The text may be set forth in any language by means of any kind of characters. With the exceptions above indicated, this part does not cover any article in which printing is merely incidental to the primary use of the article or in which printing is employed mainly for coloration or to produce a decorative or novelty effect (see part 4 of this schedule).</p> <p>2. For the purposes of this part -- (a) the term "paper" includes paperboard; (b) the term "books" includes books, bound and not bound, and pamphlets; (c) the term "periodicals" embraces only paper-covered or unbound publications issued regularly at stated periods, such as weekly, monthly, or quarterly, and bearing the date of issue; and (d) the term "photographs" embraces only pictures other than motion pictures, produced on photo-sensitive materials, and includes positive and negative images on exposed, or exposed and developed, photographic film.</p> <p>3. For the purposes of determining the classification of printed matter produced in whole or in part by a lithographic process, the thickness of such printed matter is that of the thinnest paper contained therein, except that the thickness of a permanently mounted lithograph is the combined thickness of the lithograph and its mounting.</p>
