

The U.S. Office of Personnel Management (OPM) recently became aware of a cybersecurity incident affecting its systems and data that may have exposed the personal information of current and former Federal employees.

Beginning June 8 and continuing through June 19, 2015, OPM will be sending email and U.S. mail notifications to current and former Federal employees potentially impacted by the incident. Email notices will be sent from [opmcio@csid.com](mailto:opmcio@csid.com). Standard letters will be sent to individuals for whom OPM does not have an email address.

The communication will contain information regarding services being provided at no cost to individuals impacted by the incident, including credit report access, credit monitoring, identity theft insurance, and recovery services. Additional information will be made available beginning at 8 a.m. CST on June 8, 2015 at [www.csid.com/opm](http://www.csid.com/opm).
