.

(4) Effective with respect to articles entered, or withdrawn from warehouse for consumption, on or after January 1, 2001, HTS subheading 6402.99.70 is modified by deleting the figure "11.2%" from the Rates of Duty 1-Special subcolumn and inserting in lieu thereof "7.5%" for such special rate. Effective with respect to articles entered, or withdrawn from warehouse for consumption, on or after January 1, 2002, such subheading is modified by deleting the figure "7.5%" and inserting in lieu thereof "3.7%" for such special rate.

(5) General note 1 to the HTS is modified by deleting the phrase "through 14, inclusive, and general note 16" and by inserting in lieu thereof "through 18, inclusive".

(6) Any provisions of previous proclamations and Executive Orders that are inconsistent with this proclamation are superseded to the extent of such inconsistency.

(7) Except as provided in paragraph (4) of this proclamation, the modifications to the HTS made by this proclamation shall be effective with respect to articles entered, or withdrawn from warehouse for consumption, on or after the date of publication of this proclamation in the **Federal Register**. IN WITNESS WHEREOF, I have hereunto set my hand this seventeenth day of January, in the year of our Lord two thousand one, and of the Independence of the United States of America the two hundred and twenty-fifth.

Proclamation 7401 of January 17, 2001

To Implement an Accelerated Schedule of Duty Elimination Under the North American Free Trade Agreement and for Other Purposes

By the President of the United States of America

A Proclamation

1. On December 17, 1992, the Governments of Canada, Mexico, and the United States of America entered into the North American Free Trade Agreement (NAFTA). The NAFTA was approved by the Congress in section 101(a) of the North American Free Trade Agreement Implementation Act (the "NAFTA Implementation Act") (19 U.S.C. 3311(a)) and was implemented with respect to the United States by Presidential Proclamation 6641 of December 15, 1993.

2. Section 201(b) of the NAFTA Implementation Act (19 U.S.C. 3331(b)) authorizes the President, subject to the consultation and layover requirements of section 103(a) of the NAFTA Implementation Act (19 U.S.C. 3313(a)), to proclaim accelerated schedules for duty elimination that the United States may agree to with Mexico or Canada. Consistent with Article 302(3) of the NAFTA, I, through my duly empowered representative, entered into an agreement with the Government of Mexico on November 30, 2000, providing for an accelerated schedule of duty elimination for specific goods of Mexico. The consultation and layover requirements of section 103(a) of the NAFTA Implementation Act with respect to such schedule of duty elimination will be satisfied on December 30, 2000.

3. Pursuant to section 201(b) of the NAFTA Implementation Act, I have determined that the modifications hereinafter proclaimed of duties on goods originating in the territory of a NAFTA party are necessary or appropriate (i) to maintain the general level of reciprocal and mutually advantageous concessions with respect to Mexico provided for by the NAFTA, and (ii) to carry out the agreement with Mexico providing an accelerated schedule of duty elimination for specific goods.

4. Section 213(b)(3)(A) of the Caribbean Basin Economic Recovery Act (CBERA) (19 U.S.C. 2703(b)(3)(A)), as amended by section 211(a) of the United States-Caribbean Basin Trade Partnership Act (Title II of Public Law 106-200) (CBTPA), provides that the tariff treatment accorded at any time during the transition period defined in section 213(b)(5)(D) of the CBERA (19 U.S.C. 2703(b)(5)(D)), as amended by section 211(a) of the CBTPA, to certain articles that are originating goods of designated CBTPA beneficiary countries shall be identical to the tariff treatment that is accorded at such time under Annex 302.2 of the NAFTA to an article described in the same 8-digit subheading of the Harmonized Tariff Schedule of the United States (HTS) that is a good of Mexico and is imported into the United States. Such articles are described in sub paragraphs (B) through (F) of section 213(b)(1) of the CBERA (19 U.S.C. 2703(b)(1)(B)-(F)), as amended by section 211(a) of the CBTPA.

5. Section 604 of the Trade Act of 1974, as amended (the "1974 Act") (19 U.S.C. 2483), authorizes the President to embody in the HTS the substance of the relevant provisions of Acts affecting import treatment, and actions

thereunder, including the removal, modification, continuance, or imposition of any rate of duty or other import restriction.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States, including section 201(b) of the NAFTA Implementation Act, section 211 of the CBTPA, section 213 of the CBERA, and section 604 of the 1974 Act, do proclaim that:

(1) In order to provide for an accelerated schedule of duty elimination for specific goods of Mexico under the NAFTA and to provide identical tariff treatment for originating goods of a CBTPA beneficiary country provided for in the same HTS subheading, the tariff treatment set forth in the HTS is modified as provided in section 1 of the Annex to this proclamation.

(2) In order to provide for an accelerated schedule of duty elimination for specific goods of Mexico under the NAFTA, the tariff treatment set forth in the HTS is modified as provided in section 2 of the Annex to this proclamation.

(3) Any provisions of previous proclamations and Executive orders that are inconsistent with the actions taken in this proclamation are superseded to the extent of such inconsistency.

(4) The amendments made to the HTS by the Annex to this proclamation shall be effective with respect to goods entered, or withdrawn from warehouse for consumption, on or after January 1, 2001.

IN WITNESS WHEREOF, I have hereunto set my hand this seventeenth day of January, in the year of our Lord two thousand one, and of the Independence of the United States of America the two hundred and twenty-fifth.

BILLING CODE 4710-15-P

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Determination Under the African Growth and Opportunity Act

AGENCY: Office of the United States Trade Representative.

ACTION: Notice.

SUMMARY: The United States Trade Representative has determined that Kenya has adopted an effective visa system and related procedures to prevent unlawful transshipment and the use of counterfeit documents in connection with shipments of textile and apparel articles and has implemented and follows, or is making substantial progress toward implementing and following, the customs procedures required by the African Growth and Opportunity Act. Therefore, imports of eligible products from Kenya qualify for the enhanced trade benefits provided under the AGOA.

EFFECTIVE DATE: January 18, 2001.

FOR FURTHER INFORMATION CONTACT: Bethany Schwartz, Director for African Affairs, Office of the United States Trade Representative, (202) 395-9514.

SUPPLEMENTARY INFORMATION: The African Growth and Opportunity Act (Title I of the Trade and Development Act of 2000, Pub. L. No. 106-200) (AGOA) provides preferential tariff treatment for imports of certain textile and apparel products of beneficiary sub-Saharan African countries. The textile and apparel trade benefits provided by the AGOA are available to imports of eligible products from countries that the President designates as "beneficiary sub-Saharan African countries," provided that these countries (1) have adopted an effective visa system and related procedures to prevent unlawful transshipment and the use of counterfeit documents, and (2) have implemented and follow, or are making substantial progress toward implementing and following, certain customs procedures that assist the Customs Service in verifying the origin of the products.

In Proclamation 7350 of October 2, 2000, the President designated 34 countries as "beneficiary sub-Saharan African countries." Proclamation 7350 delegated to the United States Trade Representative (USTR) the authority to determine whether these countries have met the two requirements described above. The President directed the USTR to announce any such determinations in the **Federal Register** and to implement them through modifications of the Harmonized Tariff Schedule of the

United States (HTS). Based on actions that Kenya has taken, I have determined that Kenya has satisfied these two requirements.

The AGOA also directs the President to eliminate the existing quotas on textile and apparel articles imported into the United States from Kenya within 30 days after Kenya adopts an effective visa system to prevent unlawful transshipment of textile and apparel articles and the use of counterfeit documents relating to the importation of such articles into the United States. Proclamation 7350 delegated this responsibility to the USTR.

Accordingly, pursuant to the authority vested in the USTR by Proclamation 7350, the HTS is modified as provided in Proclamation 7350 and as specified in the Annex to this notice, effective with respect to articles entered, or withdrawn from warehouse, for consumption on or after January 18, 2001. Importers claiming preferential tariff treatment under the AGOA for entries of textile and apparel articles should ensure that those entries meet the applicable visa requirements. (The visa requirements are described in a separate notice that is being published in the **Federal Register** concurrently with this notice.) By this notice, I direct the Customs Service to eliminate the existing quotas on textile and apparel articles imported into the United States from Kenya within 30 days of the effective date of this notice.

Charlene Barshefsky,
United States Trade Representative.

Annex

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Visa Requirements Under the African Growth and Opportunity Act

AGENCY: Office of the United States Trade Representative.

ACTION: Directive to the commissioner of customs.

SUMMARY: In the letter published below, the United States Trade Representative directs the Commissioner of Customs to require that importers provide an appropriate export visa from a beneficiary sub-Saharan African country when claiming preferential treatment for entries of textile and apparel products under the African Growth and Opportunity Act.

EFFECTIVE DATE: January 18, 2001.

FOR FURTHER INFORMATION CONTACT: Bethany Schwartz, Director for African

Affairs, Office of the United States Trade Representative, (202) 395-9514.

SUPPLEMENTARY INFORMATION: The African Growth and Opportunity Act (Title I of the Trade and Development Act of 2000, Public Law 106-200) (AGO) provides preferential tariff treatment for imports of certain textile and apparel products of beneficiary sub-Saharan African countries. The textile and apparel trade benefits provided by the AGO are available to imports of eligible products from countries that the President designates as "beneficiary sub-Saharan African countries," provided that these countries (1) have adopted an effective visa system and related procedures to prevent unlawful transshipment and the use of counterfeit documents, and (2) have implemented and follow, or are making substantial progress toward implementing and following, certain customs procedures that assist the Customs Service in verifying the origin of the products.

In Proclamation 7350 of October 2, 2000, the President designated 34 countries as "beneficiary sub-Saharan African countries." Proclamation 7350 delegated to the United States Trade Representative (USTR) the authority to determine whether these countries have met the two requirements described above. The President directed the USTR to announce any such determinations in the **Federal Register** and to implement them through modifications of the Harmonized Tariff Schedule of the United States (HTS).

By Executive Order (January 17, 2001), the President delegated to the USTR the authority to direct the Commissioner of Customs to take such actions as may be necessary to ensure that textile and apparel articles described in section 112(b) of the AGOA (19 U.S.C. 3721(b)) that are entered, or withdrawn from warehouse, for consumption are accompanied by an appropriate export visa, if the preferential treatment described in section 112(a) of the AGOA (19 U.S.C. 3721(a)) is claimed with respect to such articles.

In the letter published below, the USTR directs the Commissioner of Customs to require that importers provide an appropriate export visa from a beneficiary sub-Saharan African country when claiming preferential treatment under section 112(a) of the AGOA for eligible textile and apparel products that are entered, or withdrawn from warehouse, for consumption. This requirement is intended to ensure the effectiveness of the visa systems that beneficiary sub-Saharan African countries have adopted. A facsimile of
