The preface to the 18th Edition

Introduction to the Harmonized Tariff Schedule

The Harmonized Tariff Schedule of the United States, Annotated for Statistical Reporting Purposes (2006) ("HTS"), is published by the Commission pursuant to section 1207 of the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100-418; 19 U.S.C. 3007).¹ The publication contains the legal text of the Harmonized Tariff Schedule, as amended and modified, together with statistical annotations established pursuant to section 484(f) of the Tariff Act of 1930, as amended (19 U.S.C. 1484(f)). Legal instruments and administrative actions affecting the 2005 edition of the HTS are set forth below in the section entitled "Changes in the Current Edition." Information about statistical annotations is in the final section of the preface.

The legal text of the HTS included all provisions enacted by Congress or proclaimed by the President. These legal provisions are the General Rules of Interpretation (GRIs); Additional U.S. Rules of Interpretation; General Notes; Chapters 1 through 99 (organized into Sections I through XXII), Section and Chapter notes, headings and subheadings through the 8-digit level (with their numbers, article descriptions, tariff rates and special tariff programs), Chemical Appendix, Pharmaceutical Appendix, and Intermediate Chemicals for Dyes Appendix. The classification of goods and interpretation of the HTS are the responsibility of the U.S. Customs Service.

The GRIs, 4- and 6-digit nomenclature categories, and associated notes (not including Additional U.S. Notes) in Chapters 1 through 97 reflect the international nomenclature structure of the Harmonized Commodity Description and Coding System, pursuant to a convention administered by the World Customs Organization (WCO). Pursuant to this convention, which became effective for the United States as of January 1, 1989, the international nomenclature—and thus the provisions reflected in the HTS—is modified when the WCO makes changes in the text or in the classification of goods at the 4- or 6-digit level. The international nomenclature categories may be subdivided at the 8-digit U.S. rate line level to provide particular rates of duty or to make classification distinctions of U.S. interest. All rates of duty in the HTS are established by U.S. legal action. Pursuant to the 1988 trade act, changes in the international nomenclature structure are periodically reflected in the HTS by proclamation, the most recent of which became effective on January 10, 2002 (Pres. Proc. 7515 of Dec. 18, 2001), following a USITC investigation under section 1205 of that act. For information on all investigations under section 1205, consult the USITC publication's list, available at the web site.

The HTS also contain nonlegal statistical elements—namely, the annotations, notes, suffixes, units of quantity and other matters formulated under section 484(f) of the Tariff Act of 1930. Last, such elements as the Table of Contents, footnotes, Schedule C, Schedule D, alphabetical index, and Change Record are inserted for ease of reference only. The presence or absence of a footnote and the language contained in footnotes have no effect on the legal text or its interpretation, and users are encouraged to consult the

¹ Section 1207(a) of the Act provides that "[t]he Commission shall compile and publish, at appropriate intervals, and keep up to date the Harmonized Tariff Schedule and related information in the form of printed copy...". Section 1207(b) of the Act provides that the published copy of the HTS "shall contain--(1) the then current Harmonized Tariff Schedule; (2) statistical annotations and related statistical information formulated under section 484(f) of the Tariff Act of 1930 (19 U.S.C. 1484(f)); and (3) such other matters as the Commission considers to be necessary or appropriate to carry out the purposes enumerated in the Preamble to the Harmonized System convention." Parties attempting to classify goods or to ascertain rates of duty should be careful to consult the HTS, rather than the on-line trade dataweb or interactive tariff database presented at the USITC's Internet site. The latter do not contain legal rules, notes or complete product descriptions, and it may be difficult to determine if provisions of chapter 98 or 99 apply to particular shipments.

Preface, the Change Record and Chapters 98 and 99 to locate any provisions that may apply to specific goods. Procedures for requesting changes in statistical provisions of the HTS are set forth below.

Electronic Revisions to the Printed HTS

The on-line electronic revisions to the printed HTS and the elements are posted to the Commission's Internet site www.usitc.gov periodically as legal or statistical actions are made effective, along with links to published documents that may make changes after the last posted revision. The entire schedule is posted for each revision, even if no changes were made in some chapters. The Change Record for such a revision should be read in conjunction with the Preface's list of legal or statistical bases for the changes in the revision. While each Change Record in a printed annual edition or supplement contains all changes since the last printed document, the Change Record for each revision relates only to that revision. Printed editions of the HTS since its enactment have included the following publications: first (1989)--annual publication, 4 supplements; second (1990)--annual, 2 supps. ; third (1991)--annual, 1 supp.; fourth (1992)--annual, 1 supp.; fifth (1993)--annual, 1 supp.; sixth (1994)--annual, 2 supps.; seventh (1995)--annual, 1 supp.; eighth (1996)--annual, 1 supp.; ninth (1997)--annual, 1 supp.; tenth (1998)--annual, 1 supp.; eleventh (1999)--annual, 1 supp.; twelfth (2000)--annual, 1 supp.; thirteenth (2001)--annual, 1 supp.; fourteenth (2002)--annual only (no supp.), fifteenth (2003)--annual, 1 supp.; sixteenth (2004)--annual and 1 supp.; seventeenth (2005) -- annual and 1 supplement.

Statistical Reporting Under the HTS²

The statistical annotations contained in the HTS prescribe the statistical information to be supplied on customs entry and withdrawal forms or electronic filings with respect to articles imported into the customs territory of the United States. Thus, this publication is designed to enable importers, customs brokers, Customs officers and other interested persons to determine both (1) the classification of and rates of duty applicable to imported articles, and (2) the requirements for reporting statistical data with respect to such imports. In addition, except as specified in the Notice to Exporters, this publication may also be used in place of the reporting codes of Schedule B for reporting exports on the Shipper's Export Declaration or under the program for electronic reporting of exports. The regulations and procedures of the U.S. Customs Service

²Sec. 484(f) reads as follows:

"(f) Statistical Enumeration.--The Secretary of the Treasury, the Secretary of Commerce, and the United States International Trade Commission are authorized and directed to establish from time to time for statistical purposes an enumeration of articles in such detail as in their judgment may be necessary, comprehending all merchandise imported into the United States and exported from the United States, and shall seek, in conjunction with statistical programs for domestic production and programs for achieving international harmonization of trade statistics, to establish the comparability thereof with such enumeration of articles. All import entries and export declarations shall include or have attached thereto an accurate statement specifying, in terms of such detailed enumeration, the kinds and quantities of all merchandise imported and exported and the value of the total quantity of each kind of article."

and the Bureau of Census should also be consulted to ensure correct reporting and compliance with all requirements of those agencies.

Requests from interested parties or their representatives for changes in any of the requirements for statistical reporting must be directed to the Committee for Statistical Annotation of Tariff Schedules. Such requests should be submitted no later than April 1 for changes to be effective July 1, and no later than August 1 for changes to be effective January 1. Parties should specify whether the proposed change relates only to exports for purposes of Schedule B. These requests should be submitted to the Chairman at the address set forth below, or by electronic mail to: **484f@usitc.gov**.

The Chairman
Committee for Statistical Annotation of Tariff Schedules
United States International Trade Commission
Suite 404
Washington, D.C. 20436

Such requests should indicate precisely the nature of each desired change, the proposed language sought to be inserted or precise language to be modified or deleted (including units of quantity to be affected), and detailed reasons in support of the requests. Confidential business information should not be submitted to the Committee. For requests relating to the HTS, the requestor should provide the names of importers and foreign manufacturers (when known) and indicate the countries from which the commodities are being imported. In general, a statistical category under which three (3) or fewer importers or exporters would likely report shipments will not be approved in the form requested, in order to avoid the disclosure of confidential business information.

Questions regarding the drafting or treatment of such requests should be addressed to the Committee, either by mail to the Chairman or by phone to (202) 205-2592. Private sector requests for the creation, modification or deletion of statistical categories can be submitted by mail or can be filed electronically using EDIS (the Electronic Document Inspection System), as explained at the USITC Internet site. Requests from filers outside the U.S. Government will be available for inspection on the USITC Internet site. Comments on such requests should be filed by mail to the Chairman not later than 2 weeks after the pertinent Committee deadline (not later than April 15 or August 15). Copies of documents submitted to the Committee and of the Committee's minutes are available from the Office of the Secretary, USITC, and should be requested under the terms and procedures of the Freedom of Information Act.

GENERAL RULES OF INTERPRETATION

Classification of goods in the tariff schedule shall be governed by the following principles:

1. The table of contents, alphabetical index, and titles of sections, chapters and sub-chapters are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative section or chapter notes and, provided such headings or notes do not otherwise require, according to the following provisions:
2. (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as entered, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or falling to be classified as complete or finished by virtue of this rule), entered unassembled or disassembled.
(b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to goods of a given material or substance shall be taken to include a reference to goods consisting wholly or partly of such material or substance. The classification of goods consisting of more than one material or substance shall be according to the principles of rule 3.
3. When, by application of rule 2(b) or for any other reason, goods are, *prima facie*, classifiable under two or more headings, classification shall be effected as follows:
(a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to part only of the materials or substances contained in mixed or composite goods or to part only of the items in a set put up for retail sale, those headings are to be regarded as equally specific in relation to those goods, even if one of them gives a more complete or precise description of the goods.
(b) Mixtures, composite goods consisting of different materials or made up of different components, and goods put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.
(c) When goods cannot be classified by reference to 3(a) or 3(b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration.
4. Goods which cannot be classified in accordance with the above rules shall be classified under the heading appropriate to the goods to which they are most akin.
5. In addition to the foregoing provisions, the following rules shall apply in respect of the goods referred to therein:
(a) Camera cases, musical instrument cases, gun cases, drawing instrument cases, necklace cases and similar containers, specially shaped or fitted to contain a specific article or set of articles, suitable for long-term use and entered with the articles for which they are intended, shall be classified with such articles when of a kind normally sold therewith. This rule does not, however, apply to containers which give the whole its essential character;
(b) Subject to the provisions of rule 5(a) above, packing materials and packing containers entered with the goods therein shall be classified with the goods if they are of a kind normally used for packing such goods. However, this provision is not binding when such packing materials or packing containers are clearly suitable for repetitive use.
6. For legal purposes, the classification of goods in the subheadings of a heading shall be determined according to the terms of those subheadings and any related subheading notes and, *mutatis mutandis*, to the above rules, on the understanding that only subheadings at the same level are comparable. For the purposes of this rule, the relative section, chapter and subchapter notes also apply, unless the context otherwise requires.

ADDITIONAL U.S. RULES OF INTERPRETATION

1. In the absence of special language or context which otherwise requires--
 - (a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of goods of that class or kind to which the imported goods belong, and the controlling use is the principal use;
 - (b) a tariff classification controlled by the actual use to which the imported goods are put in the United States is satisfied only if such use is intended at the time of importation, the goods are so used and proof thereof is furnished within 3 years after the date the goods are entered;
 - (c) a provision for parts of an article covers products solely or principally used as a part of such articles but a provision for "parts" or "parts and accessories" shall not prevail over a specific provision for such part or accessory; and
 - (d) the principles of section XI regarding mixtures of two or more textile materials shall apply to the classification of goods in any provision in which a textile material is named.

GENERAL NOTES

1. Tariff Treatment of Imported Goods and of Vessel Equipments, Parts and Repairs. All goods provided for in this schedule and imported into the customs territory of the United States from outside thereof, and all vessel equipments, parts, materials and repairs covered by the provisions of subchapter XVIII to chapter 98 of this schedule, are subject to duty or exempt therefrom as prescribed in general notes 3 through 18, inclusive.

 - (B) In determining whether goods produced or manufactured in any such insular possession contain foreign materials to the value of more than 70 percent, no material shall be considered foreign which either--

(f) Commingling of Goods.

(i) Whenever goods subject to different rates of duty are so packed together or mingled that the quantity or value of each class of goods cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

- (A) sampling,
- (B) verification of packing lists or other documents filed at the time of entry, or
- (C) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled goods shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the goods pursuant to subdivision (f)(ii) hereof.

(ii) Every segregation of goods made pursuant to subdivision (f) of this note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the goods are commingled and that the quantity or value of each class of goods cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

- (A) that such part (1) is commercially negligible, (2) is not capable of segregation without excessive cost and (3) will not be segregated prior to its use in a manufacturing process or otherwise, and
- (B) that the commingling was not intended to avoid the payment of lawful duties.

Any goods with respect to which such proof is furnished shall be considered for all customs purposes as a part of the goods, subject to the next lower rate of duty, with which they are commingled.

(iv) The foregoing provisions of subdivision (f) of this note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof--

- (A) that the value of the commingled goods is less than the aggregate value would be if the shipment were segregated;
- (B) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and
- (C) that the commingling was not intended to avoid the payment of lawful duties.

Any goods with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(v) The provisions of subdivision (f) of this note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled goods.

Whenever an eligible article which is the growth, product or manufacture of one of the countries designated as a least-developed beneficiary developing country is imported into the customs territory of the United States directly from such country, such article shall be entitled to receive the duty-free treatment provided for in subdivision (c) of this note without regard to the limitations on preferential treatment of eligible articles in section 503(c)(2)(A) of the Trade Act, as amended (19 U.S.C. 2463(c)(2)(A)).

- (ii) Articles provided for in a provision for which a rate of duty "Free" appears in the "Special" subcolumn followed by the symbol "A+" in parentheses are those designated by the President to be eligible articles for purposes of the GSP pursuant to section 503(a)(1)(B) of the Trade Act of 1974, as amended. The symbol "A+" indicates that all least-developed beneficiary countries are eligible for preferential treatment with respect to all articles provided for in the designated provisions. Whenever an eligible article which is the growth, product, or manufacture of a designated least-developed developing country listed in subdivision (b)(i) of this note is imported into the customs territory of the United States directly from such country, such article shall be eligible for duty-free treatment as set forth in the "Special" subcolumn; provided that, in accordance with regulations promulgated by the Secretary of the Treasury the sum of (1) the cost or value of the materials produced in the least-developed beneficiary developing country or 2 or more countries which are members of the same association of countries which is treated as one country under section 507(2) of the Trade Act of 1974, plus (2) the direct costs of processing operations performed in such least-developed beneficiary developing country or such members countries, is not less than 35 percent of the appraised value of such article at the time of its entry into the customs territory of the United States. No article or material of a least-developed beneficiary developing country shall be eligible for such treatment by virtue of having merely undergone simple combining or packing operations, or mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.
- (c) Articles provided for in a provision for which a rate of duty of "Free" appears in the "Special" subcolumn followed by the symbols "A" or "A*" in parentheses are those designated by the President to be eligible articles for purposes of the GSP pursuant to section 503 of the Trade Act of 1974. 5. Automotive Products and Motor Vehicles Eligible for Special Tariff Treatment. Articles entered under the Automotive Products Trade Act are subject to the following provisions:
- (a) Motor vehicles and original motor-vehicle equipment which are Canadian articles and which fall in provisions for which the rate of duty "Free (B)" appears in the "Special" subcolumn may be entered free of duty. As used in this note--
 - (i) The term "Canadian article" means an article which originates in Canada, as defined in general note 12.
 - (ii) The term "original motor-vehicle equipment", as used with reference to a Canadian article (as defined above), means such a Canadian article which has been obtained from a supplier in Canada under or pursuant to a written order, contract or letter of intent of a bona fide motor vehicle manufacturer in the United States, and which is a fabricated component originating in Canada, as defined in general note 12, and intended for use as original equipment in the manufacture in the United States of a motor vehicle, but the term does not include trailers or articles to be used in their manufacture.
 - (iii) The term "motor vehicle", as used in this note, means a motor vehicle of a kind described in headings 8702, 8703 and 8704 of chapter 87 (excluding an electric trolley bus and a three-wheeled vehicle) or an automobile truck tractor principally designed for the transport of persons or goods.
 - (iv) The term "bona fide motor-vehicle manufacturer" means a person who, upon application to the Secretary of Commerce, is determined by the Secretary to have produced no fewer than 15 complete motor vehicles in the United States during the previous 12 months, and to have installed capacity in the United States to produce 10 or more complete motor vehicles per 40-hour week. The Secretary of Commerce shall maintain, and publish from time to time in the *Federal Register*, a list of the names and addresses of bona fide motor-vehicle manufacturers.
 - (b) If any Canadian article accorded the status of original motor-vehicle equipment is not so used in the manufacture in the United States of motor vehicles, such Canadian article or its value (to be recovered from the importer or other person who diverted the article from its intended use as original motor-vehicle equipment) shall be subject to forfeiture, unless at the time of the diversion of the Canadian article the United States Customs Service is notified in writing, and, pursuant to arrangements made with the Service--
 - (i) the Canadian article is, under customs supervision, destroyed or exported, or
 - (ii) duty is paid to the United States Government in an amount equal to the duty which would have been payable at the time of entry if the Canadian article had not been entered as original motor-vehicle equipment.

Civil aircraft

6. Articles Eligible for Duty-Free Treatment Pursuant to the Agreement on Trade in Civil Aircraft.

- (a) Whenever a product is entered under a provision for which the rate of duty "Free (C)" appears in the "Special" subcolumn and a claim for such rate of duty is made, the importer--
 - (i) shall maintain such supporting documentation as the Secretary of the Treasury may require; and
 - (ii) shall be deemed to certify that the imported article is a civil aircraft, or has been imported for use in a civil aircraft and will be so used.

The importer may amend the entry or file a written statement to claim a free rate of duty under this note at any time before the liquidation of the entry becomes final, except that, notwithstanding section 505(c) of the Tariff Act of 1930 (19 U.S.C. 1505(c)), any refund resulting from any such claim shall be without interest.

- (b) (i) For purposes of the tariff schedule, the term "civil aircraft" means any aircraft, aircraft engine, or ground flight simulator (including parts, components, and subassemblies thereof)--
 - (A) that is used as original or replacement equipment in the design, development, testing, evaluation, manufacture, repair, maintenance, rebuilding, modification, or conversion of aircraft; and
 - (B) (1) that is manufactured or operated pursuant to a certificate issued by the Administrator of the Federal Aviation Administration (hereafter referred to as the "FAA") under section 44704 of title 49, United States Code, or pursuant to the approval of the airworthiness authority in the country of exportation, if such approval is recognized by the FAA as an acceptable substitute for such an FAA certificate;
 - (2) for which an application for such certificate has been submitted to, and accepted by, the Administrator of the FAA by an existing type and production certificate holder pursuant to section 44702 of title 49, United States Code, and regulations promulgated thereunder; or
 - (3) for which an application for such approval or certificate will be submitted in the future by an existing type and production certificate holder, pending the completion of design or other technical requirements stipulated by the Administrator of the FAA.
- (ii) The term "civil aircraft" does not include any aircraft, aircraft engine, or ground flight simulator (or parts, components, and subassemblies thereof) purchased for use by the Department of Defense or the United States Coast Guard, unless such aircraft, aircraft engine, or ground flight simulator (or parts, components, and subassemblies thereof) satisfies the requirements of subdivisions (i)(A) and (i)(B)(1) or (2).
- (iii) Subdivision (i)(B)(3) shall apply only to such quantities of the parts, components, and subassemblies as are required to meet the design and technical requirements stipulated by the Administrator. The Commissioner of Customs may require the importer to estimate the quantities of parts, components, and subassemblies covered for purposes of such subdivision.

7. Products of Countries Designated as Beneficiary Countries for Purposes of the Caribbean Basin Economic Recovery Act (CBERA).

- (a) The following countries and territories or successor political entities are designated beneficiary countries for the purposes of the CBERA, pursuant to section 212 of that Act (19 U.S.C. 2702):

Antigua and Barbuda	Grenada	Nicaragua
Aruba	Guatemala	Panama
Bahamas	Guyana	St. Kitts and Nevis
Barbados	Haiti	Saint Lucia
Belize	Honduras	Saint Vincent and the Grenadines
Costa Rica	Jamaica	Trinidad and Tobago
Dominica	Montserrat	Virgin Islands, British
Dominican Republic	Netherlands Antilles	
El Salvador		

- (b) (i) Unless otherwise excluded from eligibility by the provisions of subdivisions (d) or (e) of this note, any article which is the growth, product, or manufacture of a beneficiary country shall be eligible for duty-free treatment if that article is provided for in a subheading for which a rate of duty of "Free" appears in the "Special" subcolumn followed by the symbol "E" or "E*" in parentheses, and if--
- (A) that article is imported directly from a beneficiary country into the customs territory of the United States; and
- (B) the sum of (I) the cost or value of the materials produced in a beneficiary country or two or more beneficiary countries, plus (II) the direct costs of processing operations performed in a beneficiary country or countries is not less than 35 per centum of the appraised value of such article at the time it is entered. For purposes of determining the percentage referred to in (II) above, the term "beneficiary country" includes the Commonwealth of Puerto Rico and the United States Virgin Islands. If the cost or value of materials produced in the customs territory of the United States (other than the Commonwealth of Puerto Rico) is included with respect to an article to which this note applies, an amount not to exceed 15 per centum of the appraised value of the article at the time it is entered that is attributed to such United States cost or value may be applied toward determining the percentage referred to in (II) above.
- (ii) Pursuant to subsection 213(a)(2) of the CBERA, the Secretary of the Treasury shall prescribe such regulation as may be necessary to carry out this note including, but not limited to, regulations providing that, in order to be eligible for duty-free treatment under CBERA, an article must be wholly the growth, product, or manufacture of a beneficiary country, or must be a new or different article of commerce which has been grown, produced, or manufactured in the beneficiary country, and must be stated as such in a declaration by the appropriate party; but no article or material of a beneficiary country shall be eligible for such treatment by virtue of having merely undergone--
- (A) simple combining or packaging operations, or
- (B) mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.
- (iii) As used in subdivision (b) of this note, the phrase "direct costs of processing operations" includes, but is not limited to--
- (A) all actual labor costs involved in the growth, production, manufacture, or assembly of the specific merchandise, including fringe benefits, on-the-job training and the cost of engineering, supervisory, quality control, and similar personnel; and

- (B) dies, molds, tooling, and depreciation on machinery and equipment which are allocable to the specific merchandise.

Such phrase does not include costs which are not directly attributable to the merchandise concerned or are not costs of manufacturing the product, such as (I) profit, and (II) general expenses of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture, or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising, and salesmen's salaries, commissions or expenses.

- (iv) Notwithstanding section 311 of the Tariff Act of 1930 (19 U.S.C. 1311), the products of a beneficiary country which are imported directly from such country into Puerto Rico may be entered under bond for processing or manufacturing in Puerto Rico. No duty shall be imposed on the withdrawal from warehouse of the product of such processing or manufacturing if, at the time of such withdrawal, such product meets the requirements of subdivision (b)(i)(B) above.
- (v) Pursuant to subsection 213(a)(5) of the CBERA, duty-free treatment shall be provided under the CBERA to an article (other than an article enumerated in subsection 213(b) of the CBERA) which is the growth, product, or manufacture of Puerto Rico if--
- (A) the article is imported directly from the beneficiary country into the customs territory of the United States,
- (B) the article was by any means advanced in value or improved in condition in a beneficiary country, and
- (C) any materials are added to the article in a beneficiary country, such materials are a product of a beneficiary country or the United States.
- (c) Articles provided for in a provision for which a rate of duty of "Free" appears in the "Special" subcolumn followed by the symbols "E" or "E*" in parentheses are eligible articles for purposes of the CBERA pursuant to section 213 of that Act. The symbol "E" indicates that all articles provided for in the designated provision are eligible for preferential treatment except those described in subdivision (e). The symbol "E*" indicates that some articles provided for in the designated provision are not eligible for preferential treatment, as further described in subdivision (d) of this note. Products of Israel, as defined in subdivision (b) of this note, imported into the customs territory of the United States and entered under a provision for which a rate of duty appears in the "Special" subcolumn followed by the symbol "IL" in parentheses are eligible for the tariff treatment set forth in the "Special" subcolumn, in accordance with section 4(a) of the United States-Israel Free Trade Area Implementation Act of 1985 (99 Stat. 82).
- (b) For purposes of this note, goods imported into the customs territory of the United States are eligible for treatment as "products of Israel" only if--
- (i) each article is the growth, product or manufacture of Israel or is a new or different article of commerce that has been grown, produced or manufactured in Israel;
 - (ii) each article is imported directly from Israel (or directly from the West Bank, the Gaza Strip or a qualifying industrial zone as defined in general note 3(a)(v)(G) to the tariff schedule) into the customs territory of the United States; and
 - (iii) the sum of--
 - (A) the cost or value of the materials produced in Israel, and including the cost or value of materials produced in the West Bank, the Gaza Strip or a qualifying industrial zone pursuant to general note 3(a)(v) to the tariff schedule, plus

If the cost or value of materials produced in the customs territory of the United States is included with respect to an article to which this note applies, an amount not to exceed 15 percent of the appraised value of the article at the time it is entered that is attributable to such United States cost or value may be applied toward determining the percentage referred to in subdivision (b)(iii) of this note.

- (c) No goods may be considered to meet the requirements of subdivision (b)(i) of this note by virtue of having merely undergone--
- (i) simple combining or packaging operations; or
 - (ii) mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the goods.
- (d) As used in this note, the phrase "direct costs of processing operations" includes, but is not limited to--

(c) Regional value content. Except as provided in subdivision (c)(iv) of this note, the regional value content of a good shall be calculated, at the choice of the exporter or producer of such good, on the basis of either the transaction value method set out in subdivision (c)(i) or the net cost method set out in subdivision (c)(ii).

(i) Transaction value method. The regional value content of a good may be calculated on the basis of the following transaction value method:

$$RVC = \frac{TV - VNM}{TV} \times 100$$

where RVC is the regional value content, expressed as a percentage; TV is the transaction value of the good adjusted to a F.O.B. basis; and VNM is the value of non-originating materials used by the producer in the production of the good.

(ii) Net cost method. The regional value content of a good may be calculated on the basis of the following net cost method:

$$RVC = \frac{NC - VNM}{NC} \times 100$$

where RVC is the regional value content, expressed as a percentage; NC is the net cost of the good; and VNM is the value of non-originating materials used by the producer in the production of the good.

(iii) Except as provided in subdivisions (d)(i) and (d)(ii)(A)(2) of this note, the value of non-originating materials used by the producer in the production of a good shall not, for purposes of calculating the regional value content of the good under subdivision (c)(i) or (c)(ii) of this note, include the value of non-originating materials used to produce originating materials that are subsequently used in the production of such good.

(iv) The regional value content of a good shall be calculated solely on the basis of the net cost method set out in subdivision (c)(ii) of this note where--

- (A) there is no transaction value for the good;
- (B) the transaction value of the good is unacceptable under section 402(b) of the Tariff Act of 1930, as amended (19 U.S.C. 1401a(b));
- (C) the good is sold by the producer to a related person and the volume, by units of quantity, of sales of identical or similar goods to related persons (as defined in article 415 of the NAFTA) during the six-month period immediately preceding the month in which the good is sold exceeds 85 percent of the producer's total sales of such goods during that period;
- (D) the good is--
 - (1) a motor vehicle provided for in headings 8701 or 8702, subheadings 8703.21 through 8703.90, inclusive, or headings 8704, 8705 or 8706;
 - (2) identified in annex 403.1 or 403.2 to the NAFTA and is for use in a motor vehicle provided for in headings 8701 or 8702, subheadings 8703.21 through 8703.90, inclusive, or headings 8704, 8705 or 8706;
 - (3) provided for in subheadings 6401.10 through 6406.10, inclusive; or
 - (4) provided for in subheading 8469.11;

- (E) the exporter or producer chooses to accumulate the regional value content of the good in accordance with subdivision (e) of this note; or
 - (F) the good is designated as an intermediate material under subdivision (c)(viii) of this note and is subject to a regional value-content requirement.
- (v) If the regional value content of a good is calculated on the basis of the transaction value method set out in subdivision (c)(i) of this note and a NAFTA party subsequently notifies the exporter or producer, during the course of a verification of the origin of the good, that the transaction value of the good, or the value of any material used in the production of the good, is required to be adjusted or is unacceptable under section 402 of the Tariff Act of 1930, as amended (19 U.S.C. 1401a), the exporter or producer may then also calculate the regional value content of the good on the basis of the net cost method set out in subdivision (c)(ii) of this note.
- (vi) For purposes of calculating the net cost of a good under subdivision (c)(ii) of this note, the producer of the good may--
- (A) calculate the total cost incurred with respect to all goods produced by that producer; subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs that are included in the total cost of all such goods; and then reasonably allocate the resulting net cost of those goods to the good;
 - (B) calculate the total cost incurred with respect to all goods produced by that producer; reasonably allocate the total cost to the good; and then subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs that are included in the portion of the total cost allocated to the good; or
 - (C) reasonably allocate each cost that forms part of the total cost incurred with respect to the good so that the aggregate of these costs does not include any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs;

provided that the allocation of all such costs is consistent with the provisions regarding the reasonable allocation of costs set out in regulations issued by the Secretary of the Treasury. The term "total cost" means all product costs, period costs and other costs incurred in the territory of Canada, Mexico and/or the United States.

- (vii) Except as provided in subdivision (c)(ix) of this note, the value of a material used in the production of a good shall--
- (A) be the transaction value of the material determined in accordance with section 402(b) of the Tariff Act of 1930, as amended; or
 - (B) in the event that there is no transaction value or the transaction value of the material is unacceptable under section 402(b) of the Tariff Act of 1930, as amended, be determined in accordance with subsections (c) through (h), inclusive, of such section; and
 - (C) where not included under subdivision (A) or (B), include--
 - (1) freight, insurance, packing and all other costs incurred in transporting the material to the location of the producer;
 - (2) duties, taxes and customs brokerage fees on the material that were paid in the territory of Canada, Mexico, and/or the United States; and

- (h) Accessories, spare parts and tools. Accessories, spare parts or tools delivered with the good that form part of the good's standard accessories, spare parts or tools, shall be considered as originating if the good originates and shall be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (t) of this note, provided that--
- (i) the accessories, spare parts or tools are not invoiced separately from the good;

- (i) Indirect materials. An indirect material shall be considered to be an originating material without regard to where it is produced. The term "indirect material" means a good used in the production, testing or inspection of a good but not physically incorporated into the good, or a good used in the maintenance of buildings or the operation of equipment associated with the production of a good, including the following: fuel and energy; tools, dies and molds; spare parts and materials used in the maintenance of equipment and buildings; lubricants, greases, compounding materials and other materials used in production or used to operate other equipment and buildings; gloves, glasses, footwear, clothing, safety equipment and supplies; equipment, devices and supplies used for testing or inspecting the goods; catalysts and solvents; and any other goods that are not incorporated into the good but whose use in the production of the good can reasonably be demonstrated to be a part of that production.
- (j) Packaging materials and containers for retail sale. Packaging materials and containers in which a good is packaged for retail sale shall, if classified with the good, be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (t) of this note, and, if the good is subject to a regional value-content requirement, the value of such packaging materials and containers shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

- (m) Non-qualifying operations. A good shall not be considered to be an originating good merely by reason of--
- (i) mere dilution with water or another substance that does not materially alter the characteristics of the good; or
 - (ii) any production or pricing practice with respect to which it may be demonstrated, on the basis of a preponderance of evidence, that the object was to circumvent this note.

Chapter 27.

Chapter rule: For the purposes of heading 2710, the following processes confer origin:

- (a) Atmospheric distillation—a separation process in which petroleum oils are converted, in a distillation tower, into fractions according to boiling point and the vapor then condensed into different liquefied fractions. Liquefied petroleum gas, naphtha, gasoline, kerosene, diesel/heating oil, light gas oils and lubricating oil are produced from petroleum distillation;
- (b) Vacuum distillation—distillation at a pressure below atmospheric but not so low that it would be classed as molecular distillation. Vacuum distillation is useful for distilling high-boiling and heat-sensitive materials such as heavy distillates in petroleum oils to produce light to heavy vacuum gas oils and residuum. In some refineries gas oils may be further processed into lubricating oils;
- (c) Catalytic hydroprocessing—the cracking and/or treating of petroleum oils with hydrogen at high temperature and under pressure, in the presence of special catalysts. Catalytic hydroprocessing includes hydrocracking and hydrotreating;
- (d) Reforming (catalytic reforming)—the rearrangement of molecules in a naphtha boiling range material to form higher octane aromatics (i.e., improved antiknock quality at the expense of gasoline yield). A main product is catalytic reformate, a blend component for gasoline. Hydrogen is another by-product;
- (e) Alkylation—a process whereby a high-octane blending component for gasolines is derived from catalytic combination of an isoparaffin and an olefin;
- (f) Cracking—a refining process involving decomposition and molecular recombination of organic compounds, especially hydrocarbons obtained by means of heat, to form molecules suitable for motor fuels, monomers, petrochemicals, etc.:

GN p.42

NAFTA

- (i) Thermal cracking—exposes the distillate to temperatures of approximately 540° C to 650° C for varying periods of time. Process produces modest yields of gasoline and higher yields of residual products for fuel oil blending;
 - (ii) Catalytic cracking—hydrocarbon vapors are passed at approximately 400° C over a metallic catalyst (e.g., silica-alumina or platinum); the complex recombinations (alkylation, polymerization, isomerization, etc.) occur within seconds to yield high-octane gasoline. Process yields less residual oils and light gases than thermal cracking;
- (g) Coking—a thermal cracking process for the conversion of heavy low-grade products, such as reduced crude, straight run pitch, cracked tars and shale oil, into solid coke (carbon) and lower boiling hydrocarbon products which are suitable as feed for other refinery units for conversion into lighter products; or
- (h) Isomerization—the refinery process of converting petroleum compounds into their isomers.

Products in the pharmaceutical appendix include the salts, esters and hydrates of the International Non-proprietary Name (INN) products enumerated in table 1 of the appendix that contain in their names any of the prefixes or suffixes listed in table 2 of the appendix, provided that any such salt, ester or hydrate is classifiable in the same 6-digit tariff provision as the relevant product enumerated in table 1.
14. Intermediate chemicals for dyes. Whenever a rate of duty of "Free" followed by the symbol "L" in parentheses appears in the special subcolumn for a heading or subheading, any product classifiable in such provision which is the product of a country eligible for tariff treatment under column 1 shall be entered free of duty, provided that such product is listed in the intermediate chemicals for dyes appendix to the tariff schedule.

Whenever an eligible article which is a good of a designated beneficiary sub-Saharan African country enumerated in subdivision (a) of this note is imported directly into the customs territory of the United States, such article shall be entitled to receive the duty-free treatment provided for herein, without regard to the limitations on preferential treatment of eligible articles in section 503(c)(2)(A) of the 1974 Act, provided that such good--

- (i) is the growth, product or manufacture of a designated beneficiary sub-Saharan African country enumerated in subdivision (a) of this note, and

- (ii) the sum of--

(A) the cost or value of the materials produced in one or more designated beneficiary sub-Saharan African countries, plus

(B) the direct costs of processing operations performed in the designated beneficiary sub-Saharan African country or any two or more designated beneficiary sub-Saharan African countries that are members of the same association of countries which is treated as one country under section 507(a)2 of the 1974 Act,

No article or material of a designated beneficiary sub-Saharan African country enumerated in subdivision (a) of this note and receiving the tariff treatment specified in this note shall be eligible for such duty-free treatment by virtue of having merely undergone simple combining or packing operations, or mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.

- (iii) For purposes of subdivision (ii)(A) above, a "former beneficiary sub-Saharan African country" is a country that, after being designated as a beneficiary sub-Saharan African country under the AGOA and enumerated in subdivision (a) of this note, ceased to be designated as such a country by reason of its entering into a free trade agreement with the United States.

- (c) The duty-free treatment provided for in this note shall be effective with respect to eligible articles entered, or withdrawn from warehouse for consumption, as of the date proclaimed by the President and shall continue in effect through the close of September 30, 2015.

Whenever an eligible article which is a good of one or more designated beneficiary CBTPA countries enumerated in subdivision (a) of this note is imported directly into the customs territory of the United States, such article shall be entitled to receive the duty-free or reduced duty treatment provided for herein, provided that such good--

- (i) was wholly obtained or produced entirely in the territory of one or more designated beneficiary countries enumerated in subdivision (a) of this note, or
- (ii) would be an originating good for purposes of general note 12 to the tariff schedule, if such good were imported thereunder.

No article or material of a designated beneficiary country enumerated in subdivision (a) of this note and receiving the tariff treatment specified in this note shall be eligible for such duty-free treatment by virtue of having merely undergone simple combining or packing operations, or mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.

- (i) the close of September 30, 2008; or
- (ii) the date on which the Free Trade Area of the Americas or another free trade agreement that makes substantial progress in achieving the negotiating objectives set forth in section 108(b)(5) of Public Law 103-182 (19 U.S.C. 3317(b)(5)) enters into force with respect to the United States and the CBTPA beneficiary country.

18. United States-Jordan Free Trade Area Implementation Act.

- (a) The products of Jordan described in Annex 2.1 of the Agreement between the United States of America and the Hashemite Kingdom of Jordan on the Establishment of a Free Trade Area, entered into on October 24, 2000, are subject to duty as provided herein. Products of Jordan, as defined in subdivisions (b) through (d) of this note, that are imported into the customs territory of the United States and entered under a provision for which a rate of duty appears in the "Special" subcolumn followed by the symbol "JO" in parentheses are eligible for the tariff treatment set forth in the "Special" subcolumn, in accordance with sections 101 and 102 of the United States-Jordan Free Trade Area Implementation Act (Public Law 107-43, 115 Stat. 243).
- (b) For purposes of this note, subject to the provisions of subdivisions (d) and (e), goods imported into the customs territory of the United States are eligible for treatment as "products of Jordan" only if—
- (i) such goods are imported directly from Jordan into the customs territory of the United States, and
- (ii) they are—
- (A) wholly the growth, product or manufacture of Jordan, or
- (B) new or different articles of commerce that have been grown, produced or manufactured in Jordan and meet the requirements of subdivision (c) of this note.
- (c) (i) For purposes of subdivision (b)(ii)(A) of this note, except as otherwise provided in subdivision (d) for textile and apparel articles, the expression "wholly the growth, product or manufacture of Jordan" refers both to—
- (A) an article which has been entirely grown, produced or manufactured in Jordan, and
- (B) all materials incorporated in an article which have been entirely grown, produced or manufactured in Jordan, but does not include articles or materials imported into Jordan from another country, whether or not such articles or materials were substantially transformed into new or different articles of commerce after their importation into Jordan.
- (ii) For purposes of subdivision (b)(ii)(B), goods are eligible for the tariff treatment provided in this note if the sum of—
- (A) the cost or value of the materials produced in Jordan, plus
- (B) the direct costs of processing operations performed in Jordan,
- is not less than 35 percent of the appraised value of such article at the time it is entered. If the cost or value of materials produced in the customs territory of the United States is included with respect to an article to which this subdivision applies, an amount not to exceed 15 percent of the appraised value of the article at the time it is entered that is attributable to such United States cost or value may be applied toward determining the percentage referred to in this subdivision.
- (iii) No article may be considered to meet the requirements of this note by virtue of having merely undergone—
- (A) simple combining or packaging operations, or
- (B) mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.
- (iv) For purposes of subdivision (ii)(A), the term "cost or value of materials" includes—
- (A) the manufacturer's actual cost for the materials,
- (B) when not included in the manufacturer's actual cost for the materials, the freight, insurance, packing and all other costs incurred in transporting the materials to the manufacturer's plant,
- (C) the actual cost of waste or spoilage (material list), less the value of recoverable scrap, and
- (D) taxes and/or duties imposed on the materials by a party to the Agreement, provided they are not remitted upon exportation.

When a material is provided to the manufacturer without charge, or at less than fair market value, its cost or value shall be determined by computing the sum of (I) all expenses incurred in the growth, production or manufacture of the material, including general expenses; (II) an amount for profit; and (III) freight, insurance, packing, and all other costs incurred in transporting the material to the manufacturer's plant. If the pertinent information is not available, the appraising officer may ascertain or estimate the value thereof using all reasonable ways and means at his disposal.

- (v) For purposes of subdivision (ii)(B), the term "direct costs of processing operations" performed in Jordan means those costs either directly incurred in, or which can be reasonably allocated to, the growth, production, manufacture or assembly of the goods entered under the terms of subdivision (a) of this note. That term includes, but is not limited to, the following, to the extent that they are includible in the appraised value of goods imported into the customs territory of the United States—

- (A) all actual labor costs involved in the growth, production, manufacture or assembly of the specific merchandise, including fringe benefits, on-the-job training and the cost of engineering, supervisory, quality control and similar personnel, and
- (B) dies, molds, tooling and depreciation on machinery and equipment which are allocable to the specific merchandise,
- (C) research, development, design, engineering and blueprint costs insofar as they are allocable to the specific article, and
- (D) costs of inspecting and testing the specific article;

but that term does not include costs which are not directly attributable to the merchandise concerned, or are not costs of manufacturing the product, such as (I) profit, and (II) general expenses of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising and salesmen's salaries, commissions or expenses.

- (vi) For purposes of subdivision (b)(i) of this note, except for goods covered by the provisions of subdivision (d) of this note, the term "imported directly" means—

- (A) direct shipment from Jordan to the United States without passing through the territory of any intermediate country, or
- (B) if shipment is through the territory of an intermediate country, the articles in the shipment do not enter into the commerce of any intermediate country and the invoices, bills of lading and other shipping documents show the United States as the final destination, or
- (C) if shipment is through an intermediate country and the invoices and other documents do not show the United States as the final destination, then the articles in the shipment are imported directly only if they—
 - (1) remain under the control of the customs authority in an intermediate country,
 - (2) do not enter into the commerce of an intermediate country except for the purpose of a sale other than at retail, provided that the articles are imported as a result of the original commercial transaction between the importer and the producer or the producer's sales agent, and
 - (3) have not been subjected to operations other than loading and unloading, and other activities necessary to preserve the article in good condition.

- (d) Textile and apparel articles.

- (i) For purposes of this note, a textile or apparel article imported directly from Jordan into the customs territory of the United States shall be eligible for the tariff treatment provided in subdivision (a) of this note only if—
 - (A) the article is wholly obtained or produced in Jordan;
 - (B) the article is a yarn, thread, twine, cordage, rope, cable or braiding, and—
 - (1) the constituent staple fibers are spun in Jordan, or

25. United States-Singapore Free Trade Agreement.

- (a) Originating goods under the terms of the United States-Singapore Free Trade Agreement (SFTA) are subject to duty as provided herein. For the purposes of this note, goods of Singapore, as defined in subdivisions (b) through (o) of this note, that are imported into the customs territory of the United States and entered under a provision for which a rate of duty appears in the "Special" subcolumn of column 1 followed by the symbol "SG" in parentheses are eligible for the tariff treatment and quantitative limitations set forth in the "Special" subcolumn, in accordance with sections 201 and 202 of the United States-Singapore Free Trade Agreement Implementation Act (Pub.L.108-78; 117 Stat. 948).
- (b) For the purposes of this note, subject to the provisions of subdivisions (c), (d), (n) and (o) thereof, goods imported into the customs territory of the United States are eligible for treatment as originating goods of a SFTA country under the terms of this note only if they—
- (i) were wholly obtained or produced entirely in the territory of Singapore or of the United States, or both;
 - (ii) are goods that, in their condition as imported, are enumerated in subdivision (m) of this note and imported from the territory of Singapore; or
 - (iii) have been transformed in the territory of Singapore or of the United States, or both, so that each nonoriginating material:
 - (A) undergoes an applicable change in tariff classification set out in subdivision (o) of this note as a result of production occurring entirely in the territory of Singapore or of the United States, or both; or
 - (B) if no change in tariff classification is required, the good otherwise satisfies the applicable requirements set forth in such subdivision (o).

An importer may make a claim for preferential treatment under this note based on the importer's knowledge or on information in the importer's possession that the good qualifies as an originating good. For the purposes of this note, the term "SFTA country" refers only to Singapore or to the United States.

- (c) (i) For purposes of subdivision (b)(i) of this note, except as otherwise provided in subdivision (d) of this note for textile and apparel articles, the expression "wholly obtained or produced" refers to goods that are—
- (A) mineral goods extracted from the territory of Singapore or of the United States, or both;
 - (B) vegetable goods (for purposes of the tariff schedule) harvested in the territory of Singapore or of the United States, or both;
 - (C) live animals born and raised in the territory of Singapore or of the United States, or both;
 - (D) goods obtained from hunting, trapping, fishing, or aquaculture conducted in the territory of Singapore or of the United States, or both;
 - (E) goods (fish, shellfish and other marine life) taken from the sea by vessels registered or recorded with Singapore or the United States and flying its flag;
 - (F) goods produced exclusively from products referred to in subdivision (E) on board factory ships registered or recorded with Singapore or the United States and flying its flag;
 - (G) goods taken by Singapore or the United States, or a person of Singapore or the United States, from the seabed or beneath the seabed outside territorial waters, provided that Singapore or the United States has rights to exploit such seabed;
 - (H) goods taken from outer space, provided they are obtained by Singapore or the United States or a person of Singapore or the United States and are not processed in the territory of a country other than Singapore or the United States;
 - (I) waste and scrap derived from—
 - (1) production in the territory of Singapore or of the United States, or both; or
 - (2) used goods collected in such territory, provided such goods are fit only for the recovery of raw materials;

(C) For the purposes of this note—

(1) the term “material” means a good that is used in the production of another good;

(2) the term “material that is self-produced” means a good, such as a part or ingredient, that is produced by a producer and used by such producer in the production of another good;

(3) the term “used” as it appears in this subdivision means used or consumed in the production of goods; and

(4) a “nonoriginating material” is a material that has not satisfied the requirements of this note.

(D) For the purposes of this note, the term “production” means growing, raising, mining, harvesting, fishing, trapping, hunting, manufacturing, processing, assembling or disassembling a good; and the term “producer” means a person who grows, raises, mines, harvests, fishes, traps, hunts, manufactures, processes, assembles or disassembles a good.

(iii) A good shall not be considered to be an originating good if, after it has undergone production that satisfies the requirements of this note, the good undergoes subsequent production or any other operation outside the territory of Singapore and of the United States, other than unloading, reloading or any other operation necessary to preserve it in good condition or to transport the good to the territory of Singapore or of the United States.

(d) Textile and apparel articles.

(i) Except as provided in subdivision (ii) below, a textile or apparel good provided for in chapters 50 through 63 of the tariff schedule that is not an originating good under the terms of this note because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in subdivision (o) of this note, shall nonetheless be considered to be an originating good if the total weight of all such fibers or yarns in that component is not more than seven percent of the total weight of that component. Notwithstanding the preceding sentence, a textile or apparel good containing elastomeric yarns in the component of the good that determines the tariff classification of the good shall be considered an originating good only if such yarns are wholly formed in the territory of Singapore or of the United States.

(ii) Notwithstanding any other provision of this note, an apparel good of chapter 61 or 62 of the tariff schedule shall be considered to be an originating good if it is both cut (or knit to shape) and sewn or otherwise assembled in the territory of Singapore or of the United States, or both, from fabric or yarn, regardless of the origin of such fabric or yarn, designated by the appropriate United States government authority as fabric or yarn not available in commercial quantities in a timely manner in the United States. Such designation must have been made in a notice published in the *Federal Register* on or before November 15, 2002, identifying apparel goods made from such fabric or yarn as eligible for entry into the United States under subheading 9819.11.24 or 9820.11.27 of chapter 98 of the tariff schedule. For purposes of this subdivision, reference in such a notice to yarn or fabric formed in the United States is deemed to include yarn or fabric formed in Singapore.

(e) De minimis.

- (i) A good, other than a textile or apparel good described in subdivision (d) of this note, that does not undergo a change in tariff classification pursuant to subdivision (o) of this note shall nonetheless be considered to be an originating good if—
 - (A) the value of all nonoriginating materials used in the production of the good that do not undergo the required change in tariff classification does not exceed 10 percent of the adjusted value of the good;
 - (B) if the good is subject to a regional value-content requirement under the terms of subdivision (g) or (o) of this note, the value of such nonoriginating materials is taken into account in calculating the regional value content of the good; and
 - (C) the good meets all other applicable criteria set forth in this note for qualifying as an originating good.
- (ii) Subdivision (e)(i) does not apply to—
 - (A) a nonoriginating material provided for in chapter 4 or in subheading 1901.90 that is used in the production of a good provided for in chapter 4;
 - (B) a nonoriginating material provided for in chapter 4 or in subheading 1901.90 that is used in the production of a good provided for in the following provisions: subheadings 1901.10, 1901.20 or 1901.90; heading 2105; or subheadings 2106.90, 2202.90 or 2309.90;
 - (C) a nonoriginating material provided for in heading 0805 or subheadings 2009.11 through 2009.39 that is used in the production of a good provided for in subheadings 2009.11 through 2009.39 or in subheading 2106.90 or 2202.90;
 - (D) a nonoriginating material provided for in chapter 15 that is used in the production of a good provided for in headings 1501 through 1508, 1512, 1514 or 1515;
 - (E) a nonoriginating material provided for in heading 1701 that is used in the production of a good provided for in headings 1701 through 1703;
 - (F) a nonoriginating material provided for in chapter 17 or heading 1805 that is used in the production of a good provided for in subheading 1806.10;
 - (G) a nonoriginating material provided for in headings 2203 through 2208 that is used in the production of a good provided for in headings 2207 or 2208; and
 - (H) a nonoriginating material used in the production of a good provided for in chapters 1 through 21, inclusive, unless the nonoriginating material is provided for in a different subheading than the good for which origin is being determined under this note.
- (iii) For the purposes of this note, the term "adjusted value" means the value determined under articles 1 through 8, article 15 and the corresponding interpretative notes of the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade (the Customs Valuation Agreement), except that such value may be adjusted to exclude any costs, charges or expenses incurred for transportation, insurance and related services incident to the international shipment of the merchandise from the country of exportation to the place of importation.

(f) Accumulation.

- (i) For purposes of this note, originating materials from the territory of either Singapore or the United States that are used in the production of a good in the territory of the other country shall be considered to originate in the territory of such other country.
- (ii) A good is an originating good when it is produced in the territory of Singapore or of the United States, or both, by one or more producers, provided that the good satisfies all of the applicable requirements of this note.

(g) Regional value content.

- (i) Where a rule set forth in subdivision (o) of this note specifies a regional value content for a good, the regional value content of such good shall be calculated, at the choice of the person claiming the tariff treatment authorized by this note for such good, on the basis of one of the following methods, unless otherwise specified herein:

Harmonized Tariff Schedule of the United States (2006)

Annotated for Statistical Reporting Purposes

GN p.177

Singapore

- (A) For the build-down method, the regional value content may be calculated on the basis of the formula $RVC = ((AV - VNM)/AV) \times 100$, where RVC is the regional value content, expressed as a percentage; AV is the adjusted value; and VNM is the value of non-originating materials that are acquired and used by the producer in the production of the good; or
 - (B) For the build-up method, the regional value content may be calculated on the basis of the formula $RVC = (VOM / AV) \times 100$, where RVC is the regional value content, expressed as a percentage; AV is the adjusted value; and VOM is the value of originating materials that are acquired or self-produced and are used by the producer in the production of the good.
- (ii) Value of materials.
- (A) For purposes of calculating the regional value content of a good under subdivision (i) and for purposes of applying the de minimis provisions of subdivision (e) of this note, the value of a material is:
 - (1) in the case of a material imported by the producer of the good, the adjusted value of the material;
 - (2) in the case of a material acquired in the territory where the good is produced, except for a material to which subdivision (3) below applies, the adjusted value of the material; or
 - (3) in the case of a material that is self-produced, or in a case in which the relationship between the producer of the good and the seller of the material influenced the price actually paid or payable for the material, including a material obtained without charge, the sum of—
 - (I) all expenses incurred in the production of the material, including general expenses; and
 - (II) an amount for profit.
 - (B) The value of materials may be adjusted as follows:
 - (1) for originating materials, the following expenses, if not included under subdivision (A) above, may be added to the value of the originating material:
 - (I) the costs of freight, insurance, packing and all other costs incurred in transporting the material to the location of the producer;
 - (II) duties, taxes and customs brokerage fees on the material paid in the territory of Singapore or of the United States, or both, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, including credit against duty or tax paid or payable; and
 - (III) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-product; and
 - (2) for non-originating materials, if included under subdivision (A) above, the following expenses may be deducted from the value of the nonoriginating material:
 - (I) the costs of freight, insurance, packing and all other costs incurred in transporting the material to the location of the producer;
 - (II) duties, taxes and customs brokerage fees on the material paid in the territory of Singapore or of the United States, or both, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, including credit against duty or tax paid or payable;
 - (III) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-products;
 - (IV) the cost of processing incurred in the territory of Singapore or of the United States in the production of the non-originating material; and
 - (V) the cost of originating materials used in the production of the nonoriginating material in the territory of Singapore or of the United States.

(h) Accessories, spare parts and tools.

Accessories, spare parts or tools that are delivered with a good and that form part of the good's standard accessories, spare parts or tools shall be treated as originating goods for purposes of this note if the good is an originating good, and shall be disregarded in determining whether all the nonoriginating materials used in the production of the good undergo an applicable change in tariff classification specified in subdivision (o) of this note, provided that:

- (i) the accessories, spare parts or tools are not invoiced separately from the good;
- (ii) the quantities and value of the accessories, spare parts or tools are customary for the good; and
- (iii) if the good is subject to a regional value-content requirement, the value of the accessories, spare parts or tools shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good under subdivision (g) of this note.

(i) Fungible goods and materials.

(i) A person claiming the treatment provided in this note for a good may claim that a fungible good or material is originating either based on the physical segregation of each fungible good or material or by using an inventory management method. For purposes of this subdivision, the term "inventory management method" means:

- (A) averaging,
- (B) "last-in, first-out,"
- (C) "first-in, first out," or
- (D) any other method that is recognized in the generally accepted accounting principles of the country in which the production is performed (whether Singapore or the United States) or otherwise accepted by that country.

The term "fungible goods" or "fungible materials" means goods or materials, as the case may be, that are interchangeable for commercial purposes and the properties of which are essentially identical.

(ii) A person selecting an inventory management method under subdivision (i) above for particular fungible goods or materials shall continue to use that method for those fungible goods or materials throughout the fiscal year of that person.

(j) Packaging materials and containers.

(i) Packaging materials and containers in which a good is packaged for retail sale, if classified with the good for which the tariff treatment under the terms of this note is claimed, shall be disregarded in determining whether all the nonoriginating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (o) of this note and, if the good is subject to a regional value-content requirement, the value of such packaging materials and containers shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

(ii) Packing materials and containers in which a good is packed for shipment shall be disregarded in determining whether—

- (A) the nonoriginating materials used in the production of the good undergo an applicable change in tariff classification set out in subdivision (o) of this note; and
- (B) the good satisfies a regional value-content requirement.

(k) Indirect materials.

An indirect material shall be considered to be an originating material for purposes of this note without regard to where it is produced, and its value shall be the cost registered in the accounting records of the producer of the good. The term "indirect material" means a good used in the production, testing or inspection of a good but not physically incorporated into the good, or a good used in the maintenance of buildings or the operation of equipment associated with the production of a good, including—

- (i) fuel and energy;

- (ii) tools, dies and molds;
 - (iii) spare parts and materials used in the maintenance of equipment or buildings;
 - (iv) lubricants, greases, compounding materials and other materials used in production or used to operate equipment and buildings;
 - (v) gloves, glasses, footwear, clothing, safety equipment and supplies;
 - (vi) equipment, devices and supplies used for testing or inspecting the goods;
 - (vii) catalysts and solvents; and
 - (viii) any other goods that are not incorporated into the good but the use of which in the production of the good can reasonably be demonstrated to be a part of that production.
- (l) Record-keeping requirements and verification.
- (i) An importer of a good, for which treatment as an originating good of a SFTA country is claimed under the provisions of this note, shall be prepared to submit, upon request by the appropriate customs officer, a statement setting forth the reasons that the good qualifies as an originating good under the provisions of this note, including pertinent cost and manufacturing information, as provided in pertinent regulations.
 - (ii) Importers shall maintain for a period of five years after the date of importation their records relating to the importation of the good and shall, upon request by the appropriate customs officer, make available records which are necessary to demonstrate that a good qualifies as an originating good under the provisions of this note, including records concerning:
 - (A) the purchase of, cost of, value of and payment for the good;
 - (B) the purchase of, cost of, value of and payment for all materials, including indirect materials, used in the production of the good; and
 - (C) the production of the good in the form in which the good is exported.
 - (iii) For purposes of determining whether a good imported into the customs territory of the United States from the territory of Singapore qualifies as an originating good under the provisions of this note, the appropriate customs officer may conduct a verification by means of—
 - (A) requests for information from the importer;
 - (B) written requests for information to an exporter or a producer in the territory of Singapore or of the United States;
 - (C) requests for the importer to arrange for the producer or exporter to provide information directly to the country conducting the verification;
 - (D) information received directly by the appropriate customs officer from an exporter or a producer as a result of a process described in subdivision (i) above;
 - (E) visits to the premises of an exporter or a producer in the territory of Singapore or of the United States, in accordance with any procedures that these countries jointly adopt pertaining to the verification, as set forth in pertinent regulations; or
 - (F) such other procedures as the United States and Singapore may agree, as set forth in pertinent regulations.
- (m) Goods that shall be considered originating goods. For the purposes of subdivision (b)(ii) of this note, goods that, in their condition as imported, are classifiable in the tariff provisions enumerated in the first column and are described opposite such provisions, when such goods are imported into the customs territory of the United States from the territory of Singapore, shall be considered originating goods for the purposes of this note:

(n) Interpretation of rules of origin.

- (i) Unless otherwise specified, and except for goods whose origin is determined under subdivision (m) of this note, a rule in subdivision (o) of this note that is set out adjacent and is applicable to an 8-digit tariff item shall take precedence over a rule applicable to a 6-digit subheading superior thereto and covering the goods of such tariff item, and a rule set out adjacent and applicable to a subheading shall take precedence over a rule applicable to a 4-digit heading superior thereto and covering the goods of such subheading. For purposes of this subdivision and subdivision (o) of this note, a tariff provision is a "heading" if its article description is not indented; a provision is a "subheading" if no subordinate 8-digit rate lines appear below it.
- (ii) References to weight in the rules set forth in subdivision (o) of this note for goods provided for in chapters 1 through 24 of the tariff schedule mean dry weight, unless otherwise specified in the tariff schedule.

- (iii) Except as provided herein, a requirement of a change in tariff classification in subdivision (o) of this note applies only to nonoriginating materials except as follows:
 - (A) agricultural and horticultural goods grown in the territory of a SFTA country shall be treated as originating in the territory of that country even if they are grown from seed, bulbs, rootstock, cuttings, slips or other live parts of plants imported from a country other than a SFTA country; and
 - (B) goods of the provisions listed below which are exported from the territory of a SFTA country shall be treated as nonoriginating:
 - (I) heading 1202, if the goods were not harvested in the territory of a SFTA country;
 - (II) subheading 2008.11, if any material provided for in heading 1202 used in the production of such goods was not harvested in the territory of a SFTA country; or
 - (III) subheading 1806.10, if such goods contain 90 percent or more by dry weight of sugar and sugar syrups of subheading 2106.90, if any material provided for in subheading 1701.99 used in the production of such goods is not an originating good.
- (iv) A good of chapters 1 through 40, inclusive, shall not be considered to be originating solely by reason of mere dilution with water or another substance that does not materially alter the characteristics of the good.
- (v) For purposes of applying this note to goods of chapters 27 through 40, inclusive, of the tariff schedule, a "chemical reaction" is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. The following are not considered to be chemical reactions for purposes of this note:
 - (A) dissolving in water or other solvents;
 - (B) the eliminating of solvents including solvent water; or
 - (C) the addition or elimination of water of crystallization.

A chemical reaction as defined above is considered to result in an originating good for purposes of this note. Notwithstanding any of the change of tariff classification rules of subdivision (o) of this note, this "chemical reaction rule" may be applied to any good classified in chapters 28 through 40, inclusive.

(o) Change in tariff classification rules.

 - (H) a nonoriginating material used in the production of a good provided for in chapters 1 through 21, inclusive, unless the nonoriginating material is provided for in a different subheading than the good for which origin is being determined under this note.
- (iii) For the purposes of this note, the term "adjusted value" means the value determined under articles 1 through 8, article 15 and the corresponding interpretive notes of the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade (the Customs Valuation Agreement), except that such value may be adjusted to exclude any costs, charges or expenses incurred for transportation, insurance and related services incident to the international shipment of the merchandise from the country of exportation to the place of importation.
- (f) Accumulation.
- (i) For purposes of this note, originating goods or materials from the territory of either Chile or the United States that are used in the production of a good in the territory of the other country shall be considered to originate in the territory of such other country.
 - (ii) A good that is produced in the territory of Chile or of the United States, or both, by one or more producers, is an originating good if the good satisfies all of the applicable requirements of this note.
- (g) Regional value content.
- (i) Where a rule set forth in subdivision (n) of this note specifies a regional value content for a good, the regional value content of such good shall be calculated, at the choice of the person claiming the tariff treatment authorized by this note for such good, on the basis of the build-down method or the build-up method described below, unless otherwise specified in this note:
 - (A) For the build-down method, the regional value content may be calculated on the basis of the formula $RVC = ((AV - VNM)/AV) \times 100$, where RVC is the regional value content, expressed as a percentage; AV is the adjusted value; and VNM is the value of nonoriginating materials used by the producer in the production of the good; or
 - (B) For the build-up method, the regional value content may be calculated on the basis of the formula $RVC = (VOM / AV) \times 100$, where RVC is the regional value content, expressed as a percentage; AV is the adjusted value; and VOM is the value of originating materials used by the producer in the production of the good.
 - (ii) Value of materials.
 - (A) For purposes of calculating the regional value content of a good under subdivision (i) and for purposes of applying the de minimis provisions of subdivision (e) of this note, the value of a material is:
 - (1) in the case of a material imported by the producer of the good, the adjusted value of the material;
 - (2) in the case of a material acquired in the territory where the good is produced, except for a material to which subdivision (3) below applies, the producer's price actually paid or payable for the material;

- (3) in the case of a material provided to the producer without charge, or at a price reflecting a discount or similar reduction, the sum of:
 - (I) all expenses incurred in the growth, production or manufacture of the material, including general expenses, and
 - (II) an amount for profit; or
 - (4) in the case of a material that is self-produced, the sum of—
 - (I) all expenses incurred in the production of the material, including general expenses, and
 - (II) an amount for profit.
- (B) The value of materials may be adjusted as follows:
- (1) for originating materials, the following expenses, if not included under subdivision (A) above, may be added to the value of the originating material:
 - (I) the costs of freight, insurance, packing and all other costs incurred in transporting the material to the location of the producer;
 - (II) duties, taxes and customs brokerage fees on the material paid in the territory of Chile or of the United States, or both, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, including credit against duty or tax paid or payable; and
 - (III) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-product; and
 - (2) for non-originating materials, if included under subdivision (A) above, the following expenses may be deducted from the value of the nonoriginating material:
 - (I) the costs of freight, insurance, packing and all other costs incurred in transporting the material to the location of the producer;
 - (II) duties, taxes and customs brokerage fees on the material paid in the territory of Chile or of the United States, or both, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, including credit against duty or tax paid or payable;
 - (III) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-products; or
 - (IV) the cost of originating materials used in the production of the nonoriginating material in the territory of Chile or of the United States.
- (C) Any cost or value referred to in this note shall be recorded and maintained in accordance with the generally accepted accounting principles applicable in the territory of the country in which the good is produced (whether Chile or the United States). Such principles are the principles, rules and procedures, including both broad and specific guidelines, that define the accounting practices accepted in the territory of Chile or of the United States, as the case may be.
- (h) Accessories, spare parts or tools.
- Accessories, spare parts or tools delivered with a good that form part of the good's standard accessories, spare parts or tools shall be treated as a material used in the production of the good, if:
- (i) the accessories, spare parts or tools are classified with and not invoiced separately from the good; and
 - (ii) the quantities and value of the accessories, spare parts or tools are customary for the good.

(i) Fungible goods and materials.

(i) A person claiming the tariff treatment provided in this note for a good may claim that a fungible good or material is originating either based on the physical segregation of each fungible good or material or by using an inventory management method. For purposes of this subdivision, the term "inventory management method" means:

(A) averaging,

(B) "last-in, first-out,"

(C) "first-in, first out," or

(D) any other method that is recognized in the generally accepted accounting principles of the country in which the production is performed (whether Chile or the United States) or otherwise accepted by that country.

The term "fungible goods" or "fungible materials" means goods or materials, as the case may be, that are interchangeable for commercial purposes and the properties of which are essentially identical.

(ii) A person selecting an inventory management method under subdivision (i) above for particular fungible goods or materials shall continue to use that method for those fungible goods or materials throughout the fiscal year of that person.

(j) Packaging materials and containers.

(i) Packaging materials and containers in which a good is packaged for retail sale, if classified with the good for which the tariff treatment under the terms of this note is claimed, shall be disregarded in determining whether all nonoriginating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (n) of this note and, if the good is subject to a regional value-content requirement, the value of such packaging materials and containers shall be taken into account as originating or nonoriginating materials, as the case may be, in calculating the regional value content of the good.

(ii) Packing materials and containers for shipment shall be disregarded in determining whether—

(A) the nonoriginating materials used in the production of the good undergo an applicable change in tariff classification set out in subdivision (n) of this note; and

(B) the good satisfies a regional value-content requirement.

(k) Indirect materials.

An indirect material shall be considered to be an originating material for purposes of this note without regard to where it is produced. The term "indirect material" means a good used in the production, testing or inspection of a good but not physically incorporated into the good, or a good used in the maintenance of buildings or the operation of equipment associated with the production of a good, including—

(i) fuel and energy;

(ii) tools, dies and molds;

(iii) spare parts and materials used in the maintenance of equipment or buildings;

(iv) lubricants, greases, compounding materials and other materials used in production or used to operate equipment and buildings;

(v) gloves, glasses, footwear, clothing, safety equipment and supplies;

(vi) equipment, devices and supplies used for testing or inspecting the goods;

(vii) catalysts and solvents; and

(viii) any other goods that are not incorporated into the good but the use of which in the production of the good can reasonably be demonstrated to be a part of that production.

(l) Record-keeping requirements and verification.

- (i) An importer of a good, for which treatment as an originating good of a UCFTA country is claimed under the provisions of this note, shall make a written declaration that the good qualifies as originating, under the terms of applicable regulations, and shall be prepared to submit, upon request by the appropriate customs officer, a certificate of origin demonstrating that the good qualifies as an originating good under the provisions of this note, including pertinent cost and manufacturing information and all other information requested by such customs officer.
- (ii) Importers shall maintain for a period of five years after the date of importation of the good a certificate of origin or other information demonstrating that the good qualifies as originating, and all other documents that are required under applicable regulations relating to the importation of the good, in relating to the importation of the good, including records concerning:
 - (A) the purchase of, cost of, value of and payment for the good;
 - (B) where appropriate, the purchase of, cost of, value of and payment for all materials, including indirect materials, used in the production of the good; and
 - (C) where appropriate, the production of the good in the form in which the good is exported;and shall, upon request by the appropriate customs officer, make available such records as are necessary under applicable regulations to demonstrate that a good qualifies as an originating good under the provisions of this note.
- (iii) For purposes of determining whether a good imported into the customs territory of the United States from the territory of Chile qualifies as an originating good under the provisions of this note, the appropriate customs officer may conduct a verification under such terms or procedures as the United States and Chile may agree, as set forth in pertinent regulations.

(m) Interpretation of rules of origin.

- (i) Unless otherwise specified, a rule in subdivision (n) of this note that is set out adjacent and is applicable to a 6-digit subheading in the tariff schedule shall take precedence over a rule applicable to a 4-digit heading superior thereto and covering the goods of such subheading. For purposes of this subdivision and subdivision (n) of this note, a tariff provision is a "heading" if its article description is not indented; a provision is a "subheading" if it is designated by 6 digits under the Harmonized Commodity Description and Coding System.
- (ii) References to weight in the rules set forth in subdivision (n) of this note for goods provided for in chapters 1 through 24 of the tariff schedule are to dry weight, unless otherwise specified in the tariff schedule.
- (iii) A requirement of a change in tariff classification in subdivision (n) of this note applies only to nonoriginating materials.
- (iv) A good shall not be considered to be originating solely by virtue of having undergone:
 - (A) simple combining or packaging operations, or
 - (B) mere dilution with water or another substance that does not materially alter the characteristics of the good.
- (v) For purposes of applying this note to goods of chapters 6 through 14, inclusive, agricultural and horticultural goods grown in the territory of Chile or of the United States shall be treated as originating therein even if grown from seed, bulbs, rootstock, cuttings, slips or other live parts of plants imported from a country other than Chile or the United States.
- (vi) For purposes of applying this note to goods of chapters 27 through 38, inclusive (except a good of heading 3823), of the tariff schedule, a "chemical reaction" is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. The following are not considered to be chemical reactions for purposes of this note:
 - (A) dissolving in water or other solvents;
 - (B) the elimination of solvents including solvent water; or
 - (C) the addition or elimination of water of crystallization.

(iv) Definitions. For the purposes of this note:

- (A) The term "direct costs of processing operations," with respect to a good, includes, to the extent they are includable in the appraised value of the good when imported into Morocco or the United States, as the case may be, the following:

The term "direct costs of processing operations" does not include costs that are not directly attributable to a good or are not costs of growth, production or manufacture of the good, such as profit and such as general expenses of doing business that are either not allocable to the good or are not related to the growth, production or manufacture of the good, such as administrative salaries, casualty and liability insurance, advertising and sales staff salaries, commission or expenses.

- (B) The term "material" means a good, including a part or ingredient, that is used in the growth, production or manufacture of another good that is a new or different article of commerce that has been grown, produced or manufactured in Morocco, the United States or both; and

- (D) The term "new or different article of commerce" means, except as provided in this subdivision, a good that--
- (1) has been substantially transformed from a good or material that is not wholly the growth, product or manufacture of Morocco, the United States, or both; and
 - (2) has a new name, character or use distinct from the good or material from which it was transformed,
- but a good shall not be considered a new or different article of commerce by virtue of having undergone simple combining or packaging operations, or mere dilution with water or another substance that does not materially alter the characteristics of the good.
- (E) The term "simple combining or packaging operations" means operations such as adding batteries to electronic devices, fitting together a small number of components by bolting, gluing or soldering, or packing or repacking components together.

- (iii) A good that has undergone production necessary to qualify as an originating good under this note shall not be considered to be an originating good if, subsequent to that production, the good undergoes further production or any other operation outside the territory of Australia or of the United States, other than unloading, reloading or any other operation necessary to preserve the good in good condition or to transport the good to the territory of Australia or of the United States.

(d) Textile and apparel articles.

- (i) Except as provided in subdivision (ii) below, a textile or apparel good that is not an originating good under the terms of this note, because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in subdivision (n) of this note, shall be considered to be an originating good if the total weight of all such fibers or yarns in that component is not more than seven percent of the total weight of that component. Notwithstanding the preceding sentence, a textile or apparel good containing elastomeric yarns in the component of the good that determines the tariff classification of the good shall be considered to be an originating good only if such yarns are wholly formed in the territory of Australia or of the United States.
- (ii) Notwithstanding the rules set forth in subdivision (n) of this note, textile and apparel goods classifiable as goods put up in sets for retail sale as provided under general rule of interpretation 3 to the tariff schedule shall not be considered to be originating goods unless each of the goods in the set is an originating good or the total value of the nonoriginating goods in the set does not exceed 10 percent of the value of the set determined for purposes of assessing customs duties.
- (iii) For purposes of subdivision (d)(i) of this note, in the case of a textile or apparel good that is a yarn, fabric or group of fibers, the term “component of the good that determines the tariff classification of the good” means all of the fibers in the yarn, fabric or group of fibers.
- (iv) For purposes of this note, the term “textile or apparel good” means a good listed in the Annex to the Agreement on Textiles and Clothing referred to in section 101(d)(4) of the Uruguay Round Agreements Act (19 U.S.C. 3511(d)(4)). For the purposes of the rules set forth in subdivision (n) of this note that apply to textile or apparel goods pursuant to Annex 4-A to the UAFTA, a good is considered to be “wholly” of a material if the good is made entirely of the material.

(e) De minimis.

- (i) Except as provided in subdivision (e)(ii) below, a good (other than a textile or apparel good described in subdivision (d) above) that does not undergo a change in tariff classification pursuant to subdivision (n) of this note shall nonetheless be considered to be an originating good if—
 - (A) the value of all nonoriginating materials that are used in the production of the good, and do not undergo the applicable change in tariff classification, does not exceed 10 percent of the adjusted value of the good;
 - (B) the value of such nonoriginating materials is included in calculating the value of nonoriginating materials for any applicable regional value content requirement for the good; and
 - (C) the good meets all other applicable requirements of this note.
- (ii) Subdivision (e)(i) does not apply to—
 - (A) a nonoriginating material provided for in chapter 4 or in subheading 1901.90 that is used in the production of a good provided for in chapter 4;
 - (B) a nonoriginating material provided for in chapter 4 or in subheading 1901.90 that is used in the production of a good provided for in subheading 1901.10, 1901.20 or 1901.90, heading 2105, or subheading 2106.90, 2202.90 or 2309.90;
 - (C) a nonoriginating material provided for in heading 0805 or any of subheadings 2009.11 through 2009.39 that is used in the production of a good provided for in any of subheadings 2009.11 through 2009.39, or in subheading 2106.90 or 2202.90;
 - (D) a nonoriginating material provided for in chapter 15 that is used in the production of a good provided for in headings 1501 through 1508, 1512, 1514 or 1515;
 - (E) a nonoriginating material provided for in heading 1701 that is used in the production of a good provided for in any of headings 1701 through 1703;
 - (F) a nonoriginating material provided for in chapter 17 or heading 1805 that is used in the production of a good provided for in subheading 1806.10;
 - (G) a nonoriginating material provided for in any of headings 2203 through 2208 that is used in the production of a good provided for in headings 2207 or 2208; and

- (H) a nonoriginating material used in the production of a good provided for in chapters 1 through 21, inclusive, unless the nonoriginating material is provided for in a different subheading than the good for which origin is being determined under this note.
- (f) Accumulation.
- (i) For purposes of this note, originating materials from the territory of Australia or of the United States that are used in the production of a good in the territory of the other country shall be considered to originate in the territory of such other country.
 - (ii) A good that is produced in the territory of Australia or of the United States, or both, by one or more producers, is an originating good if the good satisfies all of the applicable requirements of this note.
- (g) Regional value content.
- (i) For purposes of subdivision (b)(ii)(B) of this note, the regional value content for a good, except for goods to which subdivision (iv) applies, shall be calculated by the importer, exporter or producer of the good on the basis of the build-down method or the build-up method described below, unless otherwise specified in this note:
 - (A) For the build-down method, the regional value content may be calculated on the basis of the formula $RVC = (AV - VNM) \times 100 / AV$, where RVC is the regional value content, expressed as a percentage; AV is the adjusted value; and VNM is the value of nonoriginating materials that are acquired and used by the producer in the production of the good, but does not include the value of a material that is self-produced; or
 - (B) For the build-up method, the regional value content may be calculated on the basis of the formula $RVC = (VOM \times 100) / AV$, where RVC is the regional value content, expressed as a percentage; AV is the adjusted value; and VOM is the value of originating materials that are acquired or self-produced, and used by the producer in the production of the good.
 - (ii) Value of materials.
 - (A) For purposes of calculating the regional value content of a good under this note and for purposes of applying the de minimis provisions of subdivision (e) of this note, the value of a material is:
 - (1) in the case of a material imported by the producer of the good, the adjusted value of the material;
 - (2) in the case of a material acquired in the territory in which the good is produced, determined in accordance with Articles 1 through 8, article 15 and the corresponding interpretive notes of the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade 1994 referred to in section 101(d)(8) of the Uruguay Round Agreements Act, as set forth in regulations promulgated by the Secretary of the Treasury providing for the application of such Articles in the absence of an importation; or
 - (3) in the case of a material that is self-produced, the sum of--
 - (I) all expenses incurred in the production of the material, including general expenses; and
 - (II) an amount for profit equivalent to the profit added in the normal course of trade.
 - (B) The value of materials may be adjusted as follows:
 - (1) for originating materials, the following expenses, if not included under subdivision (g)(ii)(A) of this note, may be added to the value of the originating material:
 - (I) the costs of freight, insurance, packing and all other costs incurred in transporting the material within or between the territory of Australia, the United States or both, to the location of the producer;
 - (II) duties, taxes and customs brokerage fees on the material paid in the territory of Australia or of the United States, or both, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, including credit against duty or tax paid or payable; and
 - (III) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-products;

- (2) for non-originating materials, if included in the value of a nonoriginating material calculated under subdivision (g)(ii)(A) of this note, the following expenses may be deducted from the value of the nonoriginating material:
- (I) the costs of freight, insurance, packing and all other costs incurred in transporting the material within or between the territory of Australia, the United States or both, to the location of the producer;
 - (II) duties, taxes and customs brokerage fees on the material paid in the territory of Australia or of the United States, or both, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, including credit against duty or tax paid or payable;
 - (III) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-products;
 - (IV) the cost of processing incurred in the territory of Australia or of the United States, or both, in the production of the nonoriginating material; and
 - (V) the cost of originating materials used in the production of the nonoriginating material in the territory of Australia or of the United States, or both
- (C) Any cost or value referred to in this note shall be recorded and maintained in accordance with the generally accepted accounting principles applicable in the territory of the country in which the good is produced (whether Australia or the United States). Such principles comprise the recognized consensus or substantial authoritative support in the territory of Australia or of the United States, as the case may be, with respect to the recording of revenues, expenses, costs, assets and liabilities, the disclosure of information and the preparation of financial statements. These standards may encompass broad guidelines of general application as well as detailed standards, practices and procedures.
- (D) For purposes of subdivision (g) of this note, the term "used" means used or consumed in the production of goods.
- (iii) Special rule for certain automotive goods.
- (A) For purposes of subdivision (b)(ii)(B) of this note, the regional value content of an automotive good shall be calculated by the importer, exporter or producer of the good on the basis of the following net cost method: $RVC = (NC - VNM) \times 100 / NC$, where RVC is the regional value content of the automotive good, expressed as a percentage; NC is the net cost of the automotive good; and VNM means the value of nonoriginating materials that are acquired and used by the producer in the production of the automotive good, but does not include the value of a material that is self produced. For purposes of this subdivision, the term "automotive good" means a good provided for in any of the subheadings 8407.31 through 8407.34, subheading 8408.20, heading 8409 or any of headings 8701 through 8708, inclusive, of the tariff schedule.
- (B) For purposes of determining the regional value content under this subdivision for an automotive good that is a motor vehicle provided for in any of headings 8701 through 8705, an importer, exporter or producer may average the amounts calculated under the formula contained in subdivision (A) above, over the producer's fiscal year--
- (I) with respect to all motor vehicles in any one of the categories described in subdivision (C), below; or
 - (II) with respect to all motor vehicles in any such category that are exported to the territory of the United States or Australia.
- (C) A category is described for purposes of subdivision (B)(I) above if it--
- (I) is the same model of motor vehicles, is in the same class of vehicles, and is produced in the same plant in the territory of Australia or of the United States, as the good described in subdivision (B) for which regional value content is being calculated;
 - (II) is the same class of motor vehicles, and is produced in the same plant in the territory of Australia or of the United States, as the good described in subdivision (B) for which regional value content is being calculated; or
 - (III) is the same model line of motor vehicles produced in either the territory of Australia or of the United States, as the good described in subdivision (B) for which regional value content is being calculated.
- (D) For purposes of determining the regional value content under subdivision (A) above for automotive goods provided for in any of subheadings 8407.31 through 8407.34, in subheading 8408.20 or in heading 8409, 8705, 8707 or 8708, that are produced in the same plant, an importer, exporter or producer may--

- (I) average the amounts calculated under the formula contained in subdivision (A) above over--
 - (aa) the fiscal year of the motor vehicle producer to whom the automotive goods are sold,
 - (bb) any quarter or month, or
 - (cc) its own fiscal year,if the goods were produced during the fiscal year, quarter or month that is the basis for the calculation;
 - (II) determine the average referred to in subdivision (I) separately for such goods sold to one or more motor vehicle producers; or
 - (III) make a separate determination under subdivision (I) or (II) for automotive goods that are exported to the territory of the United States or of Australia.
- (E) Consistent with the provisions regarding allocation of costs set out in generally accepted accounting principles, the net cost of the automotive good under subdivision (B) shall be calculated by--
- (I) calculating the total cost incurred with respect to all goods produced by the producer of the automotive good, subtracting any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and nonallowable interest costs that are included in the total cost of all such goods, and then reasonably allocating the resulting net cost of those goods to the automotive good;
 - (II) calculating the total cost incurred with respect to all goods produced by that producer, reasonably allocating the total cost to the automotive good, and then subtracting any sales promotion, marketing and after-sales services costs, royalties, shipping and packing costs and nonallowable interest costs that are included in the portion of the total cost allocated to the automotive good; or
 - (III) reasonably allocating each cost that forms part of the total cost incurred with respect to the automotive good so that the aggregate of these costs does not include any sales promotion, marketing and after-sales costs, royalties, shipping and packing costs or nonallowable interest costs.
- (F) For purposes of this note, the term "class of motor vehicles" means any one of the following categories of motor vehicles:
- (I) motor vehicles provided for in subheading 8701.20, 8704.10, 8704.22, 8704.23, 8704.32 or 8704.90, or heading 8705 or 8706, or motor vehicles for the transport of 16 or more persons provided for in subheading 8702.10 or 8702.90;
 - (II) motor vehicles provided for in subheading 8701.10 or any of subheadings 8701.30 through 8701.90, inclusive;
 - (III) motor vehicles for the transport of 15 or fewer persons provided for in subheading 8702.10 or 8702.90, or motor vehicles provided for in subheading 8704.21 or 8704.31; or
 - (IV) motor vehicles provided for in any of subheadings 8703.21 through 8703.90.
- (G) For purposes of this note, the term "model line" means a group of motor vehicles having the same platform or model name.
- (H) For purposes of this note, the term "nonallowable interest costs" means interest costs incurred by a producer that exceed 700 basis points above the applicable official interest rate for comparable maturities of the country (whether Australia or the United States).
- (I) For purposes of this note, the term "reasonably allocating" means apportioning in a manner that would be appropriate under generally accepted accounting principles.
- (J) For purposes of this note, the term "total cost" means all product costs, period costs and other costs for a good incurred in the territory of Australia or of the United States, or both.
- (h) Accessories, spare parts or tools.

- (A) be treated as originating goods if the good is an originating good; and
 - (B) be disregarded in determining whether all the nonoriginating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (n) of this note.
- (ii) Subdivision (i) above shall apply only if--
- (A) the accessories, spare parts or tools are and not invoiced separately from the good;
 - (B) the quantities and value of the accessories, spare parts or tools are customary for the good; and
 - (C) if the good is subject to a regional value content requirement, the value of the accessories, spare parts or tools is taken into account as originating or nonoriginating materials, as the case may be, in calculating the regional value content of the good.
- (i) Fungible goods and materials.
- (i) A person claiming that a fungible good or fungible material is an originating good may base the claim either on the physical segregation of the fungible good or fungible material or by using an inventory management method with respect to the fungible good or fungible material. For purposes of this subdivision, the term "inventory management method" means:
- (A) averaging,
 - (B) "last-in, first-out,"
 - (C) "first-in, first out," or
 - (D) any other method that is recognized in the generally accepted accounting principles of the country in which the production is performed (whether Australia or the United States) or otherwise accepted by that country.
- The term "fungible good" or "fungible material" means a good or material, as the case may be, that is interchangeable with another good or material for commercial purposes and the properties of which are essentially identical to such other good or material.
- (ii) A person selecting an inventory management method under subdivision (i) above for a particular fungible good or fungible material shall continue to use that method for that fungible good or fungible material throughout the fiscal year of that person.
- (j) Packaging materials and containers.
- (i) Packaging materials and containers in which a good is packaged for retail sale, if classified with the good for which the tariff treatment under the terms of this note is claimed, shall be disregarded in determining whether all nonoriginating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (n) of this note and, if the good is subject to a regional value content requirement, the value of such packaging materials and containers shall be taken into account as originating or nonoriginating materials, as the case may be, in calculating the regional value content of the good.
- (ii) Packing materials and containers for shipment shall be disregarded in determining whether--
- (A) the nonoriginating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (n) of this note; and
 - (B) the good satisfies a regional value content requirement.
- (k) Indirect materials.
- An indirect material shall be considered to be an originating material for purposes of this note without regard to where it is produced, and its value shall be the cost registered in the accounting records of the producer of the good. The term "indirect material" means a good used in the production, testing or inspection of a good but not physically incorporated into the good, or a good used in the maintenance of buildings or the operation of equipment associated with the production of a good, including--
- (i) fuel and energy;
 - (ii) tools, dies and molds;

- (iii) spare parts and materials used in the maintenance of equipment or buildings;
 - (iv) lubricants, greases, compounding materials and other materials used in production or used to operate equipment and buildings;
 - (v) gloves, glasses, footwear, clothing, safety equipment and supplies;
 - (vi) equipment, devices and supplies used for testing or inspecting the goods;
 - (vii) catalysts and solvents; and
 - (viii) any other goods that are not incorporated into the good but the use of which in the production of the good can reasonably be demonstrated to be a part of that production.
- (l) Record-keeping requirements and verification.
- (i) An importer of a good, for which treatment as an originating good of a UAFTA country is claimed under the provisions of this note, shall make a written declaration that the good qualifies as originating, under the terms of applicable regulations, and shall be prepared to submit, upon request by the appropriate customs officer, a statement setting forth the reasons that the good qualifies as an originating good under the provisions of this note, including pertinent cost and manufacturing information and all other information requested by such customs officer.
 - (ii) Importers shall maintain, for a period prescribed in applicable regulations and starting on the date of importation of the good, all information demonstrating that the good qualifies as originating in a format that may be provided for in such regulations, along with all other required documents relating to the importation of the good, including records concerning:
 - (A) the purchase of, cost of, value of and payment for the good;
 - (B) where appropriate, the purchase of, cost of, value of and payment for all materials, including indirect materials, used in the production of the good; and
 - (C) where appropriate, the production of the good in the form in which the good is exported;and shall, upon request by the appropriate customs officer, make available such records as are necessary under applicable regulations to demonstrate that a good qualifies as an originating good under the provisions of this note.
 - (iii) For purposes of determining whether a good imported into the customs territory of the United States from the territory of Australia qualifies as an originating good under the provisions of this note, the appropriate customs officer may conduct a verification under such terms or procedures as the United States and Australia may agree, as set forth in pertinent regulations.
- (m) Interpretation of rules of origin.
- (i) Unless otherwise specified, the requirements of any rule in subdivision (n) of this note that is set out adjacent to a heading or subheading of the tariff schedule and specifies a change of tariff classification applies only to nonoriginating materials. For purposes of this subdivision and subdivision (n) of this note, a tariff provision is a "heading" if its article description is not indented; a provision is a "subheading" if it is designated by 6 digits under the Harmonized Commodity Description and Coding System.
 - (ii) Where a specific rule in subdivision (n) of this note is defined using the criterion of a change in tariff classification, and the rule is written to exclude tariff provisions at the level of a chapter, heading or subheading of the tariff schedule, such rule shall be construed to require that materials classified in those excluded provisions be originating for the good to qualify as originating.
 - (iii) When a heading or subheading of the tariff schedule is subject to alternative specific rules in subdivision (n) of this note, the rule will be considered to be met if a good satisfies one of the alternatives.
 - (iv) When a single rule applies to a group of headings or subheadings, and that rule specifies a change of heading or subheading, the requirement shall be considered to permit a change within a single heading or subheading in such group or between headings or subheadings of that group. When, however, a rule requires a change in heading or subheading from a provision "outside that group" such change in heading or subheading must occur from a heading or subheading that is outside the group of headings or subheadings set out in the rule.
 - (v) References to weight in the rules set forth in subdivision (n) of this note for goods provided for in chapters 1 through 24 of the tariff schedule are to dry weight, unless otherwise specified in the tariff schedule.

- (vi) For purposes of applying this note to goods of chapters 6 through 14, inclusive, agricultural and horticultural goods grown in the territory of Australia or of the United States shall be treated as originating therein even if grown from seed, bulbs, rootstock, cuttings, grafts, shoots, buds or other live parts of plants imported from a country other than Australia or the United States.
- (vii) Any good of chapters 27 through 40, inclusive (except a good of heading 3823), of the tariff schedule, that is the product of a chemical reaction shall be considered to be an originating good if the chemical reaction occurred in the United States or Australia. Notwithstanding any of the individual tariff classification rules, this "chemical reaction" rule may be applied to any good classified in the above chapters. For purposes of applying this note to goods of the above chapters, a "chemical reaction" is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. The following are not considered to be chemical reactions for purposes of this note:
 - (A) dissolving in water or other solvents;
 - (B) the elimination of solvents including solvent water; or
 - (C) the addition or elimination of water of crystallization.
- (viii) For the purposes of chapters 28 through 35 and chapters 38 and 39, purification is considered to be origin conferring under this note provided that one of the following criteria is satisfied:
 - (A) purification of a good resulting in the elimination of 80 percent by weight of the content of existing impurities; or
 - (B) reduction or elimination of impurities resulting in a good suitable for one or more of the following applications:
 - (I) pharmaceutical, medicinal, cosmetic, veterinary or food grade substances;
 - (II) chemical products and reagents for analytical, diagnostic or laboratory uses;
 - (III) elements and components for use in micro-elements;
 - (IV) specialized optical uses;
 - (V) non-toxic uses for health and safety;
 - (VI) biotechnical use;
 - (VII) carriers used in a separation process; or
 - (VIII) nuclear grade uses.
- (ix) For the purposes of chapters 30 and 31, heading 3302, subheading 3502.20, headings 3506 through 3507, heading 3707 and chapters 39 and 40, the deliberate and proportionally controlled mixing or blending (including dispersing) of materials to conform to predetermined specifications which results in the production of a good having physical or chemical characteristics which are relevant to the purposes or uses of the good and are different from the input materials is considered to be origin conferring for purposes of this note.
- (x) For the purposes of chapters 30, 31 and 39, the following shall be considered to be origin conferring for purposes of this note:
 - (A) the deliberate and controlled reduction in particle size of a good, other than by merely crushing (or pressing) resulting in a good having a defined particle size, defined particle size distribution or defined surface area, which are relevant to the purposes of the resulting good and have different physical or chemical characteristics from the input materials; or
 - (B) the deliberate and controlled modification in particle size of a good, other than by merely pressing, resulting in a good having a defined particle size, defined particle size distribution or defined surface area, which are relevant to the purposes of the resulting good and have different physical or chemical characteristics from the input materials.

- (xi) For the purposes of chapters 28 through 32, 35 and 38, the production of standards materials is considered to be origin conferring for purposes of this note. The term "standards materials" (including standard solutions) means preparations suitable for analytical, calibrating or reference uses having precise degrees of purity or proportions which are certified by the manufacturer.
- (xii) For the purposes of chapters 28 through 32, 35 and 39, the isolation or separation of isomers from mixtures of isomers shall be considered origin conferring for purposes of this note.
- (xiii) For the purposes of chapters 28 through 38, a nonoriginating material/component will not be deemed to have satisfied all applicable requirements of these rules by reason of a change from one tariff classification to another merely as the result of the separation of one or more individual materials or components from a man-made mixture unless the isolated material/component, itself, also underwent a chemical reaction.

GENERAL STATISTICAL NOTES

1. Statistical Requirements for Imported Goods.

- (a) Persons making customs entry or withdrawal of goods imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:
- (i) the number of the Customs district and of the port where the goods are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;
 - (ii) the name of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the goods first arrived in the United States;
 - (iii) the foreign port of lading;
 - (iv) the U.S. port of unloading for vessel and air shipments;
 - (v) the date of importation;
 - (vi) the country of origin of the goods expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;
 - (vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;
 - (viii) the date of exportation;
 - (ix) a description of the goods in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;
 - (x) the statistical reporting number under which the goods are classifiable, including the appropriate symbol placed as a prefix to the statistical reporting number when claiming special tariff treatment as provided for in general note 3(c)(i) (asterisks, however, are not to be reported with or in place of the symbol prefix, e.g. for the Generalized System of Preferences only the "A" and not the asterisk shall be reported);
 - (xi) gross weight in kilograms for the goods covered by each reporting number for all modes of transportation;
 - (xii) the net quantity in the units specified herein for the classification involved and with the units noted;
 - (xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;
 - (xiv) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance and all other charges, costs and expenses (each of which charges, costs and expenses shall be separately itemized on or attached to the related invoice) incurred (except as provided below) in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry. In the case of overland shipments originating in Canada or Mexico, such costs shall include freight, insurance, and all other charges, costs and expenses incurred in bringing the merchandise from the point of origin (where the merchandise begins its journey to the United States) in Canada or Mexico to the first U.S. port of entry; and
 - (xv) such other information with respect to the imported goods as is provided for elsewhere in the tariff schedule.
- (b) For the purpose of paragraph (a), the following provisions shall govern:
- (i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation; and

Stat. Notes

- (ii) if for the purposes of subparagraph (xiv) of subdivision (a) actual amounts cannot be provided, the person making the entry or withdrawal shall provide reasonable estimates of such information. The use of an estimate for statistical purposes does not relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions. For Customs purposes, estimates shall not be used in declaring the value of merchandise in accordance with section 402 of the Tariff Act of 1930, as amended by the Trade Agreements Act of 1979. Therefore, when the price of goods includes freight, insurance and other charges (e.g., the terms of sale are CIF), estimates of those charges reported pursuant to this note may not be deducted from the price to arrive at the value declared to the Customs Service. However, when the actual charges are known, they must be excluded to arrive at the declared value.

2. Statistical Annotations.

- (a) The statistical annotations to the Harmonized Tariff Schedule of the United States consist of--
 - (i) the 2-digit statistical suffixes and any article descriptions applicable thereto,
 - (ii) the indicated units of quantity, and
 - (iii) the statistical notes and annexes.
- (b) The legal text of the Harmonized Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

3. Statistical Reporting Number.

- (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit subheading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under subheading 0106.00.50 is "0106.00.5010".
- (b) Whenever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the 10-digit subheading number of the provision from which the rate is derived. Thus, the statistical reporting number for certain mountings for optical telescopes is "9005.90.8000-9005.80.4040". If multiple statistical reporting numbers are shown for the subheading from which the duty rate is derived and the shipment contains articles covered by more than one statistical reporting number from the subheading, then report the last applicable statistical reporting number only.
- (c) Whenever an article is eligible for reduced Merchandise Processing Fee (MPF), and a claim therefor is made under one of the following programs, the statistical reporting number is, in absence of specific instructions to the contrary elsewhere, the 10-digit number prefixed by the appropriate symbol indicated below:

Automotive Products Trade Act	B#
Agreement on Trade in Civil Aircraft	C#
North American Free Trade Agreement:	
Goods of Canada or of Mexico, under the	
terms of general note 12, included in the	
pharmaceutical appendix	K#
Goods of Canada or of Mexico, under the	
terms of general note 12, included in the	
intermediate chemicals for dyes appendix	L#
Other goods of Canada, under the terms of general note 12	CA
Other goods of Mexico, under the terms of general note 12	MX

- (e) Whenever in the tariff schedule goods are classified as a set in accordance with General Rules of Interpretation 3(b) or 3(c), the set is to be identified by placing the prefix "X" in front of the statistical reporting numbers applicable to the set.

4. Abbreviations.

- (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.
- (b) Whenever two separate units of quantity are shown for the same article, the value of the article is to be reported with the first unit of quantity shown, unless there is a "v" following the second unit of quantity in which case the value of the article is to be reported with that unit of quantity.

Additional U.S. Note

1. (a) Except as provided in paragraphs (b) and (c) of this note, the importation of the feathers or skin of any bird is hereby prohibited. Such prohibition shall apply to the feathers or skin of any bird:
 - (i) Whether raw or processed;
 - (ii) Whether the whole plumage or skin or any part of either;
 - (iii) Whether or not attached to a whole bird or any part thereof; and
 - (iv) Whether or not forming part of another article.
- (b) Paragraph (a) shall not apply:
 - (i) In respect of any of the following birds (other than any such bird which, whether or not raised in captivity, is a wild bird): chickens (including hens and roosters), turkeys, guineas, geese, ducks, pigeons, ostriches, rheas, English ring-necked pheasants and pea fowl;
 - (ii) To any importation for scientific or educational purposes;
 - (iii) To the importation of fully manufactured artificial flies used for fishing;
 - (iv) To the importation of birds which are classifiable under subheading 9804.00.55; and
 - (v) To the importation of live birds.
- (c) Notwithstanding paragraph (a), there may be entered in each calendar year the following quotas of skins bearing feathers:
 - (i) For use in the manufacture of artificial flies used for fishing; (A) not more than 5,000 skins of grey jungle fowl (Gallus sonneratii), and (B) not more than 1,000 skins of mandarin duck (Dendronessa galericulata); and
 - (ii) For use in the manufacture of artificial flies used for fishing, or for millinery purposes, not more than 45,000 skins, in the aggregate, of the following species of pheasant: Lady Amherst pheasant (Chrysolophus amerstiae), golden pheasant (Chrysolophus pictus), silver pheasant (Lophura nycthemera), Reeves pheasant (Syrmaticus reevesii), blue-eared pheasant (Crossoptilon auritum) and brown-eared pheasant (Crossoptilon mantchuricum).^{1/}

For the purposes of these quotas, any part of a skin which has been severed shall be considered to be a whole skin.

^{1/} Brown-eared pheasant added to the List of Endangered Foreign Fish and Wildlife, Appendix A of 50 CFR 17, Nov. 24, 1970, effective date Dec. 2, 1970 (35 F.R. 18319, 18321).

- (d) No article specified in paragraph (c) shall be entered except under a permit issued by the Secretary of the Interior. The Secretary of the Interior shall prescribe such regulations as may be necessary to carry out the purposes and provisions of paragraph (c) (including regulations providing for equitable allocation among qualified applicants of the import quotas established by such provisions). Whenever the Secretary of the Interior finds that the wild supply of any species mentioned in paragraph (c) is threatened with serious reduction or with extinction, he shall prescribe regulations which provide (to such extent and for such period as he deems necessary to meet such threat):
- (i) In the case of grey jungle fowl or mandarin duck, for the reduction of the applicable import quota; or
 - (ii) In the case of any species of pheasant, for the reduction of the import quota established for pheasants, for the establishment of a subquota for such species of pheasant, or for the elimination of such species from the import quota for pheasant, or any combination thereof.

The authority granted to the Secretary of the Interior by the preceding sentence to reduce any import quota shall include authority to eliminate such quota.

- (e) Any article of a kind the importation of which is prohibited or subjected to a quota by paragraphs (a), (b) and (c) above, and which is in the United States shall be presumed for the purposes of seizure and forfeiture to have been imported in violation of law and shall be seized and forfeited under the customs laws unless such presumption is satisfactorily rebutted; except that such presumption shall not apply to articles in actual use for personal adornment or for scientific or educational purposes. Any article so forfeited may (in the discretion of the Secretary of the Treasury and under such regulations as he may prescribe) (1) be placed with any agency of the Federal Government or of any State government, or any society or museum for exhibition or scientific or educational purposes, or (2) be destroyed.
- (f) Nothing in this note shall be construed to repeal the provision of the act of March 4, 1913, chapter 145 (37 Stat. 847), or the act of July 3, 1918 (40 Stat. 755), or any other law of the United States, now of force, intended for the protection or preservation of birds within the United States. If on investigation by the district director of Customs before seizure, or before trial for forfeiture, or if at such trial if such seizure has been made, it shall be made to appear to the district director of Customs, or to the prosecuting officer of the Government, as the case may be, that no illegal importation of such feathers has been made, but that the possession, acquisition or purchase of such feathers is or has been made in violation of the provisions of the act of March 4, 1913, chapter 145 (37 Stat. 847), or the act of July 3, 1918 (40 Stat. 755), or any other law of the United States, now of force, intended for the protection or preservation of birds within the United States, it shall be the duty of the district director of Customs, or such prosecuting officer, as the case may be, to report the facts to the proper officials of the United States, or State or Territory charged with the duty of enforcing such laws.

SECTION IV

PREPARED FOODSTUFFS; BEVERAGES, SPIRITS AND VINEGAR; TOBACCO AND MANUFACTURED TOBACCO SUBSTITUTES

IV-1

Note

1. In this section the term "pellets" means products which have been agglomerated either directly by compression or by the addition of a binder in a proportion not exceeding 3 percent by weight.

Additional U.S. Notes

1. In this section the term "canned" means preserved in airtight containers by heat processing to destroy or inactivate micro-organisms and enzymes that otherwise could cause spoilage.
2. For the purposes of this section, unless the context otherwise requires--
 - (a) the term "percent by dry weight" means the sugar content as a percentage of the total solids in the product;
 - (b) the term "capable of being further processed or mixed with similar or other ingredients" means that the imported product is in such condition or container as to be subject to any additional preparation, treatment or manufacture or to be blended or combined with any additional ingredient, including water or any other liquid, other than processing or mixing with other ingredients performed by the ultimate consumer prior to consumption of the product;
 - (c) the term "prepared for marketing to the ultimate consumer in the identical form and package in which imported" means that the product is imported in packaging of such sizes and labeling as to be readily identifiable as being intended for retail sale to the ultimate consumer without any alteration in the form of the product or its packaging; and
 - (d) the term "ultimate consumer" does not include institutions such as hospitals, prisons and military establishments or food service establishments such as restaurants, hotels, bars or bakeries.

CHAPTER 16

PREPARATIONS OF MEAT, OF FISH OR OF CRUSTACEANS, MOLLUSCS OR OTHER AQUATIC INVERTEBRATES

IV
16-1

Notes:

1. This chapter does not cover meat, meat offal, fish, crustaceans, molluscs or other aquatic invertebrates, prepared or preserved by the processes specified in chapter 2 or 3 or heading 0504.
2. Food preparations fall in this chapter provided that they contain more than 20 percent by weight of sausage, meat, meat offal, blood, fish or crustaceans, molluscs or other aquatic invertebrates, or any combination thereof. In cases where the preparation contains two or more of the products mentioned above, it is classified in the heading of chapter 16 corresponding to the component or components which predominate by weight. These provisions do not apply to the stuffed products of heading 1902 or to the preparations of heading 2103 or 2104.

Subheading Notes

1. For the purposes of subheading 1602.10, the expression "homogenized preparations" means preparations of meat, meat offal or blood, finely homogenized, put up for retail sale as infant food or for dietetic purposes, in containers of a net weight content not exceeding 250 g. For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation or other purposes. These preparations may contain a small quantity of visible pieces of meat or meat offal. This subheading takes precedence over all other subheadings of heading 1602.
2. The fish and crustaceans specified in the subheadings of heading 1604 or 1605 under their common names only, are of the same species as those mentioned in chapter 3 under the same name.

Additional U.S. Notes:

1. For the purposes of this chapter, the term "in oil" means packed in oil or fat, or in added oil or fat and other substances, whether such oil or fat was introduced at the time of packing or prior thereto.
2. In assessing the duty on meats, no allowance shall be made for normal components thereof such as bones, fat, and hide or skin. The dutiable weight of meats in airtight containers subject to specific rates includes the entire contents of the containers.
3. For purposes of subheadings 1604.14.22 and 1604.14.30, tunas and skipjack from the freely associated states may be entered free of duty under the appropriate subheading in an aggregate quantity provided by, and under the terms set forth in, general note 10(c) to the tariff schedule. Goods from the freely associated states entered, or withdrawn from warehouse for consumption, in excess of such specified aggregate quantity shall be dutied under the appropriate subheading at the rate set forth in the "General" subcolumn of column 1.

Statistical Note

1. Imports of shrimp or products of shrimp are subject to the provisions of section 609 of Public Law 101-162 of November 21, 1989 (16 U.S.C. 1537 note).

CHAPTER 17

SUGARS AND SUGAR CONFECTIONERY

IV
17-1

Note

1. This chapter does not cover:
 - (a) Sugar confectionery containing cocoa (heading 1806);
 - (b) Chemically pure sugars (other than sucrose, lactose, maltose, glucose and fructose) or other products of heading 2940; or
 - (c) Medicaments or other products of chapter 30.

Subheading Note

1. For the purposes of subheadings 1701.11 and 1701.12, "raw sugar" means sugar whose content of sucrose by weight, in the dry state, corresponds to a polarimeter reading of less than 99.5 degrees.

Additional U.S. Notes

1. The term "degree" as used in the "Rates of Duty" columns of this chapter means sugar degree as determined by a polarimetric test.
2. For the purposes of this schedule, the term "articles containing over 65 percent by dry weight of sugar described in additional U.S. note 2 to chapter 17" means articles containing over 65 percent by dry weight of sugars derived from sugar cane or sugar beets, whether or not mixed with other ingredients, capable of being further processed or mixed with similar or other ingredients, and not prepared for marketing to the ultimate consumer in the identical form and package in which imported.
3. For the purposes of this schedule, the term "articles containing over 10 percent by dry weight of sugar described in additional U.S. note 3 to chapter 17" means articles containing over 10 percent by dry weight of sugars derived from sugar cane or sugar beets, whether or not mixed with other ingredients, except (a) articles not principally of crystalline structure or not in dry amorphous form, the foregoing that are prepared for marketing to the ultimate consumer in the identical form and package in which imported; (b) blended syrups containing sugars derived from sugar cane or sugar beets, capable of being further processed or mixed with similar or other ingredients, and not prepared for marketing to the ultimate consumer in the identical form and package in which imported; (c) articles containing over 65 percent by dry weight of sugars derived from sugar cane or sugar beets, whether or not mixed with other ingredients, capable of being further processed or mixed with similar or other ingredients, and not prepared for marketing to the ultimate consumer in the identical form and package in which imported; or (d) cake decorations and similar products to be used in the same condition as imported without any further processing other than the direct application to individual pastries or confections, finely ground or masticated coconut meat or juice thereof mixed with those sugars, and sauces and preparations therefor.
4. For the purposes of this schedule, the term "blended syrups described in additional U.S. note 4 to chapter 17" means blended syrups containing sugars derived from sugar cane or sugar beets, capable of being further processed or mixed with similar or other ingredients, and not prepared for marketing to the ultimate consumer in the identical form and package in which imported.

5. (a) (i) The aggregate quantity of raw cane sugar entered, or withdrawn from warehouse for consumption, under subheading 1701.11.10, during any fiscal year, shall not exceed in the aggregate an amount (expressed in terms of raw value), not less than 1,117,195 metric tons, as shall be established by the Secretary of Agriculture (hereinafter referred to as "the Secretary"), and the aggregate quantity of sugars, syrups and molasses entered, or withdrawn from warehouse for consumption, under subheadings 1701.12.10, 1701.91.10, 1701.99.10, 1702.90.10 and 2106.90.44, during any fiscal year, shall not exceed in the aggregate an amount (expressed in terms of raw value), not less than 22,000 metric tons, as shall be established by the Secretary. With either the aggregate quantity for raw cane sugar or the aggregate quantity for sugars, syrups and molasses other than raw cane sugar, the Secretary may reserve a quota quantity for the importation of specialty sugars as defined by the United States Trade Representative.
- (ii) Whenever the Secretary believes that domestic supplies of sugars may be inadequate to meet domestic demand at reasonable prices, the Secretary may modify any quantitative limitations which have previously been established under this note but may not reduce the total amounts below the amounts provided for in subdivision (i) hereof.
- (iii) The Secretary shall inform the Secretary of the Treasury of any determination made under this note. Notice of such determinations shall be published in the Federal Register.
- (iv) Sugar entering the United States during a quota period established under this note may be charged to the previous or subsequent quota period with the written approval of the Secretary.
- (b) (i) The quota amounts established under subdivision (a) may be allocated among supplying countries and areas by the United States Trade Representative.
- (ii) The United States Trade Representative, after consultation with the Secretaries of State and Agriculture, may modify, suspend (for all or part of the quota amount), or reinstate the allocations provided for in this subdivision (including the addition or deletion of any country or area) if he finds that such action is appropriate to carry out the rights or obligations of the United States under any international agreement to which the United States is a party or is appropriate to promote the economic interests of the United States.
- (iii) The United States Trade Representative shall inform the Secretary of the Treasury of any such action and shall publish notice thereof in the Federal Register. Such action shall not become effective until the day following the date of publication of such notice in the Federal Register or such later date as may be specified by the United States Trade Representative.
- (iv) The United States Trade Representative may promulgate regulations appropriate to provide for the allocations authorized pursuant to this note. Such regulations may, among other things, provide for the issuance of certificates of eligibility to accompany any sugars, syrups or molasses (including any specialty sugars) imported from any country or area for which an allocation has been provided and for such minimum quota amounts as may be appropriate to provide reasonable access to the U.S. market for articles the product of those countries or areas having small allocations.
- (c) For purposes of this note, the term raw value means the equivalent of such articles in terms of ordinary commercial raw sugar testing 96 degrees by the polariscope as determined in accordance with regulations or instructions issued by the Secretary of the Treasury. Such regulations or instructions may, among other things, provide: (i) for the entry of such articles pending a final determination of polarity; and (ii) that positive or negative adjustments for differences in preliminary and final raw values be made in the same or succeeding quota periods. The principal grades and types of sugar shall be translated into terms of raw value in the following manner--
- (A) For articles described in subheadings 1701.11.05, 1701.11.10, 1701.11.20, 1701.11.50, 1701.12.05, 1701.12.10, 1701.12.50, 1701.91.05, 1701.91.10, 1701.91.30, 1701.99.05, 1701.99.10, 1701.99.50, 2106.90.42, 2106.90.44 and 2106.90.46 by multiplying the number of kilograms thereof by the greater of 0.93, or 1.07 less 0.0175 for each degree of polarization under 100 degrees (and fractions of a degree in proportion).
- (B) For articles described in subheadings 1702.90.05, 1702.90.10 and 1702.90.20, by multiplying the number of kilograms of the total sugars thereof (the sum of the sucrose and reducing or invert sugars) by 1.07.
- (C) The Secretary of the Treasury shall establish methods for translating sugar into terms of raw value for any special grade or type of sugar, syrup, or molasses for which he/she determines that the raw value cannot be measured adequately under the above provisions.
6. Raw cane sugar classifiable in subheading 1701.11.20 shall be entered only to be used for the production (other than by distillation) of polyhydric alcohols, except polyhydric alcohols for use as a substitute for sugar in human food consumption, or to be refined and reexported in refined form or in sugar-containing products, or to be substituted for domestically produced raw cane sugar that has been or will be exported. The Secretary of Agriculture may issue licenses for such entries and may promulgate such regulations (including any terms, conditions, certifications, bonds, civil penalties, or other limitations) as are appropriate to ensure that sugar entered under subheading 1701.11.20 is used only for such purposes.

CHAPTER 20

PREPARATIONS OF VEGETABLES, FRUIT, NUTS OR OTHER PARTS OF PLANTS

IV
20-1

Notes

1. This chapter does not cover:
 - (a) Vegetables, fruit or nuts, prepared or preserved by the processes specified in chapter 7, 8 or 11;
 - (b) Food preparations containing more than 20 percent by weight of sausage, meat, meat offal, blood, fish or crustaceans, molluscs or other aquatic invertebrates, or any combination thereof (chapter 16); or
 - (c) Homogenized composite food preparations of heading 2104.
2. Headings 2007 and 2008 do not apply to fruit jellies, fruit pastes, sugar-coated almonds or the like in the form of sugar confectionery (heading 1704) or chocolate confectionery (heading 1806).
3. Heading 2001, 2004 and 2005 cover, as the case may be, only those products of chapter 7 or of heading 1105 or 1106 (other than flour, meal and powder of the products of chapter 8), which have been prepared or preserved by processes other than those referred to in note 1(a).
4. Tomato juice the dry weight content of which is 7 percent or more is to be classified in heading 2002.
5. For the purposes of heading 2007, the expression "obtained by cooking" means obtained by heat treatment at atmospheric pressure or under reduced pressure to increase the viscosity of a product through reduction of water content or other means.
6. For the purposes of heading 2009 the expression "juices, unfermented and not containing added spirit" means juices of an alcoholic strength by volume (see note 2 to chapter 22) not exceeding 0.5 percent vol.

Subheading Notes

1. For the purposes of subheading 2005.10, the expression "homogenized vegetables" means preparations of vegetables, finely homogenized, put up for retail sale as infant food or for dietetic purposes, in containers of a net weight content not exceeding 250 g. For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation or other purposes. These preparations may contain a small quantity of visible pieces of vegetables. Subheading 2005.10 takes precedence over all other subheadings of heading 2005.
2. For the purposes of subheading 2007.10, the expression "homogenized preparations" means preparations of fruit, finely homogenized, put up for retail sale as infant food or for dietetic purposes, in containers of a net weight content not exceeding 250 g. For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation or other purposes. These preparations may contain a small quantity of visible pieces of fruit. Subheading 2007.10 takes precedence over all other subheadings of heading 2007.
3. For the purposes of subheadings 2009.12, 2009.21, 2009.31, 2009.41, 2009.61 and 2009.71, the expression "Brix value" means the direct reading of degrees Brix obtained from a Brix hydrometer or of refractive index expressed in terms of percentage sucrose content obtained from a refractometer, at a temperature of 20 °C or corrected for 20 °C if the reading is made at a different temperature.

Additional U.S. Notes

1. For the purposes of heading 2009:
 - (a) The term "liter" in the "Rates of Duty" column of the provisions applicable to fruit juices means liter of natural unconcentrated fruit juice or liter of reconstituted fruit juice;
 - (b) The term "reconstituted fruit juice" means the product which can be obtained by mixing the imported concentrate with water in such proportion that the product will have a Brix value equal to that found by the Secretary of the Treasury from time to time to be the average Brix value of like natural unconcentrated juice in the trade and commerce of the United States; and
 - (c) The term "Brix value" means the refractometric sucrose value of the juice, adjusted to compensate for the effect of any added sweetening materials, and thereafter corrected for acid.

Harmonized Tariff Schedule of the United States (2006)

Annotated for Statistical Reporting Purposes

IV
20-2

2. In determining the number of liters of reconstituted fruit juice which can be obtained from a concentrate, the degree of concentration shall be calculated on a volume basis to the nearest 0.5 degree, as determined by the ratio of the Brix value of the imported concentrated juice to that of the reconstituted juice, corrected for differences of specific gravity of the juices. Any juice having a degree of concentration of less than 1.5 (as determined before correction to the nearest 0.5 degree) shall be regarded as a natural unconcentrated juice.
3. In determining the degree of concentration of mixed fruit juices, the mixture shall be considered as being wholly of the component juice having the lowest Brix value.
4. The aggregate quantity of olives entered under subheadings 0711.20.18 and 2005.70.06 in any calendar year shall not exceed 4,400 metric tons.
5. The aggregate quantity of peanut butter and paste entered under subheading 2008.11.05 in any calendar year shall not exceed the quantities specified in this note (articles the product of Mexico shall not be permitted or included under the aforementioned quantitative limitation and no such articles shall be classifiable therein).

21-1

Notes

1. This chapter does not cover:
 - (a) Mixed vegetables of heading 0712;
 - (b) Roasted coffee substitutes containing coffee in any proportion (heading 0901);
 - (c) Flavored tea (heading 0902);
 - (d) Spices or other products of headings 0904 to 0910;
 - (e) Food preparations, other than the products described in heading 2103 or 2104, containing more than 20 percent by weight of sausage, meat, meat offal, blood, fish or crustaceans, molluscs or other aquatic invertebrates, or any combination thereof (chapter 16);
 - (f) Yeast put up as a medicament or other products of heading 3003 or 3004; or
 - (g) Prepared enzymes of heading 3507.
2. Extracts of the substitutes referred to in note 1(b) above are to be classified in heading 2101.
3. For the purposes of heading 2104, the expression "homogenized composite food preparations" means preparations consisting of a finely homogenized mixture of two or more basic ingredients such as meat, fish, vegetables or fruit, put up for retail sale as infant food or for dietetic purposes, in containers of a net weight content not exceeding 250 g. For the application of this definition, no account is to be taken of small quantities of any ingredients which may be added to the mixture for seasoning, preservation or other purposes. Such preparations may contain a small quantity of visible pieces of ingredients.

Additional U.S. Notes

1. Subheadings 2106.90.48, 2106.90.52 and 2106.90.54 cover vitamin or mineral fortified fruit or vegetable juices that are imported only in concentrated form. Such juices imported in non-concentrated form are classifiable in subheadings 2202.90.30, 2202.90.35, 2202.90.36 or 2202.90.37, as appropriate.
2. For the purposes of subheadings 2106.90.48, 2106.90.52 and 2106.90.54:
 - (a) The term "liter" in the "Rates of Duty" column of the provisions applicable to fruit juices means liter of reconstituted fruit juice;
 - (b) The term "reconstituted fruit juice" means the product which can be obtained by mixing the imported concentrate with water in such proportion that the product will have a Brix value equal to that found by the Secretary of the Treasury from time to time to be the average Brix value of like natural unconcentrated juice in the trade and commerce of the United States; and
 - (c) The term "Brix value" means the refractometric sucrose value of the juice, adjusted to compensate for the effect of any added sweetening materials, and thereafter corrected for acid.
 - (d) In determining the number of liters of reconstituted fruit juice which can be obtained from a concentrate, the degree of concentration shall be calculated on a volume basis to the nearest 0.5 degree, as determined by the ratio of the Brix value of the imported concentrated juice to that of the reconstituted juice, corrected for differences of specific gravity of the juices. Any juice having a degree of concentration of less than 1.5 (as determined before correction to the nearest 0.5 degree) shall be regarded as a natural unconcentrated juice; and
 - (e) In determining the degree of concentration of mixed fruit juices, the mixture shall be considered as being wholly of the component juice having the lowest Brix value.
3. For the purposes of this chapter, the term "mixed condiments and mixed seasonings described in additional U.S. note 3 to this chapter" means articles containing over 10 percent by dry weight of sugars derived from sugar cane or sugar beets, whether or not mixed with other ingredients, except (a) articles not principally of crystalline structure or not in dry amorphous form that are prepared for marketing to the ultimate consumer in the identical form and package in which imported; or (b) cake decorations and similar products to be used in the same condition as imported without any further processing other than the direct application to individual pastries or confections, finely ground or masticated coconut meat or juice thereof mixed with those sugars, and sauces and preparations therefor.

2. For the purposes of this chapter and of chapters 20 and 21, the "alcoholic strength by volume" shall be determined at a temperature of 20°C.
3. For the purposes of heading 2202 the term "nonalcoholic beverages" means beverages of an alcoholic strength by volume not exceeding 0.5 percent vol. Alcoholic beverages are classified in headings 2203 to 2206 or heading 2208 as appropriate.

Subheading Note

1. For the purposes of subheading 2204.10 the expression "sparkling wine" means wine which, when kept at a temperature of 20°C in closed containers, has an excess pressure of not less than 3 bars.

Additional U.S. Notes

1. The duties prescribed on products covered by this chapter are in addition to the internal-revenue taxes imposed under existing law or any subsequent act. The duties imposed on products covered by this chapter which are subject also to internal-revenue taxes are imposed only on the quantities subject to such taxes; except that, in the case of distilled spirits transferred to the bonded premises of a distilled spirits plant under the provisions of section 5232 of the Internal Revenue Code of 1954, the duties are imposed on the quantity withdrawn from customs custody.
2. Subheadings 2202.90.30, 2202.90.35, 2202.90.36 and 2202.90.37 cover vitamin or mineral fortified fruit or vegetable juices that are imported only in non-concentrated form. Such juices imported in concentrated form are classifiable in subheadings 2106.90.48, 2106.90.52 or 2106.90.54, as appropriate.
3. Dutiable quantities of alcoholic juices (including grape must) classified in heading 2204, 2206 or 2208 shall be calculated in accordance with additional U.S. notes 1, 2 and 3 in chapter 20.

5. Where in heading 2204, 2206, 2207 or 2208, the rates shown in the rates of duty columns are in terms of a proof liter, proof liter shall mean a liter of liquid at 15.56°C (60°F) which contains 50 percent (100 proof) by volume of ethyl alcohol having a specific gravity of 0.7939 at 15.56°C (60°F) referred to water at 15.56°C (60°F) as unity or the alcoholic equivalent thereof.
6. Where in heading 2204, 2206, 2207 or 2208, the rates of duty are assessed on a proof liter basis, the rates shown indicate the amount of duty which shall be collected on each liter of an imported product at 100 proof. The amount of duty which shall be collected for each liter of a product which is imported at more than or less than 100 proof shall bear the same ratio to the applicable rate of duty as the proof of the imported product bears to 100 proof.

CHAPTER 24

TOBACCO AND MANUFACTURED TOBACCO SUBSTITUTES

IV
24-1

Note

1. This chapter does not cover medicinal cigarettes (chapter 30).

Additional U.S. Notes

1. The term "wrapper tobacco", as used in this chapter, means that quality of leaf tobacco which has the requisite color, texture and burn, and is of sufficient size for cigar wrappers, and the term "filler tobacco" means all other leaf tobacco.
2. The percentage of wrapper tobacco in a bale, box, package or other shipping unit is the ratio of the number of leaves of wrapper tobacco in such unit to the total number of leaves therein. In determining such percentage for classification purposes, the district director of customs shall examine at least 10 hands, and shall count the leaves in at least 2 hands, from each shipping unit designated for examination.
3. The dutiable weight of cigars and cigarettes includes the weight of all materials which are integral parts thereof.
4. Certain samples of tobacco products provided for in this chapter are entitled to duty-free treatment (chapter 98).
5. (a) The aggregate quantity of tobacco entered, or withdrawn from warehouse, for consumption under subheadings 2401.10.63, 2401.20.33, 2401.20.85, 2401.30.33, 2401.30.35, 2401.30.37, 2403.10.60, 2403.91.45 and 2403.99.60 during the period from September 13 in any year to the following September 12, inclusive, shall not exceed the quantities specified below.

- (c) The quantitative limitations under this note are subject to regulations as may be issued by the United States Trade Representative or its designated agency.
- (d) Notwithstanding any other provision of this note, imports of tobacco, other than the product of Canada, Israel or Mexico, shall be eligible for the rates of duty provided in, and shall be classified in, the subheadings specified in paragraph (a) of this note, provided that the articles were (1) exported from the country of origin prior to September 13, 1995, and (2) imported directly from the country of origin into the customs territory of the United States, accompanied by such documentation as may be determined necessary by the Secretary of Treasury. CHAPTER 25

SALT; SULFUR; EARTHS AND STONE; PLASTERING MATERIALS, LIME AND CEMENT

V
25-1

Notes

1. Except where their context or note 4 to this chapter otherwise requires, the headings of this chapter cover only products which are in the crude state or which have been washed (even with chemical substances eliminating the impurities without changing the structure of the product), crushed, ground, powdered, levigated, sifted, screened, concentrated by flotation, magnetic separation or other mechanical or physical processes (except crystallization), but not products which have been roasted, calcined, obtained by mixing or subjected to processing beyond that mentioned in each heading.

The products of this chapter may contain an added antidusting agent, provided that such addition does not render the product particularly suitable for a specific use rather than for general use.

2. This chapter does not cover:
 - (a) Sublimed sulfur, precipitated sulfur or colloidal sulfur (heading 2802);
 - (b) Earth colors containing 70 percent or more by weight of combined iron evaluated as Fe_2O_3 (heading 2821);
 - (c) Medicaments or other products of chapter 30;
 - (d) Perfumery, cosmetic or toilet preparations (chapter 33);
 - (e) Setts, curbstones or flagstones (heading 6801); mosaic cubes and the like (heading 6802); roofing, facing or damp course slates (heading 6803);
 - (f) Precious or semiprecious stones (heading 7102 or 7103);
 - (g) Cultured crystals (other than optical elements) weighing not less than 2.5 g each, of sodium chloride or of magnesium oxide, of heading 3824; optical elements of sodium chloride or of magnesium oxide (heading 9001);
 - (h) Billiard chinks (heading 9504); or
 - (ij) Writing or drawing chinks or tailors' chinks (heading 9609).
3. Any products classifiable in heading 2517 and any other heading of the chapter are to be classified in heading 2517.
4. Heading 2530 applies, inter alia, to: vermiculite, perlite and chlorites, unexpanded; earth colors, whether or not calcined or mixed together; natural micaceous iron oxides; meerschium (whether or not in polished pieces); amber; agglomerated meerschium and agglomerated amber, in plates, rods, sticks or similar forms, not worked after molding; jet; strontianite (whether or not calcined), other than strontium oxide; broken pieces of pottery, brick or concrete.

Statistical Note

1. For the purposes of heading 2525:
 - (a) The term "split block mica" means mica, not exceeding 0.508 mm in thickness, that has been split and selected within a tolerance of 0.203 mm, but which has not been cut or stamped to dimensions, shape or form;
 - (b) The term "mica splittings" means mica laminae in book-form or book-pack, or in loose pack, suitable for use in the manufacture of agglomerated (built-up) mica included in heading 6815.

CHAPTER 26

ORES, SLAG AND ASH

V
26-1

Notes

1. This chapter does not cover:
 - (a) Slag or similar industrial waste prepared as macadam (heading 2517);
 - (b) Natural magnesium carbonate (magnesite), whether or not calcined (heading 2519);
 - (c) Sludges from the storage tanks of petroleum oils, consisting mainly of such oils (heading 2710);
 - (d) Basic slag of chapter 31;
 - (e) Slag wool, rock wool or similar mineral wools (heading 6806);
 - (f) Waste or scrap of precious metal or of metal clad with precious metal; other waste or scrap containing precious metal or precious metal compounds, of a kind used principally for the recovery of precious metal (heading 7112); or
 - (g) Copper, nickel or cobalt mattes produced by any process of smelting (section XV).
2. For the purposes of headings 2601 to 2617, the term "ores" means minerals of mineralogical species actually used in the metallurgical industry for the extraction of mercury, of the metals of heading 2844 or of the metals of section XIV or XV, even if they are intended for nonmetallurgical purposes. Headings 2601 to 2617 do not, however, include minerals which have been submitted to processes not normal to the metallurgical industry.
3. Heading 2620 applies only to:
 - Ash and residues of a kind used in industry either for the extraction of metals or as a basis for the manufacture of chemical compounds of metals, excluding ash and residues from the incineration of municipal waste (heading 2621); and
 - Ash and residues containing arsenic, whether or not containing metals, of a kind used either for the extraction of arsenic or metals or for the manufacture of their chemical compounds.

Subheading Notes

1. For the purposes of subheading 2620.21.00, "leaded gasoline sludges and leaded anti-knock compound sludges" means sludges obtained from storage tanks of leaded gasoline and leaded anti-knock compounds (for example, tetraethyl lead), and consisting essentially of lead, lead compounds and iron oxide.
2. Ash and residues containing arsenic, mercury, thallium or their mixtures, of a kind used for the extraction of arsenic or those metals or for the manufacture of their chemical compounds, are to be classified in subheading 2620.60.

Additional U.S. Notes

1. The specific rates of duty imposed under the headings of this chapter on the metal content of ores and other materials shall apply to the assay quantity of metal contained therein, whether recovered as metals, as alloys or as chemical compounds or used directly in the manufacture of articles, except that with respect to ores or other materials provided for in this chapter which are subject to duty at specific rates on their copper, lead or zinc content, an absolute deduction for losses of 18 kg per dry metric ton from the respective quantities of each of such metal contents shall be allowed.
2. When the classification of imported materials under any provision of this chapter is dependent on the percentage of metal content, such percentage shall be the ratio of the total quantity of the respective metal content to the total quantity of imported material when computed on a dry-weight basis; i.e., free of all uncombined moisture.

Statistical Note

1. The quantity of metal content to be reported shall be the assay quantity without deductions.
2. For the purposes of subheading 2601.11.0060, the term "coarse" refers to iron ores with a majority of individual particles having a diameter exceeding 4.75 mm.

CHAPTER 27

MINERAL FUELS, MINERAL OILS AND PRODUCTS OF THEIR DISTILLATION; BITUMINOUS SUBSTANCES; MINERAL WAXES

V
27-1

Notes

1. This chapter does not cover:
 - (a) Separate chemically defined organic compounds, other than pure methane and propane which are to be classified in heading 2711;
 - (b) Medicaments of heading 3003 or 3004; or
 - (c) Mixed unsaturated hydrocarbons of heading 3301, 3302 or 3805.
2. References in heading 2710 to "petroleum oils and oils obtained from bituminous minerals" include not only petroleum oils and oils obtained from bituminous minerals, but also similar oils, as well as those consisting mainly of mixed unsaturated hydrocarbons, obtained by any process, provided that the weight of the nonaromatic constituents exceeds that of the aromatic constituents.

However, the references do not include liquid synthetic polyolefins of which less than 60 percent by volume distills at 300°C, after conversion to 1,013 millibars when a reduced-pressure distillation method is used (chapter 39).
3. For the purposes of heading 2710, "waste oils" means waste containing mainly petroleum oils and oils obtained from bituminous minerals (as described in note 2 to this chapter), whether or not mixed with water. These include:
 - (a) Such oils no longer fit for use as primary products (for example, used lubricating oils, used hydraulic oils and used transformer oils);
 - (b) Sludge oils from the storage tanks of petroleum oils, mainly containing such oils and a high concentration of additives (for example, chemicals) used in the manufacture of the primary products; and
 - (c) Such oils in the form of emulsions in water or mixtures with water, such as those resulting from oil spills, storage tank washings, or from the use of cutting oils for machining operations.

Subheading Notes

1. For the purposes of subheading 2701.11, "anthracite" means coal having a volatile matter limit (on a dry, mineral-matter-free basis) not exceeding 14 percent.
2. For the purposes of subheading 2701.12, "bituminous coal" means coal having a volatile matter limit (on a dry, mineral-matter-free basis) exceeding 14 percent and a calorific value limit (on a moist, mineral-matter-free basis) equal to or greater than 5,833 kcal/kg.
3. For the purposes of subheadings 2707.10, 2707.20, 2707.30, 2707.40 and 2707.60, the terms "benzene," "toluene," "xylenes," "naphthalene" and "phenols" apply to products which contain more than 50 percent by weight of benzene, toluene, xylenes, naphthalene or phenols, respectively.
4. For the purposes of subheading 2710.11, "light oils and preparations" are those of which 90 percent or more by volume (including losses) distill at 210°C (ASTM D 86 method).

Additional U.S. Notes

1. (a) Crude petroleum oils, crude oils obtained from bituminous minerals and reconstituted crude petroleum shall, if products of Canada, be admitted free of duty and any entry therefor shall be liquidated or reliquidated accordingly if, on or before the 180th day after the date of entry, documentation is filed with the customs officer concerned establishing that, pursuant to a commercial exchange agreement between the United States and Canadian refiners which has been approved by the Secretary of Energy--
 - (i) An import license for the products covered by such entry has been issued by the Secretary; and
 - (ii) An equivalent amount of domestic or duty-paid foreign crude petroleum oils, crude oils obtained from bituminous minerals or reconstituted crude petroleum have, pursuant to such commercial exchange agreement and to an export license issued by the Secretary of Commerce, been exported from the United States to Canada and have not previously been used to effect the duty-free entry of like Canadian products under this U.S. note.
- (b) The Secretary of the Treasury, after consulting with the Secretary of Commerce and the Secretary of Energy, shall issue such rules or regulations as may be necessary governing the admission of Canadian products pursuant to the provisions of this U.S. note.

Harmonized Tariff Schedule of the United States (2006)

Annotated for Statistical Reporting Purposes

V
27-2

2. For the purposes of heading 2710, "petroleum oils" includes only products having:
 - (a) A Congealing Point (ASTM D 938) of less than 30°C; or
 - (b) If the Congealing Point is not less than 30°C:
 - (i) A density at 70°C of less than 0.942 and a Worked Cone Penetration (ASTM D 217) or a Cone Penetration (ASTM D 937) at 25°C of not less than 350; or
 - (ii) If the density at 70°C is not less than 0.942 having a Needle Penetration (ASTM D 5) at 25°C of not less than 400.
3. For the purposes of subheading 2710.11.15, "motor fuel" is any product derived primarily from petroleum, shale or natural gas, whether or not containing additives, which is principally used as a fuel in internal-combustion or other engines.
4. For the purposes of subheadings 2710.11.18 and 2710.19.22, "motor fuel blending stock" means any product (except naphthas of subheading 2710.11.25) derived primarily from petroleum, shale oil or natural gas, whether or not containing additives, to be used for direct blending in the manufacture of motor fuel.
5. In determining the relative weights of components of the mixtures provided for in subheadings 2710.11.45 and 2710.19.45, naphtha and other petroleum derivatives which may be present in such mixtures as solvents shall be disregarded.
6. For the purposes of heading 2716:
 - (a) The term "electrical energy" does not include electrical energy transmitted as a medium of communication; and
 - (b) Electrical energy shall not be subject to the entry requirements for imported merchandise set forth in section 484 of the Tariff Act of 1930, as amended, (19 U.S.C. 1484), but shall be entered on a periodic basis in accordance with regulations to be prescribed by the Secretary of the Treasury.
7. For the purposes of this chapter, the term barrel (bbl) means a barrel of 158.98 liters measured at 15.6°C.
8. Subheading 2712.10.00 does not include petroleum jelly, suitable for use for the care of the skin, put up in packings of a kind sold at retail for such use (subheading 3304.99.10).

Statistical Note

1. For the purposes of statistical reporting number 2711.11.0000, the volume of liquid natural gas shall be reported on a gaseous equivalent volume basis.
