

UNITED STATES INTERNATIONAL TRADE COMMISSION

WASHINGTON, DC 20436

January 25, 2008

To Whom It May Concern:

The enclosed questionnaire(s) pertains to the United States International Trade Commission's investigations concerning light-walled rectangular ("LWR") pipe and tube. The investigations are being conducted under the provisions of sections 701 and 731 of the Tariff Act of 1930.

In these investigations the Commission must determine whether an industry in the United States is materially injured or is threatened with material injury by reason of imports from China, Korea, Mexico, or Turkey of LWR pipe and tube that have been found to be subsidized in the case of China and found to be sold in the United States at less than fair value in the case of China, Korea, Mexico, and Turkey. A copy of the Commission's notice of these investigations is enclosed and will be published in the *Federal Register*.

The business proprietary information you supply in the Commission's questionnaire(s) or in connection therewith will be so treated by the Commission and will not be disclosed except as may be required by law. Your response will be consolidated with the responses of other firms and will form much of the statistical base for the Commission's determination. The questions in the questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible.

Please return the completed questionnaire(s) to the Commission by no later than February 19, 2008 (attn: Russell Duncan, russell.duncan@usitc.gov Room 615-U, U.S. International Trade Commission, 500 E Street, SW, Washington, DC, 20436). If you have any questions concerning the questionnaire(s) or other matters related to these investigations, please contact Russell Duncan (202-708-4727, russell.duncan@usitc.gov) of the Commission's staff.

Sincerely,

A handwritten signature in cursive script that reads "Robert Carpenter".

Robert Carpenter
