PRODUCTS OF ANIMAL ORIGIN, NOT ELSEWHERE SPECIFIED OR INCLUDED

Legal Notes

1. This chapter does not cover:

   (a) Edible products (other than guts, bladders, and stomachs of animals, whole and pieces thereof, and animal blood, liquid or dried);

   (b) Hides or skins (including furskins) other than goods of heading 0505 and parings and similar waste of raw hides or skins of heading 0511 (chapter 41 or 43);

   (c) Animal textile materials, other than horsehair and horsehair waste (section XI); or

   (d) Prepared knots or tufts for broom or brush making (heading 9603)

2. For the purposes of heading 0501, the sorting of hair by length (provided the root ends and tip ends respectively are not arranged together) shall be deemed not to constitute working.

3. Throughout the tariff schedule, elephant, walrus, narwhal and wild boar tusks, rhinoceros horns, and the teeth of all animals are regarded as ivory.

4. Throughout the tariff schedule, the expression "horsehair" means hair of the manes or tails of equine or bovine animals.

Additional U.S. Legal Note

1. (a) Except as provided in paragraphs (b) and (c) of this legal note, the importation of the feathers or skin or any bird is hereby prohibited. Such prohibition shall apply to the feathers or skin of any bird--

   (i) whether raw or processed;

   (ii) whether the whole plumage or skin or any part of either;

   (iii) whether or not attached to a whole bird or any part thereof; and

   (iv) whether or not forming part of another article.

   (b) Legal note 1(a) shall not apply--

   (i) in respect of any of the following birds (other than any such bird which, whether or not raised in captivity, is a wild bird): chickens (including hens and roosters); turkeys, guinea fowl, geese, ducks, pigeons, ostriches, rheas, English ring-necked pheasants, and pea fowl;

   (ii) to any importation for scientific or educational purposes;

   (iii) to the importation of fully-manufactured artificial flies used for fishing;

   (iv) to the importation of birds which are classifiable under subheading 98XX.XX.XXXX; and

   (v) to the importation of live birds.

   (c) Notwithstanding legal note 1(a), there may be entered in each calendar year the following quotas of skins bearing feathers:

   (i) for use in the manufacture of artifical flies used for fishing; (A) not more than 5,000 skins of grey jungle fowl (Gallus sonneratti), and (B) not more than 1,000 skins of mandarin duck (Dendronessa galericulata); and

   (ii) for use in the manufacture of artificial flies used for fishing, or for millinery purposes, not more than 45,000 skins, in the aggregate, of the following species of pheasant: Lady Amherst pheasant (Chrysolophus amerstiae), golden pheasant (Chrysolophus pictus), silver pheasant (Lophura nycthemera), Reeves pheasant (Syrmaticus reevesii), blue-eared pheasant (Crossoptilon auritum), and brown-eared pheasant (Crossoptilon mantchuricum).1/

   For the purposes of these quotas, any part of a skin which has been severed shall be considered to be a whole skin.

   (d) No article specified in legal note 1(c) shall be entered except under a permit issued by the Secretary of the Interior. The Secretary of the Interior shall prescribe such regulations as may be necessary to carry out the purposes and provisions of legal note 1(c) (including regulations providing for equitable allocation among qualified applicants of the import quotas established by such provisions). Whenever the Secretary of the Interior finds that the wild supply of any species mentioned in legal note 1(c) is threatened with serious reduction or with extinction, he shall prescribe regulations which provide (to such extent and for such period as he deems necesary to meet such threat)--

   (i) in the case of grey jungle fowl or mandarin duck, for the reduction of the applicable import quota; or

---

1/ Brown-eared pheasant added to the List of Endangered Foreign Fish and Wildlife, Appendix A of 50 C.F.R. 17, Nov. 24, 1970, effective date Dec. 2, 1970 (35 F.R. 18319, 18321).

(ii) in the case of any species of pheasant, for the reduction of the import quota established for pheasants, for the establishment of a subquota for such species of pheasant, or for the eliminaton of such species from the import quota for pheasant, or any combination thereof.

The authority granted to the Secretary of the Interior by the preceding sentence to reduce any import quota shall include authority to eliminate such quota.

(e) Any article of a kind the importation of which is prohibited or subjected to a quota by legal notes 1(a) (b), and (c) and which is in the United States shall be presumed for the purposes of seizure and forfeiture to have been imported in violation of law and shall be seized and forfeited under the customs laws unless such presumption is satisfactorily rebutted; except that such presumption shall not apply to articles in actual use for personal adornment or for scientific or educational purposes. Any article so forfeited may (in the discretion of the Secretary of the Treasury and under such regulations as he may prescribe) (1) be placed with any agency of the Federal Government or of any State govenment, or any society or museum for exhibition or scientific or educational purposes, or (2) be destroyed.

(f) Nothing in these legal notes shall be construed to repeal the provision of the Act of March 4, 1913, chapter 145 (Thirty-seventh Statutes at Large, page 847), or the Act of July 3, 1918 (Fortieth Statues at Large, page 755) or any other law of the United States, now of force, intended for the protection or perservation of birds within the United States. If on investigation by the district director of Customs before seizure, or before trial for for-feiture, or if at such trial if such seizure has been made, it shall be made to appear to the district director of Customs, or the prosecuting officer of the Government, as the case may be, that no illegal importation of such feathers has been made, but that the possession, acquistion or purchase of such feathers is or has been made in violation of the provisions of the Act of March 4, 1913, chapter 145 (Thirty-seventh Statues at Large, page 847), or the Act of July 3, 1918 (Fortieth Statues at Large, page 755), or any other law of the United States, now of force, intended for the protection or preservation of birds within the United States, it shall be the duty of the district director of Customs, or such prosecuting officer, as the case may be, to report the facts to the proper officials of the United States, or State or Territory charged with the duty of enforcing such laws.

SECTION II

VEGETABLE PRODUCTS

Legal Note

1. In this section the term "pellets" means products which have been agglomerated either directly by compression or by the addition of a binder in a proportion not exceeding 3 percent by weight.

CHAPTER 6

LIVE TREES AND OTHER PLANTS; BULBS, ROOTS AND THE LIKE; CUT FLOWERS AND ORNAMENTAL FOLIAGE

Legal Notes

1. Except for chicory plants and roots of heading 0601, this chapter covers only live trees and products (including seedling vegetables) of a kind commonly supplied by nursery gardeners or florists for planting or for ornamental use; nevertheless it does not include potatoes, onions, shallots, garlic, and other products of chapter 7.

2. Any reference in heading 0603 or 0604 to products of any kind shall be construed as including a reference to bouquets, floral baskets, wreaths, and similar articles made wholly or partly of products of that kind, account not being taken of accessories of other materials. However, these headings do not apply to collages or similar decorative plaques of heading 9701.

Note: This draft conversion is based on the 5-digit and 7-digit provisions in effect in the TSUSA on or before 7/1/81. The report to the President will be updated to reflect those changes in the TSUSA that have become effective since then or will become effective on or before 1/1/83.

EDIBLE VEGETABLES AND CERTAIN ROOTS AND TUBERS

Legal Notes

1. In headings 0709, 0710, 0711 and 0712 the word "vegetables" includes edible mushrooms, truffles, olives, capers, marrows, pumpkins, eggplants (aubergines), sweet corn (Zea mays var. saccharata), peppers of the genus Capsicum or of the genus Pimenta, fennel, parsley, chervil, tarragon, cress and sweet marjoram (Marjorana hortensis or Origanum majorana).

2. Heading 0712 covers all dried vegetables of the kinds falling within headings 0701 to 0711, other than:

   (a) dried leguminous vegetables, shelled (heading 0713);

   (b) sweet corn in the forms specified in headings 1102 to 1104;

   (c) flour, meal and flakes of potatoes (heading 1105);

   (d) flour and meal of dried leguminous vegetables of heading 0713 (heading 1106).

3. However, excluded from this chapter are dried or crushed or ground peppers of the genus Capsicum or of the genus Pimenta (heading 0904).

Additional U.S. Legal Notes

1. In the assessment of duty on any kind of vegetables, any foreign matter or impurities mixed therewith shall not be segregated nor shall any allowance therefor be made.

2. Unless the context requires otherwise, the provisions of this chapter cover the named products whether or not reduced in size.

3. In this chapter, the term "reduced in size" means cut, sliced, or otherwise reduced in size.

4. Articles of a kind covered by this chapter that can be used either for food or for sowing or planting (e.g, onions, onion sets, shallots, garlic, potatoes, and potato eyes) remain classified in this chapter even if rendered inedible as the result of treatment with insecticides, fungicides, or similar chemicals.

5. In subheading 0701.10, the expression "seed" covers only seed potatoes which are certified by a responsible officer or agency of a foreign government in accordance with official rules and regulations to have been grown and approved especially for use as seed, in containers marked with the foreign government's official seed potato tags.

NOTICE OF HEARING ON AND RELEASE FOR PUBLIC COMMENT OF CHAPTERS OF THE TARIFF SCHEDULES OF THE UNITED STATES CONVERTED INTO THE NOMENCLATURE STRUCTURE OF THE HARMONIZED SYSTEM

AGENCY: United States International Trade Commission.

ACTION: Setting of public hearing and release for comment from interested parties, pursuant to Commission investigation No. 332-131, under the authority of section 332(g) of the Tariff Act of 1930, as amended, and initiated upon the request of the President of the United States, of the following chapters of the Tariff Schedules of the United States (TSUS) converted into the nomenclature structure of the Harmonized Commodity Description and Coding System (Harmonized System):

Volume 8	Chapter 1:	Live animals
	Chapter 2:	Meat and edible meat offal
	Chapter 3:	Fish and crustaceans, molluscs and other aquatic invertebrates
	Chapter 4:	Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included
	Chapter 5:	Products of animal origin, not elsewhere specified or included
	Chapter 6:	Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage
	Chapter 7:	Edible vegetables and certain roots and tubers
	Chapter 8:	Edible fruit and nuts; peel of melons or citrus fruits
Volume 9	Chapter 16:	Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates
Volume 10	Chapter 20:	Preparations of vegetables, fruit, nuts or other parts of plants
Volume 11	Chapter 22:	Beverages, spirits and vinegar
	Chapter 23:	Prepared animal feed; residues and waste from the food industries

	Chapter 24:	Tobacco and manufactured tobacco substitutes
Volume 12	Chapter 26:	Ores, slag and ash
Volume 13	Chapter 28:	Inorganic chemicals; organic or inorganic compounds of precious metals, of rare-earth metals, of radioactive elements, or of isotopes
	Chapter 29:	Organic chemicals
Volume 14	Chapter 36:	Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations
	Chapter 37:	Photographic films and materials
Volume 15	Chapter 61:	Articles of apparel and clothing accessories, knitted or crocheted
	Chapter 62:	Articles of apparel and clothing accessories, not knitted or crocheted
	Chapter 63:	Other made up textile articles; sets; worn clothing and worn textile articles; rags
Volume 16	Chapter 74:	Copper and articles thereof
	Chapter 75:	Nickel and articles thereof

	Chapter 92:	Musical instruments; parts and accessories of such articles
Volume 4-S	Chapter 52:	Cotton

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) November 26, 1982. The signed original and 19 copies of all written comments must be filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on November 1, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on October 25, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the office of the Secretary, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29 and 30, 1982. The final set of converted chapters will be published for hearing and public comment in January of 1983.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. On February 16, 1982 (47 F.R. 8108), April 14, 1982 (47 F.R. 17135) and June 30, 1982 (47 F.R. 29734) the Commission released draft explanatory notes for 64 of the chapters of the Harmonized System for public comment. As soon as more explanatory notes become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

Secretary

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. Section I Live Animals; Animal Products

Chapter 1: Live animals

Chapter 2: Meat and edible meat offal

Chapter 3: Fish and crustaceans, molluscs and other aquatic invertebrates

Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included

Chapter 5: Products of animal origin, not elsewhere specified or included

II. Section II Vegetable Products

Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage

Chapter 7: Edible vegetables and certain roots and tubers

Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits

Chapter 9: Coffee, tea, mate and spices

Chapter 10: Cereals

Chapter 11: Products of the milling industry; malt and starches; gluten; inulin

Chapter 12: Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder

Chapter 13: Lacs; gums, resins and other vegetable saps and extracts

Chapter 14: Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. Section III Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. Section IV Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Prepared animal feed; residues and waste from the food industries

Chapter 24: Tobacco and manufactured tobacco substitutes

V. SECTION V Mineral Products

Chapter 25: Salt; sulfur; earths and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, of rare-earth metals, of radio-active elements, or of isotopes

Chapter 29: Organic chemicals

Chapter 30: Pharmaceutical products

Chapter 31: Fertilizers

Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other coloring matter; paints and varnishes; putty and other mastics; inks

Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations

Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"

Chapter 35: Albuminoidal substances; glues; enzymes

Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations

Chapter 37: Photographic films and materials

Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

Chapter 39: Plastics and articles thereof

Chapter 40: Rubber and articles thereof

VIII. Section VIII Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)

Chapter 41: Raw hides and skins (other than furskins) and leather

Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)

Chapter 43: Furskins and artificial fur; manufactures thereof

IX. Section IX Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork

Chapter 44: Wood and articles of wood; wood charcoal

Chapter 45: Cork and articles of cork

Chapter 46: Manufactures of straw, of esparto, or of other plaiting materials; basketware and wickerwork

X. Section X Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof

Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard

Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard

Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans

XI. Section XI Textiles and Textile Articles

Chapter 50: Silk

Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Chapter 52: Cotton

Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn

Chapter 54: Man-made filaments

Chapter 55: Man-made staple fibers

Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof

Chapter 57: Carpets and other textile floor coverings

Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery

Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use

Chapter 60: Knitted or crocheted fabrics

Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted

Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted

Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

XII. <u>Section XII</u> Footwear, Headgear, Umbrellas, Sunshades, Walking-Sticks, Seat-Sticks, Whips, Riding Crops, and Parts Thereof; Prepared Feathers and Articles Made Therewith; Artificial Flowers; Articles of Human Hair

Chapter 64: Footwear, gaiters and the like; parts of such articles

Chapter 65: Headgear and Parts thereof

Chapter 66: Umbrellas, sun umbrellas, walking-sticks, seat-sticks, whips, riding-crops and parts thereof

Chapter 67: Prepared feathers and down and articles made of feathers or of down; artificial flowers; articles of human hair

XIII. Section XIII Articles of Stone, of Plaster, of Cement, of Asbestos, of Mica or of Similar Materials; Ceramic Products; Glass and Glassware

Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials

Chapter 69: Ceramic products

Chapter 70: Glass and glassware

XIV. Section XIV Natural or Cultured Pearls, Precious or Semi-Precious Stones, Precious Metals, Metals Clad With Precious Metals and Articles Thereof; Imitation Jewelery; Coin

Chapter 71: Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metals, and articles thereof; imitation jewelry; coin

XV. Section XV Base Metals and Articles of Base Metal

Chapter 72: Iron and steel

Chapter 73: Articles of iron or steel

Chapter 74: Copper and articles thereof

Chapter 75: Nickel and articles thereof

Chapter 76: Aluminum and articles thereof

Chapter 78: Lead and articles thereof

Chapter 79: Zinc and articles thereof

Chapter 80: Tin and articles thereof

Chapter 81: Other base metals; cermets; articles thereof

Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal; parts thereof

Chapter 83: Miscellaneous articles of base metal

XVI. Section XVI Machinery and Mechanical Appliances; Electrical and Electronic Equipment; Parts Thereof; Sound Recorders and Reproducers, Television Image and Sound Recorders and Reproducers, and Parts and Accessories of such Articles

Chapter 84: Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof

Chapter 85: Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles

XVII. Section XVII Vehicles, Aircraft, Vessels and Associated Transport Equipment

Chapter 86: Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds

Chapter 87: Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof

Chapter 88: Aircraft and parts thereof

Chapter 89: Ships, boats, and floating structures

XVIII. Section XVIII Optical, Photographic, Cinematographic, Measuring, Checking, Precision, Medical and Surgical Instruments and Apparatus; Clocks and Watches; Musical Instruments; Parts Thereof

Chapter 90: Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus; parts thereof

Chapter 91: Clocks and watches and parts thereof

Chapter 92: Musical instruments; parts and accessories of such articles

XIX. Section XIX Arms and Ammunition; Parts Thereof

Chapter 93: Arms and ammunition; parts thereof

XX.. Section XX Miscellaneous Manufactured Articles

Chapter 94: Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings

Chapter 95: Toys, games and sports requisites; parts thereof

Chapter 96: Miscellaneous manufactured articles

Chapter 97: Works of art, collectors' pieces, and antiques

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 6, 9 and 10 (currently 7, 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended by deleting electricity and vessels from the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Telecommunications transmissions have been added to rule 5 to explicitly exclude them from entry requirements. The abbreviations enumerated in rule 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the

draft chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Harmonized System", with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 7, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed

new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

1. Tariff Treatment of Imported Articles. All articles (including vessels and electricity) imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal notes 3 and 5.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note 6 of chapter 91 and except as provided in legal note , articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania	Laos
Bulgaria	Latvia
Cuba 2/	Lithuania
Czechoslovakia	Mongolia
Estonia	North Korea
German Democratic Republic	Union of Soviet Socialist Republic
Kampuchea	Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --
(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;
(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);
(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and
(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1 --
(a) corpses, together with their coffins and accompanying flowers,
(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,
(c) executed securities and similar executed evidences of value, and
(d) telecommunications transmissions,
are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:
(i) sampling,
(ii) verification of packing lists or other documents filed at the time of entry, or
(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,
the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.
(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.
(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --
(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and
(ii) that the commingling was not intended to avoid the payment of lawful duties.
Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.
(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --
(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;
(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and
(iii) that the commingling was not intended to avoid the payment of lawful duties.
Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.
(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

7. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kW	-	kilowatts
¢	-	cents	kWh	-	kilowatt-hours

8. For the purposes of the tariff schedule, unless the context otherwise requires--

(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,

(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article includes a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance includes a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance includes a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory.

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable. Accessories imported with the principal article with which they normally belong shall be classified with that article.

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. Cases, boxes and similar containers imported with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets. Cases, boxes and similar containers which are not of a kind normally sold therewith as described above, or which are imported separately shall be classified under their appropriate headings.

6. Subject to rule 5, packings of articles shall be classified with the articles if they are of a kind normally used for packing such articles. Packings of articles which are not of a kind normally used for packing such articles shall be classified under their appropriate headings.

7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under heading 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

SECTION IV
PREPARED FOODSTUFFS; BEVERAGES, SPIRITS, AND VINEGAR; TOBACCO AND MANUFACTURED TOBACCO SUBSTITUTES

Legal Note

1. In this section the term "pellets" means products which have been agglomerated either directly by compression or by the addition of a binder in a proportion not exceeding three percent by weight.

CHAPTER 16
PREPARATIONS OF MEAT, OF FISH, OR OF CRUSTACEANS, MOLLUSCS, OR OTHER AQUATIC INVERTEBRATES

Legal Notes

1. This chapter does not cover meat, meat offal, fish, crustaceans, molluscs, and other aquatic invertebrates, prepared or preserved by the processes specified in chapter 2 or 3.

2. Food preparations fall within this chapter provided that they contain more than 20 percent by weight of sausage, meat, meat offal, blood, fish, or crustaceans, molluscs, or other aquatic invertebrates, or any combination thereof. In cases where the preparation contains two or more of the products mentioned above, it is classified in the heading of chapter 16 corresponding to the component or components which predominate by weight. The provisions do not apply to the stuffed products of heading 1902 or to the preparations of headings 2103 or 2104.

3. For the purposes of subheading 1602.10, the expression "homogenized preparations" means preparations of a kind used as infant food or for dietetic purposes, consisting of finely homogenized meat, meat offal, or blood. For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation, or other purposes. These preparations may contain a small quantity of visible pieces of meat or meat offal. This subheading takes precedence over all other subheadings of heading 1602.

4. The fish and crustaceans specified in the subheadings of headings 1604 or 1605 under their common names only, are of the same species as those mentioned in chapter 3 under the same name.

Additional U.S. Legal Note

1. For the purposes of this chapter, the term "in oil" means packed in added oil or fat, or in added oil or fat and other substances, whether such oil or fat was introduced at the time of packing or prior thereto.

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) November 26, 1982. The signed original and 19 copies of all written comments must be filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on November 1, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on October 25, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the office of the Secretary, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29 and 30, 1982. The final set of converted chapters will be published for hearing and public comment in January of 1983.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. On February 16, 1982 (47 F.R. 8108), April 14, 1982 (47 F.R. 17135) and June 30, 1982 (47 F.R. 29734) the Commission released draft explanatory notes for 64 of the chapters of the Harmonized System for public comment. As soon as more explanatory notes become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

Secretary

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. Section I Live Animals; Animal Products

Chapter 1: Live animals

Chapter 2: Meat and edible meat offal

Chapter 3: Fish and crustaceans, molluscs and other aquatic invertebrates

Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included

Chapter 5: Products of animal origin, not elsewhere specified or included

II. Section II Vegetable Products

Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage

Chapter 7: Edible vegetables and certain roots and tubers

Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits

Chapter 9: Coffee, tea, mate and spices

Chapter 10: Cereals

Chapter 11: Products of the milling industry; malt and starches; gluten; inulin

Chapter 12: Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder

Chapter 13: Lacs; gums, resins and other vegetable saps and extracts

Chapter 14: Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. <u>Section III</u> Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. <u>Section IV</u> Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Prepared animal feed; residues and waste from the food industries

Chapter 24: Tobacco and manufactured tobacco substitutes

V. <u>SECTION V</u> Mineral Products

Chapter 25: Salt; sulfur; earths and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, of rare-earth metals, of radio-active elements, or of isotopes

Chapter 29: Organic chemicals

Chapter 30: Pharmaceutical products

Chapter 31: Fertilizers

Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other coloring matter; paints and varnishes; putty and other mastics; inks

Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations

Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"

Chapter 35: Albuminoidal substances; glues; enzymes

Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations

Chapter 37: Photographic films and materials

Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

Chapter 39: Plastics and articles thereof

Chapter 40: Rubber and articles thereof

VIII. <u>Section VIII</u> Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)

Chapter 41: Raw hides and skins (other than furskins) and leather

Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)

Chapter 43: Furskins and artificial fur; manufactures thereof

IX. <u>Section IX</u> Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork

Chapter 44: Wood and articles of wood; wood charcoal

Chapter 45: Cork and articles of cork

Chapter 46: Manufactures of straw, of esparto, or of other plaiting materials; basketware and wickerwork

X. <u>Section X</u> Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof

Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard

Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard

Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans

XI. <u>Section XI</u> Textiles and Textile Articles

Chapter 50: Silk

Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Chapter 52: Cotton

Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn

Chapter 54: Man-made filaments

Chapter 55: Man-made staple fibers

Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof

Chapter 57: Carpets and other textile floor coverings

Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery

Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use

Chapter 60: Knitted or crocheted fabrics

Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted

Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted

Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

XII. Section XII Footwear, Headgear, Umbrellas, Sunshades, Walking-Sticks, Seat-Sticks, Whips, Riding Crops, and Parts Thereof; Prepared Feathers and Articles Made Therewith; Artificial Flowers; Articles of Human Hair

Chapter 64: Footwear, gaiters and the like; parts of such articles

Chapter 65: Headgear and Parts thereof

Chapter 66: Umbrellas, sun umbrellas, walking-sticks, seat-sticks, whips, riding-crops and parts thereof

Chapter 67: Prepared feathers and down and articles made of feathers or of down; artificial flowers; articles of human hair

XIII. Section XIII Articles of Stone, of Plaster, of Cement, of Asbestos, of Mica or of Similar Materials; Ceramic Products; Glass and Glassware

Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials

Chapter 69: Ceramic products

Chapter 70: Glass and glassware

XIV. Section XIV Natural or Cultured Pearls, Precious or Semi-Precious Stones, Precious Metals, Metals Clad With Precious Metals and Articles Thereof; Imitation Jewelery; Coin

Chapter 71: Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metals, and articles thereof; imitation jewelry; coin

XV. Section XV Base Metals and Articles of Base Metal

Chapter 72: Iron and steel

Chapter 73: Articles of iron or steel

Chapter 74: Copper and articles thereof

Chapter 75: Nickel and articles thereof

Chapter 76: Aluminum and articles thereof

Chapter 78: Lead and articles thereof

Chapter 79: Zinc and articles thereof

Chapter 80: Tin and articles thereof

Chapter 81: Other base metals; cermets; articles thereof

Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal; parts thereof

Chapter 83: Miscellaneous articles of base metal

XVI. <u>Section XVI</u> Machinery and Mechanical Appliances; Electrical and Electronic Equipment; Parts Thereof; Sound Recorders and Reproducers, Television Image and Sound Recorders and Reproducers, and Parts and Accessories of such Articles

Chapter 84: Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof

Chapter 85: Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles

XVII. <u>Section XVII</u> Vehicles, Aircraft, Vessels and Associated Transport Equipment

Chapter 86: Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds

Chapter 87: Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof

Chapter 88: Aircraft and parts thereof

Chapter 89: Ships, boats, and floating structures

XVIII. <u>Section XVIII</u> Optical, Photographic, Cinematographic, Measuring, Checking, Precision, Medical and Surgical Instruments and Apparatus; Clocks and Watches; Musical Instruments; Parts Thereof

Chapter 90: Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus; parts thereof

Chapter 91: Clocks and watches and parts thereof

Chapter 92: Musical instruments; parts and accessories of such articles

XIX. <u>Section XIX</u> Arms and Ammunition; Parts Thereof

Chapter 93: Arms and ammunition; parts thereof

XX.. Section XX Miscellaneous Manufactured Articles

Chapter 94: Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings

Chapter 95: Toys, games and sports requisites; parts thereof

Chapter 96: Miscellaneous manufactured articles

Chapter 97: Works of art, collectors' pieces, and antiques

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 6, 9 and 10 (currently 7, 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended by deleting electricity and vessels from the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Telecommunications transmissions have been added to rule 5 to explicitly exclude them from entry requirements. The abbreviations enumerated in rule 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the

draft chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Harmonized System", with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 7, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed

new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

1. Tariff Treatment of Imported Articles. All articles (including vessels and electricity) imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal notes 3 and 5.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note 6 of chapter 91 and except as provided in legal note , articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania	Laos
Bulgaria	Latvia
Cuba 2/	Lithuania
Czechoslovakia	Mongolia
Estonia	North Korea
German Democratic Republic	Union of Soviet Socialist Republic
Kampuchea	Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) executed securities and similar executed evidences of value, and

(d) telecommunications transmissions,

are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

7. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kW	-	kilowatts

8. For the purposes of the tariff schedule, unless the context otherwise requires--

(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,

(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article includes a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance includes a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance includes a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory.

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable. Accessories imported with the principal article with which they normally belong shall be classified with that article.

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. Cases, boxes and similar containers imported with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets. Cases, boxes and similar containers which are not of a kind normally sold therewith as described above, or which are imported separately shall be classified under their appropriate headings.

6. Subject to rule 5, packings of articles shall be classified with the articles if they are of a kind normally used for packing such articles. Packings of articles which are not of a kind normally used for packing such articles shall be classified under their appropriate headings.

7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under heading 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

CHAPTER 20

PREPARATIONS OF VEGETABLES, FRUIT, NUTS,
OR OTHER PARTS OF PLANTS

Legal Notes

1. This chapter does not cover--

   (a) Vegetables, fruit, or nuts, prepared or preserved by the processes specified in chapter 7 or 8; or

   (b) Food preparations containing more than 20 percent by weight of sausage, meat, meat offal, blood, fish or crustaceans, molluscs, or other aquatic invertebrates, or any combination thereof (chapter 16).

2. Headings 2007 and 2008 do not apply to fruit jellies, fruit pastes, sugar-coated almonds, or the like, in the form of sugar confectionery (heading 1704) or chocolate confectionery (heading 1806).

3. The vegetables of headings 2001 to 2005 are those which fall in headings 0701 to 0713 when entered in the states provided for in those headings.

4. Tomato juice the dry weight content of which is 7 percent or more is to be classified in heading 2002.

5. For the purposes of heading 2007, the expression "homogenized fruit" means preparations of a kind used as infant food or for dietetic purposes, consisting of finely homogenized fruit. For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation, or other purposes. These preparations may contain a small quantity of visible pieces of fruit.

6. For the purposes of heading 2009 the expression "juices, unfermented and not containing added spirit" means juices of an alcoholic strength by volume not exceeding 0.5 percent.

7. For the purposes of subheading 2005.10, the expression "homogenized vegetables" means preparations of a kind used as infant food or for dietetic purposes, consisting of finely homogenized vegetables. For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation, or other purposes. These preparations may contain a small quantity of visible pieces of vegetables. This subheading takes precedence over all other subheadings of heading 2005.

Additional U.S. Legal Notes

1. Any product in this chapter containing 0.5 percent or more ethyl alcohol by volume is subject to an additional duty of 66¢ per proof liter on such alcohol content. For the purposes of this legal note, dutiable quantities of alcohol shall be calculated in accordance with Additional U.S. Legal Notes 3 and 4 in chapter 22.

2. For the purposes of heading 2009:

   (a) the symbol "l" in the "Rates of Duty" column of the provisions applicable to fruit juices means liter of natural unconcentrated fruit juice or liter of reconstituted fruit juice;

   (b) the term "reconstituted fruit juice" means the product which can be obtained by mixing the imported concentrate with water in such proportion that the product will have a Brix value equal to that found by the Secretary of the Treasury from time to time to be the average Brix value of like natural unconcentrated juice in the trade and commerce of the United States; and

   (c) the term "Brix value" means the refractometric sucrose value of the juice, adjusted to compensate for the effect of any added sweetening materials, and thereafter corrected for acid.

3. In determining the number of liters of reconstituted fruit juice which can be obtained from a concentrate, the degree of concentration shall be calculated on a volume basis to the nearest 0.5 degree, as determined by the ratio of the Brix value of the imported concentrated juice to that of the reconstituted juice, corrected for differences of specific gravity of the juices. Any juice having a degree of concentation of less than 1.5 (as determined before correction to the nearest 0.5 degree) shall be regarded as a natural unconcentrated juice.

4. In determining the degree of concentration of mixed fruit juices, the mixture shall be considered as being wholly of the component juice having the lowest Brix value.

Statistical Note

1. For the purposes of statistical reporting in heading 2009, the symbol "l" in the "Units of Quantity" column of the provisions applicable to fruit juices means liter of natural unconcentrated juice or liter of reconstituted juice (as defined in Additional U.S. Legal Note 2(b) above).

ACTION: Setting of public hearing and release for comment from interested parties, pursuant to Commission investigation No. 332-131, under the authority of section 332(g) of the Tariff Act of 1930, as amended, and initiated upon the request of the President of the United States, of the following chapters of the Tariff Schedules of the United States (TSUS) converted into the nomenclature structure of the Harmonized Commodity Description and Coding System (Harmonized System):

Volume 8	Chapter 1:	Live animals
	Chapter 2:	Meat and edible meat offal
	Chapter 3:	Fish and crustaceans, molluscs and other aquatic invertebrates
	Chapter 4:	Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included
	Chapter 5:	Products of animal origin, not elsewhere specified or included
	Chapter 6:	Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage
	Chapter 7:	Edible vegetables and certain roots and tubers
	Chapter 8:	Edible fruit and nuts; peel of melons or citrus fruits
Volume 9	Chapter 16:	Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates
Volume 10	Chapter 20:	Preparations of vegetables, fruit, nuts or other parts of plants
Volume 11	Chapter 22:	Beverages, spirits and vinegar
	Chapter 23:	Prepared animal feed; residues and waste from the food industries

	Chapter 24:	Tobacco and manufactured tobacco substitutes
Volume 12	Chapter 26:	Ores, slag and ash
Volume 13	Chapter 28:	Inorganic chemicals; organic or inorganic compounds of precious metals, of rare-earth metals, of radioactive elements, or of isotopes
	Chapter 29:	Organic chemicals
Volume 14	Chapter 36:	Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations
	Chapter 37:	Photographic films and materials
Volume 15	Chapter 61:	Articles of apparel and clothing accessories, knitted or crocheted
	Chapter 62:	Articles of apparel and clothing accessories, not knitted or crocheted
	Chapter 63:	Other made up textile articles; sets; worn clothing and worn textile articles; rags
Volume 16	Chapter 74:	Copper and articles thereof
	Chapter 75:	Nickel and articles thereof
	Chapter 76:	Aluminum and articles thereof
	Chapter 78:	Lead and articles thereof
	Chapter 79:	Zinc and articles thereof
	Chapter 80:	Tin and articles thereof
	Chapter 81:	Other base metals; cermets; articles thereof
Volume 17:	Chapter 90:	Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus; parts thereof
	Chapter 91:	Clocks and watches and parts thereof
	Chapter 92:	Musical instruments; parts and accessories of such articles
Volume 4-S	Chapter 52:	Cotton

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) November 26, 1982. The signed original and 19 copies of all written comments must be filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on November 1, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on October 25, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the office of the Secretary, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29 and 30, 1982. The final set of converted chapters will be published for hearing and public comment in January of 1983.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. On February 16, 1982 (47 F.R. 8108), April 14, 1982 (47 F.R. 17135) and June 30, 1982 (47 F.R. 29734) the Commission released draft explanatory notes for 64 of the chapters of the Harmonized System for public comment. As soon as more explanatory notes become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

Secretary

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. Section I Live Animals; Animal Products

Chapter 1:	Live animals
Chapter 2:	Meat and edible meat offal
Chapter 3:	Fish and crustaceans, molluscs and other aquatic invertebrates
Chapter 4:	Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included
Chapter 5:	Products of animal origin, not elsewhere specified or included

II. Section II Vegetable Products

Chapter 6:	Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage
Chapter 7:	Edible vegetables and certain roots and tubers
Chapter 8:	Edible fruit and nuts; peel of melons or citrus fruits
Chapter 9:	Coffee, tea, mate and spices
Chapter 10:	Cereals
Chapter 11:	Products of the milling industry; malt and starches; gluten; inulin
Chapter 12:	Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder
Chapter 13:	Lacs; gums, resins and other vegetable saps and extracts
Chapter 14:	Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. Section III Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. Section IV Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Prepared animal feed; residues and waste from the food industries

Chapter 24: Tobacco and manufactured tobacco substitutes

V. SECTION V Mineral Products

Chapter 25: Salt; sulfur; earths and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, of rare-earth metals, of radio-active elements, or of isotopes

Chapter 29: Organic chemicals

Chapter 30: Pharmaceutical products

Chapter 31: Fertilizers

Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other coloring matter; paints and varnishes; putty and other mastics; inks

Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations

Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"

Chapter 35: Albuminoidal substances; glues; enzymes

Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations

Chapter 37: Photographic films and materials

Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

Chapter 39: Plastics and articles thereof

Chapter 40: Rubber and articles thereof

VIII. Section VIII Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)

Chapter 41: Raw hides and skins (other than furskins) and leather

Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)

Chapter 43: Furskins and artificial fur; manufactures thereof

IX. Section IX Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork

Chapter 44: Wood and articles of wood; wood charcoal

Chapter 45: Cork and articles of cork

Chapter 46: Manufactures of straw, of esparto, or of other plaiting materials; basketware and wickerwork

X. Section X Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof

Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard

Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard

Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans

XI. Section XI Textiles and Textile Articles

Chapter 50: Silk

Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Chapter 52: Cotton

Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn

Chapter 54: Man-made filaments

Chapter 55: Man-made staple fibers

Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof

Chapter 57: Carpets and other textile floor coverings

Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery

Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use

Chapter 60: Knitted or crocheted fabrics

Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted

Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted

Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

XII. Section XII Footwear, Headgear, Umbrellas, Sunshades, Walking-Sticks, Seat-Sticks, Whips, Riding Crops, and Parts Thereof; Prepared Feathers and Articles Made Therewith; Artificial Flowers; Articles of Human Hair

Chapter 64: Footwear, gaiters and the like; parts of such articles

Chapter 65: Headgear and Parts thereof

Chapter 66: Umbrellas, sun umbrellas, walking-sticks, seat-sticks, whips, riding-crops and parts thereof

Chapter 67: Prepared feathers and down and articles made of feathers or of down; artificial flowers; articles of human hair

XIII. Section XIII Articles of Stone, of Plaster, of Cement, of Asbestos, of Mica or of Similar Materials; Ceramic Products; Glass and Glassware

Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials

Chapter 69: Ceramic products

Chapter 70: Glass and glassware

XIV. Section XIV Natural or Cultured Pearls, Precious or Semi-Precious Stones, Precious Metals, Metals Clad With Precious Metals and Articles Thereof; Imitation Jewelery; Coin

Chapter 71: Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metals, and articles thereof; imitation jewelry; coin

XV. Section XV Base Metals and Articles of Base Metal

Chapter 72: Iron and steel

Chapter 73: Articles of iron or steel

Chapter 74: Copper and articles thereof

Chapter 75: Nickel and articles thereof

Chapter 76: Aluminum and articles thereof

Chapter 78: Lead and articles thereof

Chapter 79: Zinc and articles thereof

Chapter 80: Tin and articles thereof

Chapter 81: Other base metals; cermets; articles thereof

Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal; parts thereof

Chapter 83: Miscellaneous articles of base metal

XVI. Section XVI Machinery and Mechanical Appliances; Electrical and Electronic Equipment; Parts Thereof; Sound Recorders and Reproducers, Television Image and Sound Recorders and Reproducers, and Parts and Accessories of such Articles

Chapter 84: Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof

Chapter 85: Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles

XVII. Section XVII Vehicles, Aircraft, Vessels and Associated Transport Equipment

Chapter 86: Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds

Chapter 87: Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof

Chapter 88: Aircraft and parts thereof

Chapter 89: Ships, boats, and floating structures

XVIII. Section XVIII Optical, Photographic, Cinematographic, Measuring, Checking, Precision, Medical and Surgical Instruments and Apparatus; Clocks and Watches; Musical Instruments; Parts Thereof

Chapter 90: Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus; parts thereof

Chapter 91: Clocks and watches and parts thereof

Chapter 92: Musical instruments; parts and accessories of such articles

XIX. Section XIX Arms and Ammunition; Parts Thereof

Chapter 93: Arms and ammunition; parts thereof

XX.. Section XX Miscellaneous Manufactured Articles

Chapter 94: Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings

Chapter 95: Toys, games and sports requisites; parts thereof

Chapter 96: Miscellaneous manufactured articles

Chapter 97: Works of art, collectors' pieces, and antiques

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 6, 9 and 10 (currently 7, 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended by deleting electricity and vessels from the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Telecommunications transmissions have been added to rule 5 to explicitly exclude them from entry requirements. The abbreviations enumerated in rule 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the

draft chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Harmonized System", with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 7, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed

new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

1. Tariff Treatment of Imported Articles. All articles (including vessels and electricity) imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal notes 3 and 5.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note 6 of chapter 91 and except as provided in legal note , articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania
Bulgaria
Cuba 2/
Czechoslovakia
Estonia
German Democratic Republic
Kampuchea
Laos
Latvia
Lithuania
Mongolia
North Korea
Union of Soviet Socialist Republic
Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) executed securities and similar executed evidences of value, and

(d) telecommunications transmissions,

are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

7. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kW	-	kilowatts
¢	-	cents	kWh	-	kilowatt-hours

8. For the purposes of the tariff schedule, unless the context otherwise requires--
(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,
(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,
(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;
(d) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --
1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.
2. (a) Any reference in an article description to an article includes a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.
(b) Any reference in an article description to a material or substance includes a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance includes a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.
3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:
(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:
(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;
(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;
(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory.
(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable. Accessories imported with the principal article with which they normally belong shall be classified with that article.
(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.
4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.
5. Cases, boxes and similar containers imported with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets. Cases, boxes and similar containers which are not of a kind normally sold therewith as described above, or which are imported separately shall be classified under their appropriate headings.

6. Subject to rule 5, packings of articles shall be classified with the articles if they are of a kind normally used for packing such articles. Packings of articles which are not of a kind normally used for packing such articles shall be classified under their appropriate headings.

7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under heading 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

CHAPTER 22

BEVERAGES, SPIRITS, AND VINEGAR

Legal Notes

1. This chapter does not cover--

   (a) Sea water (heading 2501);

   (b) Distilled or conductivity water or water of similar purity (heading 2851);

   (c) Acetic acid of a concentration exceeding 10 percent by weight of acetic acid (heading 2915);

   (d) Medicaments of heading 3003 or 3004; or

   (e) Perfumery or toilet preparations (chapter 33).

2. For the purposes of this chapter and of chapter 20, the alcoholic strength is the alcoholic strength by volume at a temperature of 20° C.

   The "alcoholic strength by volume" of a mixture of water and ethyl alcohol is the ratio of the volume of alcohol present in the mixture at 20° C to the total volume of the mixture at the same temperature.

   The term "percent vol" is used to express alcoholic strength in parts of alcohol per hundred parts of the mixture.

3. For the purposes of heading 2202 the term "non-alcoholic beverages" includes beverages of an alcoholic strength by volume not exceeding 0.5 percent vol. Alcoholic beverages are classified in headings 2203 to 2206 or heading 2208 as appropriate.

4. For the purposes of subheading 2204.10 the expression "sparkling wine" means wine which, when kept at a temperature of 20° C in closed containers, has an excess pressure of not less than 3 bars.

Additional U.S. Legal Notes

1. The duties prescribed on products covered by this chapter are in addition to the internal-revenue taxes imposed under existing law or any subsequent Act. The duties imposed on products covered by this chapter which are subject also to internal-revenue taxes are imposed only on the quantities subject to such taxes; except that, in the case of distilled spirits transferred to the bonded premises of a distilled spirits plant under the provisions of section 5232 of the Internal Revenue Code of 1954, the duties are imposed on the quantity withdrawn from customs custody.

2. Dutiable quantities of alcoholic juices (including grape must) classified in heading 2204, 2206 or 2208 shall be calculated in accordance with Additional U.S. Legal Note 2 in chapter 20.

3. Where in heading 2204, 2206, 2207, or 2208, the rates shown in the rates of duty columns are in terms of a proof liter, proof liter shall mean a liter of liquid at 15.56° C (60° F) which contains 50 percent (100 proof) by volume of ethyl alcohol having a specific gravity of 0.7939 at 15.56° C (60° F) referred to water at 15.56° C (60° F) as unity or the alcoholic equivalent thereof.

4. Where in heading 2204, 2206, 2207, or 2208 the rates of duty are assessed on a proof liter basis, the rates shown indicate the amount of duty which shall be collected on each liter of an imported product at 100 proof. The amount of duty which shall be collected for each liter of a product which is imported at more than or less than 100 proof shall bear the same ratio to the applicable rate of duty as the proof of the imported product bears to 100 proof.

5. The standard for determining the proof of brandy and other spirits or liquors of any kind when imported is the same as that which is defined in the laws relating to internal revenue. The Secretary of the Treasury, in his discretion, may authorize the ascertainment of the proof of wines, cordials, or other liquors and fruit juices by distillation or otherwise, when it is impracticable to ascertain such proof by the means prescribed by existing law or regulations.

6. Provisions for the free entry of certain samples of alcoholic beverages are covered by heading 9811.00.20 of chapter 98.

7. For the purposes of heading 2209, the standard proof of vinegar is 4 percent, by weight, of acetic acid.

Note: This draft conversion is based on the 5-digit and 7-digit provisions in effect in the TSUSA on or before 7/1/81. The report to the President will be updateed to reflect those changes in the TSUSA that have become effective since then or will become effective on or before 1/1/83.

CHAPTER 23

PREPARED ANIMAL FEED; RESIDUES AND WASTE FROM THE FOOD INDUSTRIES

Legal Note

1. Heading 2309 includes products of a kind used in animal feeding, not elsewhere specified or included, obtained by processing vegetable or animal materials to such an extent that they have lost the essential characteristics of the original material, other than vegetable waste, vegetable residues and by products of such processing.

U.S. Legal Notes

1. This chapter does not cover--

   (a) wheat gluten to be used as animal feed (heading 1109);

   (b) unprepared cereal straw and husks (heading 1213); or

   (c) hay (heading 1214);

   (d) protein concentrates obtained by the elimination of certain constituents of oil-cake meal, used as additives in food preparations (heading 2106).

2. The term "mixed feeds and mixed-feed ingredients" in subheading 2309.90.60 embraces products which are admixtures of grains (or products, including byproducts, obtained in milling grains) with molasses, oil cake, oil-cake meal, or feedstuffs, and which consist of not less than 6 percent by weight of grain or grain products.

CHAPTER 24

TOBACCO AND MANUFACTURED TOBACCO SUBSTITUTES

Legal Note

1. This chapter does not cover medicinal cigarettes (chapter 30).

Additional U.S. Legal Notes

1. The term "wrapper tobacco", as used in this chapter means that quality of leaf tobacco which has the requisite color, texture, and burn, and is of sufficient size for cigar wrappers, and the term "filler tobacco" means all other leaf tobacco.

2. The percentage of wrapper tobacco in a bale, box, package, or other shipping unit is the ratio of the number of leaves of wrapper tobacco in such unit to the total number leaves therein. In determining such percentage for classification purposes, the district director of customs shall examine at least ten hands, and shall count the leaves in at least two hands, from each shipping unit designated for examination.

3. The dutiable weight of cigars and cigarettes includes the weight of all materials which are integral parts thereof.

4. Certain samples of tobacco products provided for in this chapter are entitled to duty-free treatment (chapter 98).

5. Heading 2403 does not cover nicotine (heading 2939).

	Chapter 88:	Aircraft and parts thereof
	Chapter 89:	Ships, boats, and floating structures

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) April 30, 1982. The signed original and 19 copies of all written comments must be

filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on March 29, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on March 22, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the offices of the Commission, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 97 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature Committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 97 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the

President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981), along with the schedule for the release of the converted chapters. Appropriate supplementary public notices will be issued with respect to the publication of the remaining chapters and hearings thereon.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. As soon as they become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 97 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 7; 10 and 11 (currently 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended to reduce from 5 to 1 the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Rule 6 has been amended to more closely reflect the Harmonized System's treatment of containers and the abbreviations enumerated in rule 8 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the draft

chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Nomenclature" of the Customs Cooperation Council Nomenclature (CCCN), with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 5, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there were clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.10	
662.3010	5.5%	4,578	511,280	through	4.35%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number,

along with its post-MTN rates of duty and Jan.-Nov. 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

GENERAL LEGAL NOTES

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal note 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note ___ and except as provided in legal note ___, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania	Laos
Bulgaria	Latvia
Cuba 2/	Lithuania
Czechoslovakia	Mongolia
Estonia	North Korea
German Democratic Republic	Union of Soviet Socialist Republic
Kampuchea	Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1, corpses, together with their coffins and accompanying flowers, are not articles subject to the provisions of the tariff schedule.

6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedule, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty under their appropriate tariff provision unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are not subject to treatment as imported articles but are classified with such articles if they are of a kind normally sold therewith. Their cost is, under section 402 of the Tariff Act of 1930, as amended, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties. Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties. Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kvar	-	kilovolt-amperes reactive
¢	-	cents	kw	-	kilowatts
%	-	percent ad valorem	l	-	liters
+	-	plus	lin	-	linear

9. For the purposes of the tariff schedule, the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

10. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

11. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory;

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable;

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "2009.90.0000-2009.60.00".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under heading 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

CHAPTER 26

ORES, SLAG AND ASH

Legal Notes

1. This chapter does not cover--

   (a) Slag and similar industrial waste prepared as macadam (heading 2517);

   (b) Natural magnesium carbonate (magnesite), whether or not calcined (heading 2519);

   (c) Basic slag of chapter 31;

   (d) Slag wool, rock wool and similar mineral wools (heading 6806);

   (e) Waste and scrap of precious metal or of metal clad with precious metal (heading 7112); or

   (f) Copper, nickel or cobalt mattes produced by any process of smelting (section XV).

2. For the purposes of headings 2601 to 2617, the "ores and concentrates" referred to therein cover minerals of mineralogical species of a kind used in the metallurgical industry for the extraction of mercury, of the metals of heading 2844 or of the metals of section XIV or XV, even if they are intended for non-metallurgical purposes. Headings 2601 to 2617 do not, however, include minerals which have been submitted to processes not normal to the metallurgical industry.

3. Heading 2620 applies only to ash and residues of a kind used in industry either for the extraction of metals or as a basis for the manufacture of chemical compounds of metals.

Additional U.S. Legal Notes

1. This chapter does not cover--

   (a) Pigments (chapters 25 and 32), fertilizers (chapter 31), or chemical compounds (chapters 28 and 29);

   (b) Dolomite, unroasted iron pyrites, alunite, cryolite, chiolite, and slag cements (chapter 25); or

   (c) Metal waste and scrap, native metals (e.g., nuggets or grains) separated from their gangues or matrices (sections XIV or XV).

2. The specific rates of duty imposed under the headings of this chapter on the metal content of ores and other materials shall apply to the assay quantity of metal contained therein, whether recovered as metals, as alloys, or as chemical compounds or used directly in the manufacture of articles.

3. When the classification of imported materials under any provision of this chapter is dependent on the percentage of metal content, such percentage shall be the ratio of the total quantity of the respective metal content to the total quantity of imported material when computed on a dry-weight basis; i.e., free of all uncombined moisture.

4. (a) For the purposes of heading 2601 through 2617, the following ores and concentrates are to be classified in the headings respectively indicated:

      (i) red haematite (including specular iron ore and martite), brown haematite, limonite, magnetite, siderite or chalybite, and roasted iron pyrites (heading 2601);

      (ii) braunite, rhodocrosite, hausmannite, manganite, psilomelane, and pyrolusite (heading 2602);

      (iii) atacamite, azurite, bornite, bournonite, brochantite, chalcocite, chalcopyrite, chrysocolla, covellite, cuprite, dioptase, gray copper ore (tetrahedrite or fahlerz, tennantite, enargite), malachite, and tenorite (heading 2603);

      (iv) garnierite, niccolite (nickelin), pentlandite, and nickeliferous pyrrhotite (heading 2604);

      (v) cobaltite, heterogenite, linnaeite, and smaltite (heading 2605);

      (vi) bauxite (heading 2606);

      (vii) anglesite, cerussite, galena, and pyromorphite (heading 2607);

      (viii) sphalerite (blende), hemimorphite (or calamine), smithsonite, and zincite (heading 2608);

      (ix) cassiterite and stannite (heading 2609);

      (x) chromite (2610);

(xi) ferberite, hubnerite, scheelite, and wolframite (heading 2611);

(xii) autunite, brannerite, carnotite, davidite, parsonsite, pitchblende and uraninite, torbernite (or chalcolite), tyuyamunite, uranothorianite (heading 2612.10);

(xiii) monazite and thorite (heading 2612.20);

(xiv) molybdenite and wulfenite (heading 2613);

(xv) ilmenite, rutile, anatase, and brookite (heading 2614);

(xvi) baddeleyite, zircon, and zircon sands (heading 2615.10);

(xvii) tantalite and niobite (columbite), descloizite, patronite, roscoelite, and vanadinite (heading 2615.90);

(xviii) argentite, calaverite, cerargyrites (or horn silver), polybasite, proustite, pyrargyrite, stephanite (heading 2616.10);

(xix) gold and platinum-bearing sands (heading 2616.90);

(xx) cervantite, kermesite, senarmontite, stibnite (or antimonite), and valentinite (heading 2617.10);

(xxi) beryl, bertrandite, bismuthinite, bismutite, bismuth ochre (or bismite), germanite, and cinnabar (heading 2617.90).

(b) Except as otherwise provided above, ores and concentrates containing two or more metals are to be classified as consisting wholly of the metal which predominates by weight over each other metal.

Statistical Note

1. The quantity of metal content to be reported shall be the assay quantity.

NOTICE OF HEARING ON AND RELEASE FOR PUBLIC COMMENT OF CHAPTERS OF THE TARIFF SCHEDULES OF THE UNITED STATES CONVERTED INTO THE NOMENCLATURE STRUCTURE OF THE HARMONIZED SYSTEM

AGENCY: United States International Trade Commission.

ACTION: Setting of public hearing and release for comment from interested parties, pursuant to Commission investigation No. 332-131, under the authority of section 332(g) of the Tariff Act of 1930, as amended, and initiated upon the request of the President of the United States, of the following chapters of the Tariff Schedules of the United States (TSUS) converted into the nomenclature structure of the Harmonized Commodity Description and Coding System (Harmonized System):

Volume I	Chapter 25:	Salt; sulphur; earths and stone; plastering materials; lime and cement
Volume II	Chapter 27:	Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes
Volume III	Chapter 44:	Wood and articles of wood; wood charcoal
	Chapter 45:	Cork and articles of cork
	Chapter 46:	Manufactures of straw, of esparto or of other plaiting materials; basketware and wickerwork
	Chapter 47:	Pulp of wood or of other fibrous cellulosic materials; waste and scrap of paper or paperboard
	Chapter 48:	Paper and paperboard; articles of paper pulp, of paper or of paperboard
	Chapter 49:	Printed books, newspapers, pictures and other products of the printing industry manuscripts, typescripts and plans
Volume IV	Chapter 50:	Silk
	Chapter 51:	Wool, fine or coarse animal hair; horsehair yarn and woven fabric
	Chapter 52:	Cotton
	Chapter 53:	Other vegetable textile fibres; paper yarn and woven fabrics of paper yarn

	Chapter 54:	Man-made filaments
	Chapter 55:	Man-made staple fibres
Volume V	Chapter 68:	Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials
	Chapter 69:	Ceramic products
	Chapter 70:	Glass and glassware
	Chapter 71:	Natural or cultured pearls, precious or semi-precious stones, precious metals, metal clad with precious metals, and articles thereof; imitation jewelry; coin
Volume VI	Chapter 84:	Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof
	Chapter 85:	Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders, or reproducers and parts and accessories of such articles
Volume VII	Chapter 86:	Railway and tramway locomotives, rolling-stock and parts thereof; railway and tramway track fixtures and fittings; mechanical traffic signalling equipment of all kinds (including electro-mechanical)
	Chapter 87:	Vehicles other than railway or tramway rolling-stock, and parts thereof
	Chapter 88:	Aircraft and parts thereof
	Chapter 89:	Ships, boats, and floating structures

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) April 30, 1982. The signed original and 19 copies of all written comments must be

filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on March 29, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on March 22, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the offices of the Commission, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 97 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature Committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 97 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the

President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981), along with the schedule for the release of the converted chapters. Appropriate supplementary public notices will be issued with respect to the publication of the remaining chapters and hearings thereon.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. As soon as they become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

Kenneth R. Mason
Secretary

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 97 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. Section I Live Animals; Animal Products

Chapter 1: Live animals; animal products

Chapter 2: Meat and edible meat offal

Chapter 3: Fish, crustaceans and molluscs

Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included

Chapter 5: Products of animal origin, not elsewhere specified or included

II. Section II Vegetable Products

Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage

Chapter 7: Edible vegetables and certain roots and tubers

Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits

Chapter 9: Coffee, tea, maté and spices

Chapter 10: Cereals

Chapter 11: Products of the milling industry; malt and starches; gluten; inulin

Chapter 12: Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder

Chapter 13: Lacs; gums, resins and other vegetable saps and extracts

Chapter 14: Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. Section III Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. Section IV Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish, of crustaceans or molluscs

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Residues and waste from the food industries; prepared animal fodder

Chapter 24: Tobacco and manufactured tobacco substitutes

V. SECTION V Mineral Products

Chapter 25: Salt; sulphur; earth and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, or rare-earth metals, of radio-active elements and of isotopes

Chapter 29: Organic chemicals

Chapter 30: Pharmaceutical products

Chapter 31: Fertilizers

Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other colouring matter; paints and varnishes; putty and other mastics; inks

Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations

Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"

Chapter 35: Albuminoidal substances; glues; enzymes

Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations

Chapter 37: Photographic and cinematographic goods

Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

Chapter 39: Plastics and articles thereof

Chapter 40: Rubber and articles thereof

VIII. Section VIII Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)

Chapter 41: Raw hides and skins (other than furskins) and leather

Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)

Chapter 43: Furskins and artificial fur; manufactures thereof

IX. Section IX Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork

Chapter 44: Wood and articles of wood; wood charcoal

Chapter 45: Cork and articles of cork

Chapter 46: Manufactures of straw, of esparto and of other plaiting materials; basketware and wickerwork

X. Section X Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof

Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard

Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard

Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans

XI. Section XI Textiles and Textile Articles

Chapter 50: Silk

Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Chapter 52: Cotton

Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn

Chapter 54: Man-made filaments

Chapter 55: Man-made staple fibers

Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof

Chapter 57: Carpets and other textile floor coverings

Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery

Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use

Chapter 60: Knitted or crocheted fabrics

Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted

Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted

Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

XII. <u>Section XII</u> Footwear, Headgear, Umbrellas, Sunshades, Walking-Sticks, Seat-Sticks, Whips, Riding Crops, and Parts Thereof; Prepared Feathers and Articles Made Therewith; Artificial Flowers; Articles of Human Hair

Chapter 64: Footwear, gaiters and the like; parts of such articles

Chapter 65: Headgear and Parts thereof

Chapter 66: Umbrellas, sun umbrellas, walking-sticks, seat-sticks, whips, riding-crops and parts thereof

Chapter 67: Prepared feathers and down and articles made of feathers or of down; artificial flowers; articles of human hair

XIII. <u>Section XIII</u> Articles of Stone, of Plaster, of Cement, of Asbestos, of Mica or of Similar Materials; Ceramic Products; Glass and Glassware

Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials

Chapter 69: Ceramic products

Chapter 70: Glass and glassware

XIV. <u>Section XIV</u> Natural or Cultured Pearls, Precious or Semi-Precious Stones, Precious Metals, Metals Clad With Precious Metals and Articles Thereof; Imitation Jewelery; Coin

Chapter 71: Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metals, and articles thereof; imitation jewelry; coin

XV. <u>Section XV</u> Base Metals and Articles of Base Metal

Chapter 72: Iron and steel

Chapter 73: Articles of iron or steel

Chapter 74: Copper and articles thereof

Chapter 75: Nickel and articles thereof

Chapter 76: Aluminum and articles thereof

Chapter 78: Lead and articles thereof

Chapter 79: Zinc and articles thereof

Chapter 80: Tin and articles thereof

Chapter 81: Other base metals; cermets; articles thereof

Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal; parts thereof

Chapter 83: Miscellaneous articles of base metal

XVI. <u>Section XVI</u> Machinery and Mechanical Appliances; Electrical Equipment; Parts Thereof; Sound Recorders and Reproducers, Television Image and Sound Recorders and Reproducers, and Parts and Accessories of such Articles

Chapter 84: Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof

Chapter 85: Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles

XVII. <u>Section XVII</u> Vehicles, Aircraft, Vessels and Associated Transport Equipment

Chapter 86: Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds

Chapter 87: Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof

Chapter 88: Aircraft and parts thereof

Chapter 89: Ships, boats, and floating structures

XVIII. <u>Section XVIII</u> Optical, Photographic, Cinematographic, Measuring, Checking, Precision, Medical and Surgical Instruments and Apparatus; Clocks and Watches; Musical Instruments; Parts Thereof

Chapter 90: Optical, photographic, cinematographic, measuring checking, precision, medical and surgical instruments and apparatus; parts thereof

Chapter 91: Clocks and watches and parts thereof

Chapter 92: Musical instruments; parts and accessories of such articles

XIX. <u>Section XIX</u> Arms and Ammunition; Parts Thereof

Chapter 93: Arms and ammunition; parts thereof

XX. Section XX Miscellaneous Manufactured Articles

Chapter 94: Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings

Chapter 95: Toys, games and sports requisites; parts thereof

Chapter 96: Miscellaneous manufactured articles

Chapter 97: Works of art, collectors' pieces, and antiques

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 7; 10 and 11 (currently 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended to reduce from 5 to 1 the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Rule 6 has been amended to more closely reflect the Harmonized System's treatment of containers and the abbreviations enumerated in rule 8 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the draft

chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Nomenclature" of the Customs Cooperation Council Nomenclature (CCCN), with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 5, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there were clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.10	
662.3010	5.5%	4,578	511,280	through	4.35%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number,

along with its post-MTN rates of duty and Jan.-Nov. 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal note 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note ___ and except as provided in legal note ___, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1, corpses, together with their coffins and accompanying flowers, are not articles subject to the provisions of the tariff schedule.

6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedule, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty under their appropriate tariff provision unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are not subject to treatment as imported articles but are classified with such articles if they are of a kind normally sold therewith. Their cost is, under section 402 of the Tariff Act of 1930, as amended, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties. Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties. Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

8. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kvar	-	kilovolt-amperes reactive
¢	-	cents	kw	-	kilowatts
%	-	percent ad valorem	l	-	liters
+	-	plus	lin	-	linear

kVA	-	kilovolt-amperes	X	-	No unit of quantity

9. For the purposes of the tariff schedule, the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

10. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

11. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall be taken to include a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory;

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable;

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "2009.90.0000-2009.60.00".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

GENERAL STATISTICAL NOTES

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under heading 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

SECTION VI

PRODUCTS OF THE CHEMICAL OR ALLIED INDUSTRIES

Legal Notes

1. (a) Products (other than radioactive ores) answering to a description in heading 2844 or 2845 are to be classified in those headings and in no other heading of the tariff schedule.

   (b) Subject to paragraph (a) above, products answering to a description in heading 2843 or 2846 are to be classified in those headings and in no other heading of this section.

2. Subject to legal note 1 above, products classifiable in heading 3004, 3005, 3006, 3212, 3303, 3304, 3305, 3306, 3307, 3506, 3707, or 3808 by reason of being put up in measured doses or for retail sale are to be classified in those headings and in no other heading of the tariff schedule.

3. Products put up in sets consisting of two or more separate constituents, some or all of which fall in this section and are intended to be mixed together to obtain a product of section VI or VII, are to be classified in the heading appropriate to that product, provmded that the constituents are--

   (i) having regard to the manner in which they are put up, clearly identifiable as being intended to be used together without first being repacked;

   (ii) entered together; and

   (iii) identifiable, whether by their nature or by the relative proportions in which they are present, as being complementary one to another.

Additional U.S. Legal Note

1. In determining the amount of duty applicable to a solution of a single compound in water subject to duty in this section at a specific rate, an allowance in weight or volume, as the case may be, shall be made for the water in excess of any water of crystallization which may be present in the undissolved compound.

(e) Spent (irradiated) fuel elements (cartridges) of nuclear reactors;

(f) Radioactive residues whether or not usable.

The term "isotope", for the purposes of this legal note and of the wording of headings 2844 and 2845, refers to--

(i) individual nuclides, excluding, however, those existing in nature in the monoiosotopic state;

(ii) mixtures of isotopes of one and the same element, enriched in one or several of the said isotopes, that is, elements of which the natural isotopic composition has been artificially modified.

7. Heading 2848 includes copper phosphide (phosphor copper) containing more than 15 percent by weight of phosphorus.

8. Chemical elements (for example, silicon and selenium) doped for use in electronics are to be classified in the present chapter, provided that they are in forms unworked as drawn, or in the form of cylinders or rods. When cut in the form of discs, wafers or similar forms, they fall in heading 3818.

Additional U.S. Legal Notes

1. For the purposes of heading 2804, the term "rare gases" includes the elements argon, helium, krypton, neon, and xenon, but does not include the radioactive rare gas radon (subheading 2844.40).

2. For the purposes of heading 2805--

(a) The term "alkali metals" includes the elements cesium, lithium, potassium, sodium, and rubidium, but does not include the radioactive alkali metal francium (subheading 2844.40);

(b) The term "alkaline-earth metals" includes the elements barium, calcium, and strontium, but does not include the radioactive alkaline-earth metal radium (subheading 2844.40); and

(c) The term "rare-earth metals" includes the elements cerium, dysprosium, erbium, europium, gadolinium, holmium, lanthanum, lutetium, neodymium, praseodymium, samarium, terbium, thulium, and ytterbium, but does not include the radioactive rare-earth metal promethium (subheading 2844.40).

3. For the purposes of headings 2843 and 2851, "amalgams" are metals in which the content of mercury is, by weight, less than 99.0 percent, but not less than any other metallic element.

Statistical Note

1. For the purposes of heading 2804, the term "m^3" (cubic meter) means a standard cubic meter measured at 21°C at 760 mm (1013 millibars) pressure.

CHAPTER 28

INORGANIC CHEMICALS; ORGANIC OR INORGANIC COMPOUNDS OF PRECIOUS METALS, OF RARE-EARTH METALS, OF RADIOACTIVE ELEMENTS, OR OF ISOTOPES

Legal Notes

1. Except where their context or these legal notes otherwise require, the headings of this chapter apply only to--

   (a) Separate chemical elements and separate chemically defined compounds, whether or not containing impurities;

   (b) Products mentioned in (a) above dissolved in water;

   (c) Products mentioned in (a) above dissolved in other solvents provided that the solution constitutes a normal and necessary method of putting up these products adopted solely for reasons of safety or for transport and that the solvent does not render the product particularly suitable for a specific use rather than for general use;

   (d) The products mentioned in (a), (b), or (c) above with an added stabilizer necessary for their preservation or transport;

   (e) The products mentioned in (a), (b), (c), or (d) above with an$added anti-dusting agent or a coloring substance added to facilitate their identification or for safety reasons, provided that the additions do not render the product particularly suitable for a specific use rather than for general use.

2. In addition to dithionites and sulfoxylates, stabilized with organic substances (heading 2831), carbonates and peroxocarbonates (percarbonates) of inorganic bases (heading 2836), cyanides, cyanide oxides, and complex cyanides of inorganic bases (heading 2837), fulminates, cyanates, and thiocyanates, of inorganic bases (heading 2838), organic products included in headings 2843 to 2846, and carbides (heading 2849), only the following compounds of carbon are to be classified in the present chapter:

   (a) Oxides of carbon, hydrogen cyanide and fulminic, isocyanic, thiocyanic, and other simple or complex cyanogen acids (heading 2811);

   (b) Halide oxides of carbon (heading 2812);

   (c) Carbon disulfide (heading 2813);

   (d) Thiocarbonates, selenocarbonates, tellurocarbonates, selenocyanates, tellurocyanates, tetrathiocyanatodiamminochromates (reineckates), and other complex cyanates, of inorganic bases (heading 2842);

   (e) Hydrogen peroxide, solidified with urea (heading 2847), carbon oxysulfide, thiocarbonyl halides, cyanogen, cyanogen halides, and cyanamide and its metallic derivatives (heading 2851) other than calcium cyanamide, whether or not pure (chapter 31).

3. Subject to the provisions of legal note 1 to section VI, this chapter does not cover--

   (a) Sodium chloride and magnesium oxide, whether or not pure, and other products of section V;

   (b) Organo-inorganic compounds other than those mentioned in legal note 2 above;

   (c) Products mentioned in legal note 2, 3, 4, or 5 of chapter 31;

   (d) Inorganic products of a kind used as luminophores, of heading 3206;

   (e) Artificial graphite (heading 3801); products put up as charges for fire-extinguishers or put up in fire-extinguishing grenades, of heading 3813; ink removers put up in packings for retail sale, of heading 3823; cultured crystals (other than optical elements) weighing not less than 2.5 g each, of the halides of the alkali or alkaline-earth metals, of heading 3823;

   (f) Precious or semi-precious stones (natural, synthetic, or reconstructed) or dust or powder of such stones (headings 7102 to 7105), and precious metals and precious metal alloys of chapter 71;

   (g) The metals, whether or not pure and metal alloys, of section XV; or

   (h) Optical elements, for example, of the halides of the alkali or alkaline-earth metals (heading 9001).

4. Chemically defined complex acids consisting of a non-metal acid of subchapter II and a metallic acid of subchapter IV are to be classified in heading 2811.

5. Headings 2826 to 2842 apply only to metallic or ammonium salts or peroxysalts.

   Except where the context otherwise requires, double or complex salts are to be classified in heading 2842.

6. Heading 2844 applies only to--

   (a) Technetium (atomic No. 43), promethium (61), polonium (84), and all elements with an atomic number greater than 84;

   (b) Natural or artificial radioactive isotopes (including those of the precious metals or of the base metals of sections XIV and XV), whether or not mixed together;

   (c) Compounds, inorganic or organic, of these elements or isotopes, whether or not chemically defined, whether or not mixed together;

   (d) Alloys, dispersions (including cermets), ceramic products, and mixtures containing these elements or isotopes or inorganic or organic compounds thereof and having a specific radioactivity greater than 0.002 microcurie per gram;

Legal Notes

1. Except where the context otherwise requires, the headings of this chapter apply only to--

   (a) Separate chemically defined organic compounds, whether or not containing impurities;

   (b) Mixtures of two or more isomers of the same organic compound (whether or not containing impurities), except mixtures of acyclic hydrocarbon isomers (other than stereoisomers), whether or not saturated (chapter 27);

   (c) The products of headings 2936 to 2939 or the sugar ethers and sugar esters, and their salts, of heading 2940 or the products of heading 2941, whether or not chemically defined;

   (d) Products mentioned in (a), (b), or (c) above dissolved in water;

   (e) Products mentioned in (a), (b), or (c) above dissolved in other solvents provided that the solution constitutes a normal and necessary method of putting up these products adopted solely for reasons of safety or for transport and that the solvent does not render the product suitable for a specific use rather than for general use;

   (f) The products mentioned in (a), (b), (c), (d), or (e) above with an added stabilizer necessary for their preservation or transport;

   (g) The products mentioned in (a), (b), (c), (d), (e), or (f) above with an added antidusting agent or a coloring or odoriferous substance added to facilitate their identification or for safety reasons, provided that the additions do not render the product suitable for a specific use rather than for general use;

   (h) The following products, diluted to standard strengths, for the production of azo dyes: diazonium salts, couplers used for these salts, and diazotizable amines and their salts.

2. This chapter does not cover--

   (a) Products of heading 1504 or glycerol (heading 1520);

   (b) Ethyl alcohol (heading 2207 or 2208);

   (c) Methane and propane (heading 2711);

   (d) The compounds of carbon mentioned in legal note 2 to chapter 28;

   (e) Urea (heading 3102 or 3105, as the case may be);

   (f) Coloring matter of vegetable or animal origin (heading 3203), synthetic organic coloring matter, synthetic organic products of a kind used as fluorescent brightening agents or as luminophores (heading 3204), and dyes or other coloring matter put up in forms or packings for retail sale (heading 3212);

   (g) Enzymes (heading 3507);

   (h) Metaldehyde, hexamethylenetetramine and similar substances put up in forms (for example, tablets, sticks or similar forms) for use as fuels, and liquid or liquefied-gas fuels of a kind used for cigarette or similar lighters in containers of a capacity not exceeding $300cm^3$ (heading 3606);

   (ij) Products put up as charges for fire-extinguishers or put up in fire-extinguishing grenades, of heading 3813; ink removers put up in packings for retail sale, of heading 3823; or

   (k) Optical elements, for example, of ethylenediamine tartrate (heading 9001).

3. Products which could be included in two or more of the headings of this chapter are to be classified in the latest of those headings.

4. In headings 2904 to 2906, 2908 to 2911, and 2913 to 2920, any reference to halogenated, sulfonated, nitrated, or nitrosated derivatives includes a reference to any combinations of these derivatives, such as sulfohalogenated (including sulfonyl halides), nitrohalogenated, nitrosulfonated, or nitrosulfohalogenated derivatives.

   Nitro or nitroso groups are not to be taken as nitrogen-functions for the purpose of heading 2929.

   For the purposes of headings 2911, 2912, 2914, 2918, and 2922, "oxygen function" is to be restricted to the functions (the characteristic organic oxygen-containing groups) referred to in headings 2905 to 2920.

5. (a) The esters of acid-function organic compounds of subchapters I to VII with organic compounds of these subchapters are to be classified with that compound which is classified in the heading placed last in the subchapters.

   (b) Esters of ethyl alcohol or glycerol with acid-function organic compounds of subchapters I to VII are to be classified with the corresponding acid-function compounds.

   (c) Subject to legal note 1 to section VI and legal note 2 to chapter 28:

      (1) Inorganic salts of organic compounds such as acid-, phenol-, or enol-function compounds or organic bases, of subchapters I to X or heading 2942, are to be classified in the heading appropriate to the organic compound; and

      (2) Salts formed between organic compounds of subchapter I to X or heading 2942 are to be classified in the heading appropriate to the base or to the acid (including phenol- or enol-function compounds) from which they are formed, whichever occurs latest in the chapter.

   (d) Metal alcoholates are to be classified with the corresponding alcohols except in the case of ethanol and glycerol (heading 2904).

   (e) Halides of carboxylic acids are to be classified with the corresponding acids.

6. The compounds of headings 2930 and 2931 are organic compounds the molecules of which contain, in addition to atoms of hydrogen, oxygen, or nitrogen, atoms of other nonmetals or of metals (such as sulfur, arsenic, mercury, or lead) directly linked to carbon atoms.

   Heading 2930 (organo-sulfur compounds) and heading 2931 (other organo-inorganic compounds) do not include sulfonated or halogenated derivatives (including compound derivatives) which, apart from hydrogen, oxygen, and nitrogen, only have directly linked to carbon the atoms of sulfur or of a halogen which give them their nature of sulfonated or halogenated derivatives (or compound derivatives).

7. Headings 2932, 2933, and 2934 do not include epoxides with a three-membered ring, ketone peroxides, cyclic polymers of aldehydes or of thioaldehydes, anhydrides of polybasic carboxylic acids, cyclic esters of polyhydric alcohols or phenols with polybasic acids, and imides of polybasic acids.

   These provisions apply only when the ring-position hetero-atoms are those resulting solely from the cyclizing function or functions here listed.

8. Within any one heading of this chapter, derivatives of a chemical compound (or group of chemical compounds) are to be classified in the same subheading as that compound (or group of compounds) provided that they are not more specifically covered by any other subheading and that there is no residual subheading "Other" in the series of subheadings concerned.

Additional U.S. Legal Notes

1. For the purposes of this chapter--

   (a) The term "odoriferous compounds" means compounds which are chiefly used in the manufacture of perfumery, cosmetics, or toilet preparations, or otherwise for the purpose of scenting or of counteracting undesirable odors, but which themselves are not marketable as perfumery, cosmetics, or toilet preparations.

   (b) The term "plasticizers" means compounds which may be incorporated into a material (usually a plastic, resin material, or an elastomer) to increase its softness, flexibility, workability, or distensibility.

   (c) The term "drugs" means compounds having anesthetic, prophylactic, or therapeutic properties and used as an active ingredient in a medicament.

   (d) The term "pesticides" means compounds, such as insecticides, rodenticides, fungicides, herbicides, fumigants, and seed disinfectants, chiefly used to destroy undesired animal or plant life.

2. Salts of organic acids (including phenols) with organic bases and salts of organic bases with inorganic acids are to be classified under the same heading as the organic acid or base; salts of organic acids with organic bases are to be classified either under the heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free base, whichever is listed later.

NOTICE OF HEARING ON AND RELEASE FOR PUBLIC COMMENT OF CHAPTERS OF THE TARIFF SCHEDULES OF THE UNITED STATES CONVERTED INTO THE NOMENCLATURE STRUCTURE OF THE HARMONIZED SYSTEM

AGENCY: United States International Trade Commission.

ACTION: Setting of public hearing and release for comment from interested parties, pursuant to Commission investigation No. 332-131, under the authority of section 332(g) of the Tariff Act of 1930, as amended, and initiated upon the request of the President of the United States, of the following chapters of the Tariff Schedules of the United States (TSUS) converted into the nomenclature structure of the Harmonized Commodity Description and Coding System (Harmonized System):

Volume 8	Chapter 1:	Live animals
	Chapter 2:	Meat and edible meat offal
	Chapter 3:	Fish and crustaceans, molluscs and other aquatic invertebrates
	Chapter 4:	Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included
	Chapter 5:	Products of animal origin, not elsewhere specified or included
	Chapter 6:	Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage
	Chapter 7:	Edible vegetables and certain roots and tubers
	Chapter 8:	Edible fruit and nuts; peel of melons or citrus fruits
Volume 9	Chapter 16:	Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates
Volume 10	Chapter 20:	Preparations of vegetables, fruit, nuts or other parts of plants
Volume 11	Chapter 22:	Beverages, spirits and vinegar
	Chapter 23:	Prepared animal feed; residues and waste from the food industries

	Chapter 24:	Tobacco and manufactured tobacco substitutes
Volume 12	Chapter 26:	Ores, slag and ash
Volume 13	Chapter 28:	Inorganic chemicals; organic or inorganic compounds of precious metals, of rare-earth metals, of radioactive elements, or of isotopes
	Chapter 29:	Organic chemicals
Volume 14	Chapter 36:	Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations
	Chapter 37:	Photographic films and materials
Volume 15	Chapter 61:	Articles of apparel and clothing accessories, knitted or crocheted
	Chapter 62:	Articles of apparel and clothing accessories, not knitted or crocheted
	Chapter 63:	Other made up textile articles; sets; worn clothing and worn textile articles; rags
Volume 16	Chapter 74:	Copper and articles thereof
	Chapter 75:	Nickel and articles thereof
	Chapter 76:	Aluminum and articles thereof
	Chapter 78:	Lead and articles thereof
	Chapter 79:	Zinc and articles thereof
	Chapter 80:	Tin and articles thereof
	Chapter 81:	Other base metals; cermets; articles thereof
Volume 17:	Chapter 90:	Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus; parts thereof

	Chapter 92:	Musical instruments; parts and accessories of such articles
Volume 4-S	Chapter 52:	Cotton

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) November 26, 1982. The signed original and 19 copies of all written comments must be filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on November 1, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on October 25, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the office of the Secretary, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29 and 30, 1982. The final set of converted chapters will be published for hearing and public comment in January of 1983.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. On February 16, 1982 (47 F.R. 8108), April 14, 1982 (47 F.R. 17135) and June 30, 1982 (47 F.R. 29734) the Commission released draft explanatory notes for 64 of the chapters of the Harmonized System for public comment. As soon as more explanatory notes become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. Section I Live Animals; Animal Products

Chapter 1: Live animals

Chapter 2: Meat and edible meat offal

Chapter 3: Fish and crustaceans, molluscs and other aquatic invertebrates

Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included

Chapter 5: Products of animal origin, not elsewhere specified or included

II. Section II Vegetable Products

Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage

Chapter 7: Edible vegetables and certain roots and tubers

Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits

Chapter 9: Coffee, tea, mate and spices

Chapter 10: Cereals

Chapter 11: Products of the milling industry; malt and starches; gluten; inulin

Chapter 12: Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder

Chapter 13: Lacs; gums, resins and other vegetable saps and extracts

Chapter 14: Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. Section III Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. Section IV Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Prepared animal feed; residues and waste from the food industries

Chapter 24: Tobacco and manufactured tobacco substitutes

V. SECTION V Mineral Products

Chapter 25: Salt; sulfur; earths and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, of rare-earth metals, of radio-active elements, or of isotopes

Chapter 29: Organic chemicals

Chapter 30: Pharmaceutical products

Chapter 31: Fertilizers

Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other coloring matter; paints and varnishes; putty and other mastics; inks

Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations

Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"

Chapter 35: Albuminoidal substances; glues; enzymes

Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations

Chapter 37: Photographic films and materials

Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

Chapter 39: Plastics and articles thereof

Chapter 40: Rubber and articles thereof

VIII. Section VIII Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)

Chapter 41: Raw hides and skins (other than furskins) and leather

Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)

Chapter 43: Furskins and artificial fur; manufactures thereof

IX. Section IX Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork

Chapter 44: Wood and articles of wood; wood charcoal

Chapter 45: Cork and articles of cork

Chapter 46: Manufactures of straw, of esparto, or of other plaiting materials; basketware and wickerwork

X. Section X Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof

Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard

Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard

Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans

XI. Section XI Textiles and Textile Articles

Chapter 50: Silk

Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Chapter 52: Cotton

Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn

Chapter 54: Man-made filaments

Chapter 55: Man-made staple fibers

Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof

Chapter 57: Carpets and other textile floor coverings

Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery

Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use

Chapter 60: Knitted or crocheted fabrics

Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted

Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted

Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

XII. <u>Section XII</u> Footwear, Headgear, Umbrellas, Sunshades, Walking-Sticks, Seat-Sticks, Whips, Riding Crops, and Parts Thereof; Prepared Feathers and Articles Made Therewith; Artificial Flowers; Articles of Human Hair

Chapter 64: Footwear, gaiters and the like; parts of such articles

Chapter 65: Headgear and Parts thereof

Chapter 66: Umbrellas, sun umbrellas, walking-sticks, seat-sticks, whips, riding-crops and parts thereof

Chapter 67: Prepared feathers and down and articles made of feathers or of down; artificial flowers; articles of human hair

XIII. Section XIII Articles of Stone, of Plaster, of Cement, of Asbestos, of Mica or of Similar Materials; Ceramic Products; Glass and Glassware

Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials

Chapter 69: Ceramic products

Chapter 70: Glass and glassware

XIV. Section XIV Natural or Cultured Pearls, Precious or Semi-Precious Stones, Precious Metals, Metals Clad With Precious Metals and Articles Thereof; Imitation Jewelery; Coin

Chapter 71: Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metals, and articles thereof; imitation jewelry; coin

XV. Section XV Base Metals and Articles of Base Metal

Chapter 72: Iron and steel

Chapter 73: Articles of iron or steel

Chapter 74: Copper and articles thereof

Chapter 75: Nickel and articles thereof

Chapter 76: Aluminum and articles thereof

Chapter 78: Lead and articles thereof

Chapter 79: Zinc and articles thereof

Chapter 80: Tin and articles thereof

Chapter 81: Other base metals; cermets; articles thereof

Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal; parts thereof

Chapter 83: Miscellaneous articles of base metal

XVI. Section XVI Machinery and Mechanical Appliances; Electrical and Electronic Equipment; Parts Thereof; Sound Recorders and Reproducers, Television Image and Sound Recorders and Reproducers, and Parts and Accessories of such Articles

Chapter 84: Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof

Chapter 85: Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles

XVII. Section XVII Vehicles, Aircraft, Vessels and Associated Transport Equipment

Chapter 86: Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds

Chapter 87: Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof

Chapter 88: Aircraft and parts thereof

Chapter 89: Ships, boats, and floating structures

XVIII. Section XVIII Optical, Photographic, Cinematographic, Measuring, Checking, Precision, Medical and Surgical Instruments and Apparatus; Clocks and Watches; Musical Instruments; Parts Thereof

Chapter 90: Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus; parts thereof

Chapter 91: Clocks and watches and parts thereof

Chapter 92: Musical instruments; parts and accessories of such articles

XIX. Section XIX Arms and Ammunition; Parts Thereof

Chapter 93: Arms and ammunition; parts thereof

XX.. Section XX Miscellaneous Manufactured Articles

Chapter 94: Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings

Chapter 95: Toys, games and sports requisites; parts thereof

Chapter 96: Miscellaneous manufactured articles

Chapter 97: Works of art, collectors' pieces, and antiques

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 6, 9 and 10 (currently 7, 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended by deleting electricity and vessels from the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Telecommunications transmissions have been added to rule 5 to explicitly exclude them from entry requirements. The abbreviations enumerated in rule 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the

draft chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Harmonized System", with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 7, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed

new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

General Legal Notes and General Rules of Interpretation		George Weise (202) 523-0363

1. Tariff Treatment of Imported Articles. All articles (including vessels and electricity) imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal notes 3 and 5.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note 6 of chapter 91 and except as provided in legal note , articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania	Laos
Bulgaria	Latvia
Cuba 2/	Lithuania
Czechoslovakia	Mongolia
Estonia	North Korea
German Democratic Republic	Union of Soviet Socialist Republic
Kampuchea	Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) executed securities and similar executed evidences of value, and

(d) telecommunications transmissions,

are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

7. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kW	-	kilowatts
¢	-	cents	kWh	-	kilowatt-hours
%	-	percent ad valorem	l	-	liters
+	-	plus	lin	-	linear

8. For the purposes of the tariff schedule, unless the context otherwise requires--
(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,
(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,
(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;
(d) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article includes a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance includes a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance includes a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory.

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable. Accessories imported with the principal article with which they normally belong shall be classified with that article.

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. Cases, boxes and similar containers imported with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets. Cases, boxes and similar containers which are not of a kind normally sold therewith as described above, or which are imported separately shall be classified under their appropriate headings.

6. Subject to rule 5, packings of articles shall be classified with the articles if they are of a kind normally used for packing such articles. Packings of articles which are not of a kind normally used for packing such articles shall be classified under their appropriate headings.
7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under heading 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

CHAPTER 36

EXPLOSIVES; PYROTECHNIC PRODUCTS; MATCHES; PYROPHORIC ALLOYS; CERTAIN COMBUSTIBLE PREPARATIONS

Legal Notes

1. This chapter does not cover separate chemically defined compounds other than those described in legal note 2(a) or (b) below.

2. The term "articles of combustible materials" in heading 3606 applies only to--

   (a) Metaldehyde, hexamethylenetetramine and similar substances, put up in forms (for example, tablets, sticks, or similar forms) for use as fuels; fuels with a basis of alcohol, and similar prepared fuels, in solid or semi-solid form;

   (b) Liquid or liquefied-gas fuels in containers of a kind used for filling or refilling cigarette or similar lighters, and of a capacity not exceeding 300 cm^3; and

   (c) Resin torches, firelighters and the like.

Additional U.S. Legal Notes

1. The dutiable weight of fireworks in subheading 3604.10 includes the weight of all coverings, packing material, and wrappings.

2. The importation of white phosphorus matches is prohibited.

CHAPTER 37

PHOTOGRAPHIC FILMS AND MATERIALS

Legal Notes

1. This chapter does not cover waste or scrap materials.

2. In this chapter the word "photographic" reletes to a process which permits the formation of visible images directly or indirectly by the action of light or other forms of radiation on sensitive surfaces.

Additional U.S. Legal Notes

1. This chapter does not cover--

   (a) Developed photographic paper, paperboard, or textiles (chapter 49 or section XI); and

   (b) Sound track film produced solely by processes other than photo-electric (e.g., by mechanical engraving or magnetic recording) (heading 8524).

2. Photographic film of heading 3704, 3705, or 3706 may be eligible for duty-free treatment (subheading 9801.00.50, 9801.00.60, 9802.00.20, 9808.00.10, 9809.00.40, 9810.00.05, 9810.00.30, 9819.00.05, or 9819.00.25) or admitted temporarily free of duty under bond (subheading 9813.00.25, 9813.00.30, or 9813.00.70).

3. Heading 3707 covers chemical products of a kind used directly in the production of photographic images (e.g., developers, fixers, toners, clearing agents, etc.) and does not cover auxiliary products for photographic uses (e.g., adhesives for mounting photographs, varnishes, retouching paints or dyes, etc.). It also does not cover products covered in headings 2843 to 2846, however put up and whatever their intended use.

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) November 26, 1982. The signed original and 19 copies of all written comments must be filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on November 1, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on October 25, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the office of the Secretary, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29 and 30, 1982. The final set of converted chapters will be published for hearing and public comment in January of 1983.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. On February 16, 1982 (47 F.R. 8108), April 14, 1982 (47 F.R. 17135) and June 30, 1982 (47 F.R. 29734) the Commission released draft explanatory notes for 64 of the chapters of the Harmonized System for public comment. As soon as more explanatory notes become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. <u>Section I</u> Live Animals; Animal Products

Chapter 1: Live animals

Chapter 2: Meat and edible meat offal

Chapter 3: Fish and crustaceans, molluscs and other aquatic invertebrates

Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included

Chapter 5: Products of animal origin, not elsewhere specified or included

II. <u>Section II</u> Vegetable Products

Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage

Chapter 7: Edible vegetables and certain roots and tubers

Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits

Chapter 9: Coffee, tea, mate and spices

Chapter 10: Cereals

Chapter 11: Products of the milling industry; malt and starches; gluten; inulin

Chapter 12: Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder

Chapter 13: Lacs; gums, resins and other vegetable saps and extracts

Chapter 14: Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. Section III Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. Section IV Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Prepared animal feed; residues and waste from the food industries

Chapter 24: Tobacco and manufactured tobacco substitutes

V. SECTION V Mineral Products

Chapter 25: Salt; sulfur; earths and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, of rare-earth metals, of radio-active elements, or of isotopes

Chapter 29: Organic chemicals

Chapter 30: Pharmaceutical products

Chapter 31: Fertilizers

Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other coloring matter; paints and varnishes; putty and other mastics; inks

Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations

Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"

Chapter 35: Albuminoidal substances; glues; enzymes

Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations

Chapter 37: Photographic films and materials

Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

Chapter 39: Plastics and articles thereof

Chapter 40: Rubber and articles thereof

VIII. Section VIII Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)

Chapter 41: Raw hides and skins (other than furskins) and leather

Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)

Chapter 43: Furskins and artificial fur; manufactures thereof

IX. Section IX Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork

Chapter 44: Wood and articles of wood; wood charcoal

Chapter 45: Cork and articles of cork

Chapter 46: Manufactures of straw, of esparto, or of other plaiting materials; basketware and wickerwork

X. Section X Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof

Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard

Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard

Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans

XI. Section XI Textiles and Textile Articles

Chapter 50: Silk

Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Chapter 52: Cotton

Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn

Chapter 54: Man-made filaments

Chapter 55: Man-made staple fibers

Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof

Chapter 57: Carpets and other textile floor coverings

Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery

Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use

Chapter 60: Knitted or crocheted fabrics

Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted

Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted

Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

XII. <u>Section XII</u> Footwear, Headgear, Umbrellas, Sunshades, Walking-Sticks, Seat-Sticks, Whips, Riding Crops, and Parts Thereof; Prepared Feathers and Articles Made Therewith; Artificial Flowers; Articles of Human Hair

Chapter 64: Footwear, gaiters and the like; parts of such articles

Chapter 65: Headgear and Parts thereof

Chapter 66: Umbrellas, sun umbrellas, walking-sticks, seat-sticks, whips, riding-crops and parts thereof

Chapter 67: Prepared feathers and down and articles made of feathers or of down; artificial flowers; articles of human hair

XIII. <u>Section XIII</u> Articles of Stone, of Plaster, of Cement, of Asbestos, of Mica or of Similar Materials; Ceramic Products; Glass and Glassware

Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials

Chapter 69: Ceramic products

Chapter 70: Glass and glassware

XIV. <u>Section XIV</u> Natural or Cultured Pearls, Precious or Semi-Precious Stones, Precious Metals, Metals Clad With Precious Metals and Articles Thereof; Imitation Jewelery; Coin

Chapter 71: Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metals, and articles thereof; imitation jewelry; coin

XV. <u>Section XV</u> Base Metals and Articles of Base Metal

Chapter 72: Iron and steel

Chapter 73: Articles of iron or steel

Chapter 74: Copper and articles thereof

Chapter 75: Nickel and articles thereof

Chapter 76: Aluminum and articles thereof

Chapter 78: Lead and articles thereof

Chapter 79: Zinc and articles thereof

Chapter 80: Tin and articles thereof

Chapter 81: Other base metals; cermets; articles thereof

Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal; parts thereof

Chapter 83: Miscellaneous articles of base metal

XVI. Section XVI Machinery and Mechanical Appliances; Electrical and Electronic Equipment; Parts Thereof; Sound Recorders and Reproducers, Television Image and Sound Recorders and Reproducers, and Parts and Accessories of such Articles

Chapter 84: Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof

Chapter 85: Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles

XVII. Section XVII Vehicles, Aircraft, Vessels and Associated Transport Equipment

Chapter 86: Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds

Chapter 87: Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof

Chapter 88: Aircraft and parts thereof

Chapter 89: Ships, boats, and floating structures

XVIII. Section XVIII Optical, Photographic, Cinematographic, Measuring, Checking, Precision, Medical and Surgical Instruments and Apparatus; Clocks and Watches; Musical Instruments; Parts Thereof

Chapter 90: Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus; parts thereof

Chapter 91: Clocks and watches and parts thereof

Chapter 92: Musical instruments; parts and accessories of such articles

XIX. Section XIX Arms and Ammunition; Parts Thereof

Chapter 93: Arms and ammunition; parts thereof

XX.. Section XX Miscellaneous Manufactured Articles

Chapter 94: Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings

Chapter 95: Toys, games and sports requisites; parts thereof

Chapter 96: Miscellaneous manufactured articles

Chapter 97: Works of art, collectors' pieces, and antiques

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 6, 9 and 10 (currently 7, 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended by deleting electricity and vessels from the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. The abbreviations enumerated in rule 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the draft chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Harmonized System", with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 7, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed

new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

General Legal Notes and General Rules of Interpretation		George Weise (202) 523-0363

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal note 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note ___ and except as provided in legal note ___, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania	Laos
Bulgaria	Latvia
Cuba 2/	Lithuania
Czechoslovakia	Mongolia
Estonia	North Korea
German Democratic Republic	Union of Soviet Socialist Republic
Kampuchea	Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) executed securities and similar executed evidences of value, and

(d) telecommunications transmissions,

are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

7. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kW	-	kilowatts
¢	-	cents	kWh	-	kilowatt-hours
%	-	percent ad valorem	l	-	liters
+	-	plus	lin	-	linear

kvar	-	kilovolt-amperes reactive	X	-	No unit of quantity

8. For the purposes of the tariff schedule, unless the context otherwise requires--

(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,

(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article includes a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance includes a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance includes a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory.

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable. Accessories imported with the principal article with which they normally belong shall be classified with that article.

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. Cases, boxes and similar containers imported with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets. Cases, boxes and similar containers which are not of a kind normally sold therewith as described above, or which are imported separately shall be classified under their appropriate headings.

6. Subject to rule 5, packings of articles shall be classified with the articles if they are of a kind normally used for packing such articles. Packings of articles which are not of a kind normally used for packing such articles shall be classified under their appropriate headings.

7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in kilograms for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the Tariff Act of 1930, as amended, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the Tariff Act of 1930, as amended; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedule of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit heading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under heading 0106.00.50 is "0106.00.5010".

(b) Wherever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the heading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.40".

4. Abbreviations. (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

SECTION XI

TEXTILES AND TEXTILE ARTICLES

Legal Notes

1. This section does not cover--

   (a) Animal brush making bristles or hair (heading 0502); horsehair or horsehair waste (heading 0503);

   (b) Human hair or articles of human hair (heading 0501, 6703, or 6704), except straining cloth of a kind commonly used in oil presses or the like (heading 5911);

   (c) Cotton linters and other vegetable materials of chapter 14;

   (d) Asbestos of heading 2524 or articles of asbestos and other products of heading 6813 or 6814;

   (e) Articles of heading 3005 or 3006 (for example, wadding, gauze, bandages and similar articles for medical or surgical purposes, sterile surgical suture materials);

   (f) Sensitized textiles of (headings 3701 to 3704);

   (g) Monofilament of which any cross-sectional dimension exceeds 1 mm and strip and the like of a width exceeding 5 mm, of plastics (chapter 39), or plaits or fabrics and other basketware and wickerwork of such monofilament or strip (chapter 46);

   (h) Woven, knitted or crocheted fabrics, felts or nonwovens, impregnated, coated, covered or laminated with plastics, and articles thereof, of chapter 39;

   (ij) Woven, knitted or crocheted fabrics, felts or nonwovens, impregnated, coated, covered or laminated with rubber, and articles thereof, of chapter 40;

   (k) Hides and skins with their hair or wool on (chapter 41 or 43) or articles of furskin, artificial fur or articles thereof, of heading 4303 or 4304;

   (l) Articles of textile materials of heading 4201 or 4202;

   (m) Products and articles of chapter 48 (for example, cellulose wadding);

   (n) Footwear or parts of footwear, gaiters or leggings or similar articles of chapter 64;

   (o) Hair nets and other headgear or parts thereof of chapter 65;

   (p) Articles of chapter 67;

   (q) Abrasive-coated textile material (heading 6805);

   (r) Glass fibers or articles of glass fibers, other than embroidery with glass thread on a visible ground of fabric (chapter 70);

   (s) Articles of chapter 94 (for example, furniture, bedding, lamps and lighting fittings); or

   (t) Articles of chapter 97 (for example, toys, games and sports requisites and nets).

2. (A) Articles classifiable in chapters 50 to 55 or in heading 5605 or 5809 and of a mixture of two or more textile materials are to be classified as if consisting wholly of that one textile material which predominates by weight over any other single textile material.

   (B) For the purposes of the above rule:

      (a) Gimped horsehair yarn (heading 5110) and metallised yarn (heading 5605) are to be treated as a single textile material where weight is to be taken as the aggregate of the weight of its components; for the classification of woven fabrics, metal thread is to be regarded as a textile material;

      (b) The choice of appropriate heading shall be effected by determining <u>first</u> the chapter and <u>then</u> the applicable heading within that chapter disregarding any materials not classified in that chapter;

      (c) When both chapters 54 and 55 are involved with any other chapter, chapters 54 and 55 are to be treated as a single chapter;

      (d) Where a chapter or a heading refers to articles of different textile materials, such materials are to be treated as a single textile material.

   (C) The provisions of paragraphs (A) and (B) above are to be applied also to the yarns referred to in legal notes 3, 4, 5, and 6 below.

3. (A) For the purposes of this section, and subject to the exceptions in paragraph (B) below, yarns (single, multiple (folded) or cabled) of the following descriptions are to be treated as "twine, cordage, ropes and cables":

(a) Of silk, or waste silk, measuring more than 20,000 decitex;

(b) Of man-made fibers (including yarn of two or more monofilaments of chapter 54), measuring more than 10,000 decitex;

(c) Of true hemp or flax:

(i) Polished or glazed, measuring 1,429 decitex or more;

(ii) Not polished or glazed, measuring more than 20,000 decitex;

(d) Of coir, consisting of three or more plies;

(e) Of other vegetable fibers, measuring more than 20,000 decitex; or

(f) Reinforced with metal thread.

(B) Exceptions:

(a) Yarn of wool or other animal hair and paper yarn, other than yarn reinforced with metal thread;

(b) Man-made filament tow of chapter 55 and multifilament yarn without twist or with a twist of less than 5 turns per meter of chapter 54;

(c) Silk worm gut of heading 5006, and monofilament of chapter 54;

(d) Metallised yarn of heading 5605; yarn reinforced with metal thread is subject to paragraph (A) (f) above; and

(e) Chenille yarn, gimped yarn, and loop wale-yarn of heading 5606.

4. (A) For the purposes of chapters 50, 51, 52, 54, and 55, the expression "put up for retail sale" in relation to yarn means, subject to the exceptions in paragraph (B) below, yarn put up:

(a) In balls or on cards, reels, tubes or similar supports, of a weight (including support) not exceeding:

(i) 85 g in the case of silk, waste silk, or man-made filaments; or

(ii) 125 g in other cases;

(b) In hanks or skeins of a weight not exceeding:

(i) 85 g in the case of silk, waste silk, or man-made filaments; or

(ii) 125 g in other cases;

(c) In hanks or skeins comprising several smaller hanks or skeins separated by dividing threads which render them independent one of the other, each of uniform weight not exceeding:

(i) 85 g in the case of silk, waste silk, or man-made filaments; or

(ii) 125 g in other cases.

(B) Exceptions:

(a) Single yarn of any textile material, other than:

(i) Single yarn of wool or of fine animal hair, unbleached; and

(ii) Single yarn of wool or of fine animal hair, bleached, dyed or printed, measuring more than 5,000 decitex;

(b) Multiple (folded) or cabled yarn, unbleached:

(i) Of silk or waste silk, however put up; or

(ii) Of other textile material except wool or fine animal hair, in hanks or skeins;

(c) Multiple (folded) or cabled yarn of silk or waste silk, bleached, dyed or printed, measuring 133 decitex or less; and

(d) Single, multiple (folded) or cabled yarn of any textile material:

(i) In cross-reeled hanks or skeins; or

(ii) Put up on supports or in some other manner indicating its use in the textile industry (for example, on cops, twisting mill tubes, pirns, conical bobbins or spindles, or reeled in the form of cocoons for embroidery looms).

5. For the purposes of headings 5204, 5401, and 5508, the expression "sewing thread" means multiple (folded) or cabled yarn:

(a) Put up on supports (for example, reels, tubes) of a weight (including support) not exceeding 1,000 g;

(b) Dressed; and

(c) With a final "Z" twist.

6. For the purposes of this section, the expression "high tenacity yarn" means yarn having a tenacity , expressed in cN/tex (centinewtons per tex), greater than the following:

Single yarn of nylon or other polyamides, or of polyesters....................60 cN/tex

Multiple (folded) or cabled yarn of nylon or other polyamides, or of polyesters...53 cN/tex

Single, multiple (folded) or cabled yarn of viscose rayon.....................27 cN/tex

7. For the purposes of this section, the expression "made up" means:

(a) Cut otherwise than into rectangles (including squares);

(b) Made, finished and ready for use (or merely needing separation by cutting dividing threads) and not requiring sewing or further fabrication (for example, certain dusters, towels, table cloths, scarf squares, and blankets);

(c) Hemmed or with rolled edges (except woven fabrics in the piece which have been cut from wider pieces and hemmed or rolled merely to prevent unravelling), or with a knotted fringe at any of the edges;

(d) Cut to size and having undergone a process of drawn thread work; and

(e) Assembled by sewing, gumming or otherwise (other than piece goods consisting of two or more lengths of identical material joined end to end and piece goods composed of two or more textiles assembled in layers, whether or not padded).

8. The headings of chapters 50 to 55 and, except where the context otherwise requires, the headings of chapters 56 to 60, do not apply to articles made up within the meaning of legal note 7 above. Chapters 50 to 55 do not apply to articles of chapters 56 to 59.

9. The woven fabrics of chapters 50 to 55 include fabrics consisting of layers of parallel textile yarns superimposed on each other at acute or right angles. These layers are bonded at the intersections of the yarns by an adhesive or by thermal bonding.

10. Textile products combined with rubber threads are classified in this section.

11. For the purposes of this section the expression "polyamides" includes "aramides".

12. In this section and, where applicable, throughout the tariff schedule the following expressions have the meanings hereby assigned to them :

(a) Elastomeric yarn

Filament yarn, including monofilament, of synthetic textile material, other than textured yarn, which does not break on being extended to three times its original length and which returns, after being extended to twice its original length, within a period of five minutes, to a length not greater than one and a half times its original length.

(b) Unbleached yarn

Yarn which :

(i) Has the natural color of its constituent fibers and has not been bleached, dyed (whether or not in the mass) or printed; or

(ii) Is of indeterminate color ("grey yarn"), manufactured from garnetted stock.

Such yarn may have been treated with a colorless dressing or fugitive dye (which disappears after simple washing with soap) and, in the case of man-made fibers, treated in the mass with deluster agents (for example, titanium dioxide).

(c) Bleached yarn

Yarn which :

(i) Has under gone a bleaching process, is made of bleached fibers or, unless the context otherwise requires, has been dyed white (whether or not in the mass) or treated with a white dressing;

(ii) Consists of a mixture of unbleached and bleached fibers; or

(iii) Is multiple or cabled and consists of unbleached and bleached yarns.

(d) Colored (dyed or printed) yarn

Yarn which :

(i) Is dyed (whether or not in the mass) other than white or in a fugitive color or printed, or made from dyed or printed fibers;

(ii) Consists of a mixture of fibers of different colors or of a mixture of unbleached or bleached fibers with colored fibers (marl or mixture yarns), or is printed in one or more color at intervals to give the impression of dots;

(iii) Is obtained from slivers or roving which have been printed; or

(iv) Is multiple or cabled and consists of unbleached or bleached yarn and colored yarn.

The above definitions also apply, <u>mutatis mutandis</u>, to monofilament and to strip or the like of chapter 54.

(e) <u>Unbleached woven fabrics</u>

Woven fabric made from unbleached yarn and which has not been bleched, dyed or printed. Such fabric may have been treated with a colorless dressing or a fugitive dye.

(f) <u>Bleached woven fabric</u>

Woven fabric which :

(i) Has bleached or, unless the context otherwise requires, dyed white or treated with a white dressing, in the piece;

(ii) Consists of bleached yarn; or

(iii) Consists of unbleached and bleached yarn.

(g) <u>Dyed woven fabric</u>

Woven fabric which :

(i) is dyed a single uniform color other than white (unless the context otherwise requires) or has been treated with a colored finish other than white (unless the context otherwise requires), in the piece; or

(ii) consists of colored yarns of a single uniform color.

(h) <u>Woven fabrics of yarns of different colors</u>

Woven fabric (other than printed woven fabric) which :

(i) consists of yarns of different colors or yarns of different shades of the same color (other than the natural color of the constituent fibers);

(ii) consists of unbleached or bleached yarn and colored yarn; or

(iii) consists of marl or mixture yarns.

(In all cases, the yarn used in selvedges and piece ends is not taken into consideration.)

(ij) <u>Printed woven fabric</u>

Woven fabric which has been printed in the piece, whether or not made from yarns of different colors.

(The following are also regarded as printed woven fabrics : woven fabrics bearing designs made, for example, which a brush or spray gun, by means of transfer paper, by flocking or by the batik process.)

The process of mercerization does not affect the classification of yarns or fabrics within the above categories.

(k) <u>Plain weave</u>

A fabric construction in which each yarn of the filling passes alternately over and under successive yarns of the warp and each yarn of the warp passes alternately over and under successive yarns of the weft.

13. (A) Products of chapters 56 to 63 containing two or more textile materials are to be regarded as consisting wholly of that textile material which would be selected under legal note 2 to this section for the classification of a product of chapters 50 to 55 consisting of the same textile materials.

(B) For the application of this rule :

(a) Where appropriate, only the part which determines the classification under general interpretative rule 3 shall be taken into account;

(b) In the the case of textile products consisting of a ground fabric and a pile or looped surface no account shall be taken of the ground fabric :

(c) In the case of embroidery of heading 5810 only the ground fabric shall be taken into account. However, embroidery without visible ground shall be classified with reference to the embroidering threads alone.

Additional U. S. Legal Notes

1. The term "Certified hand-loomed and folklore" as used with respect to products provided for in this section, refers to such products as have been certified, in accordance with procedures established by the United States Trade Representative pursuant to international understandings, by an official of a government agency of the country where the products were produced, to have been so made.

2. The term "garnetted stock" as used in this section includes waste fibers from picking and similar processes.

3. The term "decitex", as used in this section, means the number of grams per 10,000 meters of yarn. To determine the decitex measurement of yarn, on a single yarn basis, the actual grams per 10,000 meters shall be divided by the number of plies in such yarn.

Note Concerning the Removal of the Tariff Distinction
Based on Ornamentation in chapters 61-63.

In order to comply with our mandate of tariff simplification and to satisfy a specific request by the U.S. Customs Service, our draft of chapters 61 to 63 proposes to eliminate the tariff distinction based on ornamentation. This would result in a substantial reduction in the number of tariff provisions in these chapters and should lessen the administrative burden on the U.S. Customs Service.

We have attempted to maintain existing levels of tariff protection by combining existing ornamented and nonornamented tariff provisions into single provisions with new calculated rates of duty. These rates were calculated on the basis of trade weighted averages whenever feasible and on the preponderance of the trade in other cases. Both of these methods of duty calculation are explained in the " Explanation of Tariff Conversion" in the first part of this volume.

CHAPTER 61

ARTICLES OF APPAREL AND CLOTHING ACCESSORIES, KNITTED OR CROCHETED

Legal Notes

1. The headings of this chapter are to be taken to apply only to made up knitted or crocheted articles.

2. This chapter does not cover:

   (a) Knitted or crocheted goods of chapter 59;

   (b) Brassieres, girdles, corsets, braces, suspenders, garters and similar articles (heading 6212);

   (c) Knitted or crocheted goods of chapter 63;

   (d) Orthopedic appliances, surgical belts, trusses or the like (heading 9021).

3. For the purposes of heading 6111--

   (a) The expression "Babies' garments and clothing accessories" means articles for young children of a body height not exceeding 86 cm; it also covers babies' diapers;

   (b) Articles which are, prima facie, classifiable both in heading 6111 and in other headings of this chapter are to be classified in heading 6111.

4. Garments which are, prima facie, classifiable both in heading 6113 and in other headings of this chapter, excluding heading 6111, are to be classified in heading 6113.

5. Subject to legal note 1, parts of the articles falling in headings 6101-6117 are to be classified in heading 6117.

6. Articles of this chapter may be made of metal thread.

7. For the purposes of this chapter "suits" shall be considered to be sets of garments, whether or not a waistcoat is included, comprising--

   (a) one of the following garments covering the lower part of the body:

   -- trousers,

   -- shorts,

   -- skirts,

   -- divided skirts, and

   (b) a jacket or blazer, not extending below the mid-thigh area and not designed to be worn over another coat or jacket; having a full front opening without a closure or with a closure other than a zipper; and the outer shell of which exclusive of sleeves, facings and yoke (if any), consists of four or more panels (front and back) sewn together.

   All the components of a suit must be of the same fabric construction, style, color and textile fiber.

   The following garment sets are also to be considered suits:

   -- morning suits, consisting of a cutaway jacket with tails hanging well down at the back, and striped trousers;

   -- evening dress (tailcoat) suits, generally made of black cloth and whose jacket is relatively short at the front, does not close, and has narrow skirts cut at the hips and hanging down behind;

   -- dinner jacket suits in which the jacket is similar in style to an ordinary jacket (though perhaps revealing more of the shirt front) but may have lapels of different fabrics and coordinated but not matching trousers.

8. For purposes of this chapter, the term "warm-up and jogging suits" are two-piece knitted garments, unlined but sometimes with a raised inner surface (i.e., nap) which because of their general appearance and the nature of the material are clearly meant to be worn exclusively or mainly in the pursuit of athletic activities:

   (a) the upper garment is intended to cover the body down to or slightly below the waist:

   -- with or without ribbed or elastic drawstring at the waist,

   -- with long sleeves,

   -- with cuffs having ribbed or elastic bands, zippers or other tightening facilities,

   -- with or without hood,

   -- with or without pockets,

   -- without opening, or else partially or completely open at the front but in this case to be fastened solely by means of a zipper,

   -- with or without collar.

(b) trousers:

-- normally extending down to the ankles,

-- fitted or loose,

-- with an elastic waistband,

-- without opening and hence without buttons or other means of fastening except at the ankles which can have ribbed or elastic bands, zippers or other tightening facilities,

-- with or without pockets,

-- with or without footstraps.

9. For the purposes of headings 6103 and 6104, "ensembles" means sets of garments, not complying fully with the definition of suits, consisting of one article dsigned to cover all or part of the upper part of the body and one article designed to cover all or part of the lower part of the body.

The garments designed to cover the upper part of the body may consist of:

-- anoraks, wind-breakers, suit-type jackets, blazers, shirts, blouses, waistcoats (vests), sweaters (including cardigans), pullovers, tunics and other garments of heading 6114.

However, for the purposes of this definition, a cardigan and a matching sweater or pullover are considered as one article.

The garments designed to cover the lower part of the body may consist of:

-- trousers, breeches, shorts (other than swimwear), skirts, divided skirts.

The components of an ensemble must be imported together in a retail package and must be of identical fabrics, construction [style], color, pattern, if any, and standard of finish. They must be of corresponding sizes and intended to be worn together by the same person.

Ensembles, as defined above, do not include the following garments:

-- pajamas (headings 6107 and 6108);

-- warm-up and jogging suits and swimwear (heading 6112);

-- babies garments (heading 6111);

-- ski-suits (heading 6112);

-- sets of undergarments (e.g., singlets and underpants).

10. For the purpose of heading 6105 the term "men's or boys' shirts" means garments of the kind which have, inter alia, a collar whether or not detachable, long or short sleeves, are buttoned (fastened) in front whether or not throughout, left over right, with or without pockets, but only above the waist.

Articles similar in construction to the shirts described above and having a collar and/or buttoning or any other fastening system, left over right, are also regarded as men's or boys' shirts.

11. For the purposes of heading 6109, the term "T-shirts" means lightweight garments, of cotton or man-made fiber, in one or more colors, with or without pockets, with long or short close-fitting sleeves, without buttons or other fastenings, without collar, without opening in the neckline, having a close-fitting or lower neckline (round, square, boat-shaped or V-shaped). These garments may have decoration, other than lace, in the form of advertising, pictures or an inscription in words, obtained by printing, knitting or other process. The bottom of these garments, usually hemmed, shall have neither a ribbed waistband nor tightening facility.

12. For the purposes of this chapter the term "divided skirts" means garments with individual leg openings constructed in such a manner that they give the appearance of a skirt with regard to silhouette and fullness.

Additional U.S. Legal Notes

1. The fabrics (such as wool, man-made fibers and cotton) as used in the article descriptions in this chapter, have the same meanings as provided in chapters 50 to 55.

2. Except for "suits", "warm-up and jogging suits", and "ensembles" meeting the requirements set forth in legal notes 7, 8 and 9, respectively and "sets" as defined below, all articles of apparel are to be separately classified under their appropriate tariff provision, even if 2 or more such articles are imported together and designed to be sold together at retail.

3. For the purpose of heading 6111, the term "sets" means two or more different garments of heading 6111 imported together in a retail package and of identical yarn, fabric construction, color, and pattern (if any).

4. The term "suit-type jackets", means those jackets the outer shell of which, exclusive of sleeves, consists of 3 or more panels sewn together, but which otherwise conforms to the criteria for suit jackts in legal note 7. The term does not, however, include anoraks, ski-jackets, wind-breakers and similar jackets of headings 6101 or 6102.

Statistical Notes

1. Merchandise imported together and classified for customs purposes as an ensemble, under tariff items 6103.2120, 6103.2220, 6103.2300, 6103.2910, 6104.2120, 6104.2220, 6104.2300 or 6104.2910, or as a warm-up or jogging suit, under items 6112.1100, 6112.1200 or 6112.1900, shall be reported statistically as separate articles under the most appropriate 10-digit reporting number within the same 8-digit tariff item which provides for the ensemble or warm-up or jogging suit.

2. The term "tops" means textile garments, such as midriffs, boleros or halters, which are designed to be worn on the upper part of the body but which do not extend to the waist.

ARTICLES OF APPAREL AND CLOTHING ACCESSORIES, NOT KNITTED OR CROCHETED

Legal Notes

1. The headings of this chapter apply only to made up articles of any textile fabric, excluding knitted or crocheted articles other than those of heading 6212.

2. This chapter does not cover:

   (a) Worn clothing or other worn articles of heading 6309;

   (b) Orthopedic appliances, surgical belts, trusses or the like (heading 9021).

3. For the purposes of heading 6209:

   (a) The expression "Babies' garments and clothing accessories" means articles for young children of a body height not exceeding 86 cm; it also covers babies' diapers;

   (b) Articles which are, prima facie, classifiable both in heading 6209 and in other headings of this chapter are to be classified in heading 6209.

4. Garments which are, prima facie, classifiable both in heading 6210 and in other headings of this chapter, excluding heading 6209, are to be classified in heading 6210.

5. Scarves and articles of the scarf type, square or approximately square, of which no side exceeds 60 cm, are to be classified as handkerchiefs (heading 6213). Handkerchiefs of which any side exceeds 60 cm are to be classified in heading 6214.

6. Subject to legal note 1, parts of the articles falling in headings 6201-6216 are to be classified in heading 6217.

   Heading 6212 also includes articles and parts thereof knitted or crocheted to shape for making articles classified in that heading, whether or not presented in the form of a number of items in the length.

7. Articles of this chapter may be made of metal thread.

8. For the purposes of this chapter "suits" shall be considered to be sets of garments whether or not a waistcoat (vest) is included, comprising--

   (a) one of the following garments covering the lower part of the body:

   -- trousers,

   -- shorts,

   -- skirts,

   -- divided skirts, and

   (b) a jacket or blazer,not extending below the mid-thigh area and not designed to be worn over another coat or jacket; having a full front opening without a closure or with a closure other than a zipper; and the outershell of which exclusive of sleeves, facings and yoke (if any), consists of four or more panels (front and back) sewn together.

   All the components of a suit must be of the same fabric construction, style, color, and textile fiber.

   The following garment sets are also to be considered suits:

   -- Morning suits, consisting of a cutaway jacket with tails hanging well down at the back, and striped trousers;

   -- Evening dress (tailcoat) suits, generally made of black cloth and whose jacket is relatively short at the front, does not close, and has narrow skirts cut at the hips and hanging down behind;

   -- Dinner jacket suits in which the jacket is similar in style to an ordinary jacket (though perhaps revealing more of the shirt front) but may have lapels of different fabrics and coordinated but not matching trousers.

9. For the purposes of headings 6203 and 6204, "ensembles" means sets of garments, not complying fully with the definition of suits, consisting of one article designed to cover all or part of the upper part of the body and one article designed to cover all or part of the lower part of the body.

   The garments designed to cover the upper part of the body may consist of:

   -- anoraks, wind-breakers, suit-type jackets, blazers, shirts, blouses, waistcoats (vests), tunics and other garments of heading 6211.

   The garments designed to cover the lower part of the body may consist of:

   -- trousers, breeches, shorts (other than swimwear), skirts, divided skirts.

The components of an ensemble must be imported together in a retail package and must be of identical fabric, construction [style], color, pattern, if any, and standard of finish. They must be of corresponding sizes and intended to be worn together by the same person.

Ensembles, as defined above, do not include the following garments.

-- pajamas (headings 6207 and 6208);

-- track suits and swimwear (heading 6211);

-- babies' garments (heading 6209);

-- ski-suits [winter sport suits] (heading 6211).

-- sets of undergarments (e.g., singlets and underpants).

10. For the purposes of heading 6205 the term "men's or boys' shirts" means garments of the kind which have, inter alia, a collar whether or not detachable, long or short sleeves, are buttoned (fastened) in front whether or not throughout, left over right, with or without pockets, but only above the waist.

    Articles similar in construction to the shirts described above and having a collar and/or buttoning or any other fastening system, left over right, are also regarded as men's or boys' shirts.

11. For the purposes of this chapter the term "divided skirts" means garments with individual leg openings constructed in such a manner that they give the appearance of a skirt with regard to silhouette and fullness.

Additional U.S. Legal Notes

1. The fabrics (such as wool, man-made fibers, and cotton) as used in the article descriptions in this chapter, have the same meanings as provided in Chapter 50 to 55.

2. Except for "suits" and "ensembles" meeting the requirements set forth in legal notes 8 and 9, respectively, and "sets" as defined below, all articles of apparel are to be separately classified under their appropriate tariff provisions, even if two or more such articles are imported together and designed to be sold together at retail.

3. For the purpose of heading 6209, the term "sets" means two or more different garments of heading 6209 imported together in a retail package and of identical yarn, fabric construction, color, and pattern (if any).

4. The term "suit-type jackets", means those jackets the outer shell of which, exclusive of sleeves and facings, consists of three or more panels sewn together, but which otherwise conform to the criteria for suit jackets in legal note 7. The term does not, however, include anoraks, ski jackets, wind-breakers and similar jackets of headings 6201 or 6202.

Statistical Note

1. For the purposes of headings 6203.21.20, 6203.22.30, 6203.23.20, 6204.21.20, 6204.22.30, and 6204.23.10, merchandise imported together and classified for customs purposes as an ensemble, shall be reported statistically as separate articles and reported under the most appropriate 10-digit heading number within the same 8-digit tariff item which provides for the ensemble.

SUMMARY: The United States International Trade Commission (hereinafter "the Commission") has completed a draft of the above chapters of the TSUS converted into the nomenclature structure of the Harmonized System, with proposed rates of duty. This notice announces the scheduling of a public hearing on these converted chapters and requests public comment on the draft conversion, including the proposed rates of duty.

WRITTEN SUBMISSIONS: Persons wishing to submit written comments with respect to one or more of the chapters should do so at the earliest possible date, but no later than the close of business (5:15 p.m.) November 26, 1982. The signed original and 19 copies of all written comments must be filed with the Secretary of the Commission at his office in Washington, D.C. and should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Any person desiring confidential treatment as to commercial or financial information must submit that information on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules (19 CFR 201.6). All nonconfidential written submissions will be made available to interested persons.

HEARING: Public hearings on the draft converted chapters will begin on November 1, 1982, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street, N.W., Washington, D.C. at 10 a.m. Requests for appearances at the hearing, including the name and address of any witness who will testify and the industry or organization, if any, which the witness represents, should be filed in writing with the Secretary of the Commission no later than the close of business on October 25, 1982. Requests should indicate the chapter or heading upon which the witness will express views and a brief indication of any position to be taken. Parties with a common interest in a chapter are encouraged to consolidate their oral presentations. For further information on hearing procedures and rules of general application consult the Commission's Rules, part 201 (19 CFR 201).

COPIES OF DOCUMENTS: Copies of the chapters which are the subject of this notice are available for public inspection at the office of the Secretary, 701 E Street, NW., Washington, DC 20436. The Secretary will also send copies of chapters to interested parties upon request; telephone (202) 523-5178.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene A. Rosengarden, Director, or Mr. Holm Kappler, Deputy Director, Office of Tariff Affairs, U.S. International Trade Commission, 701 E Street, NW., Washington, DC 20436; telephone (202) 523-0370 or 0362.

SUPPLEMENTARY INFORMATION: In its public notices of February 8, 1980 (45 F.R. 9828 of February 13, 1980), March 21, 1980 (45 F.R. 19696 of March 26, 1980), August 15, 1980 (45 F.R. 55549 of August 20, 1980), June 24, 1981 (46 F.R. 34439 of July 1, 1981) and July 17, 1981 (46 F.R. 37824 of July 22, 1981) the Commission identified the 96 chapters of the Harmonized System for which texts had been provisionally adopted by the Harmonized System and the Nomenclature committees of the Customs Cooperation Council. Views and comments of interested parties with respect to the 96 chapters were sought, and the structure and technical development of the Harmonized System were described.

In reponse to a request dated August 24, 1981, by the President of the United States, the Commission instituted an investigation under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) in order to prepare a basic draft converting the Tariff Schedules of the United States into the nomenclature structure of the Harmonized System. The President directed that the Commission's report, including the converted U.S. tariff schedule, be submitted no later than June 30, 1983. Guidelines for the conversion set by the President were set forth in the Commission's notice of the institution of investigation of September 16, 1981 (46 F.R. 47897 of September 30, 1981). The Commission published the first set of converted chapters for hearing and public comment on January 29, 1982 (47 F.R. 5369 of February 4, 1982). Hearings were held on those chapters on March 29 and 30, 1982. The final set of converted chapters will be published for hearing and public comment in January of 1983.

Currently the Customs Cooperation Council is preparing draft explanatory notes to the chapters of the Harmonized System. On February 16, 1982 (47 F.R. 8108), April 14, 1982 (47 F.R. 17135) and June 30, 1982 (47 F.R. 29734) the Commission released draft explanatory notes for 64 of the chapters of the Harmonized System for public comment. As soon as more explanatory notes become available the Commission will release them for public comment. Explanatory notes for all chapters of the Harmonized System are scheduled to be released for comment before the Commission submits the converted tariff schedule to the President in June of 1983.

In preparing the converted U.S. tariff schedules, the Commission is seeking and taking into consideration the views of any interested person, of any trade or industry organization and of interested government agencies. Submissions should be directed at evaluating the draft conversion in light of the President's guidelines, in particular whether the conversion--

(a) avoids, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplifies the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviates administrative burdens on the Customs Service.

The Commission will utilize the post-MTN rates of duty on individual products when analyzing impacts of any proposed changes.

Submissions should also address the probable effect of U.S. adoption of the converted tariff schedules on U.S. industries, workers, and trade. Submissions aimed primarily at seeking increases or reductions in existing tariff rates are not relevant and will not be entertained by the Commission.

By order of the Commission.

INTRODUCTION

The Harmonized Commodity Description and Coding System (Harmonized System) is a commodity classification system being developed under the auspices of the Customs Cooperation Council. The system comprises a "core" product nomenclature, based upon the Customs Cooperation Council Nomenclature, which could serve as the basis for customs tariffs and the foreign-trade statistical systems of the United States and its trading partners. 1/

The Harmonized System comprises approximately 5,000 article descriptions arranged in headings and subheadings and organized into 96 chapters, which are themselves grouped in 20 sections. The legal text of the Harmonized System consists of --

(1) The Rules for the Interpretation of the Harmonized System,

(2) The legal notes to the sections and chapters, and

(3) The headings and subheadings of the Harmonized System.

In addition, the nonlegal Explanatory Notes and Classification Opinions will complement the Harmonized System.

The headings and associated subheadings in the Harmonized System are identified by a six-digit number, of which the first two digits represent the chapter in which the heading appears, the second two indicate its position in that chapter, and the third two code any subdivisions of the heading.

This system is capable of being further subdivided for national tariff or statistical purposes. Two additional sets of two digits each have been added to the six-digit Harmonized System codes for these purposes, thereby resulting in a proposed tariff reporting number of ten digits.

1/ For a more detailed description of the Harmonized System, see Interim Report on the Harmonized Commodity Description and Coding System, USITC Publication 1106, dated November 1980.

The titles of the sections and chapters of the Harmonized System are listed below.

CHAPTERS OF THE HARMONIZED SYSTEM

I. Section I Live Animals; Animal Products

Chapter 1: Live animals

Chapter 2: Meat and edible meat offal

Chapter 3: Fish and crustaceans, molluscs and other aquatic invertebrates

Chapter 4: Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included

Chapter 5: Products of animal origin, not elsewhere specified or included

II. Section II Vegetable Products

Chapter 6: Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage

Chapter 7: Edible vegetables and certain roots and tubers

Chapter 8: Edible fruit and nuts; peel of melons or citrus fruits

Chapter 9: Coffee, tea, mate and spices

Chapter 10: Cereals

Chapter 11: Products of the milling industry; malt and starches; gluten; inulin

Chapter 12: Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial and medical plants; straw and fodder

Chapter 13: Lacs; gums, resins and other vegetable saps and extracts

Chapter 14: Vegetable plaiting materials; vegetable products not elsewhere specified or included

III. Section III Animal and Vegetable Fats and Oils and Their Cleavage Products; Prepared Edible Fats; Animal and Vegetable Waxes

Chapter 15: Animal and vegetable fats and oils and their cleavage products; prepared edible fats; animal and vegetable waxes

IV. Section IV Prepared Foodstuffs; Beverages, Spirits and Vinegar; Tobacco and Manufactured Tobacco Substitutes

Chapter 16: Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates

Chapter 17: Sugars and sugar confectionery

Chapter 18: Cocoa and cocoa preparations

Chapter 19: Preparations of cereals, flour or starch; pastrycooks' products

Chapter 20: Preparations of vegetables, fruit, nuts, or other parts of plants

Chapter 21: Miscellaneous edible preparations

Chapter 22: Beverages, spirits and vinegar

Chapter 23: Prepared animal feed; residues and waste from the food industries

Chapter 24: Tobacco and manufactured tobacco substitutes

V. SECTION V Mineral Products

Chapter 25: Salt; sulfur; earths and stone; plastering materials; lime and cement

Chapter 26: Ores, slag and ash

Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

VI. Section VI Products of the Chemical or Allied Industries

Chapter 28: Inorganic chemicals; organic and inorganic compounds of precious metals, of rare-earth metals, of radio-active elements, or of isotopes

Chapter 29: Organic chemicals

Chapter 30: Pharmaceutical products

Chapter 31: Fertilizers

Chapter 32: Tanning or dyeing extracts; tannings and their derivatives; dyes, pigments and other coloring matter; paints and varnishes; putty and other mastics; inks

Chapter 33: Essential oils and resinoids; perfumery, cosmetics and toilet preparations

Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"

Chapter 35: Albuminoidal substances; glues; enzymes

Chapter 36: Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations

Chapter 37: Photographic films and materials

Chapter 38: Miscellaneous chemical products

VII. Section VII Plastics and Articles Thereof; Rubber and Articles Thereof

Chapter 39: Plastics and articles thereof

Chapter 40: Rubber and articles thereof

VIII. <u>Section VIII</u> Raw Hides and Skins, Leather, Furskins and Articles Thereof; Saddlery and Harness; Travel Goods, Handbags and Similar Containers; Articles of Animal Gut (Other Than Silk-Worm Gut)

Chapter 41: Raw hides and skins (other than furskins) and leather

Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worm gut)

Chapter 43: Furskins and artificial fur; manufactures thereof

IX. <u>Section IX</u> Wood and Articles of Wood; Wood Charcoal; Cork and Articles of Cork; Manufactures of Straw, of Esparto or of Other Plaiting Materials; Basketware and Wickerwork

Chapter 44: Wood and articles of wood; wood charcoal

Chapter 45: Cork and articles of cork

Chapter 46: Manufactures of straw, of esparto, or of other plaiting materials; basketware and wickerwork

X. <u>Section X</u> Pulp of Wood or of Other Fibrous Cellulosic Material; Waste and Scrap of Paper or Paperboard; Paper and Paperboard and Articles Thereof

Chapter 47: Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard

Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard

Chapter 49: Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans

XI. <u>Section XI</u> Textiles and Textile Articles

Chapter 50: Silk

Chapter 51: Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Chapter 52: Cotton

Chapter 53: Other vegetable textile fibers; paper yarn and woven fabrics of paper yarn

Chapter 54: Man-made filaments

Chapter 55: Man-made staple fibers

Chapter 56: Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof

Chapter 57: Carpets and other textile floor coverings

Chapter 58: Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery

Chapter 59: Impregnated, coated, covered or laminated textile fabrics; elastic textile fabrics; textile articles of a kind suitable for industrial use

Chapter 60: Knitted or crocheted fabrics

Chapter 61: Articles of apparel and clothing accessories, knitted or crocheted

Chapter 62: Articles of apparel and clothing accessories, not knitted or crocheted

Chapter 63: Other made up textile articles; sets; worn clothing and worn textile articles; rags

XII. Section XII Footwear, Headgear, Umbrellas, Sunshades, Walking-Sticks, Seat-Sticks, Whips, Riding Crops, and Parts Thereof; Prepared Feathers and Articles Made Therewith; Artificial Flowers; Articles of Human Hair

Chapter 64: Footwear, gaiters and the like; parts of such articles

Chapter 65: Headgear and Parts thereof

Chapter 66: Umbrellas, sun umbrellas, walking-sticks, seat-sticks, whips, riding-crops and parts thereof

Chapter 67: Prepared feathers and down and articles made of feathers or of down; artificial flowers; articles of human hair

XIII. <u>Section XIII</u> Articles of Stone, of Plaster, of Cement, of Asbestos, of Mica or of Similar Materials; Ceramic Products; Glass and Glassware

Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica, and of similar materials

Chapter 69: Ceramic products

Chapter 70: Glass and glassware

XIV. <u>Section XIV</u> Natural or Cultured Pearls, Precious or Semi-Precious Stones, Precious Metals, Metals Clad With Precious Metals and Articles Thereof; Imitation Jewelery; Coin

Chapter 71: Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metals, and articles thereof; imitation jewelry; coin

XV. <u>Section XV</u> Base Metals and Articles of Base Metal

Chapter 72: Iron and steel

Chapter 73: Articles of iron or steel

Chapter 74: Copper and articles thereof

Chapter 75: Nickel and articles thereof

Chapter 76: Aluminum and articles thereof

Chapter 78: Lead and articles thereof

Chapter 79: Zinc and articles thereof

Chapter 80: Tin and articles thereof

Chapter 81: Other base metals; cermets; articles thereof

Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal; parts thereof

Chapter 83: Miscellaneous articles of base metal

XVI. Section XVI Machinery and Mechanical Appliances; Electrical and Electronic Equipment; Parts Thereof; Sound Recorders and Reproducers, Television Image and Sound Recorders and Reproducers, and Parts and Accessories of such Articles

Chapter 84: Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof

Chapter 85: Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles

XVII. Section XVII Vehicles, Aircraft, Vessels and Associated Transport Equipment

Chapter 86: Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds

Chapter 87: Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof

Chapter 88: Aircraft and parts thereof

Chapter 89: Ships, boats, and floating structures

XVIII. Section XVIII Optical, Photographic, Cinematographic, Measuring, Checking, Precision, Medical and Surgical Instruments and Apparatus; Clocks and Watches; Musical Instruments; Parts Thereof

Chapter 90: Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus; parts thereof

Chapter 91: Clocks and watches and parts thereof

Chapter 92: Musical instruments; parts and accessories of such articles

XIX. Section XIX Arms and Ammunition; Parts Thereof

Chapter 93: Arms and ammunition; parts thereof

XX.. Section XX Miscellaneous Manufactured Articles

Chapter 94: Furniture; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like; prefabricated buildings

Chapter 95: Toys, games and sports requisites; parts thereof

Chapter 96: Miscellaneous manufactured articles

Chapter 97: Works of art, collectors' pieces, and antiques

EXPLANATION OF TARIFF CONVERSION

The draft tariff conversion package consists of four parts: the draft general legal notes and general rules of interpretation, the chapter draft, and two cross-reference tables.

The draft general legal notes are derived from the general headnotes of the Tariff Schedules of the United States (TSUS). General legal notes 1; 2; 3(a), (d), (e) and (f); 4; 6, 9 and 10 (currently 7, 11 and 12, respectively, in the TSUS) are virtually identical in meaning to the corresponding numbered headnotes in the TSUS. Rules 3(b) and (c), dealing with the Generalized System of Preferences (GSP) and Least Developed Developing Countries (LDDC), respectively, have not been included at this time. Rule 5 has been amended by deleting electricity and vessels from the articles (previously referred to as "intangibles") which are exempt from the provisions of the schedule. Telecommunications transmissions have been added to rule 5 to explicitly exclude them from entry requirements. The abbreviations enumerated in rule 7 have been modified to conform to the provisions of the new schedule. Finally, most of the definitions which were formerly included in general headnote 9 have not been carried forward. A number of the terms have not been employed in the

draft chapters released for public comment. Interpretations involving the use of the term "of" used in connection with a named constituent material should be resolved by reference to the headings and legal notes or by application of the General Rules of Interpretation.

The draft General Rules of Interpretation have been adapted from the "Rules for the Interpretation of the Harmonized System", with certain important modifications. First, rule 3 has been modified by adding the substance of current TSUS rules 10(c) and 10(ij), providing guidance in determining the relative specificity of two or more tariff provisions and clarifying the classification of parts. Secondly, new rule 7, encompassing the substance of current TSUS rule 10(c), has been added to reflect the U.S. treatment for use provisions. Finally, conforming changes have been made to each of the rules to emphasize that the rules are applicable to the interpretation of all article descriptions in the new schedule, including subheadings.

The chapter draft contains: (1) the section and chapter legal notes, if any, for the Harmonized System plus any additional U.S. Legal Notes and Statistical Notes; (2) the Harmonized System codes, heading and subheading descriptions (represented by the first six digits of the draft); (3) additional numbering, product detail and structure to reflect proposed U.S. tariff and statistical requirements; and (4) column 1 and 2 rates of duty plus the units of quantity to be reported.

In accordance with the President's request, the conversion is based on the post-MTN (1987) rates of duty. In addition, the Commission in preparing the draft conversion followed the President's guidelines to --

(a) avoid, to the extent practicable and consonant with sound nomenclature principles, changes in rates of duty on individual products;

(b) simplify the U.S. tariff structure to the extent possible without rate changes significant for U.S. industry, workers, or trade; and

(c) alleviate administrative burdens on the Customs Service.

Thus, in the large majority of cases the proposed tariff rates are identical to the rates scheduled to be effective January 1, 1987. In those cases where it was necessary to combine provisions with different rates of duty in the conversion, the duty rates were usually based on the preponderance of trade within the proposed new product grouping. If there was clearly no preponderance of trade within the new product grouping, a trade weighted average was calculated.

The following are typical examples of these two methods.

Preponderance of trade

Present TSUSA No.	Post MTN Rate	Estimated Imports ($1,000)	Proposed TSUSA No.	Proposed Rate
694.6100	FREE	123,184	8803.90.0050	FREE
694.6700	FREE	6,067		
694.6500	5%	205		

Trade Weighted Average

Present TSUSA No.	Post MTN Rate	1980 Imports ($1,000)	$ Duty	Proposed TSUSA No.	Proposed Rate
662.2610	3.7%	12,387	664,372		
662.2620	3.7%	5,569		8423.20	
662.3010	5.5%	4,578	511,280	through	4.3%
662.3020	5.5%	4,718		8423.89	
	Totals	27,252	1,175,652		

The two cross-references provide a tabular presentation of the draft conversion process. The first table cross-references the present TSUSA number, along with its post-MTN rates of duty and 1981 import trade volume, to the proposed new TSUSA number(s). The table also identifies which of the proposed

new TSUSA numbers have different proposed rates of duty and indicates the estimated amount of import trade volume subject to the duty rate difference. The second table cross-references the proposed new TSUSA number to the present TSUSA number(s). It should be noted that when the contents of a current TSUSA number were not completely encompassed by a single new TSUSA number, an attempt was made to allocate the current product coverage, on a percentage basis, to the appropriate new TSUSA numbers. These percent allocations are general estimates by the staff of the U.S. International Trade Commission and are only included in this report to assist the users of these cross-references in approximating how present trade volume may be apportioned into the proposed categories.

1. Tariff Treatment of Imported Articles. All articles (including vessels and electricity) imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general legal notes 3 and 5.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the tariff schedule apply to articles imported into the customs territory of the United States as hereinafter provided in this legal note:

(a) Products of Insular Possessions.

(i) Except as provided in legal note 6 of chapter 91 and except as provided in legal note , articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported into the insular possession,

may be imported into the customs territory from a foreign country, and entered free of duty; except that no article containing material to which (B) of this subparagraph applies shall be exempt from duty under subparagraph (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under sections 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP). TO BE ADDED BY EXECUTIVE ACTION.

(c) Products of Least Developed Developing Countries. TO BE ADDED BY EXECUTIVE ACTION.

(d) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the tariff schedule. The rates of duty for a Canadian article, as defined in subparagraph (ii) of this legal note, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the tariff schedule, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(e) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this legal note, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas or pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder: 1/

Albania	Laos
Bulgaria	Latvia
Cuba 2/	Lithuania
Czechoslovakia	Mongolia
Estonia	North Korea
German Democratic Republic	Union of Soviet Socialist Republic
Kampuchea	Vietnam

(f) Products of All Other Countries. Products of all countries not previously mentioned in this legal note imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the tariff schedule.

1/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended this general legal note by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the tariff schedule --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Exempt Articles. For the purposes of legal note 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) executed securities and similar executed evidences of value, and

(d) telecommunications transmissions,

are not articles subject to the provisions of the tariff schedule.

6. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subparagraph (b) hereof.

(b) Every segregation of articles made pursuant to this legal note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this legal note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this legal note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this legal note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled articles.

7. Abbreviations. In the tariff schedule the following symbols and abbreviations are used with the meanings respectively indicated below:

$	-	dollars	kW	-	kilowatts
¢	-	cents	kWh	-	kilowatt-hours

8. For the purposes of the tariff schedule, unless the context otherwise requires--

(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States,

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption,

(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) an article is in "chief value" of a material if such material exceeds in value each other single component material of the article.

9. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this legal note.

10. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

For the purposes of the tariff schedule --

1. The titles of sections, chapters and sub-chapters and the footnotes therein are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the article descriptions and any relative section or chapter legal notes and, provided such article descriptions or legal notes do not otherwise require, according to the following provisions.

2. (a) Any reference in an article description to an article includes a reference to that article incomplete or unfinished, provided that, as imported, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or considered to be complete or finished by virtue of this rule), imported unassembled or disassembled.

(b) Any reference in an article description to a material or substance includes a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance includes a reference to articles consisting wholly or partly of such materials or substances. The classification of articles consisting of more than one material or substance shall be according to the principles of rule 3 below.

3. When, for any reason, articles are, prima facie, classifiable under two or more article descriptions, classification shall be effected as follows:

(a) The article description which provides the most specific description shall prevail over article descriptions providing a more general description. In applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings which follow under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the chapters or between coordinate inferior headings which are subordinate to the same superior heading;

(iii) a provision for "parts" or "parts and accessories" shall not be considered to be more specific than a specific provision for such part or accessory.

(b) Mixtures, composite articles consisting of different materials or made up of different components, and articles put up in sets, which cannot be classified by reference to subparagraph 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable. Accessories imported with the principal article with which they normally belong shall be classified with that article.

(c) When articles cannot be classified by reference to 3(a) or (b), they shall be classified under the heading which occurs latest among those which equally merit consideration.

4. Articles not falling within any heading of the tariff schedule shall be classified under the heading appropriate to the articles to which they are most akin.

5. Cases, boxes and similar containers imported with the articles for which they are intended shall be classified with such articles if they are of a kind normally sold therewith. The rule does not, however, apply either to containers which give the whole its essential character, or to containers constituting a component of sets. Cases, boxes and similar containers which are not of a kind normally sold therewith as described above, or which are imported separately shall be classified under their appropriate headings.

6. Subject to rule 5, packings of articles shall be classified with the articles if they are of a kind normally used for packing such articles. Packings of articles which are not of a kind normally used for packing such articles shall be classified under their appropriate headings.

7. In the absence of special language or context which otherwise requires --

(a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(b) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered.

1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;
