SECTION XV

BASE METALS AND ARTICLES OF BASE METAL

XV-1

Notes

- 1. This section does not cover:
 - (a) Prepared paints, inks or other products with a basis of metallic flakes or powder (headings 3207 to 3210, 3212, 3213 or 3215):
 - (b) Ferrocerium or other pyrophoric alloys (heading 3606);
 - (c) Headgear or parts thereof of heading 6506 or 6507;
 - (d) Umbrella frames or other articles of heading 6603;
 - (e) Goods of chapter 71 (for example, precious metal alloys, base metal clad with precious metal, imitation jewelry);
 - (f) Articles of section XVI (machinery, mechanical appliances and electrical goods);
 - (g) Assembled railway or tramway track (heading 8608) or other articles of section XVII (vehicles, ships and boats, aircraft);
 - (h) Instruments or apparatus of section XVIII, including clock or watch springs;
 - (ij) Lead shot prepared for ammunition (heading 9306) or other articles of section XIX (arms and ammunition);
 - (k) Articles of chapter 94 (for example, furniture, mattress supports, lamps and lighting fittings, illuminated signs, prefabricated buildings);
 - (1) Articles of chapter 95 (for example, toys, games, sports equipment);
 - (m) Hand sieves, buttons, pens, pencil-holders, pen nibs or other articles of chapter 96 (miscellaneous manufactured articles): or
 - (n) Articles of chapter 97 (for example, works of art).
- 2. Throughout the tariff schedule, the expression "parts of general use" means:
 - (a) Articles of heading 7307, 7312, 7315, 7317 or 7318 and similar articles of other base metals;
 - (b) Springs and leaves for springs, of base metal, other than clock or watch springs (heading 9114); and
 - (c) Articles of heading 8301, 8302, 8308 or 8310 and frames and mirrors, of base metal, of heading 8306.

In chapters 73 to 76 and 78 to 82 (but not in heading 7315) references to parts of goods do not include references to parts of general use as defined above.

Subject to the preceding paragraph and to note 1 to chapter 83, the articles of chapter 82 or 83 are excluded from chapters 72 to 76 and 78 to 81.

- 3. Classification of alloys (other than ferroalloys and master alloys as defined in chapters 72 and 74):
 - (a) An alloy of base metals is to be classified as an alloy of the metal which predominates by weight over each of the other metals.
 - (b) An alloy composed of base metals of this section and of elements not falling within this section is to be treated as an alloy of base metals of this section if the total weight of such metals equals or exceeds the total weight of the other elements present.
 - (c) In this section the term "alloys" includes sintered mixtures of metal powders, heterogeneous intimate mixtures obtained by melting (other than cermets) and intermetallic compounds.
- 4. Unless the context otherwise requires, any reference in the tariff schedule to a base metal includes a reference to alloys which, by virtue of note 3 above, are to be classified as alloys of that metal.

Annotated for Statistical Reporting Purposes

XV-2

5. Classification of composite articles:

Except where the headings otherwise require, articles of base metal (including articles of mixed materials treated as articles of base metal under the General Rules of Interpretation) containing two or more base metals are to be treated as articles of the base metal predominating by weight over each of the other metals. For this purpose:

- (a) Iron and steel, or different kinds of iron or steel, are regarded as one and the same metal;
- (b) An alloy is regarded as being entirely composed of that metal as an alloy of which, by virtue of note 3, it is classified; and
- (c) A cermet of heading 8113 is regarded as a single base metal.
- 6. In this section, the following expressions have the meanings hereby assigned to them:
 - (a) Waste and scrap

Metal waste and scrap from the manufacture or mechanical working of metals, and metal goods definitely not usable as such because of breakage, cutting-up, wear or other reasons.

(b) Powders

Products of which 90 percent or more by weight passes through a sieve having a mesh aperture of 1 mm.

Additional U.S. Notes

- For the purposes of the tariff schedule, the term "base metals" embraces aluminum, antimony, beryllium, bismuth, cadmium, chromium, cobalt, copper, gallium, germanium, hafnium, indium, iron and steel, lead, magnesium, manganese, molybdenum, nickel, niobium (columbium), rhenium, tantalum, thallium, tin, titanium, tungsten, vanadium, zinc and zirconium.
- 2. For the purposes of this section, the term "unwrought" refers to metal, whether or not refined, in the form of ingots, blocks, lumps, billets, cakes, slabs, pigs, cathodes, anodes, briquettes, cubes, sticks, grains, sponge, pellets, flattened pellets, rounds, rondelles, shot and similar manufactured primary forms, but does not cover rolled, forged, drawn or extruded products, tubular products or cast or sintered forms which have been machined or processed otherwise than by simple trimming, scalping or descaling.

Annotated for Statistical Reporting Purposes

CHAPTER 72

IRON AND STEEL

XV 72-1

Notes

1. In this chapter and, in the case of notes (d), (e) and (f) below throughout the tariff schedule, the following expressions have the meanings hereby assigned to them:

(a) Pig iron

Iron-carbon alloys not usefully malleable, containing more than 2 percent by weight of carbon and which may contain by weight one or more other elements within the following limits:

- not more than 10 percent of chromium
- not more than 6 percent of manganese
- not more than 3 percent of phosphorus
- not more than 8 percent of silicon
- a total of not more than 10 percent of other elements.

(b) Spiegeleisen

Iron-carbon alloys containing by weight more than 6 percent but not more than 30 percent of manganese and otherwise conforming to the specification at (a) above.

(c) Ferroalloys

Alloys in pigs, blocks, lumps or similar primary forms, in forms obtained by continuous casting and also in granular or powder forms, whether or not agglomerated, commonly used as an additive in the manufacture of other alloys or as deoxidants, desulfurizing agents or for similar uses in ferrous metallurgy and generally not usefully malleable, containing by weight 4 percent or more of the element iron and one or more of the following:

- more than 10 percent of chromium
- more than 30 percent of manganese
- more than 3 percent of phosphorus
- more than 8 percent of silicon
- a total of more than 10 percent of other elements, excluding carbon, subject to a maximum content of 10 percent in the case of copper.

(d) Steel

Ferrous materials other than those of heading 7203 which (with the exception of certain types produced in the form of castings) are usefully malleable and which contain by weight 2 percent or less of carbon. However, chromium steels may contain higher proportions of carbon.

(e) Stainless steel

Alloy steels containing, by weight 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements.

Annotated for Statistical Reporting Purposes

XV 72-2

(f) Other alloy steel

Steels not complying with the definition of stainless steel and containing by weight one or more of the following elements in the proportion shown:

- 0.3 percent or more of aluminum
- 0.0008 percent or more of boron
- 0.3 percent or more of chromium
- 0.3 percent or more of cobalt
- 0.4 percent or more of copper
- 0.4 percent or more of lead
- 1.65 percent or more of manganese
- 0.08 percent or more of molybdenum
- 0.3 percent or more of nickel
- 0.06 percent or more of niobium
- 0.6 percent or more of silicon.
- 0.05 percent or more of titanium
- 0.3 percent or more of tungsten (wolfram)
- 0.1 percent or more of vanadium
- 0.05 percent or more of zirconium
- 0.1 percent or more of other elements (except sulfur, phosphorus, carbon and nitrogen), taken separately.

(g) Remelting scrap ingots of iron or steel

Products roughly cast in the form of ingots without feeder-heads or hot tops, or of pigs, having obvious surface faults and not complying with the chemical composition of pig iron, spiegeleisen or ferroalloys.

(h) Granules

Products of which less than 90 percent by weight passes through a sieve with a mesh aperture of 1 mm and of which 90 percent or more by weight passes through a sieve with a mesh aperture of 5 mm.

(ij) Semifinished products

Continuous cast products of solid section, whether or not subjected to primary hot-rolling; and

Other products of solid section, which have not been further worked than subjected to primary hot-rolling or roughly shaped by forging, including blanks for angles, shapes or sections.

These products are not presented in coils.

(k) Flat-rolled products

Rolled products of solid rectangular (other than square) cross section, which do not conform to the definition at (ij) above in the form of:

- coils of successively superimposed layers, or
- straight lengths, which if of a thickness less than 4.75 mm are of a width measuring at least 10 times the thickness or if of a thickness of 4.75 mm or more are of a width which exceeds 150 mm and measures at least twice the thickness.

Flat-rolled products include those with patterns in relief derived directly from rolling (for example, grooves, ribs, checkers, tears, buttons, lozenges) and those which have been perforated, corrugated or polished, provided that they do not thereby assume the character of articles or products of other headings.

Flat-rolled products of a shape other than rectangular or square, of any size, are to be classified as products of a width of 600 mm or more, provided that they do not assume the character of articles or products of other headings.

Annotated for Statistical Reporting Purposes

XV 72-3

(1) Bars and rods, hot-rolled, in irregularly wound coils

Hot-rolled products in irregularly wound coils, which have a solid cross section in the shape of circles, segments of circles, ovals, rectangles (including squares), triangles or other convex polygons. These products may have indentations, ribs, grooves or other deformations produced during the rolling process (reinforcing bars and rods).

(m) Other bars and rods

Products which do not conform to any of the definitions at (ij), (k) or (l) above or to the definition of wire, which have a uniform solid cross section along their whole length in the shape of circles, segments of circles, ovals, rectangles (including squares), triangles or other convex polygons. These products may:

- have indentations, ribs, grooves or other deformations produced during the rolling process (reinforcing bars and rods):
- be twisted after rolling.

(n) Angles, shapes and sections

Products having a uniform solid cross section along their whole length which do not conform to any of the definitions at (ij), (k), (l) or (m) above or to the definition of wire.

Chapter 72 does not include products of heading 7301 or 7302.

(o) Wire

Cold-formed products in coils, of any uniform solid cross section along their whole length, which do not conform to the definition of flat-rolled products.

(p) Hollow drill bars and rods

Hollow bars and rods of any cross section, suitable for drills, of which the greatest external dimension of the cross section exceeds 15 mm but does not exceed 52 mm, and of which the greatest internal dimension does not exceed one half of the greatest external dimension. Hollow bars and rods of iron or steel not conforming to this definition are to be classified in heading 7304.

- Ferrous metals clad with another ferrous metal are to be classified as products of the ferrous metal predominating by weight.
- Iron or steel products obtained by electrolytic deposition, by pressure casting or by sintering are to be classified
 according to their form, their composition and their appearance, in the headings of this chapter appropriate to similar
 hot-rolled products.

Subheading Notes

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Alloy pig iron

Pig iron containing, by weight, one or more of the following elements in the specified proportions:

- more than 0.2 percent of chromium
- more than 0.3 percent of copper
- more than 0.3 percent of nickel
- ~ more than 0.1 percent of any of the following elements: aluminum, molybdenum, titanium, tungsten (wolfram), vanadium.

(b) Nonalloy free-cutting steel

Nonalloy steel containing by weight one or more of the following elements in the specified proportions:

- 0.08 percent or more of sulfur
- 0.1 percent or more of lead
- more than 0.05 percent of selenium
- more than 0.01 percent of tellurium
- more than 0.05 percent of bismuth.

Annotated for Statistical Reporting Purposes

XV 72-4

(c) Silicon electrical steel

Alloy steels containing by weight at least 0.6 percent but not more than 6 percent of silicon and not more than 0.08 percent of carbon. They may also contain by weight not more than 1 percent of aluminum but no other element in a proportion that would give the steel the characteristics of another alloy steel.

(d) High-speed steel

Alloy steels containing, with or without other elements, at least two of the three elements molybdenum, tungsten and vanadium with a combined content by weight of 7 percent or more, 0.6 percent or more of carbon and 3 to 6 percent of chromium.

(e) Silico-manganese steel

Alloy steels containing by weight:

- 0.35 percent or more but not more than 0.7 percent of carbon
- 0.5 percent or more but not more than 1.2 percent of manganese, and
- 0.6 percent or more but not more than 2.3 percent of silicon, but not containing any other element in a proportion that would give the steel the characteristics of another alloy steel.
- 2. For the classification of ferroalloys in the subheadings of heading 7202 the following rule should be observed:

A ferroalloy is considered as binary and classified under the relevant subheading (if it exists) if only one of the alloy elements exceeds the minimum percentage laid down in chapter note 1(c); by analogy, it is considered respectively as ternary or quaternary if two or three alloy elements exceed the minimum percentage.

For the application of this rule, the unspecified "other elements" referred to in chapter note 1(c) must each exceed 10 percent by weight.

Additional U.S. Notes

1. For the purposes of the tariff schedule the following expressions have the meanings hereby assigned to them:

(a) High-strength steel

Flat-rolled products of a thickness of less than 3 mm and having a minimum yield point of 275 MPa or of a thickness of 3 mm or more and having a minimum yield point of 355 MPa.

(b) Universal mill plate

Flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm but not exceeding 1,250 mm and of thickness of not less than 4 mm, not in coils and without patterns in relief.

(c) Concrete reinforcing bars and rods

Hot-rolled bars and rods containing indentations, ribs, grooves or other deformations produced during the rolling process or twisted after rolling.

(d) Razor blade steel

Flat-rolled products of stainless steel not over 0.25 mm in thickness and not over 23 mm in width, and containing by weight not over 14.7 percent of chromium, certified at the time of entry to be used in the manufacture of razor blades.

(e) Tool steel

Alloy steels which contain the following combinations of elements in the quantity by weight respectively indicated:

- (i) more than 1.2 percent carbon and more than 10.5 percent chromium; or
- (ii) not less than 0.3 percent carbon and 1.25 percent or more but less than 10.5 percent chromium; or
- (iii) not less than 0.85 percent carbon and 1 percent to 1.8 percent, inclusive, manganese; or
- (iv) 0.9 percent to 1.2 percent, inclusive, chromium and 0.9 percent to 1.4 percent, inclusive, molybdenum; or
- (v) not less than 0.5 percent carbon and not less than 3.5 percent molybdenum; or
- (vi) not less than 0.5 percent carbon and not less than 5.5 percent tungsten.

Annotated for Statistical Reporting Purposes

XV 72-5

(f) Chipper knife steel

Alloy tool steels which contain, in addition to iron, each of the following elements by weight in the amount specified:

- (i) not less than 0.48 nor more than 0.55 percent of carbon;
- (ii) not less than 0.2 nor more than 0.5 percent of manganese;
- (iii) not less than 0.75 nor more than 1.05 percent of silicon;
- (iv) not less than 7.25 nor more than 8.75 percent of chromium;
- (v) not less than 1.25 nor more than 1.75 percent of molybdenum;
- (vi) none, or not more than 1.75 percent of tungsten; and
- (vii) not less than 0.2 nor more than 0.55 percent of vanadium.

(g) Heat-resisting steel

Alloy steels containing by weight less than 0.3 percent of carbon and 4 percent or more but less than 10.5 percent of chromium.

(h) Ball-bearing steel

Alloy tool steels which contain, in addition to iron, each of the following elements by weight in the amount specified:

- (i) not less than 0.95 nor more than 1.13 percent of carbon;
- (ii) not less than 0.22 nor more than 0.48 percent of manganese;
- (iii) none, or not more than 0.03 percent of sulfur;
- (iv) none, or not more than 0.03 percent of phosphorus;
- (v) not less than 0.18 nor more than 0.37 percent of silicon;
- (vi) not less than 1.25 nor more than 1.65 percent of chromium;
- (vii) none, or not more than 0.28 percent of nickel;
- (viii) none, or not more than 0.38 percent of copper; and
 - (ix) none, or not more than 0.09 percent of molybdenum.
- 2. For the purposes of this chapter, unless the context provides otherwise, the term "<u>further worked</u>" refers to products subjected to any of the following surface treatments: polishing and burnishing; artificial oxidation; chemical surface treatments such as phosphatizing, oxalating and borating; coating with metal; coating with nonmetallic substances (e.g., enameling, varnishing, lacquering, painting, coating with plastics materials); or cladding.
- 3. No allowance or reduction of duties for partial damage or loss in consequence of discoloration or rust occurring before entry shall be made upon iron or steel or upon any article of iron or steel.

Annotated for Statistical Reporting Purposes

XV 72-6

Statistical Notes

- 1. For the purposes of subheading 7204.10, waste and scrap of cast iron includes but is not necessarily limited to: cupola cast (ISIS number 252); charging box cast (ISIS number 253); heavy breakable cast (ISIS number 254); harmer blocks or bases (ISIS number 255); burnt iron (ISIS number 256); mixed cast (ISIS number 257); stove plate, clean cast iron stove (ISIS number 258); clean auto cast (ISIS numbers 259, 262 and 263); motor blocks (ISIS number 260); drop broken machinery cast (ISIS number 261); malleable (ISIS number 264); ingot molds and stools (ISIS numbers 265 and 266); and railroad ferrous scrap consisting of cast iron No. 1, No. 2, No. 3 and No. 4, cast iron brake shoes and No. 1 wheels.
- 2. For the purposes of subheading 7204.41 or 7204.49 the expression:
 - (a) No. 1 heavy melting includes, but is not necessarily limited to:
 - No. 1 heavy melting steel (ISIS numbers 200, 201 and 202); bundled No. 1 steel (ISIS number 217); cast steel (ISIS number 233); springs and crankshafts (ISIS number 244); ship scrap; and railroad ferrous scrap consisting of cast steel No. 1 and No. 2, railroad No.1 melting steel, spring steel, destroyed steel cars, destroyed steel car sides and box car roofs (note: other types of railroad ferrous scrap are included in some of the grades listed below);
 - (b) No. 2 heavy melting includes, but is not necessarily limited to:
 - No. 2 heavy melting steel (ISIS numbers 203, 204, 205 and 206); bundled No. 2 steel (ISIS number 218); foundary steel (ISIS numbers 242 and 243); and hard steel cut 76 cm and under (ISIS number 248);
 - (c) No. 1 bundles includes, but is not necessarily limited to:
 - No. 1 busheling (ISIS number 207); new black sheet clippings (ISIS number 207A); No. 1 bundles (ISIS number 208); electric furnace bundles (ISIS number 235); silicon-bearing steel busheling, clippings, and bundles (ISIS numbers 239, 240 and 250); No. 1 railroad ferrous sheet scrap; and car clips;
 - (d) No. 2 bundles includes, but is not necessarily limited to:
 - No. 2 bundles (ISIS number 209); No. 3 bundles (ISIS number 214); incinerator bundles (ISIS number 215); terme plate bundles (ISIS number 216); and auto slabs (ISIS numbers 224 and 225);
 - (e) Borings, shovelings and turnings includes, but it not necessarily limited to:
 - Machine shop turnings, shoveling turnings and iron borings (ISIS numbers 219, 220, 221, 222 and 223); briquetted iron borings (ISIS number 226); briquetted steel turnings (ISIS number 227); alloy free turnings (ISIS numbers 245, 246 and 247); heavy turnings (ISIS number 251); chemical borings, No. 1 and No. 2 (ISIS numbers 267 and 271); malleable borings (ISIS number 270); steel shavings; and railroad ferrous scrap consisting of No. 1 turnings and No. 2 turnings, drillings and/or borings;
 - (f) Shredded scrap includes, but is not necessarily limited to:
 - Shredded clippings (ISIS number 212); and shredded automobile scrap (ISIS numbers 210 and 211);
 - (g) Cut plate and structural includes but is not necessarily limited to:
 - Billet, bloom and forge crops (ISIS number 229); bar crops, punchings and plate scrap (ISIS numbers 230 and 234); plate and structural (ISIS numbers 231, 232, 236, 237 and 238); chargeable ingots and ingot butts (ISIS number 241); and chargeable slab crops (ISIS number 249).

CHAPTER 73

ARTICLES OF IRON OR STEEL

XV 73-1

Notes

- 1. In this chapter the expression "cast iron" applies to products obtained by casting in which iron predominates by weight over each of the other elements and which do not comply with the chemical composition of steel as defined in Note 1(d) to chapter 72.
- In this chapter the word "wire" means hot- or cold-formed products of any cross-sectional shape, of which no
 cross-sectional dimension exceeds 16 mm.

Additional U.S. Notes

- For the purposes of heading 7304 or 7306, the rate of duty "Free (C)" appearing in the "Special" subcolumn applies only to tubes and pipes with attached fittings, suitable for conducting gases or liquids.
- For the purposes of subheading 7303.19.30, the expression "ductile fittings" refers to fittings which contain over 2.5
 percent carbon and over 0.02 percent of magnesium or of magnesium and cerium, by weight.

CHAPTER 74

COPPER AND ARTICLES THEREOF

XV 74-1

Note

In this chapter the following expressions have the meanings hereby assigned to them:

(a) Refined copper

Metal containing at least 99.85 percent by weight of copper; or

Metal containing at least 97.5 percent by weight of copper, provided that the content by weight of any other element does not exceed the limit specified in the following table:

TABLE - Other elements

| Elemen | t | Limiting content percent by weight |
|--------|-----------------|------------------------------------|
| Ag | Silver | 0.25 |
| As | Arsenic | 0.5 |
| Cd | Cadmium | 1.3 |
| Cr | Chromium | 1.4 |
| Mg | Magnesium | 0.8 |
| Pb | Lead | 1.5 |
| S | Sulfur | 0.7 |
| Sn | Tin | 0.8 |
| Te | Tellurium | 0.8 |
| Zn | Zinc | 1 |
| Zr | Zirconium | 0.3 |
| | elements*, each | 0.3 |

^{*} Other elements are, for example, Al, Be, Co, Fe, Mn, Ni, Si.

(b) Copper alloys

Metallic substances other than unrefined copper in which copper predominates by weight over each of the other elements, provided that:

- (i) The content by weight of at least one of the other elements is greater than the limit specified in the foregoing table: or
- (ii) The total content by weight of such other elements exceeds 2.5 percent.

(c) Master alloys

Alloys containing with other elements more than 10 percent by weight of copper, not usefully malleable and commonly used as an additive in the manufacture of other alloys or as deoxidants, desulfurizing agents or for similar uses in the metallurgy of nonferrous metals. However, copper phosphide (phosphor copper) containing more than 15 percent by weight of phosphorus falls in heading 2848.

(d) Bars and rods

Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width. The expression also covers cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

Wire bars and billets with their ends tapered or otherwise worked simply to facilitate their entry into machines for converting them into, for example, drawing stock (wire rod) or tubes, are, however, to be taken to be unwrought copper of heading 7403.

Annotated for Statistical Reporting Purposes

XV 74-2

(e) Profiles

Rolled, extruded, drawn, forged or formed products, coiled or not, of a uniform cross section along their whole length, which do not conform to any of the definitions of bars, rods, wire, plates, sheets, strip, foil, tubes or pipes. The expression also covers cast or sintered products, of the same forms, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(f) Wire

Rolled, extruded or drawn products, in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width.

In the case of heading 7414, however, the term "wire" applies only to products, whether or not in coils, of any cross-sectional shape, of which no cross-sectional dimension exceeds 6 mm.

(g) Plates, sheets, strip and foil

Flat-surfaced products (other than the unwrought products of heading 7403), coiled or not, of solid rectangular (other than square) cross section with or without rounded corners (including "modified rectangles" of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel) of a uniform thickness, which are:

- of rectangular (including square) shape with a thickness not exceeding one-tenth of the width,
- of a shape other than rectangular or square, of any size, provided that they do not assume the character of articles or products of other headings.

Headings 7409 and 7410 apply, <u>inter alia</u>, to plates, sheets, strip and foil with patterns (for example, grooves, ribs, checkers, tears, buttons, lozenges) and to such products which have been perforated, corrugated, polished or coated, provided that they do not thereby assume the character of articles or products of other headings.

(h) Tubes and pipes

Hollow products, coiled or not, which have a uniform cross section with only one enclosed void along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons, and which have a uniform wall thickness. Products with a rectangular (including square), equilateral triangular or regular convex polygonal cross section, which may have corners rounded along their whole length, are also to be taken to be tubes and pipes provided the inner and outer cross sections are concentric and have the same form and orientation. Tubes and pipes of the foregoing cross sections may be polished, coated, bent, threaded, drilled, waisted, expanded, cone-shaped or fitted with flanges, collars or rings.

Subheading Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Copper-zinc base alloys (brasses)

Alloys of copper and zinc, with or without other elements. When other elements are present:

- zinc predominates by weight over each of such other elements;
- any nickel content by weight is less than 5 percent (see copper-nickel-zinc alloys (nickel silvers)); and
- any tin content by weight is less than 3 percent (see copper-tin alloys (bronzes)).

(b) Copper-tin base alloys (bronzes)

Alloys of copper and tin, with or without other elements. When other elements are present, tin predominates by weight over each of such other elements, except that when the tin content is 3 percent or more the zinc content by weight may exceed that of tin but must be less than 10 percent.

(c) Copper-nickel-zinc base alloys (nickel silvers)

Alloys of copper, nickel and zinc, with or without other elements. The nickel content is 5 percent or more by weight (see copper-zinc alloys (brasses)).

(d) Copper-nickel base alloys

Alloys of copper and nickel, with or without other elements but in any case containing by weight not more than 1 percent of zinc. When other elements are present, nickel predominates by weight over each of such other elements.

Annotated for Statistical Reporting Purposes

XV 74-3

Additional U.S. Note

 The deduction provided for in additional U.S. note 1 to chapter 26 shall apply to cement copper and copper precipitates of subheading 7401.20.

Statistical Note

 For the purposes of this chapter, the term "beryllium copper master alloy" refers to master alloys which contain by weight at least 3 percent but not more than 10 percent beryllium.

CHAPTER 75

NICKEL AND ARTICLES THEREOF

XV 75−1

Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Bars and rods

Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width. The expression also covers cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(b) Profiles

Rolled, extruded, drawn, forged or formed products, coiled or not, of a uniform cross section along their whole length, which do not conform to any of the definitions of bars, rods, wire, plates, sheets, strip, foil, tubes or pipes. The expression also covers cast or sintered products, of the same forms, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(c) Wire

Rolled, extruded or drawn products, in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width.

(d) Plates, sheets, strip and foil

Flat-surfaced products (other than the unwrought products of heading 7502), coiled or not, of solid rectangular (other than square) cross section with or without rounded corners (including "modified rectangles" of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel) of a uniform thickness. which are:

- of rectangular (including square) shape with a thickness not exceeding one-tenth of the width,
- of a shape other than rectangular or square, of any size, provided that they do not assume the character of articles or of products of other headings.

Heading 7506 applies, inter alia, to plates, sheets, strip and foil with patterns (for example, grooves, ribs, checkers, tears, buttons, lozenges) and to such products which have been perforated, corrugated, polished or coated, provided that they do not thereby assume the character of articles or of products of other headings.

(e) Tubes and pipes

Hollow products, coiled or not, which have a uniform cross section with only one enclosed void along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons, and which have a uniform wall thickness. Products with a rectangular (including square), equilateral triangular or regular convex polygonal cross section, which may have corners rounded along their whole length, are also to be taken to be tubes and pipes provided the inner and outer cross sections are concentric and have the same form and orientation. Tubes and pipes of the foregoing cross sections may be polished, coated, bent, threaded, drilled, waisted, expanded, cone-shaped or fitted with flanges, collars or rings.

XV 75-2

Subheading Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Nickel, not alloyed

Metal containing by weight at least 99 percent of nickel plus cobalt, provided that:

- (i) The cobalt content by weight does not exceed 1.5 percent, and
- (ii) The content by weight of any other element does not exceed the limit specified in the following table:

TABLE - Other elements

| Element | Limiting content percent by weight |
|----------------------|------------------------------------|
| Fe Iron | 0.5 |
| O Oxygen | 0.4 |
| Other elements, each | 0.3 |

(b) Nickel alloys

Metallic substances in which nickel predominates by weight over each of the other elements provided that:

- (i) The content by weight of cobalt exceeds 1.5 percent,
- (ii) The content by weight of at least one of the other elements is greater than the limit specified in the foregoing table, or
- (iii) The total content by weight of elements other than nickel plus cobalt exceeds 1 percent.

CHAPTER 76

ALUMINUM AND ARTICLES THEREOF

XV 76-1

Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Bars and rods

Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width. The expression also covers cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(b) Profiles

Rolled, extruded, drawn, forged or formed products, coiled or not, of a uniform cross section along their whole length, which do not conform to any of the definitions of bars, rods, wire, plates, sheets, strip, foil, tubes or pipes. The expression also covers cast or sintered products, of the same forms, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(c) Wire

Rolled, extruded or drawn products, in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width.

(d) Plates, sheets, strip and foil

Flat-surfaced products (other than the unwrought products of heading 7601), coiled or not, of solid rectangular (other than square) cross section with or without rounded corners (including "modified rectangles" of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel) of a uniformthickness, which are:

- of rectangular (including square) shape with a thickness not exceeding one-tenth of the width,
- of a shape other than rectangular or square, of any size, provided that they do not assume the character of articles or products of other headings.

Headings 7606 and 7607 apply, inter alia, to plates, sheets, strip and foil with patterns (for example, grooves, ribs, checkers, tears, buttons, lozenges) and to such products which have been perforated, corrugated, polished or coated, provided that they do not thereby assume the character of articles or products of other headings.

(e) Tubes and pipes

Hollow products, coiled or not, which have a uniform cross section with only one enclosed void along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons, and which have a uniform wall thickness. Products with a rectangular (including square), equilateral triangular or regular convex polygonal cross section, which may have corners rounded along their whole length, are also to be considered as tubes and pipes provided the inner and outer cross sections are concentric and have the same form and orientation. Tubes and pipes of the foregoing cross sections may be polished, coated, bent, threaded, drilled, waisted, expanded, cone-shaped or fitted with flanges, collars or rings.

Annotated for Statistical Reporting Purposes

XV 76-2

Subheading Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Aluminum, not alloyed

Metal containing by weight at least 99 percent of aluminum, provided that the content by weight of any other element does not exceed the limit specified in the following table:

TABLE - Other elements

| Element | Limiting content percent by weight |
|-----------------------------|------------------------------------|
| Fe + Si (iron plus silicon) | 1 |
| Other elements 113, each | 0.1(2) |

- (1) Other elements are, for example, Cr, Cu, Mg, Mn, Ni, Zn.
- (2) Copper is permitted in a proportion greater than 0.1 percent but not more than 0.2 percent, provided that neither the chromium nor manganese content exceeds 0.05 percent.

(b) Aluminum alloys

Metallic substances in which aluminum predominates by weight over each of the other elements, provided that:

- (i) The content by weight of at least one of the other elements or of iron plus silicon taken together is greater than the limit specified in the foregoing table; or
- (ii) The total content by weight of such other elements exceeds 1 percent.

Additional U.S. Note

1. For the purposes of heading 7608, the rate of duty "Free (C)" appearing in the "Special" subcolumn applies only to tubes and pipes with attached fittings, suitable for conducting gases or liquids.

Statistical Notes

- For the purposes of this chapter, the term "<u>aluminum vanadium master alloy</u>" refers to aluminum alloys which contain by weight 20 percent or more of vanadium.
- 2. For the purposes of this chapter, the term "aluminum can stock" refers to sheets and strip in coils, of alloys of aluminum in which either manganese or magnesium is the predominant alloying element, not painted, over 0.175 mm but not over 0.432 mm in thickness, and over 254 mm in width, comprising "body stock and "lid stock" as specified below:
 - (a) The term "body stock" refers to aluminum can stock having manganese as the predominant alloying element and having a minimum tensile strength of 262 MPa; and
 - (b) The term "lid stock" refers to aluminum can stock having magnesium as the predominant alloying element and having a minimum tensile strength of 345 MPa.

CHAPTER 78

LEAD AND ARTICLES THEREOF

XV 78-1

Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Bar and rods

Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width. The expression also covers cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(b) Profiles

Rolled, extruded, drawn, forged or formed products, coiled or not, of a uniform cross section along their whole length, which do not conform to any of the definitions of bars, rods, wire, plates, sheets, strip, foil, tubes or pipes. The expression also covers cast or sintered products, of the same forms, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(c) Wire

Rolled, extruded or drawn products, in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width.

(d) Plates, sheets, strip and foil

Flat-surfaced products (other than the unwrought products of heading 7801), coiled or not, of solid rectangular (other than square) cross section with or without rounded corners (including "modified rectangles" of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel) of a uniform thickness, which are:

- of rectangular (including square) shape with a thickness not exceeding one-tenth of the width,
- of a shape other than rectangular or square, of any size, provided that they do not assume the character of articles or products of other headings.

Heading 7804 applies, inter alia, to plates, sheets, strip and foil with patterns (for example, grooves, ribs, checkers, tears, buttons, lozenges) and to such products which have been perforated, corrugated, polished or coated, provided that they do not thereby assume the character of articles or products of other headings.

(e) Tubes and pipes

Hollow products, coiled or not, which have a uniform cross section with only one enclosed void along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons, and which have a uniform wall thickness. Products with a rectangular (including square), equilateral triangular or regular convex polygonal cross section, which may have corners rounded along their whole length, are also to be considered as tubes and pipes provided the inner and outer cross sections are concentric and have the same form and orientation. Tubes and pipes of the foregoing cross sections may be polished, coated, bent, threaded, drilled, waisted, expanded, cone-shaped or fitted with flanges, collars or rings.

Annotated for Statistical Reporting Purposes

XV 78-2

Subheading Note

1. In this chapter the expression "refined lead" means:

Metal containing by weight at least 99.9 percent of lead, provided that the content by weight of any other element does not exceed the limit specified in the following table:

TABLE - Other elements

| Element | Limiting content percent by weight | | | |
|------------------------------|------------------------------------|--|--|--|
| Ag Silver | 0.02 | | | |
| As Arsenic | 0.005 | | | |
| Bi Bismuth | 0.05 | | | |
| Ca Calcium | 0.002 | | | |
| Cd Cadmium | 0.002 | | | |
| Cu Copper | 0.08 | | | |
| Fe Iron | 0.002 | | | |
| S Sulfur | 0.002 | | | |
| Sb Antimony | 0.005 | | | |
| Sn Tin | 0.005 | | | |
| Zn Zinc | 0.002 | | | |
| Other (for example Te), each | 0.001 | | | |

Statistical Note

For the purposes of this chapter, "alloys of lead" are metals in which the lead content is, by weight, less than 99
percent, but not less than any other metallic element.

CHAPTER 79

ZINC AND ARTICLES THEREOF

XV 79-1

Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Bar and rods

Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width. The expression also covers cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(b) Profiles

Rolled, extruded, drawn, forged or formed products, coiled or not, of a uniform cross section along their whole length, which do not conform to any of the definitions of bars, rods, wire, plates, sheets, strip, foil, tubes or pipes. The expression also covers cast or sintered products, of the same forms, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(c) Wire

Rolled, extruded or drawn products, in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width.

(d) Plates, sheets, strip and foil

Flat-surfaced products (other than the unwrought products of heading 7901), coiled or not, of solid rectangular (other than square) cross section with or without rounded corners (including "modified rectangles" of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel) of a uniform thickness, which are:

- of rectangular (including square) shape with a thickness not exceeding one-tenth of the width,
- of a shape other than rectangular or square, of any size, provided that they do not assume the character of articles or products of other headings.

Heading 7905 applies, inter alia, to plates, sheets, strip and foil with patterns (for example, grooves, ribs, checkers, tears, buttons, lozenges) and to such products which have been perforated, corrugated, polished or coated, provided that they do not thereby assume the character of articles or products of other headings.

(e) Tubes and pipes

Hollow products, coiled or not, which have a uniform cross section with only one enclosed void along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons, and which have a uniform wall thickness. Products with a rectangular (including square), equilateral triangular or regular convex polygonal cross section, which may have corners rounded along their whole length, are also to be considered as tubes and pipes provided the inner and outer cross sections are concentric and have the same form and orientation. Tubes and pipes of the foregoing cross sections may be polished, coated, bent, threaded, drilled, waisted, expanded, cone-shaped or fitted with flanges, collars or rings.

Annotated for Statistical Reporting Purposes

XV 79-2

Subheading Note

- 1. In this chapter the following expressions have the meanings hereby assigned to them:
 - (a) Zinc, not alloyed

Metal containing by weight at least 97.5 percent of zinc.

(b) Zinc alloys

Metallic substances in which zinc predominates by weight over each of the other elements, provided that the total content by weight of such other elements exceeds 2.5 percent.

(c) Zinc dust

Dust obtained by condensation of zinc vapor, consisting of spherical particles which are finer than zinc powders. At least 80 percent by weight of the particles pass through a sieve with 63 micrometers (microns) mesh. It must contain at least 85 percent by weight of metallic zinc.

Additional U.S. Note

- For the purposes of heading 7901, "casting-grade zinc" contains by weight at least 97.5 percent of zinc and contains by weight one or more of the following elements in the quantity indicated:
 - (a) more than 1.8 percent of lead,
 - (b) more than 1.8 percent of cadmium,
 - (c) more than 1.8 percent of iron,
 - (d) more than 0.5 percent of aluminum,
 - (e) more than 1 percent of copper,
 - (f) more than 0.08 percent of titanium,
 - (g) more than 0.1 percent of any other base metal, taken separately.

CHAPTER 80

TIN AND ARTICLES THEREOF

XV 80-1

Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Bars and rods

Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width. The expression also covers cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(b) Profiles

Rolled, extruded, drawn, forged or formed products, coiled or not, of a uniform cross section along their whole length, which do not conform to any of the definitions of bars, rods, wire, plates, sheets, strip, foil, tubes or pipes. The expression also covers cast or sintered products, of the same forms, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(c) Wire

Rolled, extruded or drawn products, in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width.

(d) Plates, sheets, strip and foil

Flat-surfaced products (other than the unwrought products of heading 8001), coiled or not, of solid rectangular (other than square) cross section with or without rounded corners (including "modified rectangles" of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel) of a uniform thickness, which are:

- of rectangular (including square) shape with a thickness not exceeding one-tenth of the width,
- of a shape other than rectangular or square, of any size, provided that they do not assume the character
 of articles or products of other headings.

Headings 8004 and 8005 apply, inter alia, to plates, sheets, strip and foil with patterns (for example, grooves, ribs, checkers, tears, buttons, lozenges) and to such products which have been perforated, corrugated, polished or coated, provided that they do not thereby assume the character of articles or products of other headings.

(e) Tubes and pipes

Hollow products, coiled or not, which have a uniform cross section with only one enclosed void along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons, and which have a uniform wall thickness. Products with a rectangular (including square), equilateral triangular or regular convex polygonal cross section, which may have corners rounded along their whole length, are also to be considered as tubes and pipes provided the inner and outer cross sections are concentric and have the same form and orientation. Tubes and pipes of the foregoing cross sections may be polished, coated, bent, threaded, drilled, waisted, expanded, cone-shaped or fitted with flanges, collars or rings.

XV 80-2

Subheading Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a) Tin, not alloyed

Metal containing by weight at least 99 percent of tin, provided that the content by weight of any bismuth or copper is less than the limit specified in the following table:

TABLE - Other elements

| Element | Limiting content percent by weight |
|------------|------------------------------------|
| Bi Bismuth | 0.1 |
| Cu Copper | 0.4 |

(b) Tin alloys

Metallic substances in which tin predominates by weight over each of the other elements, provided that:

- (i) The total content by weight of such other elements exceeds 1 percent; or
- (ii) The content by weight of either bismuth or copper is equal to or greater than the limit specified in the foregoing table.

CHAPTER 81

OTHER BASE METALS; CERMETS; ARTICLES THEREOF

XV 81-1

Subheading Note

Note 1 to chapter 74, defining "bars and rods", "profiles", "wire", and "plates, sheets, strip and foil" applies, mutatis
mutandis, to this chapter.

Additional U.S. Notes

- Alloys of each of the base metals provided for in chapter 81 are metals in which the content of the respective base metal is, by weight, less than 99 percent, but not less than any other metallic element.
- For the purposes of subheading 8108.90.60, the rate of duty "Free (C)" appearing in the "Special" subcolumn applies only to tubes and pipes with attached fittings, suitable for conducting gases or liquids.

CHAPTER 82

TOOLS, IMPLEMENTS, CUTLERY, SPOONS AND FORKS, OF BASE METAL; PARTS THEREOF OF BASE METAL

XV 82-1

Notes

- Apart from blow torches and similar self-contained torches, portable forges, grinding wheels with frameworks, manicure or pedicure sets, and goods of heading 8209, this chapter covers only articles with a blade, working edge, working surface or other working part of:
 - (a) Base metal;
 - (b) Metal carbides or cermets:
 - (c) Precious or semiprecious stones (natural, synthetic or reconstructed) on a support of base metal, metal carbide or cermet; or
 - (d) Abrasive materials on a support of base metal, provided that the articles have cutting teeth, flutes, grooves or the like, of base metal, which retain their identity and function after the application of the abrasive.
- 2. Parts of base metal of the articles of this chapter are to be classified with the articles of which they are parts, except parts separately specified as such and toolholders for handtools (heading 8466). However, parts of general use as defined in note 2 to section XV are in all cases excluded from this chapter.
 - Heads, blades and cutting plates for electric shavers and electric hair clippers are to be classified in heading 8510.
- Sets consisting of one or more knives of heading 8211 and at least an equal number of articles of heading 8215 are to be classified in heading 8215.

Additional U.S. Notes

- The provisions in this chapter which specifically refer to kitchen or tableware include articles of types which are
 used outdoors as well as those which are used indoors.
- 2. In determining the length of files and rasps (heading 8203), the tang (if any) should not be included.
- 3. For the purposes of determining the rate of duty applicable to sets provided for in heading 8205, 8211 or 8215, a specific rate of duty or a compound rate of duty for any article in the set shall be converted to its ad valorem equivalent rate, i.e., the ad valorem rate which, when applied to the full value of the article determined in accordance with section 402 of the Tariff Act of 1930, as amended, would provide the same amount of duties as the specific or compound rate.

Statistical Notes

- 1. For the purposes of statistical reporting of sets in heading 8205, 8206, 8211 or 8215, the number of pieces reported shall be the total number of separate pieces in the set(s).
- For the purposes of subheading 8211.92, the term "sheath-type knives" refers to fixed-blade knives contained in a substantial holster, i.e., "sheath" and of a kind used in hunting and fishing.

CHAPTER 83

MISCELLANEOUS ARTICLES OF BASE METAL

XV 83-1

<u>Notes</u>

- For the purposes of this chapter, parts of base metal are to be classified with their parent articles. However, articles
 of iron or steel of heading 7312, 7315, 7317, 7318, or 7320, or similar articles of other base metal (chapters 74 to 76
 and 78 to 81) are not to be taken as parts of articles of this chapter.
- For the purposes of heading 8302, the word "<u>castors</u>" means those having a diameter (including, where appropriate, tires) not exceeding 75 mm, or those having a diameter (including, where appropriate, tires) exceeding 75 mm, provided that the width of the wheel or tire fitted thereto is less than 30 mm.

Additional U.S. Note

 The dutiable weight of hooks, eyes and eyelets in subheading 8308.10 includes the weight of cards, cartons and immediate wrappings and labels.

SECTION XVI

MACHINERY AND MECHANICAL APPLIANCES; ELECTRICAL EQUIPMENT; PARTS THEREOF; SOUND RECORDERS AND REPRODUCERS, TELEVISION IMAGE AND SOUND RECORDERS AND REPRODUCERS, AND PARTS AND ACCESSORIES OF SUCH ARTICLES

XVI-1

Notes

- 1. This section does not cover:
 - (a) Transmission, conveyor or elevator belts or belting, of plastics of chapter 39, or of vulcanized rubber (heading 4010); or other articles of a kind used in machinery or mechanical or electrical appliances or for other technical uses, of vulcanized rubber other than hard rubber (heading 4016);
 - (b) Articles of leather or of composition leather (heading 4204) or of furskin (heading 4303), of a kind used in machinery or mechanical appliances or for other technical uses;
 - (c) Bobbins, spools, cops, cones, cores, reels or similar supports, of any material (for example, chapter 39, 40, 44 or 48 or section XV);
 - (d) Perforated cards for Jacquard or similar machines (for example, chapter 39 or 48 or section XV);
 - (e) Transmission or conveyor belts of textile material (heading 5910) or other articles of textile material for technical uses (heading 5911);
 - (f) Precious or semiprecious stones (natural, synthetic or reconstructed) of headings 7102 to 7104, or articles wholly of such stones of heading 7116, except unmounted worked sapphires and diamonds for styli (heading 8522);
 - (g) Parts of general use, as defined in note 2 to section XV, of base metal (section XV), or similar goods of plastics (chapter 39);
 - (h) Drill pipe (heading 7304);
 - (ij) Endless belts of metal wire or strip (section XV);
 - (k) Articles of chapter 82 or 83;
 - (1) Articles of section XVII;
 - (m) Articles of chapter 90;
 - (n) Clocks, watches or other articles of chapter 91;
 - (o) Interchangeable tools of heading 8207 or brushes of a kind used as parts of machines of heading 9503; similar interchangeable tools are to be classified according to the constituent material of their working part (for example, in chapter 40, 42, 43, 45 or 59 or heading 6804 or 6909); or
 - (p) Articles of chapter 95.
- Subject to note 1 to this section, note 1 to chapter 84 and to note 1 to chapter 85, parts of machines (not being parts of the articles of heading 8484, 8544, 8545, 8545 or 8547) are to be classified according to the following rules:
 - (a) Parts which are goods included in any of the headings of chapters 84 and 85 (other than headings 8485 and 8548) are in all cases to be classified in their respective headings;
 - (b) Other parts, if suitable for use solely or principally with a particular kind of machine, or with a number of machines of the same heading (including a machine of heading 8479 or 8543) are to be classified with the machines of that kind. However, parts which are equally suitable for use principally with the goods of headings 8517 and 8525 to 8528 are to be classified in heading 8517;
 - (c) All other parts are to be classified in heading 8485 or 8548.
- 3. Unless the context otherwise requires, composite machines consisting of two or more machines fitted together to form a whole and other machines adapted for the purpose of performing two or more complementary or alternative functions are to be classified as if consisting only of that component or as being that machine which performs the principal function.
- 4. Where a machine (including a combination of machines) consists of individual components (whether separate or interconnected by piping, by transmission devices, by electric cables or by other devices) intended to contribute together to a clearly defined function covered by one of the headings in chapter 84 or chapter 85, then the whole falls to be classified in the heading appropriate to that function.
- 5. For the purposes of these notes, the expression "machine" means any machine, machinery, plant, equipment, apparatus or appliance cited in the headings of chapter 84 or 85.

CHAPTER 84

NUCLEAR REACTORS, BOILERS, MACHINERY AND MECHANICAL APPLIANCES: PARTS THEREOF

XVI 84-1

Notes

- 1. This chapter does not cover:
 - (a) Millstones, grindstones or other articles of chapter 68;
 - (b) Appliances or machinery (for example, pumps) or parts thereof, of ceramic material (chapter 69);
 - (c) Laboratory glassware (heading 7017); machinery, appliances or other articles for technical uses or parts thereof, of glass (heading 7019 or 7020);
 - (d) Articles of heading 7321 or 7322 or similar articles of other base metals (chapters 74 to 76 or 78 to 81);
 - (e) Electromechanical tools for working in the hand, of heading 8508, or electromechanical domestic appliances of heading 8509: or
 - (f) Hand-operated mechanical floor sweepers, not motorized (heading 9603).
- 2. Subject to the operation of note 3 to section XVI, a machine or appliance which answers to a description in one or more of the headings 8401 to 8424 and at the same time to a description in one or more of the headings 8425 to 8480 is to be classified under the appropriate heading of the former group and not the latter.

Heading 8419 does not, however, cover:

- (a) Germination plant, incubators or brooders (heading 8436);
- (b) Grain-dampening machines (heading 8437);
- (c) Diffusing apparatus for sugar juice extraction (heading 8438);
- (d) Machinery for the heat treatment of textile yarns, fabrics or made up textile articles (heading 8451); or
- (e) Machinery or plant, designed for mechanical operation, in which a change of temperature, even if necessary, is subsidiary.

Heading 8422 does not cover:

- (a) Sewing machines for closing bags or similar containers (heading 8452); or
- (b) Office machinery of heading 8472.
- A machine tool for working any material which answers to a description in heading 8456 and at the same time to a description in heading 8457, 8458, 8459, 8460, 8461, 8464 or 8465 is to be classified in heading 8456.
- 4. Heading 8457 applies only to machine tools for working metal (other than lathes) which can carry out different types of machining operations either:
 - (a) By automatic tool change from a magazine or the like in conformity with a machining program (machining centers);
 - (b) By the automatic use, simultaneously or sequentially, of different unit heads working on a fixed-position workpiece (unit construction machines, single station); or
 - (c) By the automatic transfer of the workpiece to different unit heads (multistation transfer machines).

Annotated for Statistical Reporting Purposes

84-2

- 5. (A) For purposes of heading 8471, the expression "automatic data processing machines" means:
 - (a) Digital machines, capable of (1) storing the processing program or programs and at least the data immediately necessary for execution of the program; (2) being freely programmed in accordance with the requirements of the user; (3) performing arithmetical computations specified by the user; and, (4) executing, without human intervention, a processing program which requires them to modify their execution, by logical decision during the processing run;
 - (b) Analog machines capable of simulating mathematical models and comprising at least: analog elements, control elements and programming elements;
 - (c) Hybrid machines consisting of either a digital machine with analog elements or an analog machine with digital elements.
 - (B) Automatic data processing machines may be in the form of systems consisting of a variable number of separately housed units. A unit is to be regarded as being a part of the complete system if it meets all of the following conditions:
 - (a) It is connectable to the central processing unit either directly or through one or more other units; and
 - (b) It is specifically designed as part of such a system (it must, in particular, unless it is a power supply unit, be able to accept or deliver data in a form (code or signals) which can be used by the system).

Such units entered separately are also to be classified in heading 8471.

Heading 8471 does not cover machines incorporating or working in conjunction with an automatic data processing machine and performing a specific function. Such machines are classified in the headings appropriate to their respective functions or, failing that, in residual headings.

- 6. Heading 8482 applies, inter alia, to polished steel balls, the maximum and minimum diameters of which do not differ from the nominal diameter by more than 1 percent or by more than 0.05 mm, whichever is less. Other steel balls are to be classified under heading 7326.
- A machine which is used for more than one purpose is, for the purposes of classification, to be treated as if its
 principal purpose were its sole purpose.

Subject to note 2 to this chapter and note 3 to section XVI, a machine the principal purpose of which is not described in any heading or for which no one purpose is the principal purpose is, unless the context otherwise requires, to be classified in heading 8479. Heading 8479 also covers machines for making rope or cable (for example, stranding, twisting or cabling machines) from metal wire, textile yarn or any other material or from a combination of such materials.

Subheading Note

 Subheading 8482.40 applies only to bearings with cylindrical rollers of a uniform diameter not exceeding 5 mm and having a length which is at least three times the diameter. The ends of the rollers may be rounded.

Additional U.S. Note

1. For the purposes of subheadings 8479.89.10, 8479.89.60, 8479.89.90, 8479.90.40 and 8479.90.80, the rate of duty "Free (C)" appearing in the column entitled "1-Special" applies only to the following articles and their parts: nonelectric starter motors; propeller regulators, nonelectric; servo-mechanisms, nonelectric; windshield wipers, nonelectric; hydrogneumatic accumulators; pneumatic starters for turbojets, turbopropellers, or other gas turbines; toilet units specially designed for aircraft; mechanical actuators for thrust reversers; air humidifiers and dehumidifiers.

CHAPTER 85

ELECTRICAL MACHINERY AND EQUIPMENT AND PARTS THEREOF; SOUND RECORDERS AND REPRODUCERS, TELEVISION IMAGE AND SOUND RECORDERS AND REPRODUCERS, AND PARTS AND ACCESSORIES OF SUCH ARTICLES

XVI 85-1

Notes

- 1. This chapter does not cover:
 - (a) Electrically warmed blankets, bed pads, foot-muffs or the like; electrically warmed clothing, footwear or ear pads or other electrically warmed articles worn on or about the person;
 - (b) Articles of glass of heading 7011; or
 - (c) Electrically heated furniture of chapter 94.
- 2. Headings 8501 to 8504 do not apply to goods described in heading 8511, 8512, 8540, 8541 or 8542.

However, metal tank mercury arc rectifiers remain classified in heading 8504.

- 3. Heading 8509 covers only the following electromechanical machines of the kind commonly used for domestic purposes;
 - (a) Vacuum cleaners, floor polishers, food grinders, processors or mixers, and fruit or vegetable juice extractors, of any weight;
 - (b) Other machines provided the weight of such machines does not exceed 20 kg, exclusive of extra interchangeable parts or detachable auxiliary devices.

The heading does not, however, apply to fans or ventilating or recycling hoods incorporating a fan, whether or not fitted with filters (heading 8414), centrifugal clothes dryers (heading 8421), dishwashing machines (heading 8422), household washing machines (heading 8450), roller or other ironing machines (heading 8420 or 8451), sewing machines (heading 8452), electric scissors (heading 8508) or to electrothermic appliances (heading 8516).

4. For the purposes of heading 8534 "printed circuits" are circuits obtained by forming on an insulating base, by any printing process (for example, embossing, plating-up, etching) or by the "film circuit" technique, conductor elements, contacts or other printed components (for example, inductances, resistors, capacitors) alone or interconnected according to a pre-established pattern, other than elements which can produce, rectify, modulate or amplify an electrical signal (for example, semiconductor elements).

The term "printed circuits" does not cover circuits combined with elements other than those obtained during the printing process. Frinted circuits may, however, be fitted with non-printed connecting elements.

Thin- or thick-film circuits comprising passive and active elements obtained during the same technological process are to be classified in heading 8542.

- 5. For the purposes of headings 8541 and 8542:
 - (a) "<u>Diodes, transistors and similar semiconductor devices</u>" are semiconductor devices the operation of which depends on variations in resistivity on the application of an electric field;
 - (b) "Electronic integrated circuits and microassemblies" are:
 - (i) Monolithic integrated circuits in which the circuit elements (diodes, transistors, resistors, capacitors, interconnections, etc.) are created in the mass (essentially) and on the surface of a semiconductor material (doped silicon, for example) and are inseparably associated;
 - (ii) Hybrid integrated circuits in which passive elements (resistors, capacitors, interconnections, etc.) obtained by thin- or thick-film technology and active elements (diodes, transistors, monolithic integrated circuits, etc.) obtained by semiconductor technology, are combined to all intents and purposes indivisibly, on a single insulating substrate (glass, ceramic, etc.). These circuits may also include discrete components;
 - (iii) Microassemblies of the molded module, micromodule or similar types, consisting of discrete, active or both active and passive, components which are combined and interconnected.

For the classification of the articles defined in this note, headings 8541 and 8542 shall take precedence over any other heading in the tariff schedule which might cover them by reference to, in particular, their function.

Records, tapes and other media of heading 8523 or 8524 remain classified in those headings, whether or not they are entered with the apparatus for which they are intended.

Annotated for Statistical Reporting Purposes

XVI 85-2

Additional U.S. Notes

- 1. For the purposes of headings 8501 and 8503. 746 watts (W) is taken to be equivalent to 1 horsepower (hp).
- For the purposes of subheading 8516.72, the term "toasters" includes toaster-ovens which are designed essentially for toasting bread but can also bake small items, such as potatoes.
- For the purposes of heading 8525 the term "transceivers" refers to combinations of radio transmitting and receiving
 equipment in a common housing, employing common circuit components for both transmitting and receiving, and which are not
 capable of simultaneously receiving and transmitting.
- 4. For the purposes of subheading 8529.90.15 and 8529.90.20:
 - (a) Each subassembly that contains as a component, or is covered in the same entry with, one or more of the following television components, viz.,

tumer, channel selector assembly, antenna, deflection yoke, degaussing coil, picture tube mounting bracket, grounding assembly, parts necessary for fixing the picture tube or tumer in place, consumer-operated controls or speaker,

shall be classified in subheading 8529.90.15; and

- (b) Each subassembly shall be counted as a single unit, except that two or more different printed circuit boards or ceramic substrates covered by the same entry and designed for assembly into the same television models shall be counted as one unit.
- 5. Picture tubes imported in combination with, or incorporated into, other articles are to be classified in subheadings 8540.11 through 8540.12, inclusive, unless they are--
 - (a) incorporated into complete television receivers, as defined in additional U.S. note 6 below;
 - (b) incorporated into fully assembled units such as word processors, ADP terminals, or similar articles;
 - (c) put up in kits containing all the parts necessary for assembly into complete television receivers, as defined in additional U.S. note 6 below; or
 - (d) put up in kits containing all the parts necessary for assembly into fully assembled units such as word processors, ADP terminals, or similar articles.
- 6. For the purposes of additional U.S. note 5 above the term "complete television receivers" means television receivers, fully assembled in their cabinets, whether or not packaged or tested for distribution to the ultimate purchaser(s).

Statistical Notes

- 1. For the purposes of heading 8528 the video display diagonal is determined by measuring the maximum straight line dimension across that part of the faceplate used for displaying video.
- For the purposes of this chapter the terms "AM" and "FM" refer to the entertainment broadcast bands of 550-1650 kHz and 88-108 MHz, respectively.
- For statistical reporting purposes under subheading 8539.10, the size of a sealed beam lamp unit is determined by measuring the largest diagonal dimension across the faceplate.
- 4. For statistical reporting purposes under subheading 8544.70, the unit of quantity "fiber m", as it pertains to optical fiber cables, is determined by multiplying the number of individual fibers contained therein by the length in meters.
- For statistical reporting purposes under subheadings 8525.10.60, 8525.20.30 and 8527.90.80, the lowest operating frequency will determine the classification.

Annotated for Statistical Reporting Purposes

SECTION XVII

VEHICLES, AIRCRAFT, VESSELS AND ASSOCIATED TRANSPORT EQUIPMENT

XVII-1

Notes

- This section does not cover articles of heading 9501, 9503 or 9508, or sleds, bobsleds, toboggans or the like of heading 9506.
- The expressions "parts" and "parts and accessories" do not apply to the following articles, whether or not they are identifiable as for the goods of this section:
 - (a) Joints, washers or the like of any material (classified according to their constituent material or in heading 8484) or other articles of vulcamized rubber other than hard rubber (heading 4016);
 - (b) Parts of general use, as defined in note 2 to section XV, of base metal (section XV) or similar goods of plastics (chapter 39);
 - (c) Articles of chapter 82 (tools);
 - (d) Articles of heading 8306:
 - (e) Machines or apparatus of headings 8401 to 8479, or parts thereof; articles of heading 8481 or 8482 or, provided they constitute integral parts of engines or motors, articles of heading 8483;
 - (f) Electrical machinery or equipment (chapter 85);
 - (g) Articles of chapter 90;
 - (h) Articles of chapter 91;
 - (ij) Arms (chapter 93);
 - (k) Lamps or lighting fittings of heading 9405; or
 - (1) Brushes of a kind used as parts of vehicles (heading 9603).
- 3. References in chapters 86 to 88 to "parts" or "accessories" do not apply to parts or accessories which are not suitable for use solely or principally with the articles of those chapters. A part or accessory which answers to a description in two or more of the headings of those chapters is to be classified under that heading which corresponds to the principal use of that part or accessory.
- 4. Aircraft specially constructed so that they can also be used as road vehicles are classified as aircraft.

Amphibious motor vehicles are classified as motor vehicles.

- 5. Air-cushion vehicles are to be classified within this section with the vehicles to which they are most akin as follows:
 - (a) In chapter 86 if designed to travel on a guide-track (hovertrains);
 - (b) In chapter 87 if designed to travel over land or over both land and water;
 - (c) In chapter 89 if designed to travel over water, whether or not able to land on beaches or landing-stages or also able to travel over ice.

Parts and acessories of air-cushion vehicles are to be classified in the same way as those of vehicles of the heading in which the air-cushion vehicles are classified under the above provisions.

Hovertrain track fixtures and fittings are to be classified as railway track fixtures and fittings, and signalling, safety or traffic control equipment for hovertrain transport systems as signalling, safety or traffic control equipment for railways.

CHAPTER 86

RAILWAY OR TRAMMAY LOCOMOTIVES, ROLLING STOCK AND PARTS THEREOF; RAILWAY OR TRAMMAY TRACK FIXTURES AND FITTINGS AND PARTS THEREOF; MECHANICAL (INCLUDING ELECTRO-MECHANICAL) TRAFFIC SIGNALING EQUIPMENT OF ALL KINDS

XVII 86-1

Notes

- This chapter does not cover:
 - (a) Railway or tramway sleepers (cross-ties) of wood or of concrete, or concrete guide-track sections for hovertrains (heading 4406 or 6810);
 - (b) Railway or tramway track construction material of iron or steel of heading 7302; or
 - (c) Electrical signaling, safety or traffic control equipment of heading 8530.
- 2. Heading 8607 applies, inter alia, to:
 - (a) Axles, wheels, wheel sets (running gear), metal tires, hoops and hubs and other parts of wheels;
 - (b) Frames, underframes, truck assemblies;
 - (c) Axle boxes; brake gear;
 - (d) Buffers for rolling stock; hooks and other coupling gear and corridor connections;
 - (e) Coachwork.
- 3. Subject to the provisions of note 1 above, heading 8608 applies, inter alia, to:
 - (a) Assembled track, turntables, platform buffers, loading gauges;
 - (b) Semaphores, mechanical signal discs, level crossing control gear, signal and point controls, and other mechanical (including electro-mechanical) signaling, safety or traffic control equipment, whether or not fitted for electric lighting, for railways, tramways, roads, inland waterways, parking facilities, port installations or airfields.

CHAPTER 87

VEHICLES OTHER THAN RAILWAY OR TRAMWAY ROLLING-STOCK, AND PARTS AND ACCESSORIES THEREOF

> XVII 87-1

<u>Notes</u>

- 1. This chapter does not cover railway or tramway rolling-stock designed solely for running on rails.
- For the purposes of this chapter, "tractors" means vehicles constructed essentially for hauling or pushing another
 vehicle, appliance or load, whether or not they contain subsidiary provision for the transport, in connection with the
 main use of the tractor, of tools, seeds, fertilizers or other goods.
- For the purpose of heading 8702, the expression "public-transport type passenger motor vehicles" means vehicles designed for the transport of ten persons or more (including the driver).
- 4. Motor chassis fitted with cabs fall in headings 8702 to 8704, and not in heading 8706.
- 5. Heading 8712 includes all children's bicycles. Other children's cycles fall in heading 9501.

Additional U.S. Notes

- Road tractors, trailers and semi-trailers remain separately classified in headings 8701 and 8716, respectively, even when entered together.
- 2. For the purposes of classifying bicycles under the provisions therefore in heading 8712, the diameter of each wheel is the diameter measured to the outer circumference of the tire which is mounted thereon or, if none is mounted thereon, of the usual tire for such wheel.

CHAPTER 88

AIRCRAFT, SPACECRAFT, AND PARTS THEREOF

XVII 88-1

Statistical Note

The term "civil aircraft" for the purposes of importation means all aircraft other than aircraft purchased for use by the
Department of Defense or the United States Coast Guard; and for the purposes of exportation means all aircraft other than
aircraft for use by the armed forces of a foreign country.

XVII 88-2

CHAPTER 89

SHIPS, BOATS AND FLOATING STRUCTURES

XVII 89-1

Note

 A hull, an unfinished or incomplete vessel, assembled, unassembled or disassembled, or a complete vessel unassembled or disassembled, is to be classified in heading 8906 if it does not have the essential character of a vessel of a particular kind

Additional U.S. Note

 Vessels if in use in international trade or commerce or if brought into the customs territory of the United States by nonresidents thereof for their own use in pleasure cruising shall be admitted without formal customs consumption entry or the payment of duty.

CHAPTER 90

OPTICAL, PHOTOGRAPHIC, CINEMATOGRAPHIC, MEASURING, CHECKING, FRECISION, MEDICAL OR SURGICAL INSTRUMENTS AND APPARATUS; PARTS AND ACCESSORIES THEREOF

XVIII 90-1

Notes

- 1. This chapter does not cover:
 - (a) Articles of a kind used in machines, appliances or for other technical uses, of vulcanized rubber other than hard rubber (heading 4016), of leather or of composition leather (heading 4204) or of textile material (heading 5911);
 - (b) Refractory goods of heading 6903; ceramic wares for laboratory, chemical or other technical uses, of heading 6909;
 - (c) Glass mirrors, not optically worked, of heading 7009, or mirrors of base metal or of precious metal, not being optical elements (heading 8306 or chapter 71);
 - (d) Goods of heading 7007, 7008, 7011, 7014, 7015 or 7017;
 - (e) Parts of general use, as defined in note 2 to section XV, of base metal (section XV) or similar goods of plastics (chapter 39);
 - (f) Pumps incorporating measuring devices, of heading 8413; weight-operated counting or checking machinery, or separately entered weights for balances (heading 8423); lifting or handling machinery (headings 8425 to 8428); paper or paperboard cutting machines of all kinds (heading 8441); fittings for adjusting work or tools on machine tools, of heading 8466, including fittings with optical devices for reading the scale (for example, "optical" dividing heads) but not those which are in themselves essentially optical instruments (for example, alignment telescopes); calculating machines (heading 8470); valves or other appliances of heading 8481;
 - (g) Searchlights or spotlights of a kind used for cycles or motor vehicles (heading 8512); portable electric lamps of heading 8513; cinematographic sound recording, reproducing or re-recording apparatus (heading 8519 or 8520); sound-heads (heading 8522); radar apparatus, radio navigational aid apparatus and radio remote control apparatus (heading 8526); sealed beam lamp units of heading 8539; optical fiber cables of heading 8544;
 - (h) Searchlights or spotlights of heading 9405;
 - (ij) Articles of chapter 95:
 - (k) Capacity measures, which are to be classified according to their constituent material; or
 - Spools, reels or similar supports (which are to be classified according to their constituent material, for example, in heading 3923 or section XV).
- Subject to note 1 above, parts and accessories for machines, apparatus, instruments or articles of this chapter are to be classified according to the following rules:
 - (a) Parts and accessories which are goods included in any of the headings of this chapter or of chapter 84, 85 or 91 (other than heading 8485, 8548 or 9033) are in all cases to be classified in their respective headings;
 - (b) Other parts and accessories, if suitable for use solely or principally with a particular kind of machine, instrument or apparatus, or with a number of machines, instruments or apparatus of the same heading (including a machine, instrument or apparatus of heading 9010, 9013 or 9031) are to be classified with the machines, instruments or apparatus of that kind;
 - (c) All other parts and accessories are to be classified in heading 9033.
- 3. The provisions of note 4 to section XVI apply also to this chapter.
- 4. Heading 9005 does not apply to telescopic sights for fitting to arms, periscopic telescopes for fitting to submarines or tanks, or to telescopes for machines, appliances, instruments or apparatus of this chapter or section XVI; such telescopic sights and telescopes are to be classified in heading 9013.
- Measuring or checking optical instruments, appliances or machines which, but for this note, could be classified both in heading 9013 and in heading 9031 are to be classified in heading 9031.
- 6. Heading 9032 applies only to:
 - (a) Instruments and apparatus for automatically controlling the flow, level, pressure or other variables of liquids or gases, or for automatically controlling temperature, whether or not their operation depends on an electrical phenomenon which varies according to the factor to be automatically controlled; and
 - (b) Automatic regulators of electrical quantities, and instruments or apparatus for automatically controlling non-electrical quantities the operation of which depends on an electrical phenomenon varying according to the factor to be controlled.

Annotated for Statistical Reporting Purposes

XVIII 90-2

Additional U.S. Notes

- For the purposes of headings 9001 and 9002, the term "optically worked" refers to glass the surface of which has been ground or polished in order to produce the required optical properties.
- For the purposes of this chapter, the term "electrical" when used in reference to instruments, appliances, apparatus and
 machines, refers to those articles the operation of which depends on an electrical phenomenon which varies according to
 the factor to be ascertained.
- 3. For the purposes of this chapter, the terms "optical appliances" and "optical instruments" refer only to those appliances and instruments which incorporate one or more optical elements, but do not include any appliances or instruments in which the incorporated optical element or elements are solely for viewing a scale or for some other subsidiary purpose.

Statistical Notes

 For statistical reporting purposes under subheading 9001.10, the unit of quantity "<u>fiber m</u>", as it pertains to optical fiber bundles and cables, is determined by multiplying the number of individual fibers contained therein by the length in meters

CHAPTER 91

CLOCKS AND WATCHES AND PARTS THEREOF

XVIII 91-1

Notes

- 1. This chapter does not cover:
 - (a) Clock or watch glasses or weights (classified according to their constituent material);
 - (b) Watch chains (heading 7113 or 7117, as the case may be);
 - (c) Parts of general use defined in note 2 to section XV, of base metal (section XV), or similar goods of plastics (chapter 39) or of precious metal or metal clad with precious metal (generally heading 7115); clock or watch springs are, however, to be classified as clock or watch parts (heading 9114);
 - (d) Bearing balls (heading 7326 or 8482, as the case may be);
 - (e) Articles of heading 8412 constructed to work without an escapement;
 - (f) Ball bearings (heading 8482); or
 - (g) Articles of chapter 85, not yet assembled together or with other components into watch or clock movements or into articles suitable for use solely or principally as parts of such movements (chapter 85).
- Heading 9101 covers only watches with case wholly of precious metal or of metal clad with precious metal, or of the same materials combined with natural or cultured pearls, or precious or semiprecious stones (natural, synthetic or reconstructed) of headings 7101 to 7104. Watches with case of base metal inlaid with precious metal fall in heading 9102.
- 3. For the purposes of this chapter, the expression "watch movements" means devices regulated by a balance wheel and hairspring, quartz crystal or any other system capable of determining intervals of time, with a display or a system to which a mechanical display can be incorporated. Such watch movements shall not exceed 12 mm in thickness and 50 mm in width, length or dismeter.
- 4. Except as provided in note 1, movements and other parts suitable for use both in clocks or watches and in other articles (for example, precision instruments) are to be classified in this chapter.

Additional U.S. Notes

- 1. For the purposes of this chapter:
 - (a) The term "watches" embraces timepieces (including timepieces having special features, such as chronographs, calendar watches and watches designed for use in skin diving) of a kind for wearing or carrying on the person whether or not the movement contained therein conforms to the definition of "watch movements" in note 3, above. Timepieces incorporating a stand, however simple, are not classifiable as watches.
 - (b) The term "cases" embraces immer and outer cases, containers and housings for movements, together with parts or pieces, such as, but not limited to, rings, feet, posts, bases and outer frames, and any auxiliary or incidental features, which (with appropriate movements) serve to complete the watches, clocks, time switches and other apparatus provided for in this chapter.
 - (c) The term "jewels" includes substitutes for jewels.
 - (d) The term "clock movements" means devices regulated by a balance wheel and hairspring, quartz crystal or any other system capable of determining intervals of time, with a display or a system to which a mechanical display can be incorporated. Such clock movements shall either exceed 12 mm in thickness or 50 mm in width, length or diameter, or both.
 - (e) The term "complete watch or clock movements, unassembled or partly assembled (movement sets)" refers to sets which consist of all parts necessary to assemble a watch or clock movement, except that for movements having mechanical displays the set may or may not include the dial and hands.
 - (f) The term "incomplete watch or clock movements, assembled" refers to:
 - (i) Mechanical movements which are mounted but lack certain parts other than the dial, hands or winding spindle (e.g., the escapement or the barrel bridge);
 - (ii) Battery powered movements with mechanical displays which are mounted but lack certain parts other than the dial, hands, setting spindle or battery (e.g., the motor); or
 - (iii) Other movements intended to operate with opto-electronic displays which are mounted but lack certain parts other than the battery (e.g., the display).
 - (g) The term "rough watch or clock movements" refers to sets of unassembled parts for the assembly of watch or clock movements of a kind constructed to work with an escapement. These sets do not include escapement, balance wheel and hairspring or other regulating device, mainspring, dial or hands; they therefore consist mainly of the base plate (and any additional plates), bridges, train, motion work, winding and setting mechanism and any additional mechanisms such as automatic winding device, calendar mechanisms, chronograph, alarm, etc. These sets may be entered with or without a barrel. Each element, intended for use as it is, may itself consist of one simple piece or of several parts fitted inseparably together, but such elements may not themselves be assembled to each other.

Annotated for Statistical Reporting Purposes

XVIII 91-2

- Watch straps, watch bands and watch bracelets entered with wrist watches and of a kind normally sold therewith, whether or
 not attached, are classified with the watch in heading 9101 or 9102. Otherwise, watch straps, watch bands and watch
 bracelets shall be classified in heading 9113.
- 3. Batteries entered with battery powered watches or clocks, or with the complete, assembled movements thereof, and intended for use therewith, are classifiable under the provision for the watch, clock or movement. Similarly, batteries entered with a complete watch or clock movement, unassembled or partly assembled (movement set) or with an incomplete watch or clock movement, and intended for use therewith, are classifiable under the provision for such movement. Batteries are otherwise classifiable in heading 8506 or 8507, whether or not suitable for use with watches or clocks.
- 4. Special Marking Requirements: With the following exceptions, any movement or case provided for in this chapter, whether imported separately or attached to an article provided for in this chapter, shall not be permitted to be entered unless conspicuously and indelibly marked by cutting, die-sinking, engraving, stamping or mold-marking (either indented or raised), as specified below. Movements with opto-electronic display only and cases designed for use therewith, whether entered as separate articles or as components of assembled watches or clocks, are excepted from the marking requirements set forth in this note. The special marking requirements are as follows:
 - (a) Watch movements shall be marked on one or more of the bridges or top plates to show:
 - (i) the name of the country of manufacture;
 - (ii) the name of the manufacturer or purchaser; and
 - (iii) in words, the number of jewels, if any, serving a mechanical purpose as frictional bearings.
 - (b) Clock movements shall be marked on the most visible part of the front or back plate to show:
 - (i) the name of the country of manufacture;
 - (ii) the name of the manufacturer or purchaser; and
 - (iii) the number of jewels, if any.
 - (c) Watch cases shall be marked on the inside or outside of the back to show:
 - (i) the name of the country of manufacture: and
 - (ii) the name of the manufacturer or purchaser.
 - (d) Clock cases provided for in this chapter shall be marked on the most visible part of the outside of the back to show the name of the country of manufacture.

5. Products of Insular Possessions

- (a) Except as provided in paragraphs (b) through (ij) of this note, any article provided for in this chapter which is the product of the Virgin Islands, Guam and American Samoa (hereinafter referred to as the "insular possessions") and which contains any foreign component shall be subject to duty:
 - (i) At the rates set forth in column 1, if the countries of origin of more than 50 percent in value of the foreign components are countries to products of which column 1 rates apply; and
 - (ii) At the rates set forth in column 2, if the countries of origin of 50 percent or more in value of the foreign components are countries to products of which column 2 rates apply.
- (b) Watch movements and watches (including watch straps, watch bands, and watch bracelets assembled onto watches) that are produced or manufactured in a United States insular possession which contain any foreign component may be admitted free of duty without regard to the value of the foreign materials such watches contain if they conform with the provisions of this note, but the total quantity of such articles entered free of duty shall not exceed the amounts established by or pursuant to paragraph (d) of this note.
- (c) Notwithstanding the provisions of paragraph (b) of this note, the provisions of this note and the benefits thereunder shall not apply to any article containing any material which is the product of any country with respect to which column 2 rates of duty apply.
- (d) (i) In calendar year 1983 the total quantity of such articles which may be entered free of duty shall not exceed 4,800,000 units.
 - (ii) In subsequent calendar years, the Secretary of Commerce and the Secretary of the Interior (hereinafter referred to as the "Secretaries"), acting jointly, shall establish a limit on the quantity which may be entered free of duty during the calendar year, and shall consider whether such limit is in the best interest of the insular possessions and not inconsistent with domestic or international trade policy considerations. The quantity the Secretaries establish in any calendar year under this paragraph shall not--
 - (A) exceed 10,000,000 units or one-ninth of apparent domestic consumption (as determined by the International Trade Commission pursuant to paragraph (e) of this note), whichever is greater;
 - (B) be decreased by more than 10 percent of the quantity established for the immediately preceding calendar year; and

Annotated for Statistical Reporting Purposes

XVIII 91-3

- (C) be increased to more than 7,000,000 units or by more than 20 percent of the quantity established for the immediately preceding calendar year, whichever is greater.
- (e) On or before April 1 of each calendar year (beginning with the first year in which watch imports from the United States insular possessions exceed 9,000,000 units), the International Trade Commission shall determine the apparent United States consumption of watches and watch movements during the preceding calendar year, shall report such determination to the Secretaries, and shall publish such determination in the <u>Federal Register</u>.
- (f) (i) In calendar year 1983, not more than 3,000,000 units of the total quantity of articles described in paragraph (d) which may be entered free of duty shall be the product of the Virgin Islands, not more than 1,200,000 units shall be the product of Guam, and not more than 600,000 units shall be the product of American Samoa.
 - (ii) For calendar year 1984 and thereafter, the Secretaries may establish new territorial shares of the total amount which may be entered free of duty, taking into account the capacity of each territory to produce and ship its assigned amounts. A territory's share in any year shall not be reduced:
 - (A) by more than 200,000 units in calendar year 1984 or 1985; and
 - (B) by more than 500,000 units in calendar year 1986 or thereafter, except that no territorial share shall be established at less than 500,000 units.
- (g) The Secretaries, acting jointly, shall allocate the calendar year duty exemptions provided by paragraphs (b), (d) and (f) of this note on a fair and equitable basis among producers located in the insular possessions, and shall issue appropriate licenses thereof. Allocations made by the Secretaries shall be final. In making the allocations, the Secretaries shall consider the potential impact of territorial production on domestic production of like articles and shall establish allocation criteria (including minimum assembly requirements) that will reasonably maximize the net amount of direct economic benefits to the insular possessions.
- (h) (i) In the case of each calendar year beginning after December 31, 1982, and before January 1, 1995, the Secretaries, acting jointly, shall:
 - (A) verify the wages paid by each producer to permanent residents of the insular possessions during the preceding calendar year; and
 - (B) issue to each producer (not later than March 1 of such year) a certificate for the applicable amount.
 - (ii) For purposes of subparagraph (i), except as provided in subparagraphs (iii) and (iv), the term "applicable amount" means an amount equal to the sum of:
 - (A) 90 percent of the producer's creditable wages on the assembly during the preceding calendar year of the first 300,000 units; plus
 - (B) the applicable graduated declining percentage (determined each year by the Secretaries) of the producer's creditable wages on the assembly during the preceding calendar year of units in excess of 300,000 but not in excess of 750,000.
 - (iii) The aggregate amount of all certificates which are issued during any calendar year shall not exceed an amount which bears the same ratio to \$5,000,000 as:
 - (A) the gross national product of the United States (as determined by the Secretary of Commerce) for the preceding calendar year, bears to:
 - (B) the gross national product of the United States (as so determined) for 1982.
 - (iv) (A) Subject to the provision of clause (B), if the amount of the certificates issued under subparagraph (i) would exceed the limit under subparagraph (iii), the applicable amount of each producer's certificate shall be reduced proportionately by the amount of such excess.
 - (B) The applicable amount of any producer's certificate shall not be reduced below the amount determined under subparagraph (ii)(A), except that if the application of this clause would result in the aggregate amount of the certificates exceeding the limit under subparagraph (iii), the applicable amount of each producer's certificate shall again be reduced proportionately by the amount of the excess determined after application of this clause.
 - (v) Any certificate issued under subparagraph (i) shall entitle the certificate holder to secure the refund of duties equal to the face value of the certificate on watches, watch movements and, with the exception of discrete cases, parts therefor imported into the customs territory of the United States by the certificate holder. Such refunds shall be made under regulations issued by the Treasury Department. Not more than 5 percent of such refunds may be retained as a reimbursement to the Customs Service for the administrative costs of making the refunds.
 - (vi) Any certificate issued under subparagraph (i), or any portion thereof, shall be negotiable.
 - (vii) Any certificate issued under subparagraph (i) shall expire 1 year from the date of issuance and may be applied against duties on imports of watches and watch movements the entry of which were made within 2 years prior to the date of issuance of the certificate.
 - (viii) For purposes of determining the applicable amount of any producer's certificate to be issued during calendar year 1983, the greater of:
 - (A) the producer's creditable wages for calendar year 1982; or
 - (B) 60 percent of the producer's creditable wages for calendar year 1981 shall be considered the creditable wages for calendar year 1982.

Annotated for Statistical Reporting Purposes

XVIII 91-4

(ij) the Secretaries are authorized to issue such regulations, not inconsistent with the provisions of this note, as they determine necessary to carry out their respective duties under this note. Such regulations shall include minimum assembly requirements. Any duty-free entry determined not to have been made in accordance with applicable regulations shall be subject to the applicable civil remedies and criminal sanctions, and, in addition, the Secretaries may cancel or restrict the license or certificate of any manufacturer found in willful violation of the regulations.

U.S. Statistical Notes

- 1. The calculation of duties on various watches, clocks, watch movements and clock movements requires that these articles be constructively separated into their component parts and each component separately valued. The individual components shall be separately reported under the statistical suffixes show below. In each instance the sum of the values of the individual components shall be equal to the total value of the article. In those instances where the components of an article are to be separately reported under the following reporting scheme, the entry should include all the individually named components even if not included in the shipment. In such instance the entered quantity and value would be zero. For example, entry of a battery powered watch, imported without a battery, classifiable under subheading 9101.11.40 would include a line for the statistical reporting number for the battery (9101.11.4040) with the quantity and value shown as zero. To determine the proper statistical reporting number(s) for the subheadings enumerated below, the importer shall combir the applicable 8-digit subheading number with the applicable statistical suffix found below. To the resulting statistical reporting numbers the importer shall append the proper check digit from the list in U.S. statistical note 2 below.
 - (a) The statistical suffixes for subheadings 9101.11.40, 9101.11.80, 9101.19.40, 9101.19.80, 9102.11.10, 9102.11.25, 9102.11.30, 9102.11.45, 9102.11.50, 9102.11.65, 9102.11.70, 9102.11.95, 9102.19.20, 9102.19.40, 9102.19.60 and 9102.19.80 shall be:

CHAPTER 92

MUSICAL INSTRUMENTS: PARTS AND ACCESSORIES OF SUCH ARTICLES

XVIII 92-1

<u>Notes</u>

- 1. This chapter does not cover:
 - (a) Parts of general use, as defined in note 2 to section XV, of base metal (section XV), or similar goods of plastics (chapter 39);
 - (b) Microphones, amplifiers, loudspeakers, headphones, switches, stroboscopes or other accessory instruments, apparatus or equipment of chapter 85 or 90, for use with but not incorporated in or housed in the same cabinet as instruments of this chapter;
 - (c) Toy instruments or apparatus (heading 9503);
 - (d) Brushes for cleaning musical instruments (heading 9603);
 - (e) Collectors' pieces or antiques (heading 9705 or 9706); or
 - (f) Spools, reels or similar supports (which are to be classified according to their constituent material: for example, heading 3924, section XV).
- Bows and sticks and similar devices used in playing the musical instruments of heading 9202 or 9206 entered
 with such instruments in numbers normal thereto and clearly intended for use therewith, are to be classified in
 the same heading as the relative instruments.

Cards, discs and rolls of heading 9209 entered with an instrument are to be treated as separate articles and not as forming a part of such instrument.

SECTION XIX

ARMS AND AMMUNITION; PARTS AND ACCESSORIES THEREOF

XIX-1

Annotated for Statistical Reporting Purposes

CHAPTER 93

ARMS AND AMMUNITION; PARTS AND ACCESSORIES THEREOF

XIX 93-1

Notes

- 1. This chapter does not cover:
 - (a) Goods of chapter 36 (for example, percussion caps, detonators, signaling flares);
 - (b) Parts of general use, as defined in note 2 to section XV, of base metal (section XV), or similar goods of plastics (chapter 39);
 - (c) Armored fighting vehicles (heading 8710);
 - (d) Telescopic sights or other optical devices suitable for use with arms, unless mounted on a firearm or entered with the firearm on which they are designed to be mounted (chapter 90);
 - (e) Bows, arrows, fencing foils or toys (chapter 95); or
 - (f) Collectors' pieces or antiques (heading 9705 or 9706).
- In heading 9306, the reference to "parts thereof" does not include radio or radar apparatus of heading 8526.

Statistical Note

1. The calculation of duties, under subheadings 9301.00.30, 9303.30.40 and 9303.30.80, for rifles imported either with telescopic sights mounted on them or with telescopic sights designed to be mounted on them, requires that these articles be constructively separated into their component parts and each component separately valued. The individual components shall be separately reported under the appropriate statistical suffixes. In each instance, the sum of the values of the individual components shall be equal to the total value of the article.

CHAPTER 94

FURITURE; BEDDING, MATTRESSES, MATTRESS SUPPORTS, CUSHIONS AND SIMILAR STUFFED FURNISHINGS;
LAMPS AND LIGHTING FITTINGS, NOT ELSEWHERE SPECIFIED OR INCLUDED;
ILLUMINATED SIGNS, ILLUMINATED NAMEPLATES AND THE LIKE;
FREFABRICATED BUILDINGS

XX 24-1

Notes

- This chapter does not cover:
 - (a) Pneumatic or water mattresses, pillows or cushions, of chapter 39, 40 or 63;
 - (b) Mirrors designed for placing on the floor or ground (for example, cheval-glasses (swing-mirrors)) of heading 7009;
 - (c) Articles of chapter 71:
 - (d) Parts of general use as defined in note 2 to section XV, of base metal (section XV), or similar goods of plastics (chapter 39), or safes of heading 8303;
 - (e) Furniture specially designed as parts of refrigerating or freezing equipment of heading 8418; furniture specially designed for sewing machines (heading 8452);
 - (f) Lamps or lighting fittings of chapter 85;
 - (g) Furniture specially designed as parts of apparatus of heading 8518 (heading 8518), of headings 8519 to 8521 (heading 8522) or of headings 8525 to 8528 (heading 8529);
 - (h) Articles of heading 8714;
 - (ij) Dentists' chairs incorporating dental appliances of heading 9018 or dentists' spittoons (heading 9018);
 - (k) Articles of chapter 91 (for example, clocks and clock cases); or
 - Toy furniture or toy lamps or lighting fittings (heading 9503), billiard tables or other furniture specially constructed for games (heading 9504), furniture for magic tricks or decorations (other than electric garlands) such as Chinese lanterns (heading 9505).
- The articles (other than parts) referred to in headings 9401 to 9403 are to be classified in those headings only if they are designed for placing on the floor or ground.

The following are, however, to be classified in the above-mentioned headings even if they are designed to be hung, to be fixed to the wall or to stand one on the other:

- (a) Cupboards, bookcases, other shelved furniture and unit furniture;
- (b) Seats and beds.
- 3. (a) In headings 9401 to 9403 references to parts of goods do not include references to sheets or slabs (whether or not cut to shape but not combined with other parts) of glass (including mirrors), marble or other stone or of any other material referred to in chapter 68 or 69.
 - (b) Goods described in heading 9404, entered separately, are not to be classified in heading 9401, 9402 or 9403 as parts of goods.
- 4. For the purposes of heading 9405, the expression "prefabricated buildings" means buildings which are finished in the factory or put up as elements, entered together, to be assembled on site, such as housing or worksite accommodation, offices, schools, shops, sheds, garages or similar buildings.

Statistical Note

1. For purposes of heading 9406 the unit of quantity of m2 refers to the floor area of the building when assembled.

CHAPTER 95

TOYS, GAMES AND SPORTS EQUIPMENT: PARTS AND ACCESSORIES THEREOF

XX 95-1

<u>Notes</u>

- 1. This chapter does not cover:
 - (a) Christmas tree candles (heading 3406);
 - (b) Fireworks or other pyrotechnic articles of heading 3604;
 - (c) Yarns, monofilament, cords or gut or the like for fishing, cut to length but not made up into fishing lines, of chapter 39, heading 4206 or section XI;
 - (d) Sports bags or other containers of heading 4202, 4303 or 4304;
 - (e) Sports clothing or fancy dress, of textiles, of chapter 61 or 62;
 - (f) Textile flags or bunting, or sails for boats, sailboards or land craft, of chapter 63;
 - (g) Sports footwear (other than skating boots with ice or roller skates attached) of chapter 64, or sports headgear of chapter 65;
 - (h) Walking-sticks, whips, riding-crops or the like (heading 6602), or parts thereof (heading 6603);
 - (ij) Unmounted glass eyes for dolls or other toys, of heading 7018;
 - (k) Parts of general use, as defined in note 2 to section XV, of base metal (section XV), or similar goods of plastics (chapter 39);
 - (1) Bells, gongs or the like of heading 8306;
 - (m) Electric motors (heading 8501), electric transformers (heading 8504) or radio remote control apparatus (heading 8526);
 - (n) Sports vehicles (other than sleds, bobsleds, toboggans and the like) of section XVII:
 - (o) Children's bicycles (heading 8712);
 - (p) Sports craft such as canoes and skiffs (chapter 89), or their means of propulsion (chapter 44 for such articles made of wood);
 - (q) Spectacles, goggles or the like, for sports or outdoor games (heading 9004);
 - (r) Decoy calls or whistles (heading 9208);
 - (s) Arms or other articles of chapter 93;
 - (t) Electric garlands of all kinds (heading 9405); or
 - (u) Racket strings, tents or other camping goods, or gloves (classified according to their constituent material).
- This chapter includes articles in which natural or cultured pearls, precious or semiprecious stones (natural, synthetic or reconstructed), precious metal or metal clad with precious metal constitute only minor constituents.
- Subject to note 1 above, parts and accessories which are suitable for use solely or principally with articles of this chapter are to be classified with those articles.

CHAPTER 96

MISCELLANEOUS MANUFACTURED ARTICLES

XX 96-1

Notes

- 1. This chapter does not cover:
 - (a) Pencils for cosmetic or toilet uses (chapter 33);
 - (b) Articles of chapter 66 (for example, parts of umbrellas or walking-sticks);
 - (c) Imitation jewelry (heading 7117);
 - (d) Parts of general use, as defined in note 2 to section XV, of base metal (section XV) or similar goods of plastics (chapter 39);
 - (e) Cutlery or other articles of chapter 82 with handles or other parts of carving or molding materials; heading 9601 or 9602 applies, however, to separately entered handles or other parts of such articles;
 - (f) Articles of chapter 90 (for example, spectacle frames (heading 9003), mathematical drawing pens (heading 9017), brushes of a kind specialized for use in dentistry or for medical, surgical or veterinary purposes (heading 9018));
 - (g) Articles of chapter 91 (for example, clock or watch cases);
 - (h) Musical instruments or parts or accessories thereof (chapter 92);
 - (ij) Articles of chapter 93 (arms and parts thereof);
 - (k) Articles of chapter 94 (for example, furniture, lamps and lighting fittings);
 - (1) Articles of chapter 95 (toys, games, sports equipment); or
 - (m) Works of art, collectors' pieces or antiques (chapter 97).
- In heading 9602 the expression "vegetable or mineral carving material" means:
 - (a) Hard seeds, pips, hulls and nuts and similar vegetable materials of a kind used for carving (for example, corozo and dom);
 - (b) Amber, meerschaum, agglomerated amber and agglomerated meerschaum, jet and mineral substitutes for jet.
- 3. In heading 9603 the expression "prepared knots and tufts for broom or brush making" applies only to unmounted knots and tufts of animal hair, vegetable fiber or other material, which are ready for incorporation without division in brooms or brushes, or which require only such further minor processes as trimming to shape at the top, to render them ready for such incorporation.
- 4. Articles of this chapter, other than those of headings 9601 to 9606 or 9615, remain classified in the chapter whether or not composed wholly or partly of precious metal or metal clad with precious metal, of natural or cultured pearls, or precious or semiprecious stones (natural, synthetic or reconstructed). However, headings 9601 to 9606 and 9615 include articles in which natural or cultured pearls, precious or semiprecious stones (natural, synthetic or reconstructed), precious metal or metal clad with precious metal constitute only minor constituents.

Additional U.S. Notes

- 1. For the purposes of heading 9606 the term "line" in the rates of duty columns means the line button measure of 0.635 mm.
- Buttons (whether or not finished) provided for in subheadings 9606.21.40 and 9606.29.20 which are the product of
 an insular possession of the United States outside the customs territory of the United States and which are
 manufactured or produced from button blanks or unfinished buttons which were the product of any foreign country
 shall be subject to duty under subheadings 9606.21.40 and 9606.29.20 at the rates which apply to products of such
 foreign country.

Annotated for Statistical Reporting Purposes

SECTION XXI

WORKS OF ART, COLLECTORS' PIECES AND ANTIQUES

XXI-1

Annotated for Statistical Reporting Purposes

CHAPTER 97

WORKS OF ART, COLLECTORS' PIECES AND ANTIQUES

XXI 97-1

Notes

- 1. This chapter does not cover:
 - (a) Unused postage or revenue stamps, postal stationery (stamped paper) or the like, of current or new issue in the country to which they are destined (chapter 49);
 - (b) Theatrical scenery, studio backdrops or the like, of painted canvas (heading 5907) except if they may be classified in heading 9706; or
 - (c) Pearls, natural or cultured, or precious or semiprecious stones (headings 7101 to 7103).
- For the purposes of heading 9702, the expression "original engravings, prints and lithographs" means impressions produced directly, in black and white or in color, of one or of several plates wholly executed by hand by the artist, irrespective of the process or of the material employed by him, but not including any mechanical or photomechanical process.
- Heading 9703 does not apply to mass-produced reproductions or works of conventional craftsmanship of a commercial character.
- (a) Subject to notes 1 through 3 above, articles of this chapter are to be classified in this chapter and not in any other chapter of the tariff schedule.
 - (b) Heading 9706 does not apply to articles of the preceding headings of this chapter.
- 5. Frames around paintings, drawings, pastels, collages or similar decorative plaques, engravings, prints or lithographs are to be treated as forming part of those articles, provided they are of a kind and of a value normal to those articles.

Additional U.S. Notes

- Heading 9703 covers not only original sculpture made by the sculptor, but also the first 12 castings, replicas
 or reproductions made from a sculptor's original work or model, by the sculptor himself or by another artist,
 with or without a change in scale and whether or not the sculptor is alive at the time the castings, replicas
 or reproductions are completed.
- 2. Whenever an article is entered for sale under heading 9706, and thereafter determined to be not over 100 years of age, a duty of 6.6 percent ad valorem for articles subject to column 1-general treatment, a duty of 5.2 percent ad valorem for goods originating in the territory of Canada or a duty of 25 percent ad valorem for articles subject to column 2 treatment shall be assessed thereon in addition to any other duty or penalty imposed on such article under the tariff schedule.

CHAPTER 98

SPECIAL CLASSIFICATION PROVISIONS

XXII 98-1

U.S. Notes

- The provisions of this chapter are not subject to the rule of relative specificity in general rule of interpretation 3(a).
 Any article which is described in any provision in this chapter is classifiable in said provision if the conditions and requirements thereof and of any applicable regulations are met.
- 2. In the absence of a specific provision to the contrary, the tariff status of an article is not affected by the fact that it was previously imported into the customs territory of the United States and cleared through customs whether or not duty was paid upon such previous importation.
- Any article exempted under subchapters IV through VII, inclusive, or subchapter IX from the payment of duty shall be exempt also from the payment of any internal-revenue tax imposed upon or by reason of importation.

Statistical Notes

- 1. Statistical data are not to be furnished with respect to articles classified in those headings of this chapter for which no statistical suffix is shown.
- 2. For articles provided for in this chapter, the rate of duty for which is derived from a provision elsewhere in the tariff schedule, the citation to be used in statistical reporting shall be the 10-digit statistical reporting number provided in this chapter followed by the reporting number of the provision from which such rate is derived. The unit of quantity reported hereunder for such articles shall be the same as the unit of quantity for the provision from which the rate was derived. For example, 10 new fully automatic arc welding machines exported for repairs or alterations pursuant to a warranty and returned to the United States the statistical reporting number shall be 9802.00.4040-8515.31.0000, with the quantity being shown as 10 and the value as dutiable value. See general statistical note 1(a)(x) regarding the reporting of check digits on entry summary and withdrawal forms.

NOTICE TO EXPORTERS

The statistical reporting numbers contained in this chapter apply only to imports and may not be reported on Shipper's Export Declarations. See Notice to Exporters preceding chapter 1.

Annotated for Statistical Reporting Purposes

SUBCHAPTER I

ARTICLES EXPORTED AND RETURNED, NOT ADVANCED OR IMPROVED IN CONDITION; ANIMALS EXPORTED AND RETURNED

XXII 98-3

U.S. Notes

- 1. The subheadings in this subchapter (except subheadings 9801.00.70 and 9801.00.80) shall not apply to amy article:
 - (a) Exported with benefit of drawback;
 - (b) Of a kind with respect to the importation of which an internal-revenue tax is imposed at the time such article is entered, unless such article was subject to an internal-revenue tax imposed upon production or importation at the time of its exportation from the United States and it shall be proved that such tax was paid before exportation and was not refunded; or
 - (c) Manufactured or produced in the United States in a customs bonded warehouse or under subheading 9813.00.05 and exported under any provision of law.
- 2. For the purposes of subheadings 9801.00.70 and 9801.00.80:
 - (a) When because of the destruction of customs records or for other cause it is impracticable to establish whether drawback was allowed, or the amount allowed, on a returned article, there shall be assessed thereon an amount of duty equal to the estimated drawback and internal-revenue tax which would be allowable or refundable if the imported merchandise used in the manufacture or production of the returned article were dutiable or taxable at the rate applicable to such merchandise on the date of entry, but in no case more than the duty and tax that would apply if the article were wholly of foreign origin;
 - (b) Tobacco products and cigarette papers and tubes classifiable under such subheading may be released from customs custody, without payment of that part of duty attributable to the internal-revenue tax, for return to internal-revenue bond as provided by section 5704(d) of the Internal Revenue Code of 1954; and
 - (c) In order to facilitate the ascertainment and collection of the duty provided for, the Secretary of the Treasury is authorized to ascertain and specify the amounts of duty equal to drawback or internal-revenue tax which shall be applied to articles or classes or kinds of articles, and to exempt from the assessment of duty articles or classes or kinds of articles with respect to which the collection of such duty involves expense and inconvenience to the Government which is disproportionate to the probable amount of such duty.

Annotated for Statistical Reporting Purposes

SUBCHAPTER IT

ARTICLES EXPORTED AND RETURNED. ADVANCED OR IMPROVED ABROAD

XXII 98-7

U.S. Notes

- 1. This subchapter shall not apply to any article exported:
 - (a) From continuous customs custody with remission, abatement or refund of duty;
 - (b) With benefit of drawback:
 - (c) To comply with any law of the United States or regulation of any Federal agency requiring exportation; or
 - (d) After manufacture or production in the United States under subheading 9813.00.05.
- 2. Any product of the United States which is returned after having been advanced in value or improved in condition abroad by any process of manufacture or other means, or any imported article which has been assembled abroad in whole or in part of products of the United States, shall be treated for the purposes of this Act as a foreign article, and, if subject to a duty which is wholly or partly ad valorem, shall be dutiable, except as otherwise prescribed in this part, on its full value determined in accordance with section 402 of the Tariff Act of 1930, as amended. If such product or such article is dutiable at a rate dependent upon its value, the value for the purpose of determining the rate shall be its full value under the said section 402.
- 3. Articles repaired, altered, processed or otherwise changed in condition abroad. -- The following provisions apply only to subheadings 9802,00,40 through 9802,00.60, inclusive:
 - (a) The value of repairs, alterations, processing or other change in condition outside the United States shall be:
 - (i) The cost to the importer of such change; or
 - (ii) If no charge is made, the value of such change,

as set out in the invoice and entry papers; except that, if the appraiser concludes that the amount so set out does not represent a reasonable cost or value, then the value of the change shall be determined in accordance with section 402 of the Tariff Act of 1930, as amended.

- (b) No appraisement of the imported article in its changed condition shall be required unless necessary to a determination of the rate or rates of duty applicable to such article.
- (c) The duty upon the value of the change in condition shall be at the rate which would apply to the article itself, as an entirety without constructive separation of its components, in its condition as imported if it were not within the purview of this subchapter. If the article, as returned to the United States, is subject to a specific or compound rate of duty, such rate shall be converted to the ad valorem rate which when applied to the full value of such article determined in accordance with said section 402 would provide the same amount of duties as the specific or compound rate. In order to compute the duties due, the ad valorem rate so obtained shall be applied to the value of the change in condition made outside the United States.
- (d) For purposes of subheading 9802.00.60, the term "metal" covers (1) the base metals enumerated in additional U.S. note 1 to section XV; (2) arsenic, barium, boron, calcium, mercury, selenium, silicon, strontium, tellurium, thorium, uranium and the rare-earth elements; and (3) alloys of any of the foregoing.
- 4. Articles assembled abroad with components produced in the United States. -- The following provisions apply only to subheading 9802.00.80:
 - (a) The value of the products of the United States assembled into the imported article shall be:
 - (i) The cost of such products at the time of the last purchase; or
 - (ii) If no charge is made, the value of such products at the time of the shipment for exportation.

as set out in the invoice and entry papers; except that, if the appraiser concludes that the amount so set out does not represent a reasonable cost or value, then the value of such products shall be determined in accordance with section 402 of the Tariff Act of 1930, as amended.

- (b) The duty on the imported article shall be at the rate which would apply to the imported article itself, as an entirety without constructive separation of its components, in its condition as imported if it were not within the purview of this subchapter. If the imported article is subject to a specific or compound rate of duty, the total duties shall be reduced in such proportion as the cost or value of such products of the United States bears to the full value of the imported article.
- 5. No imported article shall be accorded partial exemption from duty under more than one subheading in this subchapter.

Annotated for Statistical Reporting Purposes

XXII 98-8

Statistical Note

- For articles admitted under statistical reporting number 9802.00.6000, 9802.00.8010 or 9802.00.8050 two values shall be reported—the first following the first statistical reporting number of the statistical citation (i.e., 9802.00.6000, 9802.00.8010 or 9802.00.8050) and the second following the statistical reporting number of the provision in chapters 1-97 from which the rate of duty is derived, as follows:
 - (a) For statistical reporting number 9802.00.6000:
 - (i) The total value of the article less the value of the foreign processing; and
 - (ii) The dutiable value, i.e., the value of the foreign processing, respectively.
 - (b) For statistical reporting number 9802.00.8010 or 9802.00.8050:
 - (i) The value of the U.S. fabricated components; and
 - (ii) The dutiable value, i.e., the total value of the articles less the value of the U.S. fabricated components, respectively.

See general statistical note 1(a)(x) regarding the reporting of check digits on entry summary and withdrawal forms.

SUBCHAPTER III

SUBSTANTIAL CONTAINERS OR HOLDERS

XXII 98-11

U.S. Notes

- 1. This subchapter covers only the following:
 - (a) Substantial containers or holders which are subject to tariff treatment as imported articles and are:
 - (i) Imported empty and not within the purview of a provision which specifically exempts them from duty; or
 - (ii) Imported containing or holding articles, and which are not of a kind normally sold therewith or are entered separately therefrom: and
 - (b) Certain repair components, accessories and equipment.
- 2. This subchapter does not apply to any container or holder:
 - (a) Exported with benefit of drawback and returned empty; or
 - (b) Manufactured or produced in the United States in a customs bonded warehouse or under subheading 9813.00.05 and exported under any provision of law.
- 3. In order to facilitate the prompt clearance at ports of entry of substantial containers and holders provided for in this subchapter, the Secretary of the Treasury is authorized:
 - (a) To permit the admission thereof without entry if readily identifiable as meeting the conditions of free entry set forth in this subchapter; and
 - (b) To permit any duties thereon to be paid cumulatively from time to time either before or after their importation when conditions exist which permit adequate customs controls to be maintained.

SUBCHAPTER IV

PERSONAL EXEMPTIONS EXTENDED TO RESIDENTS AND NONRESIDENTS

XXII 98-13

U.S. Notes

1. If:

- (a) Any jewelry or similar articles of personal adormment having an aggregate value of \$300 or more which have been exempted from duty under subheading 9804.00.20 is sold within 3 years after the date of importation; or
- (b) Any article which has been exempted from duty under subheading 9804.00.35 is sold within 1 year after the date of importation; or
- (c) Any automobile exempted from duty under subheading 9804.00.60 is used otherwise than for the purpose therein expressed or is not returned abroad within the time and manner prescribed by the Secretary of the Treasury,

without prior payment to the United States of the duty which would have been payable at the time of entry if the article had been entered without the benefit of any of these subheadings, such article, or its value (to be recovered from the importer), shall be subject to forfeiture. An article sold pursuant to a judicial order or in liquidation of the estate of a decedent shall not be subject to the provisions of this note.

- 2. In the case of persons arriving from a contiguous country which maintains a free zone or free port, if the Secretary of the Treasury deems it necessary in the public interest and to facilitate enforcement of the requirement that the exemption in subheading 9804,00.70 shall apply only to articles acquired as an incident of the foreign journey, he shall prescribe by regulation or instruction, the application of which may be restricted to one or more ports of entry, that such exemption shall be allowed only to residents who have remained beyond the territorial limits of the United States for not less than a specified period, not to exceed 24 hours, and, after the expiration of 90 days after the date of such regulation or instruction, allowance of the said exemption shall be subject to the limitations so prescribed.
- 3. A person arriving in the United States:
 - (a) On duty as an employee of a vessel, vehicle or aircraft, engaged in international traffic, or
 - (b) From a trip during which he was so employed,

shall not be entitled to the exemptions provided for in this subchapter (other than those in subheading 9804.00.80), unless he is permanently leaving such employment without the intention of resuming it on the same or another carrier.

PERSONAL EXEMPTIONS EXTENDED TO DISTINGUISHED VISITORS AND TO PERSONNEL OF FOREIGN GOVERNMENTS OR INTERNATIONAL ORGANIZATIONS

XXII 98-21

- The term "baggage and effects," as used in this subchapter, includes all articles which were in the possession abroad, and
 are being imported in connection with the arrival, of a person and which are intended for his bona fide personal or
 household use, but does not include articles imported as an accommodation to others or for sale or other commercial use.
- The privileges of subheading 9806.00.35 are limited to such personal effects and equipment as are necessary for the
 occasion and temporary visit, and are to be exported no later than 30 days after the conclusion of the public
 demonstration
- 3. The term "articles entered for the personal or family use," as used in this subchapter, does not include articles imported as an accommodation to others or for sale or other commercial use.
- 4. The privileges provided for in this subchapter for representatives, officers, employees and members of the armed forces, of foreign governments, their families, suites and servants, shall be accorded only if their government grants reciprocal privileges to United States personnel of comparable status.

XXII 98-22

SUBCHAPTER VIII

IMPORTATIONS OF THE UNITED STATES GOVERNMENT

XXII 98-25

U.S. Note

With respect to subheading 9808.00.80, the return of materials from space by the National Aeronautics and Space
 Administration shall not be considered an importation, and an entry of such materials shall not be required. In addition,
 subheading 9808.00.80 shall not apply to articles entered or withdrawn from warehouse for consumption after December 31,
 1994.

Statistical Note

1. For any article classifiable under subheading 9808.00.30, 9808.00.40, 9808.00.50 or 9808.00.70, the statistical reporting number shall consist of the 10-digit number provided therefor in this subchapter followed by the statistical reporting number for the provision which would have applied to such article if it were not classifiable in the subchapter, and the unit of quantity to be reported is the unit shown for such article in such other provision. For example, the statistical reporting number for 10 new military cargo transports, of an unladen weight not exceeding 2,000 kg, imported as emergency war materials shall be 9808.00.3000-8802.20.0020 and the quantity shall be reported as 10. See general statistical note 1(a)(x) regarding the reporting of check digits on entry summary and withdrawal forms.

SUBCHAPTER X

IMPORTATIONS OF RELIGIOUS, EDUCATIONAL, SCIENTIFIC AND OTHER INSTITUTIONS

XXII 98-29

- 1. Except as provided in subheadings 9810.00.20, 9810.00.70, 9810.00.85, 9810.00.90 and 9810.00.95, or as otherwise provided for in this U.S. note, the articles covered by this subchapter must be exclusively for the use of the institutions involved, and not for distribution, sale or other commercial use within 5 years after being entered. Articles admitted under any subheading in this subchapter may be transferred from an institution specified with respect to such articles to another such institution, or may be exported or destroyed under customs supervision, without duty liability being incurred. However, if any such article (other than an article provided for in subheading 9810.00.20 or 9810.00.70) is transferred other than as provided by the preceding sentence, or is used for commercial purposes, within 5 years after being entered, the institution for which such article was entered shall promptly notify customs officers at the port of entry and shall be liable for the payment of duty on such article in an amount determined on the basis of its condition as imported and the rate applicable to it (determined without regard to this subchapter) when entered. If, with a view to a transfer (other than a transfer permitted by the second sentence) or the use for commercial purposes of an instrument or apparatus, a repair component admitted under subheading 9810.00.65 has been assembled into such instrument or apparatus, such component shall, for purposes of the preceding sentence, be treated as a separate article.
- 2. The term "regalia," as used in this subchapter, (subheadings 9810.00.15 and 9810.00.45) embraces only such insignia of rank or office, emblems or other articles as may be worn upon the person or borne in the hand during public exercises of the institution, and does not include articles of furniture or fixtures, nor regular wearing apparel, nor personal property of individuals.
- Architectural, engineering, industrial or commercial drawings and plans, and reproductions thereof, are not covered by this subchapter unless they are intended solely for exhibition or for educational use under subheading 9810.00.30 (see chapter 49).
- Painted, colored or stained glass windows, and parts thereof, not covered by subheading 9810.00.10 are provided for in chapter 70.
- Subchapter XII of this chapter contains provisions under which certain institutions may import articles free of duty for permanent exhibition under bond.
- 6. (a) The term "instruments and apparatus" (subheading 9810.00.60) embraces only instruments and apparatus which are both provided for and dutiable in:
 - (i) Chapter 39: heading 3914;
 - (ii) Chapter 69: subheadings 6909.11 through 6909.90, and subheadings 6914.10 and 6914.90;
 - (iii) Chapter 70: subheadings 7017.10 through 7017.90, and subheading 7020.00;
 - (iv) Chapter 71: subheadings 7114.11.70, 7114.19, 7114.20, 7115.10 and 7115.90;
 - (v) Chapter 73: subheadings 7325.10, 7325.91, 7325.99.10, 7325.99.50, 7326.19, 7326.20 and 7326.90;
 - (vi) Chapter 74: subheadings 7419.91, 7419.99.30 and 7419.99.50;
 - (vii) Chapter 75: subheading 7508.00.50 (except electroplating anodes);
 - (viii) Chapter 76: subheading 7616.90;
 - (ix) Chapter 78: subheading 7806.00;
 - (x) Chapter 79: subheading 7907.90.60 (except zinc anodes);
 - (xi) Chapter 80: subheading 8007.00.50;
 - (xii) Chapter 81: articles other than wrought metals, in subheadings 8101.99, 8102.99, 8103.90, 8104.90, 8105.90, 8107.90, 8112.19, 8112.99 and 8113.00;
 - (xiii) Chapter 84: subheadings 8402.11 and 8402.90, subheadings 8404.10 through 8424.90.90, subheadings 8435.10, 8435.90 and 8438.80, subheadings 8454.10 through 8468.90 (except 8468.10), subheadings 8470.10 through 8470.30, subheadings 8471.10, subheadings 8479.10 through 8479.90 (except 8479.20 and 8479.40) and subheadings 8483.10.10 through 8483.10.50;
 - (xiv) Chapter 85: subheadings 8501.10 through 8505.11, subheading 8505.20, subheadings 8505.90 through 8516.32, subheadings 8516.40 through 8522.90, subheadings 8525.10 through 8532.30, subheadings 8533.10 through 8542.90, subheadings 8543.20 through 8544.70 and subheadings 8547.90 and 8548.00;
 - (xv) Chapter 88: subheadings 8801.90 and 8802.50.90 and parts of the goods of subheadings 8801.90 and 8802.50.90 as provided for in heading 8803;
 - (xvi) Chapter 89: subheadings 8907.10 and 8907.90;
 - (xvii) Chapter 90: all subheadings (except 9009.11 through 9009.90, 9013.80 and 9023.00);

Annotated for Statistical Reporting Purposes

XXII 98-30

- (xviii) Chapter 91; all subheadings (except 9113.10 through 9113.90); and
 - (xix) Chapter 96: subheadings 9603.50, 9613.80.20, 9613.90.40 and 9617.00 (except 9617.00.60);

but the term does not include materials or supplies, nor does it include ordinary equipment for use in building construction or maintenance or for use in supporting activities of the institution such as its administrative offices or its eating or religious facilities.

- (b) An institution desiring to enter an article under subheading 9810.00.60 shall make application therefor to the Secretary of the Treasury including therein (in addition to such other information as may be prescribed by regulation) a description of the article, the purposes for which the instrument or apparatus is intended to be used, the basis for the institution's belief that no instrument or apparatus of equivalent scientific value for such purposes is being manufactured in the United States, and a statement that either the institution has already placed a bona fide order for the instrument or apparatus or has a firm intention, in the event of favorable action on its application, to place such an order on or before the final day specified in paragraph (d) of this U.S. note for the placing of an order. If the application is made in accordance with the applicable regulations, the Secretary of the Treasury shall promptly forward copies thereof to the Secretary of Commerce and to the Secretary of Health and Human Services. If, at any time while its application is under consideration by the Secretary of Commerce or by the Court of Appeals for the Federal Circuit on appeal from a finding by him, an institution cancels an order for the instrument or apparatus to which its application relates or ceases to have a firm intention to order such instrument or apparatus, it shall promptly so notify the Secretary of Commerce or such Court, as the case may be.
- (c) Upon receipt of the application, the Secretary of Commerce shall, by publication in the Federal Register, afford interested persons and other Government agencies reasonable opportunity to present their views with respect to the question whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. After considering any views presented pursuant to this paragraph, including any written advice from the Secretary of Health and Human Services, the Secretary of Commerce shall determine whether an instrument or apparatus of equivalent scientific value to such article, for the purposes for which the instrument or apparatus is intended to be used, is being manufactured in the United States. Each finding by the Secretary of Commerce under this paragraph shall be promptly reported to the Secretary of the Treasury and to the applicant institution. Each such finding shall be published in the Federal Register, with a statement of the reasons therefor, on or before the ninetieth day following the date on which the application was made to the Secretary of the Treasury in accordance with applicable regulations.
- (d) Subheading 9810.00.60 shall not apply with respect to any instrument or apparatus unless a bona fide order therefor has been placed, by the institution making the application under this U.S. note, on or before the sixtieth day following the day on which a finding of the Secretary of Commerce favorable to the institution has become final and conclusive.
- (e) Within 20 days after the publication in the <u>Federal Register</u> of a finding by the Secretary of Commerce under paragraph (c) of this U.S. note, an appeal may be taken from said finding only upon a question or questions of law and only to the United States Court of Appeals for the Federal Circuit:
 - (i) by the institution which made the application under paragraph (b) of this U.S. note;
 - (ii) by a person who, in the proceeding which led to such finding, represented to the Secretary of Commerce in writing that he manufactures in the United States an instrument or apparatus of equivalent scientific value for the purposes for which the article to which the application relates is intended to be used,
 - (iii) by the importer thereof, if the article to which the application relates has been entered at the time the appeal is taken, or
 - (iv) by an agent of any of the foregoing.

Any appeal under this paragraph shall receive a preference over all other matters before the Court and shall be heard and determined as expeditiously as the Court considers to be practicable. The judgement of the Court shall be final.

(f) The Secretary of the Treasury and the Secretary of Commerce may prescribe joint regulations to carry out their functions under this note.

TO THE OR DIVINI INDIAN DOUB BOTH DEPOLATION

ARTICLES ADMITTED FREE OF DUTY UNDER BOND FOR PERMANENT EXHIBITION

XXII 98-35

- The provisions of this subchapter do not apply to articles intended for sale or for any purpose other than exhibition or
 erecting a public monument, nor do they apply to any institution or society engaged in or connected with business of a
 private or commercial character. Articles admitted under subheading 9812.00.20 may be transferred from an organization
 specified therein to another such organization, or temporarily to a commercial gallery or other premises, for exhibition
 and not for sale.
- 2. Prior to the release of articles under subheading 9812.00.20 or 9812.00.40, bond shall be given for the payment of lawful duties which may accrue should any of the articles be sold, transferred or used contrary to the provisions of this subchapter within 5 years after the date of entry hereunder, and such articles shall be subject at any time within such 5-year period to exemination and inspection by customs officers. Surety on such bonds may be waived in the discretion of the Secretary of the Treasury.

SUBCHAPTER XIII

ARTICLES ADMITTED TEMPORARILY FREE OF DUTY UNDER BOND

XXII 98-37

U.S. Notes

- (a) The articles described in the provisions of this subchapter, when not imported for sale or for sale on approval, may be admitted into the United States without the payment of duty, under bond for their exportation within 1 year from the date of importation, which period, in the discretion of the Secretary of the Treasury, may be extended, upon application, for one or more further periods which, when added to the initial 1 year, shall not exceed a total of 3 years, except that (1) articles imported under subheading 9813.00.75 shall be admitted under bond for their exportation within 6 months from the date of importation and such a 6-month period shall not be extended, and (2) in the case of professional equipment and tools of trade admitted into the United States under subheading 9813.00.50 which have been seized (other than by seizure made at the suit of private persons), the requirement of reexportation shall be suspended for the duration of the seizure. For purposes of this note, an aircraft engine or propeller, or any part or accessory of either, imported under subheading 9813.00.05, which is removed physically from the United States as part of an aircraft departing from the United States in international traffic shall be treated as exported.
 - (b) For articles admitted into the United States under subheading 9813.00.50, entry shall be made by the nonresident importing the articles or by an organization represented by the nonresident which is established under the laws of a foreign country or has its principal place of business in a foreign country.
 - Merchandise may be admitted into the United States under subheading 9813.00.05 only on condition that:
 - (a) Such merchandise will not be processed into an article manufactured or produced in the United States if such article is:
 - (i) Alcohol, distilled spirits, wine, beer or any dilution or mixture of any or all of the foregoing;
 - (ii) A perfume or other commodity containing ethyl alcohol (whether or not such alcohol is denatured); or
 - (iii) A product of wheat; and
 - (b) If any processing of such merchandise results in an article (other than an article described in (a) of this U.S. note) manufactured or produced in the United States:
 - (i) A complete accounting will be made to the Customs Service for all articles, wastes and irrecoverable losses resulting from such processing; and
 - (ii) All articles and valuable wastes resulting from such processing will be exported or destroyed under customs supervision within the bonded period; except that in lieu of the exportation or destruction of valuable wastes,
 - duties may be tendered on such wastes at rates of duties in effect for such wastes at the time of importation.
- Upon satisfactory proof that any article admitted under subheading 9813.00.30 has been destroyed because of its use for any purpose provided for therein, the obligation under the bond to export such article shall be treated as satisfied.
- 4. District Directors of Customs may defer the exaction of a bond for not to exceed 90 days after the date of importation for vehicles and craft entered under subheading 9813.00.35 to take part in races or other specific contests for other than money purses; but unless any such vehicle or craft is exported or the bond is given within the period of such deferment, such vehicle or craft shall be subject to forfeiture.
- 5. Articles may be admitted under subheading 9813.00.75 only on condition that the Secretary of the Treasury shall have found that the foreign country from which the articles were imported allows, or will allow, substantially reciprocal privileges in respect of similar imports to such country from the United States; and if the Secretary finds that a foreign country has discontinued, or will discontinue, the allowance of such privileges, the privileges of subheading 9813.00.75 shall not apply thereafter in respect of imports from such foreign country.

Statistical Note

 For any article entered under statistical reporting number 9813.00.0520, the proper citation for statistical reporting shall consist of 9813.00.0520 followed by the statistical reporting number for the provision which would have applied if such article were not classifiable in this subchapter and the unit of quantity to be reported is the unit shown for such article in such other provision. See general statistical note 1(a)(x) regarding the reporting of check digits on entry summary and withdrawal forms.

PRODUCTS OF AMERICAN FISHERIES

XXII 98-43

- 1. An American fishery, for the purposes of this subchapter, is a fishing enterprise conducted under the American flag by vessels of the United States on the high seas or in foreign waters in which such vessels have the right, by treaty or otherwise, to take fish or other marine products and may include a shore station operated in conjunction with such vessels by the owner or master thereof.
- 2. None of the subheadings in this subchapter shall apply to fish, fresh, chilled or frozen, in the form of fillets, steaks or slices substantially free of bone (including any of the foregoing divided into sections), if produced in a foreign country, or its territorial waters, in whole or in part with the use of the labor of persons who are not residents of the United States.

SUBCHAPTER XVI

NONCOMMERCIAL IMPORTATIONS OF LIMITED VALUE

XXII 98-45

U.S. Note

For the purposes of this subchapter the rates of duty for articles provided in this subchapter shall be assessed in lieu
of any other rates of duty, except free rates of duty on such articles, unless the Secretary of the Treasury or his
delegate determines, in accordance with regulations, that the application of the rate of duty provided in this subchapter
to any article in lieu of the rate of duty otherwise applicable thereto adversely affects the economic interest of the
United States.

SUBCHAPTER XVII

OTHER SPECIAL CLASSIFICATION PROVISIONS

XXII 98-47

- 1. (a) No article shall be exempted from duty under subheading 9817.00.40 unless either --
 - (i) a Federal agency (or agencies) designated by the President determines that such article is visual or auditory material of an educational, scientific or cultural character within the meaning of the Agreement for Facilitating the International Circulation of Visual and Auditory Materials of an Educational, Scientific, and Cultural Character (17 UST (pt. 2) 1578; Beirut Agreement), or
 - (ii) such article --
 - (A) is imported by, or certified by the importer to be for the use of, any public or private institution or association approved as educational, scientific, or cultural by a Federal agency or agencies designated by the President for the purpose of duty-free admission pursuant to the Nairobi Protocol to the Florence Agreement, and
 - (B) is certified by the importer to be visual or auditory material of an educational, scientific, or cultural character or to have been produced by the United Nations or any of its specialized agencies. For the purposes of subparagraph (1), whenever the President determines that there is, or may be, profitmaking exhibition or use of articles described in subheading 9817.00.40 which interferes significantly (or threatens to interfere significantly) with domestic production of similar articles, he may prescribe regulations imposing restrictions on the entry under one of the above-cited subheadings of such foreign articles to insure that they will be exhibited or used only for nonprofitmaking purposes.
 - (b) For purposes of subheadings 9817.00.42 through 9817.00.48, inclusive, no article shall be exempted from duty unless it meets the criteria set forth in the subparagraphs (a)(ii)(A) and (B) of this note.
- The provisions of subheadings 9817.00.50 and 9817.00.60 do not apply to:
 - (a) articles provided for in chapter 25;
 - (b) articles provided for in subheading 3212.10;
 - (c) articles provided for in subheading 3926.90.30;
 - (d) articles of leather or of fur on the skin;
 - (e) articles of textile material;
 - (f) articles provided for in section XIII (except heading 6808 and subheadings 6809.11, 7018.10, 7018.90 and 7019.20);
 - (g) articles provided for in chapter 71;
 - (h) articles provided for in chapter 72;
 - (ij) articles provided for in chapter 73 (except subheadings 7308.10, 7308.20, 7308.40 and 7308.90, subheadings 7315.81 through 7315.89, subheadings 7319.20, 7319.30, 7325.10, 7325.91, 7326.11 and 7326.19);
 - (k) articles provided for in chapter 74 (except subheadings 7419.10 and 7419.91);
 - (1) articles provided for in chapter 75;
 - (m) articles provided for in chapter 76 (except heading 7610);
 - (n) articles provided for in chapter 78;
 - (o) articles provided for in chapter 79 (except subheading 7907.10);
 - (p) articles provided for in chapter 80;
 - (q) articles provided for in chapter 81 (except subheadings 8101.99 and 8102.99);
 - (r) articles provided for in chapter 82;
 - (s) articles provided for in chapter 83;
 - (t) articles provided for in subheadings 8419.81.10, 8419.81.50, 8419.81.90, 8427.10, 8427.20, 8427.90 and 8431.20, headings 8432, 8433 and 8434, subheadings 8435.10 and 8435.90, heading 8436, subheadings 8438.80, 8468.10, 8472.90.40 and 8479.89, subheadings 8482.10.10 through 8482.99.70 (other than subheading 8482.91) and subheadings 8483.10.50 and 8485.10;
 - (u) articles provided for in chapter 85 (except subheadings 8519.91 through 8519.99, headings 8523 and 8524, subheadings 8532.90, 8539.90, 8543.10, 8543.20, 8543.30, 8543.80.60, 8543.80.90, 8543.90, 8544.70, 8546.90, 8547.20 and 8548.00);
 - (v) articles provided for in chapter 86;

Annotated for Statistical Reporting Purposes

XXII 98-48

- (w) articles provided for in chapter 87 (except bicycles and other cycles, not motorized, and parts thereof), but interchangeable agricultural and horticultural implements are classifiable in subheading 9817.00.50 even if mounted at the time of importation on a tractor provided for in chapter 87;
- (x) articles provided for in chapter 88 (except heading 8805);
- (y) articles provided for in chapter 89 (except headings 8901, 8902 and 8904, subheadings 8905.10 and 8905.20, and headings 8907 and 8908);
- (z) articles provided for in subheadings 9006.62, 9032.89.20, 9032.89.40, 9032.90.20 and 9032.90.40;
- (as) articles provided for in subheadings 9101.12, 9102.12, 9102.91.20, 9103.10.20, 9104.00.05 and 9104.00.45;
- (ab) articles provided for in heading 9405 (except subheadings 9405.60.60 and 9405.92);
- (ac) articles provided for in subheadings 9505.10.10, 9506.21.40 and 9506.21.80;
- (ad) articles provided for in subheadings 9603.50, 9604.00, 9605.00 and 9616.10; or
- (ae) articles provided for in heading 9705.
- (a) Subheading 9817.00.80 does not apply when the market price of copper is under \$1.12 per kilogram.
 - (b) For purposes of subparagraph (a), the market price of copper is the average market price per kilogram for one calendar month of electrolytic copper in standard shapes and sizes, delivered Connecticut Valley, as determined by the United States International Trade Commission and reported to the Secretary of the Treasury in accordance with procedures set forth below.
 - (c) For purposes of subparagraph (a), the market price of copper shall be considered to be under \$1.12 per kilogram only on and after the twentieth day after the date of a report by the United States International Trade Commission to the Secretary of the Treasury that it has determined that the market price has been under \$1.12 per kilogram for one calendar month. After any such report, the market price shall be considered as not being under \$1.12 per kilogram only on and after the twentieth day after the date of a report by the Commission to the Secretary that it has determined that the market price has been \$1.12 or more per kilogram for one calendar month.
 - (d) Determinations by the said Commission of the market price of electrolytic copper shall be based upon sources commonly resorted to by the buyers of copper in the usual channels of commerce, including, but not limited to, quotations of the market price for electrolytic copper, in standard shapes and sizes, delivered Connecticut Valley, reported by the Engineering and Mining Journal's "Metal and Mineral Markets".
- 4. (a) For purposes of subheadings 9817.00.92, 9817.00.94 and 9817.00.96, the term "blind or other physically or mentally handicapped persons" includes any person suffering from a permanent or chronic physical or mental impairment which substantially limits one or more major life activities, such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, or working.
 - (b) Subheadings 9817.00.92, 9817.00.94 and 9817.00.96 do not cover --
 - (i) articles for acute or transient disability;
 - (ii) spectacles, dentures, and cosmetic articles for individuals not substantially disabled;
 - (iii) therapeutic and diagnostic articles; or
 - (iv) medicine or drugs.

Statistical Note

- 1. For statistical reporting of merchandise under subheadings 9817.00.80 and 9817.00.90:
 - (a) Report the 8-digit number (or 10-digit number, if any) found in this subchapter in addition to the 10-digit number appearing in chapters 1-97 which would be applicable but for the provisions of this subchapter; and
 - (b) The quantities reported should be in the units provided in chapters 1-97.

See general statistical note 1(a)(x) regarding the reporting of check digits on entry summary and withdrawal forms.

CHAPTER 99

TEMPORARY LEGISLATION; TEMPORARY MODIFICATIONS ESTABLISHED PURSUANT TO TRADE LEGISLATION; ADDITIONAL IMPORT RESTRICTIONS ESTABLISHED PURSUANT TO SECTION 22 OF THE AGRICULTURAL ADJUSTMENT ACT, AS AMENDED

XXII 99-1

U.S. Notes

- The provisions of this chapter relate to legislation and to executive and administrative actions pursuant to duly constituted authority, under which:
 - (a) One or more of the provisions in chapters 1 through 98 are temporarily amended or modified; or
 - (b) Additional duties or other import restrictions are imposed by, or pursuant to, collateral legislation.
- 2. Unless the context requires otherwise, the general notes and rules of interpretation, the section notes, and the notes in chapters 1 through 98 apply to the provisions of this chapter.

Statistical Notes

- 1. For statistical reporting of merchandise provided for herein:
 - (a) Unless more specific instructions appear in the subchapters of this chapter, report the 8-digit subheading number (or 10-digit statistical reporting number, if any) found in this chapter in addition to the 10-digit statistical reporting number appearing in chapters 1 through 97 which would be applicable but for the provisions of this chapter; and
 - (b) The quantities reported should be in the units provided in chapters 1 through 97.
- 2. For those subheadings herein for which no rate of duty appears (i.e., those subheadings for which an absolute quota is prescribed), report the 8-digit subheading number herein followed by the appropriate 10-digit statistical reporting number from chapters 1 through 97. The quantities reported should be in the units provided in chapters 1 through 97.
- 3. See general statistical note 1(a)(x) regarding the reporting of check digits on entry summary and withdrawal forms.

NOTICE TO EXPORTERS

The statistical reporting numbers contained in this chapter apply only to imports and may not be reported on Shipper's Export Declarations. See Notice to Exporters preceding chapter 1.

Annotated for Statistical Reporting Purposes

SUBCHAPTER I

TEMPORARY LEGISLATION PROVIDING FOR ADDITIONAL DUTIES

XXII 99-3

U.S. Note

- The duties provided for in this subchapter are cumulative duties which apply in addition to the duties, if any, otherwise
 imposed on the articles involved. The duties provided for in this subchapter apply only with respect to articles entered
 during the period specified in the last column.
- 2. For purposes of subheading 9901.00.50, the phrase "is suitable for any such uses" does not include ethyl alcohol (provided for in subheadings 2207.10.50 and 2207.20) that is certified by the importer of record to the satisfaction of the Commissioner of Customs (hereinafter in this note referred to as the "Commissioner") to be ethyl alcohol or a mixture containing such ethyl alcohol imported for uses other than liquid motor fuel use or use in producing liquid motor fuel related mixtures. If the importer of record certifies nonliquid motor fuel use for purposes of establishing actual use or suitability under subheading 9901.00.50, the Commissioner shall not liquidate the entry of ethyl alcohol until he is satisfied that the ethyl alcohol has in fact not been used for liquid motor fuel use or use in producing liquid motor fuel related mixtures. If he is not satisfied within a reasonable period of time not less than 18 months from the date of entry, then the duties provided for in subheading 9901.00.50 shall be payable retroactive to the date of entry. Such duties shall also become payable, retroactive to the date of entry, immediately upon the diversion to liquid motor fuel use of any ethyl alcohol or ethyl alcohol mixture certified upon entry as having been imported for nonliquid motor fuel use.

SUBCHAPTER II

TEMPORARY REDUCTIONS IN RATES OF DUTY

XXII

U.S. Notes

- Any article described in the provisions of this subchapter, if entered during the period specified in the last column, is subject to duty at the rate set forth herein in lieu of the rate provided therefor in chapters 1 to 98, inclusive.
- Subheading 9902.84.71 shall not apply to any article classifiable in subheading 9903.41.20 or 9903.41.25, to the extent to
 which one or both of these subheadings is in effect. This note and subheading 9902.84.71 shall be deleted from the tariff
 schedule and shall cease to apply to any article entered more than two years after the effective date of the tariff
 schedule.
- (a) For so long as subheading 9902.51.01 is in effect, additional U.S. notes 2(d)(ii), 2(d)(iii), and 2(d)(iv) of chapter 51 shall be suspended.
 - (b) For the purposes of subheading 9902.51.01, a tolerance of not more than 10 percent of wools not finer than 48s may be allowed in each bale or package of wools imported as not finer than 46s.
- 4. For the purposes of the superior heading to subheadings 9902.57.01 and 9902.57.02, the term "mass-produced kits" includes only those which are designed to be sold in the customs territory of the United States exclusively in kit form.
- 5. For the purposes of subheading 9902.85.27, the term "entertainment broadcast band receivers" means receivers designed principally to receive signals in the AM (530-1710 kHz) and FM (88-108 MHz) entertainment broadcast bands, whether or not capable of receiving signals on other bands such as aviation, television, marine, public safety, industrial and citizens bands.
- 6. For the purposes of subheading 9902.95.03 --
 - (a) The term "toy figures of inamimate objects" refers only to imaginary creatures that either:
 - (i) do not possess features of human or other earthly creatures;
 - (ii) possess both earthly and non-earthly features but are predominantly non-earthly in nature; or
 - (iii) possess features which are a hybrid of features of more than one animate object.

This definition does not cover toy figures of objects which are readily recognizable as vegetables, minerals, robots or machines, whether or not such figures possess humanoid or earthly features.

- (b) The term "filled" includes toy figures which are not completely filled or are filled with materials such as plastic beads or crushed nutshells but which otherwise possess the characteristics of toy figures classifiable as "stuffed".
- 7. For purposes of subheading 9902.61.00, the term "duty-free quantity" means-
 - (a) for the 12-month period ending October 31, 1986, 161,600 dozen; and
 - (b) for any 12-month period thereafter, an amount equal to 101 percent of the duty-free quantity for the preceding 12-month period.
- 8. Notwithstanding the effective period specified in the last column for each of the subheadings of this subchapter enumerated herein, in the case of goods originating in the territory of Canada and eligible for duty-free entry under any such subheading, the rate of duty of "free" shall continue to apply until the rate of duty applicable to goods originating in the territory of Canada in the referenced subheading or subheadings has been reduced to "free":

| 9902.26.22 | 9902.29.56 | 9902.29.89 | 9902.29.96 | 9902.30.05 | 9902.84.49 |
|------------|------------|------------|------------|------------|------------|
| 9902.29.05 | 9902.29.70 | 9902.29.90 | 9902.29.98 | 9902.30.06 | 9902.84.50 |
| 9902.29.08 | 9902,29,78 | 9902.29.91 | 9902.29.99 | 9902.38.10 | |
| 9902.29.09 | 9902.29.81 | 9902.29.92 | 9902.30.00 | 9902.40.08 | |
| 9902.29.20 | 9902.29.82 | 9902.29.93 | 9902.30.01 | 9902.71.04 | |
| 9902.29.27 | 9902.29.83 | 9902.29.94 | 9902.30.03 | 9902.84.42 | |
| 9902.29.34 | 9902,29.85 | 9902.29.95 | 9902.30.04 | 9902.84.48 | |

On and after December 31, 1998, this note shall be deleted from the tariff schedule and shall cease to apply to any article entered after that date.

9. The "Effective Period" for subheading 9902.30.02 is:

On or before the earlier of 12/31/92 or the date (as determined by the U.S. Trade Representative) on which the rate of duty imposed by the European Communities on articles described in subheading 2939.30.00 exceeds the rate of duty imposed by the United States on such articles that was in effect on 6/30/88.

SUBCHAPTER III

TEMPORARY MODIFICATIONS ESTABLISHED PURSUANT TO TRADE LEGISLATION

XXII 99-21

U.S. Notes

- This subchapter contains the temporary modifications of the provisions in the tariff schedule established pursuant to trade legislation. Unless otherwise stated, the modified provisions are effective until suspended or terminated. Unless the context requires otherwise, any article described in the provisions of this subchapter, for which rates of duty are herein provided, if entered during the period specified, is subject to duty at the rate set forth herein in lieu of the rate provided therefor in chapters 1 to 98.
- 2. For the purposes of subheadings 9903.17.05 through 9903.17.30, inclusive, the term "product of the European Economic Community" refers to products of the member states of this instrumentality which includes Belgium, Denmark, France, the Federal Republic of Germany, Greece, Ireland, Italy, Luxembourg, the Netherlands, Portugal, Spain and the United Kingdom.
- 3. For the purposes of subheadings 9903.41.05 and 9903.41.10, the duties provided for in this subchapter are cumulative duties which apply in addition to the duties otherwise imposed on the articles involved.
- 4. Additional duties and quantitative limitations on certain stainless steel and alloy tool steel. -- The provisions of this note apply to subheadings 9903.72.00 through 9903.72.44 of this subchapter. The duties provided for in subheadings 9903.72.00 and 9903.72.01 and the quantitative limitations set forth in subheadings 9903.72.10 through 9903.72.34 are in addition to the duties provided for the subject articles in chapter 72 or in subheading 9808.00.30, where applicable.
 - (a) Definitions, -- For the purposes of this subchapter:
 - (i) The term "restraint period" refers to a period provided for in the article description column for subheadings 9903.72.10 through 9903.72.34;
 - (ii) The term "razor blade steel of the type described in U.S. note 4(a)(ii) to this subchapter" refers to products of stainless steel of the type described in U.S. note 4(a)(xi) to this subchapter, which are flat rolled, not over 0.254 mm in thickness and not over 2.286 cm in width--and, when cold rolled, are over 1.27 cm in width--containing by weight not less than 11.5 percent, and not over 14.7 percent chromium, and are certified at the time of entry to be used in the manufacture of razor blades. The terms "concrete reinforcing bars and rods," "chipper knife steel" and "ball bearing steel" are defined as provided in additional U.S. notes 1(c), 1(f) and 1(h), respectively, to chapter 72;
 - (iii) The term "band saw steel" refers to alloy tool steel which contains, in addition to iron, each of the following elements by weight in the amounts specified:
 - (A) carbon: not less than 0.47 nor more than 0.53 percent;
 - (B) manganese: not less than 0.6 nor more than 0.9 percent;
 - (C) sulfur: none, or not more than 0.015 percent;
 - (D) phosphorus: none, or not more than 0.025 percent;
 - (E) silicon: not less than 0.1 nor more than 0.25 percent;
 - (F) chromium: not less than 0.9 nor more than 1.1 percent;
 - (G) nickel: not less than 0.5 nor more than 0.7 percent;
 - (H) molybdenum: not less than 0.9 nor more than 1.1 percent; and
 - (IJ) vanadium; not less than 0.08 percent nor more than 0.15 percent;
 - (iv) The term "cladding grade 434 stainless steel flat-rolled products" refers to stainless steel flat-rolled products, not under 1.397 mm and not over 1.651 mm in thickness, not under 64.77 cm and not over 66.675 cm in width, containing by weight not more than 0.12 percent carbon; not less than 16 percent nor more than 18 percent chromium; and not less than 0.75 percent nor more than 1.25 percent molybdenum; certified by the importer of record or the ultimate consignee at the time of entry for use in the manufacture of stainless steel-clad-aluminum automobile trim:
 - (v) The term "stainless steel of the type described in U.S. note 4(a)(v) to this subchapter" refers to the stainless steel grades described in either subparagraph (A) or (B) below which contain, in addition to iron, each of the following elements by weight in the amounts specified:

```
(A) carbon: not more than 0.02 percent;
silicon: not less than 0.2 percent nor more than 0.8 percent;
not less than 0.2 percent nor more than 1 percent;
not less than 19.5 percent nor more than 20.5 percent;
not less than 17.5 percent nor more than 18.5 percent;
not less than 6 percent nor more than 6.5 percent;
not less than 0.18 percent nor more than 0.22 percent;
not less than 0.18 percent nor more than 0.22 percent;
sulfur: not more than 0.03 percent;
phosphorus: not more than 0.04 percent; or
```

Annotated for Statistical Reporting Purposes

```
(B) carbon:
silicon:
manganese:
chromium:
nickel:
nitrogen:
sulfur:
phosphorus:
not less than 0.05 percent nor more than 0.1 percent;
not less than 1.4 percent nor more than 0.8 percent;
not less than 0.2 percent nor more than 0.8 percent;
not less than 10 percent nor more than 12 percent;
not less than 10 percent nor more than 12 percent;
not less than 0.14 percent nor more than 0.2 percent;
not less than 0.03 percent nor more than 0.08 percent;
not more than 0.03 percent;
```

- (vi) The term "<u>flapper valve steel</u>" refers to products of stainless steel of the type described in U.S. note 4(a)(ix) to this subchapter, which are flat rolled, not over 1.27 mm in thickness and not over 30.48 cm in width—and when cold rolled, are over 1.27 mm in width—and are certified by the importer of record or the ultimate consignee at the time of entry for use in the manufacture of stainless steel flapper valves for compressors;
- (vii) The term "rotor steel for hysteresis motors" refers to products of tool steel of the type described in U.S. note 4(a)(xi) to this subchapter, which are flat rolled, not over 1.27 mm in thickness and not over 30.48 cm in width--and, when cold rolled, are over 1.27 cm in width--containing by weight not less than 0.5 percent carbon and not less than 5.5 percent tungsten, and are certified by the importer of record or the ultimate consignee at the time of entry for use in the manufacture of rotor rings or cups for hysteresis motors;
- (viii) The term "tool steel of the type described in U.S. note 4(a)(viii) to this subchapter" refers to the alloy tool steel grades described in any one of the subparagraphs (A) through (F) below which contain, in addition to iron, each of the following elements by weight in the amounts specified:

```
(A) carbon:
                        not less than 0.85 percent nor more than 1.05 percent;
                        not less than 0.95 percent nor more than 1.75 percent:
      manganese:
                        less than 0.03 percent;
      sulfur:
                        less than 0.03 percent;
not less than 0.45 percent nor more than 0.9 percent;
      phosphorus:
      silicon:
                        not less than 0.9 percent nor more than 1.8 percent;
less than 0.35 percent;
less than 0.35 percent;
      chromium:
      nickel:
      copper:
      molybdenum: less than 0.1 percent;
      carbon: not less than 0.95 percent nor more than 1.05 percent; manganese: not less than 0.95 percent nor more than 1.25 percent; sulfur: not more than 0.025 percent; not more than 0.025 percent;
(B) carbon:
      silicon:
                       not less than 0.45 percent nor more than 0.75 percent;
                       not less than 0.9 percent nor more than 1.2 percent;
      chromium:
      nickel: not more than 0.25 percent;
copper: not more than 0.35 percent;
molybdenum: not more than 0.08 percent;
(C) carbon:
                        not less than 0.85 percent nor more than 1 percent;
      manganese: not less than 1.4 percent nor more than 1.7 percent; sulfur: not more than 0.025 percent; phosphorus: not more than 0.025 percent;
      silicon:
                       not less than 0.5 percent nor more than 0.8 percent;
      chromium:

certified by the importer of record or the ultimate consignee at the time of entry for use in the anufacture of ball or roller bearings.

- (ix) The term "stainless steel of the type described in U.S. note 4(a)(ix) to this subchapter" refers to stainless steel which contains by weight less than 1 percent carbon and over 11.5 percent chromium;
- (x) The term "alloy steel of the type described in U.S. note 4(a)(x) to this subchapter" refers to steel which contains one or more of the following elements in the quantity, by weight, respectively indicated:

```
over 1.65 percent manganese, or over 0.25 percent phosphorus, or over 0.35 percent sulfur, or over 0.60 percent silicom, or over 0.60 percent copper, or over 0.30 percent aluminum, or over 0.20 percent chromium, or over 0.30 percent cobalt, or over 0.35 percent lead, or over 0.50 percent nickel, or over 0.30 percent nickel, or over 0.30 percent of any other metallic element;
```

- (xi) The term "tool steel of the type described in U.S. note 4(a)(xi) to this subchapter" refers to allow steel of the type described in U.S. note 4(a)(x) to this subchapter containing the following combination of elements in the quantity, by weight, respectively indicated:
 - (A) Not less than 1.0 percent carbon and over 11.0 percent chromium; or
 - (B) Not less than 0.3 percent carbon and 1.25 percent of 11.0 percent inclusive chromium; or
 - (C) Not less than 0.85 percent carbon and 1.0 percent to 1.8 percent inclusive manganese; or
 - (D) 0.9 percent to 1.2 percent inclusive chromium and 0.9 percent to 1.4 percent inclusive molybdenum; or
 - (E) not less than 0.5 percent carbon and not less than 3.5 percent molybdenum; or
 - (F) not less than 0.5 percent carbon and not less than 5.5 percent tungsten;
- (xii) The term "high speed tool steel of the type described in U.S. note 4(a)(xii) to this subchapter" refers to all tool steel of the type described in U.S. note 4(a)(xi) to this subchapter containing by weight not less than 0.5 percent carbon and not less than 3.5 percent molybdenum, or not less than 0.5 percent carbon and not less than 5.5 percent tungsten;
- (xiii) The term "plate of the type described in U.S. note 4(a)(xiii) to this subchapter" refers to products which are flat rolled, whether or not corrugated or crimped, 4.7625 mm or more in thickness and over 20.32 cm in width when hot rolled or over 30.48 cm in width when cold rolled;
- (xiv) The term "sheet of the type described in U.S. note 4(a)(xiv) to this subchapter" refers to products which are flat rolled, whether or not corrugated or crimped, less than 4.7625 mm in thickness and over 30.48 cm in width;
- (xv) The term "strip of the type described in U.S. note 4(a)(xv) to this subchapter" refers to products which are flat rolled, whether or not corrugated or crimped, less than 4.7625 mm in thickness, not over 30.48 cm in width and, if cold rolled, over 1.27 cm in width;
- (xvi) The term "wire of the type described in U.S. note 4(a)(xvi) to this subchapter" refers to products which are either cold drawn, in coils, of any cross-sectional configuration and not over 17.8562 mm in maximum cross-sectional dimension; or in coils with a cold rolled finish, of solid rectangular cross section, not over 6.35 mm in thickness and not over 1.27 cm in width;
- (xvii) The term "wire rod of the type described in U.S. note 4(a)(xvii) to this subchapter" refers to products which are hot rolled, in coils, approximately round in cross section, and at least 5.08 mm but not exceeding 18.796 mm in diameter.
- (b) Shortfall.--During the last 30-day period of a restraint period, if the United States Trade Representative (USTR) determines that any quota quantity under an item hereof is unlikely to be used during that restraint period, the USTR may, to the extent permitted by law, modify the quota quantity for that item during the remainder of that restraint period to reallocate the shortfall or any portion thereof to the quota quantity of any other item, such modifications to be effective on the date of their publication in the Federal Register.

Annotated for Statistical Reporting Purposes

- (c) <u>Carryover</u>.--Whenever the quota quantity specified for any of the individually named countries for an item has not been entered during any semi-annual restraint period, entry may be made during the subsequent semi-annual restraint period of an amount up to 20 percent (10 percent in the case of shortfalls occurring in the second semi-annual restraint period in any quota year) of the base limit for the restraint period in which the shortfall occurs, but not to exceed the difference between the quota quantity specified for such restraint period and the amount entered during that period; and such amount shall not be counted against the quota quantity thereof.
- (d) Exceeding restraint levels. -- The restraint level for any quota quantity allocated to any of the individually named countries may be exceeded by not more than 10 percent during the first semi-annual restraint period in any quota year, by not more than 3 percent in the second semi-annual restrain period in any quota year and shall not be exceeded in the period from July 20, 1989 through September 30, 1989. If a quota quantity is exceeded during a restraint period, a downward adjustment of the corresponding quota quantity for the next semi-annual restraint period in the absolute amount the preceding restraint level was exceeded shall be made.
- (e) Adjustments. -- If any country-by-country allocations of quota quantities are made by the USTR, the USTR may make the necessary adjustments to the appropriate quota quantities.
- (f) <u>United States International Trade Commission (USITC) surveys.</u>—The USITC shall conduct annual mandatory surveys with respect to the products subject to import relief under each item involved to obtain from domestic producers data by calendar quarter on profits, orders and inventories, and annual data on production, shipments, employment, capital expenditures, capacity, and research and development expenditures. The initial survey shall cover calendar year 1987, and the results shall be published by March 31, 1988. The final survey shall cover calendar year 1988, and the results shall be published by March 31, 1989. With each annual survey, the USITC shall also report the production, capacity and capacity utilization, to the extent the information can be obtained, for each country which is a major supplier of imports, and any projected changes in production, capacity and capacity utilization for those countries.
- (g) Products Subject to Certain Export Restraint Agreements. --
 - (i) The duties provided for in subheadings 9903.72.00 and 9903.72.01 shall not apply to products of Australia, Austria, Brazil, Czechoslovakia, the European Communities, German Democratic Republic, Hungary, Japan, Mexico, People's Republic of China, Poland, the Republic of Korea, Romania, South Africa, Venezuela or Yugoslavia, exported to the United States on or after March 1, 1986. The duties provided for in subheadings 9903.72.00 and 9903.72.01 shall not apply to products of Trinidad and Tobago exported to the United States on or after October 15, 1987.
 - (ii) The quantitative limitations provided for in subheadings 9903.72.10 through 9903.72.24, inclusive, shall not apply to products of Brazil, or the following Member States of the European Communities: Belgium, Demmark, Federal Republic of Germany, France, Greece, Ireland, Italy, Luxembourg, the Netherlands, and the United Kingdom of Great Britain and Northern Ireland.
 - (iii) The quantitative limitations provided for in subheadings 9903.72.30 through 9903.72.34, inclusive, shall not apply to products of Austria, Brazil, or the following Member States of the European Communities: Belgium, Denmark, Federal Republic of Germany, France, Greece, Ireland, Italy, Luxembourg, the Netherlands, and the United Kingdom of Great Britain and Northern Ireland.
- (h) Regarding shipments of mold blocks from Canada into the United States:
 - (i) The term "mold blocks" refers to products of either stainless steel bar or alloy tool steel whose chemistry meets that of either H13 hot-work tool steel forged bars, P20 mold steel forged bars, or hardenable Cr stainless steel 420 forged bars, as defined in subparagraphs (a), (b), and (c) below:
 - (A) "H13 hot-work tool steel forged bars" refers to forged bars of the alloy tool steel grade containing by weight, in addition to iron, not less than 0.32 percent nor more than 0.45 percent carbon; not less than 4.75 percent nor more than 5.50 percent chromium; not less than 0.20 percent nor more than 0.5 percent manganese; not less than 1.10 percent nor more than 1.75 percent molybdenum; not more than 0.030 percent phosphorous; not more than 0.030 percent sulfur; not less than 0.80 percent nor more than 1.20 percent silicon; and not less than 0.80 percent nor more than 1.20 percent vanadium.
 - (B) "P20 mold steel forged blocks" refers to forged bars of the alloy tool steel grade containing by weight, in addition to iron, not less than 0.28 percent nor more than 0.40 percent carbon; not less than 1.40 percent nor more than 2.00 percent chromium; not less than 0.60 percent nor more than 1.00 percent manganese; not less than 0.30 percent nor more than 0.55 percent molybdenum; not more than 0.030 percent phosphorous; not more than 0.030 percent sulfur; and not less than 0.20 percent nor more than 0.80 percent silicon.
 - (C) "Hardenable Cr Stainless Steel 420 forged bars" refers to stainless steel forged bars containing by weight over 0.15 percent carbon; not less than 12.00 percent nor more than 14 percent chromium; not more than 1.00 percent manganese; not more than 0.040 percent phosphorous; not more than 0.030 percent sulfur; not more than 1.00 percent silicon.
 - (ii) Mold blocks may only be forged bars of P20 mold steel, forged bars of H13 hot-work tool steel, and hardenable Cr stainless steel 420 forged bars of Canadian origin which are used in the United States to produce plastic injection molds, die-casting molds, and metal forming dies for automotive components. If rectangular, these bars must be between 10.16 and 101.6 cm in thickness and between 33.02 and 182.88 cm in width. Round bars of these steels must be between 20.32 and 60.96 cm in diameter. The rectangular bars must be machined on four faces at 90 degrees. In addition, one surface must be machined not to exceed 250AA roughness height (250 R.M.S. value), and surfaces must be perpendicular within 0.1588 cm. The round bars must be machined on both end faces, and their periphery must be machined not to exceed 250AA roughness height (250 R.M.S. value).

Annotated for Statistical Reporting Purposes

- (iii) In order for the product to be considered a mold block, the Canadian government and the importer must certify that the product meets the requirements set forth in subparagraphs (i) and (ii) above. The Canadian government will certify that the tomnage in the shipment, when added to other such certified shipments during the same restraint period, does not exceed the tomnage allowed under subheading 9903.72.40, 9903.72.42, or 9903.72.44, as appropriate. Such certification must be endorsed by the competent Canadian government authorities and presented to U.S. Customs at the time of entry into the United States.
- (iv) The Government of the United States will allow entry of such mold blocks only to the extent that the quantity of mold blocks entered does not exceed the quantities set forth in subheadings 9903.72.40, 9903.72.42, and 9903.72.44, respectively. Entries in excess of such quantity will be subject to the restraint levels described in subheadings 9903.72.10, 9903.72.12, 9903.72.14, 9903.72.30, 9903.72.32, and 9903.72.34, as appropriate.
- 5. Quantitative limitations on certain tungstem articles. -- The provisions of this note apply to subheadings 9903.28.05 through 9903.28.25, inclusive. The limitations imposed are in addition to the duties provided for the restrained articles in chapter 28 or in chapter 98, where applicable. The quantitative limitations shall include imports entered, or withdrawn from warehouse for consumption, informal entries, temporary imports under bond, and imports under chapter 98.
 - (a) Definitions. -- For purposes of this subchapter--
 - (i) the term "tungsten articles" means ammonium paratungstate provided for in subheading 2841.80 and tungstic acid provided for in subheading 2825.90.50;
 - (b) Export certificate. -- Effective January 1, 1988, none of the tungsten articles provided for herein that are exported from the People's Republic of China (the PRC) shall be entered, or withdrawn from warehouse for consumption, unless such tungsten articles are accompanied by a validated export certificate issued by the competent authority of the Government of the People's Republic of China;
 - (c) <u>Carryover.--Whenever</u> the specified limit of imports has not been entered during a period, an amount not to exceed 5 percent (except that the United States Trade Representative may by prior determination permit a carryover of greater than 5 percent) of the limit specified in the period in which the shortfall occurred may be entered in the subsequent period.
 - (d) Exceeding restraint levels. -- The USTR may by Federal Register notice authorize an increase in the specified limits of imports by not more than 10 percent during any period, except that the USTR may by prior determination permit an increase of greater than 10 percent. If a specified limit of imports is exceeded during a period, there shall be a downward adjustment of the specified limit for the next period in the amount the preceding specified limit was exceeded. To the extent that imports of the tungsten articles provided for herein exceed 771,114 kilograms tungsten content for calendar year 1987, the specified limits for subsequent periods will be reduced according to the following schedule: the 1988 calendar year specified limit shall be reduced by 50 percent of the excess; the specified limit of 1989 shall each be reduced by 30 percent of the excess; and the specified limit of 1990 shall be reduced by 20 percent of the excess.
 - (e) United States International Trade Commission (USITC) surveys.—The USITC shall conduct annual surveys (pursuant to section 332 of the Tariff Act of 1930) to obtain data on ammonium paratungstate, tungstic acid and tungsten oxide (provided for in subheading 2825.90.30) from producers in the United States by calendar quarter on shipments, profits, capacity and capacity utilization, and annual data on capital expenditures and research and development expenditures; and to obtain data on such products from importers by calendar quarter on prices, orders, and inventories. The initial survey shall cover calendar year 1987 and shall be published by March 31, 1988, and the results of subsequent annual surveys shall be published on March 31 of each year thereafter as long as the agreement is in effect.
 - (f) Administration of import limitations. -- Imports accounting for no more than 65 percent of each annual specified limit may be entered in any two consecutive quarters in that year unless authorized by a determination of the USTR.
- The following provisions have been suspended pursuant to executive action: subheadings 9903.04.05 through 9903.04.55, inclusive, subheading 9903.23.10, subheading 9903.41.25, and subheadings 9903.41.35 through 9903.41.45, inclusive.

SUBCHAPTER IV

ADDITIONAL IMPORT RESTRICTIONS ESTABLISHED PURSUANT TO SECTION 22 OF THE AGRICULTURAL ADJUSTMENT ACT. AS AMENDED

XXII 99-41

U.S. Notes

- 1. This subchapter covers the provisions established pursuant to section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624), imposing import fees, herein referred to as duties, and quantitative limitations on articles imported into the United States. The duties provided for in this subchapter are cumulative duties which apply in addition to the duties, if any, otherwise imposed on the articles involved. Unless otherwise stated, the duties and quantitative limitations provided for in this subchapter apply until suspended or terminated.
- 2. Exclusions. -- The import restrictions provided for in this subchapter do not apply with respect to:
 - (a) Articles imported by or for the account of any agency of the United States;
 - (b) Commercial samples of cotton or cotton waste of any origin in uncompressed packages each weighing not more than 22.65 kilograms gross weight; and articles (except cotton and cotton waste) with an aggregate value not over \$25 in any shipment, if imported as samples for taking orders, for the personal use of the importer or for research;
 - (c) Articles entered for exhibition, display or sampling at a trade fair or for research, but only if written approval of the Secretary of Agriculture or his designated representative is presented at the time of entry or bond is furnished in a form prescribed by the Commissioner of Customs in an amount equal to the value of the merchandise as set forth in the entry plus the estimated duty as determined at the time of entry, conditioned upon the production of such written approval within 6 months from the date of entry; and
 - (d) Cotton produced in the United States with respect to which the Secretary of Agriculture shall have certified that there has been exported without benefit of subsidy, as an offset to the proposed reentry, an equal or greater number of kilograms of cotton produced in the United States, of any grade or staple.

3. (a) Dairy products .--

- (i) Imported articles subject to the import quotas provided for in subheadings 9904.10.09 through 9904.10.60, except 9904.10.24, may be entered only by or for the account of a person or firm to which a license has been issued by or under the authority of the Secretary of Agriculture, and only in accordance with the terms of such license; except that no such license shall be required for up to 833,417 kilograms per quota year of natural Cheddar cheese, the product of Camada, made from unpasteurized milk and aged not less than 9 months, which prior to exportation has been certified to meet such requirements by an official of the Camadiam Government. Such licenses shall be issued under regulations of the Secretary of Agriculture which he determines will, to the fullest extent practicable, result in the equitable distribution of the respective quotas for such articles among importers or users and facilitate the utilization of the quotas by the supplying countries, taking due account of any special factors which may have affected or may be affecting the trade in the articles concerned.
- (ii) Under subheading 9904.10.30 not more than 4,702,889 kilograms of the annual quota quantity shall be products other than natural Cheddar cheese made from unpasteurized milk and aged not less than 9 months.
- (iii) Notwithstanding any other provision of this subchapter, if the Secretary of Agriculture determines that a quantity specified in the column entitled "Quota Quantity" opposite the name of any country is not likely to be entered from such country within any calendar year, he may provide with respect to such article for the adjustment for that calendar year, within the aggregate quantity of such article permitted to be entered from all countries during such calendar year, of the quantities of such article which may be entered during such year from the countries specified as countries of origin for such article. The Secretary of Agriculture shall notify the Secretary of the Treasury of such adjustment and, with respect to country of origin adjustments for any article for which a license is not required, file notice thereof with the Federal Register. With respect to articles for which a license is not required, such adjustment shall become effective 3 days after the date of publication in the Federal Register.
- (iv) For the purposes of this subchapter, the term "soft ripened cow's milk cheese" means cheese which:
 - (A) Has a prominent crust formed on the exterior surface as a result of curing or ripening by biological curing agents such as molds, yeasts or other microorganisms;
 - (B) Visibly cures or ripens from the surface toward the center;
 - (C) Has a fat content by weight (on a moisture-free basis) of not less than 50 percent; and
 - (D) Has a moisture content (calculated by weight of the non-fatty matter) of not less than 65 percent, but does not include cheese with mold distributed throughout its interior.

Annotated for Statistical Reporting Purposes

XXII 99-42

- (b) Cotton Waste. -- For the purposes of subheading 9904.30.50, the minimum quota in column (A) is that part of the total quota in column (C) which must be reserved for comber waste made from cotton 30.1625 mm (1-3/16 inches) or more in staple length, and the unreserved quota in column (B) is that part of the total quota available for any quota-type waste, including comber waste made from cotton 30.1625 mm (1-3/16 inches) or more in staple length.
- (c) <u>Suspension.--Notwithstanding</u> any other provision of this subchapter, the quantitative limitations for the articles provided for in subheading 9904,20,10 are suspended beginning January 26, 1974.

4. Sugars and syrups .--

- (a) Licenses may be issued by the Secretary of Agriculture or his designee authorizing the entry of articles exempt from the fees provided for in subheadings 9904.40.20, 9904.40.40 and 9904.40.60 of this subchapter on the condition that such articles will be used only for the production (other than by distillation) of polyhydric alcohols, except polyhydric alcohols for use as a substitute for sugar in human food consumption. Such licenses shall be issued under regulations of the Secretary of Agriculture which he determines are necessary to insure the use of such articles only for such purposes.
- (b) "Not to be further refined or improved in quality" as used in subheading 9904.40.20 means not to be further refined or improved in quality by being subjected substantially to the processes of (1) affination or defecation, (2) clarification or (3) further purification by absorption or crystallization.
- (c) (i) The quarterly adjusted fee provided for in subheadings 9904.40.20 and 9904.40.60 shall be the amount of the fee for subheading 9904.40.40 plus 2.2 cents per kilogram.
 - (ii) The quarterly adjusted fee provided for in subheading 9904 40.40 shall be the amount by which the average of the adjusted daily spot (domestic) price quotations for raw sugar for the 20 consecutive market days immediately preceding the 20th day of the month preceding the calendar quarter during which the fee shall be applicable (as reported by the New York Coffee, Sugar and Cocca Exchange) expressed in United States cents per kilogram, in bulk, is less than the applicable market stabilization price: Provided, That whenever the average of such daily spot (domestic) price quotations for 10 consecutive market days within any calendar quarter, (1) exceeds the market stabilization price by more than 2.2 cents, the fee then in effect shall be decreased by 2.2 cents per kilogram, or (2) is less than the market stabilization price by more than 2.2 cents, the fee then in effect shall be increased by 2.2 cents per kilogram. The adjusted daily spot (domestic) price quotation for any market day shall be the daily spot (domestic) price quotation for such market day less the amount of the fee for subheading 9904 40 40 that is in effect on that day. For any market day for which the New York Coffee, Sugar and Cocca Exchange does not report a daily spot (domestic) price for raw sugar, then the Secretary Agriculture (the Secretary) shall use such other price as he determines appropriate.
 - (iii) The market stabilization price that shall be applicable to each fiscal year (October 1-September 30) shall be determined and announced by the Secretary in accordance with this note no later than 30 days prior to the beginning of the fiscal year for which such market stabilization price shall be applicable. The market stabilization price shall be equal to the sum of: (1) the price support level for the applicable fiscal year, expressed in cents per kilogram of raw cane sugar; (2) adjusted average transportation costs; (3) interest costs, if applicable; and (4) 0.44 cents. The adjusted average transportation costs shall be the weighted average cost of handling and transporting domestically produced raw cane sugar from Hawaii to Gulf and Atlantic Coast ports, as determined by the Secretary. Interest costs shall be the amount of interest, as determined, or estimated by the Secretary, that would be required to be paid by a recipient of a price support loan for raw cane sugar upon repayment of the loan at full maturity. Interest costs shall only be applicable if a price support loan recipient is not required to pay interest upon forfeiture of the loan collateral.
 - (iv) Notwithstanding the provisions of paragraph (iii) hereof, if the Secretary determines that there is a significant change in any one or more of the elements comprising the market stabilization price during the fiscal year, the Secretary shall adjust the market stabilization price within the fiscal year to reflect such change. The Secretary shall amounce any such adjusted market stabilization price and file notice thereof with the Federal Register. This adjusted market stabilization price will become effective the first calendar quarter following its announcement or, if the Secretary announced it less than 30 days before the beginning of a new calendar quarter, then it will become effective the second calendar quarter following its announcement. Any adjusted market stabilization price, once effective, shall remain in effect through the remainder of the fiscal year unless it is adjusted further in accordance with this paragraph.

Annotated for Statistical Reporting Purposes

XXII 99-43

- (v) The Secretary shall determine the amount of the quarterly fees in accordance with this note and shall announce such fees not later than the 25th day of the month preceding the calendar quarter during which the fees shall be applicable. The Secretary shall certify the amount of such fees to the Commissioner of Customs and file notice thereof with the <u>Federal Register</u> prior to the beginning of the calendar quarter during which the fees shall be applicable. The Secretary shall determine and announce any adjustment in the fees made within a calendar quarter in accordance with the proviso of paragraph (ii) hereof, shall certify such adjusted fees to the Commissioner of Customs, and shall file notice thereof with the <u>Federal Register</u> within 3 market days of the fulfillment of that proviso.
- (vi) If en adjustment is made in the fee in accordance with the proviso of paragraph (ii) hereof, any subsequent adjustment made within that quarter shall only be made on the basis of the average spot price for any 10 consecutive market day period following the effective date of the immediately preceding fee adjustment. No adjustment shall be made in any fee in accordance with the proviso of paragraph (ii) hereof during the last fifteen market days of a calendar quarter.
- (vii) Any adjustment made in a fee during a quarter in accordance with the proviso of paragraph (ii) hereof shall be effective only with respect to augar entered or withdrawn from warehouse for consumption after 12:01 a.m. (local time at point of entry) on the day following the filing of notice thereof with the <u>Federal Register</u>. <u>Provided</u>, That such adjustment in the fee shall not apply to sugar exported (as defined by Customs in accordance with 18 C.F.R. 152.1) on a through bill of lading to the United States from the country of origin before such time. The exemption contained in the preceding proviso shall apply regardless of whether the adjustment in the fee is upward or downward.
- (d) The following provisions have been suspended pursuant to executive action: subparagraphs (c)(ii) through (c)(vii), inclusive, of this note and subheadings 9904.20.10 and 9904.40.40.

SUBCHAPTER V

TEMPORARY MODIFICATIONS ESTABLISHED PURSUANT TO THE UNITED STATES-CANADA FREE TRADE AGREEMENT

XXII 99-53

U.S. Notes

On or after January 1 of the following years, the percentage set forth in the "Special" subcolumn of rate of duty column 1
for subheading 9905.00.00 which is applicable to goods originating in the territory of Canada shall be modified as
follows:

1990 1991 1992 60 percent 40 percent 20 percent

- On and after January 1, 1993, the then-existing rate of duty set forth in the "Special" subcolumn of rate of duty column 1
 for subheading 9905.00.00 which is applicable to goods originating in the territory of Canada shall be deleted and "Free"
 inserted in lieu thereof.
- 3. On and after December 31, 1998, this subchapter shall be deleted from the tariff schedule and shall cease to apply to any article entered after that date.

CHEMICAL APPENDIX TO THE TARIFF SCHEDULE

2

Chemical Appendix Note

1. This appendix enumerates those chemicals and products which the President has determined were imported into the United States before January 1, 1978, or were produced in the United States before May 1, 1978. For convenience, the listed articles are described (1) by reference to their registry number with the Chemical Abstracts Service (C.A.S.) of the American Chemical Society, where available, or (2) by reference to their common chemical name or trade name where the C.A.S. registry number is not available. For the purpose of the tariff schedule, any reference to a product provided for in this appendix includes such products listed herein, by whatever name known.

ANNEX A

Schedule C - Classification of Country and Territory Designations for U.S. Foreign Trade Statistics

Schedule C contains the country and territory designations for use in compiling the U.S. export and import statistics. These designations should be shown in all cases where statistical information is required. The first part of this schedule contains the country designations arranged in numeric order by continent and listed in sequence within each continent generally from north to south and west to east. Abbreviated country designations, which are used in lieu of complete country names in some foreign trade reports, are also shown. The second part contains a listing in alphabetical arrangement of the countries, territories, etc., with their numeric codes.

When reporting statistical information the 4-digit designation should be used. The 3-digit combinations or headings are shown for reference purposes only since some foreign trade reports contain information based on the first three digits of the numeric code.

Revisions to Schedule C will be announced in the form of "special notices" to data users, as Public Bulletins to Schedule B, <u>Statistical Classification of Domestic and Foreign Commodities Exported from the United States</u>, and as supplements to the Harmonized Tariff Schedule of the United States Annotated for statistical purposes (HTS). HTS also includes a list of International Standard (ISO) country codes to be used by importers to report country of origin.

| Schedule C code | Country and territory designation | Abbreviated designation |
|--------------------|-----------------------------------|----------------------------|
| | NORTH AMERICA | |
| 100.0 | United States of America | USA |
| 101.0 | Greenland | Greenld |

HARMONIZED TARIFF SCHEDULE of the United States Annotated for Statistical Reporting Purposes

Schedule D - Classification of U.S. Customs Districts and Ports for U.S. Foreign Trade Statistics

| Code Number, Customs District | Code Number, Customs District |
|-------------------------------|-------------------------------|
| and Port | and Port |

Schedule D provides a list of U.S. Customs districts, the ports included under each district, and the corresponding numeric codes used in compiling the U.S. foreign trade statistics. The Schedule contains a code for each official U.S. Customs district and port, with some additional codes provided to meet specific compiling requirements of the foreign trade statistics program. The head-quarters port for each district is underlined. Some Customs ports show two codes. Exporters and importers may report either code. The first part of this schedule contains the Customs districts and ports arranged in numeric order by code, while the second part lists the ports in alphabetic order.

Revisions to Schedule D will be announced in the form of "special notices" to data users, as Public Bulletins to Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, and as supplements to the Harmonized Tariff Schedule of the United States Annotated for Statistical Purposes.

CHANGE RECORD Supplement 2 to First Edition of the Harmonized Tariff Schedule November 1, 1988

Explanation

The attached Annex I lists all legal and statistical changes made to the Harmonized Tariff Schedule (as supplemented by Supplement 1) with the exception of changes to the column 1 special duty rate column. The changes occurring in the column 1 special duty rate column fall into three categories, as follows:

- (1) <u>Generalized System of Preferences</u> (GSP).--These changes are listed in the attached Annex II.
- (2) <u>U.S./Israel Free Trade Agreement.</u>--Continuing staged reductions of duty rates are indicated in the attached Annex III. Note that in the column 1 special duty rate column the "I" designation for items eligible for treatment under this agreement has been changed to "IL".
- (3) United States-Canada Free-Trade Agreement (proposed).--Items that will be eligible for duty-free or reduced-duty-rate treatment under this agreement are designated by the code "CA" in the column 1 special duty-rate column. New tariff line breakouts required under the agreement are not reflected at this time. The rates of duty under this agreement will take effect when proclaimed by the President pursuant to Public Law No. 100-449.

Notes:

- 1. Each heading/subheading in the Harmonized Tariff Schedule of the United States (HTS) enumerated in Table 1 is modified by inserting a rate of duty of "Free" followed by the symbol "IL" in parentheses in the "Special" subcolumn of rate of duty column 1, in lieu of the existing rate and symbol for products of Israel, effective with respect to such goods which are entered, or withdrawn from warehouse for consumption, on and after January 1, 1989.
- 2. Each rate of duty enumerated in Table 2 opposite a heading/subheading in the HTS is inserted (together with the symbol "IL" in parentheses) in the "Special" subcolumn of rate of duty column 1 for such heading/subheading in lieu of the existing rate and symbol for products of Israel, effective with respect to such goods which are entered, or withdrawn from warehouse for consumption, on and after the date at the head of the applicable column.

Table 1.--Products of Israel Elibible for Duty Free Treatment Effective January 1, 1989
