

# Harmonized Tariff Schedule of the United States (2003) (Supplement 1)

Annotated for Statistical Reporting Purposes

Gen.Rs.Int.

## GENERAL RULES OF INTERPRETATION

Classification of goods in the tariff schedule shall be governed by the following principles:

1. The table of contents, alphabetical index, and titles of sections, chapters and sub-chapters are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative section or chapter notes and, provided such headings or notes do not otherwise require, according to the following provisions:
2.
  - (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as entered, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or falling to be classified as complete or finished by virtue of this rule), entered unassembled or disassembled.
  - (b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to goods of a given material or substance shall be taken to include a reference to goods consisting wholly or partly of such material or substance. The classification of goods consisting of more than one material or substance shall be according to the principles of rule 3.
3. When, by application of rule 2(b) or for any other reason, goods are, *prima facie*, classifiable under two or more headings, classification shall be effected as follows:
  - (a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to part only of the materials or substances contained in mixed or composite goods or to part only of the items in a set put up for retail sale, those headings are to be regarded as equally specific in relation to those goods, even if one of them gives a more complete or precise description of the goods.
  - (b) Mixtures, composite goods consisting of different materials or made up of different components, and goods put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.
  - (c) When goods cannot be classified by reference to 3(a) or 3(b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration.
4. Goods which cannot be classified in accordance with the above rules shall be classified under the heading appropriate to the goods to which they are most akin.
5. In addition to the foregoing provisions, the following rules shall apply in respect of the goods referred to therein:
  - (a) Camera cases, musical instrument cases, gun cases, drawing instrument cases, necklace cases and similar containers, specially shaped or fitted to contain a specific article or set of articles, suitable for long-term use and entered with the articles for which they are intended, shall be classified with such articles when of a kind normally sold therewith. This rule does not, however, apply to containers which give the whole its essential character;
  - (b) Subject to the provisions of rule 5(a) above, packing materials and packing containers entered with the goods therein shall be classified with the goods if they are of a kind normally used for packing such goods. However, this provision is not binding when such packing materials or packing containers are clearly suitable for repetitive use.
6. For legal purposes, the classification of goods in the subheadings of a heading shall be determined according to the terms of those subheadings and any related subheading notes and, *mutatis mutandis*, to the above rules, on the understanding that only subheadings at the same level are comparable. For the purposes of this rule, the relative section, chapter and subchapter notes also apply, unless the context otherwise requires.

## ADDITIONAL U.S. RULES OF INTERPRETATION

1. In the absence of special language or context which otherwise requires--
  - (a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of goods of that class or kind to which the imported goods belong, and the controlling use is the principal use;
  - (b) a tariff classification controlled by the actual use to which the imported goods are put in the United States is satisfied only if such use is intended at the time of importation, the goods are so used and proof thereof is furnished within 3 years after the date the goods are entered;
  - (c) a provision for parts of an article covers products solely or principally used as a part of such articles but a provision for "parts" or "parts and accessories" shall not prevail over a specific provision for such part or accessory; and
  - (d) the principles of section XI regarding mixtures of two or more textile materials shall apply to the classification of goods in any provision in which a textile material is named.

    - (i) Except as provided in subparagraph (iv) of this paragraph, the rates of duty in column 1 are rates which are applicable to all products other than those of countries enumerated in paragraph (b) of this note. Column 1 is divided into two subcolumns, "General" and "Special", which are applicable as provided below.
    - (ii) The "General" subcolumn sets forth the general or normal trade relations (NTR) rates which are applicable to products of those countries described in subparagraph (i) above which are not entitled to special tariff treatment as set forth below.
    - (iii) The "Special" subcolumn reflects rates of duty under one or more special tariff treatment programs described in paragraph (c) of this note and identified in parentheses immediately following the duty rate specified in such subcolumn. These rates apply to those products which are properly classified under a provision for which a special rate is indicated and for which all of the legal requirements for eligibility for such program or programs have been met. Where a product is eligible for special treatment under more than one program, the lowest rate of duty provided for any applicable program shall be imposed. Where no special rate of duty is provided for a provision, or where the country from which a product otherwise eligible for special treatment was imported is not designated as a beneficiary country under a program appearing with the appropriate provision, the rates of duty in the "General" subcolumn of column 1 shall apply.

      - (A) Except as provided in additional U.S. note 5 of chapter 91 and except as provided in additional U.S. note 2 of chapter 96, and except as provided in section 423 of the Tax Reform Act of 1986, and additional U.S. note 3(e) of chapter 71, goods imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column 1 of the tariff schedule, except that all such goods the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 70 percent of their total value (or more than 50 percent of their total value with respect to goods described in section 213(b) of the Caribbean Basin Economic Recovery Act), coming to the customs territory of the United States directly from any such possession, and all goods previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.
      - (B) In determining whether goods produced or manufactured in any such insular possession contain foreign materials to the value of more than 70 percent, no material shall be considered foreign which either--
        - (1) at the time such goods are entered, or
        - (2) at the time such material is imported into the insular possession,may be imported into the customs territory from a foreign country, and entered free of duty; except that no goods containing material to which (2) of this subparagraph applies shall be exempt from duty under subparagraph (A) unless adequate documentation is supplied to show that the material has been incorporated into such goods during the 18-month period after the date on which such material is imported into the insular possession.
    - (C) Subject to the limitations imposed under sections 503(a)(2), 503(a)(3) and 503(c) of the Trade Act of 1974, goods designated as eligible under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such goods imported from a beneficiary developing country under title V of such Act.

Whenever an eligible article which is the growth, product or manufacture of one of the countries designated as a least-developed beneficiary developing country is imported into the customs territory of the United States directly from such country, such article shall be entitled to receive the duty-free treatment provided for in subdivision (c) of this note without regard to the limitations on preferential treatment of eligible articles in section 503(c)(2)(A) of the Trade Act, as amended (19 U.S.C. 2463(c)(2)(A)).

- (ii) Articles provided for in a provision for which a rate of duty "Free" appears in the "Special" subcolumn followed by the symbol "A+" in parentheses are those designated by the President to be eligible articles for purposes of the GSP pursuant to section 503(a)(1)(B) of the Trade Act of 1974, as amended. The symbol "A+" indicates that all least-developed beneficiary countries are eligible for preferential treatment with respect to all articles provided for in the designated provisions. Whenever an eligible article which is the growth, product, or manufacture of a designated least-developed developing country listed in subdivision (b)(i) of this note is imported into the customs territory of the United States directly from such country, such article shall be eligible for duty-free treatment as set forth in the "Special" subcolumn; provided that, in accordance with regulations promulgated by the Secretary of the Treasury the sum of (1) the cost or value of the materials produced in the least-developed beneficiary developing country or 2 or more countries which are members of the same association of countries which is treated as one country under section 507(2) of the Trade Act of 1974, plus (2) the direct costs of processing operations performed in such least-developed beneficiary developing country or such members countries, is not less than 35 percent of the appraised value of such article at the time of its entry into the customs territory of the United States. Except as provided in subdivision (c)(iv) of this note, the regional value content of a good shall be calculated, at the choice of the exporter or producer of such good, on the basis of either the transaction value method set out in subdivision (c)(i) or the net cost method set out in subdivision (c)(ii).

(i) Transaction value method. The regional value content of a good may be calculated on the basis of the following transaction value method:

$$\text{RVC} = \frac{\text{TV} - \text{VNM}}{\text{TV}} \times 100$$

where RVC is the regional value content, expressed as a percentage; TV is the transaction value of the good adjusted to a F.O.B. basis; and VNM is the value of non-originating materials used by the producer in the production of the good.

(ii) Net cost method. The regional value content of a good may be calculated on the basis of the following net cost method:

$$\text{RVC} = \frac{\text{NC} - \text{VNM}}{\text{NC}} \times 100$$

where RVC is the regional value content, expressed as a percentage; NC is the net cost of the good; and VNM is the value of non-originating materials used by the producer in the production of the good.

(iii) Except as provided in subdivisions (d)(i) and (d)(ii)(A)(2) of this note, the value of non-originating materials used by the producer in the production of a good shall not, for purposes of calculating the regional value content of the good under subdivision (c)(i) or (c)(ii) of this note, include the value of non-originating materials used to produce originating materials that are subsequently used in the production of such good.

(iv) The regional value content of a good shall be calculated solely on the basis of the net cost method set out in subdivision (c)(ii) of this note where--

- (A) there is no transaction value for the good;
- (B) the transaction value of the good is unacceptable under section 402(b) of the Tariff Act of 1930, as amended (19 U.S.C. 1401a(b));
- (C) the good is sold by the producer to a related person and the volume, by units of quantity, of sales of identical or similar goods to related persons (as defined in article 415 of the NAFTA) during the six-month period immediately preceding the month in which the good is sold exceeds 85 percent of the producer's total sales of such goods during that period;
- (D) the good is--
  - (1) a motor vehicle provided for in headings 8701 or 8702, subheadings 8703.21 through 8703.90, inclusive, or headings 8704, 8705 or 8706;
  - (2) identified in annex 403.1 or 403.2 to the NAFTA and is for use in a motor vehicle provided for in headings 8701 or 8702, subheadings 8703.21 through 8703.90, inclusive, or headings 8704, 8705 or 8706;
  - (3) provided for in subheadings 6401.10 through 6406.10, inclusive; or
  - (4) provided for in subheading 8469.11;

- (E) the exporter or producer chooses to accumulate the regional value content of the good in accordance with subdivision (e) of this note; or
  - (F) the good is designated as an intermediate material under subdivision (c)(viii) of this note and is subject to a regional value-content requirement.
- (v) If the regional value content of a good is calculated on the basis of the transaction value method set out in subdivision (c)(i) of this note and a NAFTA party subsequently notifies the exporter or producer, during the course of a verification of the origin of the good, that the transaction value of the good, or the value of any material used in the production of the good, is required to be adjusted or is unacceptable under section 402 of the Tariff Act of 1930, as amended (19 U.S.C. 1401a), the exporter or producer may then also calculate the regional value content of the good on the basis of the net cost method set out in subdivision (c)(ii) of this note.
- (vi) For purposes of calculating the net cost of a good under subdivision (c)(ii) of this note, the producer of the good may--
- (A) calculate the total cost incurred with respect to all goods produced by that producer; subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs that are included in the total cost of all such goods; and then reasonably allocate the resulting net cost of those goods to the good;
  - (B) calculate the total cost incurred with respect to all goods produced by that producer; reasonably allocate the total cost to the good; and then subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs that are included in the portion of the total cost allocated to the good; or
  - (C) reasonably allocate each cost that forms part of the total cost incurred with respect to the good so that the aggregate of these costs does not include any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs;
- provided that the allocation of all such costs is consistent with the provisions regarding the reasonable allocation of costs set out in regulations issued by the Secretary of the Treasury. The term "total cost" means all product costs, period costs and other costs incurred in the territory of Canada, Mexico and/or the United States.
- (vii) Except as provided in subdivision (c)(ix) of this note, the value of a material used in the production of a good shall--
- (A) be the transaction value of the material determined in accordance with section 402(b) of the Tariff Act of 1930, as amended; or
  - (B) in the event that there is no transaction value or the transaction value of the material is unacceptable under section 402(b) of the Tariff Act of 1930, as amended, be determined in accordance with subsections (c) through (h), inclusive, of such section; and
  - (C) where not included under subdivision (A) or (B), include--
    - (1) freight, insurance, packing and all other costs incurred in transporting the material to the location of the producer;
    - (2) duties, taxes and customs brokerage fees on the material that were paid in the territory of Canada, Mexico, and/or the United States; and

- (3) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-product.
- (viii) Except for goods described in subdivision (d)(i) of this note, the producer of a good may, for purposes of calculating the regional value content of the good, designate any self-produced material (other than a component, or material thereof, identified in Annex 403.2 to the NAFTA) used in the production of the good as an intermediate material; provided that if the intermediate material is subject to a regional value-content requirement, no other self-produced material that is subject to a regional value-content requirement and is used in the production of that intermediate material may be designated by the producer as an intermediate material.
- (ix) The value of an intermediate material shall be--
  - (A) the total cost incurred with respect to all goods produced by the producer of the good that can be reasonably allocated to that intermediate material; or
  - (B) the aggregate of each cost that is part of the total cost incurred with respect to that intermediate material that can be reasonably allocated to that intermediate material.
- (x) The value of an indirect material shall be based on the Generally Accepted Accounting Principles applicable in the territory of Canada, Mexico, and/or the United States in which the good is produced.
- (xi) For purposes of this note, the term "reasonably allocate" means to apportion in a manner appropriate to the circumstances.

(e) Accumulation.

- (i) For purposes of determining whether a good is an originating good, the production of the good in the territory of Canada, Mexico and/or the United States by one or more producers shall, at the choice of the exporter or producer of the good for which preferential tariff treatment is claimed, be considered to have been performed in the territory of a NAFTA party by that exporter or producer, provided that--
  - (A) all non-originating materials used in the production of the good undergo an applicable tariff classification set out in subdivision (t) of this note,
  - (B) the good satisfies any applicable regional value-content requirement, entirely in the territory of one or more of the NAFTA parties; and
  - (C) the good satisfies all other applicable requirements of this note.
- (ii) For purposes of subdivision (c)(viii) of this note, the production of a producer that chooses to accumulate its production with that of other producers under subdivision (e)(i) shall be considered to be the production of a single producer.

(f) De minimis.

- (i) Except as provided in subdivisions (f)(iii) through (vi), inclusive, a good shall be considered to be an originating good if the value of all non-originating materials used in the production of the good that do not undergo an applicable change in tariff classification set out in subdivision (t) of this note is not more than 7 percent of the transaction value of the good, adjusted to a F.O.B. basis, or, if the transaction value is unacceptable under section 402(b) of the Tariff Act of 1930, as amended, the value of all such non-originating materials is not more than 7 percent of the total cost of the good, provided that--

- (h) Accessories, spare parts and tools. Accessories, spare parts or tools delivered with the good that form part of the good's standard accessories, spare parts or tools, shall be considered as originating if the good originates and shall be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (t) of this note, provided that--
- (i) the accessories, spare parts or tools are not invoiced separately from the good;
  - (ii) the quantities and value of the accessories, spare parts or tools are customary for the good; and
  - (iii) if the good is subject to a regional value-content requirement, the value of the accessories, spare parts or tools shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.
- (i) Indirect materials. An indirect material shall be considered to be an originating material without regard to where it is produced. The term "indirect material" means a good used in the production, testing or inspection of a good but not physically incorporated into the good, or a good used in the maintenance of buildings or the operation of equipment associated with the production of a good, including the following: fuel and energy; tools, dies and molds; spare parts and materials used in the maintenance of equipment and buildings; lubricants, greases, compounding materials and other materials used in production or used to operate other equipment and buildings; gloves, glasses, footwear, clothing, safety equipment and supplies; equipment, devices and supplies used for testing or inspecting the goods; catalysts and solvents; and any other goods that are not incorporated into the good but whose use in the production of the good can reasonably be demonstrated to be a part of that production.
- (j) Packaging materials and containers for retail sale. Packaging materials and containers in which a good is packaged for retail sale shall, if classified with the good, be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (t) of this note, and, if the good is subject to a regional value-content requirement, the value of such packaging materials and containers shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.
- (k) Packing materials and containers for shipment. Packing materials and containers in which the good is packed for shipment shall be disregarded in determining whether--
- (i) the non-originating materials used in the production of the good undergo an applicable change in tariff classification set out in subdivision (t) of this note; and
  - (ii) the good satisfies a regional value-content requirement.
- (l) Transshipment. A good shall not be considered to be an originating good by reason of having undergone production that satisfies the requirements of this note if, subsequent to that production, the good undergoes further production or any other operation outside the territories of the NAFTA parties, other than unloading, reloading or any other operation necessary to preserve it in good condition or to transport the good to the territory of Canada, Mexico and/or the United States.
- (m) Non-qualifying operations. A good shall not be considered to be an originating good merely by reason of--
- (i) mere dilution with water or another substance that does not materially alter the characteristics of the good; or
  - (ii) any production or pricing practice with respect to which it may be demonstrated, on the basis of a preponderance of evidence, that the object was to circumvent this note.

- (B) a printed circuit assembly that is a non-originating material used in the production of a good where the applicable change in tariff classification for the good places restrictions on the use of such non-originating material, and
  - (C) a non-originating material used in the production of a good provided for in chapters 1 through 27, inclusive, unless the non-originating material is provided for in a different subheading than the good for which origin is being determined;

## Chapter 27.

**Chapter rule, applicable only to goods of Canada under the terms of this note that are entered, or withdrawn from warehouse for consumption, on or after January 1, 2003:** For the purposes of heading 2710, the following processes confer origin:

- (a) Atmospheric distillation—a separation process in which petroleum oils are converted, in a distillation tower, into fractions according to boiling point and the vapor then condensed into different liquefied fractions. Liquefied petroleum gas, naphtha, gasoline, kerosene, diesel/heating oil, light gas oils and lubricating oil are produced from petroleum distillation;
  - (b) Vacuum distillation—distillation at a pressure below atmospheric but not so low that it would be classed as molecular distillation. Vacuum distillation is useful for distilling high-boiling and heat-sensitive materials such as heavy distillates in petroleum oils to produce light to heavy vacuum gas oils and residuum. In some refineries gas oils may be further processed into lubricating oils;
  - (c) Catalytic hydroprocessing—the cracking and/or treating of petroleum oils with hydrogen at high temperature and under pressure, in the presence of special catalysts. Catalytic hydroprocessing includes hydrocracking and hydrotreating;
  - (d) Reforming (catalytic reforming)—the rearrangement of molecules in a naphtha boiling range material to form higher octane aromatics (i.e., improved antiknock quality at the expense of gasoline yield). A main product is catalytic reformate, a blend component for gasoline. Hydrogen is another by-product;
  - (e) Alkylation—a process whereby a high-octane blending component for gasolines is derived from catalytic combination of an isoparaffin and an olefin;
  - (f) Cracking—a refining process involving decomposition and molecular recombination of organic compounds, especially hydrocarbons obtained by means of heat, to form molecules suitable for motor fuels, monomers, petrochemicals, etc.:
    - (i) Thermal cracking—exposes the distillate to temperatures of approximately 540° C to 650° C for varying periods of time. Process produces modest yields of gasoline and higher yields of residual products for fuel oil blending;
    - (ii) Catalytic cracking—hydrocarbon vapors are passed at approximately 400° C over a metallic catalyst (e.g., silica-alumina or platinum); the complex recombinations (alkylation, polymerization, isomerization, etc.) occur within seconds to yield high-octane gasoline. Process yields less residual oils and light gases than thermal cracking;
  - (g) Coking—a thermal cracking process for the conversion of heavy low-grade products, such as reduced crude, straight run pitch, cracked tars and shale oil, into solid coke (carbon) and lower boiling hydrocarbon products which are suitable as feed for other refinery units for conversion into lighter products; or
  - (h) Isomerization—the refinery process of converting petroleum compounds into their isomers.

(b) For purposes of this note, subject to the provisions of subdivisions (d) and (e), goods imported into the customs territory of the United States are eligible for treatment as "products of Jordan" only if–

(c) (i) For purposes of subdivision (b)(ii)(A) of this note, except as otherwise provided in subdivision (d) for textile and apparel articles, the expression "wholly the growth, product or manufacture of Jordan" refers both to–

(A) an article which has been entirely grown, produced or manufactured in Jordan, and

(B) all materials incorporated in an article which have been entirely grown, produced or manufactured in Jordan,

but does not include articles or materials imported into Jordan from another country, whether or not such articles or materials were substantially transformed into new or different articles of commerce after their importation into Jordan.

(A) simple combining or packaging operations, or

(B) mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.

(iv) For purposes of subdivision (ii)(A), the term "cost or value of materials" includes–

(B) when not included in the manufacturer's actual cost for the materials, the freight, insurance, packing and all other costs incurred in transporting the materials to the manufacturer's plant,

(C) the actual cost of waste or spoilage (material list), less the value of recoverable scrap, and

(D) taxes and/or duties imposed on the materials by a party to the Agreement, provided they are not remitted upon exportation.

Annotated for Statistical Reporting Purposes

GN 18(c)(iv)–18(d)(i)(B)

When a material is provided to the manufacturer without charge, or at less than fair market value, its cost or value shall be determined by computing the sum of (I) all expenses incurred in the growth, production or manufacturer of the material, including general expenses; (II) an amount for profit; and (III) freight, insurance, packing, and all other costs incurred in transporting the material to the manufacturer's plant. If the pertinent information is not available, the appraising officer may ascertain or estimate the value thereof using all reasonable ways and means at his disposal.

- (v) For purposes of subdivision (ii)(B), the term “direct costs of processing operations” performed in Jordan means those costs either directly incurred in, or which can be reasonably allocated to, the growth, production, manufacture or assembly of the goods entered under the terms of subdivision (a) of this note. That term includes, but is not limited to, the following, to the extent that they are includible in the appraised value of goods imported into the customs territory of the United States—
- (A) all actual labor costs involved in the growth, production, manufacture or assembly of the specific merchandise, including fringe benefits, on-the-job training and the cost of engineering, supervisory, quality control and similar personnel, and
  - (B) dies, molds, tooling and depreciation on machinery and equipment which are allocable to the specific merchandise,
  - (C) research, development, design, engineering and blueprint costs insofar as they are allocable to the specific article, and
  - (D) costs of inspecting and testing the specific article;
- but that term does not include costs which are not directly attributable to the merchandise concerned, or are not costs of manufacturing the product, such as (I) profit, and (II) general expenses of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising and salesmen's salaries, commissions or expenses.
- (vi) For purposes of subdivision (b)(i) of this note, except for goods covered by the provisions of subdivision (d) of this note, the term “imported directly” means—
- (A) direct shipment from Jordan to the United States without passing through the territory of any intermediate country, or
  - (B) if shipment is through the territory of an intermediate country, the articles in the shipment do not enter into the commerce of any intermediate country and the invoices, bills of lading and other shipping documents show the United States as the final destination, or
  - (C) if shipment is through an intermediate country and the invoices and other documents do not show the United States as the final destination, then the articles in the shipment are imported directly only if they—
    - (1) remain under the control of the customs authority in an intermediate country,
    - (2) do not enter into the commerce of an intermediate country except for the purpose of a sale other than at retail, provided that the articles are imported as a result of the original commercial transaction between the importer and the producer or the producer's sales agent, and
    - (3) have not been subjected to operations other than loading and unloading, and other activities necessary to preserve the article in good condition.
- (d) Textile and apparel articles.
- (i) For purposes of this note, a textile or apparel article imported directly from Jordan into the customs territory of the United States shall be eligible for the tariff treatment provided in subdivision (a) of this note only if—
    - (A) the article is wholly obtained or produced in Jordan;
    - (B) the article is a yarn, thread, twine, cordage, rope, cable or braiding, and—
      - (1) the constituent staple fibers are spun in Jordan, or

(2) the continuous filament is extruded in Jordan;

- (C) the article is a fabric, including a fabric classified in chapter 59 of the tariff schedule, and the constituent fibers, filaments or yarns are woven, knitted, needled, tufted, felted, entangled or transformed by any other fabric-making process in Jordan; or
- (D) the article is any other textile or apparel article that is wholly assembled in Jordan from its component pieces.

Such textile and apparel articles not wholly obtained or produced in Jordan must comply with the requirements of this subdivision and of subdivision (c)(ii) of this note.

- (ii) For purposes of subdivision (d)(i)(A) of this note, an article is “wholly obtained or produced in Jordan” if it is wholly the growth, product or manufacture of Jordan.
  - (iii) Notwithstanding the provisions of subdivision (d)(i)(D) and except as provided in subdivisions (d)(5) and (d)(6) of this note, subdivision (d)(i)(A), (d)(i)(B) or (d)(i)(C), as appropriate, shall determine whether a good that is classified in one of the following headings or subheadings of the tariff schedule shall be considered to meet the requirements of subdivision (b) of this note: 5609, 5807, 5811, 6209.20.50 (the requirement of this subdivision applies only to babies’ diapers of this provision), 6213, 6214, 6301, 6302, 6304, 6305, 6306, 6307.10, 6307.90, 6308 and 9404.90.
  - (iv) Notwithstanding the provisions of subdivision (d)(i)(D) and except as provided in subdivisions (d)(v) and (d)(vi) of this note, a textile or apparel article which is knit-to-shape in Jordan shall be considered to meet the requirements of subdivision (b) of this note.
  - (v) Notwithstanding the provisions of subdivision (d)(i)(D) of this note, a good classified in subheading 6117.10, heading 6213 or 6214 or subheadings 6302.22, 6302.29, 6302.52, 6302.53, 6302.59, 6302.92, 6302.93, 6302.99, 6303.92, 6303.99, 6304.19, 6304.93, 6304.99, 9404.90.85 or 9494.90.95 of the tariff schedule, except for a good classified in any such provision as of cotton or of wool or consisting of fiber blends containing 16 percent or more by weight of cotton, shall be considered to meet the requirements of subdivision (b) of this note if the fabric in the good is both dyed and printed in Jordan, and such dyeing and printing is accompanied by two or more of the following finishing operations: bleaching, shrinking, fulling, napping, decating, permanent stiffening, weighting, permanent embossing or moireing.
  - (vi) Notwithstanding the provisions of subdivision (d)(i)(C) of this note, a fabric classified in the tariff schedule as of silk, cotton, man-made fiber, or vegetable fiber shall be considered to meet the requirements of subdivision (b) of this note if the fabric is both dyed and printed in Jordan, and such dyeing and printing is accompanied by two or more of the following finishing operations: bleaching, shrinking, fulling, napping, decating, permanent stiffening, weighting, permanent embossing or moireing.
  - (vii) If the origin of a textile or apparel article cannot be determined under subdivision (d)(i) or (d)(iii) through (d)(vi), inclusive, of this note, then that article shall be considered to meet the requirements of subdivision (b) of this note if—
    - (A) the most important assembly or manufacturing process occurs in Jordan, or
    - (B) if the applicability of subdivision (b) of this note cannot be determined under subdivision (d)(vii)(A) of this note, the last important assembly or manufacturing occurs in Jordan.
- (e) Exclusion. A good shall not be considered to meet the requirements of subdivision (b) of this note if the good—

- (f) Certification and records. Whenever an importer enters an article as eligible for the preferential treatment provided under this note—
- (i) the importer shall be deemed to certify that such article qualifies for the preferential treatment provided under this note;
  - (ii) the importer shall be prepared to submit to the customs officer concerned, upon request, a declaration setting forth all pertinent information concerning the production or manufacture of the article, and the information on such declaration should contain at least the following pertinent details:
    - (A) a description of the article, quantity, numbers and marks of packages, invoice numbers and bills of lading;

    - (E) a description of the origin and cost or value of any foreign materials used in the article which have not been substantially transformed in Jordan.

This declaration shall be prepared, signed and submitted upon request by the U.S. customs officer concerned. A declaration should only be requested when the Customs Service has reason to question the accuracy of the certification that, by operation of subdivision (f)(i) of this note, is deemed to have occurred, or when the Customs Service procedures for assessing the risk of improper or incorrect entry of an article indicate that verification of an entry is appropriate, or when a random verification is conducted. The information necessary for the preparation of the declaration shall be retained in the files of the importer for a period of five years.

- (g) The Secretary of the Treasury, after consultation with the United States Trade Representative, shall prescribe such regulations as may be necessary to carry out this note.

19. Exemptions. For the purposes of general note 1--

- (a) corpses, together with their coffins and accompanying flowers,
- (b) telecommunications transmissions,
- (c) records, diagrams and other data with regard to any business, engineering or exploration operation whether on paper, cards, photographs, blueprints, tapes or other media,
- (d) articles returned from space within the purview of section 484a of the Tariff Act of 1930,
- (e) articles exported from the United States which are returned within 45 days after such exportation from the United States as undeliverable and which have not left the custody of the carrier or foreign customs service, and

## 20. Commingling of Goods.

- (a) Whenever goods subject to different rates of duty are so packed together or mingled that the quantity or value of each class of goods cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:
- (i) sampling,
  - (ii) verification of packing lists or other documents filed at the time of entry, or
  - (iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled goods shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the goods pursuant to subparagraph (b) hereof.

- (b) Every segregation of goods made pursuant to this note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the goods are commingled and that the quantity or value of each class of goods cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.
- (c) The foregoing provisions of this note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof--
- (i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and
  - (ii) that the commingling was not intended to avoid the payment of lawful duties.

Any goods with respect to which such proof is furnished shall be considered for all customs purposes as a part of the goods, subject to the next lower rate of duty, with which they are commingled.

- (d) The foregoing provisions of this note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof--
- (i) that the value of the commingled goods is less than the aggregate value would be if the shipment were segregated;
  - (ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and
  - (iii) that the commingling was not intended to avoid the payment of lawful duties.

Any goods with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

- (e) The provisions of this note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled goods.

23. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this note.
24. Methods of Ascertainment. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

## GENERAL STATISTICAL NOTES

### 1. Statistical Requirements for Imported Goods.

- (a) Persons making customs entry or withdrawal of goods imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:
- (i) the number of the Customs district and of the port where the goods are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;
  - (ii) the name of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the goods first arrived in the United States;
  - (iii) the foreign port of lading;
  - (iv) the U.S. port of unloading for vessel and air shipments;
  - (v) the date of importation;
  - (vi) the country of origin of the goods expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;
  - (vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;
  - (viii) the date of exportation;
  - (ix) a description of the goods in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;
  - (x) the statistical reporting number under which the goods are classifiable, including the appropriate symbol placed as a prefix to the statistical reporting number when claiming special tariff treatment as provided for in general note 3(c)(i) (asterisks, however, are not to be reported with or in place of the symbol prefix, e.g. for the Generalized System of Preferences only the "A" and not the asterisk shall be reported);
  - (xi) gross weight in kilograms for the goods covered by each reporting number for all modes of transportation;
  - (xii) the net quantity in the units specified herein for the classification involved and with the units noted;
  - (xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;
  - (xiv) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance and all other charges, costs and expenses (each of which charges, costs and expenses shall be separately itemized on or attached to the related invoice) incurred (except as provided below) in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry. In the case of overland shipments originating in Canada or Mexico, such costs shall include freight, insurance, and all other charges, costs and expenses incurred in bringing the merchandise from the point of origin (where the merchandise begins its journey to the United States) in Canada or Mexico to the first U.S. port of entry; and
  - (xv) such other information with respect to the imported goods as is provided for elsewhere in the tariff schedule.
- (b) For the purpose of paragraph (a), the following provisions shall govern:
- (i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation; and

Annotated for Statistical Reporting Purposes

## GSN 1(b)(ii)--GSN 3(c)

- (ii) if for the purposes of subparagraph (xiv) of subdivision (a) actual amounts cannot be provided, the person making the entry or withdrawal shall provide reasonable estimates of such information. The use of an estimate for statistical purposes does not relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions. For Customs purposes, estimates shall not be used in declaring the value of merchandise in accordance with section 402 of the Tariff Act of 1930, as amended by the Trade Agreements Act of 1979. Therefore, when the price of goods includes freight, insurance and other charges (e.g., the terms of sale are CIF), estimates of those charges reported pursuant to this note may not be deducted from the price to arrive at the value declared to the Customs Service. However, when the actual charges are known, they must be excluded to arrive at the declared value.

## 2. Statistical Annotations.

- (a) The statistical annotations to the Harmonized Tariff Schedule of the United States consist of--
  - (i) the 2-digit statistical suffixes and any article descriptions applicable thereto,
  - (ii) the indicated units of quantity, and
  - (iii) the statistical notes and annexes.
- (b) The legal text of the Harmonized Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

## 3. Statistical Reporting Number.

- (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit subheading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under subheading 0106.00.50 is "0106.00.5010".
- (b) Whenever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the 10-digit subheading number of the provision from which the rate is derived. Thus, the statistical reporting number for certain mountings for optical telescopes is "9005.90.8000-9005.80.4040". If multiple statistical reporting numbers are shown for the subheading from which the duty rate is derived and the shipment contains articles covered by more than one statistical reporting number from the subheading, then report the last applicable statistical reporting number only.
- (c) Whenever an article is eligible for reduced Merchandise Processing Fee (MPF), and a claim therefor is made under one of the following programs, the statistical reporting number is, in absence of specific instructions to the contrary elsewhere, the 10-digit number prefixed by the appropriate symbol indicated below:

Automotive Products Trade Act . . . . .	B#

- (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.
- (b) Whenever two separate units of quantity are shown for the same article, the value of the article is to be reported with the first unit of quantity shown, unless there is a "v" following the second unit of quantity in which case the value of the article is to be reported with that unit of quantity.

5. Reporting of exports.

Except as noted below, the statistical reporting numbers for articles classified in chapters 1 through 97 of this schedule may be used in place of comparable Schedule B numbers on the Shipper's Export Declaration. Statistical reporting numbers for articles covered by chapters 98 and 99 of this schedule may only be used on import entries. Schedule B numbers may not be reported on import entries in place of HTS numbers. Statistical reporting numbers used on the Shipper's Export Declaration should not include any symbols in the form of prefixes used to denote special tariff treatment.
