1992			
92-11-F	The Structure of Simple Political-Economy Models: The Endogenous Policy Approach	*H. Keith Hall Douglas Nelson	WORKING PAPER

Office of Economics working papers are the result of the ongoing professional research of staff economists, and thus are solely meant to represent the opinions and professional research of individual authors. Working papers are circulated to promote the active exchange of ideas between staff economists and recognized experts outside the ITC, and to promote professional development of staff by encouraging outside professional critique of staff research. These papers are not meant to represent in any way the views of the International Trade Commission, individual commissioners, or other Commission staff.

* Staff Economist, U.S. International Trade Commission.
