SCHEDULE 3. - TEXTILE FIBERS AND TEXTILE PRODUCTS

Schedule 3 headnotes (con.):

3. For the purposes of the tariff schedules --

(a) the term "ornamented", as used with reference to textile fabrics and other articles of textile materials, means fabrics and other articles of textile materials which are ornamented with --

(i) fibers, filaments (including tinsel wire and lame), yarns, or cordage, any of the foregoing introduced as needlework or otherwise, including --

(A) embroidery, and pile or tufting, whether wholly cut, partly cut, or not cut, and

(B) other types of ornamentation, but not including functional stitching or one row of straight hemstitching adjoining a hem;

(ii) burnt-out lace;

(iii) lace, netting, braid, fringe, edging, tucking, or trimming, or textile fabric;

(iv) applique and repique work, beads, bugles, spangles, bullions, or ornaments; or

(v) any combination of the foregoing types or methods of ornamentation;

(b) ornamentation of the types or methods covered hereby consists of ornamenting work done to a pre-existing textile fabric, whether the ornamentation was applied to such fabric --

(i) when it was in the piece,

(ii) after it had been made or cut to a size for particular furnishings, wearing apparel, or other article, or

(iii) after it had actually been incorporated into another article,

and if such textile fabric remains visible, at least in significant part, after ornamentation: Provided, That lace, netting, braid, fringe, edging, tucking, trimming or ornament shall not be required to have had a separate existence from the fabric or other article on which it appears in order to constitute ornamentation for the purposes of this headnote; and

(c) applique work, beads, bugles, spangles, bullions, and other forms of nontextile ornamentation applied to a textile fabric or other article of textile materials shall be disregarded in determining the component material of chief value of such fabric or other article.

4. For the purposes of the tariff schedules --

(a) Except as specifically provided otherwise, in determining the yarn count of fabrics, the warp and filling yarns, whether plied or not, shall be counted as they occur in the fabric.

(b) In determining the component fibers of chief value in coated or filled, or laminated, fabrics and articles wholly or in part thereof, the coating or filling, or the nontextile laminating substances, shall be disregarded in the absence of context to the contrary.

5. (a) Except as otherwise provided in subsection (b) of this headnote, for the purposes of parts 5, 6, and 7 of this schedule and parts 1 (except subpart A), 4, and 12 of schedule 7, in determining the classification of any article which is wholly or in part of a fabric coated or filled, or laminated, with nontransparent rubber or plastics (which fabric is provided for in part 4C of this schedule), the fabric shall be regarded not as a textile material but as being wholly of rubber or plastics to the extent that (as used in the article) the nontransparent rubber or plastics forms either the outer surface of such article or the only exposed surface of such fabric.

(b) Any fabric described in part 4C of this schedule shall be classified under part 4C whether or not also described elsewhere in the schedules.

6. The term "Certified hand-loomed and folklore" as used with respect to products provided for in the tariff schedules, refers to such products as have been certified, in accordance with procedures established by the United States Trade Representative pursuant to international understandings, by an official of a government agency of the country where the products were produced, to have been so made.

7. With respect to fabrics provided for in part 3 (other than fabrics valued over \$2 per pound provided for in item 337.50) and in part 4 of this schedule, provisions for fabrics in chief value of wool shall also apply to fabrics in chief weight of wool (whether or not in chief value of wool). For the purposes of the preceding sentence, a fabric is in chief weight of wool if the weight of the wool component is greater than the weight of each other textile component (i.e., cotton, vegetable fibers except cotton, silk, man-made fibers, or other textile materials) of the fabric.

8. In the case of each item in this schedule and schedule 7 on which the United States has agreed to reduce the rate of duty, pursuant to a trade agreement entered into under section 101 of the Trade Act of 1974 before January 3, 1980, on any cotton, wool, or manmade fiber textile product as defined in the Arrangement Regarding International Trade in Textiles, as extended on December 14, 1977 (the Arrangement), if the Arrangement, or a substitute arrangement, including unilateral import restrictions or bilateral agreements, determined by the President to be suitable, ceases to be in effect with respect to the United States before the total reduction in the rate of duty for such item under sections 101 and 109 of the Trade Act of 1974 has become effective, then the President shall proclaim the rate of duty in rate column numbered 1 for such item existing on January 1, 1975, to be the rate of duty effective, with respect to articles entered, or withdrawn from warehouse, for consumption, within 30 days after such cessation and until the President proclaims the continuation of such reduction under the next sentence. If subsequently the Arrangement, or a substitute arrangement, including unilateral import restrictions or bilateral agreements, determined by the President to be suitable, is in effect with respect to the United States, then the President shall proclaim the continuation of the reduction of such rate of duty pursuant to such trade agreement. For purposes of section 109(c)(2) of the Trade Act of 1974, any time when a rate of duty existing on January 1, 1975, is in effect under this headnote shall be time when part of such reduction is not in effect by reason of legislation of the United States or action thereunder.

9. The term "subject to textile agreements", wherever it appears in this schedule or in schedule 7, refers to textiles and textile articles--

(a) in chief value of vegetable fibers, wool, man-made fibers, or silk, or blends thereof in which those fibers, in the aggregate, exceed in value each other single component thereof, provided, in the case of apparel in chief value of silk, the silk content is less than 70 percent by weight; and in the case of other articles in chief value of silk, the silk content is less than 85 percent by weight; or

(b) in which either the cotton content or the man-made fiber content equals or exceeds 50 percent by weight of all component fibers thereof; or

(c) in which the wool content exceeds 17 percent by weight of all component fibers thereof; or

(d) in which either the silk (except as provided for in (a) above) or the non-cotton vegetable fiber content equals or exceeds 50 percent by weight of all component fibers thereof; or

(e) containing blends of silk (except as provided for in (a) above), vegetable fibers, wool, or man-made fibers, which fibers, in the aggregate, amount to 50 percent or more by weight of all component fibers thereof.

10. For the purposes of this schedule and in schedule 7:

(a) the term "Subject to cotton restraints" refers to--

(i) articles in which the cotton component equals or exceeds 50 percent by weight of all component fibers thereof; or

SCHEDULE 3. - TEXTILE FIBERS AND TEXTILE PRODUCTS

Schedule 3 headnotes (con.)

(ii) articles in which the cotton with wool and/or man-made fibers in the aggregate equal or exceed 50 percent by weight of the component fibers thereof and the cotton component equals or exceeds the weight of each of the total wool and/or total man-made fiber components. ②

(b) The term "Subject to wool restraints" refers to articles in which the wool content exceeds 17 percent by weight of all component fibers and which are not provided for in (a) above. ②

(c) The term "Subject to man-made fiber restraints" refers to articles not meeting the requirements of (a) or (b) above, but qualifying as-- ②

(i) articles in which the man-made fiber components equal or exceed 50 percent by weight of all component fibers thereof; or ②

(ii) articles in which the man-made fibers in combination with cotton and/or wool in the aggregate equal or exceed 50 percent by weight of the component fibers thereof and the man-made fiber component exceeds the weight of the total wool and/or total cotton component. ②

Schedule 3 statistical headnotes:

1. The statistical provisions for textiles include, in addition to the regular statistical annotations, certain annotations essential for the administration of the Arrangement Regarding International Trade in Textiles by the Committee for the Implementation of Textile Agreements.

(a) In order to monitor imports subject to restraints under this arrangement, it is necessary that certain articles containing cotton, wool, or man-made fibers, or combinations thereof, be specifically identified. For example, any article containing 50 percent or more by weight of cotton may be designated as "Subject to cotton restraints". Similarly, articles containing 50 percent or more by weight of man-made fibers may be designated as "Subject to man-made fiber restraints". In addition, certain articles containing over 17 percent by weight of wool are "Subject to wool restraints". Articles containing blends of cotton, wool, or man-made fibers which, in the aggregate, amount to 50 percent or more by weight are also subject to these restraints. Definitions of the foregoing provisions are given in statistical headnote 3 below. (It should not be assumed that all imports required to be reported under any such statistical annotations are actually being controlled at any particular time, but restraints may be applied to articles imported from certain countries, depending on unilateral actions or bilateral agreements developed under the Arrangement.)

(b) Restraints under the Arrangement may not apply to developing-country exports of hand-loomed fabrics of the cottage industry, to handmade products of the cottage industry made of such hand-loomed fabrics, or to traditional folklore handicraft textile products, provided that the foregoing types of products are properly certified under arrangements established between the importing and exporting participating countries. The importer is required to identify such certified products on the entry summary or withdrawal forms by placing the symbol "F" as a prefix to the appropriate 7-digit schedule 3 or schedule 7 item number.

2. Certain articles wholly or in chief value of cotton, wool, or man-made fibers and certain woven fabrics in chief weight of wool which may be restrained under the provisions of this arrangement are adequately identified for monitoring purposes in this schedule and in schedule 7 and, therefore, are not annotated as "Subject to (cotton, man-made fiber, or wool) restraints".

3. Where the specific restraint references appear in this schedule and in schedule 7, the following meanings are hereby assigned to them:

(a) The term "Subject to cotton restraints" refers to--

(i) articles in which the cotton component equals or exceeds 50 percent by weight of all component fibers thereof; or

(ii) articles in which the cotton with wool and/or man-made fibers in the aggregate equal or exceed 50 percent by weight of the component fibers thereof and the cotton component equals or exceeds the weight of each of the total wool and/or total man-made fiber components.

(b) The term "Subject to wool restraints" refers to articles in which the wool content exceeds 17 percent by weight of all component fibers and which are not provided for in (a) above.

(c) The term "Subject to man-made fiber restraints" refers to articles not meeting the requirements of (a) or (b) above, but qualifying as--

(i) articles in which the man-made fiber components equal or exceed 50 percent by weight of all component fibers thereof; or

(ii) articles in which the man-made fibers in combination with cotton and/or wool in the aggregate equal or exceed 50 percent by weight of the component fibers thereof and the man-made fiber component exceeds the weight of the total wool and/or total cotton component.

4. The unit of measure to be used by Customs field offices when reporting imports of textiles to Customs Headquarters Quota Section shall be the first unit of quantity unless the second unit of quantity (if there is one) is underlined, in which case the second unit of quantity shall be reported (except item 363.7000 for which the unit of measure shall be "sq. yd.").

5. As a convenient cross-reference, each of the cotton, wool, and man-made fiber categories (or groupings) used by the United States in monitoring import shipments of these textile products and to administer the United States textile trade agreements programs is listed in this schedule and in schedule 7 following the appropriate 7-digit description. Also, for those desiring a cross-reference of applicable 7-digit provisions for each of the category numbers, the following table may be used--

It is noted that beginning in 1985 numerous changes have been made to certain definitions of fabrics and in the statistical reporting requirements. The cross reference has been modified to take those changes into account.

For the purposes of this part --<br/>                     (a) the term "waste" means all fiber, yarn, and thread wastes, including wastes obtained in the production of continuous and noncontinuous fibers, yarns, and threads, such as gin motes, scutcher waste (including tow), picker waste, card waste, top waste, comber waste (including noils), hackling waste (including tow), sliver waste, roving waste, ring waste, thrower (twister or pleyer) waste, fly, sweepings, and willowed wastes, and including fiber, yarn, and thread wastes obtained in the production of other textile products (i.e., products other than fibers, yarns, or threads) or otherwise obtained; and<br/>                     (b) the term "advanced waste" means any of the above-mentioned wastes which have been cleaned, bleached, colored, or otherwise advanced, and includes fibers recovered by cleaning (except willowing), degumming, carbonizing, cutting, pickering, garnetting or similar processes from any of the above-mentioned wastes or from textile clippings or articles, new or used, whether or not such fibers or the wastes from which recovered have also been otherwise advanced, but does not include fibers which have been carded, combed, or similarly processed, or reuseable yarns or threads.</p> <p>2. Rags and scrap cordage are covered in part 7C of this schedule.</p> <p style="text-align: center;">-----</p> <p style="text-align: center;">Subpart A. - Cotton</p> <p><u>Subpart A headnotes:</u></p> <p>1. The term "number", as applied to yarns in this subpart, means the number of 840-yard hanks of yarn in 1 pound. To determine the number of any yarn, whether single or plied, the actual yards per pound shall be divided by 840 and the quotient thereof multiplied by the number of plies in such yarn. Fractions in the resulting yarn number shall be disregarded.</p> <p>2. In this subpart, each of the rates of duty provided for yarns, wholly of cotton, not bleached, mercerized, colored, combed or plied (items 301.01 through 301.98, inclusive) is also the "base rate" for yarn of the same number covered by item 302.--. For citation purposes, the two blanks on the end of the latter item number shall be filled in with the last two digits of the item number for the applicable base rate. Thus, "item 302.28" would be the citation for bleached, mercerized, colored, combed, or plied yarns, wholly of cotton, of number 28.</p> <p>3. Under regulations prescribed by the Secretary of the Treasury, the staple length of cotton shall be determined for all customs purposes by application of the Official Cotton Standards of the United States for length of staple, as established by the Secretary of Agriculture and in effect when the determination is to be made.</p> <p style="text-align: center;">-----</p> |                   |               |         |   |

|      |              | <p>(b) if prior to such use or transfer for such use there shall have been combined or mixed with such wool or hair any other merchandise, the whole of the combination or mixture shall be regarded as being composed of wool or hair entered under item 306.00, unless the dealer, manufacturer, or processor liable for the payment of the duties shall establish the quantity of bonded wool or hair in such combination or mixture;</p> <p>(c) every dealer, manufacturer, or processor who has given a bond pursuant to the provisions of item 306.00 shall report any transfer or use of merchandise contrary to the terms of his bond, within 30 days after such transfer or use, to the collector of customs in whose district the bond is filed, and for failure to so report such dealer, manufacturer, or processor shall be liable to a penalty (in addition to the duties provided for) equal to the value of the merchandise so transferred or used at the time and place of such transfer or use; and</p> <p>(d) the clean yield of any wool or hair provided for in item 306.04 shall be deemed to be 100 percent, unless the actual clean yield, as defined in headnote 1(c), supra, has been determined by suitable tests, and such use, or transfer for use, occurs not later than 3 years after the date of entry of such wool or hair.</p> <p>6. The Secretary of the Treasury is hereby authorized and directed to prescribe methods and regulations for carrying out the provisions of this schedule relating to the duties on wool or hair. The Secretary of the Treasury is further authorized and directed to procure from the Secretary of Agriculture, and deposit in such customhouses and other places in the United States or elsewhere as he may designate, sets of the Official Standards of the United States for grades of wool. He is further authorized to display, in the customhouses of the United States, or elsewhere, numbered, but not otherwise identified, samples of imported wool or hair, to which are attached data as to clean yield and other pertinent facts, for the information of the trade and of customs officers.</p> <p>7. For the purposes of item 307.66, the term "average fiber diameter" means the sum of the individual fiber diameter measurements divided by the number of fibers measured.</p> <p>8. For the purposes of item 307.70, the term "fancy yarns" means yarns constructed with novelty effects, including such yarns as slub yarns, loop yarns, boucle yarns, thick-and-thin yarns, core yarns, and gimp yarns, all the foregoing whether or not of novelty color effects; the term does not embrace yarns having novelty effects imparted solely from color or from combinations of different colors.</p> <p><u>Subpart C statistical headnote:</u></p> <p>1. For item 306.00, the 2-digit statistical suffix to be used is the same as the 2-digit suffix for the provision which would have been applicable to the wool or hair had it not been entered under item 306.00. Thus, the 2-digit suffix, for a shipment of East Indian wool, in the grease or washed and not sorted, entered under item 306.00, would be "02", i.e., the same as the suffix for such wool had it been entered under item 306.11.</p> |                   |               |         |   |

|      |              | <p>PART 3. - WOVEN FABRICS</p> <p><u>Part 3 headnote:</u></p> <p>1. This part covers all woven fabrics in the piece, of any width and with or without fast edges, including gauze and leno-woven fabrics, but does not include --</p> <p>(i) any woven fabrics which are specially provided for in the provisions of part 4 of this schedule;</p> <p>(ii) certain wool fabric samples (see part 7A of this schedule); or</p> <p>(iii) woven fabrics in item 748.10 of part 7B of schedule 7.</p> <p>-----</p> <p>Subpart A. - Woven Fabrics, of Cotton</p> <p><u>Subpart A headnotes:</u></p> <p>1. (a) In the ascertainment of the condition of the fabrics or yarns upon which the duties imposed upon cotton fabrics are made to depend, the entire fabric and all parts thereof shall be included.</p> <p>(b) The term "number", as applied to woven fabrics of cotton, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous, and with the count being taken of the total single yarns in the fabric including the single yarns in any plied yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number for tariff purposes:</p> $N = \frac{BYT}{840}, \text{ or } \frac{24T}{352}, \text{ or } \frac{2BT}{1052}, \text{ or } \frac{3ST}{70}$ <p>when:</p> <p>N is the average yarn number,<br/>B is the breadth (width) of the fabric in inches,<br/>Y is the yards (linear) of the fabric per pound,<br/>T is the total single yarns per square inch,<br/>S is the square yards of fabric per pound,<br/>Z is the ounces per linear yard of fabric, and<br/>Z' is the ounces per square yard of fabric.</p> <p>2. In this subpart, each of the rates of duty provided for fabric, wholly of cotton, not fancy or figured, and not bleached and not colored (items 319.21 through 319.25 and items 320.01 through 320.98, both inclusive) is also the "base rate" for fabrics of the same average yarn number covered by items 319.27 and 319.29, and by items 321.-- through 331.--, inclusive, respectively. For citation purposes, the two blanks on the end of each of the latter item numbers shall</p> |                   |               |         |   |

Thus, "item 324.45" would be the citation for woven fabrics, wholly of cotton, of number 45, fancy or figured, and bleached but not colored.</p> <p>3. The term "fancy or figured", as used in this subpart in relation to fabrics, means fabrics which have been woven with 2 or more colors or kinds of filling; with 8 or more harnesses; or with jacquard, lapet, or awivel attachments; or by any combination of these weaving methods.</p> <p>4. With respect only to the fabrics provided for in items 319.21 through 319.25 and 320.01 through 320.98 other than such fabrics which are products of Israel as defined by general headnote 3(e)(viii) (B), none of the ad valorem rates of duty, or the ad valorem parts of the compound rates of duty, shall be less than the equivalent of --</p> <p>(i) 0.17 cent per number per pound in rate column 1 for items 320.01 through 320.98;</p> <p>(ii) 0.22 cent per number per pound in rate column 1 for items 319.21 through 319.25; and</p> <p>(iii) 0.55 cent per number per pound in rate column 2 for items 319.21 through 319.25 and 320.01 through 320.98.</p> <p><u>Subpart A statistical headnotes:</u></p> <p>1. For the purposes of this schedule, the following terms relating to woven fabrics of cotton have the meanings hereby assigned to them. (Headnote 1 to this subpart sets forth the method for determining the <u>average yarn number</u> of the fabric and the conditions for determining the weight of the fabric. Headnote 3 defines the term <u>fancy of figured</u>.) Unless the context otherwise requires, provisions relating to one or more weaves embrace only those fabrics which (excluding selvage) are wholly of the specified weave or weaves, including combinations exclusively thereof.</p> <p>(a) <u>Cheesecloth</u>: Fabrics of plain weave, weighing not more than 5.9 ounces per square yard, consisting of 85 or less warp ends and filling picks per square inch, whether or not napped.</p> <p>(b) <u>Printcloth</u>: Fabrics of plain weave, weighing not more than 5.9 ounces per square yard, of average yarn numbers 26-40 consisting of more than 85 singles yarns per square inch, of square construction, not combed, whether or not of yarns of different colors, whether or not napped.</p> <p>(c) <u>Batistes, lawns, or voiles</u>: Fabrics of plain weave, weighing not more than 5.9 ounces per square yard, consisting of more than 85 warp ends and filling picks per square inch, of square construction, of average yarn number 41 or higher number, whether or not napped.</p> <p>(d) <u>Duck</u>: Fabrics weighing more than 5.9 ounces per square yard, of average yarn number 15 or lower number, whether or not napped, of the following types --</p> <p>(i) of plain weave, of which the warp or filling, or both, consists of multiple or cabled yarns; and</p> <p>(ii) woven as plain weave except that two or more warp ends are woven as one (taped warp), whether or not containing multiple or cabled yarns; this latter type of duck is not to be classified as a plain weave fabric.</p> |                   |               |         |   |

|      |              | <p>Subpart E. - Woven Fabrics of Man-Made Fibers</p> <p><u>Subpart E statistical headnote:</u></p> <p>1. For the purposes of this schedule, the following terms relating to woven fabrics of man-made fibers have the meanings hereby assigned to them. Statistical note 1(a) sets forth the conditions for determining the weight of the fabric. Unless the context otherwise requires, provisions relating to one or more weaves embrace only those fabrics which (excluding selvage) are wholly of the specified weave or weaves, including combinations exclusively thereof.</p> <p>(a) <u>Average yarn number:</u> In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous, and with the count being taken of the total single yarns in the fabric including the single yarns in any multiple (folded) or cabled yarns. The entire fabric and all parts thereof shall be included. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number:</p> $N = \frac{BYT}{840}, \text{ or } \frac{24T}{35Z}, \text{ or } \frac{2BT}{105Z}, \text{ or } \frac{3ST}{70}$ <p>when:</p> <p>N is the average yarn number,<br/>B is the breadth (width) of the fabric in inches,<br/>Y is the yards (linear) of the fabric per pound,<br/>T is the total single yarns per square inch,<br/>S is the square yards of fabric per pound,<br/>Z is the ounces per linear yard of fabric, and<br/>Z' is the ounces per square yard of fabric.</p> <p>Fractions in the resulting <u>average yarn number</u> shall be disregarded.</p> <p>(b) <u>Not combed or woolens:</u> Fabrics in part of uncombed cotton or wool fibers.</p> <p>(c) <u>Combed or worsteds:</u> Fabrics containing cotton or wool, or both, in which such fibers are combed.</p> <p>(d) <u>High tenacity yarns:</u> Yarns having a tenacity, expressed in centinewtons per tex (cN/tex), greater than the following:</p> <p>(i) Singles yarns of nylon or polyester<br/>60 cN/tex;<br/>(ii) Multiple (folded) or cabled yarns of nylon or polyester, 53 cN/tex; or<br/>(iii) Singles or multiple (folded) or cabled yarns of viscose rayon, 27 cN/tex.</p> <p>(e) <u>Flat fabrics:</u> Fabrics not containing yarns twisted more than 12 turns per inch.</p> <p>(f) <u>Textured fabrics:</u> Fabrics containing textured yarns.</p> <p>(g) <u>Unbleached or bleached:</u> Fabrics, not containing yarns of different colors, not dyed or printed, but includes (i) white fabrics and (ii) fabrics that may have been treated with a fugitive dye (which disappears after simple washing with soap), or a colorless dressing.</p> |                   |               |         |   |

The foregoing is intended to address right-hand twill, left-hand twill, and broken twill.</p> <p>(iii) <u>Broken twill</u>: Fabrics of twill weave which include both right-hand diagonal or twill lines and left-hand diagonal or twill lines.</p> <p>(iv) <u>Cross twill</u>: Twill fabrics in which the warp ends and filling picks comprise equal proportions of the float on the face of the fabric. In this regard, these fabrics may also be known as even-sided twill or balanced twill.</p> <p>(v) <u>Sateens</u>: Fabrics woven with a satin weave, whether or not napped, in which the surface of the cloth consists almost entirely of warp or filling floats; that is, in the repeat of a weave pattern, each yarn of one system passes over several yarns of the other system before interlacing. They are sometimes woven with a twill weave but the diagonal effect in these is not ordinarily discernible on the face of the cloth.</p> <p>(r) <u>Oxford cloth</u>: Fabrics weighing not more than 5 ounces per square yard, whether or not napped, woven as plain weave except that two or more warp ends are woven as one (taped warp). Oxford cloth is not to be classified as a plain weave fabric.</p> <p>(s) <u>Duck</u>: Fabrics weighing more than 5 ounces per square yard, of average yarn number 15 or lower number, whether or not napped, of the following types:</p> <p>(i) Fabrics of plain weave, of which the warp or filling, or both, consists of multiple (folded) or cabled yarns; and</p> <p>(ii) Fabrics woven as plain weave except that two or more warp ends are woven as one (taped warp), whether or not containing multiple (folded) or cabled yarns. This latter type of duck is not to be classified as a plain weave fabric.</p> <p>(t) <u>Plain weave</u>: Fabrics in which each yarn of the filling passes alternately over and under successive yarns of the warp and each yarn of the warp passes alternately over and under successive yarns of the filling.</p> <p>(u) <u>Napped</u>: Fabrics with a fuzzy, fibrous surface produced by scratching or pricking the surface so that some of the fibers are raised from the body of the yarn. Napped fabrics are not to be confused with pile fabrics. Outing and canton flannel, moleskin, etc., are typical fabrics with a nap.</p> |                   |               |         |   |
