The Tariff Schedules of the United States Annotated (1981) (TSUSA-1981) is the 12th edition of a compilation published pursuant to section 201, Tariff Classification Act of 1962, 1/ embracing the legal text of the Tariff Schedules of the United States, as amended and modified, together with statistical annotations formulated pursuant to section 484(e), Tariff Act of 1930, as amended (19 U.S.C. 1484(e)). 2/

The principal changes in this edition reflect (1) supplements 1-3 to the 11th edition (1980); (2) the third-stage duty reductions that became effective on October 1, 1980, pursuant to concessions granted by the United States in a trade agreement with India (Pres. Proc. No. 4600); (3) the second-stage duty reductions that became effective on October 1, 1980, pursuant to concessions granted by the United States in a trade agreement with Argentina (Pres. Proc. No. 4694); (4) the second-stage duty reductions that become effective January 1, 1981, pursuant to concessions

1/ "Sec. 201. The Commission is authorized to issue at appropriate intervals, and to keep up to date, a publication containing current tariff schedules and related matters, including such matters as may be needed for reporting statistics." The first edition (1963) consisted of the original publication and five supplements; the second edition (1965) consisted of the original publication and nine supplements; the third edition (1968) consisted of the original publication and two supplements; the fourth edition (1969) consisted of the original publication and three supplements; the fifth edition (1970) consisted of the original publication and four supplements; the sixth edition (1971) consisted of the original publication and five supplements; the seventh edition (1972) consisted of the original publication and nine supplements; the eighth edition (1975) consisted of the original publication and two supplements; the ninth edition (1976) consisted of the original publication and seven supplements; and the 10th edition (1978) consisted of the original publication and five supplements; the 11th edition (1980) consisted of the original publication and three supplements.

2/ Sec. 484(e), as amended, reads as follows:

> "(e) Statistical Enumeration.--The Secretary of the Treasury, the Secretary of Commerce, and the United States International Trade Commission are authorized and directed to establish from time to time for statistical purposes an enumeration of articles in such detail as in their judgment may be necessary, comprehending all merchandise imported into the United States and exported from the United States, and shall seek, in conjunction with statistical programs for domestic production and programs for achieving international harmonization of trade statistics, to establish the comparability thereof with such enumeration of articles. All import entries and export declarations shall include or have attached thereto an accurate statement specifying, in terms of such detailed enumeration, the kinds and quantities of all merchandise imported and exported and the value of the total quantity of each kind of article."

granted by the United States in the Tokyo round of trade agreements (Pres. Proc. No. 4707); (5) the second-stage duty reductions that become effective January 1, 1981, pursuant to concessions granted by the United States in a trade agreement with Indonesia, Trinidad and Tobago, and the countries forming the Cartegena Agreement (Pres. Proc. No. 4711); (6) the second-stage duty reductions that become effective January 1, 1981, pursuant to the agreement on implementation of article VII of the General Agreement on Tariffs and Trade (the Customs Valuation Code) (Pres. Proc. No. 4768); (7) the suspension, in part, of the tariff concessions on certain lead products (Pres. Proc. No. 4792); (8) the temporary duty increase on the importation into the United States of certain mushrooms (Pres. Proc. No. 4801); (9) the provisions of P.L. 96-467; (10) statistical annotations, effective January 1, 1981 (formulated pursuant to sec. 484(e), Tariff Act of 1930); and (11) Bureau of the Census changes in Schedule C-I (classifications of country designations) and Schedule D (U.S. customs districts and ports for U.S. foreign-trade statistics).

The statistical annotations contained in the TSUSA prescribe the statistical information to be supplied on customs entry and withdrawal forms with respect to articles imported into the customs territory of the United States. Thus, this publication is designed to enable importers, customs brokers, customs officers, and other interested persons to determine (1) the classifications and rates of duty applicable to imported articles and (2) the requirements for reporting statistical data with respect to such imports.

Requests from interested parties for changes in any of the requirements for statistical reporting should be prepared in quadruplicate and submitted to--

The Chairman
Committee for Statistical Annotation
of Tariff Schedules
United States International Trade Commission
701 E Street NW.
Washington, D.C. 20436

Such requests should precisely indicate the nature of each desired change and give detailed reasons in support of the request.

TARIFF SCHEDULES

OF THE UNITED STATES ANNOTATED

(1981)

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general headnote 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the schedules, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 and the column designated LDDC of the schedules apply to articles imported into the customs territory of the United States as hereinafter provided in this headnote:

(a) Products of Insular Possessions.

(i) Except as provided in headnote 6 of schedule 7, part 2, subpart E, and except as provided in headnote 3 of schedule 7, part 7, subpart A, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which, at the time such article is entered, may be imported into the customs territory from a foreign country, other than Cuba or the Philippine Republic, and entered free of duty.

(iii) Subject to the limitations imposed under section 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Cuba. Products of Cuba imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. Preferential rates of duty for such products apply only as shown in the said column 1. 1/

1/ By virtue of section 401 of the Tariff Classification Act of 1962, the application to products of Cuba of either a preferential or other reduced rate of duty in column 1 is suspended. See general headnote 3(f), infra.

(c) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP).

(i) The following countries and territories are designated beneficiary developing countries for purposes of the Generalized System of Preferences, provided for in Title V of the Trade Act of 1974 (88 Stat. 2066, 19 U.S.C. 2461 et seq.):

(ii) Articles for which the designations "A" or "A*" appear in the column entitled "GSP" of the schedules are those designated by the President to be eligible articles for purposes of the GSP pursuant to Section 503 of the Trade Act of 1974. The designation "A" signifies that all beneficiary developing countries are eligible for preferential treatment with respect to all articles provided for in the designated TSUS item, while the designation "A*" indicates that certain beneficiary developing countries, specifically enumerated in subdivision (c)(iii) of this headnote, are not eligible for such preferential treatment with regard to any article provided for in the designated TSUS item. Whenever an eligible article is imported into the customs territory of the United States directly from a country or territory listed in subdivision (c)(i) of this headnote, it shall receive duty-free treatment, unless excluded from such treatment by subdivision (c)(iii) of this headnote, provided that, in accordance with regulations promulgated by the Secretary of the Treasury the sum of (A) the cost or value of the materials produced in the beneficiary developing country or any 2 or more countries which are members of the same association of countries which is treated as one country under section 502(a)(3) of the Trade Act of 1974, plus (B) the direct costs of processing operations performed in such beneficiary developing country or such member countries is not less than 35 percent of the appraised value of such article at the time of its entry into the customs territory of the United States.

(iii) The following designated eligible articles provided for in TSUS item numbers preceded by the designation "A*", if imported from a beneficiary developing country set opposite the TSUS item numbers listed below, are not entitled to the duty-free treatment provided for in subdivision (c)(ii) of this headnote:

(d) Products of Least Developed Developing Countries.

(i) The following countries are designated least developed developing countries (LDDC's) and, subject to restrictions of subparagraph (ii), products of such countries imported into the customs territory of the United States, whether imported directly or indirectly, and which are entered under TSUS item numbers for which rates of duty appear in the column entitled "LDDC" of the schedules, are eligible for full tariff reductions without staging in accordance with Section 503(a)(2)(A) of the Trade Agreements Act of 1979 (93 Stat. 251):

Bangladesh	Malawi
Benin	Maldives
Bhutan	Mali
Botswana	Nepal
Burundi	Niger
Cape Verde	Rwanda
Central African Republic	Somalia
Chad	Sudan
Comoros	Tanzania
Gambia	Uganda
Guinea	Upper Volta
Haiti	Western Samoa
Lesotho	Yemen (Sana)

(ii) Imported articles, the products of least developed developing countries as designated in paragraph (i) above, provided for under the TSUS items for which rates of duty appear in the column entitled "LDDC" of the schedules, and which are not entitled to duty-free treatment under subdivision (c) of this headnote, are subject to those rates of duty rather than the rates of duty provided for in column numbered 1, except that articles subject to temporary modifications under any provisions of the Appendix to these schedules shall be subject to the rates of duty set forth therein. If no rate of duty is provided in the "LDDC" column for a particular item, the rate of duty provided in column numbered 1 shall apply.

(e) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. The rates of duty for a Canadian article, as defined in subdivision (e)(ii) of this headnote, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the schedules, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(f) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this headnote, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 2/

1/ Pursuant to section 4(b)(1) of the Taiwan Relations Act (22 U.S.C. 3303(b)(1)) the reference to countries includes Taiwan.

2/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended general headnote 3(f) by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

Outer Mongolia
Southern Sakhalin
Tanna Tuva
Union of Soviet Socialist Republics and the area in East Prussia under the provisional administration of the Union of Soviet Socialist Republics.

(g) Products of All Other Countries. Products of all countries not previously mentioned in this headnote imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the Tariff Schedules --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Intangibles. For the purposes of headnote 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) electricity,

(d) securities and similar evidences of value, and

(e) vessels which are not "yachts or pleasure boats" within the purview of subpart D, part 6, of schedule 6,

are not articles subject to the provisions of these schedules.

1/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedules, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are subject to tariff treatment as follows:

(i) The usual or ordinary types of shipping or transportation containers or holders, if not designed for, or capable of, reuse, and containers of usual types ordinarily sold at retail with their contents, are not subject to treatment as imported articles. Their cost, however, is, under section 402 of the tariff act, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

(ii) The usual or ordinary types of shipping or transportation containers or holders, if designed for, or capable of, reuse, are subject to treatment as imported articles separate and distinct from their contents. Such holders or containers are not part of the dutiable value of their contents and are separately subject to duty upon each and every importation into the customs territory of the United States unless within the scope of a provision specifically exempting them from duty.

(iii) In the absence of context which requires otherwise, all other containers or holders are subject to the same treatment as specified in (ii) above for usual or ordinary types of shipping or transportation containers or holders designed for, or capable of, reuse.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subdivision (b) hereof.

(b) Every segregation of articles made pursuant to this headnote shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under

customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this headnote do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this headnote do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this headnote shall apply only in cases where the schedules do not expressly provide a particular tariff treatment for commingled articles.

8. Abbreviations. In the schedules the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars
c	-	cents
%	-	percent
+	-	plus
ad val.	-	ad valorem
bu.	-	bushel
cu.	-	cubic
doz.	-	dozen

lb.	-	pounds
oz.	-	ounces
sq.	-	square
wt.	-	weight
yd.	-	yard
pcs.	-	pieces
prs.	-	pairs
lin.	-	linear
I.R.C.	-	Internal Revenue Code

9. Definitions. For the purposes of the schedules, unless the context otherwise requires --

(a) the term "entered" means entered, or withdrawn from warehouse, for consumption in the customs territory of the United States;

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption;

(c) the term "withdrawn for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) the term "rate of duty" includes a free rate of duty; rates of duty proclaimed by the President shall be referred to as "proclaimed" rates of duty; rates of duty enacted by the Congress shall be referred to as "statutory" rates of duty; and the rates of duty in column numbered 2 at the time the schedules become effective shall be referred to as "original statutory" rates of duty;

(e) the term "ton" means 2,240 pounds, and the term "short ton" means 2,000 pounds;

(f) the terms "of", "wholly of", "almost wholly of", "in part of" and "containing", when used between the description of an article and a material (e.g., "furniture of wood", "woven fabrics, wholly of cotton", etc.), have the following meanings:

(i) "of" means that the article is wholly or in chief value of the named material;

(ii) "wholly of" means that the article is, except for negligible or insignificant quantities of some other material or materials, composed completely of the named material;

(iii) "almost wholly of" means that the essential character of the article is imparted by the named material, notwithstanding the fact that significant quantities of some other material or materials may be present; and

(iv) "in part of" or "containing" mean that the article contains a significant quantity of the named material.

With regard to the application of the quantitative concepts specified in subparagraphs (ii) and (iv) above, it is intended that the de minimis rule apply.

10. General Interpretative Rules. For the purposes of these schedules --

(a) the general, schedule, part, and subpart headnotes, and the provisions describing the classes of imported articles and specifying the rates of duty or other import restrictions to be imposed thereon are subject to the rules of interpretation set forth herein and to such other rules of statutory interpretation, not inconsistent therewith, as have been or may be developed under administrative or judicial rulings;

(b) the titles of the various schedules, parts, and subparts and the footnotes therein are intended for convenience in reference only and have no legal or interpretative significance;

(c) an imported article which is described in two or more provisions of the schedules is classifiable in the provision which most specifically describes it; but, in applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings indented under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the schedules or between coordinate inferior headings which are subordinate to the same superior heading;

(d) if two or more tariff descriptions are equally applicable to an article, such article shall be subject to duty under the description for which the original statutory rate is highest, and, should the highest original statutory rate be applicable to two or more of such descriptions, the article shall be subject to duty under that one of such descriptions which first appears in the schedules;

(e) in the absence of special language or context which otherwise requires --

(i) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(ii) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered;

(f) an article is in chief value of a material if such material exceeds in value each other single component material of the article;

(g) a headnote provision which enumerates articles not included in a schedule, part, or subpart is not necessarily exhaustive, and the absence of a particular article from such headnote provision shall not be given weight in determining the relative specificity of competing provisions which describe such article;

(h) unless the context requires otherwise, a tariff description for an article covers such article, whether assembled or not assembled, and whether finished or not finished;

(ij) a provision for "parts" of an article covers a product solely or chiefly used as a part of such article, but does not prevail over a specific provision for such part.

11. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the schedules. The allowance of an importer's claim for classification, under any of the provisions of the schedules which provide for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this headnote.

12. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

General statistical headnotes:

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of these schedules;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the United States port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of these schedules;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of these schedules;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in these schedules;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in pounds for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in these schedules.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the tariff act, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the tariff act;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the tariff act; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedules of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical headnotes and annexes.

(b) The legal text of the Tariff Schedules of the United States consists of the remaining text as more specifically identified in headnote 10(a) of the general headnotes and rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) General Rule: Except as provided in paragraph (b) of this headnote, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 7-digit number formed by combining the 5-digit item number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 100.95 is "100.9520".

(b) Wherever in the tariff schedules an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 7-digit number for the basic provision followed by the item number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "165.6500-165.40".

4. Abbreviations. (a) The following symbols and abbreviations are used with the meanings respectively indicated below:

s. ton	-	short ton
C.	-	one hundred
Cwt.	-	100 lbs.
mg.	-	milligram
M.	-	1,000
bd. ft.	-	board feet
M. bd. ft.	-	1,000 board feet
mc.	-	millicurie
cord	-	128 cubic feet
square	-	amount to cover 100 square feet of surface
sup. ft.	-	superficial foot
oz.	-	ounces avoirdupois
fl. oz.	-	fluid ounce
oz. troy	-	troy ounce
pf. gal.	-	proof gallon
sbe.	-	standard brick equivalent

(b) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(c) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

			PART 3. - FISH AND SHELLFISH				
			Part 3 headnotes:				
			1. The term "fish", as used in this part, does not include shellfish, or whales or other mammals. This part covers only fish and shellfish, live or dead, fit for human consumption.				
			2. In subparts A and B of this part, the term "whether or not whole" means if whole, or if processed by removal of heads, fins, viscera, scales, skins, or bones, or by filleting, division into pieces, or other cutting or slicing operations, but not minced or ground.				
			3. In subparts C and D of this part, the term "in oil" means packed in added oil or fat, or in added oil or fat and other substances, whether such oil or fat was introduced at the time of packing or prior thereto.				
			4. Live fish and shellfish imported to be used for purposes other than human consumption are covered by item 190.45 (see part 15F of schedule 1) and certain other fish and shellfish products are covered by parts 14 and 15 of schedule 1.				
			Subpart A. - Fish, Fresh, Chilled, or Frozen				
			Subpart A headnote:

			Subpart B. - Furskins Subpart B headnotes: 1. This subpart covers all furskins, except carroted furskins, but does not cover fur or hair which has been removed from the skin. (Carroted furskins and fur or hair removed from the skin are covered in subpart D of part 15 of schedule 1). 2. As used in this subpart — (a) the terms "furskins" or "skins" include the whole skins, or cuttings, heads, paws, tails, or other parts of whole skins, whether or not assembled into plates, mats, linings, strips, crosses, or similar forms, but do not cover such skins or parts of skins assembled in the rough form of garments, of parts or accessories of garments, or of other articles (see part 13B of schedule 7); (b) the term "raw or not dressed" refers to raw, unprocessed skins, or to processed skins which have not been subjected to any processing which preserves them indefinitely in a pliant state; and (c) the term "dressed" refers to skins which have been subjected to any processing which preserves them indefinitely in a pliant state, whether or not dyed or otherwise processed and whether or not in condition ready for manufacture into garments or other articles. 3. If the wool or hair on any skins which have been released from customs custody under item 123.00 is removed from such skins otherwise than as an unsought residue resulting from the processing of the skins for use as furs, the entire importation shall be subject to duty at the appropriate rate for such wool or hair on the skin under subpart C of part 1 of schedule 3, and for the purposes of this headnote, the clean content of such wool or hair shall be deemed to be 100%. 4. The entry, or withdrawal from warehouse, for consumption of ermine, fox, kolinsky, marten, mink, muskrat, and weasel furskins, raw or not dressed, or dressed, which are the product of the Union of Soviet Socialist Republics or of the People's Republic of China is prohibited. ——————— Subpart B statistical headnote: For the purposes of this subpart, the term "whole skins" includes whole skins from which heads, paws, or tails or any combination thereof have been removed. ———————

			PART 10. - SUGAR; COCOA; CONFECTIONERY Subpart A. - Sugars, Sirups, and Molasses Subpart A headnotes: 1. The term "degree", as used in the "Rates of Duty" columns of this subpart, means sugar degree as determined by polariscopic test. 2. The rates in column numbered 1 in items 155.20 and 155.30 on January 1, 1968, shall be effective only during such time as title II of the Sugar Act of 1948 or substantially equivalent legislation is in effect in the United States, whether or not the quotas, or any of them, authorized by such legislation, are being applied or are suspended: Provided, (i) That, if the President finds that a particular rate not lower than such January 1, 1968, rate, limited by a particular quota, may be established for any articles provided for in item 155.20 or 155.30, which will give due consideration to the interests in the United States sugar market of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade, he shall proclaim such particular rate and such quota limitation, to be effective not later than the 90th day following the termination of the effectiveness of such legislation; (ii) That any rate and quota limitation so established shall be modified if the President finds and proclaims that such modification is required or appropriate to give effect to the above considerations; and (iii) That the January 1, 1968, rates shall resume full effectiveness, subject to the provisions of this headnote, if legislation substantially equivalent to title II of the Sugar Act of 1948 should subsequently become effective.

			3. The total amount of sugars, sirups, and molasses described in items 155.20 and 155.30, the products of all foreign countries, entered, or withdrawn from warehouse, for consumption in any calendar year shall not exceed, in the aggregate, 6,900,000 short tons, raw value. The U.S. Trade Representative or his designee may allocate this quantity among supplying countries or areas, and may prescribe further rules, regulations, limitations or prohibitions on the entry of sugar in accordance with the International Sugar Agreement, 1977, and Public Law 96-236. The U.S. Trade Representative or his designee shall inform the Commissioner of Customs of any such action regarding the importation of sugar, and shall publish notice thereof in the Federal Register. For the purposes of this headnote, the term "raw value" means the equivalent of such articles in terms of ordinary commercial raw sugar testing 96 degrees by the polariscope as determined in accordance with regulations issued by the Secretary of the Treasury. The principal grades and types of sugar shall be translated into terms of raw value in the following manner: (i) For articles described in item 155.20, by multiplying the number of pounds thereof by the greater of 0.93, or 1.07 less 0.0175 for each degree of polarization under 100 degrees (and fractions of a degree in proportion). (ii) For articles described in item 155.30, by multiplying the number of pounds of the total sugars thereof (the sum of the sucrose and reducing or invert sugars) by 1.07. (iii) The Secretary of the Treasury shall establish methods for translating sugar into terms of raw value for any special grade or type of sugar for which he determines that the raw value cannot be measured adequately under the above provisions.

			PART 12. - BEVERAGES Part 12 headnotes: 1. This part covers only products which are fit for use as beverages or for beverage purposes. 2. The standard for determining the proof of brandy and other spirits or liquors of any kind when imported is the same as that which is defined in the laws relating to internal revenue. The Secretary of the Treasury, in his discretion, may authorize the ascertainment of the proof of wines, cordials, or other liquors and fruit juices by distillation or otherwise, when it is impracticable to ascertain such proof by the means prescribed by existing law or regulations. 3. The duties prescribed on products covered by this part are in addition to the internal-revenue taxes imposed under existing law or any subsequent Act. The duties imposed on products covered by this part which are subject also to internal-revenue taxes are imposed only on the quantities subject to such taxes; except that, in the case of distilled spirits transferred to the bonded premises of a distilled spirits plant under the provisions of section 5232 of the Internal Revenue Code of 1954, the duties are imposed on the quantity withdrawn from customs custody. 4. Provisions for the free entry of certain samples of alcoholic beverages are covered by part 5 of schedule 8. Subpart A. - Fruit Juices Subpart A headnotes: 1. The products described in this subpart are covered herein whether or not containing ethyl alcohol, but any such products which are also described in subpart C or D of this part are classifiable in said subpart C or D. 2. For the purposes of this subpart, a concentrated juice may be in liquid, powdered, or solid form.

			3. For the purposes of this subpart — (a) the term "gallon" in the "Rates of Duty" column of the provisions applicable to fruit juices means gallon of natural unconcentrated juice or gallon of reconstituted juice; (b) the term "reconstituted juice" means the product which can be obtained by mixing the imported concentrate with water in such proportion that the product will have a Brix value equal to that found by the Secretary of the Treasury from time to time to be the average Brix value of like natural unconcentrated juice in the trade and commerce of the United States; and (c) the term "Brix value" means the refractometric sucrose value of the juice, adjusted to compensate for the effect of any added sweetening materials, and thereafter corrected for acid.				
			4. In determining the number of gallons of reconstituted fruit juice which can be obtained from a concentrate, the degree of concentration shall be calculated on a volume basis to the nearest 0.5 degree, as determined by the ratio of the Brix value of the imported concentrated juice to that of the reconstituted juice, corrected for differences of specific gravity of the juices. Any juice having a degree of concentration of less than 1.5 (as determined before correction to the nearest 0.5 degree) shall be regarded as a natural unconcentrated juice.				
			5. In determining the degree of concentration of mixed fruit juices (item 165.65), the mixture shall be considered as being wholly of the component juice having the lowest Brix value.				
			Subpart A statistical headnote:				
			1. For the purposes of statistical reporting in this subpart, the term "gallon" in the "Units of Quantity" column means gallon of natural unconcentrated juice or gallon of reconstituted juice (as defined in headnote 3(b) above).

			PART 13. - TOBACCO AND TOBACCO PRODUCTS				
			Part 13 headnotes:				
			1. The term "wrapper tobacco", as used in this part, means that quality of leaf tobacco which has the requisite color, texture, and burn, and is of sufficient size for cigar wrappers, and the term "filler tobacco" means all other leaf tobacco.				
			2. The percentage of wrapper tobacco in a bale, box, package, or other shipping unit is the ratio of the number of leaves of wrapper tobacco in such unit to the total number of leaves therein. In determining such percentage for classification purposes, the appraiser shall examine at least ten hands, and shall count the leaves in at least two hands, from each shipping unit designated for examination.				
			3. The dutiable weight of cigars and cigarettes includes the weight of all materials which are integral parts thereof.				
			4. Provisions for the free entry of certain samples of tobacco products are covered by part 5 of schedule 8.

			PART 15. - OTHER ANIMAL AND VEGETABLE PRODUCTS				
			Subpart A. - Products of American Fisheries				
			Subpart A headnotes:				
			1. An American fishery, for the purposes of this subpart, is a fishing enterprise conducted under the American flag by vessels of the United States on the high seas or in foreign waters in which such vessels have the right, by treaty or otherwise, to take fish or other marine products and may include a shore station operated in conjunction with such vessels by the owner or master thereof.				
			2. None of the items in this subpart shall apply to fish, fresh, chilled, or frozen, in the form of fillets, steaks, or slices substantially free of bone (including any of the foregoing divided into sections), if produced in a foreign country, or its territorial waters, in whole or in part with the use of the labor of persons who are not residents of the United States.				
	180.00	00	Products of American fisheries (including fish, shellfish, and other marine animals, spermaceti, and marine animal oils), which have not been landed in a foreign country, or which, if so landed, have been landed solely for transshipment without change in condition	Lb	Free		Free

Subpart D. - Feathers, Downs, Bristles, and Hair

Subpart D headnotes:

1. For the purposes of this subpart, the term "treated" means cleaned, disinfected, or treated for preservation.

2. (a) Except as provided in (b) and (c) of this headnote, the importation of the feathers or skin of any bird is hereby prohibited. Such prohibition shall apply to the feathers or skin of any bird --

(i) whether raw or processed;
(ii) whether the whole plumage or skin or any part of either;
(iii) whether or not attached to a whole bird or any part thereof; and
(iv) whether or not forming part of another article.

1/ See item 950.17 in part 3, Appendix to Tariff Schedules.

			(b) Headnote 2(a) shall not apply -- (i) in respect of any of the following birds (other than any such bird which, whether or not raised in captivity, is a wild bird): chickens (including hens and roosters), turkeys, guinea fowl, geese, ducks, pigeons, ostriches, rheas, English ring-necked pheasants, and pea fowl; (ii) to any importation for scientific or educational purposes; (iii) to the importation of fully-manufactured artificial flies used for fishing; (iv) to the importation of birds which are classifiable under item 813.20 of schedule 8; and (v) to the importation of live birds. (c) Notwithstanding headnote 2(a), there may be entered in each calendar year the following quotas of skins bearing feathers: (i) for use in the manufacture of artificial flies used for fishing: (A) not more than 5,000 skins of grey jungle fowl (Gallus sonneratii), and (B) not more than 1,000 skins of mandarin duck (Dendronessa galericulata); and (ii) for use in the manufacture of artificial flies used for fishing, or for millinery purposes, not more than 45,000 skins, in the aggregate, of the following species of pheasant: Lady Amherst pheasant (Chrysolophus amherstiae), golden pheasant (Chrysolophus pictus), silver pheasant (Lophura nycthemera), Reeves pheasant (Syrmaticus reevesii), blue-eared pheasant (Crossoptilon auritum), and brown-eared pheasant (Crossoptilon mantchuricum). 1/ For the purposes of these quotas, any part of a skin which has been severed shall be considered to be a whole skin. (d) No article specified in headnote 2(c) shall be entered except under a permit issued by the Secretary of the Interior. The Secretary of the Interior shall prescribe such regulations as may be necessary to carry out the purposes and provisions of headnote 2(c) (including regulations providing for equitable allocation among qualified applicants of the import quotas established by such provisions). Whenever the Secretary of the Interior finds that the wild supply of any species mentioned in headnote 2(c) is threatened with serious reduction or with extinction, he shall prescribe regulations which provide (to such extent and for such period as he deems necessary to meet such threat) -- (i) in the case of grey jungle fowl or mandarin duck, for the reduction of the applicable import quota; or				

1/ Brown-eared pheasant added to the List of Endangered Foreign Fish and Wildlife, Appendix A of 50 C.F.R. 17, Nov. 24, 1970, effective date Dec. 2, 1970 (35 F.R. 18319, 18321).

			(ii) in the case of any species of pheasant, for the reduction of the import quota established for pheasants, for the establishment of a subquota for such species of pheasant, or for the elimination of such species from the import quota for pheasants, or any combination thereof. The authority granted to the Secretary of the Interior by the preceding sentence to reduce any import quota shall include authority to eliminate such quota. (e) Any article of a kind the importation of which is prohibited or subjected to a quota by headnotes 2(a), (b), and (c) and which is in the United States shall be presumed for the purposes of seizure and forfeiture to have been imported in violation of law and shall be seized and forfeited under the customs laws unless such presumption is satisfactorily rebutted; except that such presumption shall not apply to articles in actual use for personal adornment or for scientific or educational purposes. Any article so forfeited may (in the discretion of the Secretary of the Treasury and under such regulations as he may prescribe) (1) be placed with any agency of the Federal Government or of any State government, or any society or museum, for exhibition or scientific or educational purposes, or (2) be destroyed. (f) Nothing in these headnotes shall be construed to repeal the provisions of the Act of March 4, 1913, chapter 145 (Thirty-seventh Statutes at Large, page 847), or the Act of July 3, 1918 (Fortieth Statutes at Large, page 755), or any other law of the United States, now of force, intended for the protection or preservation of birds within the United States. If on investigation by the collector before seizure, or before trial for forfeiture, or if at such trial if such seizure has been made, it shall be made to appear to the collector, or the prosecuting officer of the Government, as the case may be, that no illegal importation of such feathers has been made, but that the possession, acquisition or purchase of such feathers is or has been made in violation of the provisions of the Act of March 4, 1913, chapter 145 (Thirty-seventh Statutes at Large, page 847), or the Act of July 3, 1918 (Fortieth Statutes at Large, page 755), or any other law of the United States, now of force, intended for the protection or preservation of birds within the United States, it shall be the duty of the collector, or such prosecuting officer, as the case may be, to report the facts to the proper officials of the United States, or State or Territory charged with the duty of enforcing such laws. _____

			PART 1. - WOOD AND WOOD PRODUCTS				
			Part 1 headnotes: 1. For the purposes of subparts D, E, and F of this part, hardboard shall be deemed to be wood. 2. The effectiveness of the proviso to section 304(a)(3)(J) of the Tariff Act of 1930 (19 U.S.C. 1304(a)(3)(J)), to the extent permitted by that section and as provided for in Schedules XX to the General Agreement on Tariffs and Trade, is suspended, with the result that sawed lumber and sawed timbers however provided for, telephone, trolley, electric-light, and telegraph poles of wood, and bundles of shingles, other than redcedar shingles, shall not be required to be marked to indicate the country of origin.				
			Subpart A. - Rough and Primary Wood Products; Wood Waste				
			Subpart A headnotes: 1. The term "wood waste", as used in this subpart, means residual material other than firewood resulting from the processing of wood, including scraps, shavings, sawdust, veneer clippings, chipper rejects and similar small wood residues, and also larger or coarser solid types of residual wood such as slabs, edgings, cull pieces, and veneer log cores. 2. The provisions for wood products in items 200.60 (poles, piles, and posts), 200.65 (laths), 200.75 (fence pickets, palings, and rails), 200.80 (railroad ties), and 200.85 (shingles and shakes) cover such products whether or not they have been treated with creosote or other wood preservatives.

Subpart B. - Lumber, Flooring, and Moldings

Subpart B headnotes:

1. This subpart covers lumber, wood siding, wood flooring, wood moldings, and certain wood carvings and ornaments, including such products when they have been drilled or treated.

2. For the purposes of this part, the following terms have the meanings hereby assigned to them:

(a) Lumber: A product of a sawmill or sawmill and planing mill derived from a log by lengthwise sawing which, in its original sawed condition, has at least 2 approximately parallel flat longitudinal sawed surfaces, and which may be rough, dressed, or worked, as set forth below:

(i) rough lumber is lumber just as it comes from the saw, whether in the original sawed size or edged, resawn, crosscut, or trimmed to smaller sizes;

(ii) dressed lumber is lumber which has been dressed or surfaced by planing on at least one edge or face; and

(iii) worked lumber is lumber which has been matched (provided with a tongued-and-grooved joint at the edges or ends), shiplapped (provided with a rabbeted or lapped joint at the edges), or patterned (shaped at the edges or on the faces to a patterned or molded form) on a matching machine, sticker, or molder.

Edge-glued or end-glued wood over 6 feet in length and not over 15 inches in width shall be classified as lumber if such wood as a solid piece without glue joints would be deemed to be lumber as defined above.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			(b) Softwood: Wood from trees of coniferous species (order Coniferae). (c) Hardwood: Wood from trees of non-coniferous species. (d) Drilled or treated: Drilled at intervals for nails, screws, or bolts, sanded or otherwise surface processed in lieu of, or in addition to, planing or working, or treated with creosote or other wood preservatives, or with fillers, sealers, waxes, oils, stains, varnishes, paints, or enamels, but not including anti-stain or other temporary applications mentioned in headnote 4 of this subpart. (e) Standard wood moldings: Wood moldings worked to a pattern and having the same profile in cross section throughout their length. 3. Lumber, including certain flooring provided for in this subpart, is dutiable on the basis of "board measure" for which the unit of measurement is the board foot. For the purposes of this subpart, a board foot is the quantity of lumber contained in, or derived (by drying, dressing, or working, or any combination of these processes) from, a piece of rough green lumber 1 inch in thickness, 12 inches in width, and 1 foot in length, or the equivalent of such piece in other dimensions. 4. The treatment of lumber or other products provided for in this subpart with anti-stain or other temporary applications which serve only for the purpose of maintaining the products in their rough, dressed, or worked condition until installation or further manufacture shall not affect their classification under any of the provisions of this subpart.

Subpart B. - Bamboo, Rattan, Willow, and Chip; Basketwork, Wickerwork, and Related Products of Fibrous Vegetable Substances

Subpart B headnotes:

1. This subpart does not cover --
   (i) webs, wadding, batting, and nonwoven fabrics, and articles thereof (see part 4C of schedule 3);
   (ii) floor covering underlays (see part 5A of schedule 3);
   (iii) braids suitable for making or ornamenting headwear (see part 1B of schedule 7);
   (iv) luggage, handbags, and flat goods (see part 1D of schedule 7);
   (v) furniture (see part 4A of schedule 7); or
   (vi) fishing baskets or creels (see part 5B of schedule 7).

2. For the purposes of the tariff schedules --
   (a) the unqualified term "rattan" means rattan, whether whole or split, and reeds, cane (peel), strips and similar products derived therefrom;
   (b) the term "willow" means the flexible slender twigs or withes of the osier or willow, whether or not split; and
   (c) the term "chip" means flat, narrow, flexible strips of wood which are under 1/16 inch in thickness and can be woven, braided, or plaited into a definite shape or form; and
   (d) the term "unspun fibrous vegetable materials" means bamboo, rattan, willow, chip, straw, palm leaf, grass, seagrass, and similar fibrous vegetable substances, which have not been spun.

3. For the purposes of this subpart, materials other than unspun fibrous vegetable materials shall be disregarded in determining the component material of chief value in any article if their primary function in the article is to bind, tie, or otherwise hold unspun fibrous vegetable materials together, or to support or reinforce such materials.

PART 3. - WOOD VENEERS, PLYWOOD AND OTHER WOOD-VENEER ASSEMBLIES, AND BUILDING BOARDS

Part 3 headnotes:

1. For the purposes of this part, the following terms have the meanings hereby assigned to them:

(a) Wood veneers: Wood sheets or strips, regardless of thickness, quality or intended use, produced by the slicing or rotary cutting of logs or flitches; and wood sheets, not over 1/4 inch in thickness, produced by sawing and of a type used to overlay inferior material;

(b) Plywood: Rigid wood-veneer assemblies bonded together with adhesive substances having a central ply or core of wood veneer or lumber with one or more plies of wood veneer on each side thereof, the grain of at least one ply being at an angle (usually a right angle) with the grain of one or more of the other plies, including such assemblies the face ply (or plies) of which has been mechanically scored, striated, or similarly processed;

(c) Wood-veneer panels: Rigid wood-veneer assemblies, bonded together with adhesive substances, except plywood, with a wood-veneer ply on one side of a backing, or on both sides of a core, which backing or core may be composed of lumber, veneer, hardboard, wood particle board, or other material, including such assemblies the face ply (or plies) of which has been mechanically scored, striated, or similarly processed;

(d) Cellular panels: Rigid assemblies bonded together with adhesive substances with both sides or faces consisting of veneer, plywood, lumber, wood-veneer panels, hardboard, wood particle board, or other board composed of vegetable fibers, and with a core of hollow, honeycomb, or sponge-like construction, whether or not the interstices are filled with loose or loosely matted fibrous materials; and

(e) Building boards: Panels of rigid construction, including tiles and insulation board, chiefly used in the construction of walls, ceilings, or other parts of buildings.

2. The term "face finished", as applied to the boards and panels provided for in this part, means that one or both surfaces of a panel or board have been treated with creosote or other wood preservatives, or with fillers, sealers, waxes, oils, stains, varnishes, paints, or enamels, or have been overlaid with paper, fabric, plastics, base metal or other material.

PART 4. - PAPER, PAPERBOARD, AND PRODUCTS THEREOF

Part 4 headnotes:

1. This part covers certain paper-making materials, paper and paperboard, and articles of pulp, of paper, and of paperboard, but does not cover --
   (i) certain boards (see part 3 of this schedule);
   (ii) certain printed matter (see part 5 of this schedule);
   (iii) paper-backed metal foils (see part 3C of schedule 6);
   (iv) luggage, handbags, or flat goods (see part 1D of schedule 7); or
   (v) certain other articles specifically provided for in schedule 7.

2. For the purposes of this part --
   (a) the term "ream" means 432,000 square inches;
   (b) the term "cut to size or shape" means paper or paperboard without slits, holes, or other perforations which is --
      (i) in rolls or strips not exceeding 6 inches in width,
      (ii) in rectangular sheets not exceeding 15 inches in either length or width (except handmade paper the edges of which have not been cut or trimmed), or
      (iii) cut into non-rectangular shapes of any size,

   whether or not the cutting of such paper or paperboard dedicates it to any specific use;
   (c) the term "lithographically printed" means printed in whole or in part by a lithographic process; and
   (d) the term "writing paper" includes, but is not limited to, papers such as ledger, letter, manifold, mimeograph, note, onionskin, tablet, and typewriter papers.

3. Samples used in determining the weight of papers classifiable in this part according to weight shall be conditioned in an atmosphere at 50 percent (± 2 percent) relative humidity under 23°C. (± 2°C.) temperature.

4. If any country, dependency, province, or other subdivision of government shall forbid or restrict in any way the exportation of (whether by law, order, regulation, contractual relation, or otherwise, directly or indirectly), or impose any export duty, export license fee, or other export charge of any kind whatsoever (whether in the form of additional charge or license fee or otherwise) upon printing paper, or wood pulp, or wood for use in the manufacture of wood pulp, the President may enter into negotiations with such country, dependency, province, or other subdivision of government to secure the removal of such prohibition, restriction, export duty, or other export charge, and if it is not removed he may, by proclamation, declare such failure of negotiations, setting forth the facts.

			Subpart B. - Paper and Paperboard, in Rolls and Sheets, Not Cut to Size or Shape				
			Subpart B headnotes: 1. This subpart covers paper and paperboard, in rolls and sheets, not cut to size or shape, and not made up into articles finished or not finished. Printed paper or paperboard is covered in this subpart only if the printing is merely incidental to the primary use of the article or is employed mainly for coloration or to produce a decorative or novelty effect. 2. For the purposes of this subpart, paperboard described in items 251.35, 251.40, 251.45, 251.49, and 251.51 under 0.012 inch in thickness shall be deemed to be paper. Subpart B statistical headnote: 1. For the purposes of this subpart the term "kraft paper and paperboard" means paper and paperboard containing 80 percent or more by weight chemical sulphate or soda wood pulp based on total fiber content.

			PART 5. - BOOKS, PAMPHLETS, AND OTHER PRINTED AND MANUSCRIPT MATERIAL				
			Part 5 headnotes:				
			1. Except for decalcomanias, labels, flaps, and bands, all of which are covered by the provisions therefor in this part, regardless of the nature of the printing thereon, this part covers only printed matter consisting essentially of textual or pictorial matter produced by any printing process, and similar matter in manuscript or typewritten form. The text may be set forth in any language by means of any kind of characters. With the exceptions above indicated, this part does not cover any article in which printing is merely incidental to the primary use of the article or in which printing is employed mainly for coloration or to produce a decorative or novelty effect (see part 4 of this schedule).				
			2. For the purposes of this part -- (a) the term "paper" includes paperboard; (b) the term "books" includes books, bound and not bound, and pamphlets; (c) the term "periodicals" embraces only paper-covered or unbound publications issued regularly at stated periods, such as weekly, monthly, or quarterly, and bearing the date of issue; and (d) the term "photographs" embraces only pictures other than motion pictures, produced on photosensitive materials, and includes positive and negative images on exposed, or exposed and developed, photographic film.				
			3. For the purposes of determining the classification of printed matter produced in whole or in part by a lithographic process, the thickness of such printed matter is that of the thinnest paper contained therein, except that the thickness of a permanently mounted lithograph is the combined thickness of the lithograph and its mounting.

Schedule 3 headnotes:

1. This schedule does not cover --
   (i) articles of unspun fibrous vegetable materials (see part 2B of schedule 2);
   (ii) asbestos fibers, or yarns, fabrics, or other articles containing asbestos in significant amounts, i.e., articles in which asbestos is used in sufficient amounts to impart its peculiar characteristics or properties to the article (see part 1F of schedule 5);
   (iii) wire, or wire cordage, screen, fencing, or other wire products (see parts 2 and 3B of schedule 6); or
   (iv) footwear, headwear, gloves, handbags, pillows, mattresses, and other articles of textile materials provided for in schedule 7.

2. For the purposes of the tariff schedules --
   (a) the term "textile materials" means --
   (i) the fibers (cotton, other vegetable fibers, wool and hair, silk, and man-made fibers) provided for in part 1 of this schedule,
   (ii) the yarn intermediates and the yarns provided for in part 1 and part 4 (elastic yarns) of this schedule,
   (iii) the cordage provided for in part 2 and part 4 (elastic cordage) of this schedule,
   (iv) the fabrics provided for in part 3 and part 4 of this schedule,
   (v) braids, as defined in headnote 2(f), infra, and
   (vi) except as provided by headnote 5, articles produced from any of the foregoing products;
   (b) the term "colored", as used in connection with textile materials or textile articles, means that they have been subjected to a process such as, but not limited to, dyeing, staining, painting, printing, or stenciling, in which color is imparted at any stage of manufacture to all or part of the fiber, yarn, fabric, or other textile article, except identification yarns and except marking in or on selvages;
   (c) the term "wool", except as used in part 1C of this schedule, means wool or hair of the types covered by the said part 1C of this schedule, or any combinations thereof;
   (d) the term "knit" means knit or crocheted;
   (e) the term "yarns" includes threads, but does not include elastic yarns or any braids;
   (f) the term "braids", as used in connection with textile materials or textile articles, includes all braids in the piece, whether of flat, tubular, or other construction, with or without cores, and whether braided from fibers, filaments (including tinsel wire and lame), yarns, cordage, textile fabrics, or any combination thereof;
   (g) the term "burnt-out lace" means embroidery in which the base or ground (whether fabric, paper, or other material), having been removed chemically or by other means, is not visible; and
   (h) a "lace" article or a "net" article is an article which (exclusive of any added ornamentation) is wholly or almost wholly of lace, including burnt-out lace, or wholly or almost wholly of net, whether the lace or net pre-existed or was formed in the process of producing the article.

Schedule 3 headnotes (con.):

3. For the purposes of the tariff schedules --

(a) the term "ornamented", as used with reference to textile fabrics and other articles of textile materials, means fabrics and other articles of textile materials which are ornamented with --

(i) fibers, filaments (including tinsel wire and lame), yarns, or cordage, any of the foregoing introduced as needlework or otherwise, including --

(A) embroidery, and pile or tufting, whether wholly cut, partly cut, or not cut, and

(B) other types of ornamentation,

but not including functional stitching or one row of straight hemstitching adjoining a hem;

(ii) burnt-out lace;

(iii) lace, netting, braid, fringe, edging, tucking, or trimming, or textile fabric;

(iv) applique and replique work, beads, bugles, spangles, bullions, or ornaments; or

(v) any combination of the foregoing types of methods of ornamentation;

(b) ornamentation of the types or methods covered hereby consists of ornamenting work done to a pre-existing textile fabric, whether the ornamentation was applied to such fabric --

(i) when it was in the piece,

(ii) after it has been made or cut to a size for particular furnishing, wearing apparel, or other article, or

(iii) after it had actually been incorporated into another article,

and if such textile fabric remains visible, at least in significant part, after ornamentation: Provided, That lace, netting, braid, fringe, edging, tucking, trimming or ornament shall not be required to have had a separate existence from the fabric or other article on which it appears in order to constitute ornamentation for the purposes of this headnote; and

(c) applique work, beads, bugles, spangles, bullions, and other forms of nontextile ornamentation applied to a textile fabric or other article of textile materials shall be disregarded in determining the component material of chief value of such fabric or other article.

4. For the purposes of the tariff schedules --

(a) Except as specifically provided otherwise, in determining the yarn count of fabrics, the warp and filling yarns, whether plied or not, shall be counted as they occur in the fabric.

(b) In determining the component fibers of chief value in coated or filled, or laminated, fabrics and articles wholly or in part thereof, the coating or filling, or the nontextile laminating substances, shall be disregarded in the absence of context to the contrary.

5. For the purposes of parts 5, 6, and 7 of this schedule and parts 1 (except subpart A), 4, and 12 of schedule 7, in determining the classification of any article which is wholly or in part of a fabric coated or filled, or laminated, with nontransparent rubber or plastics (which fabric is provided for in part 4C of this schedule), the fabric shall be regarded not as a textile material but as being wholly of rubber or plastics to the extent that (as used in the article) the nontransparent rubber or plastics forms either the outer surface of such article or the only exposed surface of such fabric.

6. (a) If the rate of duty in column numbered 1 applicable to wool provided for in item 306.31 is at any time increased or decreased, the specific part of the compound rate of duty in column 1 (hereinafter referred to as the compensatory part thereof) applicable to articles provided for in each item listed in paragraph (e) of this note, and so much of each specific rate in column 1 applicable to articles provided for in each item listed in paragraph (f) of this note as is therein designated as the compensatory part thereof, shall, subject to the provisions of paragraphs (b) through (d) of this note, be increased or decreased in the same proportion as such rate applicable to wool provided for in item 306.31 is increased or decreased.

(b) The maximum and minimum levels to which the compensatory part of a rate may be increased or decreased pursuant to paragraph (a) of this note shall be 50 percent above such compensatory part "existing on July 1, 1934", or 50 percent below such part "existing on July 1, 1962", respectively, as such terms are applied for purposes of section 201(b) of the Trade Expansion Act of 1962 (19 U.S.C. (1964) 1821).

(c) Any specific part of a compound rate or any specific rate modified pursuant to paragraph (a) of this note may be rounded, by not exceeding 0.5 cent, to a whole number of cents.

(d) A rate increase or decrease pursuant to this note shall be proclaimed by the President effective on the day on which the modified rate becomes applicable to the wool provided for in item 306.31 or, with or without staging, as soon thereafter as the President determines to be practicable under United States law, but in no event later than 4 years after such modified rate becomes applicable, and shall remain in effect thereafter so long as such modified rate is applicable.

(e) The items containing the compound rates referred to in paragraph (a) of this note are:

307.50	355.16	372.25	382.48
307.52	357.10	372.30	382.54

355.15	367.25	380.66	704.70

(f) The items containing the specific rates referred to in paragraph (a) of this note and the compensatory parts of such rates are:

Item	Compensatory part of rate
336.35	30¢ per lb.
336.55	37.5¢ per lb.

Schedule 3 headnotes (con.):

7. With respect to fabrics provided for in part 3 (other than fabrics valued over $2 per pound provided for in item 337.50) and in part 4 of this schedule, provisions for fabrics in chief value of wool shall also apply to fabrics in chief weight of wool (whether or not in chief value of wool). For the purposes of the preceding sentence, a fabric is in chief weight of wool if the weight of the wool component is greater than the weight of each other textile component (i.e., cotton, vegetable fibers except cotton, silk, man-made fibers, or other textile materials) of the fabric.

8. In the case of each item in this schedule and schedule 7 on which the United States has agreed to reduce the rate of duty, pursuant to a trade agreement entered into under section 101 of the Trade Act of 1974 before January 3, 1980, on any cotton, wool, or manmade fiber textile product as defined in the Arrangement Regarding International Trade in Textiles, as extended on December 14, 1977 (the Arrangement), if the Arrangement, or a substitute arrangement, including unilateral import restrictions or bilateral agreements, determined by the President to be suitable, ceases to be in effect with respect to the United States before the total reduction in the rate of duty for such item under sections 101 and 109 of the Trade Act of 1974 has become effective, then the President shall proclaim the rate of duty in rate column numbered 1 for such item existing on January 1, 1975, to be the rate of duty effective, with respect to articles entered, or withdrawn from warehouse, for consumption, within 30 days after such cessation and until the President proclaims the continuation of such reduction under the next sentence. If subsequently the Arrangement, or a substitute arrangement, including unilateral import restrictions or bilateral agreements, determined by the President to be suitable, is in effect with respect to the United States, then the President shall proclaim the continuation of the reduction of such rate of duty pursuant to such trade agreement. For purposes of section 109(c)(2) of the Trade Act of 1974, any time when a rate of duty existing on January 1, 1975, is in effect under this headnote shall be time when part of such reduction is not in effect by reason of legislation of the United States or action thereunder.

9. For the purposes of this schedule and schedule 7, the term "subject to textile agreements" refers to--

(a) articles in which either the cotton content or the man-made fiber content equals or exceeds 50 percent by weight of all component fibers thereof;

(b) articles in which the wool content exceeds 17 percent by weight of all component fibers thereof;

(c) articles containing blends of cotton, wool, or man-made fibers, which fibers, in the aggregate, amount to 50 percent or more by weight of all component fibers thereof.

Schedule 3 statistical headnotes:

1. The statistical provisions for textiles include, in addition to the regular statistical annotations, certain annotations essential for the administration of the Arrangement Regarding International Trade in Textiles by the Committee for the Implementation of Textile Agreements.

(a) In order to monitor imports subject to restraints under this arrangement, it is necessary that certain articles containing cotton, wool, or man-made fibers, or combinations thereof, be specifically identified. For example, any article containing 50 percent or more by weight of cotton may be designated as "Subject to cotton restraints". Similarly, articles containing 50 percent or more by weight of man-made fibers may be designated as "Subject to man-made fiber restraints". In addition, certain articles containing over 17 percent by weight of wool are "Subject to wool restraints". Articles containing blends of cotton, wool, or man-made fibers which, in the aggregate, amount to 50 percent or more by weight are also subject to these restraints. Definitions of the foregoing provisions are given in statistical headnote 3 below. (It should not be assumed that all imports required to be reported under any such statistical annotations are actually being controlled at any particular time, but restraints may be applied to articles imported from certain countries, depending on unilateral actions or bilateral agreements developed under the Arrangement.)

(b) Restraints under the Arrangement may not apply to developing-country exports of hand-loomed fabrics of the cottage industry, to handmade products of the cottage industry made of such hand-loomed fabrics, or to traditional folklore handicraft textile products, provided that the foregoing types of products are properly certified under arrangements established between the importing and exporting participating countries. The importer is required to identify such certified products on the entry summary or withdrawal forms by placing the symbol "Y" as a prefix to the appropriate 7-digit schedule 3 or schedule 7 item number.

2. Certain articles wholly or in chief value of cotton, wool, or man-made fibers and certain woven fabrics in chief weight of wool which may be restrained under the provisions of this arrangement are adequately identified for monitoring purposes in this schedule and in schedule 7 and, therefore, are not annotated as "Subject to (cotton, man-made fiber, or wool) restraints".

3. Where the specific restraint references appear in this schedule and in schedule 7, the following meanings are hereby assigned to them:

(a) The term "Subject to cotton restraints" refers to--

(i) articles in which the cotton component equals or exceeds 50 percent by weight of all component fibers thereof; or

(ii) articles in which the cotton with wool and/or man-made fibers in the aggregate equal or exceed 50 percent by weight of the component fibers thereof and the cotton component equals or exceeds the weight of each of the total wool and/or total man-made fiber components.

(b) The term "Subject to wool restraints" refers to articles in which the wool content exceeds 17 percent by weight of all component fibers and which are not provided for in (a) above.

(c) The term "Subject to man-made fiber restraints" refers to articles not meeting the requirements of (a) or (b) above, but qualifying as--

(i) articles in which the man-made fiber components equal or exceed 50 percent by weight of all component fibers thereof; or

(ii) articles in which the man-made fibers in combination with cotton and/or wool in the aggregate equal or exceed 50 percent by weight of the component fibers thereof and the man-made fiber component exceeds the weight of the total wool and/or total cotton component.

4. The unit of measure to be used by Customs field offices when reporting imports of textiles to Customs Headquarters Quota Section shall be the first unit of quantity unless the second unit of quantity (if there is one) is underlined, in which case the second unit of quantity shall be reported (except item 363.7000 for which the unit of measure shall be "sq. yd.").

5. As a convenient cross-reference, each of the cotton, wool, and man-made fiber categories (or groupings) used by the United States in monitoring import shipments of these textile products and to administer the United States textile trade agreements programs are listed in this schedule and in schedule 7 following the appropriate 7-digit description. Also, for those desiring a cross-reference of applicable 7-digit provisions for each of the category numbers, the following table may be used--

			PART 1. - TEXTILE FIBERS AND WASTES; YARNS AND THREADS				
			Part 1 headnotes:				
			1. For the purposes of this part -- (a) the term "waste" means all fiber, yarn, and thread wastes, including wastes obtained in the production of continuous and noncontinuous fibers, yarns, and threads, such as gin motes, scutcher waste (including tow), picker waste, card waste, top waste, comber waste (including noils), hackling waste (including tow), sliver waste, roving waste, ring waste, throwster (twister or plyer) waste, fly, sweepings, and willowed wastes, and including fiber, yarn, and thread wastes obtained in the production of other textile products (i.e., products other than fibers, yarns, or threads) or otherwise obtained; and (b) the term "advanced waste" means any of the above-mentioned wastes which have been cleaned, bleached, colored, or otherwise advanced, and includes fibers recovered by cleaning (except willowing), degumming, carbonizing, cutting, pickering, garnetting or similar processes from any of the above-mentioned wastes or from textile clippings or articles, new or used, whether or not such fibers or the wastes from which recovered have also been otherwise advanced, but does not include fibers which have been carded, combed, or similarly processed, or reuseable yarns or threads.				
			2. Rags and scrap cordage are covered in part 7C of this schedule.				
			Subpart A. - Cotton				
			Subpart A headnotes:				
			1. The term "number", as applied to yarns in this subpart, means the number of 840-yard hanks of yarn in 1 pound. To determine the number of any yarn, whether single or plied, the actual yards per pound shall be divided by 840 and the quotient thereof multiplied by the number of plies in such yarn. Fractions in the resulting yarn number shall be disregarded.				
			2. In this subpart, each of the rates of duty provided for yarns, wholly of cotton, not bleached, mercerized, colored, combed or plied (items 301.01 through 301.98, inclusive) is also the "base rate" for yarn of the same number covered by item 302.--. For citation purposes, the two blanks on the end of the latter item number shall be filled in with the last two digits of the item number for the applicable base rate. Thus, "item 302.28" would be the citation for bleached, mercerized, colored, combed, or plied yarns, wholly of cotton, of number 28.				
			3. Under regulations prescribed by the Secretary of the Treasury, the staple length of cotton shall be determined for all customs purposes by application of the Official Cotton Standards of the United States for length of staple, as established by the Secretary of Agriculture and in effect when the determination is to be made.

Subpart B. - Vegetable Fibers, Except Cotton

Subpart B headnote:

1. For the purposes of the tariff schedules --
(a) the term "vegetable fiber" means vegetable fiber which can be spun and includes fiber chiefly used for padding and stuffing (such as kapok and crin vegetal), but does not include vegetable fiber chiefly used in the manufacture of brushes and brooms (see part 15 of schedule 1);

1/ See headnote 2 of this subpart.

Subpart C. - Wool and Related Animal Hair

Subpart C headnotes:

1. For the purposes of this subpart --
(a) the term "hair" is limited to hair of the camel, and to hair of the alpaca, cashmere goat, angora goat, and like hair of other animals including the llama, the vicuna, and the angora rabbit;
(b) the term "clean lb." in the rate columns means pound of clean yield;

1/ Duty temporarily reduced. See item 946.42 in part 2C, Appendix to Tariff Schedules.
2/ Duty temporarily reduced. See item 946.44 in part 2C, Appendix to Tariff Schedules.
3/ Duty temporarily reduced. See item 946.46 in part 2C, Appendix to Tariff Schedules.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			(c) the term "clean yield", in the foregoing headnote, means the absolute clean content (i.e., all that portion of the merchandise which consists exclusively of wool or hair free of all vegetable and other foreign material, containing by weight 12 percent of moisture and 1.5 percent of material removable from the wool or hair by extraction with alcohol, and having an ash content of not over 0.5 percent by weight), less an allowance, equal by weight to 0.5 percent of the absolute clean content plus 60 percent of the vegetable matter present, but not exceeding 15 percent by weight of the absolute clean content, for wool or hair that would ordinarily be lost during commercial cleaning operations; (d) wool or hair "on the skin" includes all skins or skin pieces from which wool or hair is commercially recoverable by any process (except wool or hair on the skin provided for in part 5B of schedule 1; except wool or hair on the skin which has been cleaned otherwise than by shaking, willowing, burr-picking, or washing with water only; and except tanned-skin scrap); (e) wool or hair "in the grease" is wool or hair in its natural condition as separated from the animal or skin, whether or not cleaned by shaking, willowing, or burr-picking, but not otherwise cleaned; (f) "washed" wool or hair is wool or hair, not on the skin, that has been washed, with water only, while on the animal's back or on the skin, whether or not cleaned by shaking, willowing, or burr-picking, but not otherwise cleaned; (g) "scoured" wool or hair is wool or hair, whether or not on the skin, (except wool or hair in the grease or washed) that has been cleaned by any process other than shaking, willowing, burr-picking, washing with water only, or carbonizing; (h) "carbonized" wool or hair is wool or hair whether or not on the skin that has been cleaned by carbonizing in lieu of, or in addition to, any other cleaning process, whether or not neutralized or neutralized and dusted; and (i) "sorted" wool or hair is wool or hair separated from each individual fleece according to length, soundness, elasticity, fineness, color, or other properties, but does not include a skirted fleece unless the back has been removed, and does not include skirtings. 2. The standards for determining grades of wool shall be those which are established from time to time by the Secretary of Agriculture pursuant to law and which are in effect on the date of importation of the wool. 1/ 3. For the purposes of item 307.40 -- (a) the classification provisions for wool not finer than 40s shall apply to any package of wool containing not over 10 percent by weight of wool finer than 40s but not containing wool finer than 44s; 1/ Headnote 3 suspended except insofar as it relates to hair of the camel. See headnote 4 in part 1B, Appendix to Tariff Schedules.

			(b) the classification provisions for wool finer than 40s but not finer than 44s shall apply to any package of wool containing not over 10 percent by weight of wool finer than 44s but not containing wool finer than 46s; and (c) the citation for imports classifiable under this item shall be such item number followed by the item number for the part of the contents of the package which determines the rate of duty. 1/ 4. For the purposes of item 306.00 -- (a) a tolerance of not more than 10 percent of wools other than Karakul not finer than 44s may be allowed in each bale or package of wools imported as not finer than 40s, and a tolerance of not more than 10 percent of wools not finer than 48s may be allowed in each bale or package of wools imported as not finer than 46s; (b) wool or hair shall not be released from customs custody unless the dealer, manufacturer, or processor files a bond to insure that any wool or hair entered thereunder shall be used only in the manufacture of the articles enumerated in the said item; (c) a dealer, manufacturer, or processor may be relieved of liability under his bond with respect to any wool or hair entered under item 306.00 which is transferred in its imported or any other form to another dealer, manufacturer, or processor who has filed a bond to insure that the merchandise so transferred shall be used only in the manufacture of the articles enumerated in item 306.00; and (d) the Secretary of the Treasury is authorized to prescribe such regulations and the amounts, conditions, and forms of such bonds as may be necessary to carry into effect the provisions of item 306.00. 1/ 5. For the purposes of items 306.01, 306.02, 306.03, and 306.04, when wool or hair entered as provided for in item 306.00 is used, or transferred for use, otherwise than in the manufacture of the articles enumerated therein -- (a) the duties shall be paid by the dealer, manufacturer, or processor whose bond is charged with the wool or hair at the time of such use or transfer for such use, but such duties shall not be levied or collected on any merchandise which is destroyed or exported; (b) if prior to such use or transfer for such use there shall have been combined or mixed with such wool or hair any other merchandise, the whole of the combination or mixture shall be regarded as being composed of wool or hair entered under item 306.00, unless the dealer, manufacturer, or processor liable for the payment of the duties shall establish the quantity of bonded wool or hair in such combination or mixture; 1/ Headnotes 4 and 5 suspended except insofar as they relate to hair of the camel. See headnote 4 in part 1B, Appendix to Tariff Schedules.

			(c) every dealer, manufacturer, or processor who has given a bond pursuant to the provisions of item 306.00 shall report any transfer or use of merchandise contrary to the terms of his bond, within 30 days after such transfer or use, to the collector of customs in whose district the bond is filed, and for failure to so report such dealer, manufacturer, or processor shall be liable to a penalty (in addition to the duties provided for) equal to the value of the merchandise so transferred or used at the time and place of such transfer or use; and (d) the clean yield of any wool or hair provided for in item 306.04 shall be deemed to be 100 percent, unless the actual clean yield, as defined in headnote 1(c), supra, has been determined by suitable tests, and such use, or transfer for use, occurs not later than 3 years after the date of entry of such wool or hair. 6. The Secretary of the Treasury is hereby authorized and directed to prescribe methods and regulations for carrying out the provisions of this schedule relating to the duties on wool or hair. The Secretary of the Treasury is further authorized and directed to procure from the Secretary of Agriculture, and deposit in such customhouses and other places in the United States or elsewhere as he may designate, sets of the Official Standards of the United States for grades of wool. He is further authorized to display, in the customhouses of the United States, or elsewhere, numbered, but not otherwise identified, samples of imported wool or hair, to which are attached data as to clean yield and other pertinent facts, for the information of the trade and of customs officers. 7. For the purposes of item 307.66, the term "average fiber diameter" means the sum of the individual fiber diameter measurements divided by the number of fibers measured. Subpart C statistical headnote: 1. For item 306.00, the 2-digit statistical suffix to be used is the same as the 2-digit suffix for the provision which would have been applicable to the wool or hair had it not been entered under item 306.00. Thus, the 2-digit suffix, for a shipment of East Indian wool, in the grease or washed and not sorted, entered under item 306.00, would be "02", i.e., the same as the suffix for such wool had it been entered under item 306.11.

Subpart E. - Man-made Fibers

Subpart E headnotes:

1. The provisions of this subpart do not cover --
   (i) metal filaments, strips, or fibers;
   (ii) paper filaments, strips, or fibers;
   (iii) natural rubber filaments, strips, or fibers;
   (iv) synthetic rubber strips (in continuous or noncontinuous form);
   (v) nonmetallic mineral filaments, strips, or fibers, except as set forth in 2(c) infra;
   (vi) sterile surgical sutures and suture materials, provided for in part 13C of schedule 4;
   (vii) strings for musical instruments (see part 3B of schedule 7);

1/ Duty on certain yarns, wholly of noncontinuous silk fibers, temporarily suspended. See item 905.31 in part 1B, Appendix to Tariff Schedules.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			(viii) fishing line put up and packaged for retail sale (see part 5B of schedule 7); (ix) racket strings put up and packaged for retail sale (see part 5D of schedule 7); or (x) brush bristles provided for in part 12C of schedule 7. 2. (a) For the purposes of the tariff schedules, the term "man-made fibers" refers to the filaments, strips, and fibers covered in this subpart. (b) Subject to the limitations set forth in headnotes 1 and 3 of this subpart, the respective provisions in this subpart for filaments, strips, and fibers cover such articles whether they are formed by extrusion or by other processes from substances derived by man from cellulosic or non-cellulosic materials by chemical processes, such as, but not limited to, polymerization and condensation. (c) The provisions of this subpart applicable to grouped filaments and fibers include grouped glass filaments and glass fibers produced therefrom, suitable for the manufacture of yarns, cordage, or woven fabrics. For the purposes of the provisions of the tariff schedules applicable to articles of man-made fibers, glass filaments and glass fibers shall be treated as man-made fibers only if they have been made into yarns or cordage, or if they are present in fabrics or other articles in the form of yarns or cordage. 3. For the purposes of this subpart -- (a) the term "filaments" embraces monofilaments, plexiform filaments, and grouped filaments, however produced; (b) the term "monofilaments" embraces single filaments (including single filaments of laminated construction or produced from two or more filaments fused or bonded together), whether solid or hollow, whether flat, oval, round, or of any other cross-sectional configuration, which are not over 0.06 inch in maximum cross-sectional dimension; (c) the term "plexiform filaments" embraces flexible filaments each of which consists of a network or plexus of fine fibers and which are suitable for the manufacture of textiles; (d) the term "strips" embraces strips (including strips of laminated construction), whether or not folded lengthwise, twisted, or crimped, which in unfolded, untwisted, and uncrimped condition are over 0.06 inch but not over one inch in width and are not over 0.01 inch in thickness; (e) the term "grouped filaments and strips" embraces two or more filaments or strips, as defined in (a), (b), (c), and (d) of this headnote, grouped together with the filaments or strips substantially parallel and not twisted, but the term does not include grouped filaments which have been subjected to processes such as twisting and untwisting, false twisting, crimping, and curling, and which are useable as yarns;				

GSP	Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty 1	Rates of Duty LDDC	Rates of Duty 2
			(f) the term "fibers" includes filaments and strips, as defined above, in noncontinuous form, and any other fibrous structure suitable for the manufacture of textiles; (g) the term "in continuous form", as used with reference to filaments and strips, refers to such articles when over 30 inches in length; (h) the term "in noncontinuous form", as used with reference to filaments and strips, means such articles when 30 inches or less in length; and (i) the term "denier" means the weight in grams for a length of 9,000 meters.				
			Subpart E statistical headnote: 1. For the purpose of this subpart the term "textured", as used with reference to yarns, means such yarns having special characteristics of bulk or elasticity, or both, which have been imparted to the filaments, or the yarns, by twisting and untwisting, false twisting, crimping, curling, or other additional processing subsequent to the extrusion of the filaments from the spinneret in the case of yarns other than spun yarns, and subsequent to the yarn-spinning operation in the case of spun yarns.

			PART 2. - CORDAGE				
			Part 2 headnotes: 1. For the purposes of this part — (a) the term "cordage" means assemblages of textile fibers or yarns, in approximately cylindrical form and of continuous length, whether or not bleached, colored, or treated, designed and chiefly used as an end product, and comprising cable, rope, cord, and twine, but the term does not include — (i) yarns (see part 1 of this schedule), or (ii) braids or elastic articles (see part 4A of this schedule and part 1B of schedule 7); (b) cordage "of stranded construction" is cordage composed of 3 or more strands composed of 2 or more yarns each, whether or not containing a core; (c) the term "hard (leaf) fibers" means fibers obtained from the leaf or leaf stems of monocotyledonous plants (e.g., abaca, sisal, and henequen); (d) the term "bleached, colored, or treated" means that the condition of the cordage or any of its constituent fibers or yarns has been affected by bleaching or coloring processes; by surface treatments such as polishing, glazing, coating, or filling; or by the application of grease or other nonfibrous substances (except oil) for any purpose, including rendering the cordage more able to withstand or repel fire, insects, rodents, mildew or rot; (e) the term "binder twine and baler twine" (item 315.20) means a single-ply twine measuring over 150 but not over 750 feet per pound, containing 8 percent or more by weight of added nonfibrous substances such as oil, grease, or repellents, and chiefly used with harvesting machines or baling machines for binding or tying of grains or for baling hay, straw, and other fodder or bedding materials.

PART 3. - WOVEN FABRICS

Part 3 headnote:

1. This part covers all woven fabrics in the piece, of any width and with or without fast edges, including gauze and leno-woven fabrics, but does not include --

(i) any woven fabrics which are specially provided for in the provisions of part 4 of this schedule;

(ii) certain wool fabric samples (see part 7A of this schedule); or

(iii) woven fabrics in item 748.10 of part 7B of schedule 7.

Subpart A. - Woven Fabrics, of Cotton

Subpart A headnotes:

1. (a) In the ascertainment of the condition of the fabrics or yarns upon which the duties imposed upon cotton fabrics are made to depend, the entire fabric and all parts thereof shall be included.

(b) The term "number", as applied to woven fabrics of cotton, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous, and with the count being taken of the total single yarns in the fabric including the single yarns in any plied yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number for tariff purposes:

$$N = \frac{BYT}{840}, \text{ or } \frac{24T}{35Z'}, \text{ or } \frac{2BT}{105Z}, \text{ or } \frac{3ST}{70}$$

when:

N is the average yarn number,
B is the breadth (width) of the fabric in inches,
Y is the yards (linear) of the fabric per pound,
T is the total single yarns per square inch,
S is the square yards of fabric per pound,
Z is the ounces per linear yard of fabric, and
Z' is the ounces per square yard of fabric.

2. In this subpart, each of the rates of duty provided for fabric, wholly of cotton, not fancy or figured, and not bleached and not colored (items 319.21 through 319.25 and items 320.01 through 320.98, both inclusive) is also the "base rate" for fabrics of the same average yarn number covered by items 319.27 and 319.29, and by items 321.-- through 331.--, inclusive, respectively. For citation purposes, the two blanks on the end of each of the latter item numbers shall

GSP	Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty		
					1	LDDC	2
			be filled in with the last two digits of the item number for the applicable base rate. Thus, "item 324.45" would be the citation for woven fabrics, wholly of cotton, of number 45, fancy or figured, and bleached but not colored. 3. The term "fancy or figured", as used in this subpart in relation to fabrics, means fabrics which have been woven with 2 or more colors or kinds of filling; with 8 or more harnesses; or with jacquard, lappet, or swivel attachments; or by any combination of these weaving methods. 4. With respect only to the fabrics provided for in items 319.21 through 319.25 and 320.01 through 320.98, none of the ad valorem rates of duty, or the ad valorem parts of the compound rates of duty, shall be less than the equivalent of -- (i) 0.23 cent per number per pound in rate column 1 for items 320.01 through 320.98; (ii) 0.3 cent per number per pound in rate column 1 for items 319.21 through 319.25; and (iii) 0.55 cent per number per pound in rate column 2 for items 319.21 through 319.25 and 320.01 through 320.98. Subpart A statistical headnotes: 1. For the purposes of this schedule, the following terms relating to fabrics of cotton have the meanings hereby assigned to them. (The average yarn number referred to in certain of the definitions is the "number" ascertained by the method set forth in headnote 1 of this subpart. The yarn number (before weaving) referred to in certain of the definitions is the yarn number of the yarn before it is prepared for weaving): (a) Duck: Plain-woven fabrics made of carded yarns, not napped, woven with less than 8 harnesses and without the use of jacquard, lappet, or swivel attachments, the warp and/or filling of which consists of plied yarns or of 2 or more single yarns woven as one, having an average yarn number not over 15, weighing 5 ounces or more per square yard. (b) Gingham: Plain-woven and fancy yarn-dyed fabrics having two or more colors in the warp and/or in the filling. Include checked and plaid ginghams, gingham stripes, cloth of "haircord" construction (i.e., cloth having cord stripes in the warp which are formed by yarns woven from an extra beam), and "poplin" type fabrics with a difference in picks per inch and ends per inch of less than 40 (e.g., 90 x 60). Excluded are yarn-dyed handkerchief fabrics made in box looms. The following are examples: Yarn number (before weaving) — Warp: 20s / 40s / 40s / 40s / 30s / 30s / 30s / 30s Yarn number (before weaving) — Filling: 20s / 40s / 40s / 40s / 30s / 30s / 40s / 40s Yarns per inch — Warp: 62 / 80 / 90 / 70 / 70 / 76 / 73 / 90 Yarns per inch — Filling: 50 / 70 / 60 / 60 / 60 / 64 / 66 / 60

(c) Lawns: Plain-woven fabrics, not napped, in which the total yarns per square inch is over 148 but not over 220 and having an average yarn number over 60 but not over 120.

(d) Poplin and broadcloth: Plain-woven fabrics, not napped, not fancy or figured, having at least 40 more warp yarns than filling yarn per inch, and having a more or less pronounced horizontal rib formed by using a heavier filling yarn than warp and/or with about half as many picks per inch as ends. May be made with either singles or ply yarns in warp and filling. The average yarn number usually ranges between 20 and 100. The following are examples:

Yarn number (before weaving)		Yarns per inch	
Warp	Filling	Warp	Filling
30s	40s	126	60
40s	40s	144	76
40s	40s	123	60
40s	40s	136	60

40s	40s	138	67
40s	40s	140	72
40s	40s	133	72
80s	80s	131	71

(e) Printcloth: Plain-woven fabric, not napped, not fancy or figured, made of singles yarn, not combed, with a difference between the yarns per inch of the warp and of the filling usually not over 15, and having an average yarn number usually in the range between 27 and 44.

(i) Printcloth (80 x 80 type): Plain-woven fabrics made of printcloth yarns (i.e., yarns having a yarn number before weaving of 28s to 46s) and of the following constructions:

Yarn number (before weaving)		Yarns per inch	
Warp	Filling	Warp	Filling
30s	40s	80	80
30s	36s	72	69
30s	40s	100	60

(ii) Printcloth (other than 80 x 80 type): Plain-woven fabrics made of printcloth yarns (i.e., yarns having a yarn number before weaving of 28s to 46s), and substantially of the following constructions:

Yarn number (before weaving)		Yarns per inch	
Warp	Filling	Warp	Filling
28s	30s	68	70
30s	30s	68	60
30s	36s	64	56
36s	38s	62	61
38s	42s	68	63

			(f) Sheeting: Plain-woven fabric, not fancy or figured, and not napped, made of singles yarn. The average yarn number for carded sheeting exceeds 3 but not 26, and the average yarn number for combed sheeting usually ranges between 25 and 40. The following are examples:				
			Yarn number (before weaving) Warp / Filling — Yarns per inch Warp / Filling: 20s / 20s — 61 / 49; 20s / 20s — 56 / 52; 20s / 20s — 60 / 60; 24s / 23s — 68 / 66; 14s / 15s — 45 / 44; 24s / 23s — 40 / 40				
			The following fabrics are included in sheeting:				
			(i) Osnaburg--Plain-woven fabric of low construction (that is few yarns per inch), of coarse carded yarn made of short-staple, low-grade cotton, or of a mixture of such cotton and waste, not fancy or figured, and not napped, and having an average yarn number usually in the range between 3 and 10.				
			(ii) Classes A, B, and C sheeting--Plain-woven fabric, not combed, not fancy or figured having average yarn numbers in the following ranges:				
			Class A--Average yarn number of 15 or less.				
			Class B--Average yarn number over 15 but not over 21.				
			Class C--Average yarn number over 21.				
			(iii) Soft-filled sheeting--Plain-woven fabric, not combed, made with filling yarn soft-spun and considerably coarser than the warp yarn and having an average yarn number usually in the range between 10 and 25.				
			(iv) Combed bed-sheeting--Plain-woven fabric, not fancy or figured, not napped, made of combed singles yarn, in widths 42 inches and over, with the total yarns per square inch usually 124 or over, and having an average yarn number usually 35 or more.				
			(v) Other sheetings--Sheeting not covered by the description for osnaburg, classes A, B, and C sheeting, soft-filled sheeting, and bed sheeting, or for which no reporting number is provided in this schedule.				
			(g) Shirting, jacquard and dobby: Cotton fabrics, not napped, woven with jacquard or dobby attachments, measuring 3 square yards per pound or over. The following are examples (for warp-loop fabrics the figures in parentheses under warp yarn number are the yarn number of extra warp yarns; those under warp yarns per inch are ends of extra warp yarns per inch):				
			Yarn number (before weaving) Warp / Filling — Yarns per inch Warp / Filling: 40s (20/2) / 40s — 74s (6) / 70s; 40s (40/2) / 40s — 79s (10) / 60s; 40s (40/2) / 40s — 72s (10) / 75s

(h) Table damask: Cotton fabrics, not napped, woven with jacquard or dobby attachments characterized by elaborate decorative designs, usually of floral patterns. The designs are reversible and are formed by a warp-face satin weave and the ground by a filling-face satin weave. Table damask is generally all white, although it is sometimes made with colored stripes or in solid pastel shades.

(ij) Twills and sateens:

Twills--Fabrics woven with a twill weave, not napped, having a more or less pronounced diagonal effect on the face of the cloth. They include fabrics known as drills, warp twills, filling twills, jeans, filter twills, broken twills, herringbone twills, gabardines, denims, chinos, and tickings.

Denims--Three-harness or four-harness twill fabrics, not fancy or figured, and not piece-colored, but the warp yarns of which are colored, made of singles yarn, and having an average yarn number over 3 but not over 16.

Sateens--Fabrics woven with a satin weave, not napped, in which the surface of the cloth consists almost entirely of warp or filling floats, that is, in the repeat of a weave pattern, each yarn of one system passes over several yarns of the other system before interlacing; they are sometimes woven with a twill weave but the diagonal effect in these is not ordinarily discernible on the face of the cloth. The following are examples of fabrics included in twills and sateens:

Type or name	Yarn number (before weaving)		Yarns per inch	
	Warp	Filling	Warp	Filling
Twill----------	16s	16s	70	48

			(k) Voiles: Plain-woven fabric, not napped, in which the total yarns per square inch is not less than 112 nor more than 148, and having an average yarn number over 50 but not over 70. (l) Napped fabrics: Fabrics with a fuzzy, fibrous surface produced by scratching or pricking the surface so that some of the fibers are raised from the body of the yarn. Napped fabrics are not to be confused with pile fabrics. Outing and canton flannel, moleskin, etc. are typical fabrics with a nap. (m) Yarn-dyed fabrics, n.s.p.f.: All fabrics, not included in any of the preceding groups, which contain any yarn to which color was imparted in any stage of manufacture before weaving. (n) Other fabric: All cotton fabrics not included in any of the preceding groups. (o) Not combed fabrics: Fabrics made wholly or in part of yarn not combed. (p) Combed fabrics: Fabrics made wholly of combed yarn. 2. The statistical suffixes to be used in connection with fabrics of cotton classifiable under items 320.01 through 331.--, inclusive, are set forth in the special table entitled "Statistical Suffix Table for Items 320.01 through 331.--" which appears at the end of this subpart.				
			Woven fabrics, wholly of cotton: Colored, whether or not bleached and whether or not fancy or figured, and made on a hand loom (i.e., a nonpower-driven loom) by a cottage industry, and which prior to exportation have been certified by an official of a government agency of the country where the fabrics were produced to have been so made:

			PART 4. - FABRICS OF SPECIAL CONSTRUCTION OR FOR SPECIAL PURPOSES; ARTICLES OF WADDING OR FELT; FISH NETS; MACHINE CLOTHING Part 4 headnote: 1. This part covers certain textile fabrics and, in addition, certain other textile products. The provisions of subpart B of this part and the provisions for "fish netting and fishing nets" in subpart C hereof do not cover gauze and leno-woven fabrics. Woven textile fabrics not specially provided for in this part are provided for in part 3 of this schedule. Subpart A. - Knit, Pile, Tufted, and Narrow Fabrics; Braids, and Elastic Fabrics Subpart A headnotes: 1. This subpart provides for the named fabrics, braids, and elastic materials, when in the piece only. Any fabric described in this subpart and also in subpart B or C of this part is classifiable in the said subpart B or C. This subpart does not cover -- (i) braids suitable for making or ornamenting headwear (see part 1B of schedule 7); or (ii) rubber or plastics filaments (see part 1E of schedule 3 and part 12B of schedule 7). 2. For the purposes of the tariff schedules -- (a) the term "narrow fabrics" means (i) woven or knit fabrics, not over 12 inches in width, with fast edges (that is, with both edges made or treated to prevent the fabric from unraveling, by means of selvages, stitching, gumming, fusing, or simple hemming); or (ii) seamless woven or knit tubings which, when flattened, are not over 12 inches in width; or (iii) bias binding consisting of strips, not over 12 inches in width, cut on the bias from woven or knit fabrics and folded and creased on the edges;

			(b) the term "elastic", as used to describe yarns, cordage, braids, and fabrics, means that such articles possess elasticity which is attributable in whole or in part to rubber.				
			3. Any article described in more than one superior heading of this subpart is classifiable under the last such heading in which it is described.

Subpart B. - Lace, Netting, and Ornamented Fabrics

Subpart B headnotes:

1. This subpart covers only (a) textile fabrics in the piece, of any width, including edgings, insertings, galloons, flouncings, and all-overs, and (b) textile motifs. Fabrics described in part 3, part 4A, or part 4C of this schedule are covered by item 353.50 if ornamented.

2. For the purposes of this subpart --
(a) the term "motifs" embraces individual textile pieces such as, but not limited to, labels, badges, emblems, insignia, initials, numbers, and ornaments, designed and almost wholly used for incorporation in, or appliqueing on, wearing apparel, furnishings, and other textile articles; and
(b) the term "quilling", in item 352.30, means netting not over 12 inches in width with fast edges formed simultaneously by the same machine which produced the netting.

Subpart C. - Wadding, Felts, and Articles Thereof; Fish Netting and Nets; Artists' Canvas; Coated or Filled Fabrics; Hose; Machine Clothing; Other Special Fabrics

Subpart C headnotes:

1. The provisions of this subpart do not cover --
   (i) any of the products described in part 5, 6, or 7A of this schedule;
   (ii) cloth-lined or reinforced paper (see part 4B of schedule 2);
   (iii) cloths coated with abrasives (see part 1G of schedule 5);
   (iv) fish landing nets (see part 5B of schedule 7);
   (v) laminated or reinforced plastics (see part 12 of schedule 7);
   (vi) hair felt, and articles thereof (see part 13A of schedule 7); or
   (vii) other articles specially provided for in schedule 7 or elsewhere.

			2. For the purposes of the tariff schedules -- (a) the term "coated or filled", as used with reference to textile fabrics and other textile articles, means that any such fabric or other article has been coated or filled (whether or not impregnated) with gums, starches, pastes, clays, plastics materials, rubber, flock, or other substances, so as to visibly and significantly affect the surface or surfaces thereof otherwise than by change in color, whether or not the color has been changed thereby; (b) the term "nonwoven fabrics" refers to fabrics made of matted textile fibers which are not in the form of yarns, but includes needle-punched felts comprised of fibers punched through a base fabric; and (c) the provisions in this subpart for fabrics, coated or filled with rubber or plastics material, or laminated with sheet rubber or plastics (items 355.65-.85), cover products weighing not over 44 ounces per square yard without regard to the relative quantities of the textile fibers and the rubber or plastics material, but do not cover products weighing over 44 ounces per square yard unless they contain more than 50 percent by weight of textile fibers.				
			Subpart C statistical headnote: 1. The term "salmon gill netting, of nylon" as used in item 355.4520 means netting of nylon multifilament, twisted single plied, with double or triple knot construction; nylon monofilament, twisted multi-plied or multi-stranded, with double or triple knot construction; all the foregoing not less than 5-1/4 inches stretch mesh size.				
			Webs, wadding, batting, and nonwoven fabrics, including felts and bonded fabrics, and articles not specially provided for of any one or combination of these products, all the foregoing, of textile materials, whether or not coated or filled:

			PART 5. - TEXTILE FURNISHINGS				
			Subpart A. - Textile Floor Coverings				
			Subpart A headnotes:				
			1. This subpart covers floor coverings of textile materials and floor covering underlays of fibrous materials. This subpart does not cover -- (i) floor coverings of unspun fibrous vegetable materials (see part 2B of schedule 2); (ii) linoleum, and other nontextile floor coverings (see part 4B of schedule 7); or (iii) rugs or carpets made prior to 100 years before their date of entry (see part 11 of schedule 7).				
			2. For the purposes of this subpart -- (a) the term "floor coverings" means carpeting, carpets, rugs, matting, and mats, all the foregoing of any size or shape, including squares or other segments designed to be joined together, suitable for use as floor coverings in homes, business establishments, institutions, vehicles, or elsewhere; and (b) the term "floor covering underlays" means any cushions or paddings of textile or other fibrous materials, of any size or shape, chiefly used under textile floor coverings.				
			3. For the purposes of this subpart, rubber, plastics, or other nontextile materials incorporated into a floor covering as a backing or underlay or to hold the pile in place shall be disregarded in determining the component material of chief value in the floor covering.				
			Floor coverings of pile or tufted construction, of textile materials:

			PART 6. - WEARING APPAREL AND ACCESSORIES Part 6 headnotes: 1. This part does not cover -- (i) wearing apparel of textile materials provided for in schedule 7; or (ii) surgical stockings, surgical belts, and orthopedic devices or appliances (see part 2B of schedule 7). 2. For the purposes of this part -- (a) "infants' wearing apparel" is wearing apparel for children, regardless of their sex, up to and including 6 years of age; (b) "men's and boys' wearing apparel" is wearing apparel for males over 6 years of age; and (c) "women's and girls' wearing apparel" is wearing apparel for females over 6 years of age, including wearing apparel commonly worn by either sex and not identifiable as being intended exclusively for the wear of men or boys. Part 6 statistical headnote: 1. Merchandise imported in sets, consisting of two or more separate articles and determined dutiable under a single 5-digit item number as an entirety, shall be reported statistically as separate articles under the most appropriate 7-digit reporting numbers within that same 5-digit grouping (including the provision for "other"), provided that this instruction shall not apply to statistical annotations specifically providing for the set, as in the case of suits and infants' sets up to and including 24 months of age.

			Subpart A. - Handkerchiefs				
			Subpart A headnotes:				
			1. For the purposes of this subpart -- (a) the term "handkerchiefs" means textile articles designed to be worn on or carried on or about the person as articles of utility, for decorative purposes, or both, whether known as kerchiefs, handkerchiefs, neckerchiefs, scarves, or mufflers, which are square or approximately square in shape and do not exceed 24 inches in length or width (finished dimensions), or which, if not square or approximately square, fit wholly within a 24-inch square (finished dimensions); and (b) the term "fancy or figured" means that the fabric from which the handkerchief was made was woven with 2 or more colors or kinds of filling; with 8 or more harnesses; or with jacquard, lappet, or swivel attachments; or by any combination of these weaving methods.				
			2. The average yarn number of cotton fabric in handkerchiefs is obtained in the manner prescribed in headnote 1(b) of part 3A of this schedule.				
			Lace handkerchiefs, whether or not ornamented, and other handkerchiefs, ornamented:

Schedule 4 headnotes:

1. This schedule does not include --
   (i) any of the mineral products provided for in schedule 5;
   (ii) metal-bearing ores and other metal-bearing materials, provided for in part 1 of schedule 6; or
   (iii) metals provided for in part 2 of schedule 6.

2. (a) The term "compounds", as used in this schedule, means substances occurring naturally or produced artificially by the reaction of two or more ingredients, each compound --
   (i) consisting of two or more elements,
   (ii) having its own characteristic properties different from those of its elements and from those of other compounds, and
   (iii) always consisting of the same elements united in the same proportions by weight with the same internal arrangement.

The presence of impurities which occur naturally or as an incident to production does not in itself affect the classification of a product as a compound.

(b) The term "compounds", as used in this schedule, includes a solution of a single compound in water, and, in determining the amount of duty on any such compound subject to duty in this schedule at a specific rate, an allowance in weight or volume, as the case may be, shall be made for the water in excess of any water of crystallization which may have been in the compound.

3. (a) The term "mixtures", as used in this schedule, means substances consisting of two or more ingredients (i.e., elements or compounds), whether occurring as such in nature, or whether artificially produced (i.e., brought about by mechanical, physical, or chemical means), which do not bear a fixed ratio to one another and which, however thoroughly commingled, retain their individual chemical properties and are not chemically united. The fact that the ingredients of a product are incapable of separation or have been commingled in definite proportions does not in itself affect the classification of such product as a mixture.

(b) The term "mixtures", as used in this schedule, includes solutions, except solutions defined as compounds in headnote 2(b) of this schedule.

			PART 1. - BENZENOID CHEMICALS AND PRODUCTS				
			Part 1 headnotes:				
			1. Except as specifically set forth in the headnotes to other parts of this schedule, all products described in this part shall be classified hereunder even if more specifically described elsewhere in this schedule. Any product described in both subparts B and C of this part shall be classified in subpart C.				
			2. For the purposes of this part, the term "modified benzenoid" describes a molecular structure having at least one six-membered heterocyclic ring which contains at least four carbon atoms and having an arrangement of molecular bonds as in the benzene ring or in the quinone ring, but does not include any such molecular structure in which one or more pyrimidine rings are the only modified benzenoid rings present.				
			3. With the exception of the natural products provided for in subpart C, this part does not cover cyclic organic chemical products (such as, but not limited to, tannic, gallic and pyrogallic acids; estrone, estradiol, and corticosteroids; morphine, ergot, and cinchona alkaloids; rotenone; phenylalanine; tyrosine; epinephrine; and thymols) having a benzenoid, quinoid, or modified benzenoid structure, which are produced from animal or vegetable products in which such structure occurs naturally, unless such cyclic organic chemical products were obtained, derived, or manufactured in part from any product provided for in subpart A, B or C of this part.

			Subpart B. - Industrial Organic Chemicals 1/				
			Subpart B headnotes: 1. The provisions of items 402.00 to 406.63, inclusive, in this subpart shall apply not only to the products described therein when obtained, derived, or manufactured in whole or in part from products described in subpart A of this part, but shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in said subpart A. 2. For the purpose of classification of merchandise provided for under items 402.36 to 406.63, inclusive, the following provisions shall govern: (a) The term "derivatives" refers to only those derivatives which may be obtained by one or more of the following processes: Halogenation, nitration, nitrosation, or sulfonation, and is to be understood to include sulfonyl halides. (b) A compound with functional groups described in two or more items under items 402.36 to 406.63, inclusive, is to be classified in the latest applicable item. For example, 4-acetamido-2-aminophenol, which contains three functional groups, will be classified in 405.12 (Amides), rather than in 404.92 to 405.09, inclusive (Aminophenols), or in 404.84 to 404.90, inclusive (Amines), or in 403.51 (Phenols). When applicable, classification should be made in accordance with the following principles: (i) Salts of organic acids (including phenols) with inorganic bases and salts of organic bases with inorganic acids are to be classified under the same superior heading as the organic acid or base; salts of organic acids with organic bases are to be classified either under the superior heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free base, whichever is listed later. (ii) Esters of organic acids are to be classified either under the superior heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free alcohol or phenol, whichever is listed later. (iii) The above provisions apply also in cases where the component having the functional groups described under the later superior heading is not of benzenoid origin. For example, benzyl acetate is classified under carboxylic acids (404.24 to 404.47, inclusive) rather than under alcohols (403.45). 1/ Articles exported to the United States prior to July 1, 1980, must be appraised under the valuation standards provided for in sections 402 and 402a of the Tariff Act of 1930 in effect on June 30, 1980, and are subject to classification under the items of the Tariff Schedules in effect on that date.

			Subpart C. - Finished Organic Chemical Products				
			Subpart C headnotes:				
			1. The provisions of this subpart providing for products obtained, derived, or manufactured in whole or in part from products described in subpart A or B of this part shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in the said subpart A or B.				
			2. For the purposes of the Tariff Schedules, the term "pesticides" means products, such as insecticides, rodenticides, fungicides, herbicides, fumigants, and seed disinfectants, chiefly used to destroy undesired animal or plant life.				
			3. The term "plastics materials" in items 408.44 to 409.18, inclusive, embraces products formed by the condensation, polymerization, or copolymerization of organic chemicals and to which plasticizers, fillers, colors, or extenders may have been added. The term includes, but is not limited to, phenolic and other tar-acid resins, styrene resins, alkyd and polyester resins based on phthalic anhydride, coumarone-indene resins, urethane, epoxy, toluene sulfonamide, maleic, fumaric, aniline, and polyamide resins, and other synthetic resins. The plastics materials may be in solid, semi-solid, or liquid condition, such as flakes, powders, pellets, granules, solutions, emulsions, and other basic forms not further processed.				
			4. For the purpose of the classification of merchandise provided for under items 408.44 to 409.18, inclusive, the following provisions shall apply: (a) The term "thermoplastic resins" means those materials in unfinished forms which in their final state as finished articles are capable of being repeatedly softened by increase of temperature and hardened by decrease of temperature. (b) The term "thermosetting resins" (or thermosets) means those materials in unfinished forms which in their final state as finished articles are substantially infusible. Thermosetting resins are often liquids at some stage in their manufacture or processing and are cured by heat, catalysis, or other chemical means. After being fully cured, thermosets cannot be resoftened by heat.				
			1/ Articles exported to the United States prior to July 1, 1980, must be appraised under the valuation standards provided for in sections 402 and 402a of the Tariff Act of 1930 in effect on June 30, 1980, and are subject to classification under the items of the Tariff Schedules in effect on that date.

			(c) Copolymers and terpolymers not specially provided for shall be classified as if they consisted entirely of that monomer which is present in the largest amount by weight on a resin content basis (i.e., excluding the weight of plasticizers, liquid diluents, fillers, or other additives). Any polymer consisting of two or more monomers which are present in equal amounts shall be classified as if it consisted entirely of that monomer whose polymer is listed first under the thermoplastic or thermosetting resins, as appropriate. 5. The term "paints and enamel paints" in this subpart covers dispersions of pigments or pigment-like materials with a liquid (vehicle) which are suitable for application to surfaces as a thin layer, and which dry (harden) to an opaque, solid film. The vehicle of paints consists of drying oils or resins which bind the pigment particles together in the film; the vehicle of enamel paints is principally varnish. Paints and enamel paints may also contain thinners, driers, plasticizers, or other agents. 6. The term "varnishes" in this subpart covers liquid surface-coating products which contain no pigments or pigment-like materials, and which dry (harden) to a transparent or translucent film. Shellac varnishes are solutions of shellac or any other form of lac in a volatile solvent such as ethyl alcohol. Oleoresinous varnishes consist of resins dissolved in or reacted with a drying oil, to which thinners, driers, and plasticizers may be added. Cellulose-derivative varnishes (lacquers) are solutions of cellulose nitrate or other cellulose derivatives in a volatile solvent. 7. The term "stains" in this subpart covers liquids containing transparent or semi-transparent pigments, dyes, or chemicals, chiefly used to deepen or otherwise alter the color of wood, but which will not obscure its grain, texture, or markings. 8. For the purposes of this subpart -- (a) The term "surface-active agents" means synthetic organic compounds, or mixtures thereof, which function as surface tension modifiers and are chiefly used for any one or combination of the following purposes: as detergents, wetting agents, emulsifiers, dispersants, or foaming agents. (b) The term "synthetic detergents" embraces formulated materials which are used chiefly for household, laundry, and industrial cleaning purposes, and which consist of one or more surface-active agents as the active ingredients in combination with colors, brighteners, perfumes, inert diluents, builders, and extenders such as inorganic salts, polyphosphates, polysilicates or sodium carboxymethylcellulose. 9. The term "plasticizers" in item 409.34 means substances which may be incorporated into a material (usually a plastic, resin material, or an elastomer) to increase its softness, flexibility, workability, or distensibility.

			10. The term "drugs" in this subpart means those substances having therapeutic or medicinal properties and chiefly used as medicines or as ingredients in medicines. 11. For the purposes of the provisions of this subpart relating to "colors, dyes, stains, and related products" (except products provided for in items 410.36 to 410.44, inclusive) -- (a) the specific duties shall be based on standards of strength which shall be established by the Secretary of the Treasury, and upon all importations of such articles which exceed such standards of strength the specific duty shall be computed on the weight which the article would have if it were diluted to the standard strength, but in no case shall any such articles of whatever strength be subject to a less specific duty than that provided in the respective items of this subpart; (b) it shall be unlawful to import or bring into the United States any such product unless the invoice shall bear a plain, conspicuous, and truly descriptive statement of the identity and percentage, exclusive of diluents, of such product; (c) it shall be unlawful to import or bring into the United States any such product, if the immediate container or the invoice bears a statement, design, or device regarding the product or the ingredients or substances contained therein which is false, fraudulent, or misleading in any particular; and (d) in the enforcement of the foregoing provisions of this headnote the Secretary of the Treasury shall adopt a standard of strength for each dye or other product which shall conform as nearly as practicable to the commercial strength in ordinary use in the United States prior to July 1, 1914. If a dye or other product has been introduced into commercial use since said date then the standard of strength for such dye or other product shall conform as nearly as practicable to the commerical strength in ordinary use. If a dye or other product was or is ordinarily used in more than one commercial strength, then the lowest commercial strength shall be adopted as the standard of strength for such dye or other product. 12. Any product described in two or more of the items under items 411.32 to 412.70, inclusive, is to be classified in the first applicable item. 13. The term "Dyes containing, by weight" in items 409.62, 409.86, and 410.04, means those products which contain as the only dye components the specified components listed therewith, each of which must be present in the product. A tolerance of plus or minus 2 percentage points from the named percentages is allowable.

			PART 2. - CHEMICAL ELEMENTS, INORGANIC AND ORGANIC COMPOUNDS, AND MIXTURES				
			Part 2 headnotes:				
			1. This part covers chemicals, except those provided for elsewhere in this schedule and those specially provided for in any of the other schedules.				
			2. For the purpose of this part, inorganic compounds (including salts) are compounds not containing carbon, except carbides and such carbon-containing compounds as inorganic cyanides and cyanates, metallic carbonates, and oxides of carbon which are inorganic in nature.				
			3. For the purpose of this part, organic compounds are compounds containing carbon except such carbon-containing compounds as carbides, inorganic cyanides and cyanates, metallic carbonates, and oxides of carbon.				
			Subpart A. - Chemical Elements				
			Subpart A statistical headnote:				
			1. For the purposes of this subpart, the term "cubic foot" means a standard cubic foot measured at 70°F. at 1 atmosphere.

			PART 3. - DRUGS AND RELATED PRODUCTS 1/				
			Part 3 headnotes: 1. Any product described in this part which is a mixture containing as an ingredient any product described in part 1 of this schedule remains classifiable in part 3 unless the part 1 ingredient, as used in the mixture, imparts therapeutic or medicinal properties thereto. Notwithstanding the provisions of part 1 of this schedule, niacin, niacinamide, meso-inositol hexanicotinate, and pyridoxine (vitamin B_6), regardless of source, are classifiable in part 3 of this schedule. 2. For the purposes of the tariff schedules, the term "drugs" means those substances, whether natural or synthetic, having therapeutic or medicinal properties and chiefly used as medicines or as ingredients in medicines. 3. For the purposes of this part -- (a) "natural substances" are those substances found in nature which comprise whole plants and herbs, anatomical parts thereof, vegetable saps, extracts, secretions and other constituents thereof; whole animals, anatomical parts thereof, glands or other animal organs, extracts, secretions and other constituents thereof, and which have not had changes made in their molecular structure as found in nature; (b) a "synthetic substance" is a chemical compound made by the artificial combination of elements or radicals by any physical or chemical process; (c) the term "crude", as used in relation to natural products, means any product which has not been advanced in value or improved in condition by shredding, grinding, chipping, crushing, distilling, evaporating, extracting, by artificial mixing with other substances or by any other process or treatment beyond that which is essential to its proper packing and the prevention of decay or deterioration pending manufacture; and (d) the term "advanced", as used in relation to natural products, means any product which has been advanced in value or improved in condition from its crude state by any mechanical or physical process whatever beyond that which is essential to its proper packing and the prevention of decay or deterioration pending manufacture, but does not include any product which has been artificially mixed with other substances or the molecular structure of which as found in nature has been changed.

			PART 4. - SYNTHETIC RESINS AND PLASTICS MATERIALS; RUBBER				
			Subpart A. - Synthetic Resins and Plastics Materials				
			Subpart A headnotes:				
			1. This subpart does not cover synthetic plastics materials provided for in part 1C of this schedule, but the addition of any product described in part 1 of this schedule to a synthetic plastics material described in this subpart as an antioxidant, color, dispersing agent, emulsifier, extender, filler, pesticide, plasticizer, or stabilizer does not affect the classification of such synthetic plastics material in this subpart.				
			2. The term "synthetic plastics materials", in this subpart, embraces products formed by the condensation, polymerization, or copolymerization of organic chemicals and to which an antioxidant, color, dispersing agent, emulsifier, extender, filler, pesticide, plasticizer, or stabilizer may have been added. These products contain as an essential ingredient an organic substance of high molecular weight; are capable, at some stage during processing into finished articles, of being molded or shaped by flow; and are solid in the finished article. The term includes, but is not limited to, such products derived from esters of acrylic or methacrylic acid; vinyl acetate, vinyl chloride resins, polyvinyl alcohol, acetals, butyral, formal resins, polyvinyl ether and ester resins, and polyvinylidene chloride resins; urea and amino resins; polyethylene, polypropylene, and other polyalkene resins; siloxanes, silicones, and other organo-silicon resins; alkyd, acrylonitrile, allyl, and formaldehyde resins, and cellulosic plastics materials. These synthetic plastics materials may be in solid, semi-solid, or liquid condition such as flakes, powders, pellets, granules, solutions, emulsions, and other basic crude forms not further processed.				
			Subpart A statistical headnotes:				
			1. For the purposes of this subpart, the term "thermoplastic resins" means those materials which in their final state as finished articles are capable of being repeatedly softened by increase of temperature and hardened by decrease of temperature.				

GSP	Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty 1	Rates of Duty LDDC	Rates of Duty 2
			2. For the purposes of this subpart, the term "thermosetting resins" (thermosets) means those materials which in their final state as finished articles are substantially infusible. Thermosetting resins are often liquids at some stage in their manufacturing or processing, and are cured by heat, catalysis, or other chemical means. After being fully cured, thermosets cannot be resoftened by heat.				
			3. For the purposes of statistical reporting of copolymers and terpolymers in item 445.56, the copolymers and terpolymers shall be reported as if they consisted entirely of that monomer which is present in the largest amount by weight on a resin content basis (i.e., excluding the weight of plasticizers, liquid diluents, fillers, or other additives). Any polymer consisting of two or more monomers which are present in equal amounts shall be reported as if it consisted entirely of that monomer whose polymer is listed first under the thermoplastic or thermosetting resins, as appropriate.

Subpart B. - Rubber

Subpart B headnotes:

1. This subpart covers all rubber whether or not obtained, derived, or manufactured in whole or in part from any product described in part 1 of this schedule.

2. (a) For the purposes of the tariff schedules, the term "rubber" means a substance, whether natural or synthetic, in bale, crumb, powder, latex, or other crude form, that--

(i) can be vulcanized or otherwise cross-linked, and

(ii) after cross-linking can be stretched at 68°F. to at least three times its original length and that, after having been stretched to twice its original length and the stress removed, returns within 5 minutes to less than 150 percent of its original length.

(b) For purposes of the Tariff Schedules other than schedule 4, the term "rubber" also means any substance described in subdivision (a) that also contains fillers, extenders, pigments, or rubber-processing chemicals, whether or not such substance, after the addition of such fillers, extenders, pigments, or chemicals, can meet the tests specified in clauses (i) and (ii) of subdivison (a).

			Subpart B. - Soap and Synthetic Detergents				
			Subpart B headnote: 1. For the purposes of this subpart -- (a) the terms "soap" and "soap powder" embrace formulated products, which are used chiefly for household, laundry, and industrial cleaning purposes, and which contain salts of fatty acids (usually sodium or potassium salts of such fatty acids as lauric, oleic, palmitic, and stearic acids) obtained directly or indirectly from natural oils, fats, and greases, and which may contain added ingredients such as colors, brighteners, perfumes, and builders and extenders including rosin, wax, inorganic salts, and alkaline detergents; and (b) the term "synthetic detergents" embraces formulated materials which are used chiefly for household, laundry, and industrial cleaning purposes, and which consist of one or more surface-active agents as the active ingredients in combination with colors, brighteners, perfumes, inert diluents, builders and extenders such as inorganic salts, polyphosphates, polysilicates or sodium carboxymethylcellulose.

Subpart C. - Inks, Paints, and Related Products

Subpart C headnotes:

1. The provision in this subpart for artists', students', and children's pigments and paints assembled into sets (item 474.08) covers only pigments and paints assembled in such container and form, and with such assortment of articles, as to be suitable for sale at retail to artists, students, or children as a paint set, kit, or color outfit.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			2. The term "paints and enamel paints" in this subpart covers dispersions of pigments or pigment-like materials with a liquid (vehicle) which are suitable for application to surfaces as a thin layer, and which dry (harden) to an opaque, solid film. The vehicle of paints consists of drying oils or resins which bind the pigment particles together in the film; and the vehicle of enamel paints is principally varnish. Paints and enamel paints may also contain thinners, driers, plasticizers, or other agents.				
			3. The term "varnishes" in this subpart covers liquid surface-coating products which contain no pigments or pigment-like materials, and which dry (harden) to a transparent or translucent film. Shellac varnishes are solutions of shellac or any other form of lac in a volatile solvent such as ethyl alcohol. Oleoresinous varnishes consist of resins dissolved in or reacted with a drying oil, to which thinners, driers, and plasticizers may be added. Cellulose-derivative varnishes (lacquers) are solutions of cellulose nitrate or other cellulose derivatives in a volatile solvent.				
			4. The term "stains" in this subpart covers liquids containing transparent or semi-transparent pigments, dyes, or chemicals, chiefly used to deepen or otherwise alter the color of wood, but which will not obscure its grain, texture, or markings.

			Part 10 headnotes:				
			1. Any product described in this part and also in part 1 of this schedule is classifiable in said part 1, except fuel oils, motor fuel, and lubricating oils and greases, containing by weight not over 25 percent of any product described in said part 1. This part does not cover -- (i) paraffin and other petroleum waxes (see part 13B of this schedule), or (ii) petroleum asphalts (see part 1J of schedule 5).				
			2. For the purposes of this part -- (a) "Reconstituted crude petroleum" (items 475.05 and 475.10) is a product which is essentially the equivalent of crude petroleum and which is made by adding fuel oil, naphtha, or other petroleum fractions to crude or topped crude petroleum; and (b) "Motor fuel" (item 475.25) is any product derived primarily from petroleum, shale, or natural gas, whether or not containing additives, which is chiefly used as a fuel in internal-combustion or other engines.				
			3. For the purposes of items 475.65 and 475.70 of this part -- (a) a product is considered to be in liquid form if --				

1/ Pres. Proc. 4766 of June 19, 1980, continues through December 31, 1980, the suspension of the system of license fees on petroleum and petroleum products established by Pres. Proc. 4210 (38 F.R. 9645) of February 1, 1975 and rescinds Pres. Proc. 4744 of April 2, 1980, in its entirety. However, the temporary suspension of duties pursuant to Pres. Proc. 4655 of April 6, 1979, as extended, has expired and such duties are, therefore, reimposed on July 1, 1980. 			This subpart also covers certain minerals and artificial abrasives in forms suitable for use as abrasives or for abrasive purposes (items 519.31 through 519.37, inclusive). The remaining provisions of this subpart apply to papers, cloths, stones, and other articles which are cut or fashioned from natural stone or made from natural or artificial abrasive materials usually with the use of glues, resins, rubber or other binding materials, and which are designed and used for grinding, sharpening, smoothing, polishing, trueing, cutting, or similar purposes. The provisions of this subpart do not cover -- (i) sand (see subpart C of this part), unless made up into abrasive articles; (ii) natural or synthetic diamond dust or powder (see subpart H of this part); (iii) crushed or powdered glass (see part 3 of this schedule), unless made up into abrasive articles; (iv) cosmetics and other toilet preparations (see part 7B of schedule 4); (v) soap and synthetic detergents (see part 8B of schedule 4); (vi) wheels or other abrasive articles mounted in frameworks or machines (see schedule 6); (vii) dental burrs (see part 2 of schedule 7); or (viii) tools to which abrasives have been applied but which have other functioning or working elements such as cutting teeth, edges, grooves, and flutes (see schedule 6). 2. For the purposes of this subpart -- (a) the term "pumice" includes both pumice and pumicite; and (b) the term "wheels" embraces rotary cutters, disks and other circular bodies designed to rotate on a central axis. 3. In determining the component material of chief value in the articles covered by item 519.83, 519.91, 519.93, or 519.95, only the abrasive components thereof shall be compared.

			PART 2. - CERAMIC PRODUCTS Part 2 headnotes: 1. This part covers ceramic wares, and articles of such wares and, in addition, certain unshaped refractory material (subpart A) closely related thereto. 2. For the purposes of the tariff schedules -- (a) a "ceramic article" is a shaped article having a glazed or unglazed body of crystalline or substantially crystalline structure, which body is composed essentially of inorganic nonmetallic substances and either is formed from a molten mass which solidifies on cooling, or is formed and subsequently hardened by such heat treatment that the body, if reheated to pyrometric cone 020, would not become more dense, harder, or less porous, but does not include any glass article; (b) the term "earthenware" embraces ceramic ware, whether or not glazed or decorated, having a fired body which contains clay as an essential ingredient and will absorb more than 3.0 percent of its weight of water; (c) the term "stoneware" embraces ceramic ware whether or not glazed or decorated, having a fired body which contains clay as an essential ingredient, is not commonly white, will absorb not more than 3.0 percent of its weight of water, and is naturally opaque (except in very thin pieces) even when fully vitrified; (d) the term "subporcelain" embraces fine-grained ceramic ware (other than stoneware), whether or not glazed or decorated, having a fired body which is white (unless artificially colored) and will absorb more than 0.5 percent but not more than 3.0 percent of its weight of water; (e) the terms "chinaware" and "porcelain" embrace fine-grained ceramic ware (other than stoneware), whether or not glazed or decorated, having a body which is white (unless artificially colored) and will not absorb more than 0.5 percent of its weight of water; (f) the term "bone chinaware" embraces chinaware or porcelain the body of which contains by weight 25 percent or more of calcined bone; (g) the term "nonbone chinaware" embraces chinaware or porcelain other than bone chinaware; (h) the term "coarse-grained", as applied to ceramic ware, embraces such wares having a body made of materials none of which had been washed, ground, or otherwise beneficiated; (i) the term "fine-grained", as applied to ceramic wares, embraces such wares having a body made of materials any of which had been washed, ground, or otherwise beneficiated; and

			(j) the term "body" includes any engobe or body slip, except engobe or body slip applied to the body as a decoration; and (k) the water absorption of a ceramic body shall be determined by ASTM test method designated C373-56 (except that test specimens may have a minimum weight of 10 grams, and may have one large surface glazed).				
			Subpart A. - Refractory and Heat-Insulating Articles Subpart A headnotes: 1. This subpart does not cover ceramic electrical ware (see subpart D of this part). 2. For the purposes of this subpart, "a heat-insulating article", whether shaped or not shaped, is one having a bulk density not over 75 pounds per cubic foot and designed to impede or resist the flow of heat at temperatures above 1600°F. 3. For the purposes of this subpart, "a refractory article", whether shaped or not shaped, is one having a bulk density over 75 pounds per cubic foot and designed to be used to resist temperatures above 2600°F. A shaped refractory article has special properties of strength and resistance to thermal shock and may also have, depending upon the particular uses for which designed, other special properties such as resistance to abrasion and corrosion. 4. For the purposes of items 531.21 and 531.24, a brick which contains both chrome and magnesite is classifiable according to which of those components is the greater by weight. Subpart A statistical headnote: 1. For the purposes of this subpart, standard brick equivalents (sbe.) shall be calculated on a volumetric basis, based on a brick measuring 4 1/2 inches by 2 1/2 inches by 9 inches.

Subpart B. - Ceramic Construction Articles

Subpart B headnotes:

1. This subpart does not include --
   (i) refractory and heat-insulating articles (see subpart A of this part); or
   (ii) laboratory and industrial chemical ware, electrical ware, and sanitary ware and parts thereof (see subpart D of this part).

2. For the purposes of this subpart --
   (a) no article 1.25 inches or more in thickness shall be regarded as a tile; and
   (b) the term "construction articles" means ceramic ware and articles of such ware such as, but not limited to, bricks, tiles, friezes, mantels, sewer and drain pipes and fittings therefor, flue linings, and hollow building blocks, chiefly used in the construction of buildings and other structures.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			Subpart C. - Table, Kitchen, Household, Art and Ornamental Pottery				
			Subpart C headnotes: 1. This subpart covers ceramic articles chiefly used for preparing, serving, or storing food or beverages, or food or beverage ingredients; and certain smokers', household, and art and ornamental articles of ceramic ware. This subpart does not cover -- (i) smokers' articles provided for in part 9B of schedule 7; (ii) other articles specifically provided for in schedule 7 or elsewhere in the schedules. 2. (a) For the purposes of this subpart, the term "available in specified sets" (items 533.22, 533.24, 533.62, and 533.64) embraces plates, cups, saucers, and other articles chiefly used for preparing, serving, or storing food or beverages, or food or beverage ingredients, which are sold or offered for sale in the same pattern, but no article is classifiable as being "available in specified sets" unless it is of a pattern in which at least the articles listed below in (b) of this headnote are sold or offered for sale. (b) If each of the following articles is sold or offered for sale in the same pattern, the classification hereunder in items 533.22, 533.24, 533.62, or 533.64, of all articles of such pattern shall be governed by the aggregate value of the following articles in the quantities indicated, as determined by the appropriate customs officer under section 402 of the Tariff Act of 1930, as amended, whether or not such articles are imported in the same shipment: 12 plates of the size nearest to 10.5 inches in maximum dimension, sold or offered for sale, 12 plates of the size nearest to 6 inches in maximum dimension, sold or offered for sale, 12 tea cups and their saucers, sold or offered for sale, 12 soups of the size nearest to 7 inches in maximum dimension, sold or offered for sale, 12 fruits of the size nearest to 5 inches in maximum dimension, sold or offered for sale, 1 platter or chop dish of the size nearest to 15 inches in maximum dimension, sold or offered for sale, 1 open vegetable dish or bowl of the size nearest to 10 inches in maximum dimension, sold or offered for sale, 1 sugar of largest capacity, sold or offered for sale, 1 creamer of largest capacity, sold or offered for sale.

			If either soups or fruits are not sold or offered for sale, 12 cereals of the size nearest to 6 inches in maximum dimension, sold or offered for sale, shall be substituted therefor. (c) The percentage of water absorption of cast and jiggered ceramic articles of the same pattern, which are "available in specified sets" and which are imported together in a ratio of at least 5 jiggered articles to 1 cast article in the same shipment shall be the average water absorption of such cast and jiggered articles, of the same pattern in the shipment, which average absorption shall be deemed to be equivalent to 5 percent of the water absorption of a representative sample of such cast articles plus 95 percent of the water absorption of a representative sample of such jiggered articles. 3. In those provisions of this part which classify merchandise according to the value of each "article", an article is a single tariff entity which may consist of more than one piece. For example, a vegetable dish and its cover, or a beverage pot and its lid, imported in the same shipment, constitute an article.

			Subpart A headnotes: 1. This subpart does not cover -- (i) articles (other than globules or balls) described in subpart C of this part; (ii) glass or synthetic optical crystals in any form optically worked (see part 2A of schedule 7); (iii) glass eyes (see parts 2B and 13A of schedule 7); (iv) toy marbles (see part 5K of schedule 7); (v) glass filaments, glass fibers, and articles thereof, specifically included as textiles in the provisions for "man-made fibers", and articles thereof (see headnote 2 of part 1E of schedule 3); or (vi) reinforced or laminated plastics, or articles thereof (see part 12A of schedule 7). 2. For the purposes of the tariff schedules, the term "not optically worked" means that the glass or the synthetic optical crystals have not been subjected to any grinding or polishing incident to surface shaping for producing optical properties.

Subpart B. - Flat Glass and Products Thereof

Subpart B headnotes:

1. This subpart covers flat glass and certain articles made therefrom. This subpart does not cover --

(i) articles described in subpart A or C of this part;
(ii) glass optically worked (see part 2A of schedule 7);
(iii) certain painted, colored, or stained glass windows imported for the use of religious institutions (see part 4 of schedule 8).

2. For the purposes of this subpart --

(a) the term "cast or rolled glass" refers to glass that, as originally produced, has surfaces one or both of which, by a rolling process, have been made rough, figured, fluted, or ribbed, or have been otherwise impressed;

(b) the term "ordinary glass" refers to glass other than "colored or special glass", as defined in headnote 2(c), infra;

(c) the term "colored or special glass" refers to glass that has a transmittance of normally incident light of less than 66 percent at one or more wave lengths from 400 to 700 millimicrons, inclusive, or a transmittance of less than 80 percent at one or more wave lengths from 525 to 575 millimicrons, inclusive, for glass 1/4 inch in thickness, or of the equivalent transmittances for any other thickness, provided that, in determining such light transmittances, the effect of surface irregularities or configurations, or of other surface treatment (except flashing applied prior to solidification), and the effect of wire netting within the glass, shall be eliminated;

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

GSP	Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty 1	Rates of Duty LDDC	Rates of Duty 2
			(d) the term "united inches" refers to the sum in inches of the length and width of a rectangle of glass; and (e) the term "polished", as used with reference to glass, refers to glass one or both of the surfaces of which have been made smooth and glossy, in whole or in part, by abrasive or chemical means, or by floating the glass over molten metal. 3. For the purposes of this subpart, superficial area shall be used in determining the surface area of cast or rolled glass. 4. Glass provided for in items 542.11 through 542.98, imported in any shipment in quantities over 50 square feet of the same size and thickness, shall be denied entry unless -- (i) packed in units containing, as nearly as the particular size permits, 50 square feet, or multiples thereof, or (ii) packed in units containing multiples of the number of sheets of the same size and thickness which would be contained in a unit if packed to contain, as nearly as such size permits, 50 or 100 square feet, or (iii) otherwise packed in a manner which conforms to the packing practices of the domestic glass industry as determined and published from time to time by the Secretary of the Treasury.

Schedule 6 headnotes:

1. This schedule does not cover --

(i) chemical elements (except thorium and uranium) and isotopes which are usefully radioactive (see part 13B of schedule 4);
(ii) the alkali metals, i.e., cesium, lithium, potassium, rubidium, and sodium (see part 2A of schedule 4); or
(iii) certain articles and parts thereof, of metal, provided for in schedule 7 and elsewhere.

2. For the purposes of the tariff schedules, unless the context requires otherwise --

(a) the term "precious metal" embraces gold, silver, platinum and other metals of the platinum group (iridium, osmium, palladium, rhodium, and ruthenium), and precious-metal alloys;

(b) the term "base metal" embraces aluminum, antimony, arsenic, barium, beryllium, bismuth, boron, cadmium, calcium, chromium, cobalt, columbium, copper, gallium, germanium, hafnium, indium, iron, lead, magnesium, manganese, mercury, molybdenum, nickel, rhenium, the rare-earth metals (including scandium and yttrium), selenium, silicon, strontium, tantalum, tellurium, thallium, thorium, tin, titanium, tungsten, uranium, vanadium, zinc, and zirconium, and base-metal alloys;

(c) the term "metal" embraces precious metals, base metals, and their alloys; and

(d) in determining which of two or more equally specific provisions for articles "of iron or steel", "of copper", "of aluminum", or "of" other base metals applies to an article containing two or more base metals and wholly or in chief value thereof, the classification shall be made according to the base metal which predominates by weight over each of the other base metals rather than according to the base metal in chief value.

Schedule 6 statistical headnote:

1. When refined or smelted products are withdrawn for exportation from bonded smelting or refining warehouses established under section 312, Tariff Act of 1930, as amended, that part of each such product which entered into a bonded smelting or refining warehouse as metal-bearing material without the payment of duty thereon, must be reported separately on the warehouse withdrawal form (CF 7512) to show the statistical reporting number for the imported metal-bearing material as reported on the warehouse entry form (CF 7502).

			PART 1. - METAL-BEARING ORES AND OTHER METAL-BEARING MATERIALS Part 1 headnotes: 1. This part covers metal-bearing ores, and certain other metal-bearing materials. This part does not cover -- (a) pigments or fertilizers (see schedule 4, parts 9B and 11, respectively), or chemical compounds (see schedule 4); (b) slag cements, mineral wools, dolomite, cryolite, chiolite, or alunite, magnesite, or calcined bauxite (see schedule 5, part 1); (c) precious and semiprecious stones (see schedule 5, part 1H); or (d) metal waste and scrap, native metals separated from their gangues or matrices, or other metals essentially in a metallic state (see part 2 of this schedule). 2. For the purposes of this part -- (a) the term "metal-bearing ores" embraces only metalliferous minerals, whether crude or concentrated (by crushing, flotation, washing, or by other physical or mechanical separation processes which do not involve substantial chemical change), and roasted or sintered iron, lead, copper, manganese, and zinc concentrates, from which precious metals or base metals, as defined in headnote 2 of this schedule, are commercially obtained, including metals obtained directly in unalloyed form, in the form of alloys, or in the form of chemical compounds; (b) the term "other metal-bearing materials of a type commonly used for the extraction of metal or as a basis for the manufacture of chemical compounds" embraces ash, slag, dross, scale, mattes, speiss, skimmings, flue dust, fumes, refinery slimes, residues, and all other materials (except metal-bearing ores, as above defined, and the dross or residuum from burnt pyrites) of a type from which precious metals or base metals, as defined in headnote 2 of this schedule, are commonly obtained (either as the result of a further processing of the materials as such, or as a result of the addition of the materials as alloying materials to other materials being processed), including metals obtained directly in unalloyed form, in the form of alloys, or in the form of chemical compounds; (c) lead plants are pyrometallurgical reduction facilities whose principal production by weight, exclusive of waste materials and by-products, consists of lead bullion;				

GSP	Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty

			(d) copper plants are pyrometallurgical reduction facilities whose principal production by weight, exclusive of waste materials and by-products, consists of blister copper, black copper, anode copper, or fire-refined copper; (e) zinc plants are facilities whose principal production by weight, exclusive of waste materials and by-products, consists of unwrought zinc metal, zinc pigments, zinc compounds, or zinc fume; and (f) other plants are all facilities which do not fall within the foregoing definitions of lead plants, copper plants, and zinc plants. 3. The duties imposed under item 602.10, 602.20, 602.28, or 602.30 of this part on the copper, lead, or zinc contained in metal-bearing ores are cumulative duties which apply in addition to the duties, if any, otherwise imposed on such ores. 4. Dutiable Metal Content of Ores and Other Materials: (a) The specific rates of duty imposed under the provisions of this part on the metal content of ores and other materials shall apply to the quantity of metal contained therein as determined by chemical analysis without deductions, whether recovered as metals, as alloys, or as chemical compounds or used directly in the manufacture of articles, except as hereinafter provided in this headnote. (b) Allowable Absolute Deductions for Losses on Copper, Lead, or Zinc Content: With respect to ores or other materials provided for in this part which are subject to duty at specific rates on their copper, lead, or zinc content, absolute deductions from the respective quantities of each of such metal contents as determined by chemical analysis shall be allowed, except when losses which exceed such absolute deductions are allowable as provided in 4(c) of this headnote, as follows: (i) Materials initially treated at copper plants: (A) From the copper content, 2 units (B) From the lead content, 2 units plus 50 percent by weight of any remaining lead content (C) From the zinc content, 100 percent by weight (ii) Materials initially treated at lead plants: (A) From the copper content, 2 units (B) From the lead content, 2 units (C) From the zinc content, 2 units or 20 percent by weight of the zinc content, whichever is greater (iii) Materials initially treated at zinc plants: (A) From the copper content, 2 units (B) From the lead content, 2 units (C) From the zinc content, 6 units (iv) Materials initially treated at other plants: (A) From the copper content, 2 units (B) From the lead content, 2 units (C) From the zinc content, 2 units

					1	LDDC	2
			For the purposes of these provisions, one unit is 20 pounds of the respective metal per dry short ton of imported material. (c) Allowable Deductions in lieu of Absolute Deductions on Copper, Lead, or Zinc Content: With respect to ores or other materials provided for in this part which are subject to duty at specific rates on their copper, lead, or zinc content, if more than 90 percent by weight of -- (i) the zinc content of the imported materials initially treated at any lead plant, (ii) the copper content of the imported materials initially treated at any zinc plant, or (iii) the copper, lead, or zinc content of the imported materials initially treated at any plant other than a copper, lead, or zinc plant, is lost in processing during the fiscal year at such plant, the rate of loss to be applied to the like content of materials imported during the 12-month period beginning on the first day of the calendar month nearest to 90 days after the close of the said fiscal year to be initially treated at such plant shall be the actual percentage by weight of such losses for such plant during the said fiscal year. (d) Claims for Deductions: The deductions provided for in 4(b) and 4(c), supra, do not apply to imported materials unless the importer, at the time entry for consumption or for warehouse is filed, makes claim therefor in writing and certifies as to the name, location, and status of the plant at which the materials are to be initially treated. If material with respect to which a certification has been filed is to be transferred to a plant for initial treatment other than the plant specified in the certification, the importer shall notify the collector at the port of entry in advance of the transfer of the material and the entry shall be liquidated or reliquidated on the basis of the allowable losses for the plant to which transfer is to be made. If the importer fails to so notify the collector or fails to transfer the material after having notified the collector of his intention to do so, no deductions shall be allowable on such material and liquidation or reliquidation of the entry shall be made accordingly. (e) Statements of Losses: If losses are to be claimed under headnote 4(c), supra, for a specific plant, the importer shall, not later than 60 days after the close of each fiscal year, file with the collector of customs of the customs collection district in which the plant is located, a statement of losses for said fiscal year for the plant involved and at the request of the importer said collector shall advise the collectors of customs at other ports designated by the importer of the rates of losses at the said plant.				

GSP	Item	Stat. Suf-fix	Articles	Units of Quantity	Rates of Duty		
					1	LDDC	2
			(f) Maintenance of Plant Records: Each plant for which any of the deductions provided for in this headnote are claimed shall maintain records showing the receipt and disposition of each shipment of materials received in the plant and, if losses are to be claimed under headnote 4(c), supra, a record of the losses experienced, and these records shall be made available for inspection by customs officers. 5. When the classification of imported materials under any provision of this part is dependent on the percentage of metal content, such percentage shall be the ratio of the total quantity of the respective metal content to the total quantity of imported material when computed on a dry-weight basis, i.e., free of all uncombined moisture. Part 1 statistical headnote: 1. For the purposes of this part -- (a) the statistical reporting requirements for lead-, zinc-, or copper-bearing ores differ from the usual requirements in that multiple numbers must be used to report a single commodity. In all cases where ores are dutiable on the metal content under one or more of the items 602.10-.30, one or more of the reporting numbers under items 601.03-.66 must also be shown on separate lines on the import entry form. For example, a shipment of zinc concentrates to be initially treated at a zinc plant and containing also lead and copper (in excess of 2 percent by weight, as determined by chemical analysis without deductions), and also gold and silver, shall be reported under the following eight reporting numbers: 601.6621 (lead content), 601.6622 (zinc content), 601.6623 (copper content), 601.6624 (gold content), 601.6625 (silver content), 602.1021 (dutiable lead content), 602.2022 (dutiable zinc content), and 602.3023 (dutiable copper content); (b) the 7-digit reporting numbers under items 601.39, 601.66, 603.50, 603.55, and 603.65 are not mutually exclusive. For example, a material classifiable under item 603.55 and containing lead, copper, gold, and silver would require the numbers 603.5510 (lead content), 603.5530 (copper content), 603.5540 (gold content), and 603.5550 (silver content). The quantity and value of each component metal of the material should be shown with the corresponding 7-digit number; (c) the quantity of metal content to be reported shall be the assay quantity without deductions unless otherwise specified; (d) for lead-, copper-, or zinc-bearing ores separate values for each such metal shall be reported in connection with the quantities reported under items 602.10, 602.20, or 602.30. The value of the gold or silver content, if any, shall be reported in connection with the appropriate 7-digit number in item 601.39 or 601.66. The sum of the separate values shown shall be equal to the total value of the ore; and

			(e) for precious metal ores classifiable under item 601.39 and not containing dutiable amounts of lead, zinc, or copper, separate values for gold, silver, or "other precious metal" content shall be reported in connection with the corresponding 7-digit item number found therein.

PART 2. - METALS, THEIR ALLOYS, AND THEIR BASIC SHAPES AND FORMS

Part 2 headnotes:

1. This part covers precious metals and base metals (including such metals when they are chemically pure), their alloys, and their so-called basic shapes and forms, and, in addition, covers metal waste and scrap. Unless the context requires otherwise, the provisions of this part apply to the products described by whatever process made (i.e., whether rolled, forged, drawn, extruded, cast or sintered) and whether or not such products have been subjected to treatments to improve the properties or appearance of the metals or to protect them against rusting, corrosion or other deterioration. These treatments include annealing, tempering, case-hardening and similar heat-treatments or nitriding; descaling, pickling, scraping, scalping and other processes to remove oxidation scale and crust; rough coating with oil, tar, grease, red lead, or other material to prevent rusting; polishing, burnishing, glazing, artificial oxidation, phosphatizing, and other finishing treatments; metallization by cementation, by electroplating, by immersion in a bath of molten metal, or by other means; coating with enamel, paint, lacquer, or other non-metallic substances; and cladding. This part does not include --

(i) insulated electric conductors (see part 5 of this schedule);
(ii) milliners' wire and other wire covered with textile or other nonmetallic material (see part 3B of this schedule);
(iii) leaf and foil (see part 3C of this schedule); or
(iv) other articles specially provided for elsewhere in the tariff schedules, or parts of articles.

2. Alloys. -- (a) For the purposes of the tariff schedules, alloys are defined and classifiable as hereinafter set forth. Alloys are metallic substances consisting of two or more metals, or of one or more metals and one or more non-metals, intimately united, usually by having been fused together and which may or may not have been dissolved in each other when molten; they include sintered mixtures of metal powders and heterogeneous intimate mixtures obtained by fusion, but do not include substances in which the total weight of the metals does not equal or exceed the total weight of the non-metal components.

					1	LDDC	2
			(b) Precious-metal alloys are alloys which contain 2 percent or more by weight of one or more metals of the platinum group, of gold, or of silver. Precious-metal alloys are classifiable as -- (i) alloys of platinum, if they contain 2 percent or more by weight of one or more metals of the platinum group; (ii) alloys of gold, if they contain 2 percent or more by weight of gold, but contain no metal of the platinum group or less than 2 percent by weight thereof; and (iii) alloys of silver, if they contain 2 percent or more by weight of silver, and are not alloys of platinum or alloys of gold, as defined in (b)(i) and (b)(ii), respectively, of this headnote. (c) Base-metal alloys are alloys which contain one or more base metals and are not any of the precious-metal alloys, as defined in (b) of this headnote. Base-metal alloys are classifiable as -- (i) alloys of that base metal which predominates by weight over each of the other metallic elements contained therein, except as specified in (c)(ii) of this headnote; and (ii) ferroalloys (as defined in headnote 2(e) of subpart B of this part) or master alloys (as defined in headnote 2(b) of subpart C of this part) under their respective headings in subpart B or C of this part, regardless of the base metal therein which predominates by weight. (d) In the tariff schedules, unless the context requires otherwise, a provision for a specific metal includes that metal and its alloys. 3. For the purposes of this part, unless the context requires otherwise -- (a) the term "unwrought" refers to metal, whether or not refined, in the form of ingots, blocks, lumps, billets, cakes, slabs, pigs, cathodes, anodes, briquettes, cubes, sticks, grains, sponge, pellets, shot, and similar primary forms, but does not cover rolled, forged, drawn, or extruded products, tubular products, or cast or sintered forms which have been machined or processed otherwise than by simple trimming, scalping, or descaling; (b) the term "waste and scrap" refers to materials and articles of metal which are second-hand or waste or refuse, or are obsolete, defective or damaged, and which are fit only for the recovery of the metal content or for use in the manufacture of chemicals, and does not include metal in unwrought form or metal-bearing materials provided for in part 1 of this schedule; (c) the term "wrought", as applied to metal products other than wrought iron, refers to products which have been rolled, forged, drawn, or extruded, and also refers to cast or sintered products which have been machined or processed otherwise than by simple trimming, scalping, or descaling;				

GSP	Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty		
					1	LDDC	2
			(d) the term "clad", as applied to metal products, refers to such products with two or more layers of metal of different colors or natures which have been associated or bonded together by forging, hammering, rolling, or other mechanical or thermic process to insure welding or molecular interpenetration of the surfaces in contact; and (e) the term "pipes and tubes and blanks therefor" covers tubular products, including hollow bars and hollow billets but not including hollow drill steel, of any cross-sectional configuration, by whatever process made, whether seamless, brazed, or welded and whether with an open or lock seam or joint. 4. No allowance or reduction of duties for partial damage or loss in consequence of discoloration or rust occurring before importation shall be made upon iron or steel or upon any article of iron or steel.				
			Subpart A. - Precious Metals Subpart A headnotes: 1. This subpart does not cover -- (a) base metals coated or plated with precious metal or articles thereof; or (b) jewelry, parts of jewelry, and other articles and parts specially provided for elsewhere in this schedule or in schedule 7. 2. For the purposes of the tariff schedules -- (a) the term "platinum" refers to platinum and other metals of the platinum group (iridium, osmium, palladium, rhodium, and ruthenium), separately or together, and the term "the metal platinum" refers to the metal platinum alone; (b) the term "semimanufactured" refers to wrought metal products in the form of bars, rods, sections, plates, sheets, strips, wire, tubes, pipes, and hollow bars, and to powder (other than primary metal in powder form); (c) the term "rolled", as used in regard to precious metals, means material made with a metal base upon one or more surfaces of which a covering of precious metal is affixed by soldering, brazing, welding, hot-rolling, or similar mechanical methods, and also includes base metal inlaid with precious metal.

			(a) Pig iron (except vanadium or titanium pig iron) and cast iron: A ferrous product (not including steel, as defined in (g) of this headnote) containing, by weight, 1.9 percent or more of carbon, and which may contain one or more alloy elements within the respective weight limits specified below: not over 6 percent manganese, not over 15 percent phosphorus, not over 8 percent silicon, not over 30 percent chromium, not over 40 percent tungsten, not over 0.1 percent vanadium, not over 0.1 percent titanium, an aggregate of not over 10 percent of other alloy elements. (b) Vanadium or titanium pig iron: A ferrous product containing, by weight, over 0.1 percent but not over 35 percent of vanadium, or over 0.1 percent but not over 15 percent of titanium, and otherwise conforming to the specifications for pig iron in (a) of this headnote. (c) Spiegeleisen: A ferrous product or ferroalloy containing, by weight, over 6 percent but not over 30 percent of manganese and otherwise conforming to the specifications for pig iron in (a) of this headnote. (d) Ferronickel: A ferrous alloy consisting essentially of iron and nickel and containing 10 percent or more, by weight, of nickel. (e) Ferroalloys: Alloys of iron (except spiegeleisen and ferronickel, as defined in headnotes 2(c) and 2(d), supra, respectively) which are not usefully malleable and are commonly used as raw material in the manufacture of ferrous metals and which contain one or more of the following elements in the quantity, by weight, respectively indicated: over 30 percent of manganese, or over 8 percent of silicon, or over 30 percent of chromium, or over 40 percent of tungsten, or a total of over 10 percent of other alloy elements, except copper, and which, if containing silicon, do not contain over 96 percent of nonferrous alloy elements, or, if containing manganese but no silicon, do not contain over 92 percent of nonferrous alloy elements, or, if containing no manganese and no silicon, do not contain over 90 percent of nonferrous alloy elements. For the purposes of this subpart -- (i) ferrochromium is a ferroalloy which contains, by weight, over 30 percent of chromium but not over 10 percent of silicon; (ii) ferromanganese is a ferroalloy which contains, by weight, over 30 percent of manganese but not over 10 percent of silicon;

			(iii) ferromolybdenum is a ferroalloy which contains, by weight, over 50 percent of molybdenum; (iv) ferrophosphorus is a ferroalloy which contains, by weight, over 15 percent of phosphorus; (v) ferrosilicon is a ferroalloy which contains, by weight, not over 30 percent of manganese and over 8 percent of silicon; (vi) ferrosilicon chromium is a ferroalloy which contains, by weight, over 30 percent of chromium and over 10 percent of silicon; (vii) ferrosilicon manganese is a ferroalloy which contains, by weight, over 30 percent of manganese and over 10 percent of silicon; (viii) ferrosilicon titanium is a ferroalloy which contains, by weight, over 15 percent of titanium and over 10 percent of silicon; (ix) ferrosilicon tungsten is a ferroalloy which contains, by weight, over 40 percent of tungsten and over 10 percent of silicon; (x) ferrotitanium is a ferroalloy which contains, by weight, over 15 percent of titanium but not over 10 percent of silicon; (xi) ferrotungsten is a ferroalloy which contains, by weight, over 40 percent of tungsten but not over 10 percent of silicon; (xii) ferrovanadium is a ferroalloy which contains, by weight, over 35 percent of vanadium; and (xiii) ferrozirconium is a ferroalloy which contains, by weight, over 10 percent of zirconium. (f) Wrought iron: A ferrous material, aggregated from a solidifying mass of pasty particles of highly refined metallic iron with which a uniformly distributed quantity of slag is incorporated without subsequent fusion. A cross section 90 degrees from the rolling direction of wrought iron contains a minimum of 200,000 slag filaments per square inch of cross section. Wrought iron may contain elements other than iron but iron must predominate, by weight, over each one. (g) Steel: An alloy of iron and carbon which is malleable as first cast. Steel may contain other elements intended to enhance one or more properties and may contain elements unavoidably retained from raw materials, but iron must predominate, by weight, over each of the other elements.

			3. Forms and Condition of Iron or Steel.--For the purposes of this subpart, the following terms have the meanings hereby assigned to them: (a) Ingots: Castings resulting from the solidification of molten steel and having a columnar form suitable for working by rolling or forging. (b) Blooms and billets: Semifinished products generally of rectangular or circular cross section, having a length several times greater than the maximum cross-sectional dimension, and, if rectangular, a width less than 4 times the thickness. A bloom is at least 36 square inches in cross-sectional area; a billet is less than 36 square inches but not less than 3 square inches in cross-sectional area. (c) Slabs and sheet bars: Semifinished products of rectangular cross section, having a width of at least 4 times the thickness. A slab is not less than 2 inches and not over 6 inches in thickness; a sheet bar is less than 2 inches in thickness. (d) Bars: Products of solid section not conforming completely to the respective specifications set forth herein for blooms, billets, slabs, sheet bars, wire rods, plates, sheets, strip, wire, rails, joint bars, or tie plates, and which have cross sections in the shape of circles, segments of circles, ovals, triangles, rectangles, hexagons, or octagons. Deformed concrete reinforcing bars are hot-rolled steel bars, of solid cross section, having deformations of various patterns on their surfaces. (e) Hollow drill steel: A hollow steel product in any cross section suitable for use in making mining drills or mining drill rods, with the largest internal cross-sectional dimension not greater than one-third of the largest external cross-sectional dimension. (f) Wire rods: A coiled, semifinished, hot-rolled product of solid cross section, approximately round in cross section, not under 0.20 inch nor over 0.74 inch in diameter. (g) Plates and sheets: Plates are flat rolled products whether or not corrugated or crimped, in coils or cut to length, 0.1875 inch or more in thickness and, if not cold rolled, over 8 inches in width, or, if cold rolled, over 12 inches in width. Sheets are flat rolled products whether or not corrugated or crimped, in coils or cut to length, under 0.1875 inch in thickness and over 12 inches in width. For the purposes of this subpart -- (i) the term "black plate" refers to cold-rolled steel sheets, not coated, under 0.0142 inch in thickness;

					1	LDDC	2
			(ii) the term "tin plate and tin coated sheets" refers to tin coated steel sheets; and (iii) the term "terne plate and terne coated sheets" refers to steel sheets coated with terne metal (a lead-tin alloy). (h) Strip: A flat rolled product whether or not corrugated or crimped, in coils or cut to length, under 0.1875 inch in thickness, and, if cold rolled, over 0.50 inch but not over 12 inches in width, or, if not cold rolled, not over 12 inches in width. (i) Wire: A finished, drawn, non-tubular product, of any cross-sectional configuration, in coils, and not over 0.703 inch in maximum cross-sectional dimension. The term also includes a product of solid rectangular cross section, in coils, with a cold-rolled finish, and not over 0.25 inch thick and not over 0.50 inch wide. (j) Angles, shapes, and sections: Products which do not conform completely to the respective specifications set forth herein for blooms, billets, slabs, sheet bars, bars, wire rods, plates, sheets, strip, wire, rails, joint bars, or tie plates, and do not include any tubular products. (k) Rails: Hot-rolled steel products, weighing not less than 8 pounds per yard, with cross-sectional shapes intended for carrying wheel loads in railroad, railway, and crane runway applications. Rails may be punched or not punched. (l) Joint bars: Hot-rolled steel products designed to connect the ends of adjacent rails in track. Joint bars are usually punched or slotted. (m) Tie plates: Hot-rolled steel products used to support rails in track, to maintain track gauge and protect the ties. Tie plates are punched to provide holes for spikes and have one or two shoulder sections as rail guides. 4. Additional duties: Iron or steel products which contain, by weight, one or more of the following elements in the quantity, by weight, respectively indicated: over 0.2 percent of chromium, or over 0.1 percent of molybdenum, or over 0.3 percent of tungsten, or over 0.1 percent of vanadium, are subject to additional cumulative duties as provided for in items 606.00, 606.02, 606.04, and 606.06, but these duties apply only with respect to products covered by provisions which make specific reference to "additional duties" in the "Rates of Duty" columns.

			Subpart B statistical headnotes: 1. For the purpose of this subpart -- (a) the term "heat-resisting steel" refers to alloy steel which contains by weight less than 0.3% carbon and 4.0% to 11.5% inclusive, chromium; (b) the term "hand saw steel" refers to alloy tool steel which contains, in addition to iron, each of the following elements by weight in the amounts specified: (i) carbon: not less than 0.47 nor more than 0.53 percent; (ii) manganese: not less than 0.60 nor more than 0.90 percent; (iii) sulfur: none, or not more than 0.015 percent; (iv) phosphorus: none, or not more than 0.025 percent; (v) silicon: not less than 0.10 nor more than 0.25 percent; (vi) chromium: not less than 0.90 nor more than 1.10 percent; (vii) nickel: not less than 0.50 nor more than 0.70 percent; (viii) molybdenum: not less than 0.90 nor more than 1.10 percent; and (ix) vanadium: not less than 0.08 percent nor more than 0.15 percent. 2. For the purpose of statistical reporting of wire provided for under item 609.40, the determination of the carbon content shall be made by excluding any coating or plating which may be present. 3. For purposes of items 606.00, 606.02, 606.04, and 606.06 report quantity only. Total value should be shown opposite the appropriate reporting number for the article involved. 4. For the purpose of statistical reporting of merchandise under item 609.8005, H-piles shall be regarded only as those wide flange shapes and sections conforming to the following cross-sectional dimensions and weight per foot: 14 inches X 14-1/2 inches X 117 pounds 14 inches X 14-1/2 inches X 102 pounds 14 inches X 14-1/2 inches X 89 pounds 14 inches X 14-1/2 inches X 73 pounds 12 inches X 12 inches X 74 pounds 12 inches X 12 inches X 53 pounds 10 inches X 10 inches X 57 pounds 10 inches X 10 inches X 42 pounds 8 inches X 8 inches X 36 pounds H-piles, sometimes referred to as H-bearing piles or bearing piles, differ from other wide-flange shapes and sections (such as columns and beams) in weight per foot and by the uniform thickness of the web and flange. 5. For the purposes of this subpart, the term "ductile fittings" refers to fittings which are cast and which contain over 2.5 percent carbon and over 2 percent magnesium, by weight.

Subpart C. - Copper 1/

Subpart C headnotes:

1. This subpart covers copper, its alloys, and their so-called basic shapes and forms, and in addition covers copper waste and scrap.

2. For the purposes of the tariff schedules, the following terms have the meanings indicated:

(a) Alloys of copper: Copper-base alloys or metals in which the copper content is, by weight, less than 99.3 percent, but not less than any other metallic element. For the purposes of this subpart --

(i) nickel silver is an alloy of copper which contains by weight 5 percent or more of zinc and 5 percent or more of nickel, with or without small quantities of other elements;

(ii) brass is an alloy of copper (not including nickel silver) in which zinc is the principal alloying element, with or without small quantities of other elements;

(iii) cupro-nickel is an alloy of copper in which nickel is the principal alloying element and which does not contain by weight over 2 percent of any other single element.

In the absence of context which requires otherwise, the term "copper", wherever used in the tariff schedules, includes alloys of copper.

1/ Copper waste and scrap and certain copper articles are temporarily free of duty. See items 911.10 and 911.11 in part 1B, Appendix to Tariff Schedules.

			(b) Master alloys: Alloys of copper with other materials in any proportion, not usefully malleable and commonly used as raw material in the manufacture of other alloys or as de-oxidants, de-sulphurizing agents or for similar uses in the metallurgy of non-ferrous metals. For the purposes of this subpart -- (i) manganese copper is a master alloy which contains copper and manganese, in which the manganese content ranges by weight from 5 to 45 percent, with copper the balance; and (ii) phosphor copper is a master alloy which contains phosphorus and copper, in which the phosphorus content ranges by weight from 5 to 16 percent, with copper the balance. 3. For the purposes of this subpart, the following terms have the meanings indicated: (a) Bars and plate: Products of solid rectangular cross section over 0.188 inch in thickness, in coils or cut to length, whether or not corrugated or crimped. Bars are not over 12 inches in width and plates are over 12 inches in width. (b) Sheets and strips: Products of solid rectangular cross section not over 0.188 inch but over 0.006 inch in thickness, in coils or cut to length, whether or not corrugated or crimped. Sheets are over 20 inches in width; strips are not over 20 inches in width and do not include flat wire, as defined in (d) below. (c) Rods: Products of round, half-round, quarter-round, oval, half-oval, triangular, pentagonal, hexagonal, octagonal, or decagonal solid cross section, in straight lengths or in coils, and which if in coils are over 0.375 inch in maximum cross-sectional dimension. (d) Wire: A non-tubular product of any cross-sectional configuration, which if flat is in coils or straight lengths, not over 1.25 inches in width, not over 0.188 inch in thickness, and has all surfaces rolled or drawn, and which if not flat is not over 0.375 inch in maximum cross-sectional dimension and is in coils. (e) Angles, shapes, and sections: Products which do not conform completely to the respective definitions set forth in this headnote for bars, plates, sheets, strip, rods, or wire, and do not include any tubular products. 4. For the purposes of this subpart, any continuous cast product, whether or not machined or otherwise processed, which is substantially comparable to, and suitable for the same general purposes as, a wrought product provided for in this subpart shall be classified under the same provision and at the same rate as such wrought product, notwithstanding the provisions of headnotes 3(a) and 3(c) of this part.

			5. Determination of Market Price of Copper for Rate of Duty Purposes.--(a) In this subpart, column 1 of the Rates of Duty columns has been divided into two columns, viz., 1-a and 1-b. The rates of duty in column 1-a apply when the market price of copper is 24 cents or more per pound, and the rates of duty in column 1-b apply when the market price of copper is under 24 cents per pound. (b) For the purposes of the provisions of items 602.28, 602.30, and 603.49 through 603.55 in part 1 of this schedule relating to copper-bearing materials, and of the provisions of this subpart, the market price of copper is the average market price per pound for one calendar month of electrolytic copper in standard shapes and sizes, delivered Connecticut Valley, as determined by the United States International Trade Commission and reported to the Secretary of the Treasury in accordance with procedures set forth below. (c) The market price of copper, as defined above, shall be considered to be below 24 cents per pound only on and after the 20th day after the date of a report by the United States International Trade Commission to the Secretary of the Treasury that it has determined that the said market price has been below 24 cents per pound for one calendar month. (d) After any report by the United States International Trade Commission to the Secretary of the Treasury as provided for in (b) above, the said market price shall be considered as not being below 24 cents per pound only on and after the 20th day after the date of a report by the said Commission to the said Secretary that it has determined that the said market price has been 24 cents or more per pound for one calendar month. (e) Determinations by the said Commission of the market price of electrolytic copper shall be based upon sources commonly resorted to by the buyers of copper in the usual channels of commerce, including, but not limited to, quotations of the market price for electrolytic copper, in standard shapes and sizes, delivered Connecticut Valley, reported by the Engineering and Mining Journal's "Metal and Mineral Markets". 6. The deductions provided for in headnote 4(b) of part 1 of this schedule shall apply to cement copper and copper precipitates (item 612.02) subject to the conditions specified in headnote 4 of said part 1. Subpart C statistical headnote: 1. For the purposes of this subpart-- (a) the term "beryllium copper" refers to an alloy of copper as defined by the Tariff Schedules which contains by weight not less than 0.02 percent but less than 3 percent of beryllium with or without small quantities of other elements, and (b) the term "beryllium copper master alloy" refers to a master alloy which contains beryllium and copper, in which the beryllium content ranges by weight from 3 to 5 percent with copper the balance.

			Subpart D. - Aluminum				
			Subpart D headnotes:				
			1. This subpart covers aluminum, its alloys, and their so-called basic shapes and forms and also covers aluminum waste and scrap.				
			2. Alloys of aluminum: For the purposes of the tariff schedules, alloys of aluminum are metals in which the aluminum content is, by weight, less than 99.0 percent, but not less than any other metallic element. Aluminum silicon is an alloy of aluminum containing not less than 25 percent of silicon. In the absence of context which requires otherwise, the term "aluminum", wherever used in the tariff schedules, includes alloys of aluminum.				
			3. For the purposes of this subpart, the following terms have the meanings indicated: (a) Bars: Products of solid rectangular cross section, 0.25 inch or more in thickness and over 0.375 inch but not over 12 inches in width, in coils or cut to length; and products of solid hexagonal or octagonal cross section, 0.375 inch or more in thickness (measuring the perpendicular distance between opposite faces) in coils, or of any thickness in straight lengths. (b) Rods: Products of solid round cross section, which, if 0.375 inch or more in diameter, are in coils or cut to length, and which, if under 0.375 inch in diameter, are in straight lengths. (c) Plates, sheets, and strips: Products of solid rectangular cross section, in coils or cut to length, whether or not corrugated or crimped. Plates are 0.25 inch or more in thickness and over 12 inches in width; sheets and strip are under 0.25 but not under 0.006 inch in thickness. (d) Wire: A product of solid round, rectangular, hexagonal, or octagonal cross section, in coils, whose diameter, width, or perpendicular distance between opposite faces is less than 0.375 inch. (e) Angles, shapes, and sections: Products which do not conform completely to the respective definitions set forth in this headnote for bars, plates, sheets, strips, rods, or wire and do not include any tubular products.				
			Subpart D statistical headnote:				
			1. For purposes of this subpart, the term "beryllium aluminum master alloy" refers to an alloy of aluminum which contains not less than 4 percent of beryllium.

Subpart J. - Beryllium, Columbium, Germanium, Hafnium, Indium, Magnesium, Molybdenum, Rhenium, Tantalum, Titanium, Tungsten, Uranium, and Zirconium

Subpart J headnotes:

1. This subpart covers the metals beryllium, columbium, germanium, hafnium, indium, magnesium, molybdenum, rhenium, tantalum, titanium, tungsten, uranium, and zirconium, and their alloys, unwrought and wrought, and also includes the waste and scrap of these metals.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			2. Alloys: For the purposes of the tariff schedules, alloys of each of the base metals provided for in this subpart are metals in which the content of the respective base metal is, by weight, less than 99.0 percent, but not less than any other metallic element. In the absence of context which requires otherwise, a reference to one of the base metals by name, wherever used in the tariff schedules, includes alloys or such base metal.				
			Subpart J statistical headnote:

			PART 3. - METAL PRODUCTS				
			Part 3 headnotes: 1. For the purposes of this part -- (a) "wire" is deemed to be a base-metal product which conforms to the respective cross-sectional measurements for base-metal wires in part 2, whether or not conforming otherwise to the specifications set forth therein. In the provisions of this part which describe wire in terms of its cross-sectional dimension, the dimension specified is that of such wire without its metal coating, if any. 2. The provisions in this part which specifically refer to kitchen or table ware, or to table, kitchen, or household utensils and articles, include articles of types which are used outdoors as well as those which are used indoors.				
			Subpart A. - Metallic Containers				
			Subpart A headnotes: 1. The provisions in this subpart for containers include such containers whether or not equipped with fittings such as taps, valves, level gauges, and manometers. This subpart, however, does not include -- (i) containers with provision made for circulating heating or cooling fluids between the walls, or with mechanical or thermal equipment such as agitators, heating or cooling coils, or electrical elements (see parts 4 and 5 of this schedule); (ii) luggage, handbags, or flat goods (see part 1D of schedule 7); (iii) furniture (see part 4 of schedule 7); (iv) cases for musical instruments (see part 3B of schedule 7); or (v) articles of precious metal or rolled precious metal, or articles coated or plated with precious metal. 2. General principles with respect to containers are set forth in headnote 6 of the General Headnotes. Special classification provisions relating to substantial containers suitable for reuse are included in parts 1C and 5C of schedule 8.

Subpart E. - Tools, Cutlery, Forks and Spoons

Subpart E headnotes:

1. Except for blow and other torches (items 649.31 and 649.32), abrasive wheels mounted on frameworks (item 649.39), tool tips and forms for making tool tips (item 649.53), sewing sets, pedicure or manicure sets, or combinations thereof (items 651.11 and 651.13), and except for knives, forks, spoons, and ladles, all the foregoing which are kitchen or table ware of precious metal, this subpart covers only articles with a blade, working edge, working surface or other working part of --

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			(i) base metal; (ii) metallic carbides on a support of base metal; (iii) natural or synthetic precious or semiprecious stones on a support of base metal; or (iv) abrasive materials on a support of base metal, provided that the articles have other functioning or working elements such as cutting teeth, edges, grooves, or flutes. 2. In determining the length of files and rasps (items 649.01-.07, inclusive), the tang (if any) should not be included. 3. The provisions for "interchangeable tools for hand tools or for machine tools" cover interchangeable tools which are designed to be fitted to hand tools or machine tools and which cannot be used independently, and include, but are not limited to, interchangeable tools for pressing, stamping, drilling, tapping, threading, boring, broaching, milling, cutting, dressing, mortising or screw-driving, but do not include saw blades, knives, or cutting blades, and do not include holding or operating devices even if attached to such interchangeable tools. 4. For the purposes of determining the rate of duty applicable to sets provided for in item 651.75, a specific rate of duty or a compound rate of duty for any article in the set shall be converted to its ad valorem equivalent rate, i.e., the ad valorem rate which, when applied to the full value of the article determined in accordance with section 402 of this Act, would provide the same amount of duties as the specific or compound rate. 5. Cases, boxes, or containers of types ordinarily sold at retail with the tools or other articles provided for in this subpart are classifiable with such articles if imported therewith. Subpart E statistical headnote: 1. For purposes of statistical reporting of sets under item 651.75-- (a) the number of pieces reported shall be the total number of separate pieces in the set(s) and, in addition, (b) for sets containing knives, forks, or spoons described in items 650.08, 650.09, 650.10, 650.12, 650.38, 650.39, 650.40, 650.42, 650.54, and 650.55 report the quantity of such knives, forks, or spoons under the appropriate 7-digit reporting number(s) provided thereunder.

			PART 4. - MACHINERY AND MECHANICAL EQUIPMENT				
			Part 4 headnotes:				
			1. This part does not cover -- (i) bobbins, spools, cops, tubes, and similar holders; (ii) belts and belting; (iii) machine clothing, other than card clothing provided for in items 670.52 and 670.54; (iv) articles of textile materials; articles of stone, of ceramic ware, of glass, or of other materials provided for in schedule 5; or articles of leather or of fur on the skin; or (v) articles and parts of articles specifically provided for elsewhere in the schedules.				
			2. Unless the context requires otherwise, and subject to headnote 1 to subpart A of this part, a multi-purpose machine is classifiable according to its principal purpose, but if such a machine is not described in a superior tariff heading as to its principal purpose, or if it has no one principal purpose, it is classifiable in subpart H of this part as a machine not specially provided for.				
			3. An electric motor or other power unit imported with a machine is classifiable with such machine as an entirety if fitted thereto when imported, or, if the machine or its framework is designed to receive the power unit, or if the shipment includes a common base designed to receive both the power unit and the machine.				
			Subpart A. - Boilers, Non-Electric Motors and Engines, and Other General-Purpose Machinery				
			Subpart A headnote:				
			1. A machine or appliance which is described in this subpart and also is described elsewhere in this part is classifiable in this subpart.

			Subpart F. - Machines for Working Metal, Stone, and Other Materials				
			Subpart F headnotes: 1. For the purposes of this subpart -- (a) the term "machine tool" means any machine used for shaping or surface-working -- (i) metals (including metallic carbides); (ii) stone, ceramics, concrete, asbestos-cement and like mineral materials, or glass in the cold; or (iii) wood, cork, bone, hard rubber or plastics, or other hard materials, whether by cutting away or otherwise removing the material or by changing its shape or form without removing any of it, but does not include rolling mills (item 674.20) or the hand-directed or -controlled tools provided for in items 674.60 and 674.70 of this subpart and in item 683.20 of part 5 of this schedule; and (b) the term "metal-working" includes metallic-carbide-working.				
			Subpart F statistical notes: 1. For the purposes of this subpart -- (a) "Metal-removing (metal-cutting) machine tools" are metal-working machine tools which shape or surface-work metal by removing metal either in the form of chips, dust, swarf or similar forms or by spark-erosion, ultrasonic, electrolytic, or other chipless methods; and (b) "Metal-forming machine tools" are metal-working machine tools other than metal-removing (metal-cutting) machine tools. 2. In the provisions for machining centers, report machine tools for working metal which can carry out different types of machining operations by automatic tool change whether or not from an indexing turret. 3. In the provisions for single-station machines and multistation transfer machines, report machine tools for working metal, classifiable in item 674.32, which can carry out different types of machining operations by automatic use, simultaneously or sequentially, of different unit heads working on a fixed-position workpiece (single-station machines) or on a workpiece which is automatically transferred to different unit heads (multistation transfer machines).

			Subpart G. - Office Machines				
			Subpart G headnotes:				
			1. This subpart does not cover -- (i) weighing machines (see subpart A of this part and subpart D of part 2 of schedule 7); (ii) bookbinding and printing machinery (see subpart D of this part); (iii) mathematical calculating instruments or revolution and other counters (see subparts C and D of part 2 of schedule 7); (iv) hand tools not having a base for fixing or placing them on a table, desk, wall, floor, or similar place (see part 3E of this schedule).				
			2. For the purposes of this subpart -- (a) the term "office machines" refers to machines which are used in offices, shops, factories, workshops, schools, depots, hotels, and elsewhere, for doing work concerning the writing, recording, sorting, filing, mailing of correspondence, records, accounts, forms, etc., or for doing other "office work", and which have a base for fixing or placing them on a table, desk, wall, floor, or similar place; and (b) a "calculating mechanism" is one designed to perform one or more of the four arithmetical operations, i.e., addition, subtraction, multiplication, and division.

PART 5. - ELECTRICAL MACHINERY AND EQUIPMENT

Part 5 headnotes:

1. This part does not cover --
   (i) electrical insulators or insulating materials (classifiable in other schedules according to materials of which made);
   (ii) certain carbons, electrodes, and brushes provided for in part 1E of schedule 5;
   (iii) ceramic electrical ware (part 2D of schedule 5);
   (iv) electric blankets and other electrically warmed bedding (see part 5B of schedule 3);
   (v) washing machines, ironing machines, sewing machines, and other machines provided for in parts 4 or 6 of this schedule; or
   (vi) electrical instruments and apparatus provided for in schedule 7.

2. For the purposes of this part (items 682.05 and 682.07), the rated kva of a transformer is the kilovolt-ampere output on a continuous duty basis at the rated secondary voltage (or amperage, when applicable) and at the rated frequency without exceeding the rated temperature limitations.

3. The provisions of this headnote apply to "television apparatus and parts thereof" provided for in items 685.11 through 685.19, inclusive, of this part.
   (a) The term "complete", as used to describe television receivers, means a television receiver, fully assembled, whether or not packaged or tested for distribution to the ultimate purchaser.
   (b) For the purposes of items 685.15 and 685.16--
      (i) each subassembly that contains as a component, or is covered in the same entry with, one or more of the following television components, viz., tuner, channel selector assembly, antenna, deflection yoke, degaussing coil, picture tube mounting bracket, grounding assembly, parts necessary for fixing the picture tube or tuner in place, consumer operated controls, or speaker, shall be classified in item 685.15; and
      (ii) each subassembly shall be counted as a single unit, except that two or more different printed circuit boards or ceramic substrates covered by the same entry and designed for assembly into the same television models shall be counted as one unit.

4. For the purposes of this part "transceivers" are combinations of radio transmitting and receiving equipment in a common housing, employing common circuit components for both transmitting and receiving, and which are not capable of simultaneously receiving and transmitting.

			5. For the purposes of the tariff schedules hand-held Citizens Band (CB) radio transceivers are Citizens Band (CB) radio transceivers designed for operation in the hand, having a permanently affixed antenna and an internal microphone, and not designed for use with an external power source. Part 5 statistical headnotes: 1. For statistical reporting purposes in this part (item 685.40), "audio machines" are those machines designed specifically for recording, reproducing, or recording and reproducing frequencies in the sound spectrum only. 2. For statistical reporting purposes in this part (item 685.40), "video machines" are those designed specifically for recording or recording and reproducing video signals. An audio track may or may not be included on the recording medium. 3. For statistical reporting purposes in this part, "stereo" apparatus will be considered to be capable of reproducing two (and no more) discrete audio signals. 4. To determine the video display diagonal in items 685.11 and 685.14, measurements shall be taken of the maximum straight line dimension across that part of the face-plate used for displaying video, and shall be rounded to the nearest inch. Measurements falling exactly on the 1/2 inch shall be rounded to the next larger integer. 5. For statistical reporting purposes in this part (items 685.21 and 685.24), "entertainment broadcast band receivers" are those receivers designed principally to receive signals in the AM (550-1650 KHz) and FM (88-108 MHz) entertainment broadcast bands whether or not capable of receiving signals on certain other bands (e.g., aviation, television, marine, public safety, industrial, and citizens band). 6. For statistical reporting purposes in this part (item 685.24), the lowest operating frequency will determine the classification. 7. For statistical reporting purposes in this part (item 687.58), "memory integrated circuits" are integrated circuits consisting principally of cells capable of storing retrievable data and "microprocessor integrated circuits" are integrated circuits capable of executing a processing program and of storing at least the data necessary for the execution of the program. 8. For statistical reporting purposes in this part (item 685.14), the term "incomplete receivers" refers to assemblies other than kits containing all parts necessary for assembly into complete color television receivers, which consist at least of, or are covered in the same entry with, a color picture tube and a printed circuit board or ceramic substrate, with components assembled thereon, designed to perform the intermediate frequency amplification functions or the picture and audio demodulation functions of a color television receiver. 9. For statistical reporting purposes in this part (item 685.2941), "marine VHF-FM radio transceivers" are those transceivers capable of transmitting on frequencies from 156.025 to 157.425 MHz (FM) and which have been granted an appropriate type-acceptance by the Federal Communications Commission. These transceivers are capable of receiving signals on frequencies between 156 and 163 MHz (FM), as well as on other bands (e.g., weather, AM/FM entertainments, etc.).

			2. Motor Vehicles and Original Equipment Therefor of Canadian Origin. (a) The term "original motor-vehicle equipment", as used in the schedules with reference to a Canadian article (as defined by general headnote 3(d)), means such a Canadian article which has been obtained from a supplier in Canada under or pursuant to a written order, contract, or letter of intent of a bona fide motor-vehicle manufacturer in the United States, and which is a fabricated component intended for use as original equipment in the manufacture in the United States of a motor vehicle, but the term does not include trailers or articles to be used in their manufacture. (b) The term "motor vehicle", as used in this headnote, means a motor vehicle of a kind described in item 692.02, 692.04, or 692.10 of this subpart (excluding an electric trolley bus and a three-wheeled vehicle) or an automobile truck tractor. (c) The term "bona fide motor-vehicle manufacturer", as used in this headnote, means a person who, upon application to the Secretary of Commerce, is determined by the Secretary to have produced no fewer than 15 complete motor vehicles in the United States during the previous 12 months, and to have installed capacity in the United States to produce 10 or more complete motor vehicles per 40-hour week. The Secretary of Commerce shall maintain, and publish from time to time in the Federal Register, a list of the names and addresses of bona fide motor-vehicle manufacturers. (d) If any Canadian article accorded the status of original motor-vehicle equipment is not so used in the manufacture in the United States of motor vehicles, such Canadian article or its value (to be recovered from the importer or other person who diverted the article from its intended use as original motor-vehicle equipment) shall be subject to forfeiture, unless at the time of the diversion of the Canadian article the United States Customs Service is notified in writing, and, pursuant to arrangements made with the Service -- (i) the Canadian article is, under customs supervision, destroyed or exported, or (ii) duty is paid to the United States Government in an amount equal to the duty which would have been payable at the time of entry if the Canadian article had not been entered as original motor-vehicle equipment.

Subpart C. - Aircraft and Spacecraft

Subpart C headnotes:

1. This subpart does not cover --
   (i) guided weapons and missiles or similar weapons of war (see part 5A of schedule 7); or
   (ii) toy balloons or toy kites (see part 5E of schedule 7).

2. For the purposes of this subpart --
   (a) the term "aircraft" embraces lighter-than-air aircraft (balloons and airships), heavier-than-air aircraft (airplanes, including machines also capable of use for ground or water transportation; gliders and kites), all the foregoing, however propelled, and whether designed for civilian or military use, but does not include spacecraft; and
   (b) the term "spacecraft" embraces craft, however propelled, and whether designed for civilian or military use, designed for flight beyond the earth's atmosphere.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			3. Certified for Use in Civil Aircraft: (a) Whenever the term "certified for use in civil aircraft" is used in an item description in the schedules, the importer shall file a written statement, accompanied by such supporting documentation as the Secretary of the Treasury may require, with the appropriate customs officer stating that the imported article has been imported for use in civil aircraft, that it will be so used, and that the article has been approved for such use by the Administrator of the Federal Aviation Administration (F.A.A.) or by the airworthiness authority in the country of exportation, if such approval is recognized by the F.A.A. as an acceptable substitute for F.A.A. certification, or that an application for approval for such use has been submitted to, and accepted by, the Administrator of the F.A.A. (b) For purposes of the schedules the term "civil aircraft" means all aircraft other than aircraft purchased for use by the Department of Defense or the United States Coast Guard. Subpart C statistical headnote: 1. For the purposes of this subpart to determine the "empty weight" of an airplane, include only the weight of the airplane's airframe, powerplant, trapped fuel and oil, coolant (if any), fluid in the hydraulic system, ballast normally carried, and fixed equipment and furnishings.

			PART 1. - FOOTWEAR; HEADWEAR AND HAT BRAIDS; GLOVES; LUGGAGE, HANDBAGS, BILLFOLDS, AND OTHER FLAT GOODS				
			Subpart A. - Footwear				
			Subpart A headnotes:				
			1. This subpart covers boots, shoes, slippers, sandals, moccasins, slipper socks (socks with applied soles of leather or other material), scuffs, overshoes, rubbers, arctics, galoshes, and all allied footwear (including athletic or sporting boots and shoes) of whatever material composed, and by whatever method constructed, all the foregoing designed for human wear except -- (i) footwear with permanently attached skates or snowshoes (see part 5D of this schedule), (ii) hosiery (see part 6C of schedule 3), and (iii) infants' knit footwear (see part 6F of schedule 3).				
			2. For the purposes of this subpart -- (a) the term "huaraches" (item 700.05) means a type of leather-soled sandal having a woven-leather upper laced to the insole, with the insole machine-stitched to the outsole, and having a heel which is nailed on; (b) the term "McKay-sewed footwear" (item 700.10) means footwear the soles of which are sewed to the upper by means of a McKay chainstitch, with the stitching passing through the outsole, upper, lining, and insole; (c) the term "moccasins" (item 700.15) means footwear of the American Indian handicraft type, having no line of demarcation between the soles and the uppers; (d) the term "welt footwear" (items 700.25 through 700.29) means footwear constructed with a welt, which extends around the edge of the tread portion of the sole, and in which the welt and shoe upper are sewed to a lip on the surface of the insole, and the outsole of which is sewed or cemented to the welt; (e) the term "slippers" (item 700.32) means footwear of the slip-on type without laces, buckles, zippers, or other closures, the heel of which is of underwedge construction, and (1) having a leather upper permanently trimmed with a real or imitation fur collar, or (2) having a leather upper and a split leather tread sole (including heel) held together by a blown sponge-rubber midsole created and simultaneously vulcanized thereto;				

GSP	Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty 1	LDDC	2
			(f) the term "footwear for men, youths, and boys" (item 700.35) covers footwear of American youths' size 11-1/2 and larger for males, and does not include footwear commonly worn by both sexes; and (g) the term "fibers" means unspun fibrous vegetable materials, vegetable fibers, wool, silk, or other animal fibers, man-made fibers, paper yarns, or any combination thereof. 3.(a) For the purposes of items 700.51 through 700.58, the rubber or plastics forming the exterior surface area specified, if supported by fabric or other material, must coat or fill the supporting material with a quantity of rubber or plastics sufficient to visibly and significantly affect the surface otherwise than by change in color, whether or not the color has been changed thereby. (b) Subject to the provisions of section 336(f) of this Act, the merchandise in item 700.60 shall be subject to duty upon the basis of the American selling price, as defined in section 402 or 402a of this Act, of like or similar articles manufactured or produced in the United States. Subpart A statistical headnote: 1. For the purposes of this subpart — (a) the term "athletic footwear" covers footwear of special construction for baseball, football, soccer, track, skating, skiing, and other athletic games, or sports; (b) the term "work footwear" covers footwear having outsoles 1/4 inch or over in thickness (measured at the ball of the foot) and having uppers of grain leather extending above the ankle; (c) the term "soled 'moccasins'" covers footwear in which the vamp extends completely under the foot, whether or not seamed, forming both the bottom and the sides to which an outsole is attached; (d) the term "cement footwear" covers footwear in which the outsole (or midsole, if any) is affixed to the upper by an adhesive without sewing, but not including footwear having vulcanized soles or injection molded soles; (e) the term "casual footwear" covers footwear constructed with a wedge heel, or with an open toe and so constructed that the heel of the foot is not over 1 inch above the ball of the foot; (f) the term "boots" covers footwear (other than footwear of oxford height) designed to be worn next to the sock rather than over the shoe; (g) the term "footwear for men" covers footwear of American men's size 6 and larger for males, and does not include footwear commonly worn by both sexes; (h) the term "footwear for youths and boys" covers footwear of American youths' size 11-1/2 and larger but not as large as American men's size 6, and does not include footwear commonly worn by both sexes;

Subpart B. - Headwear and Hat Braids

Subpart B headnote:

1. For the purposes of this subpart --
(a) the term "headwear" includes hats, caps, berets, bonnets, hoods, and all other head coverings, of whatever material composed (including bodies, forms, plateaux, manchons, and shapes for headwear), designed for human wear, except infants' knit headwear, but does not include mufflers, scarves, shawls, mantillas, veils, and similar articles; hair nets; hair ornaments; or wigs and similar articles; and
(b) the term "caps" (items 702.15 and 702.20) means headwear without a brim but with a shade or visor in front.

1/ Certain imports of footwear (except disposable footwear, designed for one-time use provided for in item 700.90) are subject to temporary quotas. See items 923.92 and 923.94 in part 2A, Appendix to Tariff Schedules.

Subpart C. - Gloves

Subpart C headnotes:

1. For the purposes of this subpart --
(a) the term "gloves" includes all gloves and mittens designed for human wear, except boxing gloves, golf gloves, baseball gloves, and other gloves specially designed for use in sports; and
(b) the term "glove linings" includes all linings for gloves, as defined in (a) supra.

2. In determining the component material of chief value in gloves --
(a) lining and applied cuffs shall be disregarded, and
(b) any leather component shall be disregarded unless the area of such leather is over 50 percent of the external surface area of the gloves exclusive of applied cuffs.

3. The length of gloves (items 705.67, 705.68 and 705.69) shall be the extreme length thereof when extended to their fullest dimension, including the unfolded length of cuffs or other appendages.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

PART 2. - OPTICAL GOODS; SCIENTIFIC AND PROFESSIONAL INSTRUMENTS; WATCHES, CLOCKS, AND TIMING DEVICES; PHOTOGRAPHIC GOODS; MOTION PICTURES; RECORDINGS AND RECORDING MEDIA

Part 2 headnotes:

1. This part does not cover --
   (i) measuring cups, graduates, or other measuring containers;
   (ii) laboratory and industrial chemical ware, and sanitary ware, of ceramic ware (see part 2D of schedule 5);
   (iii) pharmaceutical, hygienic, and laboratory glassware (see part 3C of schedule 5);
   (iv) toilet and sanitary wares of metal (see part 3F of schedule 6);

			Subpart A. - Optical Elements, Spectacles, Microscopes, and Telescopes, Optical Goods Not Elsewhere Provided For Subpart A headnotes: 1. The provisions for optical elements in this subpart do not cover -- (i) unmounted optical elements of glass or synthetic optical crystals unless such elements have been optically worked (see part 3A of schedule 5); (ii) plates or sheets of polarizing material unless cut to shape or mounted (see part 3A of schedule 5); (iii) photographic filters (see subpart F of this part) 2. The term "optically worked", as used in this subpart, means that the glass or the synthetic optical crystals have been subjected to grinding or polishing incident to surface shaping for producing optical properties. 3. The provisions for mounted optical elements cover such elements when in a permanent frame or other mounting suitable for fitting to an apparatus or instrument and do not include mounted elements which are themselves separate instruments or apparatus such as spectacles, medical or dental mirrors, and hand magnifying glasses. 4. Sets comprised of tools, implements, and other articles fitted into and imported with cases containing microscopes provided for in item 708.71, and ordinarily sold at retail, and used, in conjunction with such microscopes, are classifiable therewith.

Subpart E. - Watches, Clocks, and Timing Apparatus

Subpart E headnotes:

1. This subpart covers watches and clocks, time switches and other timing apparatus with clock or watch movements, and parts of these articles. This subpart, however, does not cover --
   (i) synchronous or subsynchronous motors (see part 5 of schedule 6);
   (ii) screws, nuts, and bolts (see part 3D of schedule 6);
   (iii) music boxes and their mechanisms (see part 3 of schedule 7);
   (iv) combination articles provided for elsewhere in the tariff schedules; or
   (v) clock and watch glasses and glass domes (see part 3 of schedule 5).

2. For the purposes of this subpart --
   (a) the term "watches" embraces timepieces (including timepieces having special features, such as chronographs, calendar watches, stopwatches, and watches designed for use in skindiving) suitable for wearing or carrying on or about the person, whether or not the movement therein is within the definition of "watch movement" in headnote 2(b), below;
   (b) the term "watch movement" means a timepiece movement measuring less than 1.77 inches in width and less than 0.50 inch in thickness;
   (c) the term "clock movement" means any movement or mechanism, other than "watch movements" as defined in headnote 2(b), above, intended or suitable for measuring time;
   (d) the term "cases" embraces inner and outer cases, containers, and housings for movements, together with parts or pieces, such as, but not limited to, rings, feet, posts, bases, and outer frames, and any auxiliary or incidental features, which (with appropriate movements) serve to complete the watches, clocks, time switches, and other apparatus provided for in this subpart; and
   (e) the term "jewels" includes substitutes for jewels.

3. (a) The complete citation for watches covered by item 715.05 and clocks covered by items 715.15 and 715.16 shall be each of such item numbers, followed by the appropriate item numbers for the respective movements and cases comprising such watches or clocks. Thus, item 715.05-716.04-720.20 is the correct citation for a watch in a gold case with a movement having over 17 jewels and valued not over $15.

GSP	Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty		
					1	LDDC	2
			(b) In this subpart, each of the rates of duty provided for watch movements, having no jewels or not over 17 jewels, not adjusted, not self-winding, and not constructed or designed to operate for a period in excess of 47 hours without rewinding (items 716.10 through 716.44, inclusive) is also the "base rate" for watch movements having the same width and number of jewels covered by item 719.--. For citation purposes, the two blanks on the end of such item number shall be filled in with the last two digits of the item number for the applicable base rate. Thus, "item 719.38" would be the citation for a watch movement, 0.7 inch wide, having 17 jewels, which is adjusted or self-winding or constructed or designed to operate for a period in excess of 47 hours without rewinding, and valued not over $15. (c) The width of a watch or clock movement, as defined in headnote 2(b) and (c) of this subpart, is the shortest surface dimension through the center of the pillar or bottom plate, or its equivalent, not including in the measurement any portion not essential to the functioning of the movement; and the thickness of a "watch movement", as so defined, is the maximum thickness between the outside surfaces of the plate and bridges, or their equivalents. (d) The additional duty for adjustments to watch movements applies to each adjustment of whatever kind (treating adjustment to temperature as two adjustments), in accordance with the marking as hereinafter provided for. (e) Bimetallic balance wheels which are not part of balance assemblies, and mainsprings with riveted ends, are each to be considered as one part or piece, for the purposes of assessing duties on assemblies and subassemblies provided for in items 720.75, 720.80, 720.82, 720.84, and 720.86. 4. Special Marking Requirements: Any movement, case, or dial provided for in this subpart, whether imported separately or attached to an article provided for in this subpart, shall not be permitted to be entered unless conspicuously and indelibly marked by cutting, die-sinking, engraving, or stamping, as specified below: (a) Watch movements shall be marked on one or more of the bridges or top plates to show -- (i) the name of the country of manufacture, (ii) the name of the manufacturer or purchaser, (iii) in words, the number of jewels, if any, serving a mechanical purpose as frictional bearings; and (iv) in words, the number and classes of adjustments, or, if unadjusted, the word "unadjusted".				

GSP	Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty		
					1	LDDC	2
			(b) Clock movements shall be marked on the most visible part of the front or back plate to show -- (i) the name of the country of manufacture, (ii) the name of the manufacturer or purchaser, and (iii) the number of jewels, if any. (c) Watch cases shall be marked on the inside or outside of the back cover to show -- (i) the name of the country of manufacture, and (ii) the name of the manufacturer or purchaser. (d) Clock cases and other cases provided for in this subpart shall be marked on the most visible part of the outside of the back to show the name of the country of manufacture; and (e) Dials shall be marked to show the name of the country of manufacture. 5. Combination Articles Containing Watch or Clock Movements.--A watch or clock movement (and its dial, if any) in a combination article is classifiable under the provision applicable to such combination article, but, in determining the duties on the combination article, the movement (and its dial, if any) shall be constructively separated therefrom and assessed with the same rate as would have applied if it had been imported separately. In such circumstances, the movement and its dial shall also be subject to the same marking requirements provided for in headnote 4 of this subpart. However, such separate assessment and special marking shall not be applicable to movements which, when imported, are installed as the usual equipment of vehicles or craft provided for in part 6 of schedule 6 or as integral and essential parts of laboratory, industrial, or commercial apparatus or equipment. 6. Products of Insular Possessions.--(a) Except as provided in paragraph (b) of this headnote, any article provided for in this subpart which is the product of an insular possession of the United States outside the customs territory of the United States and which contains any foreign component shall be subject to duty-- (i) at the rates set forth in column numbered 1, if the countries of origin of more than 50 percent in value of the foreign components are countries to products of which column numbered 1 rates apply, and (ii) at the rates set forth in column numbered 2, if the countries of origin of 50 percent or more in value of the foreign components are countries to products of which column numbered 2 rates apply.

			(b) If the requirements for free entry set forth in general headnote 3(a) are complied with, watches (provided for in item 715.05) and watch movements (provided for in items 716.04 through 719.--) which are the product of the Virgin Islands, Guam, or American Samoa and which contain any foreign component may be admitted free of duty, but the total quantity of such articles entered free of duty during each calendar year shall not exceed a number equal to 1/9 of the apparent United States consumption of watch movements during the preceding calendar year (as determined by the International Trade Commission), of which total quantity-- (i) not to exceed 87.5 percent shall be the product of the Virgin Islands, (ii) not to exceed 8.33 percent shall be the product of Guam, and (iii) not to exceed 4.17 percent shall be the product of American Samoa. (c) On or before April 1 of each calendar year (beginning with 1967), the International Trade Commission shall determine the apparent United States consumption of watch movements during the preceding calendar year, shall report such determination to the Secretary of the Treasury, the Secretary of the Interior, and Secretary of Commerce, and shall publish such determination in the Federal Register, together with the number of watches and watch movements which are the product of the Virgin Islands, Guam, and American Samoa which may be entered free of duty under paragraph (b) during the calendar year. (d) The Secretary of the Interior and the Secretary of Commerce, acting jointly, shall allocate on a fair and equitable basis among producers of watches and watch movements located in the Virgin Islands, Guam, and American Samoa the quotas for each calendar year provided by paragraph (b) for articles which are the product of the Virgin Islands, Guam, and American Samoa, respectively. Allocations made by the Secretaries shall be final. The Secretaries are authorized to issue such regulations as they determine necessary to carry out their duties under this paragraph. Subpart E statistical headnote: 1. (a) The statistical reporting numbers for watches (item 715.05) and for clocks containing movements measuring less than 1.77 inches in width (items 715.15 and 715.16) are a combination of three 7-digit numbers, viz., the 7-digit number for the imported watch (715.0500) or clock (715.1500 or 715.1600), and the 7-digit numbers which would have applied to the movement and to the case if they had been imported separately. Thus, the correct reporting number for a watch with a 15-jewel adjusted or self-winding movement, not over 0.6 inch in width, having a balance wheel and hairspring, and valued not over $15, and a gold case is "715.0500-719.3735-720.2000".

			(b) The number and value of imported watches or clocks, and of their movements and cases must be reported separately with their respective 7-digit numbers. (c) The statistical suffixes to be used in the reporting of watch movements classifiable in items 716.37 through 716.44, inclusive, shall be as follows: movements having a balance wheel and hairspring shall have a statistical suffix comprised of the sum of 20 plus the actual number of jewels in the movement; movements not having a balance wheel and hairspring shall have a statistical suffix comprised of the sum of 40 plus the actual number of jewels in the movement. For example, the statistical suffix for a balance wheel and hairspring movement having 12 jewels would be "32"; similarly, a movement not having a balance wheel and hairspring which has 8 jewels, would have a statistical suffix of "48". (d) The statistical suffixes to be used in the reporting of item 719.-- shall be the statistical suffix for the applicable items 716.10 through 716.44, inclusive, from which the "base rate" was derived.

			PART 3. - MUSICAL INSTRUMENTS, PARTS, AND ACCESSORIES				
			Subpart A. - Musical Instruments				
			Subpart A headnotes:				
			1. This subpart does not cover -- (i) articles which are toys (see part 5 of this schedule); or (ii) articles which are antiques (see part 11 of this schedule).				
			2. For the purposes of this subpart -- (a) the term "brass wind instruments" refers to wind instruments of the "cupped-mouthpiece family" such as, but not limited to, trumpets, trombones, tubas, bass horns, sousaphones, bugles, French horns, cornets, flugelhorns, and saxhorns; (b) the term "wood-wind instruments" refers to wind instruments, usually sounded with reeds, and includes, but is not limited to, clarinets, oboes, bassoons, English horns, flutes, recorders, fifes, flageolets, piccolos, saxophones, and sarrusophones; and (c) the term "electronic musical instruments" embraces all musical instruments in which the sound is generated electrically, and conventional-type instruments not suitable for playing without electrical amplification, but the term does not include conventional-type instruments, fitted with electrical pick-up and amplifying devices, when the instrument is suitable for playing without such amplification.				
			3. The provisions of this subpart for string, wind, and percussion musical instruments include such instruments whether or not fitted with electrical pick-up and amplifying devices. Such devices, however, are separately classifiable from the musical instrument with which imported unless such devices are, or are designed and intended to be, fitted into or housed in the instrument itself.

Subpart A. - Furniture, Pillows, Cushions, and Mattresses

Subpart A headnote:

1. For the purposes of this subpart, the term "furniture" includes movable articles of utility, designed to be placed on the floor or ground, and used to equip dwellings, offices, restaurants, libraries, schools, churches, hospitals, or other establishments, aircraft, vessels, vehicles, or other means of transport, gardens, patios, parks, or similar outdoor places, even though such articles are designed to be screwed, bolted, or otherwise fixed in place on the floor or ground; and kitchen cabinets and similar cupboards, seats and beds, and sectional bookcases and similar sectional furniture, even though designed to be fixed to the wall or to stand one on the other; but the term does not include --

(i) antique furniture provided for in part 11B of schedule 7;
(ii) articles of concrete, of stone, or of ceramic ware (see parts 1 and 2 of schedule 5);
(iii) lamps and other lighting apparatus (see part 5 of schedule 6);
(iv) floor coverings (see part 2B of schedule 2, part 5 of schedule 3, and subpart B of this part);
(v) blinds, shutters, curtains, screens, and shades (see parts 1E and 2B of schedule 2);
(vi) furnishings provided for in part 5 of schedule 3;
(vii) mirrors (see part 3 of schedule 5);
(viii) waste paper baskets;
(ix) game tables and equipment, or toys (see part 3 of this schedule);
(x) safes (see part 3F of schedule 6);
(xi) refrigerators, freezers, dishwashers, stoves, clothes washers or dryers, television sets, radios, and phonographs (see parts 3F, 4, and 5 of schedule 6);
(xii) furniture specially designed for X-ray work (see part 2B of schedule 7); or
(xiii) furniture specially designed for sewing machines (see part 4E of schedule 6).

Subpart B. - Nontextile Floor Coverings

Subpart B headnotes:

1. This subpart covers certain hard-surfaced floor coverings and floor coverings not specially provided for, but does not cover --
   (i) floor coverings of unspun fibrous vegetable materials (see part 2B of schedule 2);
   (ii) floor coverings of textile materials (see part 5A of schedule 3); or
   (iii) floor coverings of fur or leather (see part 13B of schedule 7).

2. For the purposes of this subpart --
   (a) the term "linoleum" embraces a covering consisting of oxidized linseed oil or other drying oils with added fillers such as wood flour, cork, resins, and color pigments, whether or not applied to a base of burlap, felt, or other material, and whether or not cut or made into sizes for rugs, carpets, mats, tiles, table or counter tops, or other articles;
   (b) the term "inlaid" (item 728.05), as used with regard to linoleum, refers to linoleum having a design or pattern which extends vertically from the wearing surface through to the other surface or to the base, if one is present;
   (c) the term "floor coverings" embraces articles which, whether in the form of continuous sheets or made or cut into rugs, carpets, tiles, or other shapes, are suitable for use as floor coverings in homes, business establishments, institutions, vehicles, or elsewhere; and
   (d) the term "felt-base" (item 728.15), as used with regard to floor coverings, embraces a floor covering with a base of paper felt, usually asphalt saturated, and a wearing surface wholly of paints or enamels.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			PART 5. - ARMS AND AMMUNITION; FISHING TACKLE; WHEEL GOODS; SPORTING GOODS, GAMES AND TOYS Subpart A. - Arms and Ammunition				
			Subpart A headnotes: 1. This subpart covers side arms, firearms, and other arms, whether designed for military, police, sporting, or other use; certain pistols, guns, and other devices which are not arms but which expend, or operate by means of, an explosive charge; bombs, grenades, torpedoes, mines, guided weapons and missiles, and similar munitions of war, and ammunition; and parts of the foregoing. This subpart does not cover -- (i) archery bows and arrows, and fencing foils (see subpart D of this part); (ii) tools operated by means of an explosive charge, cutlery, hand tools, and similar implements (see parts 3E and 4F of schedule 6); (iii) transportation equipment even if armed or otherwise designed for military use (see part 6 of schedule 6); or (iv) flares and other chemical signals (see part 9A of this schedule). 2. For the purposes of this subpart, the term "firearms" covers every weapon or other device designed to project a missile by the firing of an explosive charge (including captive-bolt pistols, harpoon guns, and similar devices even though the projectiles are not completely released), and also includes any such device in the form of an object such as a walking stick, cane, pencil, pocket knife, or cigarette case; but the term does not include line-throwing guns, Very light pistols or other devices designed to fire only blank cartridges or blank ammunition, or any other device similar to the foregoing which expends or operates by means of an explosive charge.

PART 8. - COMBS; HAIR ORNAMENTS; BROOMS AND BRUSHES; PAINT ROLLERS; UMBRELLAS AND CANES

Subpart A. - Combs, Hair Ornaments, Brooms and Brushes, Paint Rollers

Subpart A headnotes:

1. This subpart does not include --
   (i) mechanical combs, brooms, or brushes (other than combs or brushes which are toilet articles), or combs, brooms, or brushes which are parts of articles (other than toilet articles);
   (ii) combs, brooms, or brushes imported with, and as part of, fitted luggage and handbags (see part 1D of schedule 7);
   (iii) pedicure or manicure sets (see part 3E of schedule 6);
   (iv) brushes imported with, and as part of, paint sets, kits, or color outfits (see part 9C of schedule 4); or
   (v) combs or hair ornaments provided for in part 6A of schedule 7.

2. For the purposes of this subpart, the term "combs" means toothed instruments having not over two rows of teeth, for adjusting, cleaning, or confining hair, or for personal adornment.

3. (a) If the President determines that the estimated annual domestic consumption of whiskbrooms of a kind described in items 750.26 to 750.28, inclusive, or of other brooms of a kind described in items 750.29 to 750.31, inclusive, has substantially changed since 1965 or since the date of the immediately preceding proclamation under this paragraph (if any), the quantity provided for in item 750.26 or 750.29, as the case may be, shall be modified by the percentage by which the President determines the estimated annual domestic consumption of the relevant brooms has changed in comparison with such estimated consumption in 1965 or at the time of such immediately preceding proclamation (if any). Such modified quantity shall be proclaimed by the President and shall, subject to the provisions of this paragraph, replace the quantity previously applicable under item 750.26 or 750.29.

(b) If the President determines an allocation among supplying countries of the quantity provided for in item 750.26 or 750.29 to be in the national interest, he may proclaim such allocation.

Subpart B. - Rubber and Plastics Waste and Scrap; Rubber and Plastics Film, Strips, Sheets, Plates, Slabs, Blocks, Filaments, Rods, Tubing and Other Profile Shapes

Subpart B headnotes:

1. This subpart covers rubber or plastics products (other than waste or scrap) in the following forms:
   (a) blocks and slabs in bulk forms;
   (b) film, strips, sheets, and plates, all the foregoing (whether or not printed, embossed, polished, or otherwise surface-processed) made or cut into rectangular pieces over 15 inches in width and over 18 inches in length; and
   (c) filaments, rods, seamless tubing, and profile shapes, all the foregoing whether or not polished or otherwise surface processed, or cut into lengths which are over 15 inches.

2. This subpart does not cover --
   (i) printed matter provided for in part 5 of schedule 2;
   (ii) man-made fibers, as defined in part 1E of schedule 3;
   (iii) articles provided for in subpart A of this part;

			1. In the absence of a specific provision to the contrary, the tariff status of an article is not affected by the fact it was previously imported into the customs territory of the United States and cleared through customs whether or not duty was paid upon such previous importation.			
			2. Any product of the United States which is returned after having been advanced in value or improved in condition abroad by any process of manufacture or other means, or any imported article which has been assembled abroad in whole or in part of products of the United States, shall be treated for the purposes of this Act as a foreign article, and, if subject to a duty which is wholly or partly ad valorem, shall be dutiable, except as otherwise prescribed in this part, on its full value determined in accordance with section 402 of this Act. If such product or such article is dutiable at a rate dependent upon its value, the value for the purpose of determining the rate shall be its full value under the said section 402.			
			3. This part does not apply to animals provided for in item 100.04 of part 1 of schedule 1.			
			Subpart A. - Articles not Advanced or Improved Abroad			
			Subpart A headnotes:			
			1. The items in this subpart (except items 804.10 and 804.20) shall not apply to any article -- (a) exported with benefit of drawback; (b) of a kind with respect to the importation of which an internal-revenue tax is imposed at the time such article is entered, unless such article was subject to an internal-revenue tax imposed upon production or importation at the time of its exportation from the United States and it shall be proved that such tax was paid before exportation and was not refunded; or (c) manufactured or produced in the United States in a customs bonded warehouse or under item 864.05 -- and exported under any provision of law.

		2. For the purposes of items 804.10 and 804.20 -- (a) when because of the destruction of customs records or for other cause it is impracticable to establish whether drawback was allowed, or the amount allowed, on a returned article, there shall be assessed thereon an amount of duty equal to the estimated drawback and internal-revenue tax which would be allowable or refundable if the imported merchandise used in the manufacture or production of the returned article were dutiable or taxable at the rate applicable to such merchandise on the date of entry, but in no case more than the duty and tax that would apply if the article were wholly of foreign origin; (b) tobacco products and cigarette papers and tubes classifiable under such item may be released from customs custody, without payment of that part of duty attributable to the internal-revenue tax, for return to internal-revenue bond as provided by section 5704(e) 1/ of the Internal Revenue Code of 1954; and (c) in order to facilitate the ascertainment and collection of the duty provided for, the Secretary of the Treasury is authorized to ascertain and specify the amounts of duty equal to drawback or internal-revenue tax which shall be applied to articles or classes or kinds of articles, and to exempt from the assessment of duty articles or classes or kinds of articles with respect to which the collection of such duty involves expense and inconvenience to the Government which is disproportionate to the probable amount of such duty.

			Subpart B. - Articles Advanced or Improved Abroad			
			Subpart B headnotes: 1. This subpart shall not apply to any article exported -- (a) from continuous customs custody with remission, abatement, or refund of duty; (b) with benefit of drawback; (c) to comply with any law of the United States or regulation of any Federal agency requiring exportation; or (d) after manufacture or production in the United States under item 864.05 of this schedule. 2. Articles repaired, altered, processed, or otherwise changed in condition abroad.--The following provisions apply only to items 806.20 and 806.30: (a) The value of repairs, alterations, processing, or other change in condition outside the United States shall be -- (i) the cost to the importer of such change; or (ii) if no charge is made, the value of such change, as set out in the invoice and entry papers; except that, if the appraiser concludes that the amount so set out does not represent a reasonable cost or value, then the value of the change shall be determined in accordance with section 402 of this Act. (b) No appraisement of the imported article in its changed condition shall be required unless necessary to a determination of the rate or rates of duty applicable to such article. (c) The duty upon the value of the change in condition shall be at the rate which would apply to the article itself, as an entirety without constructive separation of its components, in its condition as imported if it were not within the purview of this subpart. If the article, as returned to the United States, is subject to a specific or compound rate of duty, such rate shall be converted to the ad valorem rate which when applied to the full value of such article determined in accordance with section 402 of this Act would provide the same amount of duties as the specific or compound rate. In order to compute the duties due, the ad valorem rate so obtained shall be applied to the value of the change in condition made outside the United States.

		3. Articles assembled abroad with components produced in the United States.--The following provisions apply only to item 807.00: (a) The value of the products of the United States assembled into the imported article shall be -- (i) the cost of such products at the time of the last purchase; or (ii) if no charge is made, the value of such products at the time of the shipment for exportation, as set out in the invoice and entry papers; except that, if the appraiser concludes that the amount so set out does not represent a reasonable cost or value, then the value of such products shall be determined in accordance with section 402 of this Act. (b) The duty on the imported article shall be at the rate which would apply to the imported article itself, as an entirety without constructive separation of its components, in its condition as imported if it were not within the purview of this subpart. If the imported article is subject to a specific or compound rate of duty, the total duties shall be reduced in such proportion as the cost or value of such products of the United States bears to the full value of the imported article. 4. No imported article shall be accorded partial exemption from duty under more than one item in this subpart. Subpart B statistical headnotes: 1. For statistically reporting the articles provided for in this subpart the rate of duty for which is derived from a provision elsewhere in these schedules, the citation shall be the 7-digit number provided in this subpart followed by the reporting number of the provision from which such rate is derived. The unit of quantity reported hereunder for such articles shall be the same as the unit of quantity for the provision from which the rate was derived. For example, 10 new automotive compression-ignition engines exported for repairs or alterations and returned to the United States should be entered under item 806.2020 followed by 660.4220, with the quantity being shown as 10 and the value as dutiable value.

		Subpart C. - Substantial Containers or Holders			
		Subpart C headnotes: 1. This subpart covers only substantial containers and holders which are of the usual or ordinary types used in the shipment or transportation of goods and which are reusable for such purposes and subject to treatment as imported articles (see general headnote 6(a) and (b)(ii)), and also covers certain repair components. 2. This subpart does not apply to any container or holder -- (a) exported with benefit of drawback and returned empty; or (b) manufactured or produced in the United States in a customs bonded warehouse or under item 864.05 of this schedule and exported under any provision of law. 3. In order to facilitate the prompt clearance at ports of entry of substantial containers and holders provided for in this subpart, the Secretary of the Treasury is authorized -- (a) to permit the admission thereof without entry if readily identifiable as meeting the conditions of free entry set forth in this subpart; and (b) to permit any duties thereon to be paid cumulatively from time to time either before or after their importation when conditions exist which permit adequate customs controls to be maintained.

		PART 2. - PERSONAL EXEMPTIONS Part 2 headnote: 1. Any article exempted under this part from the payment of duty shall be exempt also from the payment of any internal-revenue tax imposed upon or by reason of importation. Subpart A. - Residents and Nonresidents Subpart A headnote: 1. If -- (a) any jewelry or similar articles of personal adornment having an aggregate value of $300 or more which have been exempted from duty under item 812.10 is sold within 3 years after the date of importation, or (b) any article which has been exempted from duty under item 812.30 is sold within 1 year after the date of importation, or (c) any automobile exempted from duty under item 813.25 is used otherwise than for the purpose therein expressed or is not returned abroad within the time and manner prescribed by the Secretary of the Treasury, without prior payment to the United States of the duty which would have been payable at the time of entry if the article had been entered without the benefit of any of these items, such article, or its value (to be recovered from the importer), shall be subject to forfeiture. An article sold pursuant to a judicial order or in liquidation of the estate of a decedent shall not be subject to the provisions of this note. 2. In the case of persons arriving from a contiguous country which maintains a free zone or free port, if the Secretary of the Treasury deems it necessary in the public interest and to facilitate enforcement of the requirement that the exemption in item 813.31 shall apply only to articles acquired as an incident of the foreign journey, he shall prescribe by regulation or instruction, the application of which may be restricted to one or more ports of entry, that such exemption shall be allowed only to residents who have remained beyond the territorial limits of the United States for not less than a specified period, not to exceed 24 hours, and, after the expiration of 90 days after the date of such regulation or instruction, allowance of the said exemption shall be subject to the limitations so prescribed.

		PART 4. - IMPORTATIONS OF RELIGIOUS, EDUCATIONAL, SCIENTIFIC, AND OTHER INSTITUTIONS			
		Part 4 headnotes:			
		1. Except as provided in items 850.50, 852.20, and 854.20, or as otherwise provided for in this headnote, the articles covered by this part must be exclusively for the use of the institutions involved, and not for distribution, sale, or other commercial use within 5 years after being entered. Articles admitted under any items in this part may be transferred from an institution specified with respect to such articles to another such institution, or may be exported or destroyed under customs supervision, without duty liability being incurred. However, if any such article (other than an article provided for in item 850.50 or 852.20) is transferred other than as provided by the preceding sentence, or is used for commercial purposes within 5 years after being entered, the institution for which such article was entered shall promptly notify customs officers at the port of entry and shall be liable for the payment of duty on such article in an amount determined on the basis of its condition as imported and the rate applicable to it (determined without regard to this part) when entered. If, with a view to a transfer (other than a transfer permitted by the second sentence) or the use for commercial purposes of an instrument or apparatus, a repair component admitted under item 851.65 has been assembled into such instrument or apparatus, such component shall, for purposes of the preceding sentence, be treated as a separate article.			
		2. The term "regalia" as used in this part (items 850.40 and 851.30) embraces only such insignia of rank or office, emblems, or other articles as may be worn upon the person or borne in the hand during public exercises of the institution, and does not include articles of furniture or fixtures, nor regular wearing apparel, nor personal property of individuals.			
		3. Architectural, engineering, industrial, or commercial drawings and plans, and reproductions thereof, are not covered by this part unless they are intended solely for exhibition or for educational use under item 851.10 (see part 5 of schedule 2).			
		4. Painted, colored, or stained glass windows, and parts thereof, not covered by item 850.30 are provided for in part 3B of schedule 5.			
		5. Part 5B of this schedule contains provisions under which certain institutions may import articles free of duty for permanent exhibition under bond.			

Item	Stat. Suf-fix	Articles	Units of Quantity	Rates of Duty	
				1	2
		6. (a) The term "instruments and apparatus" (item 851.60) embraces only instruments and apparatus provided for in -- (i) schedule 5: items 535.21-.27 and subpart E of part 2; and items 547.53 and 547.55 and subpart D of part 3; (ii) schedule 6: subpart G of part 3; subparts A and F and items 676.15, 676.20, and 678.50 of part 4; part 5; and items 694.16, 694.50, 694.63, and 696.60 of part 6; and (iii) schedule 7: part 2 (except subpart G); and items 790.59-.62 of subpart A of part 13; but the term does not include materials or supplies, nor does it include ordinary equipment for use in building construction or maintenance or for use in supporting activities of the institution such as its administrative offices or its eating or religious facilities. (b) An institution desiring to enter an article under item 851.60 shall make application therefor to the Secretary of the Treasury including therein (in addition to such other information as may be prescribed by regulation) a description of the article, the purposes for which the instrument or apparatus is intended to be used, the basis for the institution's belief that no instrument or apparatus of equivalent scientific value for such purposes is being manufactured in the United States, and a statement that either the institution has already placed a bona fide order for the instrument or apparatus or has a firm intention, in the event of favorable action on its application, to place such an order on or before the final day specified in paragraph (d) of this headnote for the placing of an order. If the application is made in accordance with the applicable regulations, the Secretary of the Treasury shall promptly forward copies thereof to the Secretary of Commerce and to the Secretary of Health, Education, and Welfare. If, at any time while its application is under consideration by the Secretary of Commerce or by the Court of Customs and Patent Appeals on appeal from a finding by him, an institution cancels an order for the instrument or apparatus to which its application relates or ceases to have a firm intention to order such instrument or apparatus, it shall promptly so notify the Secretary of Commerce or such Court, as the case may be.			

Item	Stat. Suf-fix	Articles	Units of Quantity	Rates of Duty	
				1	2
		(c) Upon receipt of the application the Secretary of Commerce shall, by publication in the Federal Register, afford interested persons and other Government agencies reasonable opportunity to present their views with respect to the question whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. After considering any views presented pursuant to this paragraph, including any written advice from the Secretary of Health, Education, and Welfare, the Secretary of Commerce shall determine whether an instrument or apparatus of equivalent scientific value to such article, for the purposes for which the instrument or apparatus is intended to be used, is being manufactured in the United States. Each finding by the Secretary of Commerce under this paragraph shall be promptly reported to the Secretary of the Treasury and to the applicant institution. Each such finding shall be published in the Federal Register, with a statement of the reasons therefor, on or before the ninetieth day following the date on which the application was made to the Secretary of the Treasury in accordance with applicable regulations. (d) Item 851.60 shall not apply with respect to any instrument or apparatus unless a bona fide order therefor has been placed, by the institution making the application under this headnote, on or before the sixtieth day following the day on which a finding of the Secretary of Commerce favorable to the institution has become final and conclusive. (e) Within 20 days after the publication in the Federal Register of a finding by the Secretary of Commerce under paragraph (c) of this headnote, an appeal may be taken from said finding only upon a question or questions of law and only to the United States Court of Customs and Patent Appeals -- (i) by the institution which made the application under paragraph (b) of this headnote, (ii) by a person who, in the proceeding which led to such finding, represented to the Secretary of Commerce in writing that he manufactures in the United States an instrument or apparatus of equivalent scientific value for the purposes for which the article to which the application relates is intended to be used, (iii) by the importer thereof, if the article to which the application relates has been entered at the time the appeal is taken, or (iv) by an agent of any of the foregoing. Any appeal under this paragraph shall receive a preference over all other matters before the Court and shall be heard and determined as expeditiously as the Court considers to be practicable. The judgment of the Court shall be final. (f) The Secretary of the Treasury and the Secretary of Commerce may prescribe joint regulations to carry out their functions under this headnote.

		Subpart C. - Articles Admitted Temporarily Free of Duty Under Bond			
		Subpart C headnotes:			
		1. (a) The articles described in the provisions of this subpart, when not imported for sale or for sale on approval, may be admitted into the United States without the payment of duty, under bond for their exportation within 1 year from the date of importation, which period, in the discretion of the Secretary of the Treasury, may be extended, upon application, for one or more further periods which, when added to the initial 1 year, shall not exceed a total of 3 years, except that (1) articles imported under item 864.75 shall be admitted under bond for their exportation within 6 months from the date of importation and such 6-months period shall not be extended, and (2) in the case of professional equipment and tools of trade admitted into the United States under item 864.50 which have been seized (other than by seizure made at the suit of private persons), the requirement of re-exportation shall be suspended for the duration of the seizure. For purposes of this headnote, an aircraft engine or propeller, or any part or accessory of either, imported under item 864.05, which is removed physically from the United States as part of an aircraft departing from the United States in international traffic shall be treated as exported.			
		(b) For articles admitted into the United States under item 864.50, entry shall be made by the nonresident importing the articles or by an organization represented by the nonresident which is established under the laws of a foreign country or has its principal place of business in a foreign country.			
		2. Merchandise may be admitted into the United States under item 864.05 only on condition that --			
		(a) such merchandise will not be processed into an article manufactured or produced in the United States if such article is --			
		(i) alcohol, distilled spirits, wine, beer, or any dilution or mixture of any or all of the foregoing;			
		(ii) a perfume or other commodity containing ethyl alcohol (whether or not such alcohol is denatured), or			
		(iii) a product of wheat; and			
		(b) if any processing of such merchandise results in an article (other than an article described in (a) of this headnote) manufactured or produced in the United States --			
		(i) a complete accounting will be made to the Customs Service for all articles, wastes, and irrecoverable losses resulting from such processing, and			
		(ii) all articles and valuable wastes resulting from such processing will be exported or destroyed under customs supervision within the bonded period.			

Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty 1	Rates of Duty 2
		3. Upon satisfactory proof that any article admitted under item 864.30 has been destroyed because of its use for any purpose provided for therein, the obligation under the bond to export such article shall be treated as satisfied. 4. Collectors of customs may defer the exaction of a bond for not to exceed 90 days after the date of importation for vehicles and craft entered under item 864.35 to take part in races or other specific contests for other than money purses; but unless any such vehicle or craft is exported or the bond is given within the period of such deferment, such vehicle or craft shall be subject to forfeiture. 5. Articles may be admitted under item 864.75 only on condition that the Secretary of the Treasury shall have found that the foreign country from which the articles were imported allows, or will allow, substantially reciprocal privileges in respect of similar imports to such country from the United States; and if the Secretary finds that a foreign country has discontinued, or will discontinue, the allowance of such privileges, the privileges of item 864.75 shall not apply thereafter in respect of imports from such foreign country. Subpart C statistical headnote: 1. For any articles entered under item 864.05 to be processed into articles manufactured or produced in the United States, the statistical reporting number shall consist of the 7-digit number provided therefor in this subpart followed by the reporting number for the provision which would have applied if it were not classifiable in this subpart, and the unit of quantity to be reported is the unit shown for such article in such other provision.

No article shall be exempted from duty under item 870.30 unless a Federal agency or agencies designated by the President determines that such article is visual or auditory material of an educational, scientific, or cultural character within the meaning of the Agreement for Facilitating the International Circulation of Visual and Auditory Materials of an Educational, Scientific, and Cultural Character. Whenever the President determines that there is or may be profitmaking exhi' tion or use of articles described in item 870.30 which interferes significantly (or threatens to interfere significantly) with domestic production of similar articles, he may prescribe regulations imposing restrictions on the entry of such foreign articles to insure that they will be exhibited or used only for nonprofitmaking purposes.

2. The provisions of items 870.40 and 870.45 do not apply to --

(i) articles of textile materials; articles provided for in schedule 5; articles of leather or of fur on the skin;

(ii) articles provided for in schedule 6, part 2, part 3 (subparts A through F except items 652.13 through 652.38, inclusive, 652.84, 652.88, 653.00, and 653.01), part 5 (except item 688.45) or part 6, but interchangeable agricultural and horticultural implements are classifiable in item 870.40 even if mounted at the time of importation on a tractor provided for in part 6B of schedule 6;

(iii) ball or roller bearings, including such bearings with integral shafts, and parts thereof, provided for in items 680.33 through 680.39, inclusive; or

(iv) articles provided for in item 666.00.

Part 3. - Additional Import Restrictions Proclaimed Pursuant to Section 22 of the Agricultural Adjustment Act, as Amended

Note: The shaded area indicates that the effective period for special tariff treatment has expired.

Appendix Headnotes:

1. The provisions of this Appendix relate to legislation and to executive and administrative actions pursuant to duly constituted authority, under which --

(a) one or more of the provisions in schedules 1 through 8 are temporarily amended or modified, or

(b) additional duties or other import restrictions are imposed by, or pursuant to, collateral legislation.

2. Unless the context requires otherwise, the general headnotes and rules of interpretation and the respective schedule, part, and subpart headnotes in schedules 1 through 8 apply to the provisions of this Appendix.

Appendix statistical headnotes:

1. For statistical reporting of merchandise provided for herein --

(a) unless more specific instructions appear in the parts or subparts of this appendix, report the 5-digit item number (or 7-digit number, if any) found in the appendix in addition to the 7-digit number appearing in schedules 1-7 which would be applicable but for the provisions of this appendix; and

(b) the quantities reported should be in the units provided in schedules 1-7.

2. For those items herein for which no rate of duty appears (i.e., those items for which an absolute quota is prescribed), report the 5-digit item number herein followed by the appropriate 7-digit reporting number from schedules 1-7. The quantities reported should be in the units provided in schedules 1-7.

		PART 1. - TEMPORARY LEGISLATION				
		Subpart A. - Temporary Provisions for Additional Duties				
		Subpart A headnotes:				
		1. The duties provided for in this subpart are cumulative duties which apply in addition to the duties, if any, otherwise imposed on the articles involved. The duties provided for in this subpart apply only with respect to articles entered during the period specified in the last column.				
		2. Sections 336 and 350 of this Act (the so-called flexible tariff and trade-agreements provisions, respectively) shall not apply with respect to the duty provided for in item 901.00.				
		3. With respect to any articles upon which the duty imposed under item 901.00 has been paid and which, on the date of termination of the tax provided for in section 4501, I.R.C., are held by the importer and intended for sale or other disposition, there shall be refunded (without interest) to such importer an amount equal to the duty paid on such articles under item 901.00, if claim for such refund is filed with the Secretary or his delegate within 90 days after the date of termination of the tax.				
		Subpart A statistical headnote:				
		1. For statistical reporting purposes in this subpart (item 901.00) — (a) The 7-digit number found herein should follow the 7-digit reporting number found in schedules 1-7 for the imported article (see subpart A headnote 1). (b) The quantity required in this subpart is the total sugars content. (c) The value for the imported article should be reported only in connection with the 7-digit reporting number found in schedules 1-7.				

Note: The shaded area indicates that the effective period for special tariff treatment has expired.

Subpart B. - Temporary Provisions Amending the Tariff Schedules

Subpart B headnotes:

1. Any article described in the provisions of this subpart, if entered during the period specified in the last column, is subject to duty at the rate set forth herein in lieu of the rate provided therefor in schedules 1 to 8, inclusive.

2. Articles exempted under item 915.25 from the payment of duty shall be exempt also from the payment of any internal revenue tax imposed upon or by reason of importation.

1/ See subpart A statistical headnote 1.
2/ The tax rate is 0.53 cent per pound of total sugars.
3/ The tax terminates June 30, 1975, or June 30 of the first year commencing after the effective date of any law limiting payments under title III of the Sugar Act of 1948, as amended, whichever is the earlier date.

Note: The shaded area indicates that the effective period for special tariff treatment has expired.

Item	Stat. Suf-fix	Articles	Units of Quantity	Rates of Duty 1	Rates of Duty 2	Effective Period
		3. (a) Items 911.10, 911.11, 911.13, 911.14, 911.15, and 911.16 shall not apply when the market price of copper is under 51 cents per pound. (b) For purposes of subparagraph (a), the market price of copper has the meaning assigned to it by headnote 5(b) of the headnotes of schedule 6, part 2, subpart C. (c) For purposes of subparagraph (a), the market price of copper shall be considered to be under 51 cents per pound only on and after the 20th day after the date of a report by the United States International Trade Commission to the Secretary of the Treasury that it has determined that the market price has been under 51 cents per pound for one calendar month. After any such report, the market price shall be considered as not being under 51 cents per pound only on and after the 20th day after the date of a report by the Commission to the Secretary that it has determined that the market price has been 51 cents or more per pound for one calendar month. (d) Determinations by the Commission under this headnote shall be made in the manner prescribed by headnote 5(c) of schedule 6, part 2, subpart C. 4. For so long as items 905.10 and 905.11 are in effect, headnotes 3, 4, and 5 of subpart C of part 1 of schedule 3 shall be suspended (except insofar as they relate to hair of the camel) and in lieu thereof-- (a) for purposes of item 307.40-- (i) the classification provisions for wool not finer than 46s shall apply to any package of wool containing not over 10 percent by weight of wool finer than 46s but not containing wool finer than 48s; and (ii) the citation for imports classifiable under item 307.40 shall be such item number followed by the item number for the part of the contents of the package which determines the rate of duty; and (b) for purposes of item 905.11, a tolerance of not more than 10 percent of wools not finer than 48s may be allowed in each bale or package of wools imported as not finer than 46s. Subpart B statistical headnote: 1. For the purposes of statistical reporting of any item for which a unit of quantity (including X) appears in this subpart no additional reporting number (from schedules 1-7) is to be furnished.				

Note: The shaded area indicates that the effective period for special tariff treatment has expired.

Item	Stat. Suf-fix	Articles	Units of Quantity	
		3. Quantitative limitation on certain footwear.--The provisions of this headnote apply to items 923.90 through 923.94, inclusive, of this subpart. The quantitative import limitations imposed are in addition to the duties provided for the restrained articles in schedule 7, part 1A. The import restrictions provided for in this subpart do not apply to footwear with an aggregate value not over $100 in any shipment, if imported for the personal use of the importer. (a) Definitions.--For the purposes of this subpart-- (i) The term "footwear" means all the footwear provided for in schedule 7, part 1A, except the following: footwear provided for in items 700.51 through 700.54, item 700.60, item 700.75, and disposable footwear, designed for one-time use, provided for in item 700.90; (ii) the term "athletic footwear" means footwear of special construction for baseball, football, soccer, track, skating, skiing, and other athletic games, or sports; and (iii) the term "restraint period" refers to the period beginning June 28, 1977, and ending June 30, 1978, and thereafter to the three subsequent 12-month periods beginning July 1 in one year and ending at the close of June 30 of the following year. (b) Export visa.--None of the footwear provided for herein exported on or after June 28, 1977, from the foreign countries involved may be entered unless such footwear is accompanied by an appropriate export visa issued by the government of the exporting country. (c) Footwear in bonded warehouse.--All footwear exported from the Republic of China that is in bonded warehouse as of May 14, 1977, and all footwear exported from the Republic of Korea that is in bonded warehouse as of May 16, 1977, may be withdrawn for consumption without an export visa on or before the 20th day following the date of publication in the Federal Register of the orderly marketing agreements concerning footwear negotiated with such countries. Thereafter such footwear may be withdrawn for consumption only if it is accompanied by an appropriate export visa issued by the government of the exporting country.		

Item	Stat. Suf-fix	Articles	Units of Quantity	
		(d) Footwear exported prior to June 28, 1977.--All footwear not covered by paragraph (c), which was exported from the foreign country involved prior to June 28, 1977, may be entered prior to September 1, 1977, without the requirement of export visas, provided that all such footwear entered on or after June 1, 1977, in excess of 33 million pairs from the Republic of China and 9 million pairs from the Republic of Korea shall be counted against the respective restraint levels for the first restraint period by pro-rating such imports among the respective TSUS items for each country as follows: For the Republic of China, item 923.90, 8 percent, item 923.91, 86 percent, and item 923.92, 6 percent; and for the Republic of Korea, item 923.93, 35 percent, and item 923.94, 65 percent. No such footwear may be entered on or after September 1, 1977, unless accompanied by an appropriate export visa issued by the exporting country and such footwear shall be counted against the applicable restraint levels. (e) Footwear exported and entered in different restraint periods.--Footwear which is exported from the foreign country during one restraint period, but is entered more than 90 days following the beginning of the subsequent restraint period, shall be counted against the restraint levels for that subsequent restraint period. Footwear, which is exported from the foreign country during one restraint period in excess of the restraint level for such item for such period, may be entered after the beginning of the next restraint period and shall be counted against the restraint level for such item for such subsequent restraint period.		

Item	Stat. Suf-fix	Articles	Units of Quantity	
		(f) Carryover.--Except as provided for in paragraph (h), if the restraint level for any item has not been filled for a restraint period, upon appropriate request of the foreign government involved, the shortfall may be entered under the same item during the following restraint period provided that the amount of shortfall so entered does not exceed 11 percent of the restraint level for the restraint period during which the shortfall occurred. If, in accordance with the provisions of paragraph (ij), all or part of a restraint level of any item has been reallocated to the restraint level of one or more of the other items, such amount will not be considered a shortfall, and therefore is not available for carryover. (g) Exceeding restraint levels.--Upon appropriate request of the foreign government involved and to the extent consistent with an orderly marketing agreement existing between the Government of the United States of America and such Government, restraint levels for each item may be exceeded by not more than 20 percent during the first restraint period, at the discretion of the Special Representative for Trade Negotiations, and by not more than 6 percent during any subsequent restraint period, except as provided for in paragraph (h). If a restraint level is exceeded during a restraint period, the Special Representative for Trade Negotiations shall make a downward adjustment of the restraint level for the next succeeding restraint period in the absolute amount by which the preceding restraint level was exceeded. (h) Limitation of paragraphs (f) and (g).--Except at the discretion of the Special Representative for Trade Negotiations in the first restraint period, paragraphs (f) and (g) may not be used in combination to increase the restraint level applicable to any item in any restraint period by more than 11 percent.

(ij) Adjustments.--Upon appropriate request of the foreign government involved for an adjustment of the restraint levels between items as provided for herein, the Special Representative for Trade Negotiations shall adjust the restraint level accordingly, such adjustments to be effective on and after the date of their publication in the Federal Register. Except as provided for later in this paragraph, an upward adjustment in a restraint level for exports from a foreign country shall not exceed the percentage of the respective base limit shown below and must be accompanied by a downward adjustment in the same absolute amount of the restraint level applicable to one or more of the other items set forth in the table below for exports during the same restraint period from the foreign country involved. The Special Representative for Trade Negotiations may, in his discretion, permit an upward adjustment of not over 50 percent of any restraint level applicable to item 923.92 in any restraint period provided that the restraint levels applicable to items 923.90 or 923.91 in the same restraint period are reduced by the same absolute amount.

		(k) United States International Trade Commission (USITC) reports and surveys.--The USITC shall issue reports and conduct surveys with respect to footwear as follows: (i) Quarterly.--Reports by calendar quarter showing monthly data on U.S. production, imports for consumption, apparent U.S. consumption, employment and prices. The initial report shall cover 1975, 1976 and the first two quarters of 1977; the last such report shall cover the quarter which ends not less than 60 days prior to the termination of the import relief. The reports shall be published within 60 days of the end of a quarter. (ii) Annually.--Annual surveys to obtain from domestic producers data on profits, orders, capacity, inventories, prices, capital expenditures, and research and development expenditures; and to obtain from importers data on prices, orders, and inventories. The initial survey shall cover the calendar year 1976 and the calendar year 1977, and the results shall be published by May 31, 1978. The results of subsequent surveys shall be published by May 31 of each year thereafter so long as the import relief is in effect. 4. United States International Trade Commission (USITC) surveys on certain bolts, nuts and screws of iron or steel.--The USITC shall conduct surveys with respect to products of the types subject to temporary duty increases under items 923.50 to 923.53, inclusive, as follows: (a) Quarterly.--Surveys by calendar quarter to obtain monthly data on U.S. production, U.S. producers' shipments, imports for consumption, U.S. exports, apparent U.S. consumption, employment, man-hours and prices. The initial survey shall cover the third and fourth quarters of 1978 and the first quarter of 1979; the last such survey shall cover the quarter which ends not less than 60 days prior to the termination of the import relief. The results of these surveys shall be published within 60 days of the end of the quarter. (b) Annually.--Annual surveys to obtain from domestic producers data by calendar quarter on profits, unfilled orders, and inventories, and annual data on capital expenditures and capacity; and to obtain from importers data by calendar quarter on prices, unfilled orders and inventories. The initial survey shall cover calendar year 1978, and the results of this and subsequent surveys shall be published by the end of the first quarter of each year thereafter so long as the import relief is in effect.

		5. Quantitative limitation on certain color television receivers and certain subassemblies thereof.--The provisions of this headnote apply to items 923.66 through 923.72, inclusive, of this subpart. The quantitative import limitations imposed are in addition to the duties provided for the restrained articles in schedule 6, part 5. The import restrictions provided for in this subpart do not apply to a single color television receiver if imported for the personal use of the importer. (a) Definitions.--For the purposes of this subpart-- (i) the term "color television receivers" refers to-- (1) fully assembled color television receivers, whether or not packaged or tested, for distribution to the ultimate purchaser, (2) kits containing all the parts necessary for assembly of a complete color television receiver, and (3) assemblies other than the above, which consist at least of, or are covered in the same entry with, a color picture tube and a printed circuit board or ceramic substrate, with components assembled thereon, designed to perform the intermediate frequency amplification functions or the picture and audio demodulation functions of a color television receiver; (ii) each subassembly for a color television receiver that contains as a component, or is covered in the same entry with, one or more of the following television components, viz., tuner, channel selector assembly, antenna, deflection yoke, degaussing coil, picture tube mounting bracket, grounding assembly, parts necessary for fixing the picture tube or tuner in place, consumer operated controls, or speaker, shall be classified in items 923.69 or 923.72; (iii) for the purposes of items 923.69 and 923.72, each subassembly shall be counted as a single unit, except that two or more different printed circuit boards or ceramic substrates covered by the same entry and designed for assembly into the same television models shall be counted as one unit; (iv) the term "exported" refers to the actual date the merchandise finally leaves the country of exportation for the United States as provided for in section 152.1(c) of the U.S. Customs Regulations (19 CFR 152.1(c)). (b) Export visa.--None of the color television receivers provided for herein exported on or after July 1, 1980, may be entered unless such color television receivers are accompanied by an appropriate export visa.		

Item	Stat. Suf-fix	Articles	Units of Quantity	
		(c) Color television receivers exported and entered in different restraint periods.--Color television receivers provided for in items 923.66 through 923.72, inclusive, which are exported during one restraint period, but are entered more than 90 days following the beginning of the subsequent restraint period, shall be counted against the restraint level for that subsequent restraint period. Color television receivers provided for in items 923.66 through 923.72, inclusive, which are exported during one restraint period in excess of the restraint level for such period, may be entered after the beginning of that subsequent restraint period and shall be counted against that restraint level for that subsequent restraint period. (d) Carryover.--If the restraint level for color television receivers has not been filled for the restraint period ending June 30, 1980, or the restraint period ending June 30, 1981, upon appropriate request of the Coordinating Council for North American Affairs (CCNAA) or the Government of the Republic of Korea, the shortfall may be entered during the following restraint period provided that the amount of shortfall so entered does not exceed 11 percent of the restraint level for the restraint period during which the shortfall occurred. (e) Exceeding restraint levels.--Upon appropriate request of the CCNAA or of the Government of the Republic of Korea, the restraint level for item 923.66 or 923.70 may be exceeded by not more than 10 percent. If the restraint level is exceeded, the United States Trade Representative shall make a downward adjustment of the restraint level for item 923.68 or 923.71, in the absolute amount the restraint level for item 923.66 or 923.70 was exceeded. 6. Quantitative limitation on color television receivers and certain subassemblies thereof.--The provisions of this headnote apply to items 923.74 through 923.83, inclusive, of this subpart. The quantitative import limitations imposed are in addition to the duties provided for the restrained articles in schedule 6, part 5. The import restrictions provided for in this subpart do not apply to a single color television receiver or subassembly thereof, if imported for the personal use of the importer. (a) Definition.--For the purposes of this subpart-- (i) each subassembly that contains as a component, or is covered in the same entry with, one or more of the following television components, viz., tuner, channel selector assembly, antenna, deflection yoke, degaussing coil, picture tube mounting bracket, grounding assembly, parts necessary for fixing the picture tube or tuner in place, consumer operated controls or speaker, shall be classified in items 923.78 through 923.83, inclusive; (ii) for the purposes of items 923.78 through 923.83, inclusive, each subassembly shall be counted as a single unit, except that two or more different printed circuit boards or ceramic substrates covered by the same entry and designed for assembly into the same television models shall be counted as one unit; (iii) the term "restraint period" refers to the time periods set forth in items 923.74 through 923.83, inclusive; and (iv) the term "exported" refers to the actual date the merchandise finally leaves the country of exportation for the United States as provided for in section 152.1(c) of the U.S. Customs regulations (19 CFR 152.1 (c)).		

Item	Stat. Suf-fix	Articles	Units of Quantity	
		(b) Export visa.--None of the color television receivers and subassemblies thereof provided for herein exported on or after February 1, 1979, from the foreign countries involved may be entered unless such color television receivers and subassemblies are accompanied by an appropriate export visa issued by the government of the exporting country. (c) Color television receivers and certain subassemblies thereof exported prior to February 1, 1979.--All color television receivers and subassemblies thereof provided for in items 923.74 through 923.83, inclusive, which were exported from the foreign country involved prior to February 1, 1979, may be entered prior to April 1, 1979, without the requirement of export visas. No such color television receivers and subassemblies may be entered on or after April 1, 1979, unless accompanied by an appropriate export visa issued by the exporting country and such products shall be counted against the applicable restraint levels. (d) Color television receivers and certain subassemblies thereof exported and entered in different restraint periods.--Color television receivers and subassemblies thereof provided for in items 923.74 through 923.83, inclusive, which are exported from the foreign country involved during one restraint period, but are entered more than 90 days following the beginning of the subsequent restraint period, shall be counted against the restraint levels for that subsequent restraint period. Color television receivers and subassemblies thereof provided for in items 923.74 through 923.83, inclusive, which are exported from the foreign country involved during one restraint period in excess of the restraint level for such period, may be entered after the beginning of the next restraint period and shall be counted against the restraint level for such item for such subsequent restraint period. (e) Carryover.--If the restraint level for any item has not been filled for a restraint period, upon appropriate request, the shortfall may be entered under the same item during the following restraint period provided that the amount of shortfall so entered in the next restraint period for (a) item 923.74 does not exceed 11 percent of the restraint level for the restraint period during which the shortfall occurred, (b) item 923.78 does not exceed 35,000 units, and (c) item 923.81 does not exceed 10 percent of the restraint level for the restraint period in which the shortfall occurred. (f) Exceeding restraint levels.--The restraint level for item 923.83 may be exceeded by not more than 50,000 units. (g) Adjustments.--The quota quantity applicable to item 923.74 shall be adjusted by the Special Representative for Trade Negotiations depending upon the quantity of color television receivers actually exported from Taiwan and entered into the United States during the period July 1, 1978, through January 31, 1979, inclusive, as determined from U.S. Customs data. If the quantity actually exported from Taiwan and entered into the United States exceeds 368,000 units, the amount of the excess shall be deducted from the quota quantity of 127,000 units. If the quantity actually exported from Taiwan and entered into the United States is less than 368,000 units, the amount of the deficiency shall be added to the quota quantity of 127,000 units. The quota quantity applicable to item 923.81 shall be adjusted by the Special Representative for Trade Negotiations depending upon the quantity of color television receivers actually exported from the Republic of Korea and entered into the United States during the period December 1, 1978, through January 31, 1979, inclusive, as determined from U.S. Customs data. If the quantity actually exported from the Republic of Korea and entered into the United States exceeds 122,000 units, the amount of the excess shall be deducted from the quota quantity of 153,000 units. The above adjustments are to be effective on and after the date of their publication in the Federal Register.

		7. Quantitative limitations on certain clothespins.--The provisions of this headnote apply to items 925.11, 925.12 and 925.13 of this subpart. (a) Definitions.--For the purposes of this headnote-- (i) The term "restraint period" refers to the 3 month periods provided for in the Quota Quantity column for items 925.11, 925.12 and 925.13; (ii) The term "quota year" refers to a 12-month period beginning February 23 in one year and ending at the close of February 22 of the following year. (b) Carryover.--Whenever the quota quantity specified for an item has not been entered during any restraint period, the shortfall may be entered in the same item during the following restraint period in any quota year and not be counted against the quota quantity therefor. (c) Shortfall.--Whenever the U.S. Trade Representative determines that the full quota quantity for item 925.11, 925.12, or 925.13, respectively, will not be used during a quota year, the U.S. Trade Representative may modify the quota quantities for that item during the remainder of that quota year to reallocate the shortfall to the other items; such modifications to be effective on the date of their publication in the Federal Register.

		8. United States International Trade Commission (USITC) surveys on certain nonelectric cooking ware of steel.--The USITC shall conduct surveys with respect to cooking ware of the type subject to temporary duty increases under item 923.60 as follows: (a) Semiannually.--Surveys semiannually to obtain periodic data on U.S. production; U.S. producers' domestic, export, and total shipments, imports, apparent U.S. consumption, employment, and man-hours. The initial survey shall cover the last half of 1979 and the first half of 1980, the last such survey shall cover the semiannual period which ends not less than 60 days prior to the termination of the import relief. The results of the surveys shall be published and transmitted to the U.S. Trade Representative within 60 days of the end of each survey period. (b) Annually.--Annual surveys to obtain from domestic producers annual data on profits, capital expenditures, capacity, and capacity utilization. The initial survey shall cover calendar year 1979, and the results of this and subsequent surveys shall be published and transmitted to the U.S. Trade Representative by the end of the first quarter of each year thereafter so long as the import relief is in effect.

		PART 3. - ADDITIONAL IMPORT RESTRICTIONS PROCLAIMED PURSUANT TO SECTION 22 OF THE AGRICULTURAL ADJUSTMENT ACT, AS AMENDED				
		Part 3 headnotes:				
		1. This part covers the provisions proclaimed by the President pursuant to section 22 of the Agricultural Adjustment Act, as amended (7 USC 624), imposing import fees, herein referred to as duties, and quantitative limitations on articles imported into the United States. The duties provided for in this part are cumulative duties which apply in addition to the duties, if any, otherwise imposed on the articles involved. Unless otherwise stated, the duties and quantitative limitations provided for in this part apply until suspended or terminated.				
		2. Exclusions.--The import restrictions provided for in this part do not apply with respect to--				
		(a) articles imported by or for the account of any agency of the United States;				
		(b) commercial samples of cotton or cotton waste of any origin in uncompressed packages each weighing not more than 50 pounds gross weight; and articles (except cotton and cotton waste) with an aggregate value not over $25 in any shipment, if imported as samples for taking orders, for the personal use of the importer, or for research;				
		(c) articles entered for exhibition, display, or sampling at a Trade Fair or for research, but only if written approval of the Secretary of Agriculture or his designated representative is presented at the time of entry or bond is furnished in a form prescribed by the Commissioner of Customs in an amount equal to the value of the merchandise as set forth in the entry plus the estimated duty as determined at the time of entry, conditioned upon the production of such written approval within six months from the date of entry;				
		(d) certified or registered seed wheat for use for seeding and crop-improvement purposes, in bags tagged and sealed by an officially recognized seed-certifying agency of the country of production, if --				
		(i) the individual shipment amounts to 100 bushels (of 60 pounds each for wheat) or less, or				
		(ii) the individual shipment amounts to more than 100 bushels and the written approval of the Secretary of Agriculture or his designated representative is presented at the time of entry, or bond is furnished in a form prescribed by the Commissioner of Customs in an amount equal to the value of the merchandise as set forth in the entry, plus the estimated duty as determined at the time of entry, conditioned upon the production of such written approval within six months from the date of entry;

		(e) wheat flour, the product of Israel, which is certified to the Secretary of Agriculture by an authorized representative of the government of Israel or its designee as having been thoroughly safeguarded for ritual purposes under rabbinical supervision and which is imported into the United States for use solely for religious and ritual purposes in the making of matzos for Passover, if the written approval of the Secretary of Agriculture is presented at the time of entry, or withdrawal from warehouse, for consumption; and (f) cotton produced in the United States with respect to which the Secretary of Agriculture shall have certified that there has been exported without benefit of subsidy, as an offset to the proposed reentry, an equal or greater number of pounds of cotton produced in the United States, of any grade or staple. 3. (a) Dairy products.-- (i) Imported articles subject to the import quotas provided for in items 950.01 through 950.11, except 950.06, may be entered only by or for the account of a person or firm to which a license has been issued by or under the authority of the Secretary of Agriculture, and only in accordance with the terms of such license; except that no such license shall be required for up to 1,837,351 pounds per quota year of natural Cheddar cheese, the product of Canada, made from unpasteurized milk and aged not less than 9 months, which prior to exportation has been certified to meet such requirements by an official of the Canadian government. Such licenses shall be issued under regulations of the Secretary of Agriculture which he determines will, to the fullest extent practicable, result in the equitable distribution of the respective quotas for such articles among importers or users and facilitate the utilization of the quotas by the supplying countries, taking due account of any special factors which may have affected or may be affecting the trade in the articles concerned. (ii) Under item 950.08A not more than 10,367,988 pounds of the annual quota quantity shall be products other than natural Cheddar cheese made from unpasteurized milk and aged not less than 9 months. Note: The shaded area indicates that the provision has expired.		

Item	Stat. Suf-fix	Articles	Units of Quantity	Quota Quantity
		(iii) Notwithstanding any other provision of this part, if the Secretary of Agriculture determines that a quantity specified in the column entitled "Quota Quantity" opposite the name of any country is not likely to be entered from such country within any calendar year, he may provide with respect to such article for the adjustment for that calendar year, within the aggregate quantity of such article permitted to be entered from all countries during such calendar year, of the quantities of such article which may be entered during such year from the countries specified as countries of origin for such article. The Secretary of Agriculture shall notify the Secretary of the Treasury of such adjustment and, with respect to country of origin adjustments for any article for which a license is not required, file notice thereof with the Federal Register. With respect to articles for which a license is not required, such adjustment shall become effective 3 days after the date of publication in the Federal Register. (iv) For the purposes of this part, the term "soft ripened cow's milk cheese" means cheese which-- (1) has a prominent crust formed on the exterior surface as a result of curing or ripening by biological curing agents such as molds, yeasts, or other microorganisms, (2) visibly cures or ripens from the surface toward the center, (3) has a fat content by weight (on a moisture-free basis) of not less than 50 percent, and (4) has a moisture content (calculated by weight of the non-fatty matter) of not less than 65 percent, but does not include cheese with mold distributed throughout its interior.		

Item	Stat. Suf-fix	Articles	Units of Quantity	Quota Quantity
		(b) Cotton Waste.--For the purposes of item 955.05, the minimum quota in column (A) is that part of the total quota in column (C) which must be reserved for comber waste made from cotton 1-3/16 inches or more in staple length, and the unreserved quota in column (B) is that part of the total quota available for any quota-type waste, including comber waste made from cotton 1-3/16 inches or more in staple length. (c) Suspension.--Notwithstanding any other provision of this part, the quantitative limitations for the articles provided for in item 950.60 are suspended beginning January 26, 1974.		

Item	Stat. Suf-fix	Articles	Units of Quantity	Quota Quanity
		4. Sugars and sirups.-- (a) Licenses may be issued by the Secretary of Agriculture or his designee authorizing the entry of articles exempt from the fees provided for in items 956.05, 956.15, and 957.15 of this part on the condition that such articles will be used only for the production (other than by distillation) of polyhydric alcohols, except polyhydric alcohols for use as a substitute for sugar in human food consumption. Such licenses shall be issued under regulations of the Secretary of Agriculture which he determines are necessary to insure the use of such articles only for such purposes. (b) "Not to be further refined or improved in quality" as used in item 956.05 means not to be further refined or improved in quality by being subjected substantially to the processes of (1) affination or defecation, (2) clarification, or (3) further purification by absorption or crystallization. (c)(i) The quarterly adjusted fee provided for in items 956.05 and 957.15 shall be the amount of the fee for item 956.15 plus .52 cents per pound. (ii) The quarterly adjusted fee provided for in item 956.15 shall be the amount by which the average of the daily spot (world) price quotations for raw sugar for the first 20 consecutive market days preceding the 20th day of the month preceding the calendar quarter during which the fee shall be applicable (as reported by the New York Coffee and Sugar Exchange or, if such quotations are not being reported by the International Sugar Organization), expressed in United States cents per pound, Caribbean ports, in bulk, adjusted to a United States delivered basis by adding applicable duty and attributed costs of 0.90 cents per pound for freight, insurance, stevedoring, financing, weighing and sampling, is less than 15.0 cents per pound: Provided, That whenever the average of such daily spot price quotations for 10 consecutive market days within any calendar quarter, adjusted to a United States delivered basis as provided herein, plus the fee then in effect (1) exceeds 16.0 cents, the fee then in effect shall be decreased by one cent, or (2) is less than 14.0 cents, the fee then in effect shall be increased by one cent: Provided further, That the fee may not be greater than 50 per centum of the average of such daily spot price quotations for raw sugar. (iii) The Secretary of Agriculture shall determine the amount of the quarterly fees in accordance with (i) and (ii) hereof and announce such fees not later than the 25th day of the month preceding the calendar quarter during which the fees shall be applicable. The Secretary shall certify the amount of such fees to the Secretary of the Treasury and file notice thereof with the Federal Register prior to the beginning of the calendar quarter during which the fees shall be applicable. The Secretary of Agriculture shall determine and announce any adjustment in the fees made within a calendar quarter in accordance with the first proviso of (ii) hereof, shall certify such adjusted fees to the Secretary of the Treasury, and shall file notice thereof with the Federal Register within 3 market days of the fulfillment of that proviso.

Chemical Appendix Headnotes:

1. This appendix enumerates those chemicals and products which the President has determined were imported into the United States before January 1, 1978, or were produced in the United States before May 1, 1978. For convenience, the listed articles are described (1) by reference to their registry number with the Chemical Abstracts Service (C.A.S.) of the American Chemical Society, where available, or (2) by reference to their common chemical name or trade name where the C.A.S. registry number is not available. For the purposes of these schedules, any reference to a product provided for in this appendix includes such products listed herein, by whatever name known.

[1]The first code shown is currently used by the Bureau of the Census in the compilation of the foreign trade statistics; the second code, assigned for Customs Service operations, may be used on import entries and export declarations filed for transactions through the specified ports. In Bureau of the Census statistical reports, New York City Customs District totals represent a summarization for the five ports. Newark and Perth Amboy are included in the New York port (10-1) in the shipping statistics presented in reports such as FT 985, SM 305, and SM 705.

SUPPLEMENT 1

to

TARIFF SCHEDULES OF THE UNITED STATES ANNOTATED (1981)

The pages in this supplement are to be substituted for the corresponding pages in the Tariff Schedules of the United States Annotated (1981). The principal changes in this supplement reflect--

(1) Presidential Proclamation 4801 (temporary duty increase on imports of certain prepared or preserved mushrooms, effective October 29, 1980);
(2) Presidential Proclamation 4805 (temporary quantitative limitations on importations of upland cotton, effective November 25, 1980);
(3) Proclamation 4807 (temporary modification of quantitative limitations on the importation of certain peanuts, effective December 4, 1980);
(4) Presidential Proclamation 4808 (implementation of certain tariff concessions on the importation of live cattle, effective January 1, 1981);
(5) Presidential Proclamation 4809 (implementation of certain technical amendments to schedule 4 of the Tariff Schedules of the United States made by Public Law 96-490, effective December 17, 1980);
(6) Presidential Proclamation 4811 (modifying the quantitative limitations on the importation of certain cheeses, effective January 1, 1981);
(7) Presidential Proclamation 4812 (terminating Presidential Proclamation No. 4600, effective December 31, 1980);
(8) Presidential Proclamation 4817 (suspending the tariff concessions on litharge and red lead, effective January 19, 1981);
(9) Executive Order 12267 (amending the Generalized System of Preferences (GSP));
(10) Executive Order 12302 (amending the Generalized System of Preferences (GSP), effective with respect to articles both: (1) imported on and after January 1, 1976, and (2) entered, or withdrawn from warehouse for consumption, on and after March 31, 1981);
(11) Public Law 96-490 (providing in part for technical amendments relating to the tariff classification of certain chemicals, effective December 2, 1980);

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general headnote 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the schedules, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 and the column designated LDDC of the schedules apply to articles imported into the customs territory of the United States as hereinafter provided in this headnote:

(a) Products of Insular Possessions.

(i) Except as provided in headnote 6 of schedule 7, part 2, subpart E, and except as provided in headnote 3 of schedule 7, part 7, subpart A, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, other than Cuba or the Philippine Republic, and entered free of duty; except that no article containing material to which (B) of this subdivision applies shall be exempt from duty under subdivision (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under section 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Cuba. Products of Cuba imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. Preferential rates of duty for such products apply only as shown in the said column 1. 1/

1/ By virtue of section 401 of the Tariff Classification Act of 1962, the application to products of Cuba of either a preferential or other reduced rate of duty in column 1 is suspended. See general headnote 3(f), infra.

(c) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP).

(i) The following countries, territories, and associations of countries eligible for treatment as one country (pursuant to section 502(a)(3) of the Trade Act of 1974 (19 U.S.C. 2462(a)(3)) are designated beneficiary developing countries for the purposes of the Generalized System of Preferences, provided for in Title V of the Trade Act of 1974, as amended (19 U.S.C. 2461 et seq.):

(ii) Articles for which the designations "A" or "A*" appear in the column entitled "GSP" of the schedules are those designated by the President to be eligible articles for purposes of the GSP pursuant to Section 503 of the Trade Act of 1974. The designation "A" signifies that all beneficiary developing countries are eligible for preferential treatment with respect to all articles provided for in the designated TSUS item, while the designation "A*" indicates that certain beneficiary developing countries, specifically enumerated in subdivision (c)(iii) of this headnote, are not eligible for such preferential treatment with regard to any article provided for in the designated TSUS item. Whenever an eligible article is imported into the customs territory of the United States directly from a country or territory listed in subdivision (c)(i) of this headnote, it shall receive duty-free treatment, unless excluded from such treatment by subdivision (c)(iii) of this headnote, provided that, in accordance with regulations promulgated by the Secretary of the Treasury the sum of (A) the cost or value of the materials produced in the beneficiary developing country or any 2 or more countries which are members of the same association of countries which is treated as one country under section 502(a)(3) of the Trade Act of 1974, plus (B) the direct costs of processing operations performed in such beneficiary developing country or such member countries is not less than 35 percent of the appraised value of such article at the time of its entry into the customs territory of the United States.

(iii) The following designated eligible articles provided for in TSUS item numbers preceded by the designation "A*", if imported from a beneficiary developing country set opposite the TSUS item numbers listed below, are not entitled to the duty-free treatment provided for in subdivision (c)(ii) of this headnote:

(d) Products of Least Developed Developing Countries.

(i) The following countries are designated least developed developing countries (LDDC's) and, subject to restrictions of subparagraph (ii), products of such countries imported into the customs territory of the United States, whether imported directly or indirectly, and which are entered under TSUS item numbers for which rates of duty appear in the column entitled "LDDC" of the schedules, are eligible for full tariff reductions without staging in accordance with Section 503(a)(2)(A) of the Trade Agreements Act of 1979 (93 Stat. 251):

Bangladesh	Malawi
Benin	Maldives
Bhutan	Mali
Botswana	Nepal
Burundi	Niger
Cape Verde	Rwanda
Central African Republic	Somalia
Chad	Sudan
Comoros	Tanzania
Gambia	Uganda
Guinea	Upper Volta
Haiti	Western Samoa
Lesotho	Yemen (Sana)

(ii) Imported articles, the products of least developed developing countries as designated in paragraph (i) above, provided for under the TSUS items for which rates of duty appear in the column entitled "LDDC" of the schedules, and which are not entitled to duty-free treatment under subdivision (c) of this headnote, are subject to those rates of duty rather than the rates of duty provided for in column numbered 1, except that articles subject to temporary modifications under any provisions of the Appendix to these schedules shall be subject to the rates of duty set forth therein. If no rate of duty is provided in the "LDDC" column for a particular item, the rate of duty provided in column numbered 1 shall apply.

(e) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. The rates of duty for a Canadian article, as defined in subdivision (e)(ii) of this headnote, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the schedules, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(f) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this headnote, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 2/

1/ Pursuant to section 4(b)(1) of the Taiwan Relations Act (22 U.S.C. 3303(b)(1)) the reference to countries includes Taiwan.

2/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended general headnote 3(f) by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

(g) Products of All Other Countries. Products of all countries not previously mentioned in this headnote imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the Tariff Schedules --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Intangibles. For the purposes of headnote 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) electricity,

(d) securities and similar evidences of value, and

(e) vessels which are not "yachts or pleasure boats" within the purview of subpart D, part 6, of schedule 6,

are not articles subject to the provisions of these schedules.

1/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedules, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are subject to tariff treatment as follows:

(i) The usual or ordinary types of shipping or transportation containers or holders, if not designed for, or capable of, reuse, and containers of usual types ordinarily sold at retail with their contents, are not subject to treatment as imported articles. Their cost, however, is, under section 402 of the tariff act, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

(ii) The usual or ordinary types of shipping or transportation containers or holders, if designed for, or capable of, reuse, are subject to treatment as imported articles separate and distinct from their contents. Such holders or containers are not part of the dutiable value of their contents and are separately subject to duty upon each and every importation into the customs territory of the United States unless within the scope of a provision specifically exempting them from duty.

(iii) In the absence of context which requires otherwise, all other containers or holders are subject to the same treatment as specified in (ii) above for usual or ordinary types of shipping or transportation containers or holders designed for, or capable of, reuse.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subdivision (b) hereof.

(b) Every segregation of articles made pursuant to this headnote shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under

			Subpart B. - Furskins				
			Subpart B headnotes: 1. This subpart covers all furskins, except carroted furskins, but does not cover fur or hair which has been removed from the skin. (Carroted furskins and fur or hair removed from the skin are covered in subpart D of part 15 of schedule 1). 2. As used in this subpart -- (a) the terms "furskins" or "skins" include the whole skins, or cuttings, heads, paws, tails, or other parts of whole skins, whether or not assembled into plates, mats, linings, strips, crosses, or similar forms, but do not cover such skins or parts of skins assembled in the rough form of garments, of parts or accessories of garments, or of other articles (see part 13B of schedule 7); (b) the term "raw or not dressed" refers to raw, unprocessed skins, or to processed skins which have not been subjected to any processing which preserves them indefinitely in a pliant state; and (c) the term "dressed" refers to skins which have been subjected to any processing which preserves them indefinitely in a pliant state, whether or not dyed or otherwise processed and whether or not in condition ready for manufacture into garments or other articles. 3. If the wool or hair on any skins which have been released from customs custody under item 123.00 is removed from such skins otherwise than as an unsought residue resulting from the processing of the skins for use as furs, the entire importation shall be subject to duty at the appropriate rate for such wool or hair on the skin under subpart C of part 1 of schedule 3, and for the purposes of this headnote, the clean content of such wool or hair shall be deemed to be 100%. 4. The entry, or withdrawal from warehouse, for consumption of ermine, fox, kolinsky, marten, mink, muskrat, and weasel furskins, raw or not dressed, or dressed, which are the product of the Union of Soviet Socialist Republics or of the People's Republic of China is prohibited.				
			Subpart B statistical headnote: For the purposes of this subpart, the term "whole skins" includes whole skins from which heads, paws, or tails or any combination thereof have been removed.

			PART 13. - TOBACCO AND TOBACCO PRODUCTS				
			Part 13 headnotes:				
			1. The term "wrapper tobacco", as used in this part, means that quality of leaf tobacco which has the requisite color, texture, and burn, and is of sufficient size for cigar wrappers, and the term "filler tobacco" means all other leaf tobacco.				
			2. The percentage of wrapper tobacco in a bale, box, package, or other shipping unit is the ratio of the number of leaves of wrapper tobacco in such unit to the total number of leaves therein. In determining such percentage for classification purposes, the appraiser shall examine at least ten hands, and shall count the leaves in at least two hands, from each shipping unit designated for examination.				
			3. The dutiable weight of cigars and cigarettes includes the weight of all materials which are integral parts thereof.				
			4. Provisions for the free entry of certain samples of tobacco products are covered by part 5 of schedule 8.

			PART 3. - WOOD VENEERS, PLYWOOD AND OTHER WOOD-VENEER ASSEMBLIES, AND BUILDING BOARDS				
			Part 3 headnotes:				
			1. For the purposes of this part, the following terms have the meanings hereby assigned to them: (a) Wood veneers: Wood sheets or strips, regardless of thickness, quality or intended use, produced by the slicing or rotary cutting of logs or flitches; and wood sheets, not over 1/4 inch in thickness, produced by sawing and of a type used to overlay inferior material; (b) Plywood: Rigid wood-veneer assemblies bonded together with adhesive substances having a central ply or core of wood veneer or lumber with one or more plies of wood veneer on each side thereof, the grain of at least one ply being at an angle (usually a right angle) with the grain of one or more of the other plies, including such assemblies the face ply (or plies) of which has been mechanically scored, striated, or similarly processed; (c) Wood-veneer panels: Rigid wood-veneer assemblies, bonded together with adhesive substances, except plywood, with a wood-veneer ply on one side of a backing, or on both sides of a core, which backing or core may be composed of lumber, veneer, hardboard, wood particle board, or other material, including such assemblies the face ply (or plies) of which has been mechanically scored, striated, or similarly processed; (d) Cellular panels: Rigid assemblies bonded together with adhesive substances with both sides or faces consisting of veneer, plywood, lumber, wood-veneer panels, hardboard, wood particle board, or other board composed of vegetable fibers, and with a core of hollow, honeycomb, or sponge-like construction, whether or not the interstices are filled with loose or loosely matted fibrous materials; and (e) Building boards: Panels of rigid construction, including tiles and insulation board, chiefly used in the construction of walls, ceilings, or other parts of buildings.				
			2. The term "face finished", as applied to the boards and panels provided for in this part, means that one or both surfaces of a panel or board have been treated with creosote or other wood preservatives, or with fillers, sealers, waxes, oils, stains, varnishes, paints, or enamels, or have been overlaid with paper, fabric, plastics, base metal or other material.

Subpart C. - Wool and Related Animal Hair

Subpart C headnotes:

1. For the purposes of this subpart --
(a) the term "hair" is limited to hair of the camel, and to hair of the alpaca, cashmere goat, angora goat, and like hair of other animals including the llama, the vicuna, and the angora rabbit;
(b) the term "clean lb." in the rate columns means pound of clean yield;

[1]

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			(c) every dealer, manufacturer, or processor who has given a bond pursuant to the provisions of item 306.00 shall report any transfer or use of merchandise contrary to the terms of his bond, within 30 days after such transfer or use, to the collector of customs in whose district the bond is filed, and for failure to so report such dealer, manufacturer, or processor shall be liable to a penalty (in addition to the duties provided for) equal to the value of the merchandise so transferred or used at the time and place of such transfer or use; and (d) the clean yield of any wool or hair provided for in item 306.04 shall be deemed to be 100 percent, unless the actual clean yield, as defined in headnote 1(c), supra, has been determined by suitable tests, and such use, or transfer for use, occurs not later than 3 years after the date of entry of such wool or hair. 6. The Secretary of the Treasury is hereby authorized and directed to prescribe methods and regulations for carrying out the provisions of this schedule relating to the duties on wool or hair. The Secretary of the Treasury is further authorized and directed to procure from the Secretary of Agriculture, and deposit in such customhouses and other places in the United States or elsewhere as he may designate, sets of the Official Standards of the United States for grades of wool. He is further authorized to display, in the customhouses of the United States, or elsewhere, numbered, but not otherwise identified, samples of imported wool or hair, to which are attached data as to clean yield and other pertinent facts, for the information of the trade and of customs officers. 7. For the purposes of item 307.66, the term "average fiber diameter" means the sum of the individual fiber diameter measurements divided by the number of fibers measured. Subpart C statistical headnote: 1. For item 306.00, the 2-digit statistical suffix to be used is the same as the 2-digit suffix for the provision which would have been applicable to the wool or hair had it not been entered under item 306.00. Thus, the 2-digit suffix, for a shipment of East Indian wool, in the grease or washed and not sorted, entered under item 306.00, would be "02", i.e., the same as the suffix for such wool had it been entered under item 306.11.

Subpart E. - Man-made Fibers

Subpart E headnotes:

1. The provisions of this subpart do not cover --
   (i) metal filaments, strips, or fibers;
   (ii) paper filaments, strips, or fibers;
   (iii) natural rubber filaments, strips, or fibers;
   (iv) synthetic rubber strips (in continuous or noncontinuous form);
   (v) nonmetallic mineral filaments, strips, or fibers, except as set forth in 2(c) infra;
   (vi) sterile surgical sutures and suture materials, provided for in part 13C of schedule 4;
   (vii) strings for musical instruments (see part 3B of schedule 7);

			PART 2. - CORDAGE				
			Part 2 headnotes:				
			1. For the purposes of this part -- (a) the term "cordage" means assemblages of textile fibers or yarns, in approximately cylindrical form and of continuous length, whether or not bleached, colored, or treated, designed and chiefly used as an end product, and comprising cable, rope, cord, and twine, but the term does not include -- (i) yarns (see part 1 of this schedule), or (ii) braids or elastic articles (see part 4A of this schedule and part 1B of schedule 7); (b) cordage "of stranded construction" is cordage composed of 3 or more strands composed of 2 or more yarns each, whether or not containing a core; (c) the term "hard (leaf) fibers" means fibers obtained from the leaf or leaf stems of monocotyledonous plants (e.g., abaca, sisal, and henequen); (d) the term "bleached, colored, or treated" means that the condition of the cordage or any of its constituent fibers or yarns has been affected by bleaching or coloring processes; by surface treatments such as polishing, glazing, coating, or filling; or by the application of grease or other nonfibrous substances (except oil) for any purpose, including rendering the cordage more able to withstand or repel fire, insects, rodents, mildew or rot; (e) the term "binder twine and baler twine" (item 315.20) means a single-ply twine measuring over 150 but not over 750 feet per pound, containing 8 percent or more by weight of added nonfibrous substances such as oil, grease, or repellents, and chiefly used with harvesting machines or baling machines for binding or tying of grains or for baling hay, straw, and other fodder or bedding materials.

(h) Table damask: Cotton fabrics, not napped, woven with jacquard or dobby attachments characterized by elaborate decorative designs, usually of floral patterns. The designs are reversible and are formed by a warp-face satin weave and the ground by a filling-face satin weave. Table damask is generally all white, although it is sometimes made with colored stripes or in solid pastel shades.

(ij) Twills and sateens:

Twills--Fabrics woven with a twill weave, not napped, having a more or less pronounced diagonal effect on the face of the cloth. They include fabrics known as drills, warp twills, filling twills, jeans, filter twills, broken twills, herringbone twills, gabardines, denims, chinos, and tickings.

Denims--Three-harness or four-harness twill fabrics, not fancy or figured, and not piece-colored, but the warp yarns of which are colored, made of singles yarn, and having an average yarn number over 3 but not over 16.

Sateens--Fabrics woven with a satin weave, not napped, in which the surface of the cloth consists almost entirely of warp or filling floats, that is, in the repeat of a weave pattern, each yarn of one system passes over several yarns of the other system before interlacing; they are sometimes woven with a twill weave but the diagonal effect in these is not ordinarily discernible on the face of the cloth. The following are examples of fabrics included in twills and sateens:

Type or name	Yarn number (before weaving)		Yarns per inch	
	Warp	Filling	Warp	Filling
Twill----------	16s	16s	70	48
Twill----------	14s	15s	70	48

			(k) Voiles: Plain-woven fabric, not napped, in which the total yarns per square inch is not less than 112 nor more than 148, and having an average yarn number over 50 but not over 70. (l) Napped fabrics: Fabrics with a fuzzy, fibrous surface produced by scratching or pricking the surface so that some of the fibers are raised from the body of the yarn. Napped fabrics are not to be confused with pile fabrics. Outing and canton flannel, moleskin, etc. are typical fabrics with a nap. (m) Yarn-dyed fabrics, n.s.p.f.: All fabrics, not included in any of the preceding groups, which contain any yarn to which color was imparted in any stage of manufacture before weaving. (n) Other fabric: All cotton fabrics not included in any of the preceding groups. (o) Not combed fabrics: Fabrics made wholly or in part of yarn not combed. (p) Combed fabrics: Fabrics made wholly of combed yarn. 2. The statistical suffixes to be used in connection with fabrics of cotton classifiable under items 320.01 through 331.--, inclusive, are set forth in the special table entitled "Statistical Suffix Table for Items 320.01 through 331.--" which appears at the end of this subpart.				
			Woven fabrics, wholly of cotton: Colored, whether or not bleached and whether or not fancy or figured, and made on a hand loom (i.e., a nonpower-driven loom) by a cottage industry, and which prior to exportation have been certified by an official of a government agency of the country where the fabrics were produced to have been so made:

			PART 5. - TEXTILE FURNISHINGS				
			Subpart A. - Textile Floor Coverings				
			Subpart A headnotes:				
			1. This subpart covers floor coverings of textile materials and floor covering underlays of fibrous materials. This subpart does not cover -- (i) floor coverings of unspun fibrous vegetable materials (see part 2B of schedule 2); (ii) linoleum, and other nontextile floor coverings (see part 4B of schedule 7); or (iii) rugs or carpets made prior to 100 years before their date of entry (see part 11 of schedule 7).				
			2. For the purposes of this subpart -- (a) the term "floor coverings" means carpeting, carpets, rugs, matting, and mats, all the foregoing of any size or shape, including squares or other segments designed to be joined together, suitable for use as floor coverings in homes, business establishments, institutions, vehicles, or elsewhere; and (b) the term "floor covering underlays" means any cushions or paddings of textile or other fibrous materials, of any size or shape, chiefly used under textile floor coverings.				
			3. For the purposes of this subpart, rubber, plastics, or other nontextile materials incorporated into a floor covering as a backing or underlay or to hold the pile in place shall be disregarded in determining the component material of chief value in the floor covering.				
			4. For the purposes of items 361.23 through 361.26, a floor covering is in chief weight of the named material if the weight of that component material is greater than the weight of each other textile component (i.e., cotton, vegetable fibers except cotton, wool, silk, man-made fibers, or other textile materials) of the article.				
			Floor coverings of pile or tufted construction, of textile materials:				
			In which the pile was inserted or knotted during weaving or knitting:				
			With pile hand-inserted or hand-knotted:				
			With over 50 percent by weight of the pile being hair of the alpaca, guanaco, huarizo, llama, misti, suri or any combination of these hairs:

Schedule 4 headnotes:

1. This schedule does not include --
   (i) any of the mineral products provided for in schedule 5;
   (ii) metal-bearing ores and other metal-bearing materials, provided for in part 1 of schedule 6; or
   (iii) metals provided for in part 2 of schedule 6.

2. (a) The term "compounds", as used in this schedule, means substances occurring naturally or produced artificially by the reaction of two or more ingredients, each compound --
   (i) consisting of two or more elements,
   (ii) having its own characteristic properties different from those of its elements and from those of other compounds, and
   (iii) always consisting of the same elements united in the same proportions by weight with the same internal arrangement.

The presence of impurities which occur naturally or as an incident to production does not in itself affect the classification of a product as a compound.

(b) The term "compounds", as used in this schedule, includes a solution of a single compound in water, and, in determining the amount of duty on any such compound subject to duty in this schedule at a specific rate, an allowance in weight or volume, as the case may be, shall be made for the water in excess of any water of crystallization which may have been in the compound.

3. (a) The term "mixtures", as used in this schedule, means substances consisting of two or more ingredients (i.e., elements or compounds), whether occurring as such in nature, or whether artificially produced (i.e., brought about by mechanical, physical, or chemical means), which do not bear a fixed ratio to one another and which, however thoroughly commingled, retain their individual chemical properties and are not chemically united. The fact that the ingredients of a product are incapable of separation or have been commingled in definite proportions does not in itself affect the classification of such product as a mixture.

(b) The term "mixtures", as used in this schedule, includes solutions, except solutions defined as compounds in headnote 2(b) of this schedule.

			Subpart B. - Industrial Organic Chemicals 1/				
			Subpart B headnotes:				
			1. The provisions of items 402.00 to 406.63, inclusive, in this subpart shall apply not only to the products described therein when obtained, derived, or manufactured in whole or in part from products described in subpart A of this part, but shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in said subpart A.				
			2. For the purpose of classification of merchandise provided for under items 402.36 to 406.63, inclusive, the following provisions shall govern:				
			(a) The term "derivatives" refers to only those derivatives which may be obtained by one or more of the following processes: Halogenation, nitration, nitrosation, or sulfonation, and is to be understood to include sulfonyl halides.				
			(b) A compound with functional groups described in two or more items under items 402.36 to 406.63, inclusive, is to be classified in the latest applicable item. For example, 4-acetamido-2-aminophenol, which contains three functional groups, will be classified in 405.12 (Amides), rather than in 404.92 to 405.09, inclusive (Aminophenols), or in 404.84 to 404.90, inclusive (Amines), or in 403.51 (Phenols). When applicable, classification should be made in accordance with the following principles:				
			(i) Salts of organic acids (including phenols) with inorganic bases and salts of organic bases with inorganic acids are to be classified under the same superior heading as the organic acid or base; salts of organic acids with organic bases are to be classified either under the superior heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free base, whichever is listed later.				
			(ii) Esters of organic acids are to be classified either under the superior heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free alcohol or phenol, whichever is listed later.				
			(iii) The above provisions apply also in cases where the component having the functional groups described under the later superior heading is not of benzenoid origin. For example, benzyl acetate is classified under carboxylic acids (404.24 to 404.47, inclusive) rather than under alcohols (403.45).				
			1/ Articles exported to the United States prior to July 1, 1980, must be appraised under the valuation standards provided for in sections 402 and 402a of the Tariff Act of 1930 in effect on June 30, 1980, and are subject to classification under the items of the Tariff Schedules in effect on that date.

Subpart C. - Finished Organic Chemical Products 1/

Subpart C headnotes:

1. The provisions of this subpart providing for products obtained, derived, or manufactured in whole or in part from products described in subpart A or B of this part shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in the said subpart A or B.

2. For the purposes of the Tariff Schedules, the term "pesticides" means products, such as insecticides, rodenticides, fungicides, herbicides, fumigants, and seed disinfectants, chiefly used to destroy undesired animal or plant life.

3. The term "plastics materials" in items 408.44 to 409.18, inclusive, embraces products formed by the condensation, polymerization, or copolymerization of organic chemicals and to which plasticizers, fillers, colors, or extenders may have been added.

1/ Articles exported to the United States prior to July 1, 1980, must be appraised under the valuation standards provided for in sections 402 and 402a of the Tariff Act of 1930 in effect on June 30, 1980, and are subject to classification under the items of the Tariff Schedules in effect on that date.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

GSP	Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty 1	Rates of Duty LDDC	Rates of Duty 2
			The term includes, but is not limited to, phenolic and other tar-acid resins, styrene resins, alkyd and polyester resins based on phthalic anhydride, coumarone-indene resins, urethane, epoxy, toluene sulfonamide, maleic, fumaric, aniline, and polyamide resins, and other synthetic resins. The plastics materials may be in solid, semi-solid, or liquid condition, such as flakes, powders, pellets, granules, solutions, emulsions, and other basic forms not further processed. 4. For the purpose of the classification of merchandise provided for under items 408.44 to 409.18, inclusive, the following provisions shall apply: (a) The term "thermoplastic resins" means those materials in unfinished forms which in their final state as finished articles are capable of being repeatedly softened by increase of temperature and hardened by decrease of temperature. (b) The term "thermosetting resins" (or thermosets) means those materials in unfinished forms which in their final state as finished articles are substantially infusible. Thermosetting resins are often liquids at some stage in their manufacture or processing and are cured by heat, catalysis, or other chemical means. After being fully cured, thermosets cannot be resoftened by heat. (c) Copolymers and terpolymers not specially provided for shall be classified as if they consisted entirely of that monomer which is present in the largest amount by weight on a resin content basis (i.e., excluding the weight of plasticizers, liquid diluents, fillers, or other additives). Any polymer consisting of two or more monomers which are present in equal amounts shall be classified as if it consisted entirely of that monomer whose polymer is listed first under the thermoplastic or thermosetting resins, as appropriate. 5. The term "paints and enamel paints" in this subpart covers dispersions of pigments or pigment-like materials with a liquid (vehicle) which are suitable for application to surfaces as a thin layer, and which dry (harden) to an opaque, solid film. The vehicle of paints consists of drying oils or resins which bind the pigment particles together in the film; the vehicle of enamel paints is principally varnish. Paints and enamel paints may also contain thinners, driers, plasticizers, or other agents. 6. The term "stains" in this subpart covers liquids containing transparent or semi-transparent pigments, dyes, or chemicals, chiefly used to deepen or otherwise alter the color of wood, but which will not obscure its grain, texture, or markings. 7. For the purposes of this subpart -- (a) The term "surface-active agents" means synthetic organic compounds, or mixtures thereof, which function as surface tension modifiers and are chiefly used for any one or combination of the following purposes: as detergents, wetting agents, emulsifiers, dispersants, or foaming agents.				

GSP	Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty 1	Rates of Duty 2
			(b) The term "synthetic detergents" embraces formulated materials which are used chiefly for household, laundry, and industrial cleaning purposes, and which consist of one or more surface-active agents as the active ingredients in combination with colors, brighteners, perfumes, inert diluents, builders, and extenders such as inorganic salts, polyphosphates, polysilicates or sodium carboxymethylcellulose.			
			8. The term "plasticizers" in item 409.34 means substances which may be incorporated into a material (usually a plastic, resin material, or an elastomer) to increase its softness, flexibility, workability, or distensibility.			
			9. The term "drugs" in this subpart means those substances having therapeutic or medicinal properties and chiefly used as medicines or as ingredients in medicines.			
			10. For the purposes of the provisions of this subpart relating to "colors, dyes, stains, and related products" (except products provided for in items 410.36 to 410.44, inclusive) -- (a) the specific duties shall be based on standards of strength which shall be established by the Secretary of the Treasury, and upon all importations of such articles which exceed such standards of strength the specific duty shall be computed on the weight which the article would have if it were diluted to the standard strength, but in no case shall any such articles of whatever strength be subject to a less specific duty than that provided in the respective items of this subpart; (b) it shall be unlawful to import or bring into the United States any such product unless the invoice shall bear a plain, conspicuous, and truly descriptive statement of the identity and percentage, exclusive of diluents, of such product; (c) it shall be unlawful to import or bring into the United States any such product, if the immediate container or the invoice bears a statement, design, or device regarding the product or the ingredients or substances contained therein which is false, fraudulent, or misleading in any particular; and (d) in the enforcement of the foregoing provisions of this headnote the Secretary of the Treasury shall adopt a standard of strength for each dye or other product which shall conform as nearly as practicable to the commercial strength in ordinary use in the United States prior to July 1, 1914. If a dye or other product has been introduced into commercial use since said date then the standard of strength for such dye or other product shall conform as nearly as practicable to the commercial strength in ordinary use. If a dye or other product was or is ordinarily used in more than one commercial strength, then the lowest commercial strength shall be adopted as the standard of strength for such dye or other product.			
			11. Any product described in two or more of the items under items 411.32 to 412.70, inclusive, is to be classified in the first applicable item.			
			12. The term "Dyes containing, by weight" in items 409.62, 409.86, and 410.04, means those products which contain as the only dye components the specified components listed therewith, each of which must be present in the product. A tolerance of plus or minus 2 percentage points from the named percentages is allowable.

			Subpart C. - Inorganic Chemical Compounds				
			Subpart C headnote:				
			1. This subpart does not include any organic compounds. For the purposes of this subpart, inorganic compounds containing only one kind of cation are classifiable according to the cation constituent as indicated in the alphabetical listing set forth in this subpart; and inorganic compounds containing two or more different kinds of cations are classifiable according to the cation constituent thereof first named in the alphabetical listing in this subpart. Inorganic compounds, having no cations or none of the cation constituents of which are named in this subpart, are covered by the provision for other inorganic compounds (item 423.00).

			PART 3. - DRUGS AND RELATED PRODUCTS [7]				
			Part 3 headnotes:				
			1. Any product described in this part which is a mixture containing as an ingredient any product described in part 1 of this schedule remains classifiable in part 3 unless the part 1 ingredient, as used in the mixture, imparts therapeutic or medicinal properties thereto. Notwithstanding the provisions of part 1 of this schedule, niacin, niacinamide, meso-inositol hexanicotinate, and pyridoxine (vitamin B_6), regardless of source, are classifiable in part 3 of this schedule.				
			2. For the purposes of the tariff schedules, the term "drugs" means those substances, whether natural or synthetic, having therapeutic or medicinal properties and chiefly used as medicines or as ingredients in medicines.				
			3. For the purposes of this part -- (a) "natural substances" are those substances found in nature which comprise whole plants and herbs, anatomical parts thereof, vegetable saps, extracts, secretions and other constituents thereof; whole animals, anatomical parts thereof, glands or other animal organs, extracts, secretions and other constituents thereof, and which have not had changes made in their molecular structure as found in nature; (b) a "synthetic substance" is a chemical compound made by the artificial combination of elements or radicals by any physical or chemical process; (c) the term "crude", as used in relation to natural products, means any product which has not been advanced in value or improved in condition by shredding, grinding, chipping, crushing, distilling, evaporating, extracting, by artificial mixing with other substances or by any other process or treatment beyond that which is essential to its proper packing and the prevention of decay or deterioration pending manufacture; and (d) the term "advanced", as used in relation to natural products, means any product which has been advanced in value or improved in condition from its crude state by any mechanical or physical process whatever beyond that which is essential to its proper packing and the prevention of decay or deterioration pending manufacture, but does not include any product which has been artificially mixed with other substances or the molecular structure of which as found in nature has been changed.

Subpart B. - Rubber

Subpart B headnotes:

1. This subpart covers all rubber whether or not obtained, derived, or manufactured in whole or in part from any product described in part 1 of this schedule.

2. (a) For the purposes of the tariff schedules, the term "rubber" means a substance, whether natural or synthetic, in bale, crumb, powder, latex, or other crude form, that--

(i) can be vulcanized or otherwise cross-linked, and

(ii) after cross-linking can be stretched at 68°F. to at least three times its original length and that, after having been stretched to twice its original length and the stress removed, returns within 5 minutes to less than 150 percent of its original length.

(b) For purposes of the Tariff Schedules other than schedule 4, the term "rubber" also means any substance described in subdivision (a) that also contains fillers, extenders, pigments, or rubber-processing chemicals, whether or not such substance, after the addition of such fillers, extenders, pigments, or chemicals, can meet the tests specified in clauses (i) and (ii) of subdivison (a).

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			PART 9. - DYEING AND TANNING PRODUCTS; PIGMENTS AND PIGMENT-LIKE MATERIALS; INKS, PAINTS, AND RELATED PRODUCTS				
			Part 9 headnote:				
			1. Any product described in this part and also in part 1 of this schedule is classifiable under said part 1, except varnishes, inks, and artists', students', and children's pigments or paints.				
			Subpart A. - Dyeing and Tanning Products				
			Subpart A headnotes:				
			1. This subpart covers only materials, extracts, decoctions, and other preparations suitable for coloring (including dyeing and staining) or for tanning. All the products provided for are of vegetable origin except cochineal (item 470.05) which is of animal origin.				
			2. For the purposes of this subpart -- (a) the term "crude or processed" means materials which are crude or which have been processed by shredding, grinding, chipping, crushing, or any similar process, but not otherwise processed; and (b) the term "cutch" refers to products obtained from the Acacia catechu or Areca catechu trees.

Subpart B. - Iron or Steel

Subpart B headnotes:

1. This subpart covers iron and steel, their alloys, and their so-called basic shapes and forms, and in addition covers iron or steel waste and scrap.

2. Grades of Iron, Steel, and Ferroalloys.--For the purposes of the tariff schedules, the following terms have the meanings hereby assigned to them:

1/ Report value also.

			(a) Pig iron (except vanadium or titanium pig iron) and cast iron: A ferrous product (not including steel, as defined in (g) of this headnote) containing, by weight, 1.9 percent or more of carbon, and which may contain one or more alloy elements within the respective weight limits specified below: not over 6 percent manganese, not over 15 percent phosphorus, not over 8 percent silicon, not over 30 percent chromium, not over 40 percent tungsten, not over 0.1 percent vanadium, not over 0.1 percent titanium, an aggregate of not over 10 percent of other alloy elements. (b) Vanadium or titanium pig iron: A ferrous product containing, by weight, over 0.1 percent but not over 35 percent of vanadium, or over 0.1 percent but not over 15 percent of titanium, and otherwise conforming to the specifications for pig iron in (a) of this headnote. (c) Spiegeleisen: A ferrous product or ferroalloy containing, by weight, over 6 percent but not over 30 percent of manganese and otherwise conforming to the specifications for pig iron in (a) of this headnote. (d) Ferronickel: A ferrous alloy consisting essentially of iron and nickel and containing 10 percent or more, by weight, of nickel. (e) Ferroalloys: Alloys of iron (except spiegeleisen and ferronickel, as defined in headnotes 2(c) and 2(d), supra, respectively) which are not usefully malleable and are commonly used as raw material in the manufacture of ferrous metals and which contain one or more of the following elements in the quantity, by weight, respectively indicated: over 30 percent of manganese, or over 8 percent of silicon, or over 30 percent of chromium, or over 40 percent of tungsten, or a total of over 10 percent of other alloy elements, except copper, and which, if containing silicon, do not contain over 96 percent of nonferrous alloy elements, or, if containing manganese but no silicon, do not contain over 92 percent of nonferrous alloy elements, or, if containing no manganese and no silicon, do not contain over 90 percent of nonferrous alloy elements. For the purposes of this subpart -- (i) ferrochromium is a ferroalloy which contains, by weight, over 30 percent of chromium but not over 10 percent of silicon; (ii) ferromanganese is a ferroalloy which contains, by weight, over 30 percent of manganese but not over 10 percent of silicon;

Subpart C. - Copper 1/

Subpart C headnotes:

1. This subpart covers copper, its alloys, and their so-called basic shapes and forms, and in addition covers copper waste and scrap.

2. For the purposes of the tariff schedules, the following terms have the meanings indicated:

(a) Alloys of copper: Copper-base alloys or metals in which the copper content is, by weight, less than 99.3 percent, but not less than any other metallic element. For the purposes of this subpart --

(i) nickel silver is an alloy of copper which contains by weight 5 percent or more of zinc and 5 percent or more of nickel, with or without small quantities of other elements;

(ii) brass is an alloy of copper (not including nickel silver) in which zinc is the principal alloying element, with or without small quantities of other elements;

(iii) cupro-nickel is an alloy of copper in which nickel is the principal alloying element and which does not contain by weight over 2 percent of any other single element.

In the absence of context which requires otherwise, the term "copper", wherever used in the tariff schedules, includes alloys of copper.

1/ Copper waste and scrap and certain copper articles are temporarily free of duty. See items 911.10 and 911.11 in part 1B, Appendix to the Tariff Schedules.

GSP	Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty		
					1	LDDC	2
			(b) Master alloys: Alloys of copper with other materials in any proportion, not usefully malleable and commonly used as raw material in the manufacture of other alloys or as de-oxidants, de-sulphurizing agents or for similar uses in the metallurgy of non-ferrous metals. For the purposes of this subpart -- (i) manganese copper is a master alloy which contains copper and manganese, in which the manganese content ranges by weight from 5 to 45 percent, with copper the balance; and (ii) phosphor copper is a master alloy which contains phosphorus and copper, in which the phosphorus content ranges by weight from 5 to 16 percent, with copper the balance. 3. For the purposes of this subpart, the following terms have the meanings indicated: (a) Bars and plate: Products of solid rectangular cross section over 0.188 inch in thickness, in coils or cut to length, whether or not corrugated or crimped. Bars are not over 12 inches in width and plates are over 12 inches in width. (b) Sheets and strips: Products of solid rectangular cross section not over 0.188 inch but over 0.006 inch in thickness, in coils or cut to length, whether or not corrugated or crimped. Sheets are over 20 inches in width; strips are not over 20 inches in width and do not include flat wire, as defined in (d) below. (c) Rods: Products of round, half-round, quarter-round, oval, half-oval, triangular, pentagonal, hexagonal, octagonal, or decagonal solid cross section, in straight lengths or in coils, and which if in coils are over 0.375 inch in maximum cross-sectional dimension. (d) Wire: A non-tubular product of any cross-sectional configuration, which if flat is in coils or straight lengths, not over 1.25 inches in width, not over 0.188 inch in thickness, and has all surfaces rolled or drawn, and which if not flat is not over 0.375 inch in maximum cross-sectional dimension and is in coils. (e) Angles, shapes, and sections: Products which do not conform completely to the respective definitions set forth in this headnote for bars, plates, sheets, strip, rods, or wire, and do not include any tubular products. 4. For the purposes of this subpart, any continuous cast product, whether or not machined or otherwise processed, which is substantially comparable to, and suitable for the same general purposes as, a wrought product provided for in this subpart shall be classified under the same provision and at the same rate as such wrought product, notwithstanding the provisions of headnotes 3(a) and 3(c) of this part.

			Subpart D. - Aluminum				
			Subpart D headnotes:				
			1. This subpart covers aluminum, its alloys, and their so-called basic shapes and forms and also covers aluminum waste and scrap.				
			2. Alloys of aluminum: For the purposes of the tariff schedules, alloys of aluminum are metals in which the aluminum content is, by weight, less than 99.0 percent, but not less than any other metallic element. Aluminum silicon is an alloy of aluminum containing not less than 25 percent of silicon. In the absence of context which requires otherwise, the term "aluminum", wherever used in the tariff schedules, includes alloys of aluminum.				
			3. For the purposes of this subpart, the following terms have the meanings indicated: (a) Bars: Products of solid rectangular cross section, 0.25 inch or more in thickness and over 0.375 inch but not over 12 inches in width, in coils or cut to length; and products of solid hexagonal or octagonal cross section, 0.375 inch or more in thickness (measuring the perpendicular distance between opposite faces) in coils, or of any thickness in straight lengths. (b) Rods: Products of solid round cross section, which, if 0.375 inch or more in diameter, are in coils or cut to length, and which, if under 0.375 inch in diameter, are in straight lengths. (c) Plates, sheets, and strips: Products of solid rectangular cross section, in coils or cut to length, whether or not corrugated or crimped. Plates are 0.25 inch or more in thickness and over 12 inches in width; sheets and strip are under 0.25 but not under 0.006 inch in thickness. (d) Wire: A product of solid round, rectangular, hexagonal, or octagonal cross section, in coils, whose diameter, width, or perpendicular distance between opposite faces is less than 0.375 inch. (e) Angles, shapes, and sections: Products which do not conform completely to the respective definitions set forth in this headnote for bars, plates, sheets, strips, rods, or wire and do not include any tubular products.				
			Subpart D statistical headnote:				
			1. For purposes of this subpart, the term "beryllium aluminum master alloy" refers to an alloy of aluminum which contains not less than 4 percent of beryllium.

Subpart C. - Gloves

Subpart C headnotes:

1. For the purposes of this subpart --
(a) the term "gloves" includes all gloves and mittens designed for human wear, except boxing gloves, golf gloves, baseball gloves, and other gloves specially designed for use in sports; and
(b) the term "glove linings" includes all linings for gloves, as defined in (a) supra.

2. In determining the component material of chief value in gloves --
(a) lining and applied cuffs shall be disregarded, and
(b) any leather component shall be disregarded unless the area of such leather is over 50 percent of the external surface area of the gloves exclusive of applied cuffs.

3. The length of gloves (items 705.67, 705.68 and 705.69) shall be the extreme length thereof when extended to their fullest dimension, including the unfolded length of cuffs or other appendages.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			PART 3. - MUSICAL INSTRUMENTS, PARTS, AND ACCESSORIES				
			Subpart A. - Musical Instruments				
			Subpart A headnotes:				
			1. This subpart does not cover -- (i) articles which are toys (see part 5 of this schedule); or (ii) articles which are antiques (see part 11 of this schedule).				
			2. For the purposes of this subpart -- (a) the term "brass wind instruments" refers to wind instruments of the "cupped-mouthpiece family" such as, but not limited to, trumpets, trombones, tubas, bass horns, sousaphones, bugles, French horns, cornets, flugelhorns, and saxhorns; (b) the term "wood-wind instruments" refers to wind instruments, usually sounded with reeds, and includes, but is not limited to, clarinets, oboes, bassoons, English horns, flutes, recorders, fifes, flageolets, piccolos, saxophones, and sarrusophones; and (c) the term "electronic musical instruments" embraces all musical instruments in which the sound is generated electrically, and conventional-type instruments not suitable for playing without electrical amplification, but the term does not include conventional-type instruments, fitted with electrical pick-up and amplifying devices, when the instrument is suitable for playing without such amplification.				
			3. The provisions of this subpart for string, wind, and percussion musical instruments include such instruments whether or not fitted with electrical pick-up and amplifying devices. Such devices, however, are separately classifiable from the musical instrument with which imported unless such devices are, or are designed and intended to be, fitted into or housed in the instrument itself.

			PART 5. - ARMS AND AMMUNITION; FISHING TACKLE; WHEEL GOODS; SPORTING GOODS, GAMES AND TOYS Subpart A. - Arms and Ammunition				
			Subpart A headnotes: 1. This subpart covers side arms, firearms, and other arms, whether designed for military, police, sporting, or other use; certain pistols, guns, and other devices which are not arms but which expend, or operate by means of, an explosive charge; bombs, grenades, torpedoes, mines, guided weapons and missiles, and similar munitions of war, and ammunition; and parts of the foregoing. This subpart does not cover -- (i) archery bows and arrows, and fencing foils (see subpart D of this part); (ii) tools operated by means of an explosive charge, cutlery, hand tools, and similar implements (see parts 3E and 4F of schedule 6); (iii) transportation equipment even if armed or otherwise designed for military use (see part 6 of schedule 6); or (iv) flares and other chemical signals (see part 9A of this schedule). 2. For the purposes of this subpart, the term "firearms" covers every weapon or other device designed to project a missile by the firing of an explosive charge (including captive-bolt pistols, harpoon guns, and similar devices even though the projectiles are not completely released), and also includes any such device in the form of an object such as a walking stick, cane, pencil, pocket knife, or cigarette case; but the term does not include line-throwing guns, Very light pistols or other devices designed to project signal flares, pistols or other devices designed to fire only blank cartridges or blank ammunition, or any other device similar to the foregoing which expends or operates by means of an explosive charge.

			PART 8. - COMBS; HAIR ORNAMENTS; BROOMS AND BRUSHES; PAINT ROLLERS; UMBRELLAS AND CANES Subpart A. - Combs, Hair Ornaments, Brooms and Brushes, Paint Rollers				
			Subpart A headnotes: 1. This subpart does not include -- (i) mechanical combs, brooms, or brushes (other than combs or brushes which are toilet articles), or combs, brooms, or brushes which are parts of articles (other than toilet articles); (ii) combs, brooms, or brushes imported with, and as part of, fitted luggage and handbags (see part 1D of schedule 7); (iii) pedicure or manicure sets (see part 3E of schedule 6); (iv) brushes imported with, and as part of, paint sets, kits, or color outfits (see part 9C of schedule 4); or (v) combs or hair ornaments provided for in part 6A of schedule 7. 2. For the purposes of this subpart, the term "combs" means toothed instruments having not over two rows of teeth, for adjusting, cleaning, or confining hair, or for personal adornment. 3. (a) If the President determines that the estimated annual domestic consumption of whiskbrooms of a kind described in items 750.26 to 750.28, inclusive, or of other brooms of a kind described in items 750.29 to 750.31, inclusive, has substantially changed since 1965 or since the date of the immediately preceding proclamation under this paragraph (if any), the quantity provided for in item 750.26 or 750.29, as the case may be, shall be modified by the percentage by which the President determines the estimated annual domestic consumption of the relevant brooms has changed in comparison with such estimated consumption in 1965 or at the time of such immediately preceding proclamation (if any). Such modified quantity shall be proclaimed by the President and shall, subject to the provisions of this paragraph, replace the quantity previously applicable under item 750.26 or 750.29. (b) If the President determines an allocation among supplying countries of the quantity provided for in item 750.26 or 750.29 to be in the national interest, he may proclaim such allocation.

Subpart B. - Umbrellas, Walking Sticks, Whips, Riding Crops, and Parts Thereof

Subpart B headnotes:

1. For the purposes of this subpart, the term "umbrellas" refers to canopies of cloth, paper, or other material supported on a radiating frame which is collapsible around a supporting central shaft, and, in addition to ordinary umbrellas for protection against rain, includes parasols, beach umbrellas, tent umbrellas, cane umbrellas, and decorative umbrellas of the type usually made of paper on a wood or bamboo frame, but does not include miniature umbrellas of the type used as party favors or as toys.

2. Wood sticks, in the rough, or cut into lengths suitable for umbrellas, walking sticks, canes, seat sticks, whips, or riding crops, are provided for in part 1A and part 2B of schedule 2.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

		Subpart C. - Articles Admitted Temporarily Free of Duty Under Bond			
		Subpart C headnotes:			
		1. (a) The articles described in the provisions of this subpart, when not imported for sale or for sale on approval, may be admitted into the United States without the payment of duty, under bond for their exportation within 1 year from the date of importation, which period, in the discretion of the Secretary of the Treasury, may be extended, upon application, for one or more further periods which, when added to the initial 1 year, shall not exceed a total of 3 years, except that (1) articles imported under item 864.75 shall be admitted under bond for their exportation within 6 months from the date of importation and such 6-months period shall not be extended, and (2) in the case of professional equipment and tools of trade admitted into the United States under item 864.50 which have been seized (other than by seizure made at the suit of private persons), the requirement of reexportation shall be suspended for the duration of the seizure. For purposes of this headnote, an aircraft engine or propeller, or any part or accessory of either, imported under item 864.05, which is removed physically from the United States as part of an aircraft departing from the United States in international traffic shall be treated as exported.			
		(b) For articles admitted into the United States under item 864.50, entry shall be made by the nonresident importing the articles or by an organization represented by the nonresident which is established under the laws of a foreign country or has its principal place of business in a foreign country.			
		2. Merchandise may be admitted into the United States under item 864.05 only on condition that --			
		(a) such merchandise will not be processed into an article manufactured or produced in the United States if such article is --			
		(i) alcohol, distilled spirits, wine, beer, or any dilution or mixture of any or all of the foregoing;			
		(ii) a perfume or other commodity containing ethyl alcohol (whether or not such alcohol is denatured), or			
		(iii) a product of wheat; and			
		(b) if any processing of such merchandise results in an article (other than an article described in (a) of this headnote) manufactured or produced in the United States --			
		(i) a complete accounting will be made to the Customs Service for all articles, wastes, and irrecoverable losses resulting from such processing, and			
		(ii) all articles and valuable wastes resulting from such processing will be exported or destroyed under customs supervision within the bonded period; except that in lieu of the exportation or destruction of valuable wastes, duties may be tendered on such wastes at rates of duties in effect for such wastes at the time of importation.			

Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty 1	Rates of Duty 2
		3. Upon satisfactory proof that any article admitted under item 864.30 has been destroyed because of its use for any purpose provided for therein, the obligation under the bond to export such article shall be treated as satisfied. 4. Collectors of customs may defer the exaction of a bond for not to exceed 90 days after the date of importation for vehicles and craft entered under item 864.35 to take part in races or other specific contests for other than money purses; but unless any such vehicle or craft is exported or the bond is given within the period of such deferment, such vehicle or craft shall be subject to forfeiture. 5. Articles may be admitted under item 864.75 only on condition that the Secretary of the Treasury shall have found that the foreign country from which the articles were imported allows, or will allow, substantially reciprocal privileges in respect of similar imports to such country from the United States; and if the Secretary finds that a foreign country has discontinued, or will discontinue, the allowance of such privileges, the privileges of item 864.75 shall not apply thereafter in respect of imports from such foreign country. Subpart C statistical headnote: 1. For any articles entered under item 864.05 to be processed into articles manufactured or produced in the United States, the statistical reporting number shall consist of the 7-digit number provided therefor in this subpart followed by the reporting number for the provision which would have applied if it were not classifiable in this subpart, and the unit of quantity to be reported is the unit shown for such article in such other provision.

		PART 7. - OTHER SPECIAL CLASSIFICATION PROVISIONS Part 7 headnotes: 1. No article shall be exempted from duty under item 870.30 unless a Federal agency or agencies designated by the President determines that such article is visual or auditory material of an educational, scientific, or cultural character within the meaning of the Agreement for Facilitating the International Circulation of Visual and Auditory Materials of an Educational, Scientific, and Cultural Character. Whenever the President determines that there is or may be profitmaking exhibition or use of articles described in item 870.30 which interferes significantly (or threatens to interfere significantly) with domestic production of similar articles, he may prescribe regulations imposing restrictions on the entry of such foreign articles to insure that they will be exhibited or used only for nonprofitmaking purposes. 2. The provisions of items 870.40 and 870.45 do not apply to -- (i) articles of textile materials; articles provided for in schedule 5; articles of leather or of fur on the skin; (ii) articles provided for in schedule 6, part 2, part 3 (subparts A through F except items 652.13 through 652.38, inclusive, 652.84, 652.88, 653.00, and 653.01), part 5 (except item 688.45) or part 6, but interchangeable agricultural and horticultural implements are classifiable in item 870.40 even if mounted at the time of importation on a tractor provided for in part 6B of schedule 6; (iii) ball or roller bearings, including such bearings with integral shafts, and parts thereof, provided for in items 680.33 through 680.39, inclusive; or (iv) articles provided for in item 666.00.

		PART 1. - TEMPORARY LEGISLATION Subpart A. - Temporary Provisions for Additional Duties Subpart A headnotes: 1. The duties provided for in this subpart are cumulative duties which apply in addition to the duties, if any, otherwise imposed on the articles involved. The duties provided for in this subpart apply only with respect to articles entered during the period specified in the last column. 2. Sections 336 and 350 of this Act (the so-called flexible tariff and trade-agreements provisions, respectively) shall not apply with respect to the duty provided for in item 901.00. 3. With respect to any articles upon which the duty imposed under item 901.00 has been paid and which, on the date of termination of the tax provided for in section 4501, I.R.C., are held by the importer and intended for sale or other disposition, there shall be refunded (without interest) to such importer an amount equal to the duty paid on such articles under item 901.00, if claim for such refund is filed with the Secretary or his delegate within 90 days after the date of termination of the tax.

Subpart B. - Temporary Provisions Amending the Tariff Schedules

Subpart B headnotes:

1. Any article described in the provisions of this subpart, if entered during the period specified in the last column, is subject to duty at the rate set forth herein in lieu of the rate provided therefor in schedules 1 to 8, inclusive.

2. Articles exempted under item 915.25 from the payment of duty shall be exempt also from the payment of any internal revenue tax imposed upon or by reason of importation.

1/ See subpart A statistical headnote 1.
2/ The tax rate is 0.53 cent per pound of total sugars.
3/ The tax terminates June 30, 1975, or June 30 of the first year commencing after the effective date of any law limiting payments under title III of the Sugar Act of 1948, as amended, whichever is the earlier date.
4/ See Appendix statistical headnote 2 and subpart A headnote 1.

		3. (a) Items 911.10, 911.11, 911.13, 911.14, 911.15, and 911.16 shall not apply when the market price of copper is under 51 cents per pound. (b) For purposes of subparagraph (a), the market price of copper has the meaning assigned to it by headnote 5(b) of the headnotes of schedule 6, part 2, subpart C. (c) For purposes of subparagraph (a), the market price of copper shall be considered to be under 51 cents per pound only on and after the 20th day after the date of a report by the United States International Trade Commission to the Secretary of the Treasury that it has determined that the market price has been under 51 cents per pound for one calendar month. After any such report, the market price shall be considered as not being under 51 cents per pound only on and after the 20th day after the date of a report by the Commission to the Secretary that it has determined that the market price has been 51 cents or more per pound for one calendar month. (d) Determinations by the Commission under this headnote shall be made in the manner prescribed by headnote 5(c) of schedule 6, part 2, subpart C. 4. For so long as items 905.10 and 905.11 are in effect, headnotes 3, 4, and 5 of subpart C of part 1 of schedule 3 shall be suspended (except insofar as they relate to hair of the camel) and in lieu thereof-- (a) for purposes of item 307.40-- (i) the classification provisions for wool not finer than 46s shall apply to any package of wool containing not over 10 percent by weight of wool finer than 46s but not containing wool finer than 48s; and (ii) the citation for imports classifiable under item 307.40 shall be such item number followed by the item number for the part of the contents of the package which determines the rate of duty; and (b) for purposes of item 905.11, a tolerance of not more than 10 percent of wools not finer than 48s may be allowed in each bale or package of wools imported as not finer than 46s. Subpart B statistical headnote: 1. For the purposes of statistical reporting of any item for which a unit of quantity (including X) appears in this subpart no additional reporting number (from schedules 1-7) is to be furnished.

Item	Stat. Suf-fix	Articles	Units of Quantity	
		5. Quantitative limitation on certain color television receivers and certain subassemblies thereof.--The provisions of this headnote apply to items 923.66 through 923.77, inclusive, of this subpart. The quantitative import limitations imposed are in addition to the duties provided for the restrained articles in schedule 6, part 5. The import restrictions provided for in this subpart do not apply to a single color television receiver if imported for the personal use of the importer. (a) Definitions.--For the purposes of this subpart-- (i) the term "color television receivers" refers to-- (1) fully assembled color television receivers, whether or not packaged or tested, for distribution to the ultimate purchaser, (2) kits containing all the parts necessary for assembly of a complete color television receiver, and (3) assemblies other than the above, which consist at least of, or are covered in the same entry with, a color picture tube and a printed circuit board or ceramic substrate, with components assembled thereon, designed to perform the intermediate frequency amplification functions or the picture and audio demodulation functions of a color television receiver; (ii) each subassembly for a color television receiver that contains as a component, or is covered in the same entry with, one or more of the following television components, viz., tuner, channel selector assembly, antenna, deflection yoke, degaussing coil, picture tube mounting bracket, grounding assembly, parts necessary for fixing the picture tube or tuner in place, consumer operated controls, or speaker, shall be classified in items 923.69 or 923.77; (iii) for the purposes of items 923.69 and 923.77, each subassembly shall be counted as a single unit, except that two or more different printed circuit boards or ceramic substrates covered by the same entry and designed for assembly into the same television models shall be counted as one unit; (iv) the term "exported" refers to the actual date the merchandise finally leaves the country of exportation for the United States as provided for in section 152.1(c) of the U.S. Customs Regulations (19 CFR 152.1(c)). (b) Export visa.--None of the color television receivers provided for herein exported on or after July 1, 1980, may be entered unless such color television receivers are accompanied by an appropriate export visa.		

Item	Stat. Suffix	Articles	Units of Quantity	
		(c) Color television receivers exported and entered in different restraint periods.--Color television receivers provided for in items 923.66 through 923.77, inclusive, which are exported during one restraint period, but are entered more than 90 days following the beginning of the subsequent restraint period, shall be counted against the restraint level for that subsequent restraint period. Color television receivers provided for in items 923.66 through 923.77, inclusive, which are exported during one restraint period in excess of the restraint level for such period, may be entered after the beginning of that subsequent restraint period and shall be counted against that restraint level for that subsequent restraint period. (d) Carryover.--If the restraint level for color television receivers has not been filled for the restraint periods ending June 30, 1980 and June 30, 1981, for such products from Taiwan or the restraint periods ending June 30, 1980, December 31, 1980, June 30, 1981, or December 31, 1981, for such products from the Republic of Korea, upon appropriate request of the Coordinating Council for North American Affairs (CCNAA) or the Government of the Republic of Korea, the shortfall may be entered during the following restraint period provided that the amount of shortfall so entered does not exceed 11 percent of the restraint level for the restraint period during which the shortfall occurred. (e) Exceeding restraint levels.--Upon appropriate request of the CCNAA or of the Government of the Republic of Korea, the restraint level for item 923.66 or 923.73 may be exceeded by not more than 10 percent and the restraint level for item 923.71 may be exceeded by not more than 38,500 receivers. If the restraint level is exceeded, the United States Trade Representative shall make a downward adjustment of the restraint level for the subsequent restraint period (item 923.68, 923.73 or 923.75), in the absolute amount the restraint level for item 923.66, 923.71, or 923.73, respectively, was exceeded. 6. Quantitative limitation on color television receivers and certain subassemblies thereof.--The provisions of this headnote apply to items 923.74 through 923.83, inclusive, of this subpart. The quantitative import limitations imposed are in addition to the duties provided for the restrained articles in schedule 6, part 5. The import restrictions provided for in this subpart do not apply to a single color television receiver or subassembly thereof, if imported for the personal use of the importer. (a) Definition.--For the purposes of this subpart-- (i) each subassembly that contains as a component, or is covered in the same entry with, one or more of the following television components, viz., tuner, channel selector assembly, antenna, deflection yoke, degaussing coil, picture tube mounting bracket, grounding assembly, parts necessary for fixing the picture tube or tuner in place, consumer operated controls or speaker, shall be classified in items 923.78 through 923.83, inclusive; (ii) for the purposes of items 923.78 through 923.83, inclusive, each subassembly shall be counted as a single unit, except that two or more different printed circuit boards or ceramic substrates covered by the same entry and designed for assembly into the same television models shall be counted as one unit; (iii) the term "restraint period" refers to the time periods set forth in items 923.74 through 923.83, inclusive; and (iv) the term "exported" refers to the actual date the merchandise finally leaves the country of exportation for the United States as provided for in section 152.1(c) of the U.S. Customs regulations (19 CFR 152.1 (c)).

to

TARIFF SCHEDULES OF THE UNITED STATES ANNOTATED (1981)

The pages in this supplement are to be substituted for the corresponding pages in the Tariff Schedules of the United States Annotated (1981). The principal changes in this supplement reflect--

(1) Presidential Proclamation 4835 (temporary modification of quantitative limitations on the importation of certain peanuts, effective April 14, 1981);
(2) Presidential Proclamation 4768 (implementation of certain footwear provisions, effective with respect to articles that are exported on and after July 1, 1981, and entered, or withdrawn from warehouse for consumption, on and after July 1, 1981);
(3) Executive Order 12311 (amending the Generalized System of Preferences (GSP)) as follows:
    (a) amendments made to the list of articles that are eligible for benefits of GSP when imported from any designated beneficiary developing country and amendment to schedule 3, headnote 10, effective with respect to articles both imported on and after January 1, 1976, and entered, or withdrawn from warehouse for consumption, on and after March 31, 1981, and
    (b) subdivision of existing items in the Tariff Schedules for wrapper tobacco and cigars for purpose of providing GSP treatment, effective with respect to articles both imported on and after January 1, 1976, and entered, or withdrawn from warehouse for consumption, on and after July 4, 1981;
(4) Office of United States Trade Representative notice of the importation of duty concession on parts of footwear effective July 1, 1981;
(5) Expiration of temporary quantitative limitations on--
    (a) footwear (item 923.94),
    (b) clothespins (items 925.11, 925.12, and 925.13):
(6) Expiration of temporary duty suspensions on--
    (a) mixtures of mashed or macerated hot red peppers and salt (item 903.60),
    (b) wood excelsior, including excelsior pad and wrappings (item 904.00),
    (c) 2-Methyl-4-chlorophenol (item 907.11),
    (d) natural graphite (item 909.01), and
    (e) copper waste and scrap, articles of copper, and other metal waste and scrap and articles used in remanufacturing (items 911.10, 911.11, and 911.12);
(7) Expiration of temporary duty reduction on--
    (a) ceramic insulators having an alumina oxide content of not less than 96%, if used in spark plugs (item 909.20):
(8) Changes in statistical annotations (formulated pursuant to section 484(e), Tariff Act of 1930, as amended) effective July 1, 1981, involving--
    (a) automobiles,
    (b) Provoloni and Provolette cheeses, Swiss or Emmenthaler cheese, Gruyere-process cheese and other cheese,
    (c) unit-of-quantity change to leather wearing apparel, and
    (d) parts of electronic tubes.

The provisions in which changes have been made are identified with the special symbol ❷.

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general headnote 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the schedules, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 and the column designated LDDC of the schedules apply to articles imported into the customs territory of the United States as hereinafter provided in this headnote:

(a) Products of Insular Possessions.

(i) Except as provided in headnote 6 of schedule 7, part 2, subpart E, and except as provided in headnote 3 of schedule 7, part 7, subpart A, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, other than Cuba or the Philippine Republic, and entered free of duty; except that no article containing material to which (B) of this subdivision applies shall be exempt from duty under subdivision (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under section 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Cuba. Products of Cuba imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. Preferential rates of duty for such products apply only as shown in the said column 1. 1/

1/ By virtue of section 401 of the Tariff Classification Act of 1962, the application to products of Cuba of either a preferential or other reduced rate of duty in column 1 is suspended. See general headnote 3(f), infra.

(c) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP).

(i) The following countries, territories, and associations of countries eligible for treatment as one country (pursuant to section 502(a)(3) of the Trade Act of 1974 (19 U.S.C. 2462(a)(3)) are designated beneficiary developing countries for the purposes of the Generalized System of Preferences, provided for in Title V of the Trade Act of 1974, as amended (19 U.S.C. 2461 et seq.):

(ii) Articles for which the designations "A" or "A*" appear in the column entitled "GSP" of the schedules are those designated by the President to be eligible articles for purposes of the GSP pursuant to Section 503 of the Trade Act of 1974. The designation "A" signifies that all beneficiary developing countries are eligible for preferential treatment with respect to all articles provided for in the designated TSUS item, while the designation "A*" indicates that certain beneficiary developing countries, specifically enumerated in subdivision (c)(iii) of this headnote, are not eligible for such preferential treatment with regard to any article provided for in the designated TSUS item. Whenever an eligible article is imported into the customs territory of the United States directly from a country or territory listed in subdivision (c)(i) of this headnote, it shall receive duty-free treatment, unless excluded from such treatment by subdivision (c)(iii) of this headnote, provided that, in accordance with regulations promulgated by the Secretary of the Treasury the sum of (A) the cost or value of the materials produced in the beneficiary developing country or any 2 or more countries which are members of the same association of countries which is treated as one country under section 502(a)(3) of the Trade Act of 1974, plus (B) the direct costs of processing operations performed in such beneficiary developing country or such member countries is not less than 35 percent of the appraised value of such article at the time of its entry into the customs territory of the United States.

(iii) The following designated eligible articles provided for in TSUS item numbers preceded by the designation "A*", if imported from a beneficiary developing country set opposite the TSUS item numbers listed below, are not entitled to the duty-free treatment provided for in subdivision (c)(ii) of this headnote:

(d) Products of Least Developed Developing Countries.

(i) The following countries are designated least developed developing countries (LDDC's) and, subject to restrictions of subparagraph (ii), products of such countries imported into the customs territory of the United States, whether imported directly or indirectly, and which are entered under TSUS item numbers for which rates of duty appear in the column entitled "LDDC" of the schedules, are eligible for full tariff reductions without staging in accordance with Section 503(a)(2)(A) of the Trade Agreements Act of 1979 (93 Stat. 251):

Bangladesh	Malawi
Benin	Maldives
Bhutan	Mali
Botswana	Nepal
Burundi	Niger
Cape Verde	Rwanda
Central African Republic	Somalia
Chad	Sudan
Comoros	Tanzania
Gambia	Uganda
Guinea	Upper Volta
Haiti	Western Samoa
Lesotho	Yemen (Sana)

(ii) Imported articles, the products of least developed developing countries as designated in paragraph (i) above, provided for under the TSUS items for which rates of duty appear in the column entitled "LDDC" of the schedules, and which are not entitled to duty-free treatment under subdivision (c) of this headnote, are subject to those rates of duty rather than the rates of duty provided for in column numbered 1, except that articles subject to temporary modifications under any provisions of the Appendix to these schedules shall be subject to the rates of duty set forth therein. If no rate of duty is provided in the "LDDC" column for a particular item, the rate of duty provided in column numbered 1 shall apply.

(e) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. The rates of duty for a Canadian article, as defined in subdivision (e)(ii) of this headnote, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the schedules, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(f) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this headnote, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 2/

1/ Pursuant to section 4(b)(1) of the Taiwan Relations Act (22 U.S.C. 3303(b)(1)) the reference to countries includes Taiwan.

2/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended general headnote 3(f) by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

Albania
Bulgaria
Cuba 1/
Czechoslovakia
Estonia
German Democratic Republic and East Berlin
Indochina (any part of Cambodia, Laos, or Vietnam which may be under Communist domination or control)
Korea (any part of which may be under Communist domination or control)
Kurile Islands
Latvia
Lithuania
Outer Mongolia
Southern Sakhalin
Tanna Tuva
Union of Soviet Socialist Republics and the area in East Prussia under the provisional administration of the Union of Soviet Socialist Republics.

(g) Products of All Other Countries. Products of all countries not previously mentioned in this headnote imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the Tariff Schedules --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Intangibles. For the purposes of headnote 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) electricity,

(d) securities and similar evidences of value, and

(e) vessels which are not "yachts or pleasure boats" within the purview of subpart D, part 6, of schedule 6,

are not articles subject to the provisions of these schedules.

1/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedules, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are subject to tariff treatment as follows:

(i) The usual or ordinary types of shipping or transportation containers or holders, if not designed for, or capable of, reuse, and containers of usual types ordinarily sold at retail with their contents, are not subject to treatment as imported articles. Their cost, however, is, under section 402 of the tariff act, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

(ii) The usual or ordinary types of shipping or transportation containers or holders, if designed for, or capable of, reuse, are subject to treatment as imported articles separate and distinct from their contents. Such holders or containers are not part of the dutiable value of their contents and are separately subject to duty upon each and every importation into the customs territory of the United States unless within the scope of a provision specifically exempting them from duty.

(iii) In the absence of context which requires otherwise, all other containers or holders are subject to the same treatment as specified in (ii) above for usual or ordinary types of shipping or transportation containers or holders designed for, or capable of, reuse.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subdivision (b) hereof.

(b) Every segregation of articles made pursuant to this headnote shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in these schedules.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the tariff act, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the tariff act;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the tariff act; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedules of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical headnotes and annexes.

(b) The legal text of the Tariff Schedules of the United States consists of the remaining text as more specifically identified in headnote 10(a) of the general headnotes and rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) General Rule: Except as provided in paragraph (b) of this headnote, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 7-digit number formed by combining the 5-digit item number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 100.95 is "100.9520".

(b) Wherever in the tariff schedules an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 7-digit number for the basic provision followed by the item number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "165.6500-165.40".

4. Abbreviations. (a) The following symbols and abbreviations are used with the meanings respectively indicated below:

s. ton	-	short ton
C.	-	one hundred
Cwt.	-	100 lbs.
mg.	-	milligram
M.	-	1,000
bd. ft.	-	board feet
M. bd. ft.	-	1,000 board feet
mc.	-	millicurie
cord	-	128 cubic feet
square	-	amount to cover 100 square feet of surface
❷		
oz.	-	ounces avoirdupois
fl. oz.	-	fluid ounce
oz. troy	-	troy ounce
pf. gal.	-	proof gallon
sbe.	-	standard brick equivalent

(b) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(c) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

			PART 13. - TOBACCO AND TOBACCO PRODUCTS				
			Part 13 headnotes:				
			1. The term "wrapper tobacco", as used in this part, means that quality of leaf tobacco which has the requisite color, texture, and burn, and is of sufficient size for cigar wrappers, and the term "filler tobacco" means all other leaf tobacco.				
			2. The percentage of wrapper or filler tobacco in a bale, box, package, or other shipping unit is the ratio of the number of leaves of such type of tobacco in such unit to the total number of leaves therein. In determining such percentage for classification purposes, the appraiser shall examine at least ten hands, and shall count the leaves in at least two hands, from each shipping unit designated for examination.				
			3. The dutiable weight of cigars and cigarettes includes the weight of all materials which are integral parts thereof.				
			4. Provisions for the free entry of certain samples of tobacco products are covered by part 5 of schedule 8.

(2nd Supp. 7/14/81)

Schedule 3 headnotes (con.):

3. For the purposes of the tariff schedules --

(a) the term "ornamented", as used with reference to textile fabrics and other articles of textile materials, means fabrics and other articles of textile materials which are ornamented with --

(i) fibers, filaments (including tinsel wire and lame), yarns, or cordage, any of the foregoing introduced as needlework or otherwise, including --

(A) embroidery, and pile or tufting, whether wholly cut, partly cut, or not cut, and

(B) other types of ornamentation,

but not including functional stitching or one row of straight hemstitching adjoining a hem;

(ii) burnt-out lace;

(iii) lace, netting, braid, fringe, edging, tucking, or trimming, or textile fabric;

(iv) applique and replique work, beads, bugles, spangles, bullions, or ornaments; or

(v) any combination of the foregoing types of methods of ornamentation;

(b) ornamentation of the types or methods covered hereby consists of ornamenting work done to a pre-existing textile fabric, whether the ornamentation was applied to such fabric --

(i) when it was in the piece,

(ii) after it has been made or cut to a size for particular furnishing, wearing apparel, or other article, or

(iii) after it had actually been incorporated into another article,

and if such textile fabric remains visible, at least in significant part, after ornamentation: Provided, That lace, netting, braid, fringe, edging, tucking, trimming or ornament shall not be required to have had a separate existence from the fabric or other article on which it appears in order to constitute ornamentation for the purposes of this headnote; and

(c) applique work, beads, bugles, spangles, bullions, and other forms of nontextile ornamentation applied to a textile fabric or other article of textile materials shall be disregarded in determining the component material of chief value of such fabric or other article.

4. For the purposes of the tariff schedules --

(a) Except as specifically provided otherwise, in determining the yarn count of fabrics, the warp and filling yarns, whether plied or not, shall be counted as they occur in the fabric.

(b) In determining the component fibers of chief value in coated or filled, or laminated, fabrics and articles wholly or in part thereof, the coating or filling, or the nontextile laminating substances, shall be disregarded in the absence of context to the contrary.

5. For the purposes of parts 5, 6, and 7 of this schedule and parts 1 (except subpart A), 4, and 12 of schedule 7, in determining the classification of any article which is wholly or in part of a fabric coated or filled, or laminated, with nontransparent rubber or plastics (which fabric is provided for in part 4C of this schedule), the fabric shall be regarded not as a textile material but as being wholly of rubber or plastics to the extent that (as used in the article) the nontransparent rubber or plastics forms either the outer surface of such article or the only exposed surface of such fabric.

6. (a) If the rate of duty in column numbered 1 applicable to wool provided for in item 306.31 is at any time increased or decreased, the specific part of the compound rate of duty in column 1 (hereinafter referred to as the compensatory part thereof) applicable to articles provided for in each item listed in paragraph (e) of this note, and so much of each specific rate in column 1 applicable to articles provided for in each item listed in paragraph (f) of this note as is therein designated as the compensatory part thereof, shall, subject to the provisions of paragraphs (b) through (d) of this note, be increased or decreased in the same proportion as such rate applicable to wool provided for in item 306.31 is increased or decreased.

(b) The maximum and minimum levels to which the compensatory part of a rate may be increased or decreased pursuant to paragraph (a) of this note shall be 50 percent above such compensatory part "existing on July 1, 1934", or 50 percent below such part "existing on July 1, 1962", respectively, as such terms are applied for purposes of section 201(b) of the Trade Expansion Act of 1962 (19 U.S.C. (1964) 1821).

(c) Any specific part of a compound rate or any specific rate modified pursuant to paragraph (a) of this note may be rounded, by not exceeding 0.5 cent, to a whole number of cents.

(d) A rate increase or decrease pursuant to this note shall be proclaimed by the President effective on the day on which the modified rate becomes applicable to the wool provided for in item 306.31 or, with or without staging, as soon thereafter as the President determines to be practicable under United States law, but in no event later than 4 years after such modified rate becomes applicable, and shall remain in effect thereafter so long as such modified rate is applicable.

(e) The items containing the compound rates referred to in paragraph (a) of this note are:

307.50	355.16	372.25	382.48
307.52	357.10	372.30	382.54

347.40	367.20	380.63	704.65
355.15	367.25	380.66	704.70

(f) The items containing the specific rates referred to in paragraph (a) of this note and the compensatory parts of such rates are:

Item	Compensatory part of rate
336.35	30¢ per lb.
336.55	37.5¢ per lb.

Schedule 3 headnotes (con.):

7. With respect to fabrics provided for in part 3 (other than fabrics valued over $2 per pound provided for in item 337.50) and in part 4 of this schedule, provisions for fabrics in chief value of wool shall also apply to fabrics in chief weight of wool (whether or not in chief value of wool). For the purposes of the preceding sentence, a fabric is in chief weight of wool if the weight of the wool component is greater than the weight of each other textile component (i.e., cotton, vegetable fibers except cotton, silk, man-made fibers, or other textile materials) of the fabric.

8. In the case of each item in this schedule and schedule 7 on which the United States has agreed to reduce the rate of duty, pursuant to a trade agreement entered into under section 101 of the Trade Act of 1974 before January 3, 1980, on any cotton, wool, or manmade fiber textile product as defined in the Arrangement Regarding International Trade in Textiles, as extended on December 14, 1977 (the Arrangement), if the Arrangement, or a substitute arrangement, including unilateral import restrictions or bilateral agreements, determined by the President to be suitable, ceases to be in effect with respect to the United States before the total reduction in the rate of duty for such item under sections 101 and 109 of the Trade Act of 1974 has become effective, then the President shall proclaim the rate of duty in rate column numbered 1 for such item existing on January 1, 1975, to be the rate of duty effective, with respect to articles entered, or withdrawn from warehouse, for consumption, within 30 days after such cessation and until the President proclaims the continuation of such reduction under the next sentence. If subsequently the Arrangement, or a substitute arrangement, including unilateral import restrictions or bilateral agreements, determined by the President to be suitable, is in effect with respect to the United States, then the President shall proclaim the continuation of the reduction of such rate of duty pursuant to such trade agreement. For purposes of section 109(c)(2) of the Trade Act of 1974, any time when a rate of duty existing on January 1, 1975, is in effect under this headnote shall be time when part of such reduction is not in effect by reason of legislation of the United States or action thereunder.

9. For the purposes of this schedule and schedule 7, the term "subject to textile agreements" refers to--

(a) articles in which either the cotton content or the man-made fiber content equals or exceeds 50 percent by weight of all component fibers thereof;

(b) articles in which the wool content exceeds 17 percent by weight of all component fibers thereof;

(c) articles containing blends of cotton, wool, or man-made fibers, which fibers, in the aggregate, amount to 50 percent or more by weight of all component fibers thereof.

10. For the purposes of this schedule, the term "Certified hand-loomed and folklore products" refers to hand-loomed fabrics of the cottage industry, hand-made cottage industry products made of such hand-loomed fabrics, and traditional folklore handicraft textile products, provided such fabrics and products have been certified, in accordance with instructions issued by the Commissioner of Customs, by an official of a government agency of the country where the fabrics or products were produced, to have been so made.

Schedule 3 statistical headnotes:

1. The statistical provisions for textiles include, in addition to the regular statistical annotations, certain annotations essential for the administration of the Arrangement Regarding International Trade in Textiles by the Committee for the Implementation of Textile Agreements.

(a) In order to monitor imports subject to restraints under this arrangement, it is necessary that certain articles containing cotton, wool, or man-made fibers, or combinations thereof, be specifically identified. For example, any article containing 50 percent or more by weight of cotton may be designated as "Subject to cotton restraints". Similarly, articles containing 50 percent or more by weight of man-made fibers may be designated as "Subject to man-made fiber restraints". In addition, certain articles containing over 17 percent by weight of wool are "Subject to wool restraints". Articles containing blends of cotton, wool, or man-made fibers which, in the aggregate, amount to 50 percent or more by weight are also subject to these restraints. Definitions of the foregoing provisions are given in statistical headnote 3 below. (It should not be assumed that all imports required to be reported under any such statistical annotations are actually being controlled at any particular time, but restraints may be applied to articles imported from certain countries, depending on unilateral actions or bilateral agreements developed under the Arrangement.)

(b) Restraints under the Arrangement may not apply to developing-country exports of hand-loomed fabrics of the cottage industry, to handmade products of the cottage industry made of such hand-loomed fabrics, or to traditional folklore handicraft textile products, provided that the foregoing types of products are properly certified under arrangements established between the importing and exporting participating countries. The importer is required to identify such certified products on the entry summary or withdrawal forms by placing the symbol "P" as a prefix to the appropriate 7-digit schedule 3 or schedule 7 item number.

2. Certain articles wholly or in chief value of cotton, wool, or man-made fibers and certain woven fabrics in chief weight of wool which may be restrained under the provisions of this arrangement are adequately identified for monitoring purposes in this schedule and in schedule 7 and, therefore, are not annotated as "Subject to (cotton, man-made fiber, or wool) restraints".

3. Where the specific restraint references appear in this schedule and in schedule 7, the following meanings are hereby assigned to them:

(a) The term "Subject to cotton restraints" refers to--

(i) articles in which the cotton component equals or exceeds 50 percent by weight of all component fibers thereof; or

(ii) articles in which the cotton with wool and/or man-made fibers in the aggregate equal or exceed 50 percent by weight of the component fibers thereof and the cotton component equals or exceeds the weight of each of the total wool and/or total man-made fiber components.

(b) The term "Subject to wool restraints" refers to articles in which the wool content exceeds 17 percent by weight of all component fibers and which are not provided for in (a) above.

(c) The term "Subject to man-made fiber restraints" refers to articles not meeting the requirements of (a) or (b) above, but qualifying as--

(i) articles in which the man-made fiber components equal or exceed 50 percent by weight of all component fibers thereof; or

(ii) articles in which the man-made fibers in combination with cotton and/or wool in the aggregate equal or exceed 50 percent by weight of the component fibers thereof and the man-made fiber component exceeds the weight of the total wool and/or total cotton component.

Schedule 3 statistical headnotes (con.):

4. The unit of measure to be used by Customs field offices when reporting imports of textiles to Customs Headquarters Quota Section shall be the first unit of quantity unless the second unit of quantity (if there is one) is underlined, in which case the second unit of quantity shall be reported (except item 363.7000 for which the unit of measure shall be "sq. yd.").

5. As a convenient cross-reference, each of the cotton, wool, and man-made fiber categories (or groupings) used by the United States in monitoring import shipments of these textile products and to administer the United States textile trade agreements programs are listed in this schedule and in schedule 7 following the appropriate 7-digit description. Also, for those desiring a cross-reference of applicable 7-digit provisions for each of the category numbers, the following table may be used--

Schedule 4 headnotes:

1. This schedule does not include --
(i) any of the mineral products provided for in schedule 5;
(ii) metal-bearing ores and other metal-bearing materials, provided for in part 1 of schedule 6; or
(iii) metals provided for in part 2 of schedule 6.

2. (a) The term "compounds", as used in this schedule, means substances occurring naturally or produced artificially by the reaction of two or more ingredients, each compound --
(i) consisting of two or more elements,
(ii) having its own characteristic properties different from those of its elements and from those of other compounds, and
(iii) always consisting of the same elements united in the same proportions by weight with the same internal arrangement.

The presence of impurities which occur naturally or as an incident to production does not in itself affect the classification of a product as a compound.

(b) The term "compounds", as used in this schedule, includes a solution of a single compound in water, and, in determining the amount of duty on any such compound subject to duty in this schedule at a specific rate, an allowance in weight or volume, as the case may be, shall be made for the water in excess of any water of crystallization which may have been in the compound.

3. (a) The term "mixtures", as used in this schedule, means substances consisting of two or more ingredients (i.e., elements or compounds), whether occurring as such in nature, or whether artificially produced (i.e., brought about by mechanical, physical, or chemical means), which do not bear a fixed ratio to one another and which, however thoroughly commingled, retain their individual chemical properties and are not chemically united. The fact that the ingredients of a product are incapable of separation or have been commingled in definite proportions does not in itself affect the classification of such product as a mixture.

(b) The term "mixtures", as used in this schedule, includes solutions, except solutions defined as compounds in headnote 2(b) of this schedule.

			Subpart B. - Industrial Organic Chemicals 1/				
			Subpart B headnotes: 1. The provisions of items 402.00 to 406.63, inclusive, in this subpart shall apply not only to the products described therein when obtained, derived, or manufactured in whole or in part from products described in subpart A of this part, but shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in said subpart A. 2. For the purpose of classification of merchandise provided for under items 402.36 to 406.63, inclusive, the following provisions shall govern: (a) The term "derivatives" refers to only those derivatives which may be obtained by one or more of the following processes: Halogenation, nitration, nitrosation, or sulfonation, and is to be understood to include sulfonyl halides. (b) A compound with functional groups described in two or more items under items 402.36 to 406.63, inclusive, is to be classified in the latest applicable item. For example, 4-acetamido-2-aminophenol, which contains three functional groups, will be classified in 405.12 (Amides), rather than in 404.92 to 405.09, inclusive (Aminophenols), or in 404.84 to 404.90, inclusive (Amines), or in 403.51 (Phenols). When applicable, classification should be made in accordance with the following principles: (i) Salts of organic acids (including phenols) with inorganic bases and salts of organic bases with inorganic acids are to be classified under the same superior heading as the organic acid or base; salts of organic acids with organic bases are to be classified either under the superior heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free base, whichever is listed later. (ii) Esters of organic acids are to be classified either under the superior heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free alcohol or phenol, whichever is listed later. (iii) The above provisions apply also in cases where the component having the functional groups described under the later superior heading is not of benzenoid origin. For example, benzyl acetate is classified under carboxylic acids (404.24 to 404.47, inclusive) rather than under alcohols (403.45).				

1/ Articles exported to the United States prior to July 1, 1980, must be appraised under the valuation standards provided for in sections 402 and 402a of the Tariff Act of 1930 in effect on June 30, 1980, and are subject to classification under the items of the Tariff Schedules in effect on that date.

Subpart C. - Finished Organic Chemical Products 1/

Subpart C headnotes:

1. The provisions of this subpart providing for products obtained, derived, or manufactured in whole or in part from products described in subpart A or B of this part shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in the said subpart A or B.

2. For the purposes of the Tariff Schedules, the term "pesticides" means products, such as insecticides, rodenticides, fungicides, herbicides, fumigants, and seed disinfectants, chiefly used to destroy undesired animal or plant life.

3. The term "plastics materials" in items 408.44 to 409.18, inclusive, embraces products formed by the condensation, polymerization, or copolymerization of organic chemicals and to which plasticizers, fillers, colors, or extenders may have been added.

1/ Articles exported to the United States prior to July 1, 1980, must be appraised under the valuation standards provided for in sections 402 and 402a of the Tariff Act of 1930 in effect on June 30, 1980, and are subject to classification under the items of the Tariff Schedules in effect on that date.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			The term includes, but is not limited to, phenolic and other tar-acid resins, styrene resins, alkyd and polyester resins based on phthalic anhydride, coumarone-indene resins, urethane, epoxy, toluene sulfonamide, maleic, fumaric, aniline, and polyamide resins, and other synthetic resins. The plastics materials may be in solid, semi-solid, or liquid condition, such as flakes, powders, pellets, granules, solutions, emulsions, and other basic forms not further processed. 4. For the purpose of the classification of merchandise provided for under items 408.44 to 409.18, inclusive, the following provisions shall apply: (a) The term "thermoplastic resins" means those materials in unfinished forms which in their final state as finished articles are capable of being repeatedly softened by increase of temperature and hardened by decrease of temperature. (b) The term "thermosetting resins" (or thermosets) means those materials in unfinished forms which in their final state as finished articles are substantially infusible. Thermosetting resins are often liquids at some stage in their manufacture or processing and are cured by heat, catalysis, or other chemical means. After being fully cured, thermosets cannot be resoftened by heat. (c) Copolymers and terpolymers not specially provided for shall be classified as if they consisted entirely of that monomer which is present in the largest amount by weight on a resin content basis (i.e., excluding the weight of plasticizers, liquid diluents, fillers, or other additives). Any polymer consisting of two or more monomers which are present in equal amounts shall be classified as if it consisted entirely of that monomer whose polymer is listed first under the thermoplastic or thermosetting resins, as appropriate. 5. The term "paints and enamel paints" in this subpart covers dispersions of pigments or pigment-like materials with a liquid (vehicle) which are suitable for application to surfaces as a thin layer, and which dry (harden) to an opaque, solid film. The vehicle of paints consists of drying oils or resins which bind the pigment particles together in the film; the vehicle of enamel paints is principally varnish. Paints and enamel paints may also contain thinners, driers, plasticizers, or other agents. 6. The term "stains" in this subpart covers liquids containing transparent or semi-transparent pigments, dyes, or chemicals, chiefly used to deepen or otherwise alter the color of wood, but which will not obscure its grain, texture, or markings. 7. For the purposes of this subpart -- (a) The term "surface-active agents" means synthetic organic compounds, or mixtures thereof, which function as surface tension modifiers and are chiefly used for any one or combination of the following purposes: as detergents, wetting agents, emulsifiers, dispersants, or foaming agents.

			PART 3. - DRUGS AND RELATED PRODUCTS D				
			Part 3 headnotes:				
			1. Any product described in this part which is a mixture containing as an ingredient any product described in part 1 of this schedule remains classifiable in part 3 unless the part 1 ingredient, as used in the mixture, imparts therapeutic or medicinal properties thereto. Notwithstanding the provisions of part 1 of this schedule, niacin, niacinamide, meso-inositol hexanicotinate, and pyridoxine (vitamin B_6), regardless of source, are classifiable in part 3 of this schedule.				
			2. For the purposes of the tariff schedules, the term "drugs" means those substances, whether natural or synthetic, having therapeutic or medicinal properties and chiefly used as medicines or as ingredients in medicines.				
			3. For the purposes of this part -- (a) "natural substances" are those substances found in nature which comprise whole plants and herbs, anatomical parts thereof, vegetable saps, extracts, secretions and other constituents thereof; whole animals, anatomical parts thereof, glands or other animal organs, extracts, secretions and other constituents thereof, and which have not had changes made in their molecular structure as found in nature; (b) a "synthetic substance" is a chemical compound made by the artificial combination of elements or radicals by any physical or chemical process; (c) the term "crude", as used in relation to natural products, means any product which has not been advanced in value or improved in condition by shredding, grinding, chipping, crushing, distilling, evaporating, extracting, by artificial mixing with other substances or by any other process or treatment beyond that which is essential to its proper packing and the prevention of decay or deterioration pending manufacture; and (d) the term "advanced", as used in relation to natural products, means any product which has been advanced in value or improved in condition from its crude state by any mechanical or physical process whatever beyond that which is essential to its proper packing and the prevention of decay or deterioration pending manufacture, but does not include any product which has been artificially mixed with other substances or the molecular structure of which as found in nature has been changed.

Subpart C. - Copper ❷

Subpart C headnotes:

1. This subpart covers copper, its alloys, and their so-called basic shapes and forms, and in addition covers copper waste and scrap.

2. For the purposes of the tariff schedules, the following terms have the meanings indicated:

(a) Alloys of copper: Copper-base alloys or metals in which the copper content is, by weight, less than 99.3 percent, but not less than any other metallic element. For the purposes of this subpart --

(i) nickel silver is an alloy of copper which contains by weight 5 percent or more of zinc and 5 percent or more of nickel, with or without small quantities of other elements;

(ii) brass is an alloy of copper (not including nickel silver) in which zinc is the principal alloying element, with or without small quantities of other elements;

(iii) cupro-nickel is an alloy of copper in which nickel is the principal alloying element and which does not contain by weight over 2 percent of any other single element.

In the absence of context which requires otherwise, the term "copper", wherever used in the tariff schedules, includes alloys of copper.

			(b) Master alloys: Alloys of copper with other materials in any proportion, not usefully malleable and commonly used as raw material in the manufacture of other alloys or as de-oxidants, de-sulphurizing agents or for similar uses in the metallurgy of non-ferrous metals. For the purposes of this subpart -- (i) manganese copper is a master alloy which contains copper and manganese, in which the manganese content ranges by weight from 5 to 45 percent, with copper the balance; and (ii) phosphor copper is a master alloy which contains phosphorus and copper, in which the phosphorus content ranges by weight from 5 to 16 percent, with copper the balance. 3. For the purposes of this subpart, the following terms have the meanings indicated: (a) Bars and plate: Products of solid rectangular cross section over 0.188 inch in thickness, in coils or cut to length, whether or not corrugated or crimped. Bars are not over 12 inches in width and plates are over 12 inches in width. (b) Sheets and strips: Products of solid rectangular cross section not over 0.188 inch but over 0.006 inch in thickness, in coils or cut to length, whether or not corrugated or crimped. Sheets are over 20 inches in width; strips are not over 20 inches in width and do not include flat wire, as defined in (d) below. (c) Rods: Products of round, half-round, quarter-round, oval, half-oval, triangular, pentagonal, hexagonal, octagonal, or decagonal solid cross section, in straight lengths or in coils, and which if in coils are over 0.375 inch in maximum cross-sectional dimension. (d) Wire: A non-tubular product of any cross-sectional configuration, which if flat is in coils or straight lengths, not over 1.25 inches in width, not over 0.188 inch in thickness, and has all surfaces rolled or drawn, and which if not flat is not over 0.375 inch in maximum cross-sectional dimension and is in coils. (e) Angles, shapes, and sections: Products which do not conform completely to the respective definitions set forth in this headnote for bars, plates, sheets, strip, rods, or wire, and do not include any tubular products. 4. For the purposes of this subpart, any continuous cast product, whether or not machined or otherwise processed, which is substantially comparable to, and suitable for the same general purposes as, a wrought product provided for in this subpart shall be classified under the same provision and at the same rate as such wrought product, notwithstanding the provisions of headnotes 3(a) and 3(c) of this part.

			Subpart D. - Aluminum				
			Subpart D headnotes:				
			1. This subpart covers aluminum, its alloys, and their so-called basic shapes and forms and also covers aluminum waste and scrap.				
			2. Alloys of aluminum: For the purposes of the tariff schedules, alloys of aluminum are metals in which the aluminum content is, by weight, less than 99.0 percent, but not less than any other metallic element. Aluminum silicon is an alloy of aluminum containing not less than 25 percent of silicon. In the absence of context which requires otherwise, the term "aluminum", wherever used in the tariff schedules, includes alloys of aluminum.				
			3. For the purposes of this subpart, the following terms have the meanings indicated: (a) Bars: Products of solid rectangular cross section, 0.25 inch or more in thickness and over 0.375 inch but not over 12 inches in width, in coils or cut to length; and products of solid hexagonal or octagonal cross section, 0.375 inch or more in thickness (measuring the perpendicular distance between opposite faces) in coils, or of any thickness in straight lengths. (b) Rods: Products of solid round cross section, which, if 0.375 inch or more in diameter, are in coils or cut to length, and which, if under 0.375 inch in diameter, are in straight lengths. (c) Plates, sheets, and strips: Products of solid rectangular cross section, in coils or cut to length, whether or not corrugated or crimped. Plates are 0.25 inch or more in thickness and over 12 inches in width; sheets and strip are under 0.25 but not under 0.006 inch in thickness. (d) Wire: A product of solid round, rectangular, hexagonal, or octagonal cross section, in coils, whose diameter, width, or perpendicular distance between opposite faces is less than 0.375 inch. (e) Angles, shapes, and sections: Products which do not conform completely to the respective definitions set forth in this headnote for bars, plates, sheets, strips, rods, or wire and do not include any tubular products.				
			Subpart D statistical headnote:				
			1. For purposes of this subpart, the term "beryllium aluminum master alloy" refers to an alloy of aluminum which contains not less than 4 percent of beryllium.

			Subpart K. - Other Base Metals				
			Subpart K headnotes: 1. This subpart covers base metals not provided for in subparts B through J of this part, and their alloys, wrought and unwrought, and also includes the waste and scrap of such base metals. This subpart does not cover ferrocerium and other pyrophoric alloys (see part 9A of schedule 7). 2. Alloys: For the purposes of the tariff schedules, alloys of each of the base metals provided for in this subpart are metals in which the content of the respective base metal is, by weight, less than 99.0 percent, but not less than any other metallic element. In the absence of context which requires otherwise, a reference to one of the base metals by name, wherever used in the tariff schedules, includes alloys of such base metal.

			PART 1. - FOOTWEAR; HEADWEAR AND HAT BRAIDS; GLOVES; LUGGAGE, HANDBAGS, BILLFOLDS, AND OTHER FLAT GOODS Subpart A. - Footwear Subpart A headnotes: 1. This subpart covers boots, shoes, slippers, sandals, moccasins, slipper socks (socks with applied soles of leather or other material), scuffs, overshoes, rubbers, arctics, galoshes, and all allied footwear (including athletic or sporting boots and shoes) of whatever material composed, and by whatever method constructed, all the foregoing designed for human wear except -- (i) footwear with permanently attached skates or snowshoes (see part 5D of this schedule), (ii) hosiery (see part 6C of schedule 3), and (iii) infants' knit footwear (see part 6F of schedule 3). 2. For the purposes of this subpart -- (a) the term "huaraches" (item 700.05) means a type of leather-soled sandal having a woven-leather upper laced to the insole, with the insole machine-stitched to the outsole, and having a heel which is nailed on; (b) the term "McKay-sewed footwear" (item 700.10) means footwear the soles of which are sewed to the upper by means of a McKay chainstitch, with the stitching passing through the outsole, upper, lining, and insole; (c) the term "moccasins" (item 700.15) means footwear of the American Indian handicraft type, having no line of demarcation between the soles and the uppers; (d) the term "welt footwear" (items 700.25 through 700.29) means footwear constructed with a welt, which extends around the edge of the tread portion of the sole, and in which the welt and shoe upper are sewed to a lip on the surface of the insole, and the outsole of which is sewed or cemented to the welt; (e) the term "slippers" (item 700.32) means footwear of the slip-on type without laces, buckles, zippers, or other closures, the heel of which is of underwedge construction, and (1) having a leather upper permanently trimmed with a real or imitation fur collar, or (2) having a leather upper and a split leather tread sole (including heel) held together by a blown sponge-rubber midsole created and simultaneously vulcanized thereto;				

GSP	Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty 1	LDDC	2
			(f) the term "footwear for men, youths, and boys" (item 700.35) covers footwear of American youths' size 11-1/2 and larger for males, and does not include footwear commonly worn by both sexes; and (g) the term "fibers" means unspun fibrous vegetable materials, vegetable fibers, wool, silk, or other animal fibers, man-made fibers, paper yarns, or any combination thereof. 3. For the purposes of items 700.51 through 700.56, the rubber or plastics forming the exterior surface area specified, if supported by fabric or other material, must coat or fill the supporting material with a quantity of rubber or plastics sufficient to visibly and significantly affect the surface otherwise than by change in color, whether or not the color has been changed thereby. Subpart A statistical headnote: 1. For the purposes of this subpart -- (a) the term "athletic footwear" covers footwear of special construction for baseball, football, soccer, track, skating, skiing, and other athletic games, or sports; (b) the term "work footwear" covers footwear having outsoles 1/4 inch or over in thickness (measured at the ball of the foot) and having uppers of grain leather extending above the ankle; (c) the term "soled 'moccasins'" covers footwear in which the vamp extends completely under the foot, whether or not seamed, forming both the bottom and the sides to which an outsole is attached; (d) the term "cement footwear" covers footwear in which the outsole (or midsole, if any) is affixed to the upper by an adhesive without sewing, but not including footwear having vulcanized soles or injection molded soles; (e) the term "casual footwear" covers footwear constructed with a wedge heel, or with an open toe and so constructed that the heel of the foot is not over 1 inch above the ball of the foot; (f) the term "boots" covers footwear (other than footwear of oxford height) designed to be worn next to the sock rather than over the shoe; (g) the term "footwear for men" covers footwear of American men's size 6 and larger for males, and does not include footwear commonly worn by both sexes; (h) the term "footwear for youths and boys" covers footwear of American youths' size 11-1/2 and larger but not as large as American men's size 6, and does not include footwear commonly worn by both sexes;

Subpart C. - Gloves

Subpart C headnotes:

1. For the purposes of this subpart --
(a) the term "gloves" includes all gloves and mittens designed for human wear, except boxing gloves, golf gloves, baseball gloves, and other gloves specially designed for use in sports; and
(b) the term "glove linings" includes all linings for gloves, as defined in (a) supra.

2. In determining the component material of chief value in gloves --
(a) lining and applied cuffs shall be disregarded, and
(b) any leather component shall be disregarded unless the area of such leather is over 50 percent of the external surface area of the gloves exclusive of applied cuffs.

3. The length of gloves (items 705.67, 705.68 and 705.69) shall be the extreme length thereof when extended to their fullest dimension, including the unfolded length of cuffs or other appendages.

Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

APPENDIX TO THE TARIFF SCHEDULES

APPENDIX TO THE TARIFF SCHEDULES

Part 1. - Temporary Legislation
- A. Temporary Provisions for Additional Duties
- B. Temporary Provisions Amending the Tariff Schedules

Part 2. - Temporary Modifications Proclaimed Pursuant to Trade-Agreements Legislation
- A. Escape-Clause Actions
- B. Temporary Modifications Pursuant to Section 252 of the Trade Expansion Act of 1962
- C. Reduced Duties, Pursuant to Temporary Trade Agreements
- D. Deleted

Part 3. - Additional Import Restrictions Proclaimed Pursuant to Section 22 of the Agricultural Adjustment Act, as Amended

---

Appendix Headnotes:

1. The provisions of this Appendix relate to legislation and to executive and administrative actions pursuant to duly constituted authority, under which --

(a) one or more of the provisions in schedules 1 through 8 are temporarily amended or modified, or

(b) additional duties or other import restrictions are imposed by, or pursuant to, collateral legislation.

2. Unless the context requires otherwise, the general headnotes and rules of interpretation and the respective schedule, part, and subpart headnotes in schedules 1 through 8 apply to the provisions of this Appendix.

Appendix statistical headnotes:

1. For statistical reporting of merchandise provided for herein --

(a) unless more specific instructions appear in the parts or subparts of this appendix, report the 5-digit item number (or 7-digit number, if any) found in the appendix in addition to the 7-digit number appearing in schedules 1-7 which would be applicable but for the provisions of this appendix; and

(b) the quantities reported should be in the units provided in schedules 1-7.

2. For those items herein for which no rate of duty appears (i.e., those items for which an absolute quota is prescribed), report the 5-digit item number herein followed by the appropriate 7-digit reporting number from schedules 1-7. The quantities reported should be in the units provided in schedules 1-7.

Item	Stat. Suffix	Articles	Units of Quantity	Rates of Duty 1	Rates of Duty 2	Effective Period
		3. (a) Items 911.10, 911.11, 911.13, 911.14, 911.15, and 911.16 shall not apply when the market price of copper is under 51 cents per pound. (b) For purposes of subparagraph (a), the market price of copper has the meaning assigned to it by headnote 5(b) of the headnotes of schedule 6, part 2, subpart C. (c) For purposes of subparagraph (a), the market price of copper shall be considered to be under 51 cents per pound only on and after the 20th day after the date of a report by the United States International Trade Commission to the Secretary of the Treasury that it has determined that the market price has been under 51 cents per pound for one calendar month. After any such report, the market price shall be considered as not being under 51 cents per pound only on and after the 20th day after the date of a report by the Commission to the Secretary that it has determined that the market price has been 51 cents or more per pound for one calendar month. (d) Determinations by the Commission under this headnote shall be made in the manner prescribed by headnote 5(c) of schedule 6, part 2, subpart C.				
		4. For so long as items 905.10 and 905.11 are in effect, headnotes 3, 4, and 5 of subpart C of part 1 of schedule 3 shall be suspended (except insofar as they relate to hair of the camel) and in lieu thereof-- (a) for purposes of item 307.40-- (i) the classification provisions for wool not finer than 46s shall apply to any package of wool containing not over 10 percent by weight of wool finer than 46s but not containing wool finer than 48s; and (ii) the citation for imports classifiable under item 307.40 shall be such item number followed by the item number for the part of the contents of the package which determines the rate of duty; and (b) for purposes of item 905.11, a tolerance of not more than 10 percent of wools not finer than 48s may be allowed in each bale or package of wools imported as not finer than 46s.				
		Subpart B statistical headnote: 1. For the purposes of statistical reporting of any item for which a unit of quantity (including X) appears in this subpart no additional reporting number (from schedules 1-7) is to be furnished.

			3. Quantitative limitation on certain footwear.--The provisions of this headnote apply to items 923.90 through 923.94, inclusive, of this subpart. The quantitative import limitations imposed are in addition to the duties provided for the restrained articles in schedule 7, part 1A. The import restrictions provided for in this subpart do not apply to footwear with an aggregate value not over $100 in any shipment, if imported for the personal use of the importer. (a) Definitions.--For the purposes of this subpart-- (i) The term "footwear" means all the footwear provided for in schedule 7, part 1A, except the following: footwear provided for in items 700.51 through 700.54, items 700.57 through 700.71, inclusive, item 700.75, and disposable footwear, designed for one-time use, provided for in item 700.90; (ii) the term "athletic footwear" means footwear of special construction for baseball, football, soccer, track, skating, skiing, and other athletic games, or sports; and (iii) the term "restraint period" refers to the period beginning June 28, 1977, and ending June 30, 1978, and thereafter to the three subsequent 12-month periods beginning July 1 in one year and ending at the close of June 30 of the following year. (b) Export visa.--None of the footwear provided for herein exported on or after June 28, 1977, from the foreign countries involved may be entered unless such footwear is accompanied by an appropriate export visa issued by the government of the exporting country. (c) Footwear in bonded warehouse.--All footwear exported from the Republic of China that is in bonded warehouse as of May 14, 1977, and all footwear exported from the Republic of Korea that is in bonded warehouse as of May 16, 1977, may be withdrawn for consumption without an export visa on or before the 20th day following the date of publication in the Federal Register of the orderly marketing agreements concerning footwear negotiated with such countries. Thereafter such footwear may be withdrawn for consumption only if it is accompanied by an appropriate export visa issued by the government of the exporting country.

		❶ (d) Footwear exported prior to June 28, 1977.--All footwear not covered by paragraph (c), which was exported from the foreign country involved prior to June 28, 1977, may be entered prior to September 1, 1977, without the requirement of export visas, provided that all such footwear entered on or after June 1, 1977, in excess of 33 million pairs from the Republic of China and 9 million pairs from the Republic of Korea shall be counted against the respective restraint levels for the first restraint period by pro-rating such imports among the respective TSUS items for each country as follows: For the Republic of China, item 923.90, 8 percent, item 923.91, 86 percent, and item 923.92, 6 percent; and for the Republic of Korea, item 923.93, 35 percent, and item 923.94, 65 percent. No such footwear may be entered on or after September 1, 1977, unless accompanied by an appropriate export visa issued by the exporting country and such footwear shall be counted against the applicable restraint levels. (e) Footwear exported and entered in different restraint periods.--Footwear which is exported from the foreign country during one restraint period, but is entered more than 90 days following the beginning of the subsequent restraint period, shall be counted against the restraint levels for that subsequent restraint period. Footwear, which is exported from the foreign country during one restraint period in excess of the restraint level for such item for such period, may be entered after the beginning of the next restraint period and shall be counted against the restraint level for such item for such subsequent restraint period.

Item	Stat. Suf-fix	Articles	Units of Quantity	
		❷ (f) Carryover.--Except as provided for in paragraph (h), if the restraint level for any item has not been filled for a restraint period, upon appropriate request of the foreign government involved, the shortfall may be entered under the same item during the following restraint period provided that the amount of shortfall so entered does not exceed 11 percent of the restraint level for the restraint period during which the shortfall occurred. If, in accordance with the provisions of paragraph (ij), all or part of a restraint level of any item has been reallocated to the restraint level of one or more of the other items, such amount will not be considered a shortfall, and therefore is not available for carryover. (g) Exceeding restraint levels.--Upon appropriate request of the foreign government involved and to the extent consistent with an orderly marketing agreement existing between the Government of the United States of America and such Government, restraint levels for each item may be exceeded by not more than 20 percent during the first restraint period, at the discretion of the Special Representative for Trade Negotiations, and by not more than 6 percent during any subsequent restraint period, except as provided for in paragraph (h). If a restraint level is exceeded during a restraint period, the Special Representative for Trade Negotiations shall make a downward adjustment of the restraint level for the next succeeding restraint period in the absolute amount by which the preceding restraint level was exceeded. (h) Limitation of paragraphs (f) and (g).--Except at the discretion of the Special Representative for Trade Negotiations in the first restraint period, paragraphs (f) and (g) may not be used in combination to increase the restraint level applicable to any item in any restraint period by more than 11 percent.

Item	Stat. Suf-fix	Articles	Units of Quantity	
		❷ (ij) Adjustments.—Upon appropriate request of the foreign government involved for an adjustment of the restraint levels between items as provided for herein, the Special Representative for Trade Negotiations shall adjust the restraint level accordingly, such adjustments to be effective on and after the date of their publication in the Federal Register. Except as provided for later in this paragraph, an upward adjustment in a restraint level for exports from a foreign country shall not exceed the percentage of the respective base limit shown below and must be accompanied by a downward adjustment in the same absolute amount of the restraint level applicable to one or more of the other items set forth in the table below for exports during the same restraint period from the foreign country involved. The Special Representative for Trade Negotiations may, in his discretion, permit an upward adjustment of not over 50 percent of any restraint level applicable to item 923.92 in any restraint period provided that the restraint levels applicable to items 923.90 or 923.91 in the same restraint period are reduced by the same absolute amount.
