TARIFF SCHEDULES OF THE UNITED STATES ANNOTATED (1963)

SCHEDULE 1. - ANIMAL AND VEGETABLE PRODUCTS
Part 5. - Hides, Skins, and Leather; Furskins

Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty	
				1	2
		<p>Subpart B. - Furskins</p> <p><u>Subpart B headnotes:</u></p> <p>1. This subpart covers all furskins, except carroated furskins, but does not cover fur or hair which has been removed from the skin. (Carroated furskins and fur or hair removed from the skin are covered in subpart D of part 15 of schedule 1).</p> <p>2. As used in this subpart —</p> <p>(a) the terms "furskins" or "skins" include the whole skins, or cuttings, heads, paws, tails, or other parts of whole skins, whether or not assembled into plates, mats, linings, strips, crosses, or similar forms, but do not cover such skins or parts of skins assembled in the rough form of garments, of parts or accessories of garments, or of other articles (see part 138 of schedule 7);</p> <p>(b) the term "raw or not dressed" refers to raw, unprocessed skins, or to processed skins which have not been subjected to any processing which preserves them indefinitely in a pliant state; and</p> <p>(c) the term "dressed" refers to skins which have been subjected to any processing which preserves them indefinitely in a pliant state, whether or not dyed or otherwise processed and whether or not in condition ready for manufacture into garments or other articles.</p> <p>3. If the wool or hair on any skins which have been released from customs custody under Item 123.00 is removed from such skins otherwise than as an unsought residue resulting from the processing of the skins for use as furs, the entire importation shall be subject to duty at the appropriate rate for such wool or hair on the skin under subpart C of part 1 of schedule 3, and for the purposes of this headnote, the clean content of such wool or hair shall be deemed to be 100%.</p> <p>4. The entry or withdrawal from warehouse, for consumption of ermine, fox, kolinsky, marten, mink, muskrat, and weasel furskins, raw or not dressed, or dressed, which are the product of the Union of Soviet Socialist Republics or of Communist China, is prohibited.</p> <p><u>Subpart B statistical headnote:</u></p> <p>For the purposes of this subpart, the term "whole skins" includes whole skins from which heads, paws, or tails or any combination thereof have been removed.</p>

SCHEDULE 2. - WOOD AND PAPER; PRINTED MATTER
Part 1. - Wood and Wood Products

Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty	
				1	2
		<p>Subpart B. - Lumber, Flooring, and Moldings</p> <p><u>Subpart B headnotes:</u></p> <p>1. This subpart covers lumber, wood siding, wood flooring, wood moldings, and certain wood carvings and ornaments, including such products when they have been drilled or treated.</p> <p>2. For the purposes of this part, the following terms have the meanings hereby assigned to them:</p> <p>(a) <u>Lumber</u>: A product of a sawmill or sawmill and planing mill derived from a log by lengthwise sawing which, in its original sawed condition, has at least 2 approximately parallel flat longitudinal sawed surfaces, and which may be rough, dressed, or worked, as set forth below:</p> <p>(i) <u>rough lumber</u> is lumber just as it comes from the saw, whether in the original sawed size or edged, resawn, crosscut, or trimmed to smaller sizes;</p> <p>(ii) <u>dressed lumber</u> is lumber which has been dressed or surfaced by planing on at least one edge or face; and</p> <p>(iii) <u>worked lumber</u> is lumber which has been matched (provided with a tongued- and-grooved joint at the edges or ends), shiplapped (provided with a rabbeted or lapped joint at the edges), or patterned (shaped at the edges or on the faces to a patterned or molded form) on a matching machine, sticker, or molder. Edge-glued or end-glued wood over 6 feet in length and not over 15 inches in width shall be classified as lumber if such wood as a solid piece without glue joints would be deemed to be lumber as defined above.</p> <p>(b) <u>Softwood</u>: Wood from trees of coniferous species (order Coniferae).</p> <p>(c) <u>Hardwood</u>: Wood from trees of non-coniferous species.</p> <p>(d) <u>Drilled or treated</u>: Drilled at intervals for nails, screws, or bolts, sanded or otherwise surface processed in lieu of, or in addition to, planing or working, or treated with creosote or other wood preservatives, or with fillers, sealers, waxes, oils, stains, varnishes, paints, or enamels, but not including anti-stain or other temporary applications mentioned in headnote 4 of this subpart.</p> <p>(e) <u>Standard wood moldings</u>: Wood moldings worked to a pattern and having the same profile in cross section throughout their length.</p> <p>3. Lumber, including certain flooring provided for in this subpart, is dutiable on the basis of "<u>board measure</u>" for which the unit of measurement is the board foot. For the purposes of this subpart, a board foot is the quantity of lumber contained in, or derived (by drying, dressing, or working, or any combination of these processes) from, a piece of rough green lumber 1 inch in thickness, 12 inches in width, and 1 foot in length, or the equivalent of such piece in other dimensions.</p> <p>4. The treatment of lumber or other products provided for in this subpart with anti-stain or other temporary applications which serve only for the purpose of maintaining the products in their rough, dressed, or worked condition until installation or further manufacture shall not affect their classification under any of the provisions of this subpart.</p>

Tariff Schedules of the United States Annotated (1963)**EXPLANATORY KEY TO SUPPLEMENTARY CHANGES**

(3d supp. May 1964)

EXPLANATORY KEY TO SUPPLEMENTARY CHANGES

This key shows the changes made in this publication after the effective date of the Tariff Schedules of the United States, i.e., August 31, 1963. Therefore, this does not show the changes made by Supplement 1 which was issued prior to the effective date, but will include all changes made in supplements issued subsequent thereto.

It is intended, as future supplements are issued, that the changes made therein will be inserted in this key in the order in which the provisions appear in the annotated schedules. Each change will be identified by its special symbol, e.g. ②, showing the supplement in which it appeared. The effective date and, in appropriate cases, the authority therefor will also be shown. Thus, this key will show the chronological development of the provisions, both legal and statistical.

		<p>the certification, the importer shall notify the collector at the port of entry in advance of the transfer of the material and the entry shall be liquidated or reliquidated on the basis of the allowable losses for the plant to which transfer is to be made. If the importer fails to so notify the collector or fails to transfer the material after having notified the collector of his intention to do so, no deductions shall be allowable on such material and liquidation or reliquidation of the entry shall be made accordingly.</p> <p>(e) <u>Statements of Losses:</u> If losses are to be claimed under headnote 4(c), supra, for a specific plant, the importer shall, not later than 60 days after the close of each fiscal year, file with the collector of customs of the customs collection district in which the plant is located, a statement of losses for said fiscal year for the plant involved and at the request of the importer said collector shall advise the collectors of customs at other ports designated by the importer of the rates of losses at the said plant.</p> <p>(f) <u>Maintenance of Plant Records:</u> Each plant for which any of the deductions provided for in this headnote are claimed shall maintain records showing the receipt and disposition of each shipment of materials received in the plant and, if losses are to be claimed under headnote 4(c), supra, a record of the losses experienced, and these records shall be made available for inspection by customs officers.</p> <p>5. When, under the procedures set forth in headnote 5 of part 2C of this schedule, the market price of copper is considered to be below 24 cents per pound, a duty of 2 cents per pound on copper content shall apply in lieu of the duty of 1.7 cents per pound on copper content in column 1 of the Rates of Duty columns of items 602.30, 603.50, and 603.55.</p> <p>6. When the classification of imported materials under any provision of this part is dependent on the percentage of metal content, such percentage shall be the ratio of the total quantity of the respective metal content to the total quantity of imported material when computed on a dry-weight basis, i.e., free of all uncombined moisture.</p> <p><u>Part I statistical headnotes:</u></p> <p>1. For the purposes of this part--</p> <p>(a) the statistical reporting requirements for lead-, zinc-, or copper-bearing ores differ from the usual requirements in that multiple numbers must be used to report a single commodity. In all cases where ores are dutiable on the metal content under one or more of the items 602.10-.31, one or more of the reporting numbers under items 601.03-.66 must also be shown on separate lines on the import entry form. For example, a shipment of zinc concentrates to be initially treated at a zinc plant and containing also lead and copper (in excess of 2 percent by weight, as determined by chemical analysis without deductions), and also gold and silver, shall be reported under the following eight reporting numbers:</p> <p>601.6621 (lead content), 601.6622 (zinc content), 601.6623 (copper content), 601.6624 (gold content), 601.6625 (silver content), 602.1021 (dutiable lead content), 602.2022 (dutiable zinc content), and 602.3023 (dutiable copper content);</p>

		<p>(b) the 7-digit reporting numbers under items 601.39, 601.66, 603.50, 603.55, and 603.65 are not mutually exclusive. For example, a material classifiable under item 603.55 and containing lead, copper, gold, and silver would require the numbers 603.5510 (lead content), 603.5530 (copper content), 603.5540 (gold content), and 603.5550 (silver content). The quantity and value of each component metal of the material should be shown with the corresponding 7-digit number;</p> <p>(c) the quantity of metal content to be reported shall be the assay quantity without deductions unless otherwise specified;</p> <p>(d) for lead-, copper-, or zinc-bearing ores separate values for each such metal shall be reported in connection with the quantities reported under items 602.10, 602.20, or 602.30. The value of the gold or silver content, if any, shall be reported in connection with the appropriate 7-digit number in item 601.39 or 601.66. The sum of the separate values shown shall be equal to the total value of the ore; and</p> <p>(e) for precious metal ores classifiable under item 601.39 and not containing dutiable amounts of lead, zinc, or copper separate values for gold, silver, or "other precious metal" content shall be reported in connection with the corresponding 7-digit item number found therein.</p>

Subpart D. - Aluminum					
<u>Subpart D headnotes:</u>					
1. This subpart covers aluminum, its alloys, and their so-called basic shapes and forms and also covers aluminum waste and scrap.					
2. <u>Alloys of aluminum:</u> For the purposes of the tariff schedules, alloys of aluminum are metals in which the aluminum content is, by weight, less than 99.0 percent, but not less than any other metallic element. <u>Aluminum silicon</u> is an alloy of aluminum containing not less than 25 percent of silicon. In the absence of context which requires otherwise, the term " <u>aluminum</u> ", wherever used in the tariff schedules, includes alloys of aluminum.					
3. For the purposes of this subpart, the following terms have the meanings indicated:					
(a) <u>Bars:</u> Products of solid rectangular cross section, 0.25 inch or more in thickness and over 0.375 inch but not over 12 inches in width, in coils or cut to length; and products of solid hexagonal or octagonal cross section, 0.375 inch or more in thickness (measuring the perpendicular distance between opposite faces) in coils, or of any thickness in straight lengths.					
(b) <u>Rods:</u> Products of solid round cross section, which, if 0.375 inch or more in diameter, are in coils or cut to length, and which, if under 0.375 inch in diameter, are in straight lengths.					
(c) <u>Plates, sheets, and strips:</u> Products of solid rectangular cross section, in coils or cut to length; whether or not corrugated or crimped. Plates are 0.25 inch or more in thickness and over 12 inches in width; sheets and strip are under 0.25 but not under 0.006 inch in thickness.					
(d) <u>Wire:</u> A product of solid round, rectangular, hexagonal, or octagonal cross section, in coils, whose diameter, width, or perpendicular distance between opposite faces is less than 0.375 inch.					
(e) <u>Angles, shapes, and sections:</u> Products which do not conform completely to the respective definitions set forth in this headnote for bars, plates, sheets, strips, rods, or wire and do not include any tubular products.

Subpart E. - Nickel					
Subpart E headnotes:					
1. This subpart covers nickel, its alloys, their so-called basic shapes and forms, and also includes nickel waste and scrap.					
2. <u>Alloys of nickel</u> : For the purposes of the tariff schedules, alloys of nickel are metals in which the nickel content is, by weight, less than 99.0 percent, but not less than any other metallic element. In the absence of context which requires otherwise, the term "nickel", wherever used in the tariff schedules, includes alloys of nickel.					
3. For the purposes of this subpart, the following terms have the meanings indicated:

		<p>PART I. - ARTICLES EXPORTED AND RETURNED</p> <p><u>Part I headnotes:</u></p> <p>1. In the absence of a specific provision to the contrary, the tariff status of an article is not affected by the fact it was previously imported into the customs territory of the United States and cleared through customs whether or not duty was paid upon such previous importation.</p> <p>2. Any product of the United States which is returned after having been advanced in value or improved in condition abroad by any process of manufacture or other means, or any imported article which has been assembled abroad in whole or in part of products of the United States, shall be treated for the purposes of this Act as a foreign article, and, if subject to a duty which is wholly or partly ad valorem, shall be dutiable, except as otherwise prescribed in this part, on its full value determined in accordance with section 402 or 402a of this Act. If such product or such article is dutiable at a rate dependent upon its value, the value for the purpose of determining the rate shall be its full value under the said section 402 or 402a.</p> <p>3. This part does not apply to animals provided for in item 100.04 of part I of schedule I.</p> <p>Subpart A. - Articles not Advanced or Improved Abroad</p> <p><u>Subpart A headnotes:</u></p> <p>1. The items in this subpart (except item 804.00) shall not apply to any article — (a) exported with benefit of drawback; (b) of a kind with respect to the importation of which an internal-revenue tax is imposed at the time such article is entered, unless such article was subject to an internal-revenue tax imposed upon production or importation at the time of its exportation from the United States and it shall be proved that such tax was paid before exportation and was not refunded; or (c) manufactured or produced in the United States in a customs bonded warehouse or under item 864.05 and exported under any provision of law.</p> <p>2. For the purposes of item 804.00 — (a) when because of the destruction of customs records or for other cause it is impracticable to establish whether drawback was allowed, or the amount allowed, on a returned article, there shall be assessed thereon an amount of duty equal to the estimated drawback and internal-revenue tax which would be allowable or refundable if the imported merchandise used in the manufacture or production of the returned article were dutiable or taxable at the rate applicable to such merchandise on the date of entry, but in no case more than the duty and tax that would apply if the article were wholly of foreign origin; (b) tobacco products and cigarette papers and tubes classifiable under such item may be released from customs custody, without payment of that part of the duty attributable to the internal-revenue tax, for return to internal-revenue bond as provided by section 5704(e) of the Internal Revenue Code of 1954; and</p>

SUPPLEMENT 5

to

**TARIFF SCHEDULES
OF THE UNITED STATES
ANNOTATED (1963)**

The pages in this supplement are to be substituted for the corresponding pages in the Tariff Schedules of the United States Annotated (1963). Except for the changes in item 852.20 (P.L. 88-482, effective September 1, 1964), the changes in this supplement represent a substantial revision of the statistical breakouts for footwear in Part 1 of Schedule 7, and are to become effective on October 1, 1964. To accommodate this revision, new pages-- 396A and 396B--have been added.

It will be noted that the amendment of Schedule 8. - Special Classification Provisions, by P.L. 88-482, requires a departure from the usual tabular arrangement of the schedules in that the superior heading to item 852.10 now refers only to that item. The new item 852.20 is complete within itself and is not subordinate to the aforementioned superior heading.

The provisions in which changes have been made are identified with the special symbol **Ⓢ** and the changes made therein appear in the revised pages of the Explanatory Key to Supplementary Changes.

General Headnotes and Rules of Interpretation

(c) The foregoing provisions of this headnote do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties. Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this headnote do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties. Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this headnote shall apply only in cases where the schedules do not expressly provide a particular tariff treatment for commingled articles.

8. Abbreviations. In the schedules the following symbols and abbreviations are used with the meanings respectively indicated below:

\$	-	dollars
¢	-	cents
%	-	percent
+	-	plus
ad val.	-	ad valorem
bu.	-	bushel

9. Definitions. For the purposes of the schedules, unless the context otherwise requires --

(a) the term "entered" means entered, or withdrawn from warehouse, for consumption in the customs territory of the United States;

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption;

(c) the term "withdrawn for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) the term "rate of duty" includes a free rate of duty; rates of duty proclaimed by the President shall be referred to as "proclaimed" rates of duty; rates of duty enacted by the Congress shall be referred to as "statutory" rates of duty; and the rates of duty in column numbered 2 at the time the schedules become effective shall be referred to as "original statutory" rates of duty;

(e) the term "ton" means 2,240 pounds, and the term "short ton" means 2,000 pounds;

(f) the terms "of", "wholly of", "almost wholly of", "in part of" and "containing", when used between the description of an article and a material (e.g., "furniture of wood", "woven fabrics, wholly of cotton", etc.), have the following meanings:

(i) "of" means that the article is wholly or in chief value of the named material;

(ii) "wholly of" means that the article is, except for negligible or insignificant quantities of some other material or materials, composed completely of the named material;

(iii) "almost wholly of" means that the essential character of the article is imparted by the named material, notwithstanding the fact that significant quantities of some other material or materials may be present; and

(iv) "in part of" or "containing" mean that the article contains a significant quantity of the named material.

With regard to the application of the quantitative concepts specified in subparagraphs (iii) and (iv) above, it is intended that the de minimus rule apply.

10. General Interpretative Rules. For the purposes of these schedules --

(a) the general, schedule, part, and subpart headnotes, and the provisions describing the classes of imported articles and specifying the rates of duty or other import restrictions to be imposed thereon are subject to the rules of interpretation set forth herein and to such other rules of statutory interpretation, not inconsistent therewith, as have been or may be developed under administrative or judicial rulings;

(b) the titles of the various schedules, parts, and subparts and the footnotes therein are intended for convenience in reference only and have no legal or interpretative significance;

(c) an imported article which is described in two or more provisions of the schedules is classifiable in the provision which most specifically describes it; but, in applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings indented under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the schedules or between coordinate inferior headings which are subordinate to the same superior heading;

(d) if two or more tariff descriptions are equally applicable to an article, such article shall be subject to duty under the description for which the original statutory rate is highest, and, should the highest original statutory rate be applicable to two or more of such descriptions, the article shall be subject to duty under that one of such descriptions which first appears in the schedules;

(e) in the absence of special language or context which otherwise requires --

(i) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to,

General Headnotes and Rules of Interpretation

6

the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(iii) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered;

(f) an article is in chief value of a material if such material exceeds in value each other single component material of the article;

(g) a headnote provision which enumerates articles not included in a schedule, part, or subpart is not necessarily exhaustive, and the absence of a particular article from such headnote provision shall not be given weight in determining the relative specificity of competing provisions which describe such article;

(h) unless the context requires otherwise, a tariff description for an article covers such article, whether assembled or not assembled, and whether finished or not finished;

(i) a provision for "parts" of an article covers a product solely or chiefly used as a part of such article, but does not prevail over a specific provision for such part.

11. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the schedules. The allowance of an importer's claim for classification, under any of the provisions of the schedules which provide for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this headnote.

12. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

General statistical headnotes:

1. Statistical Requirements for Imported Articles.

Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(a) the number of the Customs district and of the part where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of these schedules;

(b) the name of the carrier or the means of transportation by which the articles were transported to the first port of unloading in the United States;

(c) the foreign port of lading;

(d) the United States port of unloading;

(e) the date of importation;

(f) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of these schedules;

(g) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in these schedules;

(h) the statistical reporting number under which the articles are classifiable;

(i) gross weight in pounds for the articles covered by each reporting number when imported in vessels or aircraft;

(k) the net quantity in the units specified herein for the classification involved; and

(l) such other information with respect to the imported articles as is provided for elsewhere in these schedules.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedules of the United States consist of--

(i) the 2-digit statistical suffixes,

(ii) the indicated units of quantity,

(iii) the statistical headnotes and annexes, and

(iv) the italicized article descriptions.

(b) The legal text of the Tariff Schedules of the United States consists of the remaining text as more specifically identified in headnote 10(a) of the general headnotes and rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) General Rule: Except as provided in paragraph (b) of this headnote, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 7-digit number formed by combining the 5-digit item number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 100.95 is "100.9520".

(b) Wherever in the tariff schedules an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 7-digit number for the basic provision followed by the item number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "165.6500-165.40".

4. Abbreviations. (a) The following symbols and abbreviations are used with the meanings respectively indicated below:

s. ton	-	short ton	5
C.	-	one hundred	
Cwt..	-	100 lbs.	
mg.	-	milligram	
M.	-	1,000	
bd. ft.	-	board feet	
M. bd. ft.	-	1,000 board feet	
mc.	-	millicurie	2
cord	-	128 cubic feet	
square	-	amount to cover 100 square feet of surface	
sup. ft.	-	superficial foot	
oz.	-	ounces avoirdupois	
fl. oz.	-	fluid ounce	
oz. troy	-	troy ounce	
pf. gal.	-	proof gallon	

(b) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(c) Whenever two separate units of quantity are shown for the same article, the superior "v" against one of such units means that the value of the article is to be reported with that quantity.
