2. In regard to the country(ies) of origin listed in section III, this report focuses on dutiable imports and does not take into account any tariff preference programs or special rates of duty.

II. Suggested article description(s) for enactment (including appropriate HTS subheading(s)):

Poly(methyl methacrylate) (CAS No. 9010-88-2) (provided for in subheading 3906.10.00) and Poly(styrene-co-methyl methacrylate) (CAS No. 25034-86-0) (provided for in subheading 3906.90.50)

(If enacted, the tariff relief provided for in this bill would be available to any entity that imports the product that is covered by the bill.)

Description above compared with bill as introduced:

- Same
 Different (see Technical Comments section)

III. Other product information, including uses/applications and source(s) of imports

The subject products are used in extrusion or injection moldings to achieve surface or optical effects such as surface hardness, light diffusion, and texturing. These products are imported from many countries, including Japan, China, and Italy.

S. 2690 and S. 2689 each cover one of the two products covered by H.R. 5376. Passage of the three bills would result in two Chapter 99 headings for each of the two products. Commission staff recommends that H.R. 5376 be dropped.

IV. Estimated effect on customs revenue

Subject product HTS subheading(s)	3906.10.00 and 3906.90.50 (see VI. Continuation)

Note: Customs revenue loss is provided for 5 years, although the effective period of the proposed legislation may differ. Regarding the HTS subheading listed in the article description of the bill, the Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only U.S. Customs and Border Protection is authorized to issue a binding ruling on this matter. The Commission believes that Customs should be consulted prior to enactment of the bill.

Dutiable imports were based on (more than one may apply):

- Official statistics of the U.S. Department of Commerce
 Provided by industry sources
 Industry information
 Commission estimates

Duty reduction notes:

- This bill is not a duty reduction
 This bill is a temporary duty reduction. Rates are shown below.

Staff recommends the article description be changed as shown to replace the company-specific trade names with the actual chemical names of the subject products.
