Product information, including uses/applications and source(s) of imports:

The subject articles are cases specifically shaped or fitted to hold, store, or transport photo transparency reels used in children's toys. The cases hold and protect the circular mounts for sets of stereoscopic photographic transparencies, such as mounts measuring approximately 8.99 centimeters in diameter. These cases are manufactured in several colors and have hooks to attach to a child's belt or strap for convenient transportation. Trade sources indicate that the subject goods are imported from China and Indonesia.
