FOREWORD

This report contains the annual update of data originally published in USITC Publication 1131, The Multifiber Arrangement, 1973 to 1980, March 1981.

During 1989 the United States had bilateral agreements or quotas with 43 countries and special "quota exemption" agreements with two U.S. insular areas (Guam and the Northern Mariana Islands). Data on U.S. imports of textiles and apparel from these and other selected countries are presented in this report for 1986-89. The data are by country and in terms of the product categories currently used to administer the U.S. trade agreements program under the Multifiber Arrangement (MFA).

The MFA is an agreement among most of the major textile-exporting and -importing countries. It allows signatories to place quantitative restraints, or quotas, on textile imports to prevent market disruption. Established under the aegis of the General Agreement on Tariffs and Trade (GATT) in 1974, the MFA was extended in 1986, for a third time, through July 31, 1991. The MFA initially covered trade in cotton, wool, and manmade-fiber goods. Its product coverage was expanded in 1986 to products of other vegetable fibers and silk blends. The MFA's future is being considered in the Uruguay Round of multi-lateral trade negotiations, with a stated goal of eventually integrating the sector into the GATT. Detailed information on the history of the MFA is contained in USITC Publication 1693, The Multifiber Arrangement, 1980-84, published in May 1985.

The classification of imported goods for tariff and statistical purposes changed on January 1, 1989, when the Harmonized Tariff Schedule of the United States (HTS) superseded and replaced the Tariff Schedules of the United States (TSUS). As a result, some imports shifted from one quota category to another in 1989. To reflect these changes and provide a historical basis for comparing 1989 data, the U.S. Department of Commerce adjusted the category data for 1987 and 1988 but not for 1986. Thus, for some categories, particularly women's and girls' suits of wool, category 444, and manmade fibers, category 644, the 1986 data are not comparable with succeeding year data.

HIGHLIGHTS

U.S. imports.--Imports of MFA products resumed their growth in 1989, rising by 13 percent over 1988 levels to a record 12.1 billion square meter equivalents (SMEs), valued at \$26.6 billion (table 9). In 1988 they had fallen for the first time in 9 years. The recovery in imports, which have grown at an average annual rate of 10.6 percent since 1980, was marked by new record levels for manmade fiber and cotton goods, which account for more than 90 percent of the shipments. Imports of cotton goods increased by 14 percent over 1988 levels, while the increase in manmade fiber goods was 10 percent. Imports of silk blended, ramie, and linen products rose by 31 percent between 1988 and 1989, though from a much smaller base. Imports of these products were still somewhat below their 1987 record levels. Imports of wool goods declined 12 percent, falling to their lowest level since 1983 (table 3).

U.S. imports by sources.--China, the volume leader for the past 3 years, and Taiwan, the second largest source, accounted for 40 percent of the increase in imports between 1988 and 1989 (table 9). Imports from China rose by 25 percent to a new high of 1.7 billion SMEs, or 14 percent of total imports. Imports from Taiwan, which peaked in 1986, partially recovered in 1989, rising by 19 percent to nearly 1.4 billion SMEs, or 11 percent of the total. Smaller increases were recorded in imports from Korea, the third largest volume source, and from Hong Kong, the largest dollar volume source. Their shipments rose by 4 percent to 1.1 billion SMEs and 6 percent to 952 million SMEs, respectively. As a result, the relative importance of the Big Three (Hong Kong, Taiwan, and Korea) continued to decline, with their share of total imports shrinking to 28 percent in 1989 from 35 percent in 1985.

Substantial growth also occurred in imports from many smaller suppliers, led by Thailand, Canada, Indonesia, and the Dominican Republic, whose shipments increased by at least 20 percent in 1989. Imports from the Caribbean Basin continued to expand, but the 11-percent increase in 1989 was about half that of recent years. Imports from the European Community (EC) rose by 2 percent. Those from Italy, the major EC source, declined however, by 8 percent. Another important supplier to experience a decline in shipments was Japan, imports from which decreased by 2 percent (table 10).

U.S. imports by products.--Imports of apparel, accounting for one-half of the MFA-covered imports, rose by 14 percent in 1989 to 6.0 billion SMEs. Imports of fabric increased by 24 percent to 3.0 billion SMEs, or one-fourth of the total. Yarn imports were the only group to show a decline in 1989, decreasing by 15 percent to 1.1 billion SMEs, or 9 percent of the total. The remaining 16 percent of the imports comprised made-up and miscellaneous textiles, mostly home furnishings (e.g., carpet and bedding), which increased by 11 percent to 1.9 billion SMEs (table 3).

Bilateral agreements.--During 1989, the United States had import-restraint agreements or quotas with 43 countries (table 1). The agreements with 19 of the countries, including the major suppliers, contain group, or aggregate, limits that provide for broad controls on their shipments.

See footnotes on the following page.

*Signatory to the MFA Protocol that went into effect on 08/01/86.

- 1/ Agreement has not been finalized, as of 05/01/90.
- 2/ The agreement with this country contains group, or aggregate, limits.
- 3/ The agreement with this country has not been renewed, as of 05/01/90.
- 4/ The agreements with Guam, a U.S. territory, and the Northern Mariana Islands, a U.S. commonwealth, are "quota exemptions" for sweaters classified as products of foreign countries, but assembled in these insular areas. In general, quota-free entry is allowed for a specified number of sweaters provided that at least 40 percent of the assembly workers were citizens or nationals of certain areas or the United States. Imports in excess of the specified amounts are charged to quotas established for the country of origin, usually the country where the sweater parts were knitted.
- 5/ No new agreement has been signed with Thailand, as of 05/01/90, to replace the three that expired on 12/31/88. Certain imports from Thailand have since been subject to unilateral restraint.
- 6/ A tentative agreement has been reached with the United Arab Emirates; the proposed agreement would expire on 12/31/91. Certain imports are currently subject to restraint, the last of which is scheduled to expire 11/26/90.

1/ Beginning in 1982, consumption of non-textile glass fiber (such as that used in insulation and other building materials) is not included. The quantity of such fiber has been sharply increasing in recent years, amounting to about 1.0 billion pounds per year.

2/ Not available.

1/ Consists of silk blends and miscellaneous vegetable fibers, which were added to the MFA product coverage effective August 1986. Data for 1986 are for August-December 1986.

2/ Includes flat goods, handbags, and luggage of manmade fiber.
