

UNITED STATES INTERNATIONAL TRADE COMMISSION
Washington, D.C. 20436

Investigation No. 731-TA-1206 (Preliminary)

DIFFUSION-ANNEALED, NICKEL-PLATED FLAT-ROLLED STEEL PRODUCTS FROM JAPAN

DETERMINATION

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission (Commission) determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. § 1673b(a)) (the Act), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from Japan of diffusion-annealed, nickel-plated flat-rolled steel products, provided for primarily in subheadings 7210.90 and 7212.50 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).²

COMMENCEMENT OF FINAL PHASE INVESTIGATION

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigation. The Commission will issue a final phase notice of scheduling, which will be published in the *Federal Register* as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce (Commerce) of an affirmative preliminary determination in the investigation under section 733(b) of the Act, or, if the preliminary determination is negative, upon notice of an affirmative final determination in that investigation under section 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigation need not enter a separate appearance for the final phase of the investigation. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation.

BACKGROUND

On March 27, 2013, a petition was filed with the Commission and Commerce by Thomas Steel Strip Corporation, Warren, Ohio, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV imports of diffusion-annealed, nickel-plated flat-rolled steel products from Japan. Accordingly, effective March 27, 2013, the Commission instituted antidumping duty investigation No. 731-TA-1206 (Preliminary).

Notice of the institution of the Commission's investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the *Federal Register* of April 2, 2013 (78 FR 19734). The conference was held in Washington, DC, on April 17, 2013, and all persons who requested the opportunity were permitted to appear in person or by counsel.

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR § 207.2(f)).

² Commissioner Daniel R. Pearson dissenting.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on May 13, 2013. The views of the Commission are contained in USITC Publication 4395 (May 2013), entitled *Diffusion-Annealed, Nickel-Plated Flat-Rolled Steel Products from Japan: Investigation No. 731-TA-1206 (Preliminary)*.

By order of the Commission.

A handwritten signature in black ink, appearing to read "Lisa R. Barton". The signature is fluid and cursive, with the first name "Lisa" being the most prominent part.

Lisa R. Barton
Acting Secretary to the Commission
