U.S. INTERNATIONAL TRADE COMMISSION REPORTS TO THE PRESIDENT ON CONSUMPTION OF BROOMS

The United States International Trade Commission today reported to the President on the U.S. consumption of brooms made of broom corn in 1978, as well as information as to the consumption and production of, and trade in, other brooms competitive with brooms made of broom corn.

This is the 12th in a series of annual reports required under Executive Order 11377, which provides that (1) the U.S. International Trade Commission report annually to the President its judgment as to the consumption of brooms of broom corn, together with the basis therefor; and (2) when reporting on the consumption of broom corn brooms in 1968, and biennially thereafter, the Commission shall report its judgment as to the consumption of brooms it considers to be competitive with broom corn brooms. This report contains data on production, imports, and exports of such brooms for 1978. For convenience, the Commission's report also includes these data on broom corn brooms for the years 1976 and 1977 and data on competitive brooms for 1976.
