## USITC REPORTS RESULTS OF QUARTERLY SURVEY OF PRODUCERS OF BOLTS, NUTS, AND LARGE SCREWS OF IRON OR STEEL

The United States International Trade Commission has compiled its third quarterly survey of U.S. producers of bolts, nuts, and large screws of iron or steel, required under Presidential Proclamation No. 4632. The report, which provides information on an annual and monthly basis, is necessary for the monitoring of the effects of temporary increases in duties on imports. The information developed covers U.S. production, U.S. producers' shipments, imports for consumption, exports, apparent consumption, employment, man-hours, and prices.

Major findings of the survey indicate that during the third quarter of 1979, U.S. producers' shipments, based on quantity, were 7 percent larger than shipments in the third quarter of 1978 but 13 percent less than shipments in the second quarter of 1979. Conversely, U.S. imports of bolts, nuts, and large screws were about 8 percent less in the third quarter of 1979 than the quantities imported in the third quarter of 1978, but 3 percent larger than imports in the second quarter of 1979. The ratio of imports to apparent consumption declined from 51 percent in the third quarter of 1978 to 46 percent during the third quarter of 1979. The ratio was 43 percent during the second quarter of 1979.

The quantity of U.S. exports of bolts, nuts, and large screws during the third quarter of 1979 was 15 percent less than exports during the third quarter of 1978 and 29 percent less than exports during the second quarter of 1979.

more

USITC REPORTS RESULTS OF QUARTERLY SURVEY OF PRODUCERS OF BOLTS,  
NUTS, AND LARGE SCREWS OF IRON OR STEEL

- 2 -

The average number of employees engaged in the production of bolts, nuts, and large screws increased continuously from the third quarter of 1978 to the second quarter of 1979 before decreasing 3 percent during the third quarter of 1979. The man-hours expended by these workers during the third quarter of 1979 were 9 percent greater than man-hours expended during the third quarter of 1978, but 6 percent less than man-hours expended during the second quarter of 1979.

The average lowest net selling prices received in the third quarter of 1979 by U.S. producers for six representative fastener products were, on an average, about 12 percent greater than prices received during the third quarter of 1978, but such prices were about the same as those received during the second quarter of 1979.

The report is sent to the Special Representative for Trade Negotiations who is responsible for monitoring the effects of the temporary duty increases implemented by the Presidential proclamation.

Copies of the report (USITC Publication 1020) can be obtained by calling (202) 523-5178, or from the Office of the Secretary, 701 E Street NW., Washington, D.C. 20436; or at the USITC'S New York Office, 6 World Trade Center, Suite 629, New York, N.Y. 10048, (212)466-5598.

## Summary Highlights of the Third Quarterly Survey of U.S. Producers of Bolts, Nuts, and Large Screws of Iron or Steel

### Production

U.S. production of bolts, nuts, and large screws during the third quarter of 1979 totaled 304 million pounds, which was 18 percent larger than production during the third quarter of 1978, but 12 percent less than production during the second quarter of 1979.

### U.S. producers' shipments

During the third quarter of 1979, U.S. producers' shipments amounted to 274 million pounds, 7 percent increase over shipments in the third quarter of 1978, but 13 percent less than the quantities shipped during the second quarter of 1979. U.S. producers' intracompany shipments amounted to approximately 5 percent of total shipments during each of the quarters under discussion.

### U.S. imports

U.S. imports of bolts, nuts, and large screws totaled 199 million pounds in the third quarter of 1979, which was about 8 percent less than imports in the third quarter of 1978, but 3 percent more than imports in the second quarter of 1979.

### U.S. exports

The quantity of bolts, nuts, and large screws exported during the third quarter of 1979 was 15 percent less than exports during the third quarter of 1978, and 29 percent less than the quantities exported during the second quarter of 1979.

Apparent consumption

Apparent consumption of bolts, nuts, and large screws during the third quarter of 1979 was 429 million pounds, which was 2 percent larger than apparent consumption in the third quarter of 1978, but 4 percent less than the quantities consumed during the second quarter of 1979. The ratio of imports to consumption declined from 51 percent in the third quarter of 1978 to 46 percent in the third quarter of 1979. The ratio amounted to 43 percent in the second quarter of 1979.

Employment and man-hours

The average number of production and related workers engaged in the production of bolts, nuts, and large screws increased from 12,702 workers during the third quarter of 1978 to 14,324 workers during the second quarter of 1979, before decreasing to 13,953 workers during the third quarter of 1979. The man-hours expended by these workers totaled 7,686,000 during the third quarter of 1979, which was about 9 percent greater than the man-hours expended in the third quarter of 1978, but 6 percent less than the man-hours expended during the second quarter of 1979.

Prices

The average lowest net selling prices received in the third quarter of 1979 on six representative fastener products were, on an average, 12 percent greater than prices received in the third quarter of 1978, but about the same as those received during the second quarter of 1979.

1/ Prior to January 1, 1978, exports include bolts, threaded rods and studs, nuts if nuts and bolts are in the same shipment, screws, rivets, washers, and similar articles. It is estimated by the staff of the U.S. International Trade Commission that bolts, nuts, and large screws of iron or steel accounted for approximately 80 percent of total exports.

Source: U.S. producers' shipments, compiled from data submitted in response to questionnaires of the U.S. International Trade Commission; imports and exports, compiled from official statistics of the U.S. Department of Commerce, except as noted.
