NOTICE OF HEARING ON AND RELEASE FOR PUBLIC COMMENT OF CHAPTERS OF THE TARIFF SCHEDULES OF THE UNITED STATES CONVERTED INTO THE NOMENCLATURE STRUCTURE OF THE HARMONIZED SYSTEM

AGENCY: United States International Trade Commission.

ACTION: Setting of public hearing and release for comment from interested parties, pursuant to Commission investigation No. 332-131, under the authority of section 332(g) of the Tariff Act of 1930, as amended, and initiated upon the request of the President of the United States, of the following chapters of the Tariff Schedules of the United States (TSUS) converted into the nomenclature structure of the Harmonized Commodity Description and Coding System (Harmonized System):

Volume I	Chapter 25:	Salt; sulphur; earths and stone; plastering materials; lime and cement
Volume II	Chapter 27:	Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes
Volume III	Chapter 44:	Wood and articles of wood; wood charcoal
	Chapter 45:	Cork and articles of cork
	Chapter 46:	Manufactures of straw, of esparto or of other plaiting materials; basketware and wickerwork
	Chapter 47:	Pulp of wood or of other fibrous cellulosic materials; waste and scrap of paper or paperboard
	Chapter 48:	Paper and paperboard; articles of paper pulp, of paper or of paperboard
	Chapter 49:	Printed books, newspapers, pictures and other products of the printing industry manuscripts, typescripts and plans
Volume IV	Chapter 50:	Silk
	Chapter 51:	Wool, fine or coarse animal hair; horsehair yarn and woven fabric
	Chapter 52:	Cotton
	Chapter 53:	Other vegetable textile fibres; paper yarn and woven fabrics of paper yarn

	Chapter 54:	Man-made filaments
	Chapter 55:	Man-made staple fibres
Volume V	Chapter 68:	Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials
	Chapter 69:	Ceramic products
	Chapter 70:	Glass and glassware
	Chapter 71:	Natural or cultured pearls, precious or semi-precious stones, precious metals, metal clad with precious metals, and articles thereof; imitation jewelry; coin
Volume VI	Chapter 84:	Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof
	Chapter 85:	Electrical machinery and equipment and parts thereof; sound recorders and re-producers, television image and sound recorders, or reproducers and parts and accessories of such articles
Volume VII	Chapter 86:	Railway and tramway locomotives, rolling-stock and parts thereof; railway and tramway track fixtures and fittings; mechanical traffic signalling equipment of all kinds (including electro-mechanical)
	Chapter 87:	Vehicles other than railway or tramway rolling-stock, and parts thereof
	Chapter 88:	Aircraft and parts thereof
	Chapter 89:	Ships, boats, and floating structures

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) April 30, 1982. The signed original and 19 copies of all written comments must be

filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on March 29, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on March 22, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the offices of the Commission, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 97 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature Committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 97 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the

President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981), along with the schedule for the release of the converted chapters. Appropriate supplementary public notices will be issued with respect to the publication of the remaining chapters and hearings thereon.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. As soon as they become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

Kenneth R. Mason
Secretary

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 97 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. Section I Live Animals; Animal Products

Chapter 1: Live animals; animal products

Chapter 2: Meat and edible meat offal

Chapter 3: Fish, crustaceans and molluscs

Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included

Chapter 5: Products of animal origin, not elsewhere specified or included

II. Section II Vegetable Products

Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage

Chapter 7: Edible vegetables and certain roots and tubers

Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits

Chapter 9: Coffee, tea, maté and spices

Chapter 10: Cereals

Chapter 11: Products of the milling industry; malt and starches; gluten; inulin

Chapter 12: Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder

Chapter 13: Lacs; gums, resins and other vegetable saps and extracts

Chapter 14: Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. Section III Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. Section IV Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish, of crustaceans or molluscs

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Residues and waste from the food industries; prepared animal fodder

Chapter 24: Tobacco and manufactured tobacco substitutes

V. SECTION V Mineral Products

Chapter 25: Salt; sulphur; earth and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, or rare-earth metals, of radio-active elements and of isotopes

Chapter 29: Organic chemicals

Chapter 30: Pharmaceutical products

Chapter 31: Fertilizers

Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other colouring matter; paints and varnishes; putty and other mastics; inks

Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations

Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"

Chapter 35: Albuminoidal substances; glues; enzymes

Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations

Chapter 37: Photographic and cinematographic goods

Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

Chapter 39: Plastics and articles thereof

Chapter 40: Rubber and articles thereof

VIII. Section VIII Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)

Chapter 41: Raw hides and skins (other than furskins) and leather

Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)

Chapter 43: Furskins and artificial fur; manufactures thereof

IX. Section IX Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork

Chapter 44: Wood and articles of wood; wood charcoal

Chapter 45: Cork and articles of cork

Chapter 46: Manufactures of straw, of esparto and of other plaiting materials; basketware and wickerwork

X. Section X Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof

Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard

Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard

Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans

XI. Section XI Textiles and Textile Articles

Chapter 50: Silk

Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Chapter 52: Cotton

Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn

Chapter 54: Man-made filaments

Chapter 55: Man-made staple fibers

Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof

Chapter 57: Carpets and other textile floor coverings

Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery

Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use

Chapter 60: Knitted or crocheted fabrics

Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted

Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted

Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

XII. Section XII Footwear, Headgear, Umbrellas, Sunshades, Walking-Sticks, Seat-Sticks, Whips, Riding Crops, and Parts Thereof; Prepared Feathers and Articles Made Therewith; Artificial Flowers; Articles of Human Hair

Chapter 64: Footwear, gaiters and the like; parts of such articles

Chapter 65: Headgear and Parts thereof

Chapter 66: Umbrellas, sun umbrellas, walking-sticks, seat-sticks, whips, riding-crops and parts thereof

Chapter 67: Prepared feathers and down and articles made of feathers or of down; artificial flowers; articles of human hair

XIII. Section XIII Articles of Stone, of Plaster, of Cement, of Asbestos, of Mica or of Similar Materials; Ceramic Products; Glass and Glassware

Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials

Chapter 69: Ceramic products

Chapter 70: Glass and glassware

XIV. Section XIV Natural or Cultured Pearls, Precious or Semi-Precious Stones, Precious Metals, Metals Clad With Precious Metals and Articles Thereof; Imitation Jewelery; Coin

Chapter 71: Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metals, and articles thereof; imitation jewelry; coin

XV. Section XV Base Metals and Articles of Base Metal

Chapter 72: Iron and steel

Chapter 73: Articles of iron or steel

Chapter 74: Copper and articles thereof

Chapter 75: Nickel and articles thereof

Chapter 76: Aluminum and articles thereof

Chapter 78: Lead and articles thereof

Chapter 79: Zinc and articles thereof

Chapter 80: Tin and articles thereof

Chapter 81: Other base metals; cermets; articles thereof

Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal; parts thereof

Chapter 83: Miscellaneous articles of base metal

XVI. <u>Section XVI</u> Machinery and Mechanical Appliances; Electrical Equipment; Parts Thereof; Sound Recorders and Reproducers, Television Image and Sound Recorders and Reproducers, and Parts and Accessories of such Articles

Chapter 84: Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof

Chapter 85: Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles

XVII. <u>Section XVII</u> Vehicles, Aircraft, Vessels and Associated Transport Equipment

Chapter 86: Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds

Chapter 87: Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof

Chapter 88: Aircraft and parts thereof

Chapter 89: Ships, boats, and floating structures

XVIII. <u>Section XVIII</u> Optical, Photographic, Cinematographic, Measuring, Checking, Precision, Medical and Surgical Instruments and Apparatus; Clocks and Watches; Musical Instruments; Parts Thereof

Chapter 90: Optical, photographic, cinematographic, measuring checking, precision, medical and surgical instruments and apparatus; parts thereof

Chapter 91: Clocks and watches and parts thereof

Chapter 92: Musical instruments; parts and accessories of such articles

XIX. <u>Section XIX</u> Arms and Ammunition; Parts Thereof

Chapter 93: Arms and ammunition; parts thereof

XX. Section XX Miscellaneous Manufactured Articles

Chapter 94: Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings

Chapter 95: Toys, games and sports requisites; parts thereof

Chapter 96: Miscellaneous manufactured articles

Chapter 97: Works of art, collectors' pieces, and antiques

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 7; 10 and 11 (currently 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended to reduce from 5 to 1 the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Rule 6 has been amended to more closely reflect the Harmonized System's treatment of containers and the abbreviations enumerated in rule 8 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the draft

chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Nomenclature" of the Customs Cooperation Council Nomenclature (CCCN), with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 5, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there were clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.10	
662.3010	5.5%	4,578	511,280	through	4.35%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number,

along with its post-MTN rates of duty and Jan.-Nov. 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

GENERAL LEGAL NOTES

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal note 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note ___ and except as provided in legal note ___, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or ontrol)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1, corpses, together with their coffins and accompanying flowers, are not articles subject to the provisions of the tariff schedule.

6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedule, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty under their appropriate tariff provision unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are not subject to treatment as imported articles but are classified with such articles if they are of a kind normally sold therewith. Their cost is, under section 402 of the Tariff Act of 1930, as amended, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties. Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties. Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kvar	-	kilovolt-amperes reactive
¢	-	cents	kw	-	kilowatts

9. For the purposes of the tariff schedule, the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

10. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

11. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory;

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable;

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "2009.90.0000-2009.60.00".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

SECTION V
MINERAL PRODUCTS

CHAPTER 25

SALT; SULFUR; EARTHS AND STONE; PLASTERING MATERIALS, LIME AND CEMENT

Legal Notes

1. Except where their context or legal note 3 to this chapter otherwise requires, the headings of this chapter are to be taken to cover only products which are in the crude state or which have been washed (even with chemical substances eliminating the impurities without changing the structure of the product), crushed, ground, powdered, levigated, sifted, screened, concentrated by flotation, magnetic separation or other mechanical or physical processes (except crystallization), but not products that have been roasted, calcined, obtained by mixing or subjected to processing beyond that mentioned in each heading.

   The products of the present chapter may contain an added anti-dusting agent, provided that such addition does not render the product particularly suitable for some types of use rather than for general use.

2. This chapter does not cover--

   (a) Sublimed sulfur, precipitated sulfur and colloidal sulfur (heading 2802);

   (b) Earth colors containing 70 percent or more by weight of combined iron evaluated at Fe_2O_3 (heading 2821);

   (c) Medicaments and other products of chapter 30;

   (d) Perfumery, cosmetic or toilet preparations (chapter 33);

   (e) Setts, curbs and flagstones (heading 6801); mosaic cubes and the like (heading 6802); roofing, facing or damp course slates (heading 6803);

   (f) Precious or semi-precious stones (heading 7102 or 7103);

   (g) Cultured crystals (other than optical elements) weighing not less than 2.5 g each, of sodium chloride or of magnesium oxide, of heading 3823; optical elements of sodium chloride or of magnesium oxide (heading 9001);

   (h) Billiard chalks (heading 9504); or

   (ij) Writing or drawing chalks and tailors' chalks (heading 9609).

3. Any products classifiable within heading 2517 and any other heading of the chapter are to be classified in heading 2517.

4. Heading 2530 is to be taken to apply, *inter alia*, to: vermiculite, perlite and chlorites, unexpanded; earth colors, whether or not calcined or mixed together; natural micaceous iron oxides; meerschaum (whether or not in polished pieces); amber; agglomerated meerschaum and agglomerated amber, in plates, rods, sticks or similar forms, not worked after molding; jet; strontianite (whether or not calcined), other than strontium oxide; broken pottery.

Additional U.S. Legal Notes

1. For the purposes of this chapter the term "marble" includes breccia marble and onyx marble.

2. For the purposes of heading 2513--

   (a) The term "pumice" includes both pumice and pumicite.

   (b) The following are not included--

      (i) diamond dust or powder (subheading 7109.10)

      (ii) soap and synthetic detergents (chapter 34).

3. For the purposes of heading 2523, the term "cement" means cementing materials without added sand, gravel, or other aggregate. Composites of cement with added mineral aggregate such as sand, crushed stone, or gravel (i.e., concrete mixes) are included in subheading 3823.50.

Statistical Note

For the purposes of heading 2525--

(a) The term "split block mica" means mica, not exceeding 0.508 mm in thickness, that has been split and selected within a tolerance of 0.203 mm, but which has not been cut or stamped to dimensions, shape or form;

(b) The term "mica splittings" means mica laminae in book-form or book-pack, or in loose pack, suitable for use in the manufacture of agglomerated (built-up) mica included in heading 6815.

NOTICE OF HEARING ON AND RELEASE FOR PUBLIC COMMENT OF CHAPTERS OF THE TARIFF SCHEDULES OF THE UNITED STATES CONVERTED INTO THE NOMENCLATURE STRUCTURE OF THE HARMONIZED SYSTEM

AGENCY: United States International Trade Commission.

ACTION: Setting of public hearing and release for comment from interested parties, pursuant to Commission investigation No. 332-131, under the authority of section 332(g) of the Tariff Act of 1930, as amended, and initiated upon the request of the President of the United States, of the following chapters of the Tariff Schedules of the United States (TSUS) converted into the nomenclature structure of the Harmonized Commodity Description and Coding System (Harmonized System):

Volume I	Chapter 25:	Salt; sulphur; earths and stone; plastering materials; lime and cement
Volume II	Chapter 27:	Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes
Volume III	Chapter 44:	Wood and articles of wood; wood charcoal
	Chapter 45:	Cork and articles of cork
	Chapter 46:	Manufactures of straw, of esparto or of other plaiting materials; basketware and wickerwork
	Chapter 47:	Pulp of wood or of other fibrous cellulosic materials; waste and scrap of paper or paperboard
	Chapter 48:	Paper and paperboard; articles of paper pulp, of paper or of paperboard
	Chapter 49:	Printed books, newspapers, pictures and other products of the printing industry manuscripts, typescripts and plans
Volume IV	Chapter 50:	Silk
	Chapter 51:	Wool, fine or coarse animal hair; horsehair yarn and woven fabric
	Chapter 52:	Cotton
	Chapter 53:	Other vegetable textile fibres; paper yarn and woven fabrics of paper yarn

	Chapter 54:	Man-made filaments
	Chapter 55:	Man-made staple fibres
Volume V	Chapter 68:	Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials
	Chapter 69:	Ceramic products
	Chapter 70:	Glass and glassware
	Chapter 71:	Natural or cultured pearls, precious or semi-precious stones, precious metals, metal clad with precious metals, and articles thereof; imitation jewelry; coin
Volume VI	Chapter 84:	Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof
	Chapter 85:	Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders, or reproducers and parts and accessories of such articles
Volume VII	Chapter 86:	Railway and tramway locomotives, rolling-stock and parts thereof; railway and tramway track fixtures and fittings; mechanical traffic signalling equipment of all kinds (including electro-mechanical)
	Chapter 87:	Vehicles other than railway or tramway rolling-stock, and parts thereof
	Chapter 88:	Aircraft and parts thereof
	Chapter 89:	Ships, boats, and floating structures

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) April 30, 1982. The signed original and 19 copies of all written comments must be

filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on March 29, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on March 22, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the offices of the Commission, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 97 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature Committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 97 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the

President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981), along with the schedule for the release of the converted chapters. Appropriate supplementary public notices will be issued with respect to the publication of the remaining chapters and hearings thereon.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. As soon as they become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 97 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. Section I Live Animals; Animal Products

Chapter 1: Live animals; animal products

Chapter 2: Meat and edible meat offal

Chapter 3: Fish, crustaceans and molluscs

Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included

Chapter 5: Products of animal origin, not elsewhere specified or included

II. Section II Vegetable Products

Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage

Chapter 7: Edible vegetables and certain roots and tubers

Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits

Chapter 9: Coffee, tea, maté and spices

Chapter 10: Cereals

Chapter 11: Products of the milling industry; malt and starches; gluten; inulin

Chapter 12: Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder

Chapter 13: Lacs; gums, resins and other vegetable saps and extracts

Chapter 14: Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. Section III Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. Section IV Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish, of crustaceans or molluscs

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Residues and waste from the food industries; prepared animal fodder

Chapter 24: Tobacco and manufactured tobacco substitutes

V. SECTION V Mineral Products

Chapter 25: Salt; sulphur; earth and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, or rare-earth metals, of radio-active elements and of isotopes

Chapter 29: Organic chemicals

Chapter 30: Pharmaceutical products

Chapter 31: Fertilizers

Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other colouring matter; paints and varnishes; putty and other mastics; inks

Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations

Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"

Chapter 35: Albuminoidal substances; glues; enzymes

Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations

Chapter 37: Photographic and cinematographic goods

Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

Chapter 39: Plastics and articles thereof

Chapter 40: Rubber and articles thereof

VIII. <u>Section VIII</u> Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)

Chapter 41: Raw hides and skins (other than furskins) and leather

Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)

Chapter 43: Furskins and artificial fur; manufactures thereof

IX. <u>Section IX</u> Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork

Chapter 44: Wood and articles of wood; wood charcoal

Chapter 45: Cork and articles of cork

Chapter 46: Manufactures of straw, of esparto and of other plaiting materials; basketware and wickerwork

X. <u>Section X</u> Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof

Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard

Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard

Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans

XI. <u>Section XI</u> Textiles and Textile Articles

Chapter 50: Silk

Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Chapter 52: Cotton

Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn

Chapter 54: Man-made filaments

Chapter 55: Man-made staple fibers

Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof

Chapter 57: Carpets and other textile floor coverings

Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery

Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use

Chapter 60: Knitted or crocheted fabrics

Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted

Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted

Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

Chapter 95: Toys, games and sports requisites; parts thereof

Chapter 96: Miscellaneous manufactured articles

Chapter 97: Works of art, collectors' pieces, and antiques

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 7; 10 and 11 (currently 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended to reduce from 5 to 1 the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Rule 6 has been amended to more closely reflect the Harmonized System's treatment of containers and the abbreviations enumerated in rule 8 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the draft

chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Nomenclature" of the Customs Cooperation Council Nomenclature (CCCN), with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 5, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there were clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number,

along with its post-MTN rates of duty and Jan.-Nov. 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

If there are any questions regarding these conversions the following people should be contacted:

General Legal Notes and General Rules of Interpretation		George Weise (202) 523-0363

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal note 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note ___ and except as provided in legal note ___, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania
Bulgaria
Cuba 2/
Czechoslovakia
Estonia
German Democratic Republic
Kampuchea
Laos
Latvia
Lithuania
Mongolia
North Korea
Union of Soviet Socialist Republic
Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1, corpses, together with their coffins and accompanying flowers, are not articles subject to the provisions of the tariff schedule.

6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedule, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty under their appropriate tariff provision unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are not subject to treatment as imported articles but are classified with such articles if they are of a kind normally sold therewith. Their cost is, under section 402 of the Tariff Act of 1930, as amended, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties. Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties. Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kvar	-	kilovolt-amperes reactive
¢	-	cents	kw	-	kilowatts

9. For the purposes of the tariff schedule, the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

10. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

11. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory;

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable;

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.
(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:
(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;
(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;
(iii) the foreign port of lading;
(iv) the U.S. port of unlading for vessel and air shipments;
(v) the date of importation;
(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;
(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;
(viii) the date of exportation;
(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;
(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;
(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;
(xii) the net quantity in the units specified herein for the classification involved;
(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;
(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);
(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;
(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and
(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.
(b) For the purpose of paragraph (a), the following provisions shall govern:
(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;
(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;
(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;
(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and
(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --
(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,
(ii) the indicated units of quantity, and
(iii) the statistical notes and annexes.
(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.
(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 0106.00.50 is "0106.00.5010".
(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "2009.90.0000-2009.60.00".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.
(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

MINERAL FUELS, MINERAL OILS AND PRODUCTS OF THEIR DISTILLATION; BITUMINOUS SUBSTANCES; MINERAL WAXES

Legal Notes

1. This chapter does not cover--
   (a) Separate chemically defined organic compounds, other than pure methane and propane which are to be classified in heading 2711;
   (b) Medicaments of heading 3003 or 3004; or
   (c) Mixed unsaturated hydrocarbons of heading 3301, 3302 or 3805.

2. References in heading 2710 to "petroleum oils and oils obtained from bituminous minerals" include not only petroleum oils and oils obtained from bituminous minerals but also similar oils, as well as those consisting mainly of mixed unsaturated hydrocarbons, obtained by any process, provided that the weight of the non-aromatic constituents exceeds that of the aromatic constituents.

   However, the references shall not be taken to include liquid synthetic polyolefins of which less than 60 percent by volume distills at 300^{0}C, after conversion to 760 mm mercury when a reduced-pressure distillation method is used (chapter 39).

3. For the purposes of subheading 2701.11, "anthracite" means coal having a volatile matter limit (on a dry, mineral-matter-free basis) equal to or less than 14 percent.

4. For the purposes of subheading 2701.12, "bituminous coal" means coal having a volatile matter limit (on a dry, mineral-matter-free basis) greater than 14 percent and a calorific value limit (on a moist, mineral-matter-free basis) equal to or greater than 5,833 Kcal/kg.

5. For the purposes of subheadings 2707.10, 2707.20, 2707.30, 2707.40 and 2707.60, the terms "benzene", "toluene", "xylene", "naphthalene" and "phenols" apply to products which contain more than 50 percent benzene, toluene, xylene, naphthalene or phenols, respectively.

Additional U. S. Legal Notes

1. (a) For purposes of heading 2709, "reconstituted crude petroleum" is a product which is essentially the equivalent of crude petroleum and which is made by adding fuel oil, naphtha, or other petroleum fractions to crude or topped crude petroleum.
   (b) Crude petroleum oils, crude oils obtained from bituminous minerals, and reconstituted crude petroleum shall, if products of Canada, be admitted free of duty and any entry therefor shall be liquidated or reliquidated accordingly if, on or before the 180th day after the date of entry, documentation is filed with the customs officer concerned establishing that, pursuant to a commercial exchange agreement between the United States and Canadian refiners which has been approved by the Secretary of Energy--
      (i) an import license for the products covered by such entry has been issued by the Secretary; and
      (ii) an equivalent amount of domestic or duty-paid foreign crude petroleum oils, crude oils obtained from bituminous minerals or reconstituted crude petroleum have, pursuant to such commercial exchange agreement and to an export license issued by the Secretary of Commerce, been exported from the United States to Canada and have not previously been used to effect the duty-free entry of like Canadian products under this legal note.
   (c) The Secretary of the Treasury, after consulting with the Secretary of Commerce and the Secretary of Energy, shall issue such rules or regulations as may be necessary governing the admission of Canadian products pursuant to the provisions of this legal note.

2. For the purposes of heading 2710, "petroleum oils" includes only products having--
   (a) a Congealing Point (ASTM D 938) of less than 30^{0}C; or
   (b) if the Congealing Point is not less than 30^{0}C having--
      (i) a density at 70^{0}C of less than 0.942 and a Worked Cone Penetration (ASTM D 217) or a Cone Penetration (ASTM D 937) at 25^{0}C of not less than 350; or
      (ii) if the density at 70^{0}C is not less than 0.942 having a Needle Penetration (ASTM D 5) at 25^{0}C of not less than 400.

3. For the purposes of subheading 2712.10, "petroleum jelly" includes only a product having--
   (a) a Congealing Point (ASTM D 938) of not less than 30^{0}C;
   (b) a density at 70^{0}C of less than 0.942;
   (c) a Worked Cone Penetration (ASTM D 217) at 25^{0}C of less than 350; and
   (d) a Cone Penetration (ASTM D 937) at 25^{0}C of not less than 80.

4. For the purposes of heading 2712, "petroleum wax" includes only a product having--
   (a) a Congealing Point (ASTM D 938) of not less than 30^{0}C;
   (b) a density at 70^{0}C of less than 0.942;
   (c) a Worked Cone Penetration (ASTM D 217) at 25^{0}C of less than 350; and
   (d) a Cone Penetration (ASTM D 937) at 25^{0}C of less than 80.

5. For the purposes of subheading 2713.20, "petroleum bitumen" includes only a product having--
   (a) a Congealing Point (ASTM D 938) of not less than 30°C;
   (b) a density at 70 C of not less than 0.942; and
   (c) a Needle Penetration (ASTM D 5) at 25°C of less than 400.

6. For the purposes of subheadings 2710.00.45 and 2710.00.50--
   (a) a product is considered to be "in liquid form" if--
      (i) the penetration is more than 350 units (35 millimeters) when tested by the procedure and equipment specified in ASTM D 5 with the use of a 50 gram load for 1 second at 25°C, or when tested by a procedure which provides equivalent results; and
      (ii) such product is not in an essentially gaseous state at a temperature of 15.6°C and at a pressure of 1.03 kilograms per square centimeter (absolute), regardless of the condition of the product at the time of importation; and
   (b) in determining the relative weights of components of the mixtures provided for in subheadings 2710.00.45 and 2710.00.50, naphtha and other petroleum derivatives which may be present in such mixtures as solvents shall be disregarded.

7. For the purposes of this chapter, the term barrel (bbl) means a barrel of 158.98 liters measured at 15.6°C.

8. Electrical energy, provided for in heading 2716 shall not be subject to the entry requirements set forth in section 484 of the Tariff Act of 1930, as amended, (19 USC 1484), but shall be entered on a periodic basis in accordance with regulations to be prescribed by the Secretary of the Treasury.

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) April 30, 1982. The signed original and 19 copies of all written comments must be

filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on March 29, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on March 22, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the offices of the Commission, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 97 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature Committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 97 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the

President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981), along with the schedule for the release of the converted chapters. Appropriate supplementary public notices will be issued with respect to the publication of the remaining chapters and hearings thereon.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. As soon as they become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 97 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 7; 10 and 11 (currently 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended to reduce from 5 to 1 the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Rule 6 has been amended to more closely reflect the Harmonized System's treatment of containers and the abbreviations enumerated in rule 8 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the draft

chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Nomenclature" of the Customs Cooperation Council Nomenclature (CCCN), with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 5, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there were clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.10	
662.3010	5.5%	4,578	511,280	through	4.35%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number,

along with its post-MTN rates of duty and Jan.-Nov. 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal note 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note ___ and except as provided in legal note ___, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania
Bulgaria
Cuba 2/
Czechoslovakia
Estonia
German Democratic Republic
Kampuchea
Laos
Latvia
Lithuania
Mongolia
North Korea
Union of Soviet Socialist Republic
Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1, corpses, together with their coffins and accompanying flowers, are not articles subject to the provisions of the tariff schedule.

6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedule, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty under their appropriate tariff provision unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are not subject to treatment as imported articles but are classified with such articles if they are of a kind normally sold therewith. Their cost is, under section 402 of the Tariff Act of 1930, as amended, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties. Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties. Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kvar	-	kilovolt-amperes reactive
¢	-	cents	kw	-	kilowatts
%	-	percent ad valorem	l	-	liters
+	-	plus	lin	-	linear

9. For the purposes of the tariff schedule, the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

10. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

11. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory;

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable;

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "2009.90.0000-2009.60.00".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

WOOD AND ARTICLES OF WOOD; WOOD CHARCOAL; CORK AND ARTICLES OF CORK; MANUFACTURES OF STRAW, OF ESPARTO, OR OF OTHER PLAITING MATERIALS; BASKETWARE AND WICKERWORK

CHAPTER 44

WOOD AND ARTICLES OF WOOD; WOOD CHARCOAL

Legal Notes

1. This chapter does not cover--

   (a) Wood, in chips, in shavings, crushed, ground, or powdered, of a kind used primarily in perfumery, in pharmacy, or for insecticidal, fungicidal, or similar purposes (heading 1211);

   (b) Bamboos and other plaiting materials of heading 1401;

   (c) Wood, in chips, in shavings, ground, or powdered, of a kind used primarily in dyeing or in tanning (heading 1404);

   (d) Activated charcoal (heading 3802);

   (e) Containers of heading 4202;

   (f) Articles of chapter 46;

   (g) Footwear or parts thereof of chapter 64;

   (h) Articles of chapter 66 (for example, umbrellas and walking-sticks and parts thereof);

   (ij) Articles of heading 6808;

   (k) Imitation jewelry of heading 7117;

   (l) Articles of section XVI or section XVII (for example, machine parts, cases, covers, cabinets for machines and apparatus, and wheelwrights' wares);

   (m) Articles of section XVIII (for example, clock cases and musical instruments and parts thereof);

   (n) Parts of firearms (heading 9305);

   (o) Articles of chapter 94 (for example, furniture, lamps and lighting fittings, prefabricated buildings);

   (p) Articles of chapter 95 (for example, toys, games, sports requisites); or

   (q) Articles of chapter 96 (for example, smoking pipes and parts thereof, buttons, pencils) excluding bodies and handles, of wood, for articles of heading 9603.

2. In this chapter, the expression "densified wood" means wood which has been subjected to chemical or physical treatment (being, in the case of layers bonded together, treatment in excess of that needed to insure a good bond), and which has thereby acquired increased density or hardness together with improved mechanical strength or resistance to chemical or electrical agencies.

3. Headings 4414 to 4421 are to be taken to apply to articles of the respective descriptions of particle board, fiber building board, laminated wood, or densified wood as they apply to such articles of wood.

4. Articles of heading 4410, 4411, or 4412 may be worked to form the shapes provided for in respect of the goods of heading 4409, curved, corrugated, perforated, cut, or formed to nonrectangular shapes or submitted to any other operation provided it does not give them the character of articles of other headings.

5. Heading 4417 shall be taken not to apply to tools in which the blade, working edge, working surface, or other working part is formed by any of the materials specified in legal note 1 to chapter 82.

6. For the purposes of this chapter and subject to legal notes 1 (b) and 1 (e) above, any reference to "wood" is to be taken to include a reference to bamboo and other ligneous materials.

Additional U.S. Legal Notes

1. This chapter does not cover articles of heading 4202 (for example, luggage, handbags, and the like).

2. In this chapter--

   (a) The term "wood waste" means residual material other than firewood resulting from the processing of wood, including scraps, shavings, sawdust, veneer clippings, chipper rejects, and similar small wood residues, as well as larger or coarser solid types of residual wood such as slabs, edgings, cull pieces, and veneer log cores;

(b) The term "standard wood moldings" means wood moldings worked to a pattern and having the same profile in cross section throughout their length;

(c) The term "face-finished", as applied to the articles of headings 4411 and 4412, means that one or more surfaces of a product have been treated with creosote or other wood preservatives, or with fillers, sealers, waxes, oils, stains, varnishes, paints, or enamels, or have been overlaid with paper, fabric, plastics, base metal, or other metal; and

(d) The term "plywood" in headings 4412.11 through 4412.19 means rigid assemblies of three or more sheets of wood glued and pressed one on the other, the grain of at least one ply being at an angle with the grain of one or more of the other plies.

3. Except where otherwise provided in this chapter, the provisions in this chapter for wood articles cover such articles whether or not they have been subjected to:

   (a) Antistain or other temporary applications; or

   (b) Treatment with creosote or other wood preservatives, or with fillers, sealers, waxes, oils, stains, varnishes, paints, or enamels.

4. The effectiveness of the proviso to section 304(a)(3)(J) of the Tariff Act of 1930 (19 U.S.C. 1304(a)(3)(J)), to the extent permitted by that section and as provided for in schedule XX to the General Agreement on Tariffs and Trade, is suspended, with the result that sawed lumber and sawed timbers however provided for, telephone, trolley, electric light, and telegraph poles of wood, and bundles of shingles, other than red cedar shingles, shall not be required to be marked to indicate the country of origin.

5. Heading 4409 includes articles having a repeating design worked along any edge or face.

Statistical Note

1. For the purposes of heading 4407:

   (a) The term "rough" includes wood that has been edged, resawn, crosscut, or trimmed to smaller sizes but it does not include wood that has been dressed or surfaced by planing on one or more edges or faces or has been edge-glued or end-glued; and

   (b) The term "treated" means wood that has been treated with creosote or other wood preservatives or with fillers, sealers, waxes, oils, stains, varnishes, paints, or enamels, but does not include wood that has been merely subjected to antistain or other temporary applications which serve only for the purpose of maintaining the wood in its untreated condition until installation or further manufacture.

CHAPTER 46

MANUFACTURES OF STRAW, OF ESPARTO, OR OF OTHER PLAITING MATERIALS; BASKETWARE AND WICKERWORK

Legal Notes

1. In this chapter the expression "plaiting materials" means materials in a state or form suitable for plaiting, interlacing or similar processes; it includes straw, osier or willow, bamboos, rushes, reeds, strips of wood, strips of other vegetable material (for example, raffia, narrow leaves or strips cut from broad leaves) or bark, unspun natural textile fibers, monofil and strip and the like of plastics and strips of paper, but not strips of leather or composition leather or of felt or nonwovens, human hair, horsehair, textile rovings or yarns, or monofil and strip and the like of chapter 54.

2. This chapter does not cover--

   (a) Wall coverings of heading 4814;

   (b) Twine, cordage, ropes or cables, plaited or not (heading 5607);

   (c) Footwear or headgear or parts thereof of chapter 64 or 65;

   (d) Vehicles and bodies for vehicles of basketware (chapter 87); or

   (e) Articles of chapter 94 (for example, furniture, lamps and lighting fittings).

3. For the purposes of heading 4601, the expression "plaiting materials, plaits and similar products of plaiting materials, bound together in parallel strands" means plaiting materials, plaits and similar products of plaiting materials, placed side by side and bound together, in the form of sheets, whether or not the binding materials are of spun textile materials.

Additional U. S. Legal Notes

1. This chapter does not cover wadding, batting, and articles thereof (for example, chapter 56).

2. For the purposes of the tariff schedule--

   (a) The unqualified term "rattan" means rattan, whether whole or split, and reeds, cane (peel), strips and similar products derived therefrom; and

   (b) The term "willow" means the flexible slender twigs or withes of the osier or willow, whether or not split.

PAPER AND PAPERBOARD AND ARTICLES THEREOF

U. S. Legal Note

1. If any country, dependency, province, or other subdivision of government shall forbid or restrict in any way the exportation of (whether by law, order, regulation, contractual relation, or otherwise, directly or indirectly), or impose any export duty, export license fee, or other export charge of any kind whatsoever (whether in the form of additional charge or license fee or otherwise) upon printing paper, or wood pulp, or wood for use in the manufacture of wood pulp, the President may enter into negotiations with such country, dependency, province, or other subdivision of government to secure the removal of such prohibition, restriction, export duty, or other export charge, and if it is not removed he may, by proclamation, declare such failure of negotiations, setting forth the facts.

   Thereupon, and until such prohibition, restriction, export duty, or other export charge is removed, there shall be imposed upon printing paper (other than cover paper, India paper, and bible paper) provided for in subheadings 4802.51, 4801.52, 4802.53, and 4802.60, when imported either directly or indirectly from such country, dependency, province, or other subdivision of government, an additional duty of 10 per centum ad valorem and in addition thereto an amount equal to the highest export duty or other export charge imposed by such country, dependency, province, or other subdivision of government, upon either an equal amount of printing paper or an amount of wood pulp or wood for use in the manufacture of wood pulp necessary to manufacture such printing paper.

CHAPTER 47

PULP OF WOOD OR OF OTHER FIBROUS
CELLULOSIC MATERIAL; WASTE AND SCRAP
OF PAPER OR PAPERBOARD

Legal Note

1. For the purposes of heading 4702, the expression "chemical wood pulp, dissolving grades" means chemical wood pulp having by weight an insoluble fraction of 92% or more for soda or sulphate wood pulp or of 88% or more for sulphite wood pulp after one hour in a caustic soda solution containing 18% sodium hydroxide (NaOH) at 20°C, and for sulphite wood pulp an ash content that does not exceed [0.15%/0.25%] by weight.

PAPER AND PAPERBOARD; ARTICLES OF PAPER PULP, OF PAPER OR OF PAPERBOARD

Legal Notes

1. This chapter does not cover--

(a) Articles of chapter 30;

(b) Stamping foils of heading 3212;

(c) Perfume or cosmetic papers (chapter 33);

(d) Paper and cellulose wadding impregnated, coated, or covered with soap or detergent (heading 3401), or with polishes, creams, or similar preparations (heading 3405);

(e) Sensitized paper or paperboard, of headings 3701 or 3704;

(f) Paper-reinforced stratified plastic sheeting, or one layer of paper or paperboard coated or covered with a layer of plastics, the latter constituting more than half the total thickness, or articles of such materials (chapter 39);

(g) Articles of heading 4202 (for example, travel goods);

(h) Articles of chapter 46 (manufactures of plaiting material);

(ij) Paper yarn or textile articles of paper yarn (section XI);

(k) Articles of chapter 64 or chapter 65;

(l) Abrasive paper or paperboard (heading 6805) or paper- or paperboard-backed mica (heading 6814) (paper and paperboard coated with mica powder are, however, to be classified in this chapter);

(m) Metal foil backed with paper or paperboard (section XV);

(n) Articles of heading 9209; or

(o) Articles of chapter 95 (for example, toys, games, sports requisites) or chapter 96 (for example, buttons).

2. (A) Subject to the provisions of Note 3, headings 4801 to 4805 are to be taken to include paper and paperboard which have been subjected to calendering, super-calendering, glazing or similar finishing, false water-marking, or surface sizing, and also paper, paperboard, cellulose wadding, and webs of cellulose fibers, colored or marbled throughout the mass by any method. Except where heading 4803 otherwise requires, these headings do not apply to paper, paperboard, cellulose wadding, and webs of cellulose fibers which have been otherwise processed, for example, by coating or impregnation.

(B) In this chapter the expression "newsprint" shall be taken to apply to uncoated paper of a kind used for the printing of newspapers, of which not less than 65 percent by weight of the total fiber content consists of wood fibers obtained by a mechanical process, unsized or very lightly sized, having a smoothness on each side not exceeding 200 seconds Bekk, weighing not less than 40 g per square meter and not more than 57 g per square meter and having an ash content by weight not exceeding 8 percent.

(C) In addition to hand-made paper and paperboard, heading 4802 covers only paper and paperboard made mainly from bleached pulp or from pulp obtained by a mechanical process and satisfying any of the following criteria:

For paper or paperboard weighing not more than 150 g/m^2:

(a) containing 10 percent or more of fibers obtained by a mechanical process, and

1. weighing not more than 80 g/m^2, or

2. colored throughout the mass; or

(b) containing over 8 percent ash, and

1. weighing not more than 80 g/m^2, or

2. colored throughout the mass; or

(c) containing over 3 percent ash and having a brightness of 60 percent or over; or

(d) containing over 3 percent but not over 8 percent ash, having a brightness under 60 percent and a bursting strength ratio equal to or less than 2.5 $kPa/g/m^2$ or;

(e) containing 3 percent ash or less, having a brightness of 60 percent or over and a bursting strength ratio equal to or less than 2.5 $kPa/g/m^2$.

For paper or paperboard weighing more than 150 g/m^2:

(a) colored throughout the mass; or

(b) having a brightness of 60 percent or over, and

1. a caliper of 225 micrometers or less, or

2. a caliper over 225 micrometers but not over 508 micrometers and an ash content over 3 percent; or

(c) having a brightness of less than 60 percent, a caliper of 254 micrometers or less and an ash content over 8 percent.

For the purposes of this note, brightness is to be measured by the Elrepho, GE, or any equivalent internationally recognized brightness testing method.

Heading 4802 does not, however, cover filter paper and paperboard (including teabag paper), felt paper and paperboard and base paper for decorative laminates (saturating paper)

(D) In this chapter "kraft paper and paperboard" is to be taken to mean paper and paperboard of which not less than 80 percent by weight of the total fiber content consists of fibers obtained by the chemical sulphate or soda processes.

3. Paper, paperboard, celllose wadding, and webs of cellulose fibers answering to a description in two or more of the headings 4801 to 4811 are to be classified under that one of such headings which occurs latest.

4. Headings 4801, 4802, 4804 to 4808, 4810, and 4811 are to be taken to apply only to paper, paperboard, cellulose wadding, and webs of cellulose fibers:

(a) in strips or rolls of a width exceeding 15 cm; or

(b) in rectangular sheets with one side exceeding 36 cm and the other side exceeding 15 cm in unfolded state.

Except that hand-made paper and paperboard in any size or shape as made directly and having all its edges deckled remains classified, subject to the provisions of Note 3, in heading 4802.

5. For the purposes of heading 4814, the expression "wallpaper and similar wall coverings" is to be taken to apply only to:

(a) Paper in rolls, of a width of not less than 45 cm and not more than 160 cm, suitable for wall or ceiling decoration:

(i) Grained, embossed, surface-colored, design-printed, or otherwise surface-decorated (e.g., with textile flock), whether or not coated or covered with transparent protective plastics;

(ii) With an uneven surface resulting from the incorporation of particles of wood, straw, etc.;

(iii) Coated or covered on the face side with plastics, the plastics layer being grained, embossed, colored, design-printed, or otherwise decorated; or

(iv) Covered on the face side with plaiting material, whether or not bound together in parallel strands or woven.

(b) Borders and friezes, of paper, treated as above, in rolls, suitable for wall or ceiling decoration.

(c) Wall coverings of paper made up of several panels, in rolls or sheets, printed so as to make up a scene, design, or motif when applied to a wall.

Products on a base of paper or paperboard, suitable for use both as floor coverings and as wall coverings are to be classified in heading 4815.

6. Heading 4823 is to be taken to apply, inter alia, to perforated paper and paperboard cards for Jacquard or similar machines and paper lace.

7. Except for the goods of headings 4814 and 4821, paper, paperboard, cellulose wadding, and articles thereof, printed with characters or pictures which are not merely incidental to the primary use of the goods fall in chapter 49.

8. For the purposes of subheading 4804.10, "kraftliner" means machine-finished or machine-glazed paper and paperboard, of which not less than 80 percent by weight of the total fiber content consists of wood fibers obtained by the chemical sulphate or soda processes, in rolls, weighing more than 115 g/m^2 and having a minimum Mullen bursting strength as indicated in the following table or the linearly interpolated or extrapolated equivalent for any other weight.

Weight g/m^2	Minimum Mullen bursting strength kPa
115	393
125	417
200	637
300	824
400	961

9. For the purposes of subheading 4804.2, "sack kraft paper" means machine-finished paper, of which not less than 80 percent by weight of the total fiber content consists of fibers obtained by the chemical sulphate or soda processes,

in rolls, weighing not less than 60 g/m^2 but not more than 115 g/m^2 and meeting one of the following sets of specifications:

1. Having a Mullen burst ratio of not less than 38 and a stretch factor of more than 4.5 percent in the cross direction and of more than 2 percent in the machine direction.

2. Having minima for tear and tensile of not less than as indicated in following table, or the linearly interpolated equivalent for any other weight:

Weight g/m^2	Minimum tear mN		Minimum tensile kN/m	
	Machine direction	Machine direction plus cross direction	Cross direction	Machine direction plus cross direction
60	700	1,510	1.9	6.0
70	830	1,790	2.3	7.2
80	965	2,070	2.8	8.3
100	1,230	2,635	3.7	10.6
115	1,425	3,060	4.4	12.3

10. For the purposes of subheading 4805.10, "semi-chemical fluting paper" means paper, in rolls, of which not less than 65 percent by weight of the total fiber content consists of unbleached hardwood fibers obtained by a semi-chemical pulping process, and having a CMT 60 (Concora Medium Test with 60 minutes of conditioning) crush resistance exceeding 20 kgf at 50 percent relative humidity, at 23 C.

11. For the purposes of subheading 4805.30, "sulphite wrapping paper" means machine-glazed paper, of which more than 40 percent by weight of the total fiber content consists of wood fibers obtained by the chemical suphite process, having an ash content of not more than 8 percent and having a Mullen burst ratio of not less than 15.

12. For the purposes of subheading 4810.21, "light-weight coated paper" means paper, coated on both sides, weighing in not more than 72 g/m^2, with a coating weight of not more than 15 g/m^2 per side, on a base of which not less than 50 percent by weight of the total fiber content consists of wood fibers obtained by a mechanical process.

Additional U. S. Legal Note

1. For the purposes of this chapter the provisions for cellulose wadding and webs of cellulose fibers covers only products obtained from the pulp of Chapter 47.

2. Samples used in determining the weight of paper or paperboard classifiable in this chapter according to weight shall be conditioned in an atmosphere at 50 percent (± 2 percent) relative humidity and at a temperature of 23°C (± 2C°).

Statistical Note

1. For the purposes of heading 4801.00.0020, the term "standard newsprint paper" covers newsprint of that heading which conforms to the following specifications:

Weight:	Not less than 48.9 g/m^2 nor more than 57.0 g/m^2.
Size:	Rolls not less than 33 cm wide and not less than 71 cm in diameter; sheets not less than 51 cm by 76 cm.
Thickness:	Not over 0.11 mm.
Sizing:	Time of transudation of water shall be not more than 10 seconds by the ground glass method.
Ash Content:	Not more than 6.5 percent.
Color and Finish:	White; or tinted shades of pink, peach or green in rolls; not more than 50 percent gloss when tested with the Ingersoll glarimeter.

PRINTED BOOKS, NEWSPAPERS, PICTURES, AND OTHER PRODUCTS OF THE PRINTING INDUSTRY; MANUSCRIPTS, TYPESCRIPTS, AND PLANS

Legal Notes

1. This chapter does not cover--

   (a) Photographic negatives or positives on transparent bases (chapter 37);

   (b) Paper, paperboard, or cellulose wadding, or articles thereof, in which printing is merely incidental to their primary use (chapter 48);

   (c) Maps, plans, and globes, in relief, whether or not printed (heading 9023);

   (d) Playing cards or other goods of chapter 95; or

   (e) Original engravings, prints and lithographs (heading 9702), postage or revenue stamps, stamp-postmarks, first-day covers, postal stationery and the like of heading 9704, antiques of an age exceeding one hundred years or other articles of chapter 97.

2. For the purposes of chapter 49 the term "printed" also means reproduced by means of a duplicating machine, produced under the control of a computer, embossed, photographed, photocopied, thermocopied, or typewritten.

3. Newspapers, journals, and periodicals which are bound otherwise than in paper, and sets of newspapers, journals, or periodicals comprising more than one issue under a single cover are to be classified in heading 4901, whether or not containing advertising material.

4. Heading 4901 is to be extended to apply to--

   (a) A collection of printed reproductions of, for example, works of art or drawings, with a relative text, put up with numbered pages in a form suitable for binding into one or more volumes;

   (b) A pictorial supplement accompanying, and subsidiary to, a bound volume; and

   (c) Printed parts of books or booklets, in the form of assembled or separate sheets or signatures, constituting the whole or a part of a complete work and designed for binding.

   However, printed pictures or illustrations not bearing a text, whether in the form of signatures or separate sheets, fall in heading 4911.

5. Subject to Note 3 of this chapter, heading 4901 does not cover publications which are essentially devoted to advertising (for example, brochures, pamphlets, leaflets, trade catalogs, year books published by trade associations and tourist propaganda). Such publications are to be classified in heading 4911.

6. For the purposes of heading 4903, the expression "children's picture books" means books for children in which the pictures form the principal interest and the text is subsidiary.

Additional U. S. Legal Notes

1. For the purposes of this chapter, the term "books" includes books, bound and not bound, and pamphlets.

2. For the purposes of determining the classification of printed matter produced in whole or in part by a lithographic process, the thickness of such printed matter is that of the thinnest paper contained therein, except that the thickness of a permanently mounted lithograph is the combined thickness of the lithograph and its mounting.

3. (A) For the purposes of this section, and subject to the exceptions in paragraph (B) below, yarns (single, multiple (folded) or cabled) of the following descriptions are to be treated as "twine, cordage, ropes and cables":

   (a) Of silk, or waste silk, measuring more than 20,000 decitex;

   (b) Of man-made fibers (including yarn of two or more monofilaments of chapter 54), measuring more than 10,000 decitex;

   (c) Of true hemp or flax:

      (i) Polished or glazed, measuring 1,429 decitex or more;

      (ii) Not polished or glazed, measuring more than 20,000 decitex;

   (d) Of coir, consisting or three or more plies;

   (e) Of other vegetable fibers, measuring more than 20,000 decitex; or

   (f) Reinforced with metal thread.

   (B) Exceptions:

   (a) Yarn of wool or other animal hair and paper yarn, other than yarn reinforced with metal thread;

   (b) Man-made filament tow of chapter 55 and multifilament yarn without twist or with a twist of less than 5 turns per meter of chapter 54;

   (c) Silk worm gut of heading 5006, and monofilaments of chapter 54;

   (d) Metallised yarn of heading 5605; yarn reinforced with metal thread is subject to paragraph (A) (f) above; and

   (e) Chenille yarn, gimped yarn, and loop wale-yarn of heading 5606.

4. (A) For the purposes of chapters 50, 51, 52, 54, and 55, the expression "put up for retail sale" in relation to yarn means, subject to the exceptions in paragraph (B) below, yarn put up:

   (a) In balls or on cards, reels, tubes or similar supports, of a weight (including support) not exceeding:

      (i) 85 g in the case of silk, waste silk, or man-made filaments; or

      (ii) 125 g in other cases;

   (b) In hanks or skeins of a weight not exceeding:

      (i) 85 g in the case of silk, waste silk, or man-made filaments; or

      (ii) 125 g in other cases;

   (c) In hanks or skeins comprising several smaller hanks or skeins separated by dividing threads which render them independent one of the other, each of uniform weight not exceeding:

      (i) 85 g in the case of silk, waste silk, or man-made filaments; or

      (ii) 125 g in other cases.

   (B) Exceptions:

   (a) Single yarn of any textile material, except:

      (i) Single yarn of wool or of fine animal hair, unbleached; and

      (ii) Single yarn of wool or of fine animal hair, bleached, dyed or printed, measuring more than 5,000 decitex;

   (b) Multiple (folded) or cabled yarn, unbleached:

      (i) Of silk or waste silk, however put up; or

      (ii) Of other textile material except wool or fine animal hair, in hanks or skeins;

   (c) Multiple (folded) or cabled yarn of silk or waste silk, bleached, dyed or printed, measuring 133 decitex or less; and

   (d) Single, multiple (folded) or cabled yarn of any textile material:

      (i) In cross-reeled hanks or skeins; or

      (ii) Put up on supports or in some other manner indicating its use in the textile industry (for example, on cops, twisting mill tubes, pirns, conical bobbins or spindles, or reeled in the form of cocoons for embroidery looms).

5. For the purposes of headings 5204, 5401, and 5508, the expression "sewing thread" means multiple (folded) or cabled yarn:

   (a) Put up on supports (for example, reels, tubes) of a weight (including support) not exceeding 1,000 g;

   (b) Dressed; and

   (c) With a final "Z" twist.

6. For the purposes of this section, the expression "high tenacity yarn" means yarn having a tenacity , expressed in cN/tex (centinewtons per tex), greater than the following:

Single yarn of nylon or other polyamides, or of polyesters.....................60 cN/tex

Multiple (folded) or cabled yarn of nylon or other polyamides, or of polyesters..53 cN/tex

Single, multiple (folded) or cabled yarn of viscose rayon......................27 cN/tex

7. For the purposes of this section, the expression "made up" means:

(a) Cut otherwise than into rectangles (including squares);

(b) Made and finished and ready for use (or merely needing separation by cutting dividing threads) and not requiring sewing or further fabrication (for example, certain dusters, towels, table cloths, scarf squares, and blankets);

(c) Hemmed or with rolled edges (except woven fabrics in the piece which have been cut from wider pieces and hemmed or rolled merely to prevent unravelling), or with a knotted fringe at any of the edges;

(d) Cut to size and having undergone a process of drawn thread work; and

(e) Assembled by sewing, gumming or otherwise (other than piece goods consisting of two or more lengths of identical material joined end to end and piece goods composed of two or more textiles assembled in layers, whether or not padded).

8. The headings of chapters 50 to 55 and, except where the context otherwise requires, the headings of chapters 56 to 60, do not apply to goods made up within the meaning of legal note 7 above. Chapters 50 to 55 do not apply to articles of chapters 56 to 59.

9. The woven fabrics of chapters 50 to 55 include fabrics consisting of layers of parallel textile yarns superimposed on each other at acute or right angles. These layers are bonded at the intersections of the yarns by an adhesive or by thermal bonding.

10. Textile products combined with rubber threads are classified in this section.

Supplementary Notes.

1.- For the purposes of this section the expression "polyamides" includes "aramides".

2.- In this section and, where applicable, throughout the Tariff Schedules the following expressions have the meanings hereby assigned to them :

(a) Elastomeric yarn

Filament yarn, including monofilament, of synthetic textile material, other than textured yarn, which does not break on being extended to three times its original length and which returns, after being extended to twice its original length, within a period of five minutes, to a length not greater than one and a half times its original length.

(b) Unbleached yarn

Yarn which :

(i) has the natural color of its constituent fibers and has not been bleached, dyed (whether or not in the mass) or printed; or

(ii) is of indeterminate color ("grey yarn"), manufactured from garnetted stock.

Such yarn may have been treated with a colorless dressing or fugitive dye (which disappears after simple washing with soap) and, in the case of man-made fibers, treated in the mass with delustering agents (for example, titanium dioxide).

(c) Bleached yarn

Yarn which :

(i) has under gone a bleaching process, is made of bleached fibers or, unless the context otherwise requires, has been dyed white (whether or not in the mass) or treated with a white dressing;

(ii) consists of a mixture of unbleached and bleached fibers; or

(iii) is multiple or cabled and consists of unbleached and bleached yarns.

(d) Colored (dyed or printed) yarn

Yarn which :

(i) is dyed (whether or not in the mass) other than white or in a fugitive color or printed, or made from dyed or printed fibers;

(ii) consists of a mixture of fibers of different colors or of a mixture of unbleached or bleached fibers with colored fibers (marl or mixture yarns), or is printed in one or more colors at intervals to give the impression of dots;

(iii) is obtained from slivers or roving which have been printed; or

(iv) is multiple or cabled and consists of unbleached or bleached yarn and colored yarn.

The above definitions also apply, mutatis mutandis, to monofilament and to strip or the like of chapter 54.

(e) Unbleached woven fabric

Woven fabric made from unbleached yarn and which has not been bleached, dyed or printed. Such fabric may have been treated with a colorless dressing or a fugitive dye.

(f) Bleached woven fabric

Woven fabric which :

(i) has bleached or, unless the context otherwise requires, dyed white or treated with a white dressing, in the piece;

(ii) consists of bleached yarn; or

(iii) consists of unbleached and bleached yarn.

(g) Dyed woven fabric

Woven fabric which :

(i) is dyed a single uniform color other than white (unless the context otherwise requires) or has been treated with a colored finish other than white (unless the context otherwise requires), in the piece; or

(ii) consists of colored yarn of a single uniform color.

(h) Woven fabrics of yarns of different colors

Woven fabric (other than printed woven fabric) which :

(i) consists of yarns of different colors or yarns of different shades of the same color (other than the natural color of the constituent fibers);

(ii) consists of unbleached or bleached yarn and colored yarn; or

(iii) consists of marl or mixture yarns.

(In all cases, the yarn used in selvedges and piece ends is not taken into consideration.)

(ij) Printed woven fabric

Woven fabric which has been printed in the piece, whether or not made from yarns of different colors.

(The following are also regarded as printed woven fabrics : woven fabrics bearing designs made, for example, with a brush or spray gun, by means of transfer paper, by flocking or by the batik process.)

The process of mercerization does not affect the classification of yarns or fabrics within the above categories.

(k) Plain weave

A fabric construction in which each yarn of the weft passes alternately over and under successive yarns of the warp and each yarn of the warp passes alternately over and under successive yarns of the weft.

3. (A) Products of chapters 56 to 63 containing two or more textile materials are to be regarded as consisting wholly of that textile material which would be selected under Note 2 to this section for the classification of a product of chapters 50 to 55 consisting of the same textile materials

(B) For the application of this rule :

(a) where appropriate, only the part which determines the classification under general Interpretative Rule 3 shall be taken into account;

(b) in the case of textile products consisting of a ground fabric and a pile or looped surface no account shall be taken of the ground fabric :

(c) in the case of embroidery of heading 5810 only the ground fabric shall be taken into account. However, embroidery without visible ground shall be classified with reference to the embroidering threads alone.

UNITED STATES INTERNATIONAL TRADE COMMISSION
WASHINGTON, D.C.

[332-131]

NOTICE OF HEARING ON AND RELEASE FOR PUBLIC COMMENT OF CHAPTERS OF THE TARIFF SCHEDULES OF THE UNITED STATES CONVERTED INTO THE NOMENCLATURE STRUCTURE OF THE HARMONIZED SYSTEM

AGENCY: United States International Trade Commission.

ACTION: Setting of public hearing and release for comment from interested parties, pursuant to Commission investigation No. 332-131, under the authority of section 332(g) of the Tariff Act of 1930, as amended, and initiated upon the request of the President of the United States, of the following chapters of the Tariff Schedules of the United States (TSUS) converted into the nomenclature structure of the Harmonized Commodity Description and Coding System (Harmonized System):

Volume I	Chapter 25:	Salt; sulphur; earths and stone; plastering materials; lime and cement
Volume II	Chapter 27:	Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes
Volume III	Chapter 44:	Wood and articles of wood; wood charcoal
	Chapter 45:	Cork and articles of cork
	Chapter 46:	Manufactures of straw, of esparto or of other plaiting materials; basketware and wickerwork
	Chapter 47:	Pulp of wood or of other fibrous cellulosic materials; waste and scrap of paper or paperboard
	Chapter 48:	Paper and paperboard; articles of paper pulp, of paper or of paperboard
	Chapter 49:	Printed books, newspapers, pictures and other products of the printing industry manuscripts, typescripts and plans
Volume IV	Chapter 50:	Silk
	Chapter 51:	Wool, fine or coarse animal hair; horsehair yarn and woven fabric
	Chapter 52:	Cotton
	Chapter 53:	Other vegetable textile fibres; paper yarn and woven fabrics of paper yarn

	Chapter 54:	Man-made filaments
	Chapter 55:	Man-made staple fibres
Volume V	Chapter 68:	Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials
	Chapter 69:	Ceramic products
	Chapter 70:	Glass and glassware
	Chapter 71:	Natural or cultured pearls, precious or semi-precious stones, precious metals, metal clad with precious metals, and articles thereof; imitation jewelry; coin
Volume VI	Chapter 84:	Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof
	Chapter 85:	Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders, or reproducers and parts and accessories of such articles
Volume VII	Chapter 86:	Railway and tramway locomotives, rolling-stock and parts thereof; railway and tramway track fixtures and fittings; mechanical traffic signalling equipment of all kinds (including electro-mechanical)
	Chapter 87:	Vehicles other than railway or tramway rolling-stock, and parts thereof
	Chapter 88:	Aircraft and parts thereof
	Chapter 89:	Ships, boats, and floating structures

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) April 30, 1982. The signed original and 19 copies of all written comments must be

filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on March 29, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on March 22, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the offices of the Commission, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 97 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature Committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 97 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the

President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981), along with the schedule for the release of the converted chapters. Appropriate supplementary public notices will be issued with respect to the publication of the remaining chapters and hearings thereon.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. As soon as they become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

Secretary

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 97 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. Section I Live Animals; Animal Products

Chapter 1: Live animals; animal products

Chapter 2: Meat and edible meat offal

Chapter 3: Fish, crustaceans and molluscs

Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included

Chapter 5: Products of animal origin, not elsewhere specified or included

II. Section II Vegetable Products

Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage

Chapter 7: Edible vegetables and certain roots and tubers

Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits

Chapter 9: Coffee, tea, maté and spices

Chapter 10: Cereals

Chapter 11: Products of the milling industry; malt and starches; gluten; inulin

Chapter 12: Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder

Chapter 13: Lacs; gums, resins and other vegetable saps and extracts

Chapter 14: Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. <u>Section III</u> Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. <u>Section IV</u> Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish, of crustaceans or molluscs

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Residues and waste from the food industries; prepared animal fodder

Chapter 24: Tobacco and manufactured tobacco substitutes

V. <u>SECTION V</u> Mineral Products

Chapter 25: Salt; sulphur; earth and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, or rare-earth metals, of radio-active elements and of isotopes

Chapter 29: Organic chemicals

Chapter 30: Pharmaceutical products

Chapter 31: Fertilizers

Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other colouring matter; paints and varnishes; putty and other mastics; inks

Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations

Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"

Chapter 35: Albuminoidal substances; glues; enzymes

Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations

Chapter 37: Photographic and cinematographic goods

Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

Chapter 39: Plastics and articles thereof

Chapter 40: Rubber and articles thereof

VIII. Section VIII Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)

Chapter 41: Raw hides and skins (other than furskins) and leather

Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)

Chapter 43: Furskins and artificial fur; manufactures thereof

IX. Section IX Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork

Chapter 44: Wood and articles of wood; wood charcoal

Chapter 45: Cork and articles of cork

Chapter 46: Manufactures of straw, of esparto and of other plaiting materials; basketware and wickerwork

X. Section X Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof

Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard

Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard

Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans

XI. Section XI Textiles and Textile Articles

Chapter 50: Silk

Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Chapter 52: Cotton

Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn

Chapter 54: Man-made filaments

Chapter 55: Man-made staple fibers

Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof

Chapter 57: Carpets and other textile floor coverings

Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery

Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use

Chapter 60: Knitted or crocheted fabrics

Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted

Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted

Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

XII. <u>Section XII</u> Footwear, Headgear, Umbrellas, Sunshades, Walking-Sticks, Seat-Sticks, Whips, Riding Crops, and Parts Thereof; Prepared Feathers and Articles Made Therewith; Artificial Flowers; Articles of Human Hair

Chapter 64: Footwear, gaiters and the like; parts of such articles

Chapter 65: Headgear and Parts thereof

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 7; 10 and 11 (currently 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended to reduce from 5 to 1 the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Rule 6 has been amended to more closely reflect the Harmonized System's treatment of containers and the abbreviations enumerated in rule 8 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the draft

chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Nomenclature" of the Customs Cooperation Council Nomenclature (CCCN), with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 5, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there were clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.10	
662.3010	5.5%	4,578	511,280	through	4.35%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number,

along with its post-MTN rates of duty and Jan.-Nov. 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

TARIFF SCHEDULE OF THE UNITED STATES ANNOTATED

(Converted to the Harmonized System and reflecting final MTN concession rates of duty)

GENERAL LEGAL NOTES

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal note 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note ___ and except as provided in legal note ___, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania
Bulgaria
Cuba 2/
Czechoslovakia
Estonia
German Democratic Republic
Kampuchea
Laos
Latvia
Lithuania
Mongolia
North Korea
Union of Soviet Socialist Republic
Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1, corpses, together with their coffins and accompanying flowers, are not articles subject to the provisions of the tariff schedule.

6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedule, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty under their appropriate tariff provision unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are not subject to treatment as imported articles but are classified with such articles if they are of a kind normally sold therewith. Their cost is, under section 402 of the Tariff Act of 1930, as amended, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties. Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties. Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kvar	-	kilovolt-amperes reactive
¢	-	cents	kw	-	kilowatts
%	-	percent ad valorem	l	-	liters
+	-	plus	lin	-	linear

kVA	-	kilovolt-amperes	X	-	No unit of quantity

9. For the purposes of the tariff schedule, the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

10. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

11. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory;

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable;

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "2009.90.0000-2009.60.00".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

Legal Notes

1. This section does not cover--

(a) Animal brush making bristles or hair (heading 0502); horsehair or horsehair waste (heading 0503);

(b) Human hair or articles of human hair (heading 0501, 6703, or 6704), except straining cloth of a kind commonly used in oil presses or the like (heading 5912);

(c) Cotton linters and other vegetable materials of chapter 14;

(d) Asbestos of heading 2524 or articles of asbestos and other products of heading 6813 or 6814;

(e) Articles of heading 3005 or 3006 (for example, wadding, gauze, bandages and similar articles for medical or surgical purposes, sterile surgical suture materials);

(f) Sensitised textiles (heading 3703);

(g) Monofilament of 67 decitex or more and of which any cross-sectional dimension exceeds 1 mm and strip of a width exceeding 5 mm, of plastics (chapter 39), or plaits or fabrics and other basketware and wickerwork of such monofilament or strip (chapter 46);

(h) Woven, knitted or crocheted fabrics, felt or nonwovens, impregnated, coated, covered or laminated with plastics, and articles thereof, of chapter 39;

(ij) Woven, knitted or crocheted fabrics, felt or nonwovens, impregnated, coated, covered or laminated with rubber, and articles thereof, of chapter 40;

(k) Hides and skins with their hair or wool on (chapter 41 or 43) or articles of furskin, artificial fur or articles thereof, of heading 4303 or 4304;

(l) Articles of textile materials of heading 4201 or 4202;

(m) Products and articles of chapter 48 (for example, cellulose wadding);

(n) Footwear or parts of footwear, gaiters or leggings or similar articles classified in chapter 64;

(o) Hair nets and other headgear or parts thereof of chapter 65;

(p) Articles of chapter 67;

(q) Abrasive-coated textile material (heading 6805);

(r) Glass fibers or articles of glass fibers, other than embroidery with glass thread on a visible ground of fabric (chapter 70);

(s) Articles of chapter 94 (for example, furniture, bedding, lamps and lighting fittings); or

(t) Articles of chapter 97 (for example, toys, games and sports requisites and nets).

2. (A) Articles classifiable in chapters 50 to 55 or in heading 5605 or 5809 and of a mixture of two or more textile materials are to be classified as if consisting wholly of that one textile material which predominates by weight over any other single textile material.

(B) For the purposes of the above rule:

(a) Gimped horsehair yarn (heading 5110) and metallised yarn (heading 5605) are to be treated as a single textile material and its weight is to be taken as the aggregate of the weight of its components; for the classification of woven fabrics, metal thread is to be regarded as a textile material;

(b) The choice of appropriate heading shall be effected by determining first the chapter and then the applicable heading within that chapter; desregarding any materials not classified in that chapter;

(c) When both chapters 54 and 55 are involved with any other chapter, chapters 54 and 55 are to be treated as a single chapter;

(d) Where a chapter or a heading refers to articles of different textile materials, such materials are to be treated as a single textile material.

(C) The provisions of paragraphs (A) and (B) above are to be applied also to the yarns referred to in notes 3, 4, 5, or 6 below.

(iii) is obtained from slivers or roving which have been printed; or

(iv) is multiple or cabled and consists of unbleached or bleached yarn and colored yarn.

The above definitions also apply, mutatis mutandis, to monofilament and to strip or the like of chapter 54.

(e) Unbleached woven fabric

Woven fabric made from unbleached yarn and which has not been bleached, dyed or printed. Such fabric may have been treated with a colorless dressing or a fugitive dye.

(f) Bleached woven fabric

Woven fabric which :

(i) has bleached or, unless the context otherwise requires, dyed white or treated with a white dressing, in the piece;

(ii) consists of bleached yarn; or

(iii) consists of unbleached and bleached yarn.

(g) Dyed woven fabric

Woven fabric which :

(i) is dyed a single uniform color other than white (unless the context otherwise requires) or has been treated with a colored finish other than white (unless the context otherwise requires), in the piece; or

(ii) consists of colored yarn of a single uniform color.

(h) Woven fabrics of yarns of different colors

Woven fabric (other than printed woven fabric) which :

(i) consists of yarns of different colors or yarns of different shades of the same color (other than the natural color of the constituent fibers);

(ii) consists of unbleached or bleached yarn and colored yarn; or

(iii) consists of marl or mixture yarns.

(In all cases, the yarn used in selvedges and piece ends is not taken into consideration.)

(ij) Printed woven fabric

Woven fabric which has been printed in the piece, whether or not made from yarns of different colors.

(The following are also regarded as printed woven fabrics : woven fabrics bearing designs made, for example, with a brush or spray gun, by means of transfer paper, by flocking or by the batik process.)

The process of mercerization does not affect the classification of yarns or fabrics within the above categories.

(k) Plain weave

A fabric construction in which each yarn of the weft passes alternately over and under successive yarns of the warp and each yarn of the warp passes alternately over and under successive yarns of the weft.

3. (A) Products of chapters 56 to 63 containing two or more textile materials are to be regarded as consisting wholly of that textile material which would be selected under Note 2 to this section for the classification of a product of chapters 50 to 55 consisting of the same textile materials

(B) For the application of this rule :

(a) where appropriate, only the part which determines the classification under general Interpretative Rule 3 shall be taken into account;

(b) in the case of textile products consisting of a ground fabric and a pile or looped surface no account shall be taken of the ground fabric :

(c) in the case of embroidery of heading 5810 only the ground fabric shall be taken into account. However, embroidery without visible ground shall be classified with reference to the embroidering threads alone.

3. (A) For the purposes of this section, and subject to the exceptions in paragraph (B) below, yarns (single, multiple (folded) or cabled) of the following descriptions are to be treated as "twine, cordage, ropes and cables":

   (a) Of silk, or waste silk, measuring more than 20,000 decitex;

   (b) Of man-made fibers (including yarn of two or more monofilaments of chapter 54), measuring more than 10,000 decitex;

   (c) Of true hemp or flax:

      (i) Polished or glazed, measuring 1,429 decitex or more;

      (ii) Not polished or glazed, measuring more than 20,000 decitex;

   (d) Of coir, consisting or three or more plies;

   (e) Of other vegetable fibers, measuring more than 20,000 decitex; or

   (f) Reinforced with metal thread.

(B) Exceptions:

   (a) Yarn of wool or other animal hair and paper yarn, other than yarn reinforced with metal thread;

   (b) Man-made filament tow of chapter 55 and multifilament yarn without twist or with a twist of less than 5 turns per meter of chapter 54;

   (c) Silk worm gut of heading 5006, and monofilaments of chapter 54;

   (d) Metallised yarn of heading 5605; yarn reinforced with metal thread is subject to paragraph (A) (f) above; and

   (e) Chenille yarn, gimped yarn, and loop wale-yarn of heading 5606.

4. (A) For the purposes of chapters 50, 51, 52, 54, and 55, the expression "put up for retail sale" in relation to yarn means, subject to the exceptions in paragraph (B) below, yarn put up:

   (a) In balls or on cards, reels, tubes or similar supports, of a weight (including support) not exceeding:

      (i) 85 g in the case of silk, waste silk, or man-made filaments; or

      (ii) 125 g in other cases;

   (b) In hanks or skeins of a weight not exceeding:

      (i) 85 g in the case of silk, waste silk, or man-made filaments; or

      (ii) 125 g in other cases;

   (c) In hanks or skeins comprising several smaller hanks or skeins separated by dividing threads which render them independent one of the other, each of uniform weight not exceeding:

      (i) 85 g in the case of silk, waste silk, or man-made filaments; or

      (ii) 125 g in other cases.

(B) Exceptions:

   (a) Single yarn of any textile material, except:

      (i) Single yarn of wool or of fine animal hair, unbleached; and

      (ii) Single yarn of wool or of fine animal hair, bleached, dyed or printed, measuring more than 5,000 decitex;

   (b) Multiple (folded) or cabled yarn, unbleached:

      (i) Of silk or waste silk, however put up; or

      (ii) Of other textile material except wool or fine animal hair, in hanks or skeins;

   (c) Multiple (folded) or cabled yarn of silk or waste silk, bleached, dyed or printed, measuring 133 decitex or less; and

   (d) Single, multiple (folded) or cabled yarn of any textile material:

      (i) In cross-reeled hanks or skeins; or

      (ii) Put up on supports or in some other manner indicating its use in the textile industry (for example, on cops, twisting mill tubes, pirns, conical bobbins or spindles, or reeled in the form of cocoons for embroidery looms).

5. For the purposes of headings 5204, 5401, and 5508, the expression "sewing thread" means multiple (folded) or cabled yarn:

   (a) Put up on supports (for example, reels, tubes) of a weight (including support) not exceeding 1,000 g;

   (b) Dressed; and

   (c) With a final "Z" twist.

6. For the purposes of this section, the expression "high tenacity yarn" means yarn having a tenacity , expressed in cN/tex (centinewtons per tex), greater than the following:

   Single yarn of nylon or other polyamides, or of polyesters....................60 cN/tex

   Multiple (folded) or cabled yarn of nylon or other polyamides, or of polyesters..53 cN/tex

   Single, multiple (folded) or cabled yarn of viscose rayon......................27 cN/tex

7. For the purposes of this section, the expression "made up" means:

   (a) Cut otherwise than into rectangles (including squares);

   (b) Made and finished and ready for use (or merely needing separation by cutting dividing threads) and not requiring sewing or further fabrication (for example, certain dusters, towels, table cloths, scarf squares, and blankets);

   (c) Hemmed or with rolled edges (except woven fabrics in the piece which have been cut from wider pieces and hemmed or rolled merely to prevent unravelling), or with a knotted fringe at any of the edges;

   (d) Cut to size and having undergone a process of drawn thread work; and

   (e) Assembled by sewing, gumming or otherwise (other than piece goods consisting of two or more lengths of identical material joined end to end and piece goods composed of two or more textiles assembled in layers, whether or not padded).

8. The headings of chapters 50 to 55 and, except where the context otherwise requires, the headings of chapters 56 to 60, do not apply to goods made up within the meaning of legal note 7 above. Chapters 50 to 55 do not apply to articles of chapters 56 to 59.

9. The woven fabrics of chapters 50 to 55 include fabrics consisting of layers of parallel textile yarns superimposed on each other at acute or right angles. These layers are bonded at the intersections of the yarns by an adhesive or by thermal bonding.

10. Textile products combined with rubber threads are classified in this section.

Supplementary Notes.

1.- For the purposes of this section the expression "polyamides" includes "aramides".

2.- In this section and, where applicable, throughout the Tariff Schedules the following expressions have the meanings hereby assigned to them :

   (a) Elastomeric yarn

   Filament yarn, including monofilament, of synthetic textile material, other than textured yarn, which does not break on being extended to three times its original length and which returns, after being extended to twice its original length, within a period of five minutes, to a length not greater than one and a half times its original length.

   (b) Unbleached yarn

   Yarn which :

   (i) has the natural color of its constituent fibers and has not been bleached, dyed (whether or not in the mass) or printed; or

   (ii) is of indeterminate color ("grey yarn"), manufactured from garnetted stock.

   Such yarn may have been treated with a colorless dressing or fugitive dye (which disappears after simple washing with soap) and, in the case of man-made fibers, treated in the mass with delustering agents (for example, titanium dioxide).

   (c) Bleached yarn

   Yarn which :

   (i) has under gone a bleaching process, is made of bleached fibers or, unless the context otherwise requires, has been dyed white (whether or not in the mass) or treated with a white dressing;

   (ii) consists of a mixture of unbleached and bleached fibers; or

   (iii) is multiple or cabled and consists of unbleached and bleached yarns.

   (d) Colored (dyed or printed) yarn

   Yarn which :

   (i) is dyed (whether or not in the mass) other than white or in a fugitive color or printed, or made from dyed or printed fibers;

   (ii) consists of a mixture of fibers of different colors or of a mixture of unbleached or bleached fibers with colored fibers (marl or mixture yarns), or is printed in one or more colors at intervals to give the impression of dots;

Additional U. S. Legal Note

1. The term "Certified hand-loomed and folklore" as used with respect to products provided for in this section refers to hand-loomed (i.e. not made on a power-driven loom) fabrics which are the product of a cottage industry, handmade (i.e. handcut, handsewn (i.e. not made on a treadle machine or any other type of sewing machine)) products of a cottage industry made from such hand-loomed fabrics, or traditional folklore textile products which have been made entirely by hand from such hand-loomed fabrics, provided such fabrics and products have been certified in accordance with the terms of an arrangement between the government of the exporting country and the United States Government. Such certification shall only be valid where the government of the exporting country has agreed to a certification procedure deemed acceptable by the United States Representative.

WOOL, FINE OR COARSE ANIMAL HAIR; HORSEHAIR YARN AND WOVEN FABRIC

Legal Note

1. Throughout the nomenclature--

   (a) "Wool" means the natural fiber grown by sheep or lambs;

   (b) "Fine animal hair" means the hair of alpaca, llama, vicuna, camel, yak, Angora, Tibetan, Kashmir and similar goats (but not common goats), rabbit (including Angora rabbit), hare, beaver, nutria, and musk rat; and

   (c) "Coarse animal hair" means the hair of animals not mentioned in the above paragraph, excluding wool, brush-making hair and bristles (heading 0502) and horsehair (heading 0503).

[2. For the purposes of headings 5101, 5102, 5103, and 5104, regarding any package containing wool or fine animal hair subject to different rates of duty, notwithstanding the rates of duty shown, the column 1 rate of duty is the highest column 1 rate applicable to any part of the contents of the package comprising not less than 5 percent thereof by weight and the column 2 rate of duty is the highest column 2 rate applicable to any part of the contents of the package comprising not less than 5 percent thereof by weight, except that for purposes of entries in items 5101.11.30, 5101.19.30, 5101.21.20, 5101.29.20, and 5101.30.20, the rate of duty is the rate shown for the respective foregoing provisions for any package of wool containing not over 10 percent by weight of wool finer than 46s but not containing wool finer than 48s.

3. For the purposes of headings 5101 and 5102--

   (a) The term "clean kg" in the rate columns means kilogram of clean yield;

   (b) The term "clean yield", in the foregoing headnote, except for purposes of carbonized fibers, means the absolute clean content (i.e., all that portion of the merchandise which consists exclusively of wool or hair free of all vegetable and other foreign material, containing by weight 12 percent of moisture and 1.5 percent of material removable from the wool or hair by extraction with alcohol, and having an ash content of not over 0.5 percent by weight), less an allowance, equal by weight to 0.5 percent of the absolute clean content plus 60 percent of the vegetable matter present, but not exceeding 15 percent by weight of the absolute clean content, for wool or hair that would ordinarily be lost during commercial cleaning operations; and

   (c) For purposes of carbonized fibers, the term "clean yield", in the foregoing headnote, means "in the condition as entered."

4. For the purposes of heading 5101--

   (a) The term "unimproved wool" means Aleppo, Arabian, Bagdad, Black Spanish, Chinese, Cordova, Cyprus, Donskoi, East Indian, Ecuadorean, Egyptian, Georgian, Haslock, Iceland, Karakul, Kerry, Manchurian, Mongolian, Oporto, Persian, Pyrenean, Sardinian, Scotch Blackface, Sistan, Smyrna, Sudan, Syrian, Thibetan, Turkestan, Valparaiso, and Welsh Mountain wool; similar wool not improved by the admixture of merino or English blood; and

   (b) The standards for determining grades of wool shall be those which are established from time to time by the Secretary of Agriculture pursuant to law and which are in effect on the date of importation of the wool.]

Explanation of Duty Rate Calculation for Certain Yarns and Woven Fabrics of Cotton in Chapter 52

In order to conform to the structure of the Harmonized System and to meet the objective of tariff simplification, it is being proposed not to carry forward, in heading 5205, the numerous existing TSUS breakouts for cotton yarns by yarn number. Similarly, the proposed provisions in headings 5208, 5209, 5210 and 5211 substantially reduce the number of tariff breakouts by average yarn number for cotton fabrics. Consequently, it was necessary to adopt special procedures for calculating the tariff rates for the proposed new items so that, to the extent practicable, the existing tariff structure and level of tariff protection could be maintained.

Because published statistics on yarns and fabrics are aggregated by groups of yarn numbers and average yarn numbers, respectively, it was necessary for the Commission staff to study a sample of customs entries in order to measure the volume of imports of the subject yarns by yarn number and the volume of imported fabrics by average yarn number.

The Commission staff is conducting a special analysis of current imports over a six-month period in order to arrive at final proposed rates for these yarns and fabrics. At this time the rates shown in the attached draft for these headings were calculated on the basis of a partial sample of customs entries and are therefore considered preliminary. It is expected that the final rates of duty will be published by August 1982 for comment by interested parties.

The methodology utilized by the Commission staff to calculate the duty rates (both preliminary and final) for the yarns of heading 5205 is set forth below.

1. An assumption was made that heading 5205 (covering yarns containing 85 percent or more by weight of cotton) corresponds to TSUS items 301.01 through 302.98 (covering yarns wholly of cotton).

2. A "base rate" was calculated for each of the five product groupings (by decitex range) of single yarns of uncombed fibers which are unbleached and not mercerized (i.e., subheadings 5205.1110, 5205.1210, 5205,1310, 5205.1410 and 5205.1510). This was done by allocating the trade for each of the current applicable TSUS provisions (items 301.01 through 301.98 and 302.01 through 302.98) by yarn number to the appropriate heading by decitex number and multiplying the volume of trade for each such TSUS provision by the corresponding final MTN base rate for each such provision. The total accumulated duties were then divided by the total accumulated value of imports under those TSUS provisions.

3. The rate of duty for the remaining yarns of heading 5205 was derived from the final MTN concession rate for TSUS item 302.--, which is "base rate + 2.1% ad val.", by adding 2.1% to the appropriate base rate calculated in (2) above. Thus, for example, the column 1 rate for bleached or mercerized yarns in heading 5205.1120 is 5.8%, which was derived from the base rate of 3.7% plus 2.1%. In this way the rate "differential" for bleached, mercerized, combed, multiple and/or ccbled (plied) yarns will be maintained.

A similar procedure was used to calculate the duty rates for the cotton fabrics of headings 5208, 5209, 5210 and 5211 (except the certified hand-loomed and folklore fabrics and fabrics suitable for making typewriter ribbon). In this case "base rates" were calculated for six product groupings, five of which are for fabrics weighing not more than 200 g/m^2 (headings 5208 and 5210) as follows:

poplin or broadcloth
twills and sateens
other fabrics of number 43 or lower number
other fabrics of number 44-70, and
other fabrics of number 70 or higher number.

The final base rate was calculated for "fabrics weighing over 200 g/m^2" (headings 5209 and 5211). To these base rates appropriate adjustments were made for fiber content (i.e., over or under 85% cotton) and for fabric finish (i.e., unbleached, bleached or colored).

Unlike the yarns, however, an adjustment was made to all rates to compensate for the rates applicable to "fancy or figured" fabrics, which are not proposed to be carried over into the proposed draft of chapter 52.

Interested parties are invited to comment on the methodology used in the calculation of these duty rates as well as the tariff structure contained in this chapter.

Legal Notes

/1. For the purposes of classifying yarns of headings 5205 and 5206--

(a) the term "decitex", as applied in these headings, concerns the number of grams per 10,000 meters of yarn. To determine the decitex measurement of any yarn, whether single, multiple or cabled, the actual grams per 10,000 meters shall be divided by the number of plies in such yarn.

(b) the term "nm", as applied in these headings, concerns the number of 1,000-meter lengths of yarn in one kilogram. To determine the nm measurement of any yarn, whether single, multiple or cabled, the actual meters per kilogram shall be divided by 1,000 and the quotient thereof multiplied by the number of plies in such yarn.

(c) in cases of conflict in classification, the decitex measurement shall prevail over the nm measurement.

2. Under regulations prescribed by the Secretary of the Treasury, the staple length of cotton shall be determined for all customs purposes by application of the Official Cotton Standards of the United States for length of staple, as established by the Secretary of Agriculture and in effect when the determination is to be made.

3. For the purposes of the woven fabrics of chapter 52--

(a) the term "plain-weave" means a fabric construction in which each yarn of the weft passes alternately over and under successive yarns of the warp and each yarn of the warp passes alternately over and under successive yarns of the weft;

(b) the term "number", as applied to woven fabrics of cotton, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous, and with the count being taken of the total single yarns in the fabric including the single yarns in any plied yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number for tariff purposes:

$$N = \frac{BYT}{1,000}, \quad \frac{100T}{Z'}, \quad \frac{BT}{Z}, \quad \text{or} \quad \frac{ST}{10}$$

when:

N is the average yarn number,
B is the breadth (width) of the fabric in centimeters,
Y is the meters (linear) of the fabric per kilogram,
T is the total single yarns per square centimeter,
S is the square meters of fabric per kilogram,
Z is the grams per linear meter of fabric, and
Z' is the grams per square meter of fabric.

Fractions in the resulting "number" shall be disregarded.

(c) the term "poplin or broadcloth" means fabrics of plain weave, weighing more than 100 g/m^2 but not more than 200 g/m^2, which are comprised of more than 47 singles yarns (including the singles yarn in any plied yarns) per square centimeter, and of which the total count of such singles yarn of either the warp or filling exceeds 60 percent of the total count of such singles yarns of the warp and filling;

(d) provisions relating to one or more weaves embrace only those fabrics which (excluding selvage) are wholly of the specified weave or weaves (including combinations thereof), and which are constructed as single woven (one layer) fabrics, not otherwise altered by sewing, bonding, or laminating.

Statistical Notes

1. For the purposes of the woven fabrics of chapter 52--

(a) the term "cheesecloth" means fabrics of plain weave, weighing not more than 100 g/m^2, not napped, and comprised of not more than 38 singles yarns per square centimeter including the singles yarns in any plied yarns, whether known as cheesecloth, tobacco cloth, gauze, curtaining, or by any other name;

(b) the term "duck" means fabrics weighing more than 200 g/m^2, not napped, of the following types: (1) of plain weave, the warp and/or filling of which consists of plied yarns, and (2) woven in the same manner as plain weave except that two warp ends are woven as one (taped warp), whether or not containing plied yarns;

(c) the term "gingham" means fabrics of yarns of different colors in each the warp and filling, whether known as gingham, plaids, or checks, not otherwise included or provided for;

(d) the term "napped" embraces fabrics, whether known as flannels, blanketing, or by any other name, of which the protruding fibers have been raised by the use of card clothing, teasels, wire teeth, or similar equipment, but the term does not include brushing, sueding, sanding, or like processes; and

(e) the term "printcloth" means fabrics of plain weave, weighing not more than 200 g/m^2, unbleached, bleached, dyed, or printed, not napped, and comprised wholly of uncombed singles yarns of numbers 44 to 60, of a total count of more than 38 yarns per square centimeter, and of which the total count of either the warp yarns or filling yarns does not exceed 60 percent of the total count of such yarns of the warp and filling.]

Legal Notes

1. Throughout the Nomenclature, the term "man-made fibers" means staple fibers and filaments of organic polymers produced by manufacturing processes, either:

   (a) By polymerization of condensation or organic monomers, such as polyamides, polyesters, polyurethanes or polyvinyl derivatives; or

   (b) By chemical transformation of natural organic polymers (for example, cellulose, casein, proteins or algae), such as viscose rayon, cellulose acetate, cupro and alginates.

   The terms "synthetic" and "artificial", used in relation to fibers, mean : synthetic : fibers as defined at (a); : artificial : fibers as defined at (b).

   The terms "man-made", "synthetic", and "artificial" shall have the same meaning when used in relation to "textile materials."

2. Headings 5402 and 5403 do not apply to synthetic or artificial filament tow of chapter 55.

3. The term "strip and the like" includes flattened tubes whether or not folded lengthwise, compressed, or twisted, of an apparent width not exceeding 5 mm.

4. The term "decitex" means the weight in grams for a length of 10,000 meters.

5. The provisions of chapter 54 and chapter 55 do not cover--

   (i) metal filaments, strips, or fibers;
   (ii) paper filaments, strips, or fibers;
   (iii) natural rubber filaments, strips, or fibers;
   (iv) synthetic rubber strips;
   (v) mineral filaments, strips, or fibers;
   (vi) sterile surgical sutures and suture materials, provided for in Chapter 30;
   (vii) strings for musical instruments, Chapter 92;
   (viii) fishing line put up and packaged for retail sale (see Chapter 97);
   (ix) racket strings put up and packaged for retail sale (see Chapter 97); or
   (x) brush bristles provided for in Chapter 5.

CHAPTER 55

MAN-MADE STAPLE FIBERS

Legal Note

Headings 5501 and 5502 are to be taken to apply only to man-made filament tow, consisting of parallel filaments of a uniform length equal to the length of the tow, meeting the following specifications:

(a) Length of tow exceeding 2 m;

(b) Twist less than 5 turns per meter;

(c) Measuring per filament less than 67 decitex;

(d) Synthetic filament tow only : the tow must be drawn, that is to say, be incapable of being stretched by more than 100 percent of its length;

(e) Total measurement of tow more than 20,000 decitex.

Tow of a length not exceeding 2 m is to be classified in heading 5503 or 5504.

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) November 26, 1982. The signed original and 19 copies of all written comments must be filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on November 1, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on October 25, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the office of the Secretary, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29 and 30, 1982. The final set of converted chapters will be published for hearing and public comment in January of 1983.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. On February 16, 1982 (47 F.R. 8108), April 14, 1982 (47 F.R. 17135) and June 30, 1982 (47 F.R. 29734) the Commission released draft explanatory notes for 64 of the chapters of the Harmonized System for public comment. As soon as more explanatory notes become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 6, 9 and 10 (currently 7, 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended by deleting electricity and vessels from the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Telecommunications transmissions have been added to rule 5 to explicitly exclude them from entry requirements. The abbreviations enumerated in rule 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the

draft chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Harmonized System", with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 7, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed

new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

General Legal Notes and General Rules of Interpretation		George Weise (202) 523-0363

1. Tariff Treatment of Imported Articles. All articles (including vessels and electricity) imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal notes 3 and 5.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note 6 of chapter 91 and except as provided in legal note , articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania
Bulgaria
Cuba 2/
Czechoslovakia
Estonia
German Democratic Republic
Kampuchea
Laos
Latvia
Lithuania
Mongolia
North Korea
Union of Soviet Socialist Republic
Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) executed securities and similar executed evidences of value, and

(d) telecommunications transmissions,

are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

7. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kW	-	kilowatts
¢	-	cents	kWh	-	kilowatt-hours
%	-	percent ad valorem	l	-	liters
+	-	plus	lin	-	linear

8. For the purposes of the tariff schedule, unless the context otherwise requires--

(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,

(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article includes a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance includes a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance includes a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory.

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable. Accessories imported with the principal article with which they normally belong shall be classified with that article.

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. Cases, boxes and similar containers imported with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets. Cases, boxes and similar containers which are not of a kind normally sold therewith as described above, or which are imported separately shall be classified under their appropriate headings.

6. Subject to rule 5, packings of articles shall be classified with the articles if they are of a kind normally used for packing such articles. Packings of articles which are not of a kind normally used for packing such articles shall be classified under their appropriate headings.

7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under heading 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

SECTION XI

TEXTILES AND TEXTILE ARTICLES

Legal Notes

1. This section does not cover--

   (a) Animal brush making bristles or hair (heading 0502); horsehair or horsehair waste (heading 0503);

   (b) Human hair or articles of human hair (heading 0501, 6703, or 6704), except straining cloth of a kind commonly used in oil presses or the like (heading 5911);

   (c) Cotton linters and other vegetable materials of chapter 14;

   (d) Asbestos of heading 2524 or articles of asbestos and other products of heading 6813 or 6814;

   (e) Articles of heading 3005 or 3006 (for example, wadding, gauze, bandages and similar articles for medical or surgical purposes, sterile surgical suture materials);

   (f) Sensitized textiles of (headings 3701 to 3704);

   (g) Monofilament of which any cross-sectional dimension exceeds 1 mm and strip and the like of a width exceeding 5 mm, of plastics (chapter 39), or plaits or fabrics and other basketware and wickerwork of such monofilament or strip (chapter 46);

   (h) Woven, knitted or crocheted fabrics, felts or nonwovens, impregnated, coated, covered or laminated with plastics, and articles thereof, of chapter 39;

   (ij) Woven, knitted or crocheted fabrics, felts or nonwovens, impregnated, coated, covered or laminated with rubber, and articles thereof, of chapter 40;

   (k) Hides and skins with their hair or wool on (chapter 41 or 43) or articles of furskin, artificial fur or articles thereof, of heading 4303 or 4304;

   (l) Articles of textile materials of heading 4201 or 4202;

   (m) Products and articles of chapter 48 (for example, cellulose wadding);

   (n) Footwear or parts of footwear, gaiters or leggings or similar articles of chapter 64;

   (o) Hair nets and other headgear or parts thereof of chapter 65;

   (p) Articles of chapter 67;

   (q) Abrasive-coated textile material (heading 6805);

   (r) Glass fibers or articles of glass fibers, other than embroidery with glass thread on a visible ground of fabric (chapter 70);

   (s) Articles of chapter 94 (for example, furniture, bedding, lamps and lighting fittings); or

   (t) Articles of chapter 97 (for example, toys, games and sports requisites and nets).

2. (A) Articles classifiable in chapters 50 to 55 or in heading 5605 or 5809 and of a mixture of two or more textile materials are to be classified as if consisting wholly of that one textile material which predominates by weight over any other single textile material.

   (B) For the purposes of the above rule:

      (a) Gimped horsehair yarn (heading 5110) and metallised yarn (heading 5605) are to be treated as a single textile material where weight is to be taken as the aggregate of the weight of its components; for the classification of woven fabrics, metal thread is to be regarded as a textile material;

      (b) The choice of appropriate heading shall be effected by determining first the chapter and then the applicable heading within that chapter disregarding any materials not classified in that chapter;

      (c) When both chapters 54 and 55 are involved with any other chapter, chapters 54 and 55 are to be treated as a single chapter;

      (d) Where a chapter or a heading refers to articles of different textile materials, such materials are to be treated as a single textile material.

   (C) The provisions of paragraphs (A) and (B) above are to be applied also to the yarns referred to in legal notes 3, 4, 5, and 6 below.

3. (A) For the purposes of this section, and subject to the exceptions in paragraph (B) below, yarns (single, multiple (folded) or cabled) of the following descriptions are to be treated as "twine, cordage, ropes and cables":

(a) Of silk, or waste silk, measuring more than 20,000 decitex;

(b) Of man-made fibers (including yarn of two or more monofilaments of chapter 54), measuring more than 10,000 decitex;

(c) Of true hemp or flax:

(i) Polished or glazed, measuring 1,429 decitex or more;

(ii) Not polished or glazed, measuring more than 20,000 decitex;

(d) Of coir, consisting of three or more plies;

(e) Of other vegetable fibers, measuring more than 20,000 decitex; or

(f) Reinforced with metal thread.

(B) Exceptions:

(a) Yarn of wool or other animal hair and paper yarn, other than yarn reinforced with metal thread;

(b) Man-made filament tow of chapter 55 and multifilament yarn without twist or with a twist of less than 5 turns per meter of chapter 54;

(c) Silk worm gut of heading 5006, and monofilament of chapter 54;

(d) Metallised yarn of heading 5605; yarn reinforced with metal thread is subject to paragraph (A) (f) above; and

(e) Chenille yarn, gimped yarn, and loop wale-yarn of heading 5606.

4. (A) For the purposes of chapters 50, 51, 52, 54, and 55, the expression "put up for retail sale" in relation to yarn means, subject to the exceptions in paragraph (B) below, yarn put up:

(a) In balls or on cards, reels, tubes or similar supports, of a weight (including support) not exceeding:

(i) 85 g in the case of silk, waste silk, or man-made filaments; or

(ii) 125 g in other cases;

(b) In hanks or skeins of a weight not exceeding:

(i) 85 g in the case of silk, waste silk, or man-made filaments; or

(ii) 125 g in other cases;

(c) In hanks or skeins comprising several smaller hanks or skeins separated by dividing threads which render them independent one of the other, each of uniform weight not exceeding:

(i) 85 g in the case of silk, waste silk, or man-made filaments; or

(ii) 125 g in other cases.

(B) Exceptions:

(a) Single yarn of any textile material, other than:

(i) Single yarn of wool or of fine animal hair, unbleached; and

(ii) Single yarn of wool or of fine animal hair, bleached, dyed or printed, measuring more than 5,000 decitex;

(b) Multiple (folded) or cabled yarn, unbleached:

(i) Of silk or waste silk, however put up; or

(ii) Of other textile material except wool or fine animal hair, in hanks or skeins;

(c) Multiple (folded) or cabled yarn of silk or waste silk, bleached, dyed or printed, measuring 133 decitex or less; and

(d) Single, multiple (folded) or cabled yarn of any textile material:

(i) In cross-reeled hanks or skeins; or

(ii) Put up on supports or in some other manner indicating its use in the textile industry (for example, on cops, twisting mill tubes, pirns, conical bobbins or spindles, or reeled in the form of cocoons for embroidery looms).

5. For the purposes of headings 5204, 5401, and 5508, the expression "sewing thread" means multiple (folded) or cabled yarn:

(a) Put up on supports (for example, reels, tubes) of a weight (including support) not exceeding 1,000 g;

(b) Dressed; and

(c) With a final "Z" twist.

6. For the purposes of this section, the expression "high tenacity yarn" means yarn having a tenacity, expressed in cN/tex (centinewtons per tex), greater than the following:

   Single yarn of nylon or other polyamides, or of polyesters....................60 cN/tex

   Multiple (folded) or cabled yarn of nylon or other polyamides, or of polyesters...53 cN/tex

   Single, multiple (folded) or cabled yarn of viscose rayon.....................27 cN/tex

7. For the purposes of this section, the expression "made up" means:

   (a) Cut otherwise than into rectangles (including squares);

   (b) Made, finished and ready for use (or merely needing separation by cutting dividing threads) and not requiring sewing or further fabrication (for example, certain dusters, towels, table cloths, scarf squares, and blankets);

   (c) Hemmed or with rolled edges (except woven fabrics in the piece which have been cut from wider pieces and hemmed or rolled merely to prevent unravelling), or with a knotted fringe at any of the edges;

   (d) Cut to size and having undergone a process of drawn thread work; and

   (e) Assembled by sewing, gumming or otherwise (other than piece goods consisting of two or more lengths of identical material joined end to end and piece goods composed of two or more textiles assembled in layers, whether or not padded).

8. The headings of chapters 50 to 55 and, except where the context otherwise requires, the headings of chapters 56 to 60, do not apply to articles made up within the meaning of legal note 7 above. Chapters 50 to 55 do not apply to articles of chapters 56 to 59.

9. The woven fabrics of chapters 50 to 55 include fabrics consisting of layers of parallel textile yarns superimposed on each other at acute or right angles. These layers are bonded at the intersections of the yarns by an adhesive or by thermal bonding.

10. Textile products combined with rubber threads are classified in this section.

11. For the purposes of this section the expression "polyamides" includes "aramides".

12. In this section and, where applicable, throughout the tariff schedule the following expressions have the meanings hereby assigned to them :

   (a) Elastomeric yarn

   Filament yarn, including monofilament, of synthetic textile material, other than textured yarn, which does not break on being extended to three times its original length and which returns, after being extended to twice its original length, within a period of five minutes, to a length not greater than one and a half times its original length.

   (b) Unbleached yarn

   Yarn which :

   (i) Has the natural color of its constituent fibers and has not been bleached, dyed (whether or not in the mass) or printed; or

   (ii) Is of indeterminate color ("grey yarn"), manufactured from garnetted stock.

   Such yarn may have been treated with a colorless dressing or fugitive dye (which disappears after simple washing with soap) and, in the case of man-made fibers, treated in the mass with deluster agents (for example, titanium dioxide).

   (c) Bleached yarn

   Yarn which :

   (i) Has under gone a bleaching process, is made of bleached fibers or, unless the context otherwise requires, has been dyed white (whether or not in the mass) or treated with a white dressing;

   (ii) Consists of a mixture of unbleached and bleached fibers; or

   (iii) Is multiple or cabled and consists of unbleached and bleached yarns.

   (d) Colored (dyed or printed) yarn

   Yarn which :

   (i) Is dyed (whether or not in the mass) other than white or in a fugitive color or printed, or made from dyed or printed fibers;

   (ii) Consists of a mixture of fibers of different colors or of a mixture of unbleached or bleached fibers with colored fibers (marl or mixture yarns), or is printed in one or more color at intervals to give the impression of dots;

(iii) Is obtained from slivers or roving which have been printed; or

(iv) Is multiple or cabled and consists of unbleached or bleached yarn and colored yarn.

The above definitions also apply, mutatis mutandis, to monofilament and to strip or the like of chapter 54.

(e) Unbleached woven fabrics

Woven fabric made from unbleached yarn and which has not been bleched, dyed or printed. Such fabric may have been treated with a colorless dressing or a fugitive dye.

(f) Bleached woven fabric

Woven fabric which :

(i) Has bleached or, unless the context otherwise requires, dyed white or treated with a white dressing, in the piece;

(ii) Consists of bleached yarn; or

(iii) Consists of unbleached and bleached yarn.

(g) Dyed woven fabric

Woven fabric which :

(i) is dyed a single uniform color other than white (unless the context otherwise requires) or has been treated with a colored finish other than white (unless the context otherwise requires), in the piece; or

(ii) consists of colored yarns of a single uniform color.

(h) Woven fabrics of yarns of different colors

Woven fabric (other than printed woven fabric) which :

(i) consists of yarns of different colors or yarns of different shades of the same color (other than the natural color of the constituent fibers);

(ii) consists of unbleached or bleached yarn and colored yarn; or

(iii) consists of marl or mixture yarns.

(In all cases, the yarn used in selvedges and piece ends is not taken into consideration.)

(ij) Printed woven fabric

Woven fabric which has been printed in the piece, whether or not made from yarns of different colors.

(The following are also regarded as printed woven fabrics : woven fabrics bearing designs made, for example, which a brush or spray gun, by means of transfer paper, by flocking or by the batik process.)

The process of mercerization does not affect the classification of yarns or fabrics within the above categories.

(k) Plain weave

A fabric construction in which each yarn of the filling passes alternately over and under successive yarns of the warp and each yarn of the warp passes alternately over and under successive yarns of the weft.

13. (A) Products of chapters 56 to 63 containing two or more textile materials are to be regarded as consisting wholly of that textile material which would be selected under legal note 2 to this section for the classification of a product of chapters 50 to 55 consisting of the same textile materials.

(B) For the application of this rule :

(a) Where appropriate, only the part which determines the classification under general interpretative rule 3 shall be taken into account;

(b) In the the case of textile products consisting of a ground fabric and a pile or looped surface no account shall be taken of the ground fabric :

(c) In the case of embroidery of heading 5810 only the ground fabric shall be taken into account. However, embroidery without visible ground shall be classified with reference to the embroidering threads alone.

Explanation of Duty Rate Calculation for Certain Yarns
and Woven Fabrics of Cotton in Chapter 52

In order to conform to the structure of the Harmonized System and to meet the objective of tariff simplification, it is being proposed not to carry forward, in heading 5205, the numerous existing TSUS breakouts for cotton yarns by yarn number. Similarly, the proposed provisions in headings 5208, 5209, 5210 and 5211 substantially reduce the number of tariff breakouts by average yarn number for cotton fabrics. Consequently, it was necessary to adopt special procedures for calculating the tariff rates for the proposed new items so that, to the extent practicable, the existing tariff structure and level of tariff protection could be maintained.

Because published statistics on yarns and fabrics are aggregated by groups of yarns numbers and average yarn numbers, respectively, it was necessary for the Commission staff to study a sample of customs entries in order to measure the volume of imports of the subject yarns by yarn number and the volume of imported fabrics by average yarn number. The Commission staff conducted a special analysis of current imports over a six-month period in order to arrive at the proposed rates for these yarns and fabrics.

The methodology utilized by the Commission staff to calculate the duty rates for the yarns of heading 5205 is set forth below.

1. An assumption was made that heading 5205 (covering yarns containing 85 percent or more by weight of cotton) corresponds to TSUS items 301.01 through 302.98 (covering yarns wholly of cotton).

2. A "base rate" was calculated for each of the five product groupings (by metric number range) of single yarns of uncombed fibers which are unbleached and not mercerized (i.e., subheadings 5205.1110, 5205.1210, 5205.1310, 5205.1410 and 5205.1510). This was done by allocating the trade for each of the current applicable TSUS provisions (items 301.01 through 301.98 and 302.01 through 302.98) by yarn number to the appropriate heading by metric number and multiplying the volume of trade for each such TSUS provision by the corresponding final MTN base rate for each such provision. The total accumulated duties were then divided by the total accumulated value of imports under those TSUS provisions.

3. The rate of duty for the remaining yarns of heading 5205 was derived from the final MTN concession rate for TSUS item 302.--, which is "base rate + 2.1% ad val.", by adding 2.1% to the appPriate base rate calculated in (2) above. Thus, for example, the column 1 rate for bleached or mercerized yarns in heading 5205.1120 is 5.8%, which was derived from the base rate of 3.7% plus 2.1%. In this way the rate "differential" for bleached, mercerized, combed, multiple and/or cabled (plied) yarns will be maintained.

A similar procedure was used to calculate the duty rates for the cotton fabrics of headings 5208, 5209, 5210 and 5211 (except the certified hand-loomed and folklore fabrics and fabrics suitable for making typewriter ribbon). In this case "base rates" were calculated for six product groupings, five of which are for fabrics weighing not more than 200 g/m^2 (headings 5208 and 5210) as follows:

poplin or broadcloth
twills and sateens
other fabrics of number 43 or lower number
other fabrics of number 44-70, and
other fabrics of number 70 or higher number.

The final base rate was calculated for "fabrics weighing over 200 g/m^2" (headings 5209 and 5211). To these base rates appropriate adjustments were made for fiber content (i.e., over or under 85% cotton) and for fabric finish (i.e., unbleached, bleached or colored).

Unlike the yarns, however, an adjustment was made to all rates to compensate for the rates applicable to "fancy or figured" fabrics, which are not proposed to be carried over into the proposed draft of chapter 52.

Interested parties are invited to comment on the methodology used in the calculation of these duty rates as well as the tariff structure contained in this chapter.

Legal Note

1. For the purposes of subheadings 5209.20 and 5211.20, the expression "blue denim" means fabrics of 3- or 4-thread twill, including broken twill, warp faced, the warp yarns of which are dyed blue and the weft yarns of which are unbleached, bleached, dyed grey or colored a lighter shade of blue than that of the warp yarns.

Additional U.S. Legal Notes

1. Under regulations prescribed by the Secretary of the Treasury, the staple length of cotton shall be determined for all customs purposes by application of the Official Cotton Standards of the United States for length of staple, as established by the Secretary of Agriculture and in effect when the determination is to be made.

2. For the purposes of the woven fabrics of chapter 52--

   (a) the term "plain-weave" means a fabric construction in which each yarn of the filling passes alternately over and under successive yarns of the warp and each yarn of the warp passes alternately over and under successive yarns of the filling;

   (b) the term "number", as applied to woven fabrics of cotton, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous and with the count being taken of the total single yarns in the fabric including the single yarns in any multiple or cabled yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number for tariff purposes:

$$N = \frac{BYT}{1,000}, \quad \frac{100T}{Z'}, \quad \frac{BT}{Z}, \quad \text{or} \quad \frac{ST}{10}$$

   when:

   N is the average yarn number,
   B is the breadth (width) of the fabric in centimeters,
   Y is the meters (linear) of the fabric per kilogram,
   T is the total single yarns per square centimeter,
   S is the square meters of fabric per kilogram,
   Z is the grams per linear meter of fabric, and
   Z′ is the grams per square meter of fabric.

   Fractions in the resulting "number" shall be disregarded.

   (c) the term "poplin or broadcloth" means fabrics of plain weave, weighing more than 100 g/m^2 but not more than 200 g/m^2, which are comprised of more than 47 single yarns (including the single yarns in multiple or cabled yarns) per square centimeter, and of which the total count per centimeter of such single yarns of the warp or of the filling is 62 percent or more of the total count per square centimeter of such single yarns of the warp and filling;

   (d) provisions relating to one or more weaves embrace only those fabrics which (excluding selvage) are wholly of the specified weave or weaves (including combinations thereof), and which are constructed as single woven (one layer) fabrics, not otherwise altered by sewing, bonding, or laminating.

3. For the purposes of classifying yarns of headings 5205 and 5206 the term "nm", as applied in these headings, means the number of 1,000-meter lengths of yarn in one kilogram. To determine the nm measurement of any yarn, whether single, multiple or cabled, the actual meters per kilogram shall be divided by 1,000 and the quotient thereof multiplied by the number of plies in such yarn.

Statistical Note

1. For the purposes of the woven fabrics of chapter 52--

   (a) the term "cheesecloth" means fabrics of plain weave, weighing not more than 100 g/m^2, not napped, and comprised of not more than 33 single yarns per square centimeter, including the single yarns in any multiple or cabled yarns, whether known as cheesecloth, tobacco cloth, curtaining, or by any other name, but does not include gauze (leno woven fabric) of heading 5803;

   (b) the term "duck" means fabrics weighing more than 200 g/m^2, not napped, of the following types: (1) of plain weave, of which the warp or filling, or both, consists of multiple or cabled yarns, and (2) woven as plain weave except that two warp ends are woven as one (taped warp), whether or not containing multiple or cabled yarns;

   (c) the term "gingham" means fabrics of yarns of different colors in each the warp and filling, whether known as gingham, plaids, or checks, not otherwise included or provided for;

   (d) the term "napped" embraces fabrics, whether known as flannels, blanketing, or by any other name, of which the protruding fibers have been raised by the use of card clothing, teasels, wire teeth, or similar equipment, but the term does not include brushing, sueding, sanding, or like processes; and

   (e) the term "printcloth" means fabrics of average yarn numbers 44-68, of plain weave, weighing not more than 200 g/m^2, unbleached, bleached, dyed, or printed, not napped, and comprised wholly of uncombed single yarns, of a total count of more than 33 yarns per square centimeter, and of which the total count of the warp yarns per centimeter and the total count of the filling yarns per centimeter are each less than 62 percent of the total count of such yarns of the warp and filling per square centimeter.

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) April 30, 1982. The signed original and 19 copies of all written comments must be

filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on March 29, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on March 22, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the offices of the Commission, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 97 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature Committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 97 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the

President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981), along with the schedule for the release of the converted chapters. Appropriate supplementary public notices will be issued with respect to the publication of the remaining chapters and hearings thereon.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. As soon as they become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

Secretary

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 97 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. Section I Live Animals; Animal Products

Chapter 1: Live animals; animal products

Chapter 2: Meat and edible meat offal

Chapter 3: Fish, crustaceans and molluscs

Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included

Chapter 5: Products of animal origin, not elsewhere specified or included

II. Section II Vegetable Products

Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage

Chapter 7: Edible vegetables and certain roots and tubers

Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits

Chapter 9: Coffee, tea, maté and spices

Chapter 10: Cereals

Chapter 11: Products of the milling industry; malt and starches; gluten; inulin

Chapter 12: Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder

Chapter 13: Lacs; gums, resins and other vegetable saps and extracts

Chapter 14: Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. Section III Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. Section IV Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish, of crustaceans or molluscs

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Residues and waste from the food industries; prepared animal fodder

Chapter 24: Tobacco and manufactured tobacco substitutes

V. SECTION V Mineral Products

Chapter 25: Salt; sulphur; earth and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, or rare-earth metals, of radio-active elements and of isotopes

Chapter 29: Organic chemicals

Chapter 30: Pharmaceutical products

Chapter 31: Fertilizers

Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other colouring matter; paints and varnishes; putty and other mastics; inks

Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations

Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"

Chapter 35: Albuminoidal substances; glues; enzymes

Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations

Chapter 37: Photographic and cinematographic goods

Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

Chapter 39: Plastics and articles thereof

Chapter 40: Rubber and articles thereof

VIII. Section VIII Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)

Chapter 41: Raw hides and skins (other than furskins) and leather

Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)

Chapter 43: Furskins and artificial fur; manufactures thereof

IX. Section IX Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork

Chapter 44: Wood and articles of wood; wood charcoal

Chapter 45: Cork and articles of cork

Chapter 46: Manufactures of straw, of esparto and of other plaiting materials; basketware and wickerwork

X. Section X Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof

Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard

Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard

Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans

XI. Section XI Textiles and Textile Articles

Chapter 50: Silk

Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Chapter 52: Cotton

Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn

Chapter 54: Man-made filaments

Chapter 55: Man-made staple fibers

Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof

Chapter 57: Carpets and other textile floor coverings

Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery

Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use

Chapter 60: Knitted or crocheted fabrics

Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted

Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted

Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

XII. Section XII Footwear, Headgear, Umbrellas, Sunshades, Walking-Sticks, Seat-Sticks, Whips, Riding Crops, and Parts Thereof; Prepared Feathers and Articles Made Therewith; Artificial Flowers; Articles of Human Hair

Chapter 64: Footwear, gaiters and the like; parts of such articles

Chapter 65: Headgear and Parts thereof

Chapter 66: Umbrellas, sun umbrellas, walking-sticks, seat-sticks, whips, riding-crops and parts thereof

Chapter 67: Prepared feathers and down and articles made of feathers or of down; artificial flowers; articles of human hair

XIII. <u>Section XIII</u> Articles of Stone, of Plaster, of Cement, of Asbestos, of Mica or of Similar Materials; Ceramic Products; Glass and Glassware

Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials

Chapter 69: Ceramic products

Chapter 70: Glass and glassware

XIV. <u>Section XIV</u> Natural or Cultured Pearls, Precious or Semi-Precious Stones, Precious Metals, Metals Clad With Precious Metals and Articles Thereof; Imitation Jewelery; Coin

Chapter 71: Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metals, and articles thereof; imitation jewelry; coin

XV. <u>Section XV</u> Base Metals and Articles of Base Metal

Chapter 72: Iron and steel

Chapter 73: Articles of iron or steel

Chapter 74: Copper and articles thereof

Chapter 75: Nickel and articles thereof

Chapter 76: Aluminum and articles thereof

Chapter 78: Lead and articles thereof

Chapter 79: Zinc and articles thereof

Chapter 80: Tin and articles thereof

Chapter 81: Other base metals; cermets; articles thereof

Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal; parts thereof

Chapter 83: Miscellaneous articles of base metal

XVI. Section XVI Machinery and Mechanical Appliances; Electrical Equipment; Parts Thereof; Sound Recorders and Reproducers, Television Image and Sound Recorders and Reproducers, and Parts and Accessories of such Articles

Chapter 84: Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof

Chapter 85: Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles

XVII. Section XVII Vehicles, Aircraft, Vessels and Associated Transport Equipment

Chapter 86: Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds

Chapter 87: Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof

Chapter 88: Aircraft and parts thereof

Chapter 89: Ships, boats, and floating structures

XVIII. Section XVIII Optical, Photographic, Cinematographic, Measuring, Checking, Precision, Medical and Surgical Instruments and Apparatus; Clocks and Watches; Musical Instruments; Parts Thereof

Chapter 90: Optical, photographic, cinematographic, measuring checking, precision, medical and surgical instruments and apparatus; parts thereof

Chapter 91: Clocks and watches and parts thereof

Chapter 92: Musical instruments; parts and accessories of such articles

XIX. Section XIX Arms and Ammunition; Parts Thereof

Chapter 93: Arms and ammunition; parts thereof

XX. Section XX Miscellaneous Manufactured Articles

Chapter 94: Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings

Chapter 95: Toys, games and sports requisites; parts thereof

Chapter 96: Miscellaneous manufactured articles

Chapter 97: Works of art, collectors' pieces, and antiques

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 7; 10 and 11 (currently 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended to reduce from 5 to 1 the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Rule 6 has been amended to more closely reflect the Harmonized System's treatment of containers and the abbreviations enumerated in rule 8 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the draft

chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Nomenclature" of the Customs Cooperation Council Nomenclature (CCCN), with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 5, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there were clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.10	
662.3010	5.5%	4,578	511,280	through	4.35%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number,

along with its post-MTN rates of duty and Jan.-Nov. 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal note 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note ___ and except as provided in legal note ___, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania
Bulgaria
Cuba 2/
Czechoslovakia
Estonia
German Democratic Republic
Kampuchea
Laos
Latvia
Lithuania
Mongolia
North Korea
Union of Soviet Socialist Republic
Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1, corpses, together with their coffins and accompanying flowers, are not articles subject to the provisions of the tariff schedule.

6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedule, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty under their appropriate tariff provision unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are not subject to treatment as imported articles but are classified with such articles if they are of a kind normally sold therewith. Their cost is, under section 402 of the Tariff Act of 1930, as amended, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties. Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties. Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

9. For the purposes of the tariff schedule, the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

10. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

11. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory;

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable;

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "2009.90.0000-2009.60.00".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

SECTION XIII

ARTICLES OF STONE, OF PLASTER, OF CEMENT,
OF ASBESTOS, OF MICA AND OF SIMILAR MATERIALS;
CERAMIC PRODUCTS; GLASS AND GLASSWARE

CHAPTER 68

ARTICLES OF STONE, OF PLASTER, OF CEMENT, OF
ASBESTOS, OF MICA AND OF SIMILAR MATERIALS

Legal Notes

1. This chapter does not cover--

   (a) Articles falling within chapter 25;

   (b) Coated or impregnated paper falling within heading 4807 (for example, paper coated with mica powder or graphite, bituminized or asphalted paper);

   (c) Coated or impregnated textile fabric falling within chapter 59 (for example, mica-coated fabric, bituminized or asphalted fabric);

   (d) Articles falling within chapter 71;

   (e) Tools or parts of tools, falling within chapter 82;

   (f) Lithographic stones of heading 8442;

   (g) Electrical insulators (heading 8546) or fittings of insulating material falling within heading 8547;

   (h) Dental burrs (heading 9018);

   (ij) Articles falling within chapter 91 (for example, clocks and clock cases);

   (k) Articles falling within chapter 94 (for example, furniture, lamps and lighting fittings, prefabricated buildings);

   (l) Articles falling within heading 9502, if made of materials specified in legal note 2 (b) to chapter 95;

   (m) Articles falling within chapter 95 (for example, toys, games and sports equipment);

   (n) Articles falling within heading 9601 (for example, buttons), 9605 (for example, slate pencils) or 9606 (for example, drawing slates) ; or

   (o) Works of art, collectors' pieces or antiques (chapter 97).

2. In heading 6802 the expression "worked monumental or building stone" is to be taken to apply not only to the varieties of stone referred to in headings 2515 and 2516 but also to all other natural stone (for example, quartzite, flint, dolomite and steatite) similarly worked; it is, however, to be taken not to apply to slate.

Additional U.S. Legal Notes

1. For the purposes of heading 6802, the term "slabs" embraces flat stone pieces, not over 5.1 centimeters in thickness, having a facial area of 6.4 square centimeters or more, the edges of which have not been beveled, rounded, or otherwise processed except such processing as may be needed to facilitate installation as tiling or veneering in building construction.

2. For the purposes of heading 6804, the term "wheels" encompasses rotary cutters, disks, and other circular bodies designed to rotate on a central axis.

3. For the purposes of headings 6809, 6811, and 6812, the term "cement" means cementing materials without added sand, gravel, or other aggregate.

4. For the purposes of heading 6811--

   (a) The term "concrete" means a composite of cementing materials of mineral origin with added mineral aggregate such as sand, crushed stone, or gravel.

   (b) The term "tiles" does not include any article 3.2 centimeters or more in thickness.

Legal Notes

1. The headings of this chapter are to be taken to apply only to ceramic products which have been fired after shaping. Headings 6904 to 6914 are to be taken to apply only to such products other than those classifiable in headings 6901 to 6903.

2. This chapter does not cover--

   (a) Articles falling within chapter 71 (for example, imitation jewelry);

   (b) Cermets falling within headings 2844 and 8130 and in chapter 82:

   (c) Electrical insulators (heading 8546) or fittings of insulating material falling within heading 8547;

   (d) Artificial teeth (subheading 9021.21);

   (e) Articles falling within chapter 91 (for example, clocks and clock cases);

   (f) Articles falling within chapter 94 (for example, furniture, lamps and lighting fittings);

   (g) Articles falling within chapter 95 (for example, toys, games and sports equipment);

   (h) Smoking pipes, buttons or other articles falling within chapter 96; or

   (ij) Original statuary, collectors' pieces or antiques (chapter 97).

Additional U.S. Legal Notes

1. For the purposes of this chapter, a "ceramic article" is a shaped article having a glazed or unglazed body of crystalline or substantially crystalline structure, which body is composed essentially of inorganic nonmetallic substances and is formed and subsequently hardened by such heat treatment that the body, if reheated to pyrometric cone 020, would not become more dense, harder, or less porous, but does not include any glass article.

2. This chapter does not include--

   (a) Unmounted cut elements of piezoelectric materials (heading 3823);

   (b) Pyrometric cones (heading 3823);

   (c) Glass-ceramic articles (chapter 70); or

   (d) Electrical apparatus for cooking (heading 8516).

3. For the purposes of headings 6902 and 6903, "refractory articles" are designed to be used at high temperatures, and have a pyrometric cone equivalent of at least 1500°C when heated at 60°C per hour (pyrometric cone 18). Refractory articles have special properties of strength and resistance to thermal shock and may also have, depending upon the particular uses for which designed, other special properties such as resistance to abrasion and corrosion.

4. For the purposes of subheading 6902.10, a brick which contains both chrome and magnesite is classifiable according to which of those components is the greater by weight.

5. For the purposes of heading 6905, the term "construction articles" means ceramic ware and articles of such ware such as, but not limited to, bricks, tiles, friezes, mantels, flue linings, and hollow building blocks, chiefly used in the construction of buildings and other structures.

6. For the purposes of headings 6905, 6907, and 6908, no article 3.2 cm or more in thickness shall be regarded as tile.

7. For the purposes of headings 6907 and 6908, "mosaic tiles" have a facial area of less than 38.7 cm^2.

8. For the purposes of heading 6909, nonceramic materials used merely for supporting, joining, or reinforcing purposes in wares provided for in this heading shall be disregarded in determining the essential character of such wares.

9. For the purposes of headings 6909 through 6914--

   (a) The terms "porcelain", "china", and "chinaware" embrace ceramic ware (other than stoneware), whether or not glazed or decorated, having a fired white body (unless artificially colored) which will not absorb more than 0.5 percent of its weight of water and is translucent in thicknesses of several millimeters. The term "stoneware" as used in this legal note, embraces ceramic ware which contains clay as an essential ingredient, is not naturally white, will absorb not more than 3.0 percent of its weight of water, and is naturally opaque (except in very thin pieces) even when absorption is less than 0.1 percent.

   (b) The term "bone chinaware" embraces chinaware or porcelain the body of which contains 25 percent or more of calcined bone or tricalcium phosphate.

   (c) The term "earthenware" embraces ceramic ware, whether or not glazed or decorated, having a fired body which contains clay as an essential ingredient, and will absorb more than 3.0 percent of its weight of water.

   (d) The water absorption of a ceramic body shall be determined by ASTM test method designated C373-72 (except that test specimens may have a minimum weight of 10 g, and may have one large surface glazed).

10. For the purposes of headings 6911, 6912, and 6913, those provisions which classify merchandise according to the value of each "article", an article is a single tariff entity which may consist of more than one piece. For example, a vegetable dish and its cover, or a beverage pot and its lid, imported in the same shipment, constitute an article.

Statistical Notes

1. For the purposes of headings 6904 and 6905, a "heat insulating" article, whether or not shaped, is one having a specific gravity of 1.2 or less and designed to impede or resist the flow of heat at temperatures above 870°C.

2. For the purposes of subchapter I and subheadings 6904.10.0010 and 6904.10.0030, a standard brick equivalent (sbe) shall be calculated on a volumetric basis, based on a brick measuring 11.43 cm by 6.35 cm by 22.86 cm.

3. For the purposes of subheadings 6904.10.0020 and 6904.10.0040, a standard brick equivalent (sbe) shall be calculated on a volumetric basis, based on a brick measuring 5.72 cm by 9.21 cm by 19.37 cm.

4. For the purposes of heading 6904--

    (a) The term "solid bricks" refers to bricks containing not more than 25 percent voids.

    (b) The term "hollow bricks" refers to bricks containing more than 25 percent voids.

Legal Notes

1. This chapter does not cover--
   (a) Articles falling within heading 3207 (for example, vitrifiable enamels and glazes, glass frit, other glass in the form of powder, granules or flakes);
   (b) Articles falling within chapter 71 (for example, imitation jewelry);
   (c) Electrical insulators (heading 8546) or fittings of insulating material falling within heading 8547;
   (d) Optically worked optical elements, optical glass fibers, hypodermic syringes, artificial eyes, thermometers, barometers, hydrometers or other articles falling within chapter 90;
   (e) Lamps and lighting fittings, illuminated signs, illuminated name-plates and the like, having a permanently fixed light source, and parts thereof falling within heading 9405;
   (f) Buttons, fitted vacuum flasks, scent or similar sprays or other articles falling within chapter 95; or
   (g) Toys, games, sports equipment, Christmas tree ornaments or other articles falling within chapter 96 (excluding glass eyes without mechanisms for dolls or for other articles of chapter 96).

2. For the purposes of headings 7003, 7004 and 7005--
   (a) Glass is not regarded as "worked" by reason of any process it has undergone before annealing;
   (b) Cutting to shape does not affect the classification of glass in sheets;
   (c) The expression "absorbent or reflecting layer" means a microscopically thin coating of metal or of a chemical compound (e.g., metal oxide) which absorbs, for example, infra-red light or improves the reflecting qualities of the glass while still allowing it to retain a degree of transparency or translucency.

3. The products referred to in heading 7006 remain classified in that heading whether or not they have the character of articles.

4. For the purposes of heading 7020, the expression "wool" means--
   (a) Mineral wools with a silica (SiO_2) content not less than 60 percent by weight;
   (b) Mineral wools with a silica (SiO_2) content less than 60 percent but with an alkaline oxide (K_2O and/or Na_2O) content of more than 5 percent by weight or a boric oxide (B_2O_3) content of more than 2 percent by weight.

   Mineral wools which do not comply with the above specifications fall in heading 6807.

5. For the purposes of the tariff schedule, the expression "glass" is to be taken to extend to fused quartz and fused silica.

Additional U.S. Legal Notes

1. For the purposes of this chapter, the expression "not optically worked" means that the glass has not been subjected to any grinding or polishing incident to surface shaping for producing optical properties.

2. For the purposes of heading 7003, the expression "cast glass and rolled glass" refers to glass that, as originally produced, has surfaces one or both of which, by a rolling process, have been made rough, figured, fluted, or ribbed, or have been otherwise impressed.

3. For the purposes of headings 7002 and 7017, the term "fused quartz or other fused silica" means glass containing more than 95 percent silicon dioxide by weight.

4. For the purposes of headings 7003 through 7006, the expression "colored throughout the mass" refers to glass that has a transmittance of normally incident light of less than 66 percent at one or more wave lengths from 400 to 700 millimicrons, inclusive, or a transmittance of less than 80 percent at one or more wave lengths from 525 to 575 millimicrons, inclusive, for glass 6.3 mm in thickness, or of the equivalent transmittances for any other thickness, provided that, in determining such light transmittances, the effect of surface irregularities or configurations, or of other surface treatment (except flashing applied prior to solidification), and the effect of wire netting within the glass, shall be eliminated.

5. For the purposes of headings 7003 and 7006, in determining the surface area of cast or rolled glass having irregular surfaces (such as corrugated glass), superficial area shall be used.

6. For the purposes of headings 7003 and 7004, glass of the same size and thickness imported in any shipment in quantities over 4.6 m^2 shall be denied entry unless it is--
   (a) Packed in units containing, as nearly as the particular size permits, 4.6 m^2, or multiples thereof, or
   (b) Packed in units containing multiples of the number of sheets of the same size and thickness which would be contained in a unit if packed to contain, as nearly as such size permits, 4.6 or 9.2 m^2, or
   (c) Otherwise packed in a manner which conforms to the packing practices of the domestic glass industry as determined and published from time to time by the Secretary of the Treasury.

7. For the purposes of heading 7006, the expression "polished," as used with reference to glass, refers to glass one or both of the surfaces of which have been made smooth and glossy, in whole or in part, by abrasive or chemical means, or by floating the glass over molten metal.

8. For the purposes of heading 7013, the term "lead crystal" means glassware made of glass containing by weight over 24 percent lead monoxide.

9. For the purposes of subheading 7018.10.2000, the term "imitation gemstones" means glass made into shapes suitable for use in jewelry or for other ornamental purposes in a manner similar to natural gemstones, whether or not in imitation thereof, but does not include natural gemstones, synthetic gemstones, reconstructed natural gemstones, or imitation pearls.

10. For the purposes of heading 7019.20, the expression "narrow fabrics" means--
    (a) woven or knit fabrics, not over 30.5 cm in width, with fast edges (that is, with both edges made or treated to prevent the fabric from unraveling, by means of selvages, stitching, gumming, fusing, or simple hemming); or
    (b) seamless woven or knit tubings which, when flattened, are not over 30.5 cm in width; or
    (c) bias binding consisting of strips, not over 30.5 cm in width, cut on the bias from woven or knit fabrics and folded and creased on the edges.

CHAPTER 71

NATURAL OR CULTURED PEARLS, PRECIOUS
OR SEMI-PRECIOUS STONES, PRECIOUS METAL,
METALS CLAD WITH PRECIOUS METAL,
AND ARTICLES THEREOF;
IMITATION JEWELRY; COIN

Legal Notes.

1. Subject to Note 1(a) to section VI and except as provided below, all articles consisting wholly or partly--

   (a) Of natural or cultured pearls or of precious or semi-precious stones (natural, synthetic or reconstructed), or

   (b) Of precious metal or of metal clad with precious metal, are to be classified in this chapter.

2. (a) Headings 7113, 7114, and 7115 do not cover articles in which precious metal or metal clad with precious metal is present as minor constituents only, such as minor fittings or minor ornamentation (for example, monograms, ferrules and rims), and paragraph (b) of the foregoing legal note does not apply to such articles.

   (b) Heading 7116 does not cover articles containing precious metal or metal clad with precious metal (other than as minor constituents).

3. This chapter does not cover--

   (a) Amalgams of precious metal, and colloidal precious metal (heading 2843);

   (b) Sterile surgical suture materials, dental fillings and other articles of chapter 30;

   (c) Articles of chapter 32 (for example, lustres);

   (d) Handbags and other articles of heading 4202 and articles of heading 4203;

   (e) Articles of heading 4303 or 4304;

   (f) Articles of section XI (textiles and textile articles);

   (g) Articles of chapter 64 (footwear) or chapter 65 (headgear);

   (h) Umbrellas, walking-sticks and other articles of chapter 66;

   (ij) Abrasive articles of heading 6804 or 6805 or chapter 82, containing dust or powder of precious or semi-precious stones (natural or synthetic); articles of chapter 82 with a working part of precious or semi-precious stones (natural, synthetic or reconstructed) on a support of base metal; machinery, mechanical appliances and electrical articles, and parts thereof, of section XVI. Nevertheless such articles and parts thereof consisting wholly of precious or semi-precious stones (natural, synthetic or reconstructed), remain classified in this chapter.

   (k) Articles of chapter 90, 91 or 92 (scientific instruments, optical elements, clocks and watches, jewel bearings, musical instruments);

   (l) Arms or parts thereof (chapter 93);

   (m) Articles covered by note 2 to chapter 95;

   (n) Articles of chapter 96 other than those of headings 9601, 9606 or 9615; or

   (o) Original sculptures and statuary (heading 9703), collectors' pieces (heading 9705) and antiques of an age exceeding one hundred years (heading 9706), other than natural or cultured pearls or precious or semi-precious stones.

4. (a) The expression "precious metal" means silver, gold, platinum and other metals of the platinum group.

   (b) The expression "other metals of the platinum group" means iridium, osmium, palladium, rhodium and ruthenium.

5. For the purposes of this chapter, any alloy (including a sintered mixture and an inter-metallic compound) containing precious metal is to be treated as an alloy of precious metal if any one precious metal constitutes as much as 2 percent, by weight, of the alloy. Alloys of precious metal are to be classified according to the following rules:

   (a) An alloy containing 2 percent or more, by weight, of platinum is to be treated as an alloy of platinum.

   (b) An alloy containing 2 percent or more, by weight, of gold but no platinum, or less than 2 percent, by weight, of platinum, is to be treated as an alloy of gold.

   (c) Other alloys containing 2 percent or more, by weight, of silver are to be treated as alloys of silver.

   For the purposes of this legal note, metals of the platinum group are to be regarded as one metal and are to be treated as though they were platinum.

6. Except where the context otherwise requires, any reference in the tariff schedule to precious metal or to any particular precious metal is to be taken to include a reference to alloys treated as alloys of precious metal or of the particular metal in accordance with the rules in legal note 5 above, but not to metal clad with precious metal or to base metal or non-metals coated or plated with precious metal.

7. The expression "clad", as applied to metal products of this chapter, refers to such products made with a base of metal upon one or more surfaces of which there is affixed by soldering, brazing, welding, hot-rolling or similar mechanical means a covering of precious metal. The expression is also to be taken to cover base metal inlaid with precious metal.

8. For the purposes of heading 7113, the expression "articles of jewelry" means -

   (a) Any small objects of personal adornment (gem-set or not) (for example, rings, bracelets, necklaces, brooches, earrings, watch chains, fobs, pendants, tie pins, cuff links, dress studs, religious or other medals and insignia); and

   (b) Articles of personal use of a kind normally carried in the pocket, in the handbag or on the person (such as cigarette cases, powder boxes, chain purses, pill boxes).

9. For the purposes of heading 7114, the expression "articles of goldsmiths' or silversmiths' wares" includes such articles as ornaments, tableware, toilet-ware, smokers' articles and other articles of household, office or religious use.

10. For the purposes of heading 7117, the expression "imitation jewelry" means articles of jewelry within the meaning of paragraph (a) of legal note 8 above (but not including buttons or other articles of heading 9606, or dress combs, hair slides or the like, and hairpins, of heading 9615); not incorporating natural or cultured pearls, precious or semi-precious stones (natural, synthetic or reconstructed) nor (except as plating or as minor constituents) precious metal or metal clad with precious metal.

Additional U.S. Legal Notes

1. This chapter does not include --

   (a) recording or transcribing styluses, needles, and points (heading 8522).

   (b) insulated electric conductors (heading 8544).

   (c) base metals coated or plated with precious metal or articles thereof.

2. (a) Subchapter II covers precious metals (including such metals when they are chemically pure), their alloys, and their so-called basic shapes and forms, and, in addition, covers metal waste and scrap. Unless the context requires otherwise, the provisions of this subchapter apply to the products described by whatever process made (i.e., whether rolled, forged, drawn, extruded, cast or sintered) and whether or not such products have been subjected to treatments to improve the properties or appearance of the metals or to protect them from corrosion or other deterioration.

   (b) For the purposes of this legal note, "alloys" are metallic substances consisting of two or more metals, or of one or more metals and one or more non-metals, intimately united, usually by having been fused together and which may or may not have been dissolved in each other when molten; they include sintered mixtures of metal powders and heterogeneous intimate mixtures obtained by fusion, but does not include substances in which the total weight of the metals does not equal or exceed the total weight of the non-metal components.

3. For the purposes of subchapter II, unless the context requires otherwise -

   (a) The term "unwrought" refers to metal, whether or not refined, in the form of ingots, blocks, lumps, billets, cakes, slabs, pigs, cathodes, anodes, briquettes, cubes, sticks, grains, sponge, pellets, shot, and similar primary forms, but does not cover rolled, forged, drawn, or extruded products, tubular products, or cast or sintered forms which have been machined or processed otherwise than by simple trimming, scalping, or descaling;

   (b) The term "semi-manufactured" refers to wrought metal products in the form of bars, rods, sections, plates, sheets, strips, wire, tubes, pipes, and hollow bars, and to powder (other than primary metal in powder form).

   (c) The term "waste and scrap" refers to materials and articles of metal which are second-hand or waste or refuse, or are obsolete, defective, or damaged, and which are fit only for the recovery of the metal content or for use in the manufacture of chemicals, and does not include metal in unwrought form or metal-bearing materials provided for in heading 2616.

4. For the purposes of subchapter III, the term "imitation gemstones" means glass, plastics, or other materials made into shapes suitable for use in jewelry or for other ornamental purposes in a manner similar to natural gemstones, whether or not in imitation thereof, but does not include natural gemstones, synthetic gemstones, reconstructed natural gemstones, or imitation pearls.

5. For the purposes of subheadings 7113.19.2500 and 7113.20.2500, the term "mixed link" refers to a chain composed of two or more styles or types of link.

UNITED STATES INTERNATIONAL TRADE COMMISSION
WASHINGTON, D.C.

[332-131]

NOTICE OF HEARING ON AND RELEASE FOR PUBLIC COMMENT OF CHAPTERS OF THE TARIFF SCHEDULES OF THE UNITED STATES CONVERTED INTO THE NOMENCLATURE STRUCTURE OF THE HARMONIZED SYSTEM

AGENCY: United States International Trade Commission.

ACTION: Setting of public hearing and release for comment from interested parties, pursuant to Commission investigation No. 332-131, under the authority of section 332(g) of the Tariff Act of 1930, as amended, and initiated upon the request of the President of the United States, of the following chapters of the Tariff Schedules of the United States (TSUS) converted into the nomenclature structure of the Harmonized Commodity Description and Coding System (Harmonized System):

Volume I	Chapter 25:	Salt; sulphur; earths and stone; plastering materials; lime and cement
Volume II	Chapter 27:	Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes
Volume III	Chapter 44:	Wood and articles of wood; wood charcoal
	Chapter 45:	Cork and articles of cork
	Chapter 46:	Manufactures of straw, of esparto or of other plaiting materials; basketware and wickerwork
	Chapter 47:	Pulp of wood or of other fibrous cellulosic materials; waste and scrap of paper or paperboard
	Chapter 48:	Paper and paperboard; articles of paper pulp, of paper or of paperboard
	Chapter 49:	Printed books, newspapers, pictures and other products of the printing industry manuscripts, typescripts and plans
Volume IV	Chapter 50:	Silk
	Chapter 51:	Wool, fine or coarse animal hair; horsehair yarn and woven fabric
	Chapter 52:	Cotton
	Chapter 53:	Other vegetable textile fibres; paper yarn and woven fabrics of paper yarn

	Chapter 54:	Man-made filaments
	Chapter 55:	Man-made staple fibres
Volume V	Chapter 68:	Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials
	Chapter 69:	Ceramic products
	Chapter 70:	Glass and glassware
	Chapter 71:	Natural or cultured pearls, precious or semi-precious stones, precious metals, metal clad with precious metals, and articles thereof; imitation jewelry; coin
Volume VI	Chapter 84:	Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof
	Chapter 85:	Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders, or reproducers and parts and accessories of such articles
Volume VII	Chapter 86:	Railway and tramway locomotives, rolling-stock and parts thereof; railway and tramway track fixtures and fittings; mechanical traffic signalling equipment of all kinds (including electro-mechanical)
	Chapter 87:	Vehicles other than railway or tramway rolling-stock, and parts thereof
	Chapter 88:	Aircraft and parts thereof
	Chapter 89:	Ships, boats, and floating structures

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) April 30, 1982. The signed original and 19 copies of all written comments must be

filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on March 29, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on March 22, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the offices of the Commission, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 97 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature Committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 97 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the

President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981), along with the schedule for the release of the converted chapters. Appropriate supplementary public notices will be issued with respect to the publication of the remaining chapters and hearings thereon.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. As soon as they become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

Secretary

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 97 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. Section I Live Animals; Animal Products

Chapter 1: Live animals; animal products

Chapter 2: Meat and edible meat offal

Chapter 3: Fish, crustaceans and molluscs

Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included

Chapter 5: Products of animal origin, not elsewhere specified or included

II. Section II Vegetable Products

Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage

Chapter 7: Edible vegetables and certain roots and tubers

Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits

Chapter 9: Coffee, tea, maté and spices

Chapter 10: Cereals

Chapter 11: Products of the milling industry; malt and starches; gluten; inulin

Chapter 12: Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder

Chapter 13: Lacs; gums, resins and other vegetable saps and extracts

Chapter 14: Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. <u>Section III</u> Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. <u>Section IV</u> Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish, of crustaceans or molluscs

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Residues and waste from the food industries; prepared animal fodder

Chapter 24: Tobacco and manufactured tobacco substitutes

V. <u>SECTION V</u> Mineral Products

Chapter 25: Salt; sulphur; earth and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, or rare-earth metals, of radio-active elements and of isotopes

Chapter 29: Organic chemicals

Chapter 30: Pharmaceutical products

Chapter 31: Fertilizers

Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other colouring matter; paints and varnishes; putty and other mastics; inks

Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations

Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"

Chapter 35: Albuminoidal substances; glues; enzymes

Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations

Chapter 37: Photographic and cinematographic goods

Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

Chapter 39: Plastics and articles thereof

Chapter 40: Rubber and articles thereof

VIII. Section VIII Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)

Chapter 41: Raw hides and skins (other than furskins) and leather

Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)

Chapter 43: Furskins and artificial fur; manufactures thereof

IX. Section IX Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork

Chapter 44: Wood and articles of wood; wood charcoal

Chapter 45: Cork and articles of cork

Chapter 46: Manufactures of straw, of esparto and of other plaiting materials; basketware and wickerwork

X. Section X Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof

Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard

Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard

Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans

XI. Section XI Textiles and Textile Articles

Chapter 50: Silk

Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Chapter 52: Cotton

Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn

Chapter 54: Man-made filaments

Chapter 55: Man-made staple fibers

Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof

Chapter 57: Carpets and other textile floor coverings

Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery

Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use

Chapter 60: Knitted or crocheted fabrics

Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted

Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted

Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

XII. <u>Section XII</u> Footwear, Headgear, Umbrellas, Sunshades, Walking-Sticks, Seat-Sticks, Whips, Riding Crops, and Parts Thereof; Prepared Feathers and Articles Made Therewith; Artificial Flowers; Articles of Human Hair

Chapter 64: Footwear, gaiters and the like; parts of such articles

Chapter 65: Headgear and Parts thereof

Chapter 66: Umbrellas, sun umbrellas, walking-sticks, seat-sticks, whips, riding-crops and parts thereof

Chapter 67: Prepared feathers and down and articles made of feathers or of down; artificial flowers; articles of human hair

XIII. <u>Section XIII</u> Articles of Stone, of Plaster, of Cement, of Asbestos, of Mica or of Similar Materials; Ceramic Products; Glass and Glassware

Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials

Chapter 69: Ceramic products

Chapter 70: Glass and glassware

XIV. <u>Section XIV</u> Natural or Cultured Pearls, Precious or Semi-Precious Stones, Precious Metals, Metals Clad With Precious Metals and Articles Thereof; Imitation Jewelery; Coin

Chapter 71: Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metals, and articles thereof; imitation jewelry; coin

XV. <u>Section XV</u> Base Metals and Articles of Base Metal

Chapter 72: Iron and steel

Chapter 73: Articles of iron or steel

Chapter 74: Copper and articles thereof

Chapter 75: Nickel and articles thereof

Chapter 76: Aluminum and articles thereof

Chapter 78: Lead and articles thereof

Chapter 79: Zinc and articles thereof

Chapter 80: Tin and articles thereof

Chapter 81: Other base metals; cermets; articles thereof

Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal; parts thereof

Chapter 83: Miscellaneous articles of base metal

XVI. <u>Section XVI</u> Machinery and Mechanical Appliances; Electrical Equipment; Parts Thereof; Sound Recorders and Reproducers, Television Image and Sound Recorders and Reproducers, and Parts and Accessories of such Articles

Chapter 84: Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof

Chapter 85: Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles

XVII. <u>Section XVII</u> Vehicles, Aircraft, Vessels and Associated Transport Equipment

Chapter 86: Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds

Chapter 87: Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof

Chapter 88: Aircraft and parts thereof

Chapter 89: Ships, boats, and floating structures

XVIII. <u>Section XVIII</u> Optical, Photographic, Cinematographic, Measuring, Checking, Precision, Medical and Surgical Instruments and Apparatus; Clocks and Watches; Musical Instruments; Parts Thereof

Chapter 90: Optical, photographic, cinematographic, measuring checking, precision, medical and surgical instruments and apparatus; parts thereof

Chapter 91: Clocks and watches and parts thereof

Chapter 92: Musical instruments; parts and accessories of such articles

XIX. <u>Section XIX</u> Arms and Ammunition; Parts Thereof

Chapter 93: Arms and ammunition; parts thereof

XX. Section XX Miscellaneous Manufactured Articles

Chapter 94: Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings

Chapter 95: Toys, games and sports requisites; parts thereof

Chapter 96: Miscellaneous manufactured articles

Chapter 97: Works of art, collectors' pieces, and antiques

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 7; 10 and 11 (currently 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended to reduce from 5 to 1 the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Rule 6 has been amended to more closely reflect the Harmonized System's treatment of containers and the abbreviations enumerated in rule 8 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the draft

chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Nomenclature" of the Customs Cooperation Council Nomenclature (CCCN), with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 5, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there were clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.10	
662.3010	5.5%	4,578	511,280	through	4.35%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number,

along with its post-MTN rates of duty and Jan.-Nov. 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal note 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note ___ and except as provided in legal note ___, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania	Laos
Bulgaria	Latvia
Cuba 2/	Lithuania
Czechoslovakia	Mongolia
Estonia	North Korea
German Democratic Republic	Union of Soviet Socialist Republic
Kampuchea	Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1, corpses, together with their coffins and accompanying flowers, are not articles subject to the provisions of the tariff schedule.

6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedule, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty under their appropriate tariff provision unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are not subject to treatment as imported articles but are classified with such articles if they are of a kind normally sold therewith. Their cost is, under section 402 of the Tariff Act of 1930, as amended, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties. Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties. Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kvar	-	kilovolt-amperes reactive
¢	-	cents	kw	-	kilowatts
%	-	percent ad valorem	l	-	liters
+	-	plus	lin	-	linear

kVA	-	kilovolt-amperes	X	-	No unit of quantity

9. For the purposes of the tariff schedule, the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

10. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

11. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory;

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable;

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

GENERAL STATISTICAL NOTES

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "2009.90.0000-2009.60.00".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

SECTION XVI

MACHINERY AND MECHANICAL APPLIANCES;
ELECTRICAL AND ELECTRONIC EQUIPMENT; PARTS THEREOF
SOUND RECORDERS AND REPRODUCERS, TELEVISION IMAGE
AND SOUND RECORDERS AND REPRODUCERS, AND PARTS AND
ACCESSORIES OF SUCH ARTICLES

Legal Notes

1. This section does not cover --

   (a) Transmission, conveyor or elevator belts or belting, of plastics material of Chapter 39, or of vulcanized rubber (heading 4010); or other articles of a kind used in machinery or mechanical or electrical appliances or for other industrial purposes, of unhardened vulcanized rubber (heading 4016);

   (b) Articles of leather or of composition leather (heading 4204) or of furskin (heading 4303), of a kind used in machinery or mechanical appliances or for other industrial purposes;

   (c) Bobbins, spools, cops, cones, cores, reels and similar supports, of any material (for example, chapter 39, 40, 44, or 48 or section XV);

   (d) Perforated cards of paper or paperboard for Jacquard or similar machines, falling within heading 4825;

   (e) Transmission, conveyor or elevator belts of textile material (heading 5911) or other articles of textile material of a kind commonly used in machinery or plant (heading 5912):

   (f) Precious or semi-precious stones (natural, synthetic or reconstructed) of heading 7102 to 7104, or articles wholly of such stones of heading 7116;

   (g) Parts of general use, as defined in legal note 2 to section XV, of base metal (section XV), or similar articles of plastics materials (which are classified in chapter 39);

   (h) Endless belts of metal wire or strip (section XV);

   (ij) Articles of chapter 82 or 83;

   (k) Vehicles, aircraft, vessels and associated transport equipment of section XVII;

   (l) Articles of chapter 90;

   (m) Clocks, watches and other articles of chapter 91;

   (n) Interchangeable tools of heading 8206 and brushes of a kind used as parts of machines of heading 9603; similar interchangeable tools are to be classified according to the constituent material of their working part (for example, in chapter 40, 42, 43, 45, or 59 or heading 6804 or 6909); or

   (o) Articles of chapter 95.

2. Subject to legal note 1 to this section, legal note 1 to chapter 84 and to legal note 1 to chapter 85, parts of machines (not being parts of the articles described in headings 8484, 8544, 8545, 8546, or 8547) are to be classified according to the following rules--

   (a) Articles of a kind described in any of the headings of chapters 84 and 85 (other than headings 8485 and 8548) are in all cases to be classified in their respective headings.

   (b) Other parts, if suitable for use solely or principally with a particular kind of machine, or with a number of machines falling within the same heading (including a machine falling within heading 8479 or 8543) are to be classified with the machines of that kind. However, parts which are equally suitable for use principally with the articles of headings 8517 and 8525 to 8528 are to be classified in heading 8517.

   (c) All other parts are to be classified in heading 8485 or 8548.

3. Unless the headings otherwise require, composite machines consisting of two or more machines fitted together to form a whole and other machines adapted for the purpose of performing two or more complementary or alternative functions are to be classified as if consisting only of that component or as being that machine which performs the principal function.

4. Motors and transmission, conveyor or elevator belts, for machinery or appliances to which they are fitted, or, if packed separately for convenience of transport, which are clearly intended to be fitted to or mounted on a common base with the machine or appliance with which they are imported, are to be classified under the same heading as such machinery or appliances.

5. For the purposes of these legal notes, the expression "machine" means any machine, machinery, plant, equipment, apparatus or appliance cited in the headings of chapters 84 and 85.

Legal Notes:

1. This chapter does not cover--

   (a) Millstones, grindstones and other articles falling within chapter 68;

   (b) Appliances and machinery (for example, pumps) and parts thereof, of ceramic material (chapter 69);

   (c) Laboratory glassware of heading 7017; machinery and appliances and parts thereof, of glass (heading 7019 or 7020);

   (d) Articles falling within heading 7321 or 7322 and similar articles of other base metals (chapters 74 to 81);

   (e) Electro-Mechanical tools for working in the hand, of heading 8508 or electro-mechanical domestic appliances of heading 8509; or

   (f) Hand-operated mechanical floor sweepers, not motorized (Heading 9603).

2. Subject to the operation of legal notes 3 and 4 to section XVI, a machine or appliance which answers to a description in one or more of headings 8402 to 8424 and at the same time to a description in one or more of headings 8425 to 8480 is to be classified under the appropriate heading of the former group and not the latter.

   Heading 8419 does not, however, cover:

   (a) Germination plant, incubators and brooders (heading 8436);

   (b) Grain dampening machines (heading 8437);

   (c) Diffusing apparatus for sugar juice extraction (heading 8438);

   (d) Machinery for the heat-treatment of textile yarns, fabrics or made up textile articles (heading 8451); or

   (e) Machinery or plant, designed for mechanical operation, in which a change of temperature, even if necessary, is subsidiary.

   Heading 8422 does not cover:

   (a) Sewing machines for closing bags or similar containers (heading 8452); or

   (b) Office machinery of heading 8472.

3. A machine-tool for working any material which answers to a description in heading 8456 and at the same time to a description in heading 8457, 8458, 8459, 8460, 8461, 8464, or 8465 is to be classified in heading 8456.

4. Heading 8457 applies only to machine-tools for working metal (other than lathes) which can carry out different types of machining operations either:

   (a) By automatic tool change from a magazine or the like in conformity with a machining program (machining centers);

   (b) By automatic use, simultaneously or sequentially, of different unit heads working on a fixed position workpiece (unit construction machines, single station), or

   (c) By automatic transfer of the workpiece to different unit heads (multi-station transfer machines).

5. (A) For purposes of heading 8471, the expression "automatic data processing machines" means:

      (a) Digital machines, capable of (1) storing the processing program or programs and at least the data immediately necessary for execution of the program; (2) being freely programmed in accordance with the requirements of the user; (3) performing arithmetical computations specified by the user; and, (4) executing, without human intervention, a processing program which requires them to modify their execution by logical decision during the processing run;

      (b) Analog machines capable of simulating mathematical models and comprising at least: analog elements, control elements, and programming elements;

      (c) Hybrid machines consisting of either a digital machine with analog elements or an analog machine with digital elements.

   (B) Automatic data processing machines may be in the form of systems consisting of a variable number of separately-housed units. A unit is to be regarded as being a part of the complete system if it meets all of the following conditions:

      (a) It is connectable to the central processing unit either directly or through one or more other units; and

      (b) It is specifically designed as part of such a system (it must, in particular, unless it is a power supply unit, be able to accept or deliver data in a form (code or signals) which can be used by the system).

      Such units imported separately are also to be classified in heading 8471.

      Heading 8471 does not cover machines incorporating or working in conjunction with an automatic data processing machine and performing a specific function. Such machines are classified in headings appropriate to their respective functions or, failing that, in residual headings.

6. Heading 8482 applies, inter alia, to polished steel balls, the maximum and minimum diameters of which do not differ from the nominal diameter by more than 1 percent or by more than 0.05 mm, whichever is less. Other steel balls are to be classified under heading 7326.

7. A machine which is used for more than one purpose is, for the purposes of classification, to be treated as if its principal purpose were its sole purpose.

   Subject to legal note 2 to this chapter and legal note 3 to section XVI, a machine whose principal purpose is not described in any heading or for which no one purpose is the principal purpose is, unless the context otherwise requires, to be classified in heading 8479; however, this provision does not apply to machines potentially classifiable in several of the headings 8425 to 8430 or several of the headings 8458 to 8463 which are to be classified by application of General Interpretative Rule 3 (c). Heading 8479 also covers machines for making rope or cable (for example, stranding, twisting or cabling machines) from metal wire, textile yarn, or any other material, or from a combination of such materials.

ELECTRICAL MACHINERY AND EQUIPMENT AND PARTS THEREOF; SOUND RECORDERS OR REPRODUCERS, TELEVISION IMAGE AND SOUND RECORDERS OR REPRODUCERS, AND PARTS AND ACCESSORIES OF SUCH ARTICLES

Legal Notes

1. This Chapter does not cover--

   (a) Electrically warmed blankets, bed pads, foot-muffs and the like; electrically warmed clothing, footwear and ear pads and other electrically warmed articles worn on or about the person;

   (b) Articles of glass of heading 7011; or

   (c) Electrically heated furniture of chapter 94.

2. Headings 8501 to 8504 do not apply to goods described in headings 8511, 8512, 8540, 8541, or 8542.

   However, metal tank mercury arc rectifiers remain classified in heading 8504.

3. Heading 8509 covers only the following electromechanical machines of kinds commonly used for domestic purposes:

   [(a) Vacuum cleaners (heading 8509.10), floor polishers (heading 8509.20), food grinders and mixers (heading 8509.40), and fruit or vegetable juice extractors (heading 8509.40), of any weight;

   (b) Kitchen waste disposers (heading 8509.31) and other machines provided the weight of such other machines does not exceed 20 kg, exclusive of extra interchangeable parts or detachable auxiliary devices.]

   The heading does not, however, apply to fans and ventilating or recycling hoods incorporating a fan, whether or not fitted with filters (heading 8414), dish washing machines (heading 8422), centrifugal and other clothes washing machines (heading 8421 or 8450), roller and other ironing machines (heading 8420 or 8451), sewing machines (heading 8452), or to electrothermic appliances (heading 8516).

[4. For the purpose of heading 8516.72, the term "toasters" covers toaster-ovens which are designed essentially for toasting bread but can also bake small items, such as potatoes.]

[5. For the purposes of heading 8517.20, the term "teleprinters, including teletypewriters covers only those devices which print character-by-character, devices for transmitting diagrams are excluded.]

[6. Heading 8525.20 covers relay apparatus which receives and retransmits radio or television transmissions.]

[7. Heading 8530.80 covers grade crossing signals.]

8. For the purposes of heading 8534 "printed circuits" are to be taken to be circuits obtained by forming on an insulating base, by any printing process (for example, embossing, plating-up, etching) or by the "film circuit" technique, conductor elements, contacts or other printed components (for example, inductances, resistors, capacitors) alone or interconnected according to a pre-established pattern, other than elements which can produce, rectify, modulate, or amplify an electrical signal (for example, semiconductor elements).

   The term "printed circuits" does not cover circuits combined with elements other than those obtained during the printing process. Printed circuits may, however, be fitted with non-printed connecting elements.

   Thin- or thick-film circuits comprising passive and active elements obtained during the same technological process are to be classified in heading 8542.

9. For the purposes of headings 8541 and 8542:

   (A) "Diodes, transistors and similar semiconductor devices" are to be taken to be those devices the operation of which depends on variations in resistivity on the application of an electric field;

   (B) "Electronic integrated circuits and microassemblies" are to be taken to be:

      (a) Monolithic integrated circuits in which the circuit elements (diodes, transistors, resistors, capacitors, interconnections, etc.) are created in the mass (essentially) and on the surface of a semiconductor material (doped silicon, for example) and are inseparably associated;

      (b) Hybrid integrated circuits in which passive and active elements, some obtained by thin- or thick-film technology (resistors, capacitors, interconnections, etc.), others by semiconductor technology (diodes, transistors, monolithic integrated circuits, etc.), are combined to all intents and purposes indivisibly, on a single insulating substrate (glass, ceramic, etc.). These circuits may also include miniaturized discrete components;

      (c) Microassemblies of the "fagot" module, molded module, micromodule and similar types, consisting of discrete, active, or both active and passive miniaturized components which are combined and interconnected.

   For the classification of the articles defined in this legal note, headings 8541 and 8542 shall take precedence over any other heading in the tariff schedule which might cover them by reference to, in particular, their function.

Additional U.S. Legal Notes

1. For the purposes of headings 8501 and 8503, 746 watts (W) is taken to be equivalent to 1 horsepower (hp.).

2. For the purposes of heading 8525 the term "transceivers" refers to combinations of radio transmitting and receiving equipment in a common housing, employing common circuit components for both transmitting and receiving, and which are not capable of simultaneously receiving and transmitting.

3. For the purposes of heading 8536.61, the term "lampholders" is taken to include lamp or tube sockets.

Statistical Note

1. For the purposes of heading 8528 the video display diagonal is determined by measuring the maximum straight line dimension across that part of the face-plate used for displaying video. Video displays whose measurement exceeds by 1.27 centimeters any value specifically provided for will be placed in the next higher size classification.

2. For the purposes of this chapter the terms "AM" and "FM" refer to the entertainment broadcast bands of 550-1650 kHz and 88-108 mHz, respectively.

3. For statistical reporting purposes under heading 8539.10, the size of a sealed beam unit (bulb) is determined by measuring the largest diagonal dimension across the face-plate.

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) April 30, 1982. The signed original and 19 copies of all written comments must be

filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on March 29, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on March 22, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the offices of the Commission, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 97 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature Committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 97 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the

President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981), along with the schedule for the release of the converted chapters. Appropriate supplementary public notices will be issued with respect to the publication of the remaining chapters and hearings thereon.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. As soon as they become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 97 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 7; 10 and 11 (currently 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended to reduce from 5 to 1 the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Rule 6 has been amended to more closely reflect the Harmonized System's treatment of containers and the abbreviations enumerated in rule 8 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the draft

chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Nomenclature" of the Customs Cooperation Council Nomenclature (CCCN), with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 5, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there were clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.10	
662.3010	5.5%	4,578	511,280	through	4.35%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number,

along with its post-MTN rates of duty and Jan.-Nov. 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

TARIFF SCHEDULE OF THE UNITED STATES ANNOTATED

(Converted to the Harmonized System and reflecting final MTN concession rates of duty)

GENERAL LEGAL NOTES

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal note 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note ___ and except as provided in legal note ___, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania	Laos
Bulgaria	Latvia
Cuba 2/	Lithuania
Czechoslovakia	Mongolia
Estonia	North Korea
German Democratic Republic	Union of Soviet Socialist Republic
Kampuchea	Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1, corpses, together with their coffins and accompanying flowers, are not articles subject to the provisions of the tariff schedule.

6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedule, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty under their appropriate tariff provision unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are not subject to treatment as imported articles but are classified with such articles if they are of a kind normally sold therewith. Their cost is, under section 402 of the Tariff Act of 1930, as amended, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties. Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties. Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kvar	-	kilovolt-amperes reactive
¢	-	cents	kw	-	kilowatts
%	-	percent ad valorem	l	-	liters
+	-	plus	lin	-	linear

9. For the purposes of the tariff schedule, the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

10. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

11. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory;

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable;

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

GENERAL STATISTICAL NOTES

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "2009.90.0000-2009.60.00".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

SECTION XVII

VEHICLES, AIRCRAFT, VESSELS AND ASSOCIATED TRANSPORT EQUIPMENT

Legal Notes

1. This section does not cover articles falling within heading 9501, 9503 or 9508, or bobsleds, toboggans and the like of heading 9506.

2. The expressions "parts" and "parts and accessories" do not apply to the following articles, whether or not they are identifiable as for the articles of this section--
   (a) Joints, washers and the like (classified according to their constituent material or in heading 8484);
   (b) Parts of general use, as defined in note 2 to section XV, of base metal (section XV), or similar articles of plastics materials (chapter 39)
   (c) Articles of chapter 82 (tools);
   (d) Articles of heading 8306;
   (e) Machines and mechanical appliances and other articles of chapter 84;
   (f) Electrical machinery and equipment (chapter 85);
   (g) Articles of chapter 90;
   (h) Clocks (chapter 91);
   (ij) Arms (chapter 93);
   (k) Brushes of a kind used as parts of vehicles (heading 9603).

3. References in chapters 86 to 88 to parts or accessories do not apply to parts or accessories which are not suitable for use solely or principally with the articles of those chapters. A part or accessory which answers to a description in two or more of the headings of those chapters is to be classified under that heading which corresponds to the principal use of that part or accessory.

4. Aircraft specially constructed so that they can also be used as road vehicles are classified as aircraft. Amphibious motor vehicles are classified as motor vehicles.

5. Air-cushion vehicles are to be classified within this section with the vehicles to which they are most akin as follows--
   (a) In chapter 86 if designed to travel on a guide-track (hovertrains);
   (b) In chapter 87 if designed to travel over land or over both land and water;
   (c) In chapter 89 if designed to travel over water, whether or not able to land on beaches or landing-stages or also able to travel over ice.

   Parts and acessories of air-cushion vehicles are to be classified in the same way as those of vehicles falling within the heading in which the air-cushion vehicles are classified under the above provisions.

   Hovertrain track fixtures and fittings are to be classified as railway track fixtures and fittings, and traffic control equipment for hovertrain transport systems as traffic control equipment for railways.

Additional U.S. Legal Note

Throughout this section the term "self-propelled" refers to vehicles operated by means of engines or motors (whether gasoline, diesel, electric, or other type).

CHAPTER 86

RAILWAY AND TRAMWAY LOCOMOTIVES, ROLLING-STOCK AND PARTS THEREOF; RAILWAY OR TRAMWAY TRACK FIXTURES AND FITTINGS AND PARTS THEREOF; MECHANICAL (INCLUDING ELECTO-MECHANICAL) TRAFFIC SIGNALLING EQUIPMENT OF ALL KINDS

Legal Notes

1. This chapter does not cover--
   (a) Railway or tramway ties of wood or of concrete, or concrete guide-track sections for hovertrains (heading 4406 or 6811);
   (b) Railway or tramway track construction material of iron or steel falling within heading 7302; or
   (c) Electrically powered signalling apparatus of heading 8530.

2. Subject to the provisions of legal note 1 above, heading 8609 is to be taken to apply, inter alia to--
   (a) Assembled track, turntables, platform buffers, loading gauges;
   (b) Semaphores, mechanical signal discs, level crossing control gear, signal and point controls, and other mechanical (including electro-mechanical) signalling, safety or traffic control equipment, whether or not they are fitted for electric lighting, for railways, tramways, roads, inland waterways, parking facilities, port installations or airfields.

CHAPTER 87

VEHICLES OTHER THAN RAILWAY OR TRAMWAY ROLLING-STOCK, AND PARTS AND ACCESSORIES THEREOF

Legal Notes

1. For the purposes of this chapter, tractors are deemed to be vehicles constructed essentially for hauling or pushing another vehicle, appliance or load, whether or not they contain subsidiary provision for the transport, in connection with the main use of the tractor, of tools, seeds, fertilizers or other articles.

2. Motor chassis fitted with cabs fall in headings 8702 to 8704 and not within heading 8706.

3. Heading 8712 does not cover children's cycles which are not fitted with ball bearings or children's cycles which, though fitted with ball bearings, are not constructed like normal cycles. Such children's cycles are to be treated as falling within heading 9501.

4. For the purpose of heading 8702, the expression "public-transport type passenger motor vehicles" means vehicles designed for the transport of ten persons or more (including the driver).

5. The headings of this chapter are to be taken not to apply to railway or tramway rolling-stock designed solely for running on rails.

Additional U.S. Legal Notes

1. For the purposes of this chapter the term "motor vehicles" includes amphibious motor vehicles.

2. Road tractors and semi-trailers remain separately classified in headings 8701 and 8716, respectively, even when imported together.

3. For the purposes of classifying bicycles under the provisions therefore in heading 8712, the diameter of each wheel is the diameter measured to the outer circumference of the tire which is mounted thereon or, if none is mounted thereon, of the usual tire for such wheel.

AIRCRAFT AND PARTS THEREOF

Additional Legal Notes:

1. This chapter does not cover--

   (a) guided weapons and missiles or similar weapons of war (heading 9307); or

   (b) toy balloons or toy kites (heading 9703).

2. For the purposes of this chapter--

   (a) The term "aircraft" embraces lighter-than-air aircraft (balloons and airships), heavier-than-air aircraft (airplanes, including machines also capable of use for ground or water transportation, gliders, and kites), all the foregoing however propelled, and whether designed for civilian or military use, but does not include spacecraft.

   (b) The term "spacecraft" embraces manned or unmanned craft, however propelled, designed for flight beyond the earth's atmosphere, whether designed for civilian or military use.

   (c) The term "unladen weight" shall mean the weight of the airplane's airframe, power-plant, trapped fuel and oil, coolant (if any), fluid in the hydraulic system, ballast normally carried, and fixed equipment and furnishings.

Statistical Note

1. The term "civil aircraft" means all aircraft other than aircraft purchased for use by the Department of Defense or the United States Coast Guard.

Legal Note

A hull, an unfinished or incomplete vessel, whether assembled, unassembled or disassembled, or a complete vessel unassembled or disassembled, is to be classified within heading 8906 if it does not have the essential character of a vessel of a particular kind.

Additional U.S. Legal Notes

1. This chapter does not cover separately imported parts (other than hulls) and accessories of vessels or floating structures, even if they are clearly identifiable as such. Such parts and accessories are classified under their appropriate headings elsewhere in the tariff schedule.

2. Vessels if in use in international trade or commerce or if brought into the customs territory of the United States by non-residents thereof for their own use in pleasure cruising shall be admitted without formal customs consumption entry or the payment of duty.

NOTICE OF HEARING ON AND RELEASE FOR PUBLIC COMMENT OF CHAPTERS OF THE TARIFF SCHEDULES OF THE UNITED STATES CONVERTED INTO THE NOMENCLATURE STRUCTURE OF THE HARMONIZED SYSTEM

AGENCY: United States International Trade Commission.

ACTION: Setting of public hearing and release for comment from interested parties, pursuant to Commission investigation No. 332-131, under the authority of section 332(g) of the Tariff Act of 1930, as amended, and initiated upon the request of the President of the United States, of the following chapters of the Tariff Schedules of the United States (TSUS) converted into the nomenclature structure of the Harmonized Commodity Description and Coding System (Harmonized System):

Volume 8	Chapter 1:	Live animals
	Chapter 2:	Meat and edible meat offal
	Chapter 3:	Fish and crustaceans, molluscs and other aquatic invertebrates
	Chapter 4:	Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included
	Chapter 5:	Products of animal origin, not elsewhere specified or included
	Chapter 6:	Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage
	Chapter 7:	Edible vegetables and certain roots and tubers
	Chapter 8:	Edible fruit and nuts; peel of melons or citrus fruits
Volume 9	Chapter 16:	Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates
Volume 10	Chapter 20:	Preparations of vegetables, fruit, nuts or other parts of plants
Volume 11	Chapter 22:	Beverages, spirits and vinegar
	Chapter 23:	Prepared animal feed; residues and waste from the food industries

	Chapter 24:	Tobacco and manufactured tobacco substitutes
Volume 12	Chapter 26:	Ores, slag and ash
Volume 13	Chapter 28:	Inorganic chemicals; organic or inorganic compounds of precious metals, of rare-earth metals, of radioactive elements, or of isotopes
	Chapter 29:	Organic chemicals
Volume 14	Chapter 36:	Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations
	Chapter 37:	Photographic films and materials
Volume 15	Chapter 61:	Articles of apparel and clothing accessories, knitted or crocheted
	Chapter 62:	Articles of apparel and clothing accessories, not knitted or crocheted
	Chapter 63:	Other made up textile articles; sets; worn clothing and worn textile articles; rags
Volume 16	Chapter 74:	Copper and articles thereof
	Chapter 75:	Nickel and articles thereof
	Chapter 76:	Aluminum and articles thereof
	Chapter 78:	Lead and articles thereof
	Chapter 79:	Zinc and articles thereof
	Chapter 80:	Tin and articles thereof
	Chapter 81:	Other base metals; cermets; articles thereof
Volume 17:	Chapter 90:	Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus; parts thereof
	Chapter 91:	Clocks and watches and parts thereof
	Chapter 92:	Musical instruments; parts and accessories of such articles
Volume 4-S	Chapter 52:	Cotton

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) November 26, 1982. The signed original and 19 copies of all written comments must be filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on November 1, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on October 25, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the office of the Secretary, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29 and 30, 1982. The final set of converted chapters will be published for hearing and public comment in January of 1983.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. On February 16, 1982 (47 F.R. 8108), April 14, 1982 (47 F.R. 17135) and June 30, 1982 (47 F.R. 29734) the Commission released draft explanatory notes for 64 of the chapters of the Harmonized System for public comment. As soon as more explanatory notes become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

Kenneth R. Mason
Secretary

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. Section I Live Animals; Animal Products

Chapter 1: Live animals

Chapter 2: Meat and edible meat offal

Chapter 3: Fish and crustaceans, molluscs and other aquatic invertebrates

Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included

Chapter 5: Products of animal origin, not elsewhere specified or included

II. Section II Vegetable Products

Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage

Chapter 7: Edible vegetables and certain roots and tubers

Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits

Chapter 9: Coffee, tea, mate and spices

Chapter 10: Cereals

Chapter 11: Products of the milling industry; malt and starches; gluten; inulin

Chapter 12: Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder

Chapter 13: Lacs; gums, resins and other vegetable saps and extracts

Chapter 14: Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. <u>Section III</u> Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. <u>Section IV</u> Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Prepared animal feed; residues and waste from the food industries

Chapter 24: Tobacco and manufactured tobacco substitutes

V. <u>SECTION V</u> Mineral Products

Chapter 25: Salt; sulfur; earths and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, of rare-earth metals, of radio-active elements, or of isotopes

Chapter 29: Organic chemicals

Chapter 30: Pharmaceutical products

Chapter 31: Fertilizers

Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other coloring matter; paints and varnishes; putty and other mastics; inks

Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations

Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"

Chapter 35: Albuminoidal substances; glues; enzymes

Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations

Chapter 37: Photographic films and materials

Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

Chapter 39: Plastics and articles thereof

Chapter 40: Rubber and articles thereof

VIII. Section VIII Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)

Chapter 41: Raw hides and skins (other than furskins) and leather

Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)

Chapter 43: Furskins and artificial fur; manufactures thereof

IX. Section IX Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork

Chapter 44: Wood and articles of wood; wood charcoal

Chapter 45: Cork and articles of cork

Chapter 46: Manufactures of straw, of esparto, or of other plaiting materials; basketware and wickerwork

X. Section X Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof

Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard

Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard

Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans

XI. Section XI Textiles and Textile Articles

Chapter 50: Silk

Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Chapter 52: Cotton

Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn

Chapter 54: Man-made filaments

Chapter 55: Man-made staple fibers

Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof

Chapter 57: Carpets and other textile floor coverings

Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery

Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use

Chapter 60: Knitted or crocheted fabrics

Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted

Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted

Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

XII. <u>Section XII</u> Footwear, Headgear, Umbrellas, Sunshades, Walking-Sticks, Seat-Sticks, Whips, Riding Crops, and Parts Thereof; Prepared Feathers and Articles Made Therewith; Artificial Flowers; Articles of Human Hair

Chapter 64: Footwear, gaiters and the like; parts of such articles

Chapter 65: Headgear and Parts thereof

Chapter 66: Umbrellas, sun umbrellas, walking-sticks, seat-sticks, whips, riding-crops and parts thereof

Chapter 67: Prepared feathers and down and articles made of feathers or of down; artificial flowers; articles of human hair

XIII. <u>Section XIII</u> Articles of Stone, of Plaster, of Cement, of Asbestos, of Mica or of Similar Materials; Ceramic Products; Glass and Glassware

Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials

Chapter 69: Ceramic products

Chapter 70: Glass and glassware

XIV. <u>Section XIV</u> Natural or Cultured Pearls, Precious or Semi-Precious Stones, Precious Metals, Metals Clad With Precious Metals and Articles Thereof; Imitation Jewelery; Coin

Chapter 71: Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metals, and articles thereof; imitation jewelry; coin

XV. <u>Section XV</u> Base Metals and Articles of Base Metal

Chapter 72: Iron and steel

Chapter 73: Articles of iron or steel

Chapter 74: Copper and articles thereof

Chapter 75: Nickel and articles thereof

Chapter 76: Aluminum and articles thereof

Chapter 78: Lead and articles thereof

Chapter 79: Zinc and articles thereof

Chapter 80: Tin and articles thereof

Chapter 81: Other base metals; cermets; articles thereof

Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal; parts thereof

Chapter 83: Miscellaneous articles of base metal

XVI. Section XVI Machinery and Mechanical Appliances; Electrical and Electronic Equipment; Parts Thereof; Sound Recorders and Reproducers, Television Image and Sound Recorders and Reproducers, and Parts and Accessories of such Articles

Chapter 84: Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof

Chapter 85: Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles

XVII. Section XVII Vehicles, Aircraft, Vessels and Associated Transport Equipment

Chapter 86: Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds

Chapter 87: Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof

Chapter 88: Aircraft and parts thereof

Chapter 89: Ships, boats, and floating structures

XVIII. Section XVIII Optical, Photographic, Cinematographic, Measuring, Checking, Precision, Medical and Surgical Instruments and Apparatus; Clocks and Watches; Musical Instruments; Parts Thereof

Chapter 90: Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus; parts thereof

Chapter 91: Clocks and watches and parts thereof

Chapter 92: Musical instruments; parts and accessories of such articles

XIX. Section XIX Arms and Ammunition; Parts Thereof

Chapter 93: Arms and ammunition; parts thereof

XX.. Section XX Miscellaneous Manufactured Articles

Chapter 94: Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings

Chapter 95: Toys, games and sports requisites; parts thereof

Chapter 96: Miscellaneous manufactured articles

Chapter 97: Works of art, collectors' pieces, and antiques

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 6, 9 and 10 (currently 7, 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended by deleting electricity and vessels from the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Telecommunications transmissions have been added to rule 5 to explicitly exclude them from entry requirements. The abbreviations enumerated in rule 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the

draft chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Harmonized System", with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 7, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed

new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

If there are any questions regarding these conversions the following people should be contacted:

General Legal Notes and General Rules of Interpretation		George Weise (202) 523-0363

1. Tariff Treatment of Imported Articles. All articles (including vessels and electricity) imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal notes 3 and 5.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note 6 of chapter 91 and except as provided in legal note , articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania
Bulgaria
Cuba 2/
Czechoslovakia
Estonia
German Democratic Republic
Kampuchea
Laos
Latvia
Lithuania
Mongolia
North Korea
Union of Soviet Socialist Republic
Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --
(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;
(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);
(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and
(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1 --
(a) corpses, together with their coffins and accompanying flowers,
(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,
(c) executed securities and similar executed evidences of value, and
(d) telecommunications transmissions,
are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:
(i) sampling,
(ii) verification of packing lists or other documents filed at the time of entry, or
(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,
the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.
(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.
(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --
(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and
(ii) that the commingling was not intended to avoid the payment of lawful duties.
Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.
(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --
(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;
(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and
(iii) that the commingling was not intended to avoid the payment of lawful duties.
Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.
(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

7. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kW	-	kilowatts
¢	-	cents	kWh	-	kilowatt-hours
%	-	percent ad valorem	l	-	liters

8. For the purposes of the tariff schedule, unless the context otherwise requires--

(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,

(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article includes a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance includes a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance includes a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory.

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable. Accessories imported with the principal article with which they normally belong shall be classified with that article.

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. Cases, boxes and similar containers imported with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets. Cases, boxes and similar containers which are not of a kind normally sold therewith as described above, or which are imported separately shall be classified under their appropriate headings.

6. Subject to rule 5, packings of articles shall be classified with the articles if they are of a kind normally used for packing such articles. Packings of articles which are not of a kind normally used for packing such articles shall be classified under their appropriate headings.

7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under heading 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

SECTION I

LIVE ANIMALS; ANIMAL PRODUCTS

Legal Note

1. Any reference in this section to a particular genus or species of an animal, except where the context otherwise requires, includes a reference to the young of that genus or species.

2. Except where the context otherwise requires, throughout the tariff schedule any reference to "dried" products also covers products which have been dehydrated, evaporated, or freeze-dried.

CHAPTER 1

LIVE ANIMALS

Legal Note

1. This chapter covers all live animals except--

   (a) Fish and crustaceans, molluscs and other aquatic invertebrates, of headings 0301, 0306 and 0307;

   (b) Microbial cultures and other products of heading 3002; and

   (c) Animals of heading 9508.

Additional U.S. Legal Notes

1. The expression "pure-bred breeding animals" covers only animals certified to the U.S. Customs Service by the Department of Agriculture as being pure bred of a recognized breed and duly registered in a book of record recognized by the Secretary of Agriculture for that breed, imported specially for breeding purposes, whether intended to be used by the importer himself or for sale for such purposes.

2. Certain special provisions applying to live animals are in chapter 98.

Note: This draft conversion is based on the 5-digit and 7-digit provisions in effect in the TSUSA on or before 7/1/81. The report to the President will updated to reflect those changes in the TSUSA that have become effective since then or will become effective on or before 1/1/83.

CHAPTER 2

MEAT AND EDIBLE MEAT OFFAL

Legal Note

1. This chapter does not cover--

   (a) Products of the kinds described in headings 0201 to 0208 and 0210, unfit or unsuitable for human consumption;

   (b) Guts, bladders, or stomachs of animals (heading 0504) or animal blood (heading 0511 or 3002); or

   (c) Animal fat, other than articles of heading 0209 (chapter 15).

Additional U. S. Legal Notes

1. For the purposes of this chapter--

   (a) The terms "fresh," "chilled," and "frozen" include meat which has been processed as defined below; and

   (b) The term "processed" covers meats which have been ground or comminuted, diced, or cut into sizes for stew meat or similar uses, rolled and skewered, or specially processed into fancy cuts, special shapes, or otherwise made ready for particular uses by the retail consumer.

   (c) The term "high-quality beef cuts" means beef specially processed into fancy cuts, special shapes, or otherwise made ready for particular uses by the retail consumer (but not ground or comminuted, diced or cut into sizes for stew meat or similar uses, or rolled or skewered), which meets the specifications in regulations issued by the U.S. Department of Agriculture for Prime or Choice beef, and which has been so certified prior to exportation by an official of the government of the exporting country, in accordance with regulations issued by the Secretary of the Treasury after consultation with the Secretary of Agriculture.

2. In assessing the duty on meats, no allowance shall be made for normal components thereof such as bones, fat, and hide or skin. The dutiable weight of meats in airtight containers subject to specific rates includes the entire contents of the containers.
