## USITC REPORTS RESULTS ON QUARTERLY SURVEY OF PRODUCERS OF BOLTS, NUTS, AND LARGE SCREWS OF IRON OR STEEL

The United States International Trade Commission has compiled its fourth quarterly survey of U.S. producers of bolts, nuts, and large screws of iron or steel, required under Presidential Proclamation No. 4632. The report, which provides information on an annual and monthly basis, is necessary for the monitoring of the effects of temporary increases in duties on imports. The information developed covers U.S. production, U.S. producers' shipments, imports for consumption, exports, apparent consumption, employment, man-hours, and prices.

Major findings of the survey indicate that during the fourth quarter of 1979, U.S. producers' shipments, based on quantity, were 10 percent less than shipments in the fourth quarter of 1978 and 9 percent less than shipments in the third quarter of 1979. U.S. imports of bolts, nuts, and large screws were 9 percent less in the fourth quarter of 1979 than the quantities imported

NUTS, AND LARGE SCREWS OF IRON OR STEEL

- 2 -

in the fourth quarter of 1978, and 14 percent less than imports in the third quarter of 1979. The ratio of imports to apparent consumption was approximately 45 percent during each of the quarters under discussion.

The quantity of U.S. exports of bolts, nuts, and large screws during the fourth quarter of 1979 was 23 percent less than exports during the fourth quarter of 1978 and 5 percent less than exports during the third quarter of 1979.

The average number of employees engaged in the production of bolts, nuts, and large screws during the fourth quarter of 1979 was about 4 percent larger than the average number during the fourth quarter of 1978, but only slightly less than the average number during the third quarter of 1979. The man-hours expended by these employees during the fourth quarter of 1979 were about 4 percent greater than man-hours expended during both the fourth quarter of 1978 and the third quarter of 1979.

The average lowest net selling prices received in the fourth quarter of 1979 by U.S. producers for six representative fastener products were, on an average, about 10 percent greater than prices received during the fourth quarter of 1978. However, the average lowest net selling prices received for three of the six representative fastener products were approximately 6 percent less than prices received during the third quarter of 1979. The remaining prices received during the fourth quarter of 1979 were about 3 percent greater than prices received during the third quarter of 1979.

The report is being sent to the United States Trade Representative who is responsible for monitoring the effects of the temporary duty increases implemented by the Presidential proclamation.

Copies of the report (USITC Publication 1042) can be obtained by calling (202) 523-5178, or from the Office of the Secretary, 701 E Street N.W., Washington, D.C. 20436; or at the USITC's New York Office, 6 World Trade Center, Suite 629, New York, N.Y. 10048, (212) 466-5598.

**Summary Highlights of the Third Quarterly Survey of U.S. Producers of Bolts,  
Nuts, and Large Screws of Iron or Steel**

**Production**

U.S. production of bolts, nuts, and large screws during the fourth quarter of 1979 totaled 272 million pounds, which was about 11 percent less than production during the fourth quarter of 1978 and the third quarter of 1979.

**U.S. producers' shipments**

During the fourth quarter of 1979, U.S. producers' shipments amounted to 249 million pounds, approximately 10 percent less than shipments in the fourth quarter of 1978 and the third quarter of 1979.

**U.S. imports**

U.S. imports of bolts, nuts, and large screws totaled 170 million pounds in the fourth quarter of 1979, which was about 9 percent less than imports in the fourth quarter of 1978 and 14 percent less than imports in the third quarter of 1979.

**U.S. exports**

The quantity of bolts, nuts, and large screws exported during the fourth quarter of 1979 was 23 percent less than exports during the fourth quarter of 1978, and 5 percent less than exports during the third quarter of 1979.

**Apparent consumption**

Apparent consumption of bolts, nuts, and large screws during the fourth quarter of 1979 was 378 million pounds, which was 8 percent less than apparent consumption in the fourth quarter of 1978, or 12 percent less than the

quantities consumed during the third quarter of 1979. The ratio of imports to consumption which amounted to 46 percent in both the fourth quarter of 1978 and the third quarter of 1979, declined to 45 percent in the fourth quarter of 1979.

#### Employment and man-hours

The average number of production and related workers engaged in the production of bolts, nuts, and large screws increased from 13,212 workers during the fourth quarter of 1978 to 13,953 workers during the third quarter of 1979, before decreasing to 13,698 workers during the fourth quarter of 1979. The man-hours expended by these workers totaled 8,023,000 during the fourth quarter of 1979, which was about 4 percent greater than the man-hours expended in the fourth quarter of 1978 or the third quarter of 1979.

#### Prices

The average lowest net selling prices received in the fourth quarter of 1979 on six representative fastener products were, on an average, 10 percent greater than prices received in the fourth quarter of 1978. The average net selling prices received for three of the six representative products were 6 percent less than prices received during the third quarter of 1979. The remaining prices received during the fourth quarter of 1979 were 3 percent greater than prices received during the third quarter of 1979.

1/ Prior to Jan. 1, 1978, exports include bolts, threaded rods and studs, nuts if nuts and bolts are in the same shipment, screws, rivets, washers, and similar articles. It is estimated by the staff of the U.S. International Trade Commission that bolts, nuts, and large screws of iron or steel accounted for approximately 80 percent of total exports.

Source: U.S. producers' shipments, compiled from data submitted in response to questionnaires of the U.S. International Trade Commission; imports and exports, compiled from official statistics of the U.S. Department of Commerce, except as noted.
