2. Heading 5903 applies to textile fabrics impregnated, coated, covered or laminated with plastics or made with yarns impregnated, coated, covered or sheathed with plastics, whatever the weight per square meter and whatever the nature of the plastic material (compact or cellular).

   It does not, however, cover:

   (a) Fabrics in which the impregnation, coating or covering cannot be seen with the naked eye (usually chapters 50 to 55, 58 or 60); for the purpose of this provision, no account should be taken of any resulting change of color;

   (b) Products which cannot, without fracturing, be bent manually around a cylinder of a diameter of 7 mm, at a temperature between 15° and 30°C (usually chapter 39);

   (c) Products in which the textile fabric is either completely embedded in plastics or coated or covered on both sides with such material (chapter 39);

   (d) Fabrics partially coated or partially covered with plastics and bearing designs resulting from these treatments (usually chapters 50 to 55, 58 or 60); or

   (e) Plates, sheets or strip of cellular plastics, combined with textile fabric, where the textile fabric is present merely for reinforcing purposes (chapter 39).

3. For the purposes of heading 5905, the expression "textile wall coverings" applies to products in rolls, of a width of not less than 45 cm, suitable for wall or ceiling decoration, consisting of a textile surface which has been fixed on a backing or has been treated on the back (impregnated or coated to permit pasting).

   This heading does not, however, apply to wall coverings consisting of textile flock or dust fixed directly on a backing of paper (heading 4814) or on a textile backing (generally heading 5907).

4. For the purposes of heading 5906, the expression "rubberized textile fabrics" means:

   (a) Textile fabrics impregnated, coated, covered or laminated with rubber, or made with yarns impregnated, coated, covered or sheathed with rubber:

      (i) Weighing not more than 1,500 g/m^2; or

      (ii) Weighing more than 1,500 g/m^2 and containing more than 50 percent by weight of textile material;

   (b) Fabrics composed of parallel textile yarns agglomerated with rubber, irrespective of their weight per square meter; and

   (c) Plates, sheets or strip, of cellular rubber, combined with textile fabric, where the textile fabric is more than mere reinforcement.

5. Heading 5907 does not apply to:

   (a) Fabrics in which the impregnation, coating or covering cannot be seen with the naked eye (usually chapters 50 to 55, 58 or 60); for the purpose of this provision, no account should be taken of any resulting change of color;

   (b) Fabrics painted with designs (other than painted canvas being theatrical scenery, studio back-cloths or the like);

   (c) Fabrics partially covered with flock, dust, powdered cork or the like and bearing designs resulting from these treatments; however, imitation pile fabrics remain classified in this heading.

   (d) Fabrics finished with normal dressings having a basis of amylaceous or similar substances;

   (e) Wood veneered on a backing of textile fabrics (heading 4408);

   (f) Natural or artificial abrasive powder or grain, on a backing of textile fabrics (heading 6806);

   (g) Agglomerated or reconstituted mica, on a backing of textile fabrics (heading 6815); or

   (h) Metal foil on a backing of textile fabrics (section XV).

6. Heading 5910 does not apply to:

   (a) Transmission or conveyor belts or belting of a thickness of less than 3 mm; or

   (b) Transmission or conveyor belts or belting of textile fabric impregnated, coated, covered or laminated with rubber or made from textile yarn or cord impregnated, coated, covered or sheathed with rubber (heading 4010).

7. Heading 5911 applies to the following goods, which are to be taken as not falling within any other heading of section XI:

   (a) Textile products in the piece, cut to length or simply cut to rectangular (including square) shape (other than those having the character of the products of headings 5908 to 5910), the following only:

      (i) Textile fabric, felt and felt-lined woven fabric, coated, covered or laminated with rubber, leather or other material, of a kind commonly used for card clothing, and similar fabric of a kind commonly used in machinery or plant;

      (ii) Bolting cloth;

      (iii) Straining cloth of a kind commonly used in oil presses and the like, of textile material or of human hair;

      (iv) Flat woven textile fabric with multiple warp and/or weft, whether or not felted, impregnated or coated, of a kind commonly used in paper-making or other machinery;

      (v) Textile fabric reinforced with metal, of a kind commonly used in machinery or plant;

      (vi) Cords, braids and the like, whether or not coated, impregnated or reinforced with metal, of a kind commonly used in machinery or plant as packing or lubricating materials;

   (b) Textile articles (other than those of headings 5908 to 5910) of a kind commonly used in machinery or plant (for example, endless textile fabrics and felts for paper-making or other machinery, gaskets, washers, polishing discs and other machinery parts).

Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In response to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29, and 30, 1982. The second set of coverted chapters was published for hearing and public comment on August 16, 1982 (47 F.R. 37317 of August 25, 1982). A hearing was held on those chapters on November 1, 1982.

This final set of chapters includes changes in two important areas. First, the "Rates of Duty 1" column has been divided into columns containing rates of duty 1 "General" and rates of duty 1 "Preferential". The "General" column contains the most-favored-nation rates now set forth in column 1 of the existing TSUS, while the "Prefential" column sets forth the preferential rates of duty provided for certain articles and countries under several trade agreement programs. An explanation of the rates of duty columns is provided in general legal note 3.

Second, revised texts of the general legal notes and general interpretive rules are included in each of the above-listed volumes. It should be noted that portions of general interpretive rule 6 regarding containers are published in square brackets; the wording of these provisions has not yet been finally determined by the Harmonized System and Nomenclature committees. Comments concerning the legal notes and rules are particularly sought, including specific views on general interpretive rule 6.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission is utilizing the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

Secretary

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the general legal notes, the general rules of interpretation, the chapters and the two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1, 2, 4, 6, 9, and 10 (currently 1, 2, 4, 7, 11, and 12, respectively, in the TSUS) are virtually identical to the corresponding listed headnotes in the TSUS. The remaining legal notes differ in substance from current general headnotes.

General legal note 3, explaining the rates of duty as they appear in the tariff schedule, differs in two respects from current general headnote 3. First, the note commences by defining in paragraph (a) the rates of duty in column 1, whereas existing headnote 3 sets forth provisions as to the application of special tariff preferences and of column 2 rates of duty and applies column 1 rates to all other articles. Second, note 3 explains the "Preferential" column now being added as a part of column 1, in order to indicate the application of preferential tariff rates under four programs. Eligibility for these programs is covered in paragraph (c). Notes 3(c)(ii) and (iii),

dealing with the Generalized System of Preferences (GSP) and the Least Developed Developing Countries (LDDC), respectively, have not been included at this time. The current GSP column in the TSUS has also not been included since indication of GSP eligibility would be included in the "Preferential" column, at a later date. Notes 3(c)(iv) and (v) cover articles eligible for preferential treatment under the Automotive Products Agreement with Canada and the Agreement on Trade in Civil Aircraft, respectively. Note 3(c)(iv) also includes definitions from headnote 2, part 6B of schedule 6.

Note 5 has been amended by deleting electricity, currency, securities, and vessels from, and by adding telecommunications transmissions to, the enumeration of articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule and consequently excluded from entry requirements. It is noted that new U.S. Legal Notes will be added to chapters 49 and 71 which would exempt currency in current circulation and securities and similar evidence of value from formal entry requirements.

The abbreviations enumerated in note 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward, although five current definitions are included in general legal note 8. A number of the terms have not been employed in the draft chapter released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to headings and legal notes or by application of the General Rules of Interpretation. Definition (f) makes it clear that "heading" is to be read as encompassing subheadings thereunder.

The draft General Rules of Interpretation are the provisionally adopted "Rules for the Interpretation of the Harmonized System", as revised by the Harmonized System and Nomenclature Committees, with certain important modifications. First, rule 3 has been modified to include the substance of current TSUS rule 10(c), providing guidance in determining the relative specificity of two or more tariff provisions, and to clarify the classification of mixtures and composite articles. Second, new rule 7, encompassing the substance of current TSUS rules 10(e) and 10(ij), has been added to reflect the U.S. treatment of use provisions and of parts. It should be noted that rule 6 as it applies to containers includes matter in square brackets, representing wording which has not been finally adopted by the above Committees.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference.

The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

TARIFF SCHEDULE OF THE UNITED STATES ANNOTATED

(Converted to the Harmonized System and reflecting final MTN concession rates of duty)

GENERAL LEGAL NOTES

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal notes 3 and 5.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns designated 1 ("General" and "Preferential"), and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Rate of Duty Column 1

(i) Except as provided in subparagraph (iv) of this legal note, the rates of duty in column numbered 1 are Most-Favored-Nation (MFN) rates which are applicable to products of countries other than those enumerated in paragraph (b) of this legal note. Column 1 is divided into 2 parts, "General" and "Preferential", which are applicable as provided below.

(ii) The "General" column sets forth the general MFN rates which are applicable to products of those countries described in (i) above which are not entitled to preferential tariff treatment as set forth below.

(iii) The "Preferential" column reflects rates of duty under one or more preferential tariff treatment programs described in paragraph (c) of this legal note and identified in parentheses immediately following the duty rate specified in such column. These rates apply to those products which are properly classified under a heading for which a preferential rate is indicated and for which all of the legal requirements for eligibility for such program or programs have been met. Where a product is eligible for preferential treatment under more than one program, the lowest rate of duty provided for any applicable program shall be imposed. Where no preferential rate of duty is provided for a heading, or where the country from which a product eligible for preferential treatment was imported is not designated as a beneficiary country under a program appearing with the appropriate heading, the rates of duty in the "General" column of column 1 shall be applied.

(iv) Products of Insular Possessions.

(A) Except as provided in additional U.S. legal note 6 of chapter 91 and except as provided in additional U.S. legal note 3 of chapter 96, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column designated 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(B) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(1) at the time such article is entered, or

(2) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (2) of this subparagraph applies shall be exempt from duty under subparagraph (A) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(C) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Certain Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, to section 404(a) of the Trade Act of 1974, or to any other applicable section of law, or to action taken by the President thereunder:

Albania
Bulgaria
Cuba 1/
Czechoslovakia
Estonia
German Democratic Republic
Kampuchea
Laos
Latvia
Lithuania
Mongolia
North Korea
Poland
Union of Soviet Socialist Republics
Vietnam

(c) Products Eligible for Preferential Tariff Treatment.

(i) Programs under which preferential tariff treatment may be provided, and the corresponding symbols for such programs as they are indicated in the "Preferential" column, are as follows:

Generalized System of Preferences............................GSP
Least Developed Developing Countries.........................LDDC
Automotive Products Trade Act................................AP
Agreement on Trade in Civil Aircraft.........................CA

1/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

(ii) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(iii) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(iv) Automotive Products and Motor Vehicles Eligible for Preferential Tariff Treatment. Articles entered under headings for which duty-free entry has been proclaimed by the President under the Automotive Products Trade Act (AP) are subject to the following provisions:

(A) Motor vehicles and original equipment therefor of Canadian origin provided for in headings for which the rate of duty "Free (AP)" appears in the "Preferential" column may be entered free of duty. As used in the tariff schedule--

(1) The term "Canadian article" means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(2) The term "original motor-vehicle equipment", as used in the schedule with reference to a Canadian article (as defined above), means such a Canadian article which has been obtained from a supplier in Canada under or pursuant to a written order, contract, or letter of intent of a bona fide motor-vehicle manufacturer in the United States, and which is a fabricated component intended for use as original equipment in the manufacture in the United States of a motor vehicle, but the term does not include trailers or articles to be used in their manufacture.

(3) The term "motor vehicle", as used in this legal note, means a motor vehicle of a kind described in headings 8702, 8703, and 8704 of chapter 87 (excluding an electric trolley bus and a three-wheeled vehicle) or an automobile truck tractor principally designed for the transport of persons or articles.

(4) The term "bona fide motor-vehicle manufacturer", as used in this legal note, means a person who, upon application to the Secretary of Commerce, is determined by the Secretary to have produced no fewer than 15 complete motor vehicles in the United States during the previous 12 months, and to have installed capacity in the United States to produce 10 or more complete motor vehicles per 40-hour week. The Secretary of Commerce shall maintain, and publish from time to time in the Federal Register, a list of the names and addresses of bona fide motor-vehicle manufacturers.

(B) If any Canadian article accorded the status of original motor-vehicle equipment is not so used in the manufacture in the United States of motor vehicles, such Canadian article or its value (to be recovered from the importer or other person who diverted the article from its intended use as original motor-vehicle equipment) shall be subject to forfeiture, unless at the time of the diversion of the Canadian article the United States Customs Service is notified in writing, and, pursuant to arrangements made with the Service --

(1) the Canadian article is, under customs supervision, destroyed or exported, or

(2) duty is paid to the United States Government in an amount equal to the duty which would have been payable at the time of entry if the Canadian article had not been entered as original motor-vehicle equipment.

(v) Articles Eligible for Duty-Free Entry Pursuant to the Agreement on Trade in Civil Aircraft. Whenever a product is entered under a heading for which the rate of duty "Free (CA)" appears in the "Preferential" column, the importer shall, in order to obtain duty-free entry of such product, file a written statement, accompanied by such supporting documentation as the Secretary of the Treasury may require, with the appropriate customs officer stating that the imported article has been imported for use in civil aircraft, that it will be so used, and that the article has been approved for such use by the Administrator of the Federal Aviation Authority (F.A.A.) or by the airworthiness authority in the country of exportation, if such approval is recognized by the F.A.A. as an acceptable substitute for F.A.A. certification, or that an application for approval for such use has been submitted to, and accepted by, the Administrator of the F.A.A. For purposes of the tariff schedule, the term "civil aircraft" means all aircraft other than aircraft purchased for use by the Department of Defense or the United States Coast Guard.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the chapter 99 of the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of general legal note 1 --

(a) corpses, together with their coffins and accompanying flowers, and

(b) telecommunications transmissions,

are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. For the purposes of the tariff schedule, unless the context otherwise requires--

(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,

(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) the term "rate of duty" includes a free rate of duty; rates of duty proclaimed by the President shall be referred to as "proclaimed" rates of duty; rates of duty enacted by the Congress shall be referred to as "statutory" rates of duty.

(e) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

(f) a reference to "headings" encompasses subheadings indented thereunder.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

Classification of articles in the tariff schedule shall be governed by the following principles:

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative legal notes and, provided such headings or notes do not otherwise require, according to the following provisions:

2. (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as entered, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), entered unassembled or disassembled.

(b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such material or substance. The classification of articles consisting of more than one material or substance and articles put up in sets for retail sale shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more headings, classification shall be effected as follows:

(a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to one or more of the materials or substances contained in mixed or composite articles or to one or more of the items in a set put up for retail sale, those headings are to be regarded as equally specific in relation to those articles, even if one of them gives a more complete or precise description of the articles.

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.

(c) When articles cannot be classified by reference to 3(a) or 3(b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration.

4. Articles not falling in any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. For legal purposes, the classification of articles in the subheadings of a heading shall be determined according to the terms of the subheadings and any related legal notes and, mutatis mutandis, to the above rules, on the understanding that --

(a) The scope of a heading or subheading cannot be enlarged by subheadings which follow under it;

(b) comparisons are to be made only between provisions of coordinate or equal status; i.e., after the applicable heading has been determined, then the applicable subheading at the first level of indentation must be determined; and then, where appropriate, the applicable subheading at the next level of indentation must be determined and so on.

For the purposes of this rule, the relative section, chapter, and subchapter legal notes also apply, unless the context otherwise requires.

6. Notwithstanding the foregoing provisions, the following rules shall apply:

(a) Accessories entered with the principal article with which they normally belong shall be classified with that article, provided they are of a kind and in a number normally sold therewith.

(b) [Cases, boxes and similar containers] entered with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets.

(c) [Subject to rule (b) above, packing materials and packing containers entered with the articles therein shall be classified with the articles if they are of a kind normally used for packing such goods. For the application of this rule, containers suitable for repetitive or independent commercial use are not regarded as packing containers and shall be classified separately from the articles they contain.]

7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the principal use.

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

(c) a provision for parts of an article covers products solely or principally used as a part of such articles but a provision for "parts" or "parts and accessories" shall not prevail over a specific provision for such part.

GENERAL STATISTICAL NOTES

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraphs (b) and (c) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under subheading 0106.00.50 is "0106.00.5010".

(b) Wherever preferential tariff treatment is claimed under a heading where such treatment is provided pursuant to general legal note 3, the statistical reporting number for the article being so entered is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision under paragraph (a) of this note followed by the symbol representing the program under which such treatment is afforded. Thus, the statistical reporting number for an automatic pilot imported to be used in civil aircraft is "9014.20.4000CA".

(c) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the 8-digit heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the

Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In response to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29, and 30, 1982. The second set of coverted chapters was published for hearing and public comment on August 16, 1982 (47 F.R. 37317 of August 25, 1982). A hearing was held on those chapters on November 1, 1982.

This final set of chapters includes changes in two important areas. First, the "Rates of Duty 1" column has been divided into columns containing rates of duty 1 "General" and rates of duty 1 "Preferential". The "General" column contains the most-favored-nation rates now set forth in column 1 of the existing TSUS, while the "Prefential" column sets forth the preferential rates of duty provided for certain articles and countries under several trade agreement programs. An explanation of the rates of duty columns is provided in general legal note 3.

Second, revised texts of the general legal notes and general interpretive rules are included in each of the above-listed volumes. It should be noted that portions of general interpretive rule 6 regarding containers are published in square brackets; the wording of these provisions has not yet been finally determined by the Harmonized System and Nomenclature committees. Comments concerning the legal notes and rules are particularly sought, including specific views on general interpretive rule 6.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission is utilizing the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the general legal notes, the general rules of interpretation, the chapters and the two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1, 2, 4, 6, 9, and 10 (currently 1, 2, 4, 7, 11, and 12, respectively, in the TSUS) are virtually identical to the corresponding listed headnotes in the TSUS. The remaining legal notes differ in substance from current general headnotes.

General legal note 3, explaining the rates of duty as they appear in the tariff schedule, differs in two respects from current general headnote 3. First, the note commences by defining in paragraph (a) the rates of duty in column 1, whereas existing headnote 3 sets forth provisions as to the application of special tariff preferences and of column 2 rates of duty and applies column 1 rates to all other articles. Second, note 3 explains the "Preferential" column now being added as a part of column 1, in order to indicate the application of preferential tariff rates under four programs. Eligibility for these programs is covered in paragraph (c). Notes 3(c)(ii) and (iii),

dealing with the Generalized System of Preferences (GSP) and the Least Developed Developing Countries (LDDC), respectively, have not been included at this time. The current GSP column in the TSUS has also not been included since indication of GSP eligibility would be included in the "Preferential" column, at a later date. Notes 3(c)(iv) and (v) cover articles eligible for preferential treatment under the Automotive Products Agreement with Canada and the Agreement on Trade in Civil Aircraft, respectively. Note 3(c)(iv) also includes definitions from headnote 2, part 6B of schedule 6.

Note 5 has been amended by deleting electricity, currency, securities, and vessels from, and by adding telecommunications transmissions to, the enumeration of articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule and consequently excluded from entry requirements. It is noted that new U.S. Legal Notes will be added to chapters 49 and 71 which would exempt currency in current circulation and securities and similar evidence of value from formal entry requirements.

The abbreviations enumerated in note 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward, although five current definitions are included in general legal note 8. A number of the terms have not been employed in the draft chapter released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to headings and legal notes or by application of the General Rules of Interpretation. Definition (f) makes it clear that "heading" is to be read as encompassing subheadings thereunder.

The draft General Rules of Interpretation are the provisionally adopted "Rules for the Interpretation of the Harmonized System", as revised by the Harmonized System and Nomenclature Committees, with certain important modifications. First, rule 3 has been modified to include the substance of current TSUS rule 10(c), providing guidance in determining the relative specificity of two or more tariff provisions, and to clarify the classification of mixtures and composite articles. Second, new rule 7, encompassing the substance of current TSUS rules 10(e) and 10(ij), has been added to reflect the U.S. treatment of use provisions and of parts. It should be noted that rule 6 as it applies to containers includes matter in square brackets, representing wording which has not been finally adopted by the above Committees.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference.

The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal notes 3 and 5.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns designated 1 ("General" and "Preferential"), and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Rate of Duty Column 1

(i) Except as provided in subparagraph (iv) of this legal note, the rates of duty in column numbered 1 are Most-Favored-Nation (MFN) rates which are applicable to products of countries other than those enumerated in paragraph (b) of this legal note. Column 1 is divided into 2 parts, "General" and "Preferential", which are applicable as provided below.

(ii) The "General" column sets forth the general MFN rates which are applicable to products of those countries described in (i) above which are not entitled to preferential tariff treatment as set forth below.

(iii) The "Preferential" column reflects rates of duty under one or more preferential tariff treatment programs described in paragraph (c) of this legal note and identified in parentheses immediately following the duty rate specified in such column. These rates apply to those products which are properly classified under a heading for which a preferential rate is indicated and for which all of the legal requirements for eligibility for such program or programs have been met. Where a product is eligible for preferential treatment under more than one program, the lowest rate of duty provided for any applicable program shall be imposed. Where no preferential rate of duty is provided for a heading, or where the country from which a product eligible for preferential treatment was imported is not designated as a beneficiary country under a program appearing with the appropriate heading, the rates of duty in the "General" column of column 1 shall be applied.

(iv) Products of Insular Possessions.

(A) Except as provided in additional U.S. legal note 6 of chapter 91 and except as provided in additional U.S. legal note 3 of chapter 96, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column designated 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(B) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(1) at the time such article is entered, or

(2) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (2) of this subparagraph applies shall be exempt from duty under subparagraph (A) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(C) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Certain Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, to section 404(a) of the Trade Act of 1974, or to any other applicable section of law, or to action taken by the President thereunder:

Albania
Bulgaria
Cuba 1/
Czechoslovakia
Estonia
German Democratic Republic
Kampuchea
Laos
Latvia
Lithuania
Mongolia
North Korea
Poland
Union of Soviet Socialist Republics
Vietnam

(c) Products Eligible for Preferential Tariff Treatment.

(i) Programs under which preferential tariff treatment may be provided, and the corresponding symbols for such programs as they are indicated in the "Preferential" column, are as follows:

Generalized System of Preferences............................GSP
Least Developed Developing Countries.........................LDDC
Automotive Products Trade Act................................AP
Agreement on Trade in Civil Aircraft.........................CA

1/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

(ii) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(iii) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(iv) Automotive Products and Motor Vehicles Eligible for Preferential Tariff Treatment. Articles entered under headings for which duty-free entry has been proclaimed by the President under the Automotive Products Trade Act (AP) are subject to the following provisions:

(A) Motor vehicles and original equipment therefor of Canadian origin provided for in headings for which the rate of duty "Free (AP)" appears in the "Preferential" column may be entered free of duty. As used in the tariff schedule--

(1) The term "Canadian article" means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(2) The term "original motor-vehicle equipment", as used in the schedule with reference to a Canadian article (as defined above), means such a Canadian article which has been obtained from a supplier in Canada under or pursuant to a written order, contract, or letter of intent of a bona fide motor-vehicle manufacturer in the United States, and which is a fabricated component intended for use as original equipment in the manufacture in the United States of a motor vehicle, but the term does not include trailers or articles to be used in their manufacture.

(3) The term "motor vehicle", as used in this legal note, means a motor vehicle of a kind described in headings 8702, 8703, and 8704 of chapter 87 (excluding an electric trolley bus and a three-wheeled vehicle) or an automobile truck tractor principally designed for the transport of persons or articles.

(4) The term "bona fide motor-vehicle manufacturer", as used in this legal note, means a person who, upon application to the Secretary of Commerce, is determined by the Secretary to have produced no fewer than 15 complete motor vehicles in the United States during the previous 12 months, and to have installed capacity in the United States to produce 10 or more complete motor vehicles per 40-hour week. The Secretary of Commerce shall maintain, and publish from time to time in the Federal Register, a list of the names and addresses of bona fide motor-vehicle manufacturers.

(B) If any Canadian article accorded the status of original motor-vehicle equipment is not so used in the manufacture in the United States of motor vehicles, such Canadian article or its value (to be recovered from the importer or other person who diverted the article from its intended use as original motor-vehicle equipment) shall be subject to forfeiture, unless at the time of the diversion of the Canadian article the United States Customs Service is notified in writing, and, pursuant to arrangements made with the Service --

(1) the Canadian article is, under customs supervision, destroyed or exported, or

(2) duty is paid to the United States Government in an amount equal to the duty which would have been payable at the time of entry if the Canadian article had not been entered as original motor-vehicle equipment.

(v) Articles Eligible for Duty-Free Entry Pursuant to the Agreement on Trade in Civil Aircraft. Whenever a product is entered under a heading for which the rate of duty "Free (CA)" appears in the "Preferential" column, the importer shall, in order to obtain duty-free entry of such product, file a written statement, accompanied by such supporting documentation as the Secretary of the Treasury may require, with the appropriate customs officer stating that the imported article has been imported for use in civil aircraft, that it will be so used, and that the article has been approved for such use by the Administrator of the Federal Aviation Authority (F.A.A.) or by the airworthiness authority in the country of exportation, if such approval is recognized by the F.A.A. as an acceptable substitute for F.A.A. certification, or that an application for approval for such use has been submitted to, and accepted by, the Administrator of the F.A.A. For purposes of the tariff schedule, the term "civil aircraft" means all aircraft other than aircraft purchased for use by the Department of Defense or the United States Coast Guard.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the chapter 99 of the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of general legal note 1 --

(a) corpses, together with their coffins and accompanying flowers, and

(b) telecommunications transmissions,

are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. For the purposes of the tariff schedule, unless the context otherwise requires--

(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,

(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) the term "rate of duty" includes a free rate of duty; rates of duty proclaimed by the President shall be referred to as "proclaimed" rates of duty; rates of duty enacted by the Congress shall be referred to as "statutory" rates of duty.

(e) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

(f) a reference to "headings" encompasses subheadings indented thereunder.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

Classification of articles in the tariff schedule shall be governed by the following principles:

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative legal notes and, provided such headings or notes do not otherwise require, according to the following provisions:

2. (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as entered, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), entered unassembled or disassembled.

(b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such material or substance. The classification of articles consisting of more than one material or substance and articles put up in sets for retail sale shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more headings, classification shall be effected as follows:

(a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to one or more of the materials or substances contained in mixed or composite articles or to one or more of the items in a set put up for retail sale, those headings are to be regarded as equally specific in relation to those articles, even if one of them gives a more complete or precise description of the articles.

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.

(c) When articles cannot be classified by reference to 3(a) or 3(b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration.

4. Articles not falling in any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. For legal purposes, the classification of articles in the subheadings of a heading shall be determined according to the terms of the subheadings and any related legal notes and, mutatis mutandis, to the above rules, on the understanding that --

(a) The scope of a heading or subheading cannot be enlarged by subheadings which follow under it;

(b) comparisons are to be made only between provisions of coordinate or equal status; i.e., after the applicable heading has been determined, then the applicable subheading at the first level of indentation must be determined; and then, where appropriate, the applicable subheading at the next level of indentation must be determined and so on.

For the purposes of this rule, the relative section, chapter, and subchapter legal notes also apply, unless the context otherwise requires.

6. Notwithstanding the foregoing provisions, the following rules shall apply:

(a) Accessories entered with the principal article with which they normally belong shall be classified with that article, provided they are of a kind and in a number normally sold therewith.

(b) [Cases, boxes and similar containers] entered with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets.

(c) [Subject to rule (b) above, packing materials and packing containers entered with the articles therein shall be classified with the articles if they are of a kind normally used for packing such goods. For the application of this rule, containers suitable for repetitive or independent commercial use are not regarded as packing containers and shall be classified separately from the articles they contain.]

7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the principal use.

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

(c) a provision for parts of an article covers products solely or principally used as a part of such articles but a provision for "parts" or "parts and accessories" shall not prevail over a specific provision for such part.

GENERAL STATISTICAL NOTES

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraphs (b) and (c) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under subheading 0106.00.50 is "0106.00.5010".

(b) Wherever preferential tariff treatment is claimed under a heading where such treatment is provided pursuant to general legal note 3, the statistical reporting number for the article being so entered is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision under paragraph (a) of this note followed by the symbol representing the program under which such treatment is afforded. Thus, the statistical reporting number for an automatic pilot imported to be used in civil aircraft is "9014.20.4000CA".

(c) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the 8-digit heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

Legal Notes

3. Classification of alloys (other than ferroalloys and master alloys as defined in chapters 72 and 74):

   (a) An alloy of base metals is to be classified as an alloy of the metal which predominates by weight over each of the other metals.

   (b) An alloy composed of base metals of this section and of elements not falling within this section is to be treated as an alloy of base metals of this section if the total weight of such metals equals or exceeds the total weight of the other elements present.

   (c) In this section the term "alloys" includes sintered mixtures of metal powders, heterogeneous intimate mixtures obtained by melting (other than cermets) and intermetallic compounds.

4. Unless the context otherwise requires, any reference in the tariff schedule to a base metal includes a reference to alloys which, by virtue of legal note 3 above, are to be classified as alloys of that metal.

5. Classification of composite articles:

   Except where the headings otherwise require, articles of base metal (including articles of mixed materials treated as articles of base metal under the General Rules of Interpretation) containing two or more base metals are to be treated as articles of the base metal predominating by weight. For this purpose:

   (a) Iron and steel, or different kinds of iron or steel, are regarded as one and the same metal;

   (b) An alloy is regarded as being entirely composed of that metal as an alloy of which, by virtue of legal note 3, it is classified; and

   (c) A cermet of heading 8113 is regarded as a single base metal.

6. In this section, the following expressions have the meanings hereby assigned to them:

   Metal waste and scrap from the manufacture or mechanical working of metals, and metal goods definitely not useable as such because of breakage, cutting-up, wear or other reasons.

(b) Powders:

Products of which 90 percent or more by weight passes through a sieve having a mesh aperture of 1 mm.

Flat-rolled products include those with patterns in relief derived directly from rolling (for example, grooves, ribs, chequers, tears, buttons, lozenges) and those which have been perforated, corrugated or polished, provided that they do not thereby assume the character of articles or products of other headings.

Flat-rolled products of a shape other than rectangular or square, of any size are to be classified as products of a width of 600 mm or more, provided that they do not assume the character of articles or products of other headings.

(l) Bars and rods, hot-rolled, in irregularly wound coils

Hot rolled products in irregularly wound coils, which have a solid cross-section in the shape of circles, segments of circles, ovals, rectangles (including squares), triangles or other convex polygons. These products may have indentations, ribs, grooves or other deformations produced during the rolling process (reinforcing bars and rods).

(m) Other bars and rods

Hollow bars and rods of iron or steel not conforming to this definition are to be classified in heading 7304.

2. Iron or steel products clad with another ferrous metal, are to be classified as products of the ferrous metal predominating by weight.

5. For the classification of ferro-alloys in the subheadings of heading 7202 the following rule should be observed:

   A ferro-alloy is considered as binary and classified under the relevant subheading (if it exists) if only one of the alloy elements exceeds the minimum percentage laid down in chapter legal note 1 (c); by analogy, it is considered respectively as ternary or quaternary if two or three alloy elements exceed the minimum percentage.

For the purposes of this chapter, unless the context provides otherwise, the term further worked refers to products subjected to any of the following surface treatments; polishing and burnishing; artificial oxidation; chemical surface treatments such as phosphatising, oxalating and borating; coating with metal; coating with non-metallic substances (e.g., enameling, varnishing, lacquering, painting, coating with plastic materials); or cladding.

Statistical Note

1. For the purposes of this chapter, H-piles shall be regarded only as those wide flange shapes and sections conforming to the following cross-sectional dimensions and weight per foot:

   14 inches x 14-1/2 inches x 117 pounds
   14 inches x 14-1/2 inches x 102 pounds
   14 inches x 14-1/2 inches x 89 pounds
   14 inches x 14-1/2 inches x 73 pounds

   12 inches x 12 inches x 74 pounds
   12 inches x 12 inches x 53 pounds

   10 inches x 10 inches x 57 pounds
   10 inches x 10 inches x 42 pounds

   8 inches x 8 inches x 36 pounds

   H-piles, sometimes referred to as H-bearing piles or bearing piles, differ from other wide-flange shapes and sections (such as columns and beams) in weight per foot and by the uniform thickness of the web and flange.

ARTICLES OF IRON AND STEEL

Legal Note

1. In this chapter the expression "cast iron" applies to products obtained by casting in which iron predominates by weight over each of the other elements and which do not comply with the chemical composition of steel as defined in Additional U.S. Legal Note 1(a) to this chapter.

2. In this chapter the word "wire" means hot or cold-formed products of any cross-sectional shape, of which no cross-sectional dimension exceeds 16 mm.

Additional U.S. Legal Note

1. In this chapter the following expressions have the meanings assigned to them--

(a) Steel

Ferrous materials other than those of heading 7203 which (with the exception of certain types produced in the form of castings) are usefully malleable and which contain by weight 2 percent or less of carbon. However, chromium steels may contain higher proportions of carbon.

(b) Stainless steel

Alloy steels containing, by weight, 1.20 percent or less of carbon and 10.50 percent or more of chromium, with or without other elements.

(c) Other alloy steel

Steels not complying with the definition of stainless steel and containing by weight one or more of the following elements in the proportion shown:

- 0.30 percent or more of aluminum
- 0.0008 percent or more of boron
- 0.30 percent or more of chromium
- 0.30 percent or more of cobalt
- 0.40 percent or more of copper
- 0.40 percent or more of lead
- 1.65 percent or more of manganese
- 0.08 percent or more of molybdenum
- 0.30 percent or more of nickel
- 0.06 percent or more of niobium
- 0.60 percent or more of silicon
- 0.05 percent or more of titanium
- 0.30 percent or more of tungsten (wolfram)
- 0.10 percent or more of vanadium
- 0.05 percent or more of zirconium
- 0.10 percent or more of other elements (except sulphur, phosphorus, carbon and nitrogen), taken separately.

(d) Heat resisting steel

Alloy steels containing by weight less than 0.3 percent carbon and 4.0 percent or more but less than 10.5 percent of chromium, with or without other elements.

2. References in this chapter to articles conforming to specifications of the American Petroleum Institute (A.P.I.) apply to those specifications in effect as of January 1, 1983.

Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. The original and 19 copies of prepared testimony must be filed with the Secretary of the Commission at his office in Washington, D.C. not later than the close of business (5:15 p.m.) March 23, 1982. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the office of the Secretary, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the

Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In response to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29, and 30, 1982. The second set of coverted chapters was published for hearing and public comment on August 16, 1982 (47 F.R. 37317 of August 25, 1982). A hearing was held on those chapters on November 1, 1982.

This final set of chapters includes changes in two important areas. First, the "Rates of Duty 1" column has been divided into columns containing rates of duty 1 "General" and rates of duty 1 "Preferential". The "General" column contains the most-favored-nation rates now set forth in column 1 of the existing TSUS, while the "Prefential" column sets forth the preferential rates of duty provided for certain articles and countries under several trade agreement programs. An explanation of the rates of duty columns is provided in general legal note 3.

Second, revised texts of the general legal notes and general interpretive rules are included in each of the above-listed volumes. It should be noted that portions of general interpretive rule 6 regarding containers are published in square brackets; the wording of these provisions has not yet been finally determined by the Harmonized System and Nomenclature committees. Comments concerning the legal notes and rules are particularly sought, including specific views on general interpretive rule 6.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission is utilizing the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the general legal notes, the general rules of interpretation, the chapters and the two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1, 2, 4, 6, 9, and 10 (currently 1, 2, 4, 7, 11, and 12, respectively, in the TSUS) are virtually identical to the corresponding listed headnotes in the TSUS. The remaining legal notes differ in substance from current general headnotes.

General legal note 3, explaining the rates of duty as they appear in the tariff schedule, differs in two respects from current general headnote 3. First, the note commences by defining in paragraph (a) the rates of duty in column 1, whereas existing headnote 3 sets forth provisions as to the application of special tariff preferences and of column 2 rates of duty and applies column 1 rates to all other articles. Second, note 3 explains the "Preferential" column now being added as a part of column 1, in order to indicate the application of preferential tariff rates under four programs. Eligibility for these programs is covered in paragraph (c). Notes 3(c)(ii) and (iii),

dealing with the Generalized System of Preferences (GSP) and the Least Developed Developing Countries (LDDC), respectively, have not been included at this time. The current GSP column in the TSUS has also not been included since indication of GSP eligibility would be included in the "Preferential" column, at a later date. Notes 3(c)(iv) and (v) cover articles eligible for preferential treatment under the Automotive Products Agreement with Canada and the Agreement on Trade in Civil Aircraft, respectively. Note 3(c)(iv) also includes definitions from headnote 2, part 6B of schedule 6.

Note 5 has been amended by deleting electricity, currency, securities, and vessels from, and by adding telecommunications transmissions to, the enumeration of articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule and consequently excluded from entry requirements. It is noted that new U.S. Legal Notes will be added to chapters 49 and 71 which would exempt currency in current circulation and securities and similar evidence of value from formal entry requirements.

The abbreviations enumerated in note 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward, although five current definitions are included in general legal note 8. A number of the terms have not been employed in the draft chapter released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to headings and legal notes or by application of the General Rules of Interpretation. Definition (f) makes it clear that "heading" is to be read as encompassing subheadings thereunder.

The draft General Rules of Interpretation are the provisionally adopted "Rules for the Interpretation of the Harmonized System", as revised by the Harmonized System and Nomenclature Committees, with certain important modifications. First, rule 3 has been modified to include the substance of current TSUS rule 10(c), providing guidance in determining the relative specificity of two or more tariff provisions, and to clarify the classification of mixtures and composite articles. Second, new rule 7, encompassing the substance of current TSUS rules 10(e) and 10(ij), has been added to reflect the U.S. treatment of use provisions and of parts. It should be noted that rule 6 as it applies to containers includes matter in square brackets, representing wording which has not been finally adopted by the above Committees.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference.

The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

TARIFF SCHEDULE OF THE UNITED STATES ANNOTATED

(Converted to the Harmonized System and reflecting final MTN concession rates of duty)

GENERAL LEGAL NOTES

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal notes 3 and 5.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns designated 1 ("General" and "Preferential"), and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Rate of Duty Column 1

(i) Except as provided in subparagraph (iv) of this legal note, the rates of duty in column numbered 1 are Most-Favored-Nation (MFN) rates which are applicable to products of countries other than those enumerated in paragraph (b) of this legal note. Column 1 is divided into 2 parts, "General" and "Preferential", which are applicable as provided below.

(ii) The "General" column sets forth the general MFN rates which are applicable to products of those countries described in (i) above which are not entitled to preferential tariff treatment as set forth below.

(iii) The "Preferential" column reflects rates of duty under one or more preferential tariff treatment programs described in paragraph (c) of this legal note and identified in parentheses immediately following the duty rate specified in such column. These rates apply to those products which are properly classified under a heading for which a preferential rate is indicated and for which all of the legal requirements for eligibility for such program or programs have been met. Where a product is eligible for preferential treatment under more than one program, the lowest rate of duty provided for any applicable program shall be imposed. Where no preferential rate of duty is provided for a heading, or where the country from which a product eligible for preferential treatment was imported is not designated as a beneficiary country under a program appearing with the appropriate heading, the rates of duty in the "General" column of column 1 shall be applied.

(iv) Products of Insular Possessions.

(A) Except as provided in additional U.S. legal note 6 of chapter 91 and except as provided in additional U.S. legal note 3 of chapter 96, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column designated 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(B) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(1) at the time such article is entered, or

(2) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (2) of this subparagraph applies shall be exempt from duty under subparagraph (A) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(C) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Certain Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, to section 404(a) of the Trade Act of 1974, or to any other applicable section of law, or to action taken by the President thereunder:

(i) Programs under which preferential tariff treatment may be provided, and the corresponding symbols for such programs as they are indicated in the "Preferential" column, are as follows:

Generalized System of Preferences..........................GSP
Least Developed Developing Countries........................LDDC
Automotive Products Trade Act...............................AP
Agreement on Trade in Civil Aircraft........................CA

1/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

(ii) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(iii) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(iv) Automotive Products and Motor Vehicles Eligible for Preferential Tariff Treatment. Articles entered under headings for which duty-free entry has been proclaimed by the President under the Automotive Products Trade Act (AP) are subject to the following provisions:

(A) Motor vehicles and original equipment therefor of Canadian origin provided for in headings for which the rate of duty "Free (AP)" appears in the "Preferential" column may be entered free of duty. As used in the tariff schedule--

(1) The term "Canadian article" means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(2) The term "original motor-vehicle equipment", as used in the schedule with reference to a Canadian article (as defined above), means such a Canadian article which has been obtained from a supplier in Canada under or pursuant to a written order, contract, or letter of intent of a bona fide motor-vehicle manufacturer in the United States, and which is a fabricated component intended for use as original equipment in the manufacture in the United States of a motor vehicle, but the term does not include trailers or articles to be used in their manufacture.

(3) The term "motor vehicle", as used in this legal note, means a motor vehicle of a kind described in headings 8702, 8703, and 8704 of chapter 87 (excluding an electric trolley bus and a three-wheeled vehicle) or an automobile truck tractor principally designed for the transport of persons or articles.

(4) The term "bona fide motor-vehicle manufacturer", as used in this legal note, means a person who, upon application to the Secretary of Commerce, is determined by the Secretary to have produced no fewer than 15 complete motor vehicles in the United States during the previous 12 months, and to have installed capacity in the United States to produce 10 or more complete motor vehicles per 40-hour week. The Secretary of Commerce shall maintain, and publish from time to time in the Federal Register, a list of the names and addresses of bona fide motor-vehicle manufacturers.

(B) If any Canadian article accorded the status of original motor-vehicle equipment is not so used in the manufacture in the United States of motor vehicles, such Canadian article or its value (to be recovered from the importer or other person who diverted the article from its intended use as original motor-vehicle equipment) shall be subject to forfeiture, unless at the time of the diversion of the Canadian article the United States Customs Service is notified in writing, and, pursuant to arrangements made with the Service --

(1) the Canadian article is, under customs supervision, destroyed or exported, or

(2) duty is paid to the United States Government in an amount equal to the duty which would have been payable at the time of entry if the Canadian article had not been entered as original motor-vehicle equipment.

(v) Articles Eligible for Duty-Free Entry Pursuant to the Agreement on Trade in Civil Aircraft. Whenever a product is entered under a heading for which the rate of duty "Free (CA)" appears in the "Preferential" column, the importer shall, in order to obtain duty-free entry of such product, file a written statement, accompanied by such supporting documentation as the Secretary of the Treasury may require, with the appropriate customs officer stating that the imported article has been imported for use in civil aircraft, that it will be so used, and that the article has been approved for such use by the Administrator of the Federal Aviation Authority (F.A.A.) or by the airworthiness authority in the country of exportation, if such approval is recognized by the F.A.A. as an acceptable substitute for F.A.A. certification, or that an application for approval for such use has been submitted to, and accepted by, the Administrator of the F.A.A. For purposes of the tariff schedule, the term "civil aircraft" means all aircraft other than aircraft purchased for use by the Department of Defense or the United States Coast Guard.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the chapter 99 of the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of general legal note 1 --

(a) corpses, together with their coffins and accompanying flowers, and

(b) telecommunications transmissions,

are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. For the purposes of the tariff schedule, unless the context otherwise requires--

(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,

(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) the term "rate of duty" includes a free rate of duty; rates of duty proclaimed by the President shall be referred to as "proclaimed" rates of duty; rates of duty enacted by the Congress shall be referred to as "statutory" rates of duty.

(e) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

(f) a reference to "headings" encompasses subheadings indented thereunder.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

Classification of articles in the tariff schedule shall be governed by the following principles:

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative legal notes and, provided such headings or notes do not otherwise require, according to the following provisions:

2. (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as entered, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), entered unassembled or disassembled.

(b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such material or substance. The classification of articles consisting of more than one material or substance and articles put up in sets for retail sale shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more headings, classification shall be effected as follows:

(a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to one or more of the materials or substances contained in mixed or composite articles or to one or more of the items in a set put up for retail sale, those headings are to be regarded as equally specific in relation to those articles, even if one of them gives a more complete or precise description of the articles.

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.

(c) When articles cannot be classified by reference to 3(a) or 3(b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration.

4. Articles not falling in any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. For legal purposes, the classification of articles in the subheadings of a heading shall be determined according to the terms of the subheadings and any related legal notes and, mutatis mutandis, to the above rules, on the understanding that --

(a) The scope of a heading or subheading cannot be enlarged by subheadings which follow under it;

(b) comparisons are to be made only between provisions of coordinate or equal status; i.e., after the applicable heading has been determined, then the applicable subheading at the first level of indentation must be determined; and then, where appropriate, the applicable subheading at the next level of indentation must be determined and so on.

For the purposes of this rule, the relative section, chapter, and subchapter legal notes also apply, unless the context otherwise requires.

6. Notwithstanding the foregoing provisions, the following rules shall apply:

(a) Accessories entered with the principal article with which they normally belong shall be classified with that article, provided they are of a kind and in a number normally sold therewith.

(b) [Cases, boxes and similar containers] entered with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets.

(c) [Subject to rule (b) above, packing materials and packing containers entered with the articles therein shall be classified with the articles if they are of a kind normally used for packing such goods. For the application of this rule, containers suitable for repetitive or independent commercial use are not regarded as packing containers and shall be classified separately from the articles they contain.]

7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the principal use.

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

(c) a provision for parts of an article covers products solely or principally used as a part of such articles but a provision for "parts" or "parts and accessories" shall not prevail over a specific provision for such part.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraphs (b) and (c) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under subheading 0106.00.50 is "0106.00.5010".

(b) Wherever preferential tariff treatment is claimed under a heading where such treatment is provided pursuant to general legal note 3, the statistical reporting number for the article being so entered is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision under paragraph (a) of this note followed by the symbol representing the program under which such treatment is afforded. Thus, the statistical reporting number for an automatic pilot imported to be used in civil aircraft is "9014.20.4000CA".

(c) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the 8-digit heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

TOOLS, IMPLEMENTS, CUTLERY, SPOONS AND FORKS, OF BASE METAL; PARTS THEREOF OF BASE METAL

Legal Notes

1. Apart from blow torches and similar self-contained torches, portable forges, grinding wheels with frameworks, manicure and pedicure sets, and articles of heading 8209, this chapter covers only articles with a blade, working edge, working surface or other working part of--

   (a) Base metal;

   (b) Metal carbides or cermets;

   (c) Precious or semi-precious stones (natural synthetic, or reconstructed) on a support of base metal, metal carbide or cermet; or

   (d) Abrasive materials on a support of base metal, provided that the articles have cutting teeth, flutes, grooves, or the like, of base metal, which retain their identity and function after the application of the abrasive.

2. Parts of base metal of the articles of this chapter are to be classified with the articles of which they are parts, except parts separately specified as such and tool-holders for hand tools (heading 8466) and except where subdivisions otherwise provide for parts. However, parts of general use as defined in legal note 2 to section XV are in all cases excluded from this chapter.

   Heads, blades, and cutting plates for electric shavers and electric hair clippers are to be classified in heading 8510.

3. Sets consisting of one or more knives of heading 8211 and at least an equal number of articles of heading 8215 are to be classified in heading 8215.

Additional U.S. Legal Notes

1. This chapter does not include articles of precious metal, or of metals clad with precious metals (chapter 71).

2. The provisions in this chapter which specifically refer to kitchen or table ware include articles of types which are used outdoors as well as those which are used indoors.

3. In determining the length of files and rasps (heading 8203), the tang (if any) should not be included.

4. Heading 8207 covers tools which are unsuitable for use independently, but which are designed to be fitted into hand tools, machine tools of heading 8457 to 8465, or 8479, or to hand tools of heading 8467 to 8507, but does not include--

   (a) Saw blades of all kinds (heading 8202);

   (b) Knives and cutting blades for machines or for mechanical appliances (heading 8208); or

   (c) Work and tool holders for machines or hand tools, and self-opening die heads (heading 8466).

5. The scope of subheadings 8211.10 is limited to sets of different knives or sets of assorted articles in which the knives predominate over the other articles.

6. For the purposes of determining the rate of duty applicable to sets provided for in heading 8205, 8211, or 8215, a specific rate of duty or a compound rate of duty for any article in the set shall be converted to its ad valorem equivalent rate, i.e., the ad valorem rate which, when applied to the full value of the article determined in accordance with section 402 of this Act, would provide the same amount of duties as the specific or compound rate.

Statistical Note

1. For the purposes of statistical reporting of sets in heading 8205, 8206, 8211, or 8215, the number of pieces reported shall be the total number of separate pieces in the set(s).

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the

Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In response to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29, and 30, 1982. The second set of coverted chapters was published for hearing and public comment on August 16, 1982 (47 F.R. 37317 of August 25, 1982). A hearing was held on those chapters on November 1, 1982.

This final set of chapters includes changes in two important areas. First, the "Rates of Duty 1" column has been divided into columns containing rates of duty 1 "General" and rates of duty 1 "Preferential". The "General" column contains the most-favored-nation rates now set forth in column 1 of the existing TSUS, while the "Prefential" column sets forth the preferential rates of duty provided for certain articles and countries under several trade agreement programs. An explanation of the rates of duty columns is provided in general legal note 3.

Second, revised texts of the general legal notes and general interpretive rules are included in each of the above-listed volumes. It should be noted that portions of general interpretive rule 6 regarding containers are published in square brackets; the wording of these provisions has not yet been finally determined by the Harmonized System and Nomenclature committees. Comments concerning the legal notes and rules are particularly sought, including specific views on general interpretive rule 6.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission is utilizing the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the general legal notes, the general rules of interpretation, the chapters and the two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1, 2, 4, 6, 9, and 10 (currently 1, 2, 4, 7, 11, and 12, respectively, in the TSUS) are virtually identical to the corresponding listed headnotes in the TSUS. The remaining legal notes differ in substance from current general headnotes.

General legal note 3, explaining the rates of duty as they appear in the tariff schedule, differs in two respects from current general headnote 3. First, the note commences by defining in paragraph (a) the rates of duty in column 1, whereas existing headnote 3 sets forth provisions as to the application of special tariff preferences and of column 2 rates of duty and applies column 1 rates to all other articles. Second, note 3 explains the "Preferential" column now being added as a part of column 1, in order to indicate the application of preferential tariff rates under four programs. Eligibility for these programs is covered in paragraph (c). Notes 3(c)(ii) and (iii),

dealing with the Generalized System of Preferences (GSP) and the Least Developed Developing Countries (LDDC), respectively, have not been included at this time. The current GSP column in the TSUS has also not been included since indication of GSP eligibility would be included in the "Preferential" column, at a later date. Notes 3(c)(iv) and (v) cover articles eligible for preferential treatment under the Automotive Products Agreement with Canada and the Agreement on Trade in Civil Aircraft, respectively. Note 3(c)(iv) also includes definitions from headnote 2, part 6B of schedule 6.

Note 5 has been amended by deleting electricity, currency, securities, and vessels from, and by adding telecommunications transmissions to, the enumeration of articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule and consequently excluded from entry requirements. It is noted that new U.S. Legal Notes will be added to chapters 49 and 71 which would exempt currency in current circulation and securities and similar evidence of value from formal entry requirements.

The abbreviations enumerated in note 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward, although five current definitions are included in general legal note 8. A number of the terms have not been employed in the draft chapter released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to headings and legal notes or by application of the General Rules of Interpretation. Definition (f) makes it clear that "heading" is to be read as encompassing subheadings thereunder.

The draft General Rules of Interpretation are the provisionally adopted "Rules for the Interpretation of the Harmonized System", as revised by the Harmonized System and Nomenclature Committees, with certain important modifications. First, rule 3 has been modified to include the substance of current TSUS rule 10(c), providing guidance in determining the relative specificity of two or more tariff provisions, and to clarify the classification of mixtures and composite articles. Second, new rule 7, encompassing the substance of current TSUS rules 10(e) and 10(ij), has been added to reflect the U.S. treatment of use provisions and of parts. It should be noted that rule 6 as it applies to containers includes matter in square brackets, representing wording which has not been finally adopted by the above Committees.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference.

The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal notes 3 and 5.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns designated 1 ("General" and "Preferential"), and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Rate of Duty Column 1

(i) Except as provided in subparagraph (iv) of this legal note, the rates of duty in column numbered 1 are Most-Favored-Nation (MFN) rates which are applicable to products of countries other than those enumerated in paragraph (b) of this legal note. Column 1 is divided into 2 parts, "General" and "Preferential", which are applicable as provided below.

(ii) The "General" column sets forth the general MFN rates which are applicable to products of those countries described in (i) above which are not entitled to preferential tariff treatment as set forth below.

(iii) The "Preferential" column reflects rates of duty under one or more preferential tariff treatment programs described in paragraph (c) of this legal note and identified in parentheses immediately following the duty rate specified in such column. These rates apply to those products which are properly classified under a heading for which a preferential rate is indicated and for which all of the legal requirements for eligibility for such program or programs have been met. Where a product is eligible for preferential treatment under more than one program, the lowest rate of duty provided for any applicable program shall be imposed. Where no preferential rate of duty is provided for a heading, or where the country from which a product eligible for preferential treatment was imported is not designated as a beneficiary country under a program appearing with the appropriate heading, the rates of duty in the "General" column of column 1 shall be applied.

(iv) Products of Insular Possessions.

(A) Except as provided in additional U.S. legal note 6 of chapter 91 and except as provided in additional U.S. legal note 3 of chapter 96, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column designated 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(B) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(1) at the time such article is entered, or

(2) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (2) of this subparagraph applies shall be exempt from duty under subparagraph (A) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(C) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Certain Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, to section 404(a) of the Trade Act of 1974, or to any other applicable section of law, or to action taken by the President thereunder:

Albania
Bulgaria
Cuba 1/
Czechoslovakia
Estonia
German Democratic Republic
Kampuchea
Laos
Latvia
Lithuania
Mongolia
North Korea
Poland
Union of Soviet Socialist Republics
Vietnam

(c) Products Eligible for Preferential Tariff Treatment.

(i) Programs under which preferential tariff treatment may be provided, and the corresponding symbols for such programs as they are indicated in the "Preferential" column, are as follows:

Generalized System of Preferences..........................GSP
Least Developed Developing Countries.......................LDDC
Automotive Products Trade Act..............................AP
Agreement on Trade in Civil Aircraft.......................CA

1/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

(ii) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(iii) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(iv) Automotive Products and Motor Vehicles Eligible for Preferential Tariff Treatment. Articles entered under headings for which duty-free entry has been proclaimed by the President under the Automotive Products Trade Act (AP) are subject to the following provisions:

(A) Motor vehicles and original equipment therefor of Canadian origin provided for in headings for which the rate of duty "Free (AP)" appears in the "Preferential" column may be entered free of duty. As used in the tariff schedule--

(1) The term "Canadian article" means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(2) The term "original motor-vehicle equipment", as used in the schedule with reference to a Canadian article (as defined above), means such a Canadian article which has been obtained from a supplier in Canada under or pursuant to a written order, contract, or letter of intent of a bona fide motor-vehicle manufacturer in the United States, and which is a fabricated component intended for use as original equipment in the manufacture in the United States of a motor vehicle, but the term does not include trailers or articles to be used in their manufacture.

(3) The term "motor vehicle", as used in this legal note, means a motor vehicle of a kind described in headings 8702, 8703, and 8704 of chapter 87 (excluding an electric trolley bus and a three-wheeled vehicle) or an automobile truck tractor principally designed for the transport of persons or articles.

(4) The term "bona fide motor-vehicle manufacturer", as used in this legal note, means a person who, upon application to the Secretary of Commerce, is determined by the Secretary to have produced no fewer than 15 complete motor vehicles in the United States during the previous 12 months, and to have installed capacity in the United States to produce 10 or more complete motor vehicles per 40-hour week. The Secretary of Commerce shall maintain, and publish from time to time in the Federal Register, a list of the names and addresses of bona fide motor-vehicle manufacturers.

(B) If any Canadian article accorded the status of original motor-vehicle equipment is not so used in the manufacture in the United States of motor vehicles, such Canadian article or its value (to be recovered from the importer or other person who diverted the article from its intended use as original motor-vehicle equipment) shall be subject to forfeiture, unless at the time of the diversion of the Canadian article the United States Customs Service is notified in writing, and, pursuant to arrangements made with the Service --

(1) the Canadian article is, under customs supervision, destroyed or exported, or

(2) duty is paid to the United States Government in an amount equal to the duty which would have been payable at the time of entry if the Canadian article had not been entered as original motor-vehicle equipment.

(v) Articles Eligible for Duty-Free Entry Pursuant to the Agreement on Trade in Civil Aircraft. Whenever a product is entered under a heading for which the rate of duty "Free (CA)" appears in the "Preferential" column, the importer shall, in order to obtain duty-free entry of such product, file a written statement, accompanied by such supporting documentation as the Secretary of the Treasury may require, with the appropriate customs officer stating that the imported article has been imported for use in civil aircraft, that it will be so used, and that the article has been approved for such use by the Administrator of the Federal Aviation Authority (F.A.A.) or by the airworthiness authority in the country of exportation, if such approval is recognized by the F.A.A. as an acceptable substitute for F.A.A. certification, or that an application for approval for such use has been submitted to, and accepted by, the Administrator of the F.A.A. For purposes of the tariff schedule, the term "civil aircraft" means all aircraft other than aircraft purchased for use by the Department of Defense or the United States Coast Guard.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the chapter 99 of the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of general legal note 1 --

(a) corpses, together with their coffins and accompanying flowers, and

(b) telecommunications transmissions,

are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. For the purposes of the tariff schedule, unless the context otherwise requires--

(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,

(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) the term "rate of duty" includes a free rate of duty; rates of duty proclaimed by the President shall be referred to as "proclaimed" rates of duty; rates of duty enacted by the Congress shall be referred to as "statutory" rates of duty.

(e) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

(f) a reference to "headings" encompasses subheadings indented thereunder.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

Classification of articles in the tariff schedule shall be governed by the following principles:

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative legal notes and, provided such headings or notes do not otherwise require, according to the following provisions:

2. (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as entered, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), entered unassembled or disassembled.

(b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such material or substance. The classification of articles consisting of more than one material or substance and articles put up in sets for retail sale shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more headings, classification shall be effected as follows:

(a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to one or more of the materials or substances contained in mixed or composite articles or to one or more of the items in a set put up for retail sale, those headings are to be regarded as equally specific in relation to those articles, even if one of them gives a more complete or precise description of the articles.

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.

(c) When articles cannot be classified by reference to 3(a) or 3(b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration.

4. Articles not falling in any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. For legal purposes, the classification of articles in the subheadings of a heading shall be determined according to the terms of the subheadings and any related legal notes and, mutatis mutandis, to the above rules, on the understanding that --

(a) The scope of a heading or subheading cannot be enlarged by subheadings which follow under it;

(b) comparisons are to be made only between provisions of coordinate or equal status; i.e., after the applicable heading has been determined, then the applicable subheading at the first level of indentation must be determined; and then, where appropriate, the applicable subheading at the next level of indentation must be determined and so on.

For the purposes of this rule, the relative section, chapter, and subchapter legal notes also apply, unless the context otherwise requires.

6. Notwithstanding the foregoing provisions, the following rules shall apply:

(a) Accessories entered with the principal article with which they normally belong shall be classified with that article, provided they are of a kind and in a number normally sold therewith.

(b) [Cases, boxes and similar containers] entered with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets.

(c) [Subject to rule (b) above, packing materials and packing containers entered with the articles therein shall be classified with the articles if they are of a kind normally used for packing such goods. For the application of this rule, containers suitable for repetitive or independent commercial use are not regarded as packing containers and shall be classified separately from the articles they contain.]

7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the principal use.

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

(c) a provision for parts of an article covers products solely or principally used as a part of such articles but a provision for "parts" or "parts and accessories" shall not prevail over a specific provision for such part.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraphs (b) and (c) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under subheading 0106.00.50 is "0106.00.5010".

(b) Wherever preferential tariff treatment is claimed under a heading where such treatment is provided pursuant to general legal note 3, the statistical reporting number for the article being so entered is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision under paragraph (a) of this note followed by the symbol representing the program under which such treatment is afforded. Thus, the statistical reporting number for an automatic pilot imported to be used in civil aircraft is "9014.20.4000CA".

(c) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the 8-digit heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) April 22, 1983. The signed original and 19 copies of all written comments must be filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on March 30, 1983, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on March 21, 1983. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. The original and 19 copies of prepared testimony must be filed with the Secretary of the Commission at his office in Washington, D.C. not later than the close of business (5:15 p.m.) March 23, 1982. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the office of the Secretary, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the

Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In response to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29, and 30, 1982. The second set of coverted chapters was published for hearing and public comment on August 16, 1982 (47 F.R. 37317 of August 25, 1982). A hearing was held on those chapters on November 1, 1982.

This final set of chapters includes changes in two important areas. First, the "Rates of Duty 1" column has been divided into columns containing rates of duty 1 "General" and rates of duty 1 "Preferential". The "General" column contains the most-favored-nation rates now set forth in column 1 of the existing TSUS, while the "Prefential" column sets forth the preferential rates of duty provided for certain articles and countries under several trade agreement programs. An explanation of the rates of duty columns is provided in general legal note 3.

Second, revised texts of the general legal notes and general interpretive rules are included in each of the above-listed volumes. It should be noted that portions of general interpretive rule 6 regarding containers are published in square brackets; the wording of these provisions has not yet been finally determined by the Harmonized System and Nomenclature committees. Comments concerning the legal notes and rules are particularly sought, including specific views on general interpretive rule 6.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission is utilizing the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the general legal notes, the general rules of interpretation, the chapters and the two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1, 2, 4, 6, 9, and 10 (currently 1, 2, 4, 7, 11, and 12, respectively, in the TSUS) are virtually identical to the corresponding listed headnotes in the TSUS. The remaining legal notes differ in substance from current general headnotes.

General legal note 3, explaining the rates of duty as they appear in the tariff schedule, differs in two respects from current general headnote 3. First, the note commences by defining in paragraph (a) the rates of duty in column 1, whereas existing headnote 3 sets forth provisions as to the application of special tariff preferences and of column 2 rates of duty and applies column 1 rates to all other articles. Second, note 3 explains the "Preferential" column now being added as a part of column 1, in order to indicate the application of preferential tariff rates under four programs. Eligibility for these programs is covered in paragraph (c). Notes 3(c)(ii) and (iii),

dealing with the Generalized System of Preferences (GSP) and the Least Developed Developing Countries (LDDC), respectively, have not been included at this time. The current GSP column in the TSUS has also not been included since indication of GSP eligibility would be included in the "Preferential" column, at a later date. Notes 3(c)(iv) and (v) cover articles eligible for preferential treatment under the Automotive Products Agreement with Canada and the Agreement on Trade in Civil Aircraft, respectively. Note 3(c)(iv) also includes definitions from headnote 2, part 6B of schedule 6.

Note 5 has been amended by deleting electricity, currency, securities, and vessels from, and by adding telecommunications transmissions to, the enumeration of articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule and consequently excluded from entry requirements. It is noted that new U.S. Legal Notes will be added to chapters 49 and 71 which would exempt currency in current circulation and securities and similar evidence of value from formal entry requirements.

The abbreviations enumerated in note 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward, although five current definitions are included in general legal note 8. A number of the terms have not been employed in the draft chapter released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to headings and legal notes or by application of the General Rules of Interpretation. Definition (f) makes it clear that "heading" is to be read as encompassing subheadings thereunder.

The draft General Rules of Interpretation are the provisionally adopted "Rules for the Interpretation of the Harmonized System", as revised by the Harmonized System and Nomenclature Committees, with certain important modifications. First, rule 3 has been modified to include the substance of current TSUS rule 10(c), providing guidance in determining the relative specificity of two or more tariff provisions, and to clarify the classification of mixtures and composite articles. Second, new rule 7, encompassing the substance of current TSUS rules 10(e) and 10(ij), has been added to reflect the U.S. treatment of use provisions and of parts. It should be noted that rule 6 as it applies to containers includes matter in square brackets, representing wording which has not been finally adopted by the above Committees.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference.

The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal notes 3 and 5.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns designated 1 ("General" and "Preferential"), and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Rate of Duty Column 1

(i) Except as provided in subparagraph (iv) of this legal note, the rates of duty in column numbered 1 are Most-Favored-Nation (MFN) rates which are applicable to products of countries other than those enumerated in paragraph (b) of this legal note. Column 1 is divided into 2 parts, "General" and "Preferential", which are applicable as provided below.

(ii) The "General" column sets forth the general MFN rates which are applicable to products of those countries described in (i) above which are not entitled to preferential tariff treatment as set forth below.

(iii) The "Preferential" column reflects rates of duty under one or more preferential tariff treatment programs described in paragraph (c) of this legal note and identified in parentheses immediately following the duty rate specified in such column. These rates apply to those products which are properly classified under a heading for which a preferential rate is indicated and for which all of the legal requirements for eligibility for such program or programs have been met. Where a product is eligible for preferential treatment under more than one program, the lowest rate of duty provided for any applicable program shall be imposed. Where no preferential rate of duty is provided for a heading, or where the country from which a product eligible for preferential treatment was imported is not designated as a beneficiary country under a program appearing with the appropriate heading, the rates of duty in the "General" column of column 1 shall be applied.

(iv) Products of Insular Possessions.

(A) Except as provided in additional U.S. legal note 6 of chapter 91 and except as provided in additional U.S. legal note 3 of chapter 96, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column designated 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(B) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(1) at the time such article is entered, or

(2) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (2) of this subparagraph applies shall be exempt from duty under subparagraph (A) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(C) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Certain Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, to section 404(a) of the Trade Act of 1974, or to any other applicable section of law, or to action taken by the President thereunder:

Czechoslovakia
Estonia
German Democratic Republic
Kampuchea
Laos
Latvia
Lithuania
Mongolia
North Korea
Poland
Union of Soviet Socialist Republics

(c) Products Eligible for Preferential Tariff Treatment.

(i) Programs under which preferential tariff treatment may be provided, and the corresponding symbols for such programs as they are indicated in the "Preferential" column, are as follows:

Generalized System of Preferences............................GSP
Least Developed Developing Countries........................LDDC
Automotive Products Trade Act................................AP
Agreement on Trade in Civil Aircraft.........................CA

1/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

(ii) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(iii) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(iv) Automotive Products and Motor Vehicles Eligible for Preferential Tariff Treatment. Articles entered under headings for which duty-free entry has been proclaimed by the President under the Automotive Products Trade Act (AP) are subject to the following provisions:

(A) Motor vehicles and original equipment therefor of Canadian origin provided for in headings for which the rate of duty "Free (AP)" appears in the "Preferential" column may be entered free of duty. As used in the tariff schedule--

(1) The term "Canadian article" means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(2) The term "original motor-vehicle equipment", as used in the schedule with reference to a Canadian article (as defined above), means such a Canadian article which has been obtained from a supplier in Canada under or pursuant to a written order, contract, or letter of intent of a bona fide motor-vehicle manufacturer in the United States, and which is a fabricated component intended for use as original equipment in the manufacture in the United States of a motor vehicle, but the term does not include trailers or articles to be used in their manufacture.

(3) The term "motor vehicle", as used in this legal note, means a motor vehicle of a kind described in headings 8702, 8703, and 8704 of chapter 87 (excluding an electric trolley bus and a three-wheeled vehicle) or an automobile truck tractor principally designed for the transport of persons or articles.

(4) The term "bona fide motor-vehicle manufacturer", as used in this legal note, means a person who, upon application to the Secretary of Commerce, is determined by the Secretary to have produced no fewer than 15 complete motor vehicles in the United States during the previous 12 months, and to have installed capacity in the United States to produce 10 or more complete motor vehicles per 40-hour week. The Secretary of Commerce shall maintain, and publish from time to time in the Federal Register, a list of the names and addresses of bona fide motor-vehicle manufacturers.

(B) If any Canadian article accorded the status of original motor-vehicle equipment is not so used in the manufacture in the United States of motor vehicles, such Canadian article or its value (to be recovered from the importer or other person who diverted the article from its intended use as original motor-vehicle equipment) shall be subject to forfeiture, unless at the time of the diversion of the Canadian article the United States Customs Service is notified in writing, and, pursuant to arrangements made with the Service --

(1) the Canadian article is, under customs supervision, destroyed or exported, or

(2) duty is paid to the United States Government in an amount equal to the duty which would have been payable at the time of entry if the Canadian article had not been entered as original motor-vehicle equipment.

(v) Articles Eligible for Duty-Free Entry Pursuant to the Agreement on Trade in Civil Aircraft. Whenever a product is entered under a heading for which the rate of duty "Free (CA)" appears in the "Preferential" column, the importer shall, in order to obtain duty-free entry of such product, file a written statement, accompanied by such supporting documentation as the Secretary of the Treasury may require, with the appropriate customs officer stating that the imported article has been imported for use in civil aircraft, that it will be so used, and that the article has been approved for such use by the Administrator of the Federal Aviation Authority (F.A.A.) or by the airworthiness authority in the country of exportation, if such approval is recognized by the F.A.A. as an acceptable substitute for F.A.A. certification, or that an application for approval for such use has been submitted to, and accepted by, the Administrator of the F.A.A. For purposes of the tariff schedule, the term "civil aircraft" means all aircraft other than aircraft purchased for use by the Department of Defense or the United States Coast Guard.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the chapter 99 of the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of general legal note 1 --

(a) corpses, together with their coffins and accompanying flowers, and

(b) telecommunications transmissions,

are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. For the purposes of the tariff schedule, unless the context otherwise requires--

(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,

(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) the term "rate of duty" includes a free rate of duty; rates of duty proclaimed by the President shall be referred to as "proclaimed" rates of duty; rates of duty enacted by the Congress shall be referred to as "statutory" rates of duty.

(e) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

(f) a reference to "headings" encompasses subheadings indented thereunder.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

Classification of articles in the tariff schedule shall be governed by the following principles:

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative legal notes and, provided such headings or notes do not otherwise require, according to the following provisions:

2. (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as entered, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), entered unassembled or disassembled.

(b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such material or substance. The classification of articles consisting of more than one material or substance and articles put up in sets for retail sale shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more headings, classification shall be effected as follows:

(a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to one or more of the materials or substances contained in mixed or composite articles or to one or more of the items in a set put up for retail sale, those headings are to be regarded as equally specific in relation to those articles, even if one of them gives a more complete or precise description of the articles.

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.

(c) When articles cannot be classified by reference to 3(a) or 3(b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration.

4. Articles not falling in any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. For legal purposes, the classification of articles in the subheadings of a heading shall be determined according to the terms of the subheadings and any related legal notes and, mutatis mutandis, to the above rules, on the understanding that --

(a) The scope of a heading or subheading cannot be enlarged by subheadings which follow under it;

(b) comparisons are to be made only between provisions of coordinate or equal status; i.e., after the applicable heading has been determined, then the applicable subheading at the first level of indentation must be determined; and then, where appropriate, the applicable subheading at the next level of indentation must be determined and so on.

For the purposes of this rule, the relative section, chapter, and subchapter legal notes also apply, unless the context otherwise requires.

6. Notwithstanding the foregoing provisions, the following rules shall apply:

(a) Accessories entered with the principal article with which they normally belong shall be classified with that article, provided they are of a kind and in a number normally sold therewith.

(b) [Cases, boxes and similar containers] entered with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets.

(c) [Subject to rule (b) above, packing materials and packing containers entered with the articles therein shall be classified with the articles if they are of a kind normally used for packing such goods. For the application of this rule, containers suitable for repetitive or independent commercial use are not regarded as packing containers and shall be classified separately from the articles they contain.]

7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the principal use.

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

(c) a provision for parts of an article covers products solely or principally used as a part of such articles but a provision for "parts" or "parts and accessories" shall not prevail over a specific provision for such part.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraphs (b) and (c) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under subheading 0106.00.50 is "0106.00.5010".

(b) Wherever preferential tariff treatment is claimed under a heading where such treatment is provided pursuant to general legal note 3, the statistical reporting number for the article being so entered is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision under paragraph (a) of this note followed by the symbol representing the program under which such treatment is afforded. Thus, the statistical reporting number for an automatic pilot imported to be used in civil aircraft is "9014.20.4000CA".

(c) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the 8-digit heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

CHAPTER 98

SPECIAL CLASSIFICATION PROVISIONS

Legal Notes

1. The provisions of this chapter are not subject to the rule of relative specificity in general rule of interpretation 3(a). Any article which is described in any provision in this chapter is classifiable in said provision if the conditions and requirements thereof and of any applicable regulations are met.

2. In the absence of a specific provision to the contrary, the tariff status of an article is not affected by the fact it was previously imported into the customs territory of the United States and cleared through customs whether or not duty was paid upon such previous importation.

3. Any article exempted under subchapters IV through VII, inclusive, or subchapter IX from the payment of duty shall be exempt also from the payment of any internal-revenue tax imposed upon or by reason of importation.

Statistical Notes

1. Statistical data is not to be furnished with respect to articles classified in those headings of this chapter for which no statistical suffix is shown.

2. For statistically reporting the articles provided for in this chapter the rate of duty for which is derived from a provision elsewhere in the tariff schedule, the citation shall be the 10-digit statistical reporting number provided in this chapter followed by the reporting number of the provision from which such rate is derived. The unit of quantity reported hereunder for such articles shall be the same as the unit of quantity for the provision from which the rate was derived. For example, 10 new fully automatic arc welding machines exported for repairs or alterations and returned to the United States should be entered under statistical reporting number 9802.00.4040 followed by 8515.31.0000, with the quantity being shown as 10 and the value as dutiable value.

SUBCHAPTER I

ARTICLES EXPORTED AND RETURNED, NOT ADVANCED OR IMPROVED IN CONDITION; ANIMALS EXPORTED AND RETURNED

Legal Notes

1. The subheadings in this subchapter (except subheadings 9801.00.70 and 9801.00.80) shall not apply to any article --

   (a) exported with benefit of drawback;

   (b) of a kind with respect to the importation of which an internal-revenue tax is imposed at the time such article is entered, unless such article was subject to an internal-revenue tax imposed upon production or importation at the time of its exportation from the United States and it shall be proved that such tax was paid before exportation and was not refunded; or

   (c) manufactured or produced in the United States in a customs bonded warehouse or under subheading 9813.00.05 and exported under any provision of law.

2. For the purposes of sunheadings 9813.00.70 and 9801.00.80 --

   (a) when because of the destruction of customs records or for other cause it is impracticable to establish whether drawback was allowed, or the amount allowed, on a returned article, there shall be assessed thereon an amount of duty equal to the estimated drawback and internal-revenue tax which would be allowable or refundable if the imported merchandise used in the manufacture or production of the returned article were dutiable or taxable at the rate applicable to such merchandise on the date of entry, but in no case more than the duty and tax that would apply if the article were wholly of foreign origin;

   (b) tobacco products and cigarette papers and tubes classifiable under such item may be released from customs custody, without payment of that part of duty attributable to the internal-revenue tax, for return to internal-revenue bond as provided by section 5704(d) 1/ of the Internal Revenue Code of 1954; and

   (c) in order to facilitate the ascertainment and collection of the duty provided for, the Secretary of the Treasury is authorized to ascertain and specify the amounts of duty equal to drawback or internal-revenue tax which shall be applied to articles or classes or kinds of articles, and to exempt from the assessment of duty articles or classes or kinds of articles with respect to which the collection of such duty involves expense and inconvenience to the Government which is disproportionate to the probable amount of such duty.

This draft conversion is based on the 5- and 7-digit provisions in effect in the TSUSA on or before 7/1/81. The report to the President will be updated to reflect those changes in the TSUSA that have become effective since then or will become effective on or before 1/1/83.

Legal Notes

1. This subchapter shall not apply to any article exported --

   (a) from continuous customs custody with remission, abatement, or refund of duty;

   (b) with benefit of drawback;

   (c) to comply with any law of the United States or regulation of any Federal agency requiring exportation; or

   (d) after manufacture or production in the United States under subheading 9813.00.05.

2. Any product of the United States which is returned after having been advanced in value or improved in condition abroad by any process of manufacture or other means, or any imported article which has been assembled abroad in whole or in part of products of the United States, shall be treated for the purposes of this Act as a foreign article, and, if subject to a duty which is wholly or partly ad valorem, shall be dutiable, except as otherwise prescribed in this part, on its full value determined in accordance with section 402 of the Tariff Act of 1930, as amended. If such product or such article is dutiable at a rate dependent upon its value, the value for the purpose of determining the rate shall be its full value under the said section 402 .

3. Articles repaired, altered, processed, or otherwise changed in condition abroad.--The following provisions apply only to subheadings 9802.00.40 and 9802.00.60:

   (a) The value of repairs, alterations, processing, or other change in condition outside the United States shall be --

   (i) the cost to the importer of such change; or

   (ii) if no charge is made, the value of such change,

   as set out in the invoice and entry papers; except that, if the appraiser concludes that the amount so set out does not represent a reasonable cost or value, then the value of the change shall be determined in accordance with section 402 of the Tariff Act of 1930, as amended.

   (b) No appraisement of the imported article in its changed condition shall be required unless necessary to a determination of the rate or rates of duty applicable to such article.

   (c) The duty upon the value of the change in condition shall be at the rate which would apply to the article itself, as an entirety without constructive separation of its components, in its condition as imported if it were not within the purview of this subchapter. If the article, as returned to the United States, is subject to a specific or compound rate of duty, such rate shall be converted to the ad valorem rate which when applied to the full value of such article determined in accordance with said section 402 would provide the same amount of duties as the specific or compound rate. In order to compute the duties due, the ad valorem rate so obtained shall be applied to the value of the change in condition made outside the United States.

   (d) For purposes of subheading 9802.00.60, the term "metal" covers (1) the base metals enumerated in additional U.S. legal note 1 to section XV; (2) arsenic, barium, boron, calcium, columbium, mercury, selenium, silicon, strontium, tellurium, thorium, uranium, and the rare-earth elements; and (3) alloys of any of the foregoing.

4. Articles assembled abroad with components produced in the United States.--The following provisions apply only to subheading 9802.00.80:

   (a) The value of the products of the United States assembled into the imported article shall be --

   (i) the cost of such products at the time of the last purchase; or

   (ii) if no charge is made, the value of such products at the time of the shipment for exportation,

   as set out in the invoice and entry papers; except that, if the appraiser concludes that the amount so set out does not represent a reasonable cost or value, then the value of such products shall be determined in accordance with section 402 of the Tariff Act of 1930, as amended.

   (b) The duty on the imported article shall be at the rate which would apply to the imported article itself, as an entirety without constructive separation of its components, in its condition as imported if it were not within the purview of this subchapter. If the imported article is subject to a specific or compound rate of duty, the total duties shall be reduced in such proportion as the cost or value of such products of the United States bears to the full value of the imported article.

5. No imported article shall be accorded partial exemption from duty under more than one item in this subchapter.

Statistical Note

1. For articles admitted under statistical reporting number 9802.00.6000 or 9802.00.8000 two values shall be reported--the first immediately following the first 10-digit number of the statistical citation (i.e., 9802.00.6000 or 9802.00.8000) and the second immediately following the statistical reporting number of the provision in chapters 1-97 from which the rate of duty is derived, as follows:

   (a) For statistical reporting number 9802.00.6000--

      (i) the total value of the article less the value of the foreign processing, and

      (ii) the dutiable value, i.e., the value of the foreign processing, respectively; and

   (b) For statistical reporting number 9802.00.8000--

      (i) the value of the U.S. fabricated components, and

      (ii) the dutiable value, i.e., the total value of the articles less the value of the U.S. fabricated components, respectively.

1. Except as provided in subheadings 9810.00.20, 9810.00.70, and 9810.00.85, or as otherwise provided for in this legal note, the articles covered by this subchapter must be exclusively for the use of the institutions involved, and not for distribution, sale, or other commercial use within 5 years after being entered. Articles admitted under any items in this subchapter may be transferred from an institution specified with respect to such articles to another such institution, or may be exported or destroyed under customs supervision, without duty liability being incurred. However, if any such article (other than an article provided for in subheading 9810.00.20 or 9810.00.70) is transferred other than as provided by the preceding sentence, or is used for commercial purposes, within 5 years after being entered, the institution for which such article was entered shall promptly notify customs officers at the port of entry and shall be liable for the payment of duty on such article in an amount determined on the basis of its condition as imported and the rate applicable to it (determined without regard to this subchapter) when entered. If, with a view to a transfer (other than a transfer permitted by the second sentence) or the use for commercial purposes of an instrument or apparatus, a repair component admitted under subheading 9810.00.65 has been assembled into such instrument or apparatus, such component shall, for purposes of the preceding sentence, be treated as a separate article.

(b) An institution desiring to enter an article under subheading 9810.00.60 shall make application therefor to the Secretary of the Treasury including therein (in addition to such other information as may be prescribed by regulation) a description of the article, the purposes for which the instrument or apparatus is intended to be used, the basis for the institution's belief that no instrument or apparatus of equivalent scientific value for such purposes is being manufactured in the United States, and a statement that either the institution has already placed a bona fide order for the instrument or apparatus or has a firm intention, in the event of favorable action on its application, to place such an order on or before the final day specified in paragraph (d) of this legal note for the placing of an order. If the application is made in accordance with the applicable regulations, the Secretary of the Treasury shall promptly forward copies thereof to the Secretary of Commerce and to the Secretary of Health and Human Services. If, at any time while its application is under consideration by the Secretary of Commerce or by the Court of Appeals for the Federal Circuit on appeal from a finding by him, an institution cancels an order for the instrument or apparatus to which its application relates or ceases to have a firm intention to order such instrument or apparatus, it shall promptly so notify the Secretary of Commerce or such Court, as the case may be.

(c) Upon receipt of the application the Secretary of Commerce shall, by publication in the Federal Register, afford interested persons and other Government agencies reasonable opportunity to present their views with respect to the question whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. After considering any views presented pursuant to this paragraph, including any written advice from the Secretary of Health and Human Services, the Secretary of Commerce shall determine whether an instrument or apparatus of equivalent scientific value to such article, for the purposes for which the instrument or apparatus is intended to be used, is being manufactured in the United States. Each finding by the Secretary of Commerce under this paragraph shall be promptly reported to the Secretary of the Treasury and to the applicant institution. Each such finding shall be published in the Federal Register, with a statement of the reasons therefor, on or before the ninetieth day following the date on which the application was made to the Secretary of the Treasury in accordance with applicable regulations.

(d) Subheading 9810.00.60 shall not apply with respect to any instrument or apparatus unless a bona fide order therefor has been placed, by the institution making the application under this legal note, on or before the sixtieth day following the day on which a finding of the Secretary of Commerce favorable to the institution has become final and conclusive.

(e) Within 20 days after the publication in the Federal Register of a finding by the Secretary of Commerce under paragraph (c) of this legal note, an appeal may be taken from said finding only upon a question or questions of law and only to the United States Court of Appeals for the Federal Circuit --

(i) by the institution which made the application under paragraph (b) of this legal note,

(ii) by a person who, in the proceeding which lead to such finding, represented to the Secretary of Commerce in writing that he manufactures in the United States an instrument or apparatus of equivalent scientific value for the purposes for which the article to which the application relates is intended to be used,

(iii) by the importer thereof, if the article to which the application relates has been entered at the time the appeal is taken, or

(iv) by an agent of any of the foregoing.

Any appeal under this paragraph shall receive a preference over all other matters before the Court and shall be heard and determined as expeditiously as the Court considers to be practicable. The judgment of the Court shall be final.

(f) The Secretary of the Treasury and the Secretary of Commerce may prescribe joint regulations to carry out their functions under this legal note.

      (ii) all articles and valuable wastes resulting from such processing will be exported or destroyed under customs supervision within the bonded period; except that in lieu of the exportation or destruction of valuable wastes, duties may be tendered on such wastes at rates of duties in effect for such wastes at the time of importation.

The initial survey shall cover the last half of 1979 and the first half of 1980, the last such survey shall cover the semiannual period which ends not less than 60 days prior to the termination of the import relief. The results of the surveys shall be published and transmitted to the U.S. Trade Representative within 60 days of the end of each survey period.

   (b) Annually.--Annual surveys to obtain from domestic producers annual data on profits, capital expenditures, capacity, and capacity utilization. The initial survey shall cover calendar year 1979, and the results of this and subsequent surveys shall be published and transmitted to the U.S. Trade Representative by the end of the first quarter of each year thereafter so long as the import relief is in effect.

ADDITIONAL IMPORT RESTRICTIONS PROCLAIMED PURSUANT TO SECTION 22 OF THE AGRICULTURAL ADJUSTMENT ACT, AS AMENDED

Legal Notes

1. This subchapter covers the provisions proclaimed by the President pursuant to section 22 of the Agricultural Adjustment Act, as amended (7 USC 624), imposing import fees, herein referred to as duties, and quantitative limitations on articles imported into the United States. The duties provided for in this subchapter are cumulative duties which apply in addition to the duties, if any, otherwise imposed on the articles involved. Unless otherwise stated, the duties and quantitative limitations provided for in this subchapter apply until suspended or terminated.

2. Exclusions.--The import restrictions provided for in this subchapter do not apply with respect to--

   (a) articles imported by or for the account of any agency of the United States;

   (b) commercial samples of cotton or cotton waste of any origin in uncompressed packages each weighing not more than 22.65 kilograms gross weight; and articles (except cotton and cotton waste) with an aggregate value not over $25 in any shipment, if imported as samples for taking orders, for the personal use of the importer, or for research;

   (c) articles entered for exhibition, display, or sampling at a Trade Fair or for research, but only if written approval of the Secretary of Agriculture or his designated representative is presented at the time of entry or bond is furnished in a form prescribed by the Commissioner of Customs in an amount equal to the value of the merchandise as set forth in the entry plus the estimated duty as determined at the time of entry, conditioned upon the production of such written approval within six months from the date of entry; and

   (d) cotton produced in the United States with respect to which the Secretary of Agriculture shall have ceritified that there has been exported without benefit of subsidy, as an offset to the proposed reentry, and equal or greater number of kilograms of cotton produced in the United States, of any grade or staple.

3. (a) Dairy products.--

   (i) Imported articles subject to the import quotas provided for in subheadings 9904.10.09 through 9904.10.60, except 9904.10.24, may be entered only by or for the account of a person or firm to which a license has been issued by or under the authority of the Secretary of Agriculture, and only in accordance with the terms of such license shall be required for up to 832,320 kilograms per quota year of natural Cheddar cheese, the product of Canada, made from unpasteurized milk and aged not less than 9 months, which prior to exportation has been certified to meet such requirements by an official of the Canadian government. Such licenses shall be issued under regulations of the Secretary of Agriculture which he determines will, to the fullest extent practicable, result in the equitable distribution of the respective quotas for such articles among importers or users and facilitate the utilization of the quotas by the supplying countries, taking due account of any special factors which may have affected or may be affecting the trade in the articles concerned.

   (ii) Under subheading 9904.10.30 not more than 4,696,699 kilograms of the annual quota quantity shall be products other than natural Cheddar cheese made from unpasteurized milk and aged not less than 9 months.

   (iii) Notwithstanding any other provision of this subchapter, if the Secretary of Agriculture determines that a quantity specified in the column entitled "Quota Quantity" opposite the name of any country is not likely to be entered from such country within any calendar year, he may provide with respect to such article for the adjustment for that calendar year, within the aggregate quantity of such article permitted to be entered from all countries during such calendar year, of the quantities of such article which may be entered during such year from the countries specified as countries of origin for such article. The Secretary of Agriculture shall notify the Secretary of the Treasury of such adjustment and, with respect to country of origin adjustments for any article for which a license is not required, file notice thereof with the Federal Register. With respect to articles for which a license is not required, such adjustment shall become effective three days after the date of publication in the Federal Register.

   (iv) For the purposes of this subchapter, the term "soft ripened cow's milk cheese" means cheese which--

   (1) has a prominent crust formed on the exterior surface as a result of curing or ripening by biological curing agents such as molds, yeasts, or other microorganisms,

   (2) visibly cures or ripens from the surface toward the center,

   (3) has a fat content by weight (on a moisture-free basis) of not less than 50 percent, and

   (4) has a moisture content (calculated by weight of the non-fatty matter) of not less than 65 percent, but does not include cheese with mold distributed throughout its interior.

Note.--This chapter reflects provisions in effect on November 12, 1982.

(b) Cotton Waste.--For the purposes of subheading 9904.30.50, the minimum quota in column (A) is that part of the total quota in column (C) which must be reserved for comber waste made from cotton 3.016 centimeters or more in staple length, and the unreserved quota in column (B) is that part of the total quota available for any quota-type waste, including comber waste made from cotton 3.016 centimeters or more in staple length.

4. Sugars and sirups.--

(a) Licenses may be issued by the Secretary of Agriculture or his designee authorizing the entry of articles exempt from the fees provided for in subheadings 9904.40.20, 9904.40.40, and 9904.40.60 of this subchapter on the condition that such articles will be used only for the production (other than by distillation) of polyhydric alcohols, except polyhydric alcohols for use as a substitute for sugar in human food consumption. Such licenses shall be issued under regulations of the Secretary of Agriculture which he determines are necessary to insure the use of such articles only for such purposes.

(b) "Not to be further refined or improved in quality" as used in subheading 9904.40.20 means not to be further refined or improved in quality by being subjected substantially to the processes of (1) affination or defecation, (2) clarification, or (3) further purification by absorption or crystallization.

(c) (i) The quarterly adjusted fee provided for in subheadings 9904.40.20 and 9904.40.60 shall be the amount of the fee for subheading 9904.40.40 plus 2.2 cents per kilogram.

(ii) The quarterly adjusted fee provided for in subheading 9904.40.40 shall be the amount by which the average of the adjusted daily spot (domestic) price quotations for raw sugar for the first 20 consecutive market days immediately preceding the 20th day of the month preceding the calendar quarter during which the fee shall be applicable (as reported by the New York Coffee, Sugar and Cocoa Exchange), expressed in United States cents per kilogram, in bulk, is less than the applicable market stabilization price: Provided, That whenever the average of such daily spot (domestic) price quotations for 10 consecutive market days within any calendar quarter, (1) exceeds the market stabilization price by more than 2.2 cents, the fee then in effect shall be decreased by 2.2 cents per kilogram, or (2) is less than the market stabilization price by more than 2.2 cents, the fee then in effect shall be increased by 2.2 cents per kilogram. The adjusted daily spot (domestic) price quotation for any market day shall be the daily spot (domestic) price quotation for such market day less the amount of the fee for subheading 9904.40.40 that is in effect on that day.

(iii) The market stabilization price for the remainder of the second, and the third calendar quarters of 1982 shall be 42.0638 cents per kilogram. The market stabilization price that shall be applicable to each subsequent fiscal year shall be determined and announced by the Secretary of Agriculture (hereafter the "Secretary") in accordance with this legal note no later than 30 days prior to the beginning of the fiscal year for which such market stabilization price shall be applicable. The market stabilization price shall be equal to the sum of: (1) the price support level for the applicable fiscal year, expressed in cents per kilogram of raw cane sugar; (2) adjusted average transportation costs; (3) interest costs, if applicable; and (4) 0.44 cents. The adjusted average transportation costs shall be the weighted average cost of handling and transporting domestically produced raw cane sugar from Hawaii to Gulf and Atlantic Coast ports, as determined by the Secretary. Interest costs shall be the amount of interest, as determined, or estimated by the Secretary, that would be required to be paid by a recipient of a price support loan for raw cane sugar upon repayment of the loan at full maturity. Interest costs shall only be applicable if a price support loan recipient is not required to pay interest upon forfeiture of the loan collateral.

(iv) The Secretary shall determine the amount of the quarterly fees in accordance with this legal note and shall announce such fees not later than the 25th day of the month preceding the calendar quarter during which the fees shall be applicable. The Secretary shall certify the amount of such fees to the Secretary of the Treasury and file notice thereof with the Federal Register prior to the beginning of the calendar quarter during which the fees shall be applicable. The Secretary shall determine and announce any adjustment in the fees made within a calendar quarter in accordance with the first proviso of paragraph (ii) hereof, shall certify such adjusted fees to the Secretary of the Treasury, and shall file notice thereof with the Federal Register within 3 market days of the fulfillment of that proviso.

(v) If an adjustment is made in the fee in accordance with the first proviso of paragraph (ii) hereof, any subsequent adjustment made within that quarter shall only be made on the basis of the average spot price for any 10 consecutive market day period following the effective date of the immediately preceding fee adjustment. No adjustment shall be made in any fee in accordance with the first proviso of paragraph (ii) hereof during the last fifteen market days of a calendar quarter.

(vi) Any adjustment made in a fee during a quarter in accordance with the first proviso of paragraph (ii) hereof shall be effective only with respect to sugar entered, or withdrawn from warehouse, for consumption after 12:01 a.m. (local time at point of entry) on the day following the filing of notice thereof with the Federal Register: Provided, That such adjustment in the fee shall not apply to sugar exported (as defined in section 152.1 of the Customs Regulations) on a through bill of lading to the United States from the country of origin before such time. The exemption contained in the preceding proviso shall apply regardless of whether the adjustment in the fee is upward or downward.
