The Tariff Schedules of the United States Annotated (1983) (TSUSA-1983) is the 14th edition of a compilation published pursuant to section 201, Tariff Classification Act of 1962, 1/ embracing the legal text of the Tariff Schedules of the United States, as amended and modified, together with statistical annotations formulated pursuant to section 484(e), Tariff Act of 1930, as amended (19 U.S.C. 1484(e)). 2/

The principal changes in this edition reflect (1) supplements 1-2 to the 13th edition (1982); (2) the fourth stage duty reductions that become effective January 1, 1983, pursuant to concessions granted by the United States in the Tokyo round of trade agreements (Pres. Proc. No. 4707, as amended); (3) the fourth-stage duty reductions that become

1/ "Sec. 201. The Commission is authorized to issue at appropriate intervals, and to keep up to date, a publication containing current tariff schedules and related matters, including such matters as may be needed for reporting statistics." The first edition (1963) consisted of the original publication and five supplements; the second edition (1965) consisted of the original publication and nine supplements; the third edition (1968) consisted of the original publication and two supplements; the fourth edition (1969) consisted of the original publication and three supplements; the fifth edition (1970) consisted of the original publication and four supplements; the sixth edition (1971) consisted of the original publication and five supplements; the seventh edition (1972) consisted of the original publication and nine supplements; the eighth edition (1975) consisted of the original publication and two supplements; the ninth edition (1976) consisted of the original publication and seven supplements; the 10th edition (1978) consisted of the original publication and five supplements; the 11th edition (1980) consisted of the original publication and three supplements; the 12th edition (1981) consisted of the original publication and two supplements; and the 13th edition consisted of the original publication and two supplements.

2/ Sec. 484(e), as amended, reads as follows:

"(e) Statistical Enumeration.--The Secretary of the Treasury, the Secretary of Commerce, and the United States International Trade Commission are authorized and directed to establish from time to time for statistical purposes an enumeration of articles in such detail as in their judgment may be necessary, comprehending all merchandise imported into the United States and exported from the United States, and shall seek, in conjunction with statistical programs for domestic production and programs for achieving international harmonization of trade statistics, to establish the comparability thereof with such enumeration of articles. All import entries and export declarations shall include or have attached thereto an accurate statement specifying, in terms of such detailed enumeration, the kinds and quantities of all merchandise imported and exported and the value of the total quantity of each kind of article."

effective January 1, 1983, pursuant to concessions granted by the United States in a trade agreement with Indonesia, Trinidad and Tobago, and the countries forming the Cartagena Agreement (Pres. Proc. No. 4711); (4) the fourth-stage duty reductions that become effective January 1, 1983, pursuant to the agreement on implementation of article VII of the General Agreement on Tariffs and Trade (the Customs Valuation Code) (Pres. Proc. No. 4768 as amended); (5) the second stage duty reductions that became effective January 1, 1983 pursuant to concessions granted by the United States in a trade agreement with Taiwan (Pres. Proc. No. 4980); (6) the suspension of the application of column 1 rates of duty of the Tariff Schedules of the United States to the products of Poland (Pres. Proc. No. 4991); (7) termination in part of the Proclamations carrying out the agreement between the United States and Argentina concerning hide exports (Pres. Proc. 4993); (8) modification of the tariff-rate quota on brooms wholly or in part of broom corn (Pres. Proc. No. 4998); (9) amendments to the General System of Preferences (E.O. 12389); (10) the third stage duty increase on certain ethyl alcohol (Pub. L. 96-499); (11) the granting of duty-free status to imports of steam (Pub. L. 97-276); (12) statistical annotations, effective January 1, 1984 (formulated pursuant to sec. 484(e), Tariff Act of 1930); and (13) Bureau of the Census changes in Schedule D (U.S. customs districts and ports for U.S. foreign-trade statistics).

The statistical annotations contained in the TSUSA prescribe the statistical information to be supplied on customs entry and withdrawal forms with respect to articles imported into the customs territory of the United States. Thus, this publication is designed to enable importers, customs brokers, customs officers, and other interested persons to determine (1) the classifications and rates of duty applicable to imported articles and (2) the requirements for reporting statistical data with respect to such imports.

Requests from interested parties for changes in any of the requirements for statistical reporting should be submitted by September 1 to--

The Chairman
Committee for Statistical Annotation
of Tariff Schedules
United States International Trade Commission
701 E Street NW.
Washington, D.C. 20436

Such requests should precisely indicate the nature of each desired change and give detailed reasons in support of the request.

TARIFF SCHEDULES

OF THE UNITED STATES ANNOTATED

1983

1911-1912

1913-1914

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general headnote 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the schedules, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 and the column designated LDDC of the schedules apply to articles imported into the customs territory of the United States as hereinafter provided in this headnote:

(a) Products of Insular Possessions.

(i) Except as provided in headnote 6 of schedule 7, part 2, subpart E, and except as provided in headnote 3 of schedule 7, part 7, subpart A, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either—

(A) at the time such article is entered, or

(B) at the time such material is imported

into the insular possession,

may be imported into the customs territory from a foreign country, other than Cuba or the Philippine Republic, and entered free of duty; except that no article containing material to which (B) of this subdivision applies shall be exempt from duty under subdivision (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under section 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Cuba. Products of Cuba imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. Preferential rates of duty for such products apply only as shown in the said column 1. ^{1/}

^{1/} By virtue of section 401 of the Tariff Classification Act of 1962, the application to products of Cuba of either a preferential or other reduced rate of duty in column 1 is suspended. See general headnote 3(f), *infra*.

(c) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP).

(i) The following countries, territories, and associations of countries eligible for treatment as one country (pursuant to section 502(a)(3) of the Trade Act of 1974 (19 U.S.C. 2462(a)(3))) are designated beneficiary developing countries for the purposes of the Generalized System of Preferences, provided for in Title V of the Trade Act of 1974, as amended (19 U.S.C. 2461 *et seq.*):

(ii) Articles for which the designations "A" or "A*" appear in the column entitled "GSP" of the schedules are those designated by the President to be eligible articles for purposes of the GSP pursuant to Section 503 of the Trade Act of 1974. The designation "A" signifies that all beneficiary developing countries are eligible for preferential treatment with respect to all articles provided for in the designated TSUS item, while the designation "A*" indicates that certain beneficiary developing countries, specifically enumerated in subdivision (c)(iii) of this headnote, are not eligible for such preferential treatment with regard to any article provided for in the designated TSUS item. Whenever an eligible article is imported into the customs territory of the United States directly from a country or territory listed in subdivision (c)(i) of this headnote, it shall receive duty-free treatment, unless excluded from such treatment by subdivision (c)(iii) of this headnote, provided that, in accordance with regulations promulgated by the Secretary of the Treasury the sum of (A) the cost or value of the materials produced in the beneficiary developing country or any 2 or more countries which are members of the same association of countries which is treated as one country under section 502(a)(3) of the Trade Act of 1974, plus (B) the direct costs of processing operations performed in such beneficiary developing country or such member countries is not less than 35 percent of the appraised value of such article at the time of its entry into the customs territory of the United States.

(iii) The following designated eligible articles provided for in TSUS item numbers preceded by the designation "A*", if imported from a beneficiary developing country set opposite the TSUS item numbers listed below, are not entitled to the duty-free treatment provided for in subdivision (c)(ii) of this headnote:

(ii) Imported articles, the products of least developed developing countries as designated in paragraph (i) above, provided for under the TSUS items for which rates of duty appear in the column entitled "LDDC" of the schedules, and which are not entitled to duty-free treatment under subdivision (c) of this headnote, are subject to those rates of duty rather than the rates of duty provided for in column numbered 1, except that articles subject to temporary modifications under any provisions of the Appendix to these schedules shall be subject to the rates of duty set forth therein. If no rate of duty is provided in the "LDDC" column for a particular item, the rate of duty provided in column numbered 1 shall apply.

(e) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. The rates of duty for a Canadian article, as defined in subdivision (e)(ii) of this headnote, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the schedules, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(f) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this headnote, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder or pursuant to Presidential Proclamation 4991, dated October 27, 1982: 2/

(d) Products of Least Developed Developing Countries.

(i) The following countries are designated least developed developing countries (LDDC's) and, subject to restrictions of subparagraph (ii), products of such countries imported into the customs territory of the United States, whether imported directly or indirectly, and which are entered under TSUS item numbers for which rates of duty appear in the column entitled "LDDC" of the schedules, are eligible for full tariff reductions without staging in accordance with Section 503(a)(2)(A) of the Trade Agreements Act of 1979 (93 Stat. 251):

1/ Pursuant to section 4(b)(1) of the Taiwan Relations Act (22 U.S.C. 3303(b)(1)) the reference to countries includes Taiwan.

2/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended general headnote 3(f) by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

(g) Products of All Other Countries. Products of all countries not previously mentioned in this headnote imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the Tariff Schedules --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Intangibles. For the purposes of headnote 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) electricity,

(d) securities and similar evidences of value, and

(e) vessels which are not "yachts or pleasure boats" within the purview of subpart D, part 6, of schedule 6, are not articles subject to the provisions of these schedules.

1/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

6. Containers or Holders for Imported Merchandise.

For the purposes of the tariff schedules, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are subject to tariff treatment as follows:

(i) The usual or ordinary types of shipping or transportation containers or holders, if not designed for, or capable of, reuse, and containers of usual types ordinarily sold at retail with their contents, are not subject to treatment as imported articles. Their cost, however, is, under section 402 of the tariff act, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

(ii) The usual or ordinary types of shipping or transportation containers or holders, if designed for, or capable of, reuse, are subject to treatment as imported articles separate and distinct from their contents. Such holders or containers are not part of the dutiable value of their contents and are separately subject to duty upon each and every importation into the customs territory of the United States unless within the scope of a provision specifically exempting them from duty.

(iii) In the absence of context which requires otherwise, all other containers or holders are subject to the same treatment as specified in (ii) above for usual or ordinary types of shipping or transportation containers or holders designed for, or capable of, reuse.

7. Commingle of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subdivision (b) hereof.

(b) Every segregation of articles made pursuant to this headnote shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under

GENERAL HEADNOTES AND RULES OF INTERPRETATION

customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this headnote do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this headnote do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof --

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this headnote shall apply only in cases where the schedules do not expressly provide a particular tariff treatment for commingled articles.

9. Definitions. For the purposes of the schedules, unless the context otherwise requires --

(a) the term "entered" means entered, or withdrawn from warehouse, for consumption in the customs territory of the United States;

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption;

(c) the term "withdrawn for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) the term "rate of duty" includes a free rate of duty; rates of duty proclaimed by the President shall be referred to as "proclaimed" rates of duty; rates of duty enacted by the Congress shall be referred to as "statutory" rates of duty; and the rates of duty in column numbered 2 at the time the schedules become effective shall be referred to as "original statutory" rates of duty;

(e) the term "ton" means 2,240 pounds, and the term "short ton" means 2,000 pounds;

(f) the terms "of", "wholly of", "almost wholly of", "in part of" and "containing", when used between the description of an article and a material (e.g., "furniture of wood", "woven fabrics, wholly of cotton", etc.), have the following meanings:

(i) "of" means that the article is wholly or in chief value of the named material;

(ii) "wholly of" means that the article is, except for negligible or insignificant quantities of some other material or materials, composed completely of the named material;

(iii) "almost wholly of" means that the essential character of the article is imparted by the named material, notwithstanding the fact that significant quantities of some other material or materials may be present; and

(iv) "in part of" or "containing" mean that the article contains a significant quantity of the named material.

With regard to the application of the quantitative concepts specified in subparagraphs (ii) and (iv) above, it is intended that the de minimis rule apply.

10. General Interpretative Rules. For the purposes of these schedules --

(a) the general, schedule, part, and subpart headnotes, and the provisions describing the classes of imported articles and specifying the rates of duty or other import restrictions to be imposed thereon are subject to the rules of interpretation set forth herein and to such other rules of statutory interpretation, not inconsistent therewith, as have been or may be developed under administrative or judicial rulings;

(b) the titles of the various schedules, parts, and subparts and the footnotes therein are intended for convenience in reference only and have no legal or interpretative significance;

(c) an imported article which is described in two or more provisions of the schedules is classifiable in the provision which most specifically describes it; but, in applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings indented under it but can be limited thereby;

GENERAL HEADNOTES AND RULES OF INTERPRETATION

Page 8

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the schedules or between coordinate inferior headings which are subordinate to the same superior heading;

(d) if two or more tariff descriptions are equally applicable to an article, such article shall be subject to duty under the description for which the original statutory rate is highest, and, should the highest original statutory rate be applicable to two or more of such descriptions, the article shall be subject to duty under that one of such descriptions which first appears in the schedules;

(e) in the absence of special language or context which otherwise requires --

(i) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(ii) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered;

(f) an article is in chief value of a material if such material exceeds in value each other single component material of the article;

(g) a headnote provision which enumerates articles not included in a schedule, part, or subpart is not necessarily exhaustive, and the absence of a particular article from such headnote provision shall not be given weight in determining the relative specificity of competing provisions which describe such article;

(h) unless the context requires otherwise, a tariff description for an article covers such article, whether assembled or not assembled, and whether finished or not finished;

(i) a provision for "parts" of an article covers a product solely or chiefly used as a part of such article, but does not prevail over a specific provision for such part.

11. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the schedules. The allowance of an importer's claim for classification, under any of the provisions of the schedules which provide for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this headnote.

12. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

General statistical headnotes:1. Statistical Requirements for Imported Articles.

(a) Persons making customs entry or withdrawal of articles imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the articles are being entered for consumption or warehouse, as shown in Statistical Annex A of these schedules;

(ii) the name and flag of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the articles first arrived in the United States;

(iii) the foreign port of lading;

(iv) the United States port of unloading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the articles expressed in terms of the designation therefor in Statistical Annex B of these schedules;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of these schedules;

(viii) the date of exportation;

(ix) a description of the articles in sufficient detail to permit the classification thereof under the proper statistical reporting number in these schedules;

(x) the statistical reporting number under which the articles are classifiable; the symbol "A" placed as a prefix to the statistical reporting number when claiming duty-free treatment for an article under the Generalized System of Preferences;

(xi) gross weight in pounds for the articles covered by each reporting number when imported in vessels or aircraft;

(xii) the net quantity in the units specified herein for the classification involved;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the purchase price (i.e., the actual transaction value), in U.S. dollars, of imported merchandise plus, when not included in such price, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation (or, in the case of merchandise not acquired by purchase, e.g., acquired on consignment, lease, or as gifts, the equivalent of such price, charges, costs, and expenses);

(xv) in addition to the value required under subparagraph (xiv), if the merchandise was acquired in a transaction between related parties, the equivalent of arm's-length value therefor, in U.S. dollars, plus, when not included in such value, all charges, costs, and expenses incurred in placing such merchandise alongside the carrier at the port of exportation in the country of exportation;

GENERAL HEADNOTES AND RULES OF INTERPRETATION

(xvi) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance, and all other charges, costs, and expenses (each of which charges, costs, and expenses shall be separately itemized on or attached to the related invoice) incurred in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry (in the case of overland shipments originating in Canada or Mexico, such costs, if any, shall not be reported); and

(xvii) such other information with respect to the imported articles as is provided for elsewhere in these schedules.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation;

(ii) the value of imported merchandise contemplated by subparagraph (xv) of paragraph (a) shall be, to the extent practicable, a value derived from the value of such merchandise as generally determined under section 402 of the tariff act, as the case may be;

(iii) a related-parties transaction shall be a transaction between persons who are related in any respect specified in section 402(g)(1) of the tariff act;

(iv) an arm's-length value shall be a transaction value between a buyer and seller independent of each other, i.e., persons who are not related in any respect specified in section 402(g)(1) of the tariff act; and

(v) in the event that information for the purposes of subparagraphs (xiv), (xv), and (xvi) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations. (a) The statistical annotations to the Tariff Schedules of the United States consist of --

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical headnotes and annexes.

(b) The legal text of the Tariff Schedules of the United States consists of the remaining text as more specifically identified in headnote 10(a) of the general headnotes and rules of interpretation.

(c) The statistical annotations are subordinate to the provisions of the legal text and cannot change their scope.

3. Statistical Reporting Number. (a) General Rule: Except as provided in paragraph (b) of this headnote, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 7-digit number formed by combining the 5-digit item number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under item 100.95 is "100.9520".

(b) Wherever in the tariff schedules an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 7-digit number for the basic provision followed by the item number of the provision from which the rate is derived. Thus, the statistical reporting number of mixed apple and grape juices, not containing over 1.0 percent of ethyl alcohol by volume, is "165.6500-165.40".

4. Abbreviations. (a) The following symbols and abbreviations are used with the meanings respectively indicated below:

s. ton	-	short ton
C.	-	one hundred
cwt.	-	100 lbs.
mg.	-	milligram
M.	-	1,000
bd. ft.	-	board feet
M. bd. ft.	-	1,000 board feet
mc.	-	millicurie
cord	-	128 cubic feet
square	-	amount to cover 100 square feet of surface
oz.	-	ounces avoirdupois
fl. oz.	-	fluid ounce
oz. troy	-	troy ounce
pf. gal.	-	proof gallon
sbe.	-	standard brick equivalent

(b) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(c) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.

			<p>Subpart B. - Furskins</p> <p><u>Subpart B headnotes:</u></p> <p>1. This subpart covers all furskins, except carroated furskins, but does not cover fur or hair which has been removed from the skin. (Carroated furskins and fur or hair removed from the skin are covered in subpart D of part 15 of schedule 1).</p> <p>2. As used in this subpart —</p> <p>(a) the terms "<u>furskins</u>" or "<u>skins</u>" include the whole skins, or cuttings, heads, paws, tails, or other parts of whole skins, whether or not assembled into plates, mats, linings, strips, crosses, or similar forms, but do not cover such skins or parts of skins assembled in the rough form of garments, of parts or accessories of garments, or of other articles (see part 133 of schedule 7);</p> <p>(b) the term "<u>raw or not dressed</u>" refers to raw, unprocessed skins, or to processed skins which have not been subjected to any processing which preserves them indefinitely in a pliant state; and</p> <p>(c) the term "<u>dressed</u>" refers to skins which have been subjected to any processing which preserves them indefinitely in a pliant state, whether or not dyed or otherwise processed and whether or not in condition ready for manufacture into garments or other articles.</p> <p>3. If the wool or hair on any skins which have been released from customs custody under item 123.00 is removed from such skins otherwise than as an unsought residue resulting from the processing of the skins for use as furs, the entire importation shall be subject to duty at the appropriate rate for such wool or hair on the skin under subpart C of part 1 of schedule 3, and for the purposes of this headnote, the clean content of such wool or hair shall be deemed to be 100%.</p> <p>4. The entry, or withdrawal from warehouse, for consumption of ermine, fox, kolinsky, marten, mink, muskrat, and weasel furskins, raw or not dressed, or dressed, which are the product of the Union of Soviet Socialist Republics or of the People's Republic of China is prohibited.</p> <p><u>Subpart B statistical headnote:</u></p> <p>For the purposes of this subpart, the term "<u>whole skins</u>" includes whole skins from which heads, paws, or tails or any combination thereof have been removed.</p>

If the U.S. Trade Representative takes any such action, he shall so inform the Secretary of the Treasury and the Secretary of Agriculture and shall publish notice thereof in the <u>Federal Register</u>. Such action shall not become effective until the day following the date of filing of such notice or such later date as may be specified by the U.S. Trade Representative.</p> <p>(f) The Secretary shall, in consultation with the U.S. Trade Representative, the Department of State, and other concerned agencies, review the operation of this headnote prior to September 1 of each year. In making such review, the Secretary shall determine whether the continued operation of paragraphs (b), (c), (d), and (e) of this headnote gives due consideration to the interests in the United States sugar market of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade, and whether the operation of paragraph (g) of this headnote would give due consideration to such interests. The Secretary shall file a notice of such determinations in the <u>Federal Register</u> no later than September 1 of each year. If the Secretary determines that the continued operation of paragraphs (b), (c), (d), and (e) of this headnote would not give due consideration to the interests in the United States sugar market of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade, and that the provisions of paragraph (g) of this headnote would give due consideration to such interests, paragraphs (b), (c), (d), and (e) of this headnote shall terminate as of the first day of October following such determinations.</p> <p>(g) If paragraphs (b), (c), (d), and (e) of this headnote are terminated under the provisions of paragraph (f) of this headnote, the total amount of sugars, sirups, and molasses described in items 155.20 and 155.30, the products of all foreign countries, entered, or withdrawn from warehouse for consumption, in any fiscal (October 1-September 30) year shall not exceed, in the aggregate, 6,900,000 short tons, raw value. The U.S. Trade Representative or his designee may allocate this quantity among supplying countries or areas, and may prescribe further rules, regulations, limitations or prohibitions on the entry of sugar in accordance with the International Sugar Agreement, 1977, and Public Law 96-236. The U.S. Trade Representative or his designee shall inform the Commissioner of Customs of any such action regarding the importation of sugar, and shall publish notice thereof in the <u>Federal Register</u>.</p>

			<p>(h) For the purposes of this headnote, the term "raw value" means the equivalent of such articles in terms of ordinary commercial raw sugar testing 96 degrees by the polariscope as determined in accordance with regulations issued by the Secretary of the Treasury. Such regulations may, among other things, provide:</p> <p>(1) for the entry of such articles pending a final determination of polarity; and (2) that positive or negative adjustments for differences in preliminary and final raw values be made in the same or succeeding quota periods. The principal grades and types of sugar shall be translated into terms of raw value in the following manner:</p> <p>(i) For articles described in item 155.20, by multiplying the number of pounds thereof by the greater of 0.93, or 1.07 less 0.0175 for each degree of polarization under 100 degrees (and fractions of a degree in proportion).</p> <p>(ii) For articles described in item 155.30, by multiplying the number of pounds of the total sugars thereof (the sum of the sucrose and reducing or invert sugars) by 1.07.</p> <p>(iii) The Secretary of the Treasury shall establish methods for translating sugar into terms of raw value for any special grade or type of sugar for which he determines that the raw value cannot be measured adequately under the above provisions.</p>

			<p align="center">PART 12. - BEVERAGES</p> <p><u>Part 12 headnotes:</u></p> <p>1. This part covers only products which are fit for use as beverages or for beverage purposes.</p> <p>2. The standard for determining the proof of brandy and other spirits or liquors of any kind when imported is the same as that which is defined in the laws relating to internal revenue. The Secretary of the Treasury, in his discretion, may authorize the ascertainment of the proof of wines, cordials, or other liquors and fruit juices by distillation or otherwise, when it is impracticable to ascertain such proof by the means prescribed by existing law or regulations.</p> <p>3. The duties prescribed on products covered by this part are in addition to the internal-revenue taxes imposed under existing law or any subsequent Act. The duties imposed on products covered by this part which are subject also to internal-revenue taxes are imposed only on the quantities subject to such taxes; except that, in the case of distilled spirits transferred to the bonded premises of a distilled spirits plant under the provisions of section 5232 of the Internal Revenue Code of 1954, the duties are imposed on the quantity withdrawn from customs custody.</p> <p>4. 			<p>3. For the purposes of this subpart --</p> <p>(a) the term "gallon" in the "Rates of Duty" column of the provisions applicable to fruit juices means gallon of natural unconcentrated juice or gallon of reconstituted juice;</p> <p>(b) the term "reconstituted juice" means the product which can be obtained by mixing the imported concentrate with water in such proportion that the product will have a Brix value equal to that found by the Secretary of the Treasury from time to time to be the average Brix value of like natural unconcentrated juice in the trade and commerce of the United States; and</p> <p>(c) the term "Brix value" means the refractometric sucrose value of the juice, adjusted to compensate for the effect of any added sweetening materials, and thereafter corrected for acid.</p> <p>4. In determining the number of gallons of reconstituted fruit juice which can be obtained from a concentrate, the degree of concentration shall be calculated on a volume basis to the nearest 0.5 degree, as determined by the ratio of the Brix value of the imported concentrated juice to that of the reconstituted juice, corrected for differences of specific gravity of the juices. Any juice having a degree of concentration of less than 1.5 (as determined before correction to the nearest 0.5 degree) shall be regarded as a natural unconcentrated juice.</p> <p>5. In determining the degree of concentration of mixed fruit juices (item 165.65), the mixture shall be considered as being wholly of the component juice having the lowest Brix value.</p> <p><u>Subpart A statistical headnote:</u></p> <p>1. 			PART 13. - TOBACCO AND TOBACCO PRODUCTS				
			<u>Part 13 headnotes:</u>				
			1. The term "wrapper tobacco", as used in this part, means that quality of leaf tobacco which has the requisite color, texture, and burn, and is of sufficient size for cigar wrappers, and the term "filler tobacco" means all other leaf tobacco.				
			2. The percentage of wrapper tobacco in a bale, box, package, or other shipping unit is the ratio of the number of leaves of wrapper tobacco in such unit to the total number of leaves therein. In determining such percentage for classification purposes, the appraiser shall examine at least ten hands, and shall count the leaves in at least two hands, from each shipping unit designated for examination.				
			3. The dutiable weight of cigars and cigarettes includes the weight of all materials which are integral parts thereof.				
			4. Provisions for the free entry of certain samples of tobacco products are covered by part 5 of schedule 8.

			PART 1. - WOOD AND WOOD PRODUCTS				
			<u>Part 1 headnotes:</u>				
			1. For the purposes of subparts D, E, and F of this part, hardboard shall be deemed to be wood.				
			2. The effectiveness of the proviso to section 304(a)(3)(J) of the Tariff Act of 1930 (19 U.S.C. 1304(a)(3)(J)), to the extent permitted by that section and as provided for in Schedules XX to the General Agreement on Tariffs and Trade, is suspended, with the result that sawed lumber and sawed timbers however provided for, telephone, trolley, electric-light, and telegraph poles of wood, and bundles of shingles, other than redcedar shingles, shall not be required to be marked to indicate the country of origin.				
			Subpart A. - Rough and Primary Wood Products; Wood Waste				
			<u>Subpart A headnotes:</u>				
			1. The term "wood waste", as used in this subpart, means residual material other than firewood resulting from the processing of wood, including scraps, shavings, sawdust, veneer clippings, chipper rejects and similar small wood residues, and also larger or coarser solid types of residual wood such as slabs, edgings, cull pieces, and veneer log cores.				
			2. The provisions for wood products in items 200.60 (poles, piles, and posts), 200.65 (laths), 200.75 (fence pickets, palings, and rails), 200.80 (railroad ties), and 200.85 (shingles and shakes) cover such products whether or not they have been treated with creosote or other wood preservatives.

			<p>PART 5. - BOOKS, PAMPHLETS, AND OTHER PRINTED AND MANUSCRIPT MATERIAL</p> <p><u>Part 5 headnotes:</u></p> <p>1. Except for decalcomanias, labels, flaps, and bands, all of which are covered by the provisions therefor in this part, regardless of the nature of the printing thereon, this part covers only printed matter consisting essentially of textual or pictorial matter produced by any printing process, and similar matter in manuscript or typewritten form. The text may be set forth in any language by means of any kind of characters. With the exceptions above indicated, this part does not cover any article in which printing is merely incidental to the primary use of the article or in which printing is employed mainly for coloration or to produce a decorative or novelty effect (see part 4 of this schedule).</p> <p>2. For the purposes of this part -- (a) the term "paper" includes paperboard; (b) the term "books" includes books, bound and not bound, and pamphlets; (c) the term "periodicals" embraces only paper-covered or unbound publications issued regularly at stated periods, such as weekly, monthly, or quarterly, and bearing the date of issue; and (d) the term "photographs" embraces only pictures other than motion pictures, produced on photosensitive materials, and includes positive and negative images on exposed, or exposed and developed, photographic film.</p> <p>3. For the purposes of determining the classification of printed matter produced in whole or in part by a lithographic process, the thickness of such printed matter is that of the thinnest paper contained therein, except that the thickness of a permanently mounted lithograph is the combined thickness of the lithograph and its mounting.</p>

Schedule 3 headnotes:

1. This schedule does not cover --
 - (i) articles of unspun fibrous vegetable materials (see part 2B of schedule 2);
 - (ii) asbestos fibers, or yarns, fabrics, or other articles containing asbestos in significant amounts, i.e., articles in which asbestos is used in sufficient amounts to impart its peculiar characteristics or properties to the article (see part 1F of schedule 5);
 - (iii) wire, or wire cordage, screen, fencing, or other wire products (see parts 2 and 3B of schedule 6); or
 - (iv) footwear, headwear, gloves, handbags, pillows, mattresses, and other articles of textile materials provided for in schedule 7.
2. For the purposes of the tariff schedules --
 - (a) the term "textile materials" means --
 - (i) the fibers (cotton, other vegetable fibers, wool and hair, silk, and man-made fibers) provided for in part 1 of this schedule;
 - (ii) the yarn intermediates and the yarns provided for in part 1 and part 4 (elastic yarns) of this schedule;
 - (iii) the cordage provided for in part 2 and part 4 (elastic cordage) of this schedule;
 - (iv) the fabrics provided for in part 3 and part 4 of this schedule;
 - (v) braids, as defined in headnote 2(f), infra; and
 - (vi) except as provided by headnote 5, articles produced from any of the foregoing products;
 - (b) the term "colored", as used in connection with textile materials or textile articles, means that they have been subjected to a process such as, but not limited to, dyeing, staining, painting, printing, or stenciling, in which color is imparted at any stage of manufacture to all or part of the fiber, yarn, fabric, or other textile article, except identification yarns and except marking in or on selvages;
 - (c) the term "wool", except as used in part 1C of this schedule, means wool or hair of the types covered by the said part 1C of this schedule, or any combinations thereof;
 - (d) the term "knit" means knit or crocheted;
 - (e) the term "yarns" includes threads, but does not include elastic yarns or any braids;
 - (f) the term "braids", as used in connection with textile materials or textile articles, includes all braids in the piece, whether of flat, tubular, or other construction, with or without cores, and whether braided from fibers, filaments (including tinsel wire and lame), yarns, cordage, textile fabrics, or any combination thereof;
 - (g) the term "burnt-out lace" means embroidery in which the base or ground (whether fabric, paper, or other material), having been removed chemically or by other means, is not visible; and
 - (h) a "lace" article or a "net" article is an article which (exclusive of any added ornamentation) is wholly or almost wholly of lace, including burnt-out lace, or wholly or almost wholly of net, whether the lace or net pre-existed or was formed in the process of producing the article.

SCHEDULE 3. - TEXTILE FIBERS AND TEXTILE PRODUCTS

Schedule 3 headnotes (con.):

3. For the purposes of the tariff schedules --

(a) the term "ornamented", as used with reference to textile fabrics and other articles of textile materials, means fabrics and other articles of textile materials which are ornamented with --

(i) fibers, filaments (including tinsel wire and lame), yarns, or cordage, any of the foregoing introduced as needlework or otherwise, including --

(A) embroidery, and pile or tufting, whether wholly cut, partly cut, or not cut, and

(B) other types of ornamentation, but not including functional stitching or one row of straight hemstitching adjoining a hem;

(ii) burnt-out lace;

(iii) lace, netting, braid, fringe, edging, tucking, or trimming, or textile fabric;

(iv) applique and repique work, beads, bugles, spangles, bullions, or ornaments; or

(v) any combination of the foregoing types of methods of ornamentation;

(b) ornamentation of the types or methods covered hereby consists of ornamenting work done to a pre-existing textile fabric, whether the ornamentation was applied to such fabric --

(i) when it was in the piece,

(ii) after it had been made or cut to a size for particular furnishings, wearing apparel, or other article, or

(iii) after it had actually been incorporated into another article,

and if such textile fabric remains visible, at least in significant part, after ornamentation: Provided, That lace, netting, braid, fringe, edging, tucking, trimming or ornament shall not be required to have had a separate existence from the fabric or other article on which it appears in order to constitute ornamentation for the purposes of this headnote; and

(c) applique work, beads, bugles, spangles, bullions, and other forms of nontextile ornamentation applied to a textile fabric or other article of textile materials shall be disregarded in determining the component material of chief value of such fabric or other article.

4. For the purposes of the tariff schedules --

(a) Except as specifically provided otherwise, in determining the yarn count of fabrics, the warp and filling yarns, whether plied or not, shall be counted as they occur in the fabric.

(b) In determining the component fibers of chief value in coated or filled, or laminated, fabrics and articles wholly or in part thereof, the coating or filling, or the nontextile laminating substances, shall be disregarded in the absence of context to the contrary.

5. For the purposes of parts 5, 6, and 7 of this schedule and parts 1 (except subpart A), 4, and 12 of schedule 7, in determining the classification of any article which is wholly or in part of a fabric coated or filled, or laminated, with nontransparent rubber or plastics (which fabric is provided for in part 4C of this schedule), the fabric shall be regarded not as a textile material but as being wholly of rubber or plastics to the extent that (as used in the article) the nontransparent rubber or plastics forms either the outer surface of such article or the only exposed surface of such fabric.

6. The term "Certified hand-loomed and folklore" as used with respect to products provided for in the tariff schedules, refers to such products as have been certified, in accordance with procedures established by the United States Trade Representative pursuant to international understandings, by an official of a government agency of the country where the products were produced, to have been so made.

7. With respect to fabrics provided for in part 3 (other than fabrics valued over \$2 per pound provided for in item 337.50) and in part 4 of this schedule, provisions for fabrics in chief value of wool shall also apply to fabrics in chief weight of wool (whether or not in chief value of wool). For the purposes of the preceding sentence, a fabric is in chief weight of wool if the weight of the wool component is greater than the weight of each other textile component (i.e., cotton, vegetable fibers except cotton, silk, man-made fibers, or other textile materials) of the fabric.

8. In the case of each item in this schedule and schedule 7 on which the United States has agreed to reduce the rate of duty, pursuant to a trade agreement entered into under section 101 of the Trade Act of 1974 before January 3, 1980, on any cotton, wool, or man-made fiber textile product as defined in the Arrangement Regarding International Trade in Textiles, as extended on December 14, 1977 (the Arrangement), if the Arrangement, or a substitute arrangement, including unilateral import restrictions or bilateral agreements, determined by the President to be suitable, ceases to be in effect with respect to the United States before the total reduction in the rate of duty for such item under sections 101 and 109 of the Trade Act of 1974 has become effective, then the President shall proclaim the rate of duty in rate column numbered 1 for such item existing on January 1, 1975, to be the rate of duty effective, with respect to articles entered, or withdrawn from warehouse, for consumption, within 30 days after such cessation and until the President proclaims the continuation of such reduction under the next sentence. If subsequently the Arrangement, or a substitute arrangement, including unilateral import restrictions or bilateral agreements, determined by the President to be suitable, is in effect with respect to the United States, then the President shall proclaim the continuation of the reduction of such rate of duty pursuant to such trade agreement. For purposes of section 109(c)(2) of the Trade Act of 1974, any time when a rate of duty existing on January 1, 1975, is in effect under this headnote shall be time when part of such reduction is not in effect by reason of legislation of the United States or action thereunder.

9. For the purposes of this schedule and schedule 7, the term "subject to textile agreements" refers to--

(a) articles in which either the cotton content or the man-made fiber content equals or exceeds 50 percent by weight of all component fibers thereof;

(b) articles in which the wool content exceeds 17 percent by weight of all component fibers thereof;

(c) articles containing blends of cotton, wool, or man-made fibers, which fibers, in the aggregate, amount to 50 percent or more by weight of all component fibers thereof.

Schedule 3 statistical headnotes:

1. The statistical provisions for textiles include, in addition to the regular statistical annotations, certain annotations essential for the administration of the Arrangement Regarding International Trade in Textiles by the Committee for the Implementation of Textile Agreements.

(a) In order to monitor imports subject to restraints under this arrangement, it is necessary that certain articles containing cotton, wool, or man-made fibers, or combinations thereof, be specifically identified. For example, any article containing 50 percent or more by weight of cotton may be designated as "Subject to cotton restraints". Similarly, articles containing 50 percent or more by weight of man-made fibers may be designated as "Subject to man-made fiber restraints". In addition, certain articles containing over 17 percent by weight of wool are "Subject to wool restraints". Articles containing blends of cotton, wool, or man-made fibers which, in the aggregate, amount to 50 percent or more by weight are also subject to these restraints. Definitions of the foregoing provisions are given in statistical headnote 3 below. (It should not be assumed that all imports required to be reported under any such statistical annotations are actually

Schedule 3 statistical headnotes (con.):

being controlled at any particular time, but restraints may be applied to articles imported from certain countries, depending on unilateral actions or bilateral agreements developed under the Arrangement.)

(b) Restraints under the Arrangement may not apply to developing-country exports of hand-loomed fabrics of the cottage industry, to handmade products of the cottage industry made of such hand-loomed fabrics, or to traditional folklore handicraft textile products, provided that the foregoing types of products are properly certified under arrangements established between the importing and exporting participating countries. The importer is required to identify such certified products on the entry summary or withdrawal forms by placing the symbol "F" as a prefix to the appropriate 7-digit schedule 3 or schedule 7 item number.

2. Certain articles wholly or in chief value of cotton, wool, or man-made fibers and certain woven fabrics in chief weight of wool which may be restrained under the provisions of this arrangement are adequately identified for monitoring purposes in this schedule and in schedule 7 and, therefore, are not annotated as "Subject to (cotton, man-made fiber, or wool) restraints".

3. Where the specific restraint references appear in this schedule and in schedule 7, the following meanings are hereby assigned to them:

(a) The term "Subject to cotton restraints" refers to--

- (i) articles in which the cotton component equals or exceeds 50 percent by weight of all component fibers thereof; or
- (ii) articles in which the cotton with wool and/or man-made fibers in the aggregate equal or exceed 50 percent by weight of the component fibers thereof and the cotton component equals or exceeds the weight of each of the total wool and/or total man-made fiber components.

(b) The term "Subject to wool restraints" refers to articles in which the wool content exceeds 17 percent by weight of all component fibers and which are not provided for in (a) above.

(c) The term "Subject to man-made fiber restraints" refers to articles not meeting the requirements of (a) or (b) above, but qualifying as--

- (i) articles in which the man-made fiber components equal or exceed 50 percent by weight of all component fibers thereof; or
- (ii) articles in which the man-made fibers in combination with cotton and/or wool in the aggregate equal or exceed 50 percent by weight of the component fibers thereof and the man-made fiber component exceeds the weight of the total wool and/or total cotton component.

4. The unit of measure to be used by Customs field offices when reporting imports of textiles to Customs Headquarters Quota Section shall be the first unit of quantity unless the second unit of quantity (if there is one) is underlined, in which case the second unit of quantity shall be reported (except item 363.7000 for which the unit of measure shall be "sq. yd.").

5. As a convenient cross-reference, each of the cotton, wool, and man-made fiber categories (or groupings) used by the United States in monitoring import shipments of these textile products and to administer the United States textile trade agreements programs is listed in this schedule and in schedule 7 following the appropriate 7-digit description. Also, for those desiring a cross-reference of applicable 7-digit provisions for each of the category numbers, the following table may be used--

			<p>PART 1. - TEXTILE FIBERS AND WASTES; YARNS AND THREADS</p> <p><u>Part 1 headnotes:</u></p> <p>1. For the purposes of this part -- (a) the term "waste" means all fiber, yarn, and thread wastes, including wastes obtained in the production of continuous and noncontinuous fibers, yarns, and threads, such as gin notes, scutcher waste (including tow), picker waste, card waste, top waste, comber waste (including noils), hackling waste (including tow), aliver waste, roving waste, ring waste, throwster (twister or pleyer) waste, fly, sweepings, and willowed wastes, and including fiber, yarn, and thread wastes obtained in the production of other textile products (i.e., products other than fibers, yarns, or threads) or otherwise obtained; and (b) the term "advanced waste" means any of the above-mentioned wastes which have been cleaned, bleached, colored, or otherwise advanced, and includes fibers recovered by cleaning (except willowing), degumming, carbonizing, cutting, picking, garnetting or similar processes from any of the above-mentioned wastes or from textile clippings or articles, new or used, whether or not such fibers or the wastes from which recovered have also been otherwise advanced, but does not include fibers which have been carded, combed, or similarly processed, or re-useable yarns or threads.</p> <p>2. Rags and scrap cordage are covered in part 7C of this schedule.</p> <p style="text-align: center;">-----</p> <p>Subpart A. - Cotton</p> <p><u>Subpart A headnotes:</u></p> <p>1. The term "number", as applied to yarns in this subpart, means the number of 840-yard hanks of yarn in 1 pound. To determine the number of any yarn, whether single or plied, the actual yards per pound shall be divided by 840 and the quotient thereof multiplied by the number of plies in such yarn. Fractions in the resulting yarn number shall be disregarded.</p> <p>2. In this subpart, each of the rates of duty provided for yarns, wholly of cotton, not bleached, mercerized, colored, combed or plied (items 301.01 through 301.98, inclusive) is also the "base rate" for yarn of the same number covered by item 302.--. For citation purposes, the two blanks on the end of the latter item number shall be filled in with the last two digits of the item number for the applicable base rate. Thus, "item 302.28" would be the citation for bleached, mercerized, colored, combed, or plied yarns, wholly of cotton, of number 28.</p> <p>3. Under regulations prescribed by the Secretary of the Treasury, the staple length of cotton shall be determined for all customs purposes by application of the Official Cotton Standards of the United States for length of staple, as established by the Secretary of Agriculture and in effect when the determination is to be made.</p> <p style="text-align: center;">-----</p>

			<p>(c) the term "<u>clean yield</u>", in the foregoing headnote, means the absolute clean content (i.e., all that portion of the merchandise which consists exclusively of wool or hair free of all vegetable and other foreign material, containing by weight 12 percent of moisture and 1.3 percent of material removable from the wool or hair by extraction with alcohol, and having an ash content of not over 0.5 percent by weight), less an allowance, equal by weight to 0.5 percent of the absolute clean content plus 60 percent of the vegetable matter present, but not exceeding 15 percent by weight of the absolute clean content, for wool or hair that would ordinarily be lost during commercial cleaning operations;</p> <p>(d) wool or hair "<u>on the skin</u>" includes all skins or skin pieces from which wool or hair is commercially recoverable by any process (except wool or hair on the skin provided for in part 5B of schedule 1; except wool or hair on the skin which has been cleaned otherwise than by shaking, willowing, burr-picking, or washing with water only; and except tanned-skin scrap);</p> <p>(e) wool or hair "<u>in the grease</u>" is wool or hair in its natural condition as separated from the animal or skin, whether or not cleaned by shaking, willowing, or burr-picking, but not otherwise cleaned;</p> <p>(f) "<u>washed</u>" wool or hair is wool or hair, not on the skin, that has been washed, with water only, while on the animal's back or on the skin, whether or not cleaned by shaking, willowing, or burr-picking, but not otherwise cleaned;</p> <p>(g) "<u>scoured</u>" wool or hair is wool or hair, whether or not on the skin, (except wool or hair in the grease or washed) that has been cleaned by any process other than shaking, willowing, burr-picking, washing with water only, or carbonizing;</p> <p>(h) "<u>carbonized</u>" wool or hair is wool or hair whether or not on the skin that has been cleaned by carbonizing in lieu of, or in addition to, any other cleaning process, whether or not neutralized or neutralized and dusted; and</p> <p>(i) "<u>sorted</u>" wool or hair is wool or hair separated from each individual fleece according to length, soundness, elasticity, fineness, color, or other properties, but does not include a skirted fleece unless the back has been removed, and does not include skirtings.</p> <p>2. The standards for determining grades of wool shall be those which are established from time to time by the Secretary of Agriculture pursuant to law and which are in effect on the date of importation of the wool.</p> <p>1/ 3. For the purposes of item 307.40 —</p> <p>(a) the classification provisions for wool not finer than 40s shall apply to any package of wool containing not over 10 percent by weight of wool finer than 40s but not containing wool finer than 44s;</p>

			PART 2. - CORDAGE				
			<u>Part 2 headnotes:</u>				
			1. For the purposes of this part --				
			(a) the term "cordage" means assemblages of textile fibers or yarns, in approximately cylindrical form and of continuous length, whether or not bleached, colored, or treated, designed and chiefly used as an end product, and comprising cable, rope, cord, and twine, but the term does not include --				
			(i) yarns (see part 1 of this schedule), or				
			(ii) braids or elastic articles (see part 4A of this schedule and part 1B of schedule 7);				
			(b) cordage "of stranded construction" is cordage composed of 3 or more strands composed of 2 or more yarns each, whether or not containing a core;				
			(c) the term "hard (leaf) fibers" means fibers obtained from the leaf or leaf stems of monocotyledonous plants (e.g., abaca, sisal, and henequen);				
			(d) the term "bleached, colored, or treated" means that the condition of the cordage or any of its constituent fibers or yarns has been affected by bleaching or coloring processes; by surface treatments such as polishing, glazing, coating, or filling; or by the application of grease or other nonfibrous substances (except oil) for any purpose, including rendering the cordage more able to withstand or repel fire, insects, rodents, mildew or rot;				
			(e) the term "binder twine and baler twine" (item 315.20) means a single-ply twine measuring over 150 but not over 750 feet per pound, containing 8 percent or more by weight of added nonfibrous substances such as oil, grease, or repellents, and chiefly used with harvesting machines or baling machines for binding or tying of grains or for baling hay, straw, and other fodder or bedding materials.

(a) In the ascertainment of the condition of the fabrics or yarns upon which the duties imposed upon cotton fabrics are made to depend, the entire fabric and all parts thereof shall be included.</p> <p>(b) The term "number", as applied to woven fabrics of cotton, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous, and with the count being taken of the total single yarns in the fabric including the single yarns in any plied yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number for tariff purposes:</p> $N = \frac{BYT}{840}, \text{ or } \frac{24T}{35Z}, \text{ or } \frac{28T}{105Z}, \text{ or } \frac{35T}{70}$ <p>when:</p> <p>N is the average yarn number,</p> <p>B is the breadth (width) of the fabric in inches,</p> <p>Y is the yards (linear) of the fabric per pound,</p> <p>T is the total single yarns per square inch,</p> <p>S is the square yards of fabric per pound,</p> <p>Z is the ounces per linear yard of fabric, and</p> <p>Z' is the ounces per square yard of fabric.</p> <p>2. In this subpart, each of the rates of duty provided for fabric, wholly of cotton, not fancy or figured, and not bleached and not colored (items 319.21 through 319.25 and items 320.01 through 320.98, both inclusive) is also the "base rate" for fabrics of the same average yarn number covered by items 319.27 and 319.29, and by items 321.-- through 331.--, inclusive, respectively. Thus, "item 324.45" would be the citation for woven fabrics, wholly of cotton, of number 45, fancy or figured, and bleached but not colored.</p> <p>3. The term "fancy or figured", as used in this subpart in relation to fabrics, means fabrics which have been woven with 2 or more colors or kinds of filling; with 8 or more harnesses; or with jacquard, lappet, or swivel attachments; or by any combination of these weaving methods.</p> <p>4. With respect only to the fabrics provided for in items 319.21 through 319.25 and 320.01 through 320.98, none of the ad valorem rates of duty, or the ad valorem parts of the compound rates of duty, shall be less than the equivalent of --</p> <p>(i) 0.17 cent per number per pound in rate column 1 for items 320.01 through 320.98;</p> <p>(ii) 0.22 cent per number per pound in rate column 1 for items 319.21 through 319.25; and</p> <p>(iii) 0.55 cent per number per pound in rate column 2 for items 319.21 through 319.25 and 320.01 through 320.98.</p> <p><u>Subpart A statistical headnotes:</u></p> <p>1. For the purposes of this schedule, the following terms relating to fabrics of cotton have the meanings hereby assigned to them. (The average yarn number referred to in certain of the definitions is the "number" ascertained by the method set forth in headnote 1 of this subpart. The yarn number (before weaving) referred to in certain of the definitions is the yarn number of the yarn before it is prepared for weaving):</p> <p>(a) <u>Duck</u>: Plain-woven fabrics made of carded yarns, not napped, woven with less than 8 harnesses and without the use of jacquard, lappet, or swivel attachments, the warp and/or filling of which consists of plied yarns or of 2 or more single yarns woven as one, having an average yarn number not over 15, weighing 5 ounces or more per square yard.</p> <p>(b) <u>Gingham</u>: Plain-woven and fancy yarn-dyed fabrics having two or more colors in the warp and/or in the filling. Include checked and plaid ginghams, gingham stripes, cloth of "haircord" construction (i.e., cloth having cord stripes in the warp which are formed by yarns woven from an extra beam), and "poplin" type fabrics with a difference in picks per inch and ends per inch of less than 40 (e.g., 90 x 60). Schedule 4 headnotes:

1. This schedule does not include --
 - (i) any of the mineral products provided for in schedule 5;
 - (ii) metal-bearing ores and other metal-bearing materials, provided for in part 1 of schedule 6; or
 - (iii) metals provided for in part 2 of schedule 6.
 2. (a) The term "compounds", as used in this schedule, means substances occurring naturally or produced artificially by the reaction of two or more ingredients, each compound --
 - (i) consisting of two or more elements,
 - (ii) having its own characteristic properties different from those of its elements and from those of other compounds, and
 - (iii) always consisting of the same elements united in the same proportions by weight with the same internal arrangement.

The presence of impurities which occur naturally or as an incident to production does not in itself affect the classification of a product as a compound.

(b) The term "compounds", as used in this schedule, includes a solution of a single compound in water, and, in determining the amount of duty on any such compound subject to duty in this schedule at a specific rate, an allowance in weight or volume, as the case may be, shall be made for the water in excess of any water of crystallization which may have been in the compound.
 3. (a) The term "mixtures", as used in this schedule, means substances consisting of two or more ingredients (i.e., elements or compounds), whether occurring as such in nature, or whether artificially produced (i.e., brought about by mechanical, physical, or chemical means), which do not bear a fixed ratio to one another and which, however thoroughly commingled, retain their individual chemical properties and are not chemically united. The fact that the ingredients of a product are incapable of separation or have been commingled in definite proportions does not in itself affect the classification of such product as a mixture.
- (b) The term "mixtures", as used in this schedule, includes solutions, except solutions defined as compounds in headnote 2(b) of this schedule.

			<p>PART 1. - BENZENOID CHEMICALS AND PRODUCTS</p> <p><u>Part 1 headnotes:</u></p> <p>1. Except as specifically set forth in the headnotes to other parts of this schedule, all products described in this part shall be classified hereunder even if more specifically described elsewhere in this schedule. Any product described in both subparts B and C of this part shall be classified in subpart C.</p> <p>2. For the purposes of this part, the term "<u>modified benzenoid</u>" describes a molecular structure having at least one six-membered heterocyclic ring which contains at least four carbon atoms and having an arrangement of molecular bonds as in the benzene ring or in the quinone ring, but does not include any such molecular structure in which one or more pyrimidine rings are the only modified benzenoid rings present.</p> <p>3. With the exception of the natural products provided for in subpart C, this part does not cover cyclic organic chemical products (such as, but not limited to, tannic, gallic and pyrogalllic acids; estrone, estradiol, and corticosteroids; morphine, ergot, and cinchona alkaloids; rotenone; phenylalanine; tyrosine; epinephrine; and thymols) having a benzenoid, quinoid, or modified benzenoid structure, which are produced from animal or vegetable products in which such structure occurs naturally, unless such cyclic organic chemical products were obtained, derived, or manufactured in part from any product provided for in subpart A, B or C of this part.</p> <p style="text-align: center;">-----</p> <p>Subpart A. - Organic Chemical Crudes</p> <p>Coal tar, crude (including crude blast-furnace tar, crude oil-gas tar, and crude water-gas tar), and organic chemical products found naturally in coal tar, whether produced or obtained from coal tar or other source:</p>

			<p>Subpart B. - Industrial Organic Chemicals ^{1/}</p> <p><u>Subpart B headnotes:</u></p> <p>1. The provisions of items 402.00 to 406.63, inclusive, in this subpart shall apply not only to the products described therein when obtained, derived, or manufactured in whole or in part from products described in subpart A of this part, but shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in said subpart A.</p> <p>2. For the purpose of classification of merchandise provided for under items 402.36 to 406.63, inclusive, the following provisions shall govern:</p> <p>(a) The term "<u>derivatives</u>" refers to only those derivatives which may be obtained by one or more of the following processes: Halogenation, nitration, nitrosation, or sulfonation, and is to be understood to include sulfonyl halides.</p> <p>(b) A compound with functional groups described in two or more items under items 402.36 to 406.63, inclusive, is to be classified in the latest applicable item. For example, 4-acetamido-2-aminophenol, which contains three functional groups, will be classified in 405.12 (Amides), rather than in 404.92 to 405.09, inclusive (Aminophenols), or in 404.84 to 404.90, inclusive (Amines), or in 403.51 (Phenols). When applicable, classification should be made in accordance with the following principles:</p> <p>(i) Salts of organic acids (including phenols) with inorganic bases and salts of organic bases with inorganic acids are to be classified under the same superior heading as the organic acid or base; salts of organic acids with organic bases are to be classified either under the superior heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free base, whichever is listed later.</p> <p>(ii) Esters of organic acids are to be classified either under the superior heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free alcohol or phenol, whichever is listed later.</p> <p>(iii) The above provisions apply also in cases where the component having the functional groups described under the later superior heading is not of benzenoid origin. For example, benzyl acetate is classified under carboxylic acids (404.24 to 404.47, inclusive) rather than under alcohols (403.45).</p>				
			<p>^{1/} Articles exported to the United States prior to July 1, 1980, must be appraised under the valuation standards provided for in sections 402 and 402a of the Tariff Act of 1930 in effect on June 30, 1980, and are subject to classification under the items of the Tariff Schedules in effect on that date.</p>

<p>Subpart C. - Finished Organic Chemical Products ^{1/}</p> <p>Subpart C headnotes:</p> <p>1. The provisions of this subpart providing for products obtained, derived, or manufactured in whole or in part from products described in subpart A or B of this part shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in the said subpart A or B.</p> <p>2. For the purposes of the Tariff Schedules, the term "pesticides" means products, such as insecticides, rodenticides, fungicides, herbicides, fumigants, and seed disinfectants, chiefly used to destroy undesired animal or plant life.</p> <p>3. The term "plastics materials" in items 408.44 to 409.18, inclusive, embraces products formed by the condensation, polymerization, or copolymerization of organic chemicals and to which plasticizers, fillers, colors, or extenders may have been added.</p> <p>^{1/} Articles exported to the United States prior to July 1, 1980, must be appraised under the valuation standards provided for in sections 402 and 402a of the Tariff Act of 1930 in effect on June 30, 1980, and are subject to classification under the items of the Tariff Schedules in effect on that date.</p> <p>Note: For explanation of the symbol "A" or "A" in the column entitled "GSP", see general headnote 3(c).</p>

			<p>The term includes, but is not limited to, phenolic and other tar-acid resins, styrene resins, alkyd and polyester resins based on phthalic anhydride, coumarone-indene resins, urethane, epoxy, toluene sulfonamide, maleic, fumaric, aniline, and polyamide resins, and other synthetic resins. The plastics materials may be in solid, semi-solid, or liquid condition, such as flakes, powders, pellets, granules, solutions, emulsions, and other basic forms not further processed.</p> <p>4. For the purpose of the classification of merchandise provided for under items 408.44 to 409.18, inclusive, the following provisions shall apply:</p> <p>(a) The term "<u>thermoplastic resins</u>" means those materials in unfinished forms which in their final state as finished articles are capable of being repeatedly softened by increase of temperature and hardened by decrease of temperature.</p> <p>(b) The term "<u>thermosetting resins</u>" (or thermosets) means those materials in unfinished forms which in their final state as finished articles are substantially infusible. Thermosetting resins are often liquids at some stage in their manufacture or processing and are cured by heat, catalysis, or other chemical means. After being fully cured, thermosets cannot be resoftened by heat.</p> <p>(c) Copolymers and terpolymers not specially provided for shall be classified as if they consisted entirely of that monomer which is present in the largest amount by weight on a resin content basis (i.e., excluding the weight of plasticizers, liquid diluents, fillers, or other additives). Any polymer consisting of two or more monomers which are present in equal amounts shall be classified as if it consisted entirely of that monomer whose polymer is listed first under the thermoplastic or thermosetting resins, as appropriate.</p> <p>5. The term "<u>paints and enamel paints</u>" in this subpart covers dispersions of pigments or pigment-like materials with a liquid (vehicle) which are suitable for application to surfaces as a thin layer, and which dry (harden) to an opaque, solid film. The vehicle of paints consists of drying oils or resins which bind the pigment particles together in the film; the vehicle of enamel paints is principally varnish. Paints and enamel paints may also contain thinners, driers, plasticizers, or other agents.</p> <p>6. The term "<u>stains</u>" in this subpart covers liquids containing transparent or semi-transparent pigments, dyes, or chemicals, chiefly used to deepen or otherwise alter the color of wood, but which will not obscure its grain, texture, or markings.</p> <p>7. For the purposes of this subpart --</p> <p>(a) The term "<u>surface-active agents</u>" means synthetic organic compounds, or mixtures thereof, which function as surface tension modifiers and are chiefly used for any one or combination of the following purposes: as detergents, wetting agents, emulsifiers, dispersants, or foaming agents.</p>

			<p>(b) The term "<u>synthetic detergents</u>" embraces formulated materials which are used chiefly for household, laundry, and industrial cleaning purposes, and which consist of one or more surface-active agents as the active ingredients in combination with colors, brighteners, perfumes, inert diluents, builders, and extenders such as inorganic salts, polyphosphates, polysilicates or sodium carboxymethyl-cellulose.</p> <p>8. The term "<u>plasticizers</u>" in item 409.34 means substances which may be incorporated into a material (usually a plastic, resin material, or an elastomer) to increase its softness, flexibility, workability, or distensibility.</p> <p>9. The term "<u>drugs</u>" in this subpart means those substances having therapeutic or medicinal properties and chiefly used as medicines or as ingredients in medicines.</p> <p>10. For the purposes of the provisions of this subpart relating to "colors, dyes, stains, and related products" (except products provided for in items 410.36 to 410.44, inclusive) --</p> <p>(a) the specific duties shall be based on standards of strength which shall be established by the Secretary of the Treasury, and upon all importations of such articles which exceed such standards of strength the specific duty shall be computed on the weight which the article would have if it were diluted to the standard strength, but in no case shall any such articles of whatever strength be subject to a less specific duty than that provided in the respective items of this subpart;</p> <p>(b) it shall be unlawful to import or bring into the United States any such product unless the invoice shall bear a plain, conspicuous, and truly descriptive statement of the identity and percentage, exclusive of diluents, of such product;</p> <p>(c) it shall be unlawful to import or bring into the United States any such product, if the immediate container or the invoice bears a statement, design, or device regarding the product or the ingredients or substances contained therein which is false, fraudulent, or misleading in any particular; and</p> <p>(d) in the enforcement of the foregoing provisions of this headnote the Secretary of the Treasury shall adopt a standard of strength for each dye or other product which shall conform as nearly as practicable to the commercial strength in ordinary use in the United States prior to July 1, 1914. If a dye or other product has been introduced into commercial use since said date then the standard of strength for such dye or other product shall conform as nearly as practicable to the commercial strength in ordinary use. If a dye or other product was or is ordinarily used in more than one commercial strength, then the lowest commercial strength shall be adopted as the standard of strength for such dye or other product.</p> <p>11. Any product described in two or more of the items under items 411.30 to 412.70, inclusive, is to be classified in the first applicable item.</p> <p>12. The term "<u>Dyes containing, by weight</u>" in items 409.62, 409.86, and 410.04, means those products which contain as the only dye components the specified components listed therewith, each of which must be present in the product. A tolerance of plus or minus 2 percentage points from the named percentages is allowable.</p>

			Subpart C. - Inorganic Chemical Compounds				
			Subpart C headnote:				
			1. This subpart does not include any organic compounds. For the purposes of this subpart, inorganic compounds containing only one kind of cation are classifiable according to the cation constituent as indicated in the alphabetical listing set forth in this subpart; and inorganic compounds containing two or more different kinds of cations are classifiable according to the cation constituent thereof first named in the alphabetical listing in this subpart. Inorganic compounds, having no cations or none of the cation constituents of which are named in this subpart, are covered by the provision for other inorganic compounds (item 423.00).

			<p>PART 3. - DRUGS AND RELATED PRODUCTS</p> <p><u>Part 3 headnotes:</u></p> <p>1. Any product described in this part which is a mixture containing as an ingredient any product described in part 1 of this schedule remains classifiable in part 3 unless the part 1 ingredient, as used in the mixture, imparts therapeutic or medicinal properties thereto. Notwithstanding the provisions of part 1 of this schedule, niacin, niacinamide, meso-inositol hexanicotinate, and pyridoxine (vitamin B₆), regardless of source, are classifiable in part 3 of this schedule.</p> <p>2. For the purposes of the tariff schedules, the term "<u>drugs</u>" means those substances, whether natural or synthetic, having therapeutic or medicinal properties and chiefly used as medicines or as ingredients in medicines.</p> <p>3. For the purposes of this part --</p> <p>(a) "<u>natural substances</u>" are those substances found in nature which comprise whole plants and herbs, anatomical parts thereof, vegetable saps, extracts, secretions and other constituents thereof; whole animals, anatomical parts thereof, glands or other animal organs, extracts, secretions and other constituents thereof, and which have not had changes made in their molecular structure as found in nature;</p> <p>(b) a "<u>synthetic substance</u>" is a chemical compound made by the artificial combination of elements or radicals by any physical or chemical process;</p> <p>(c) the term "<u>crude</u>", as used in relation to natural products, means any product which has not been advanced in value or improved in condition by shredding, grinding, chipping, crushing, distilling, evaporating, extracting, by artificial mixing with other substances or by any other process or treatment beyond that which is essential to its proper packing and the prevention of decay or deterioration pending manufacture; and</p> <p>(d) the term "<u>advanced</u>", as used in relation to natural products, means any product which has been advanced in value or improved in condition from its crude state by any mechanical or physical process whatever beyond that which is essential to its proper packing and the prevention of decay or deterioration pending manufacture, but does not include any product which has been artificially mixed with other substances or the molecular structure of which as found in nature has been changed.</p>

			<p>PART 4. - SYNTHETIC RESINS AND PLASTICS MATERIALS; RUBBER</p> <p>Subpart A. - Synthetic Resins and Plastics Materials</p> <p><u>Subpart A headnotes:</u></p> <p>1. This subpart does not cover synthetic plastics materials provided for in part 1C of this schedule, but the addition of any product described in part 1 of this schedule to a synthetic plastics material described in this subpart as an antioxidant, color, dispersing agent, emulsifier, extender, filler, pesticide, plasticizer, or stabilizer does not affect the classification of such synthetic plastics material in this subpart.</p> <p>2. The term "<u>synthetic plastics materials</u>", in this subpart, embraces products formed by the condensation, polymerization, or copolymerization of organic chemicals and to which an antioxidant, color, dispersing agent, emulsifier, extender, filler, pesticide, plasticizer, or stabilizer may have been added. These products contain as an essential ingredient an organic substance of high molecular weight; are capable, at some stage during processing into finished articles, of being molded or shaped by flow; and are solid in the finished article. The term includes, but is not limited to, such products derived from esters of acrylic or methacrylic acid; vinyl acetate, vinyl chloride resins, polyvinyl alcohol, acetals, butyral, formal resins, polyvinyl ether and ester resins, and polyvinylidene chloride resins; urea and amino resins; polyethylene, polypropylene, and other polyalkene resins; siloxanes, silicones, and other organo-silicon resins; alkyd, acrylonitrile, allyl, and formaldehyde resins, and cellulosic plastics materials. These synthetic plastics materials may be in solid, semi-solid, or liquid condition such as flakes, powders, pellets, granules, solutions, emulsions, and other basic crude forms not further processed.</p> <p><u>Subpart A statistical headnotes:</u></p> <p>1. For the purposes of this subpart, the term "<u>thermoplastic resins</u>" means those materials which in their final state as finished articles are capable of being repeatedly softened by increase of temperature and hardened by decrease of temperature.</p>

			Subpart B headnotes:				
			1. This subpart covers all rubber whether or not obtained, derived, or manufactured in whole or in part from any product described in part 1 of this schedule.				
			2. (a) For the purposes of the tariff schedules, the term "rubber" means a substance, whether natural or synthetic, in bale, crumb, powder, latex, or other crude form, that-- (i) can be vulcanized or otherwise cross-linked, and (ii) after cross-linking can be stretched at 68°F. to at least three times its original length and that, after having been stretched to twice its original length and the stress removed, returns within 5 minutes to less than 150 per- cent of its original length.				
			(b) For purposes of the Tariff Schedules other than schedule 4, the term "rubber" also means any substance described in subdivision (a) that also con- tains fillers, extenders, pigments, or rubber- processing chemicals, whether or not such substance, after the addition of such fillers, extenders, pig- ments, or chemicals, can meet the tests specified in clauses (i) and (ii) of subdivision (a).

Subpart C. - Inks, Paints, and Related Products							
<u>Subpart C headnotes:</u>							
1. The provision in this subpart for artists', students', and children's pigments and paints assembled into sets (item 474.08) covers only pigments and paints assembled in such container and form, and with such assortment of articles, as to be suitable for sale at retail to artists, students, or children as a paint set, kit, or color outfit.							
1/ Rate of duty for red lead may be modified. See item 948.12 in part 2D, Appendix to the Tariff Schedules.

			<p>2. The term "<u>paints and enamel paints</u>" in this subpart covers dispersions of pigments or pigment-like materials with a liquid (vehicle) which are suitable for application to surfaces as a thin layer, and which dry (harden) to an opaque, solid film. The vehicle of paints consists of drying oils or resins which bind the pigment particles together in the film; and the vehicle of enamel paints is principally varnish. Paints and enamel paints may also contain thinners, driers, plasticizers, or other agents.</p> <p>3. The term "<u>varnishes</u>" in this subpart covers liquid surface-coating products which contain no pigments or pigment-like materials, and which dry (harden) to a transparent or translucent film. Shellac varnishes are solutions of shellac or any other form of lac in a volatile solvent such as ethyl alcohol. Oleoresinous varnishes consist of resins dissolved in or reacted with a drying oil, to which thinners, driers, and plasticizers may be added. Cellulose-derivative varnishes (lacquers) are solutions of cellulose nitrate or other cellulose derivatives in a volatile solvent.</p> <p>4. This subpart does not cover ceramic electrical ware (see subpart D of this part).</p> <p>2. For the purposes of this subpart, "<u>a heat-insulating article</u>", whether shaped or not shaped, is one having a bulk density not over 75 pounds per cubic foot and designed to impede or resist the flow of heat at temperatures above 1600°F.</p> <p>3. For the purposes of this subpart, "<u>a refractory article</u>", whether shaped or not shaped, is one having a bulk density over 75 pounds per cubic foot and designed to be used to resist temperatures above 2600°F. A shaped refractory article has special properties of strength and resistance to thermal shock and may also have, depending upon the particular uses for which designed, other special properties such as resistance to abrasion and corrosion.</p> <p>4. For the purposes of items 531.21 and 531.24, a brick which contains both chrome and magnesite is classifiable according to which of those components is the greater by weight.</p> <p><u>Subpart A statistical headnote:</u></p> <p>1. For the purposes of this subpart, standard brick equivalents (sbe.) shall be calculated on a volumetric basis, based on a brick measuring 4 1/2 inches by 2 1/2 inches by 9 inches.</p> <p style="text-align: center;">-----</p>

			<p>Subpart C. - Table, Kitchen, Household, Art and Ornamental Pottery</p> <p><u>Subpart C headnotes:</u></p> <p>1. This subpart covers ceramic articles chiefly used for preparing, serving, or storing food or beverages, or food or beverage ingredients; and certain smokers', household, and art and ornamental articles of ceramic ware. This subpart does not cover --</p> <p>(i) smokers' articles provided for in part 9B of schedule 7;</p> <p>(ii) other articles specifically provided for in schedule 7 or elsewhere in the schedules.</p> <p>2. (a) For the purposes of this subpart, the term "<u>available in specified sets</u>" (items 533.22, 533.24, 533.62, and 533.64) embraces plates, cups, saucers, and other articles chiefly used for preparing, serving, or storing food or beverages, or food or beverage ingredients, which are sold or offered for sale in the same pattern, but no article is classifiable as being "available in specified sets" unless it is of a pattern in which at least the articles listed below in (b) of this headnote are sold or offered for sale.</p> <p>(b) If each of the following articles is sold or offered for sale in the same pattern, the classification hereunder in items 533.22, 533.24, 533.62, or 533.64, of all articles of such pattern shall be governed by the aggregate value of the following articles in the quantities indicated, as determined by the appropriate customs officer under section 402 of the Tariff Act of 1930, as amended, whether or not such articles are imported in the same shipment:</p> <p>12 plates of the size nearest to 10.5 inches in maximum dimension, sold or offered for sale,</p> <p>12 plates of the size nearest to 6 inches in maximum dimension, sold or offered for sale,</p> <p>12 tea cups and their saucers, sold or offered for sale,</p> <p>12 soups of the size nearest to 7 inches in maximum dimension, sold or offered for sale,</p> <p>12 fruits of the size nearest to 5 inches in maximum dimension, sold or offered for sale,</p> <p>1 platter or chop dish of the size nearest to 15 inches in maximum dimension, sold or offered for sale,</p> <p>1 open vegetable dish or bowl of the size nearest to 10 inches in maximum dimension, sold or offered for sale,</p> <p>1 sugar of largest capacity, sold or offered for sale,</p> <p>1 creamer of largest capacity, sold or offered for sale.</p>

			If either soups or fruits are not sold or offered for sale, 12 cereals of the size nearest to 6 inches in maximum dimension, sold or offered for sale, shall be substituted therefor.				
			(c) The percentage of water absorption of cast and jiggered ceramic articles of the same pattern, which are "available in specified sets" and which are imported together in a ratio of at least 5 jiggered articles to 1 cast article in the same shipment shall be the average water absorption of such cast and jiggered articles, of the same pattern in the shipment, which average absorption shall be deemed to be equivalent to 5 percent of the water absorption of a representative sample of such cast articles plus 95 percent of the water absorption of a representative sample of such jiggered articles.				
			3. In those provisions of this part which classify merchandise according to the value of each "article", an article is a single tariff entity which may consist of more than one piece. For example, a vegetable dish and its cover, or a beverage pot and its lid, imported in the same shipment, constitute an article.

Part 2 - Metals, Their Alloys, and Their Basic Shapes and Forms

- A. Precious Metals
- B. Iron or Steel
- C. Copper
- D. Aluminum
- E. Nickel
- F. Tin
- G. Lead
- H. Zinc
- J. Beryllium, Columbium, Germanium, Hafnium, Indium, Magnesium, Molybdenum, Rhenium, Tantalum, Titanium, Tungsten, Uranium, and Zirconium
- K. Other Base Metals

Part 3 - Metal Products

- A. Metallic Containers
- B. Wire Cordage; Wire Screen, Netting and Fencing; Bale Ties
- C. Metal Leaf and Foil; Metallics
- D. Nails, Screws, Bolts, and Other Fasteners; Locks, Builders' Hardware; Furniture, Luggage, and Saddlery Hardware
- E. Tools, Cutlery, Forks and Spoons
- F. Miscellaneous Metal Products
- G. Metal Products Not Specially Provided For

Part 4 - Machinery and Mechanical Equipment

- A. Boilers, Non-Electric Motors and Engines, and Other General-Purpose Machinery
- B. Elevators, Winches, Cranes, and Related Machinery; Earth-Moving and Mining Machinery
- C. Agricultural and Horticultural Machinery; Machinery for Preparing Food and Drink
- D. Pulp and Paper Machinery; Bookbinding Machinery; Printing Machinery
- E. Textile Machines; Laundry and Dry Cleaning Machines; Sewing Machines
- F. Machines for Working Metal, Stone, and Other Materials
- G. Office Machines
- H. Other Machines
- J. Parts of Machines

Part 5 - Electrical Machinery and Equipment

Part 6 - Transportation Equipment

- A. Rail Locomotives and Rolling Stock
- B. Motor Vehicles
- C. Aircraft and Spacecraft
- D. Pleasure Boats; Floating Structures

Schedule 6 headnotes:

1. This schedule does not cover --

- (i) chemical elements (except thorium and uranium) and isotopes which are usefully radioactive (see part 13B of schedule 4);
- (ii) the alkali metals, i.e., cesium, lithium, potassium, rubidium, and sodium (see part 2A of schedule 4); or
- (iii) certain articles and parts thereof, of metal, provided for in schedule 7 and elsewhere.

2. For the purposes of the tariff schedules, unless the context requires otherwise --

(a) the term "precious metal" embraces gold, silver, platinum and other metals of the platinum group (iridium, osmium, palladium, rhodium, and ruthenium), and precious-metal alloys;

(b) the term "base metal" embraces aluminum, antimony, arsenic, barium, beryllium, bismuth, boron, cadmium, calcium, chromium, cobalt, columbium, copper, gallium, germanium, hafnium, indium, iron, lead, magnesium, manganese, mercury, molybdenum, nickel, rhenium, the rare-earth metals (including scandium and yttrium), selenium, silicon, strontium, tantalum, tellurium, thallium, thorium, tin, titanium, tungsten, uranium, vanadium, zinc, and zirconium, and base-metal alloys;

(c) the term "metal" embraces precious metals, base metals, and their alloys; and

(d) in determining which of two or more equally specific provisions for articles "of iron or steel", "of copper", "of aluminum", or "of" other base metals applies to an article containing two or more base metals and wholly or in chief value thereof, the classification shall be made according to the base metal which predominates by weight over each of the other base metals rather than according to the base metal in chief value.

Schedule 6 statistical headnote:

1. When refined or smelted products are withdrawn for exportation from bonded smelting or refining warehouses established under section 312, Tariff Act of 1930, as amended, that part of each such product which entered into a bonded smelting or refining warehouse as metal-bearing material without the payment of duty thereon, must be reported separately on the warehouse withdrawal form (CF 7512) to show the statistical reporting number for the imported metal-bearing material as reported on the warehouse entry form (CF 7502).

			<p>(f) <u>Maintenance of Plant Records:</u> Each plant for which any of the deductions provided for in this headnote are claimed shall maintain records showing the receipt and disposition of each shipment of materials received in the plant and, if losses are to be claimed under headnote 4(c), supra, a record of the losses experienced, and these records shall be made available for inspection by customs officers.</p> <p>5. When the classification of imported materials under any provision of this part is dependent on the percentage of metal content, such percentage shall be the ratio of the total quantity of the respective metal content to the total quantity of imported material when computed on a dry-weight basis, i.e., free of all uncombined moisture.</p> <p><u>Part 1 statistical headnote:</u></p> <p>1. For the purposes of this part --</p> <p>(a) the statistical reporting requirements for lead-, zinc-, or copper-bearing ores differ from the usual requirements in that multiple numbers must be used to report a single commodity. In all cases where ores are dutiable on the metal content under one or more of the items 602.10-.30, one or more of the reporting numbers under items 601.03-.66 must also be shown on separate lines on the import entry form. For example, a shipment of zinc concentrates to be initially treated at a zinc plant and containing also lead and copper (in excess of 2 percent by weight, as determined by chemical analysis without deductions), and also gold and silver, shall be reported under the following eight reporting numbers:</p> <p>601.6621 (lead content), 601.6622 (zinc content), 601.6623 (copper content), 601.6624 (gold content), 601.6625 (silver content), 602.1021 (dutyable lead content), 602.2022 (dutyable zinc content), and 602.3023 (dutyable copper content);</p> <p>(b) the 7-digit reporting numbers under items 601.39, 601.66, 603.50, 603.55, and 603.65 are not mutually exclusive. For example, a material classifiable under item 603.55 and containing lead, copper, gold, and silver would require the numbers 603.5510 (lead content), 603.5530 (copper content), 603.5540 (gold content), and 603.5550 (silver content). The quantity and value of each component metal of the material should be shown with the corresponding 7-digit number;</p> <p>(c) the quantity of metal content to be reported shall be the assay quantity without deductions unless otherwise specified;</p> <p>(d) for lead-, copper-, or zinc-bearing ores separate values for each such metal shall be reported in connection with the quantities reported under items 602.10, 602.20, or 602.30. The value of the gold or silver content, if any, shall be reported in connection with the appropriate 7-digit number in item 601.39 or 601.66. The sum of the separate values shown shall be equal to the total value of the ore; and</p>

G S P	Item	Stat. Suf- fix	Articles	Units of Quantity	Rates of Duty		
					1	LDDC	2
			<p>PART 2. - METALS, THEIR ALLOYS, AND THEIR BASIC SHAPES AND FORMS</p> <p><u>Part 2 headnotes:</u></p> <p>1. This part covers precious metals and base metals (including such metals when they are chemically pure), their alloys, and their so-called basic shapes and forms, and, in addition, covers metal waste and scrap. Unless the context requires otherwise, the provisions of this part apply to the products described by whatever process made (i.e., whether rolled, forged, drawn, extruded, cast or sintered) and whether or not such products have been subjected to treatments to improve the properties or appearance of the metals or to protect them against rusting, corrosion or other deterioration. These treatments include annealing, tempering, case-hardening and similar heat-treatments or nitriding; descaling, pickling, scraping, scaling and other processes to remove oxidation scale and crust; rough coating with oil, tar, grease, red lead, or other material to prevent rusting; polishing, burnishing, glazing, artificial oxidation, phosphatizing, and other finishing treatments; metallization by cementation, by electroplating, by immersion in a bath of molten metal, or by other means; coating with enamel, paint, lacquer, or other non-metallic substances; and cladding. This part does not include --</p> <ul style="list-style-type: none"> (i) insulated electric conductors (see part 5 of this schedule); (ii) milliners' wire and other wire covered with textile or other nonmetallic material (see part 3B of this schedule); (iii) leaf and foil (see part 3C of this schedule); or (iv) other articles specially provided for elsewhere in the tariff schedules, or parts of articles. <p>2. <u>Alloys.</u> -- (a) For the purposes of the tariff schedules, alloys are defined and classifiable as hereinafter set forth. Alloys are metallic substances consisting of two or more metals, or of one or more metals and one or more non-metals, intimately united, usually by having been fused together and which may or may not have been dissolved in each other when molten; they include sintered mixtures of metal powders and heterogeneous intimate mixtures obtained by fusion, but do not include substances in which the total weight of the metals does not equal or exceed the total weight of the non-metal components.</p>

			<p>(b) <u>Precious-metal alloys</u> are alloys which contain 2 percent or more by weight of one or more metals of the platinum group, of gold, or of silver. Precious-metal alloys are classifiable as --</p> <p>(i) alloys of platinum, if they contain 2 percent or more by weight of one or more metals of the platinum group;</p> <p>(ii) alloys of gold, if they contain 2 percent or more by weight of gold, but contain no metal of the platinum group or less than 2 percent by weight thereof; and</p> <p>(iii) alloys of silver, if they contain 2 percent or more by weight of silver, and are not alloys of platinum or alloys of gold, as defined in (b)(i) and (b)(ii), respectively, of this headnote.</p> <p>(c) <u>Base-metal alloys</u> are alloys which contain one or more base metals and are not any of the precious-metal alloys, as defined in (b) of this headnote. Base-metal alloys are classifiable as --</p> <p>(i) alloys of that base metal which predominates by weight over each of the other metallic elements contained therein, except as specified in (c)(ii) of this headnote; and</p> <p>(ii) ferroalloys (as defined in headnote 2(e) of subpart B of this part) or master alloys (as defined in headnote 2(b) of subpart C of this part) under their respective headings in subpart B or C of this part, regardless of the base metal therein which predominates by weight.</p> <p>(d) In the tariff schedules, unless the context requires otherwise, a provision for a specific metal includes that metal and its alloys.</p> <p>3. For the purposes of this part, unless the context requires otherwise --</p> <p>(a) the term "<u>unwrought</u>" refers to metal, whether or not refined, in the form of ingots, blocks, lumps, billets, cakes, slabs, pigs, cathodes, anodes, briquettes, cubes, sticks, grains, sponge, pellets, shot, and similar primary forms, but does not cover rolled, forged, drawn, or extruded products, tubular products, or cast or sintered forms which have been machined or processed otherwise than by simple trimming, scalping, or descaling;</p> <p>(b) the term "<u>waste and scrap</u>" refers to materials and articles of metal which are second-hand or waste or refuse, or are obsolete, defective or damaged, and which are fit only for the recovery of the metal content or for use in the manufacture of chemicals, and does not include metal in unwrought form or metal-bearing materials provided for in part 1 of this schedule;</p> <p>(c) the term "<u>wrought</u>", as applied to metal products other than wrought iron, refers to products which have been rolled, forged, drawn, or extruded, and also refers to cast or sintered products which have been machined or processed otherwise than by simple trimming, scalping, or descaling;</p>

			<p>(d) the term "<u>clad</u>", as applied to metal products, refers to such products with two or more layers of metal of different colors or natures which have been associated or bonded together by forging, hammering, rolling, or other mechanical or thermic process to insure welding or molecular interpenetration of the surfaces in contact; and</p> <p>(e) the term "<u>pipes and tubes and blanks therefor</u>" covers tubular products, including hollow bars and hollow billets but not including hollow drill steel, of any cross-sectional configuration, by whatever process made, whether seamless, brazed, or welded and whether with an open or lock seam or joint.</p> <p>4. No allowance or reduction of duties for partial damage or loss in consequence of discoloration or rust occurring before importation shall be made upon iron or steel or upon any article of iron or steel.</p> <p style="text-align: center;">Subpart A. - Precious Metals</p> <p><u>Subpart A headnotes:</u></p> <p>1. This subpart does not cover --</p> <p>(a) base metals coated or plated with precious metal or articles thereof; or</p> <p>(b) jewelry, parts of jewelry, and other articles and parts specially provided for elsewhere in this schedule or in schedule 7.</p> <p>2. For the purposes of the tariff schedules --</p> <p>(a) the term "<u>platinum</u>" refers to platinum and other metals of the platinum group (iridium, osmium, palladium, rhodium, and ruthenium), separately or together, and the term "<u>the metal platinum</u>" refers to the metal platinum alone;</p> <p>(b) the term "<u>semimanufactured</u>" refers to wrought metal products in the form of bars, rods, sections, plates, sheets, strips, wire, tubes, pipes, and hollow bars, and to powder (other than primary metal in powder form);</p> <p>(c) the term "<u>rolled</u>", as used in regard to precious metals, means material made with a metal base upon one or more surfaces of which a covering of precious metal is affixed by soldering, brazing, welding, hot-rolling, or similar mechanical methods, and also includes base metal inlaid with precious metal.</p>

			<p>3. <u>Forms and Condition of Iron or Steel.</u>—For the purposes of this subpart, the following terms have the meanings hereby assigned to them:</p> <p>(a) <u>Ingot</u>: Castings resulting from the solidification of molten steel and having a columnar form suitable for working by rolling or forging.</p> <p>(b) <u>Blooms and billets</u>: Semifinished products generally of rectangular or circular cross section, having a length several times greater than the maximum cross-sectional dimension, and, if rectangular, a width less than 4 times the thickness. A bloom is at least 36 square inches in cross-sectional area; a billet is less than 36 square inches but not less than 3 square inches in cross-sectional area.</p> <p>(c) <u>Slabs and sheet bars</u>: Semifinished products of rectangular cross section, having a width of at least 4 times the thickness. A slab is not less than 2 inches and not over 6 inches in thickness; a sheet bar is less than 2 inches in thickness.</p> <p>(d) <u>Bars</u>: Products of solid section not conforming completely to the respective specifications set forth herein for blooms, billets, slabs, sheet bars, wire rods, plates, sheets, strip, wire, rails, joint bars, or tie plates, and which have cross sections in the shape of circles, segments of circles, ovals, triangles, rectangles, hexagons, or octagons. <u>Deformed concrete reinforcing bars</u> are hot-rolled steel bars, of solid cross section, having deformations of various patterns on their surfaces.</p> <p>(e) <u>Hollow drill steel</u>: A hollow steel product in any cross section suitable for use in making mining drills or mining drill rods, with the largest internal cross-sectional dimension not greater than one-third of the largest external cross-sectional dimension.</p> <p>(f) <u>Wire rods</u>: A coiled, semifinished, hot-rolled product of solid cross section, approximately round in cross section, not under 0.20 inch nor over 0.74 inch in diameter.</p> <p>(g) <u>Plates and sheets</u>: Plates are flat rolled products whether or not corrugated or crimped, in coils or cut to length, 0.1875 inch or more in thickness and, if not cold rolled, over 8 inches in width, or, if cold rolled, over 12 inches in width. Sheets are flat rolled products whether or not corrugated or crimped, in coils or cut to length, under 0.1875 inch in thickness and over 12 inches in width. For the purposes of this subpart —</p> <p>(i) the term "<u>black plate</u>" refers to cold-rolled steel sheets, not coated, under 0.0142 inch in thickness;</p>

			<p>(ii) the term "<u>tin plate and tin coated sheets</u>" refers to tin coated steel sheets; and</p> <p>(iii) the term "<u>terne plate and terne coated sheets</u>" refers to steel sheets coated with terne metal (a lead-tin alloy).</p> <p>(h) <u>Strip</u>: A flat rolled product whether or not corrugated or crimped, in coils or cut to length, under 0.1875 inch in thickness, and, if cold rolled, over 0.50 inch but not over 12 inches in width, or, if not cold rolled, not over 12 inches in width.</p> <p>(i) <u>Wire</u>: A finished, drawn, non-tubular product, of any cross-sectional configuration, in coils, and not over 0.703 inch in maximum cross-sectional dimension. The term also includes a product of solid rectangular cross section, in coils, with a cold-rolled finish, and not over 0.25 inch thick and not over 0.50 inch wide.</p> <p>(j) <u>Angles, shapes, and sections</u>: Products which do not conform completely to the respective specifications set forth herein for blooms, billets, slabs, sheet bars, bars, wire rods, plates, sheets, strip, wire, rails, joint bars, or tie plates, and do not include any tubular products.</p> <p>(k) <u>Rails</u>: Hot-rolled steel products, weighing not less than 8 pounds per yard, with cross-sectional shapes intended for carrying wheel loads in railroad, railway, and crane runway applications. Rails may be punched or not punched.</p> <p>(l) <u>Joint bars</u>: Hot-rolled steel products designed to connect the ends of adjacent rails in track. Joint bars are usually punched or slotted.</p> <p>(m) <u>Tie plates</u>: Hot-rolled steel products used to support rails in track, to maintain track gauge and protect the ties. Tie plates are punched to provide holes for spikes and have one or two shoulder sections as rail guides.</p> <p>4. <u>Additional duties</u>: Iron or steel products which contain, by weight, one or more of the following elements in the quantity, by weight, respectively indicated:</p> <ul style="list-style-type: none">over 0.2 percent of chromium, orover 0.1 percent of molybdenum, orover 0.3 percent of tungsten, orover 0.1 percent of vanadium, <p>are subject to additional cumulative duties as provided for in items 606.00, 606.02, 606.04, and 606.06, but these duties apply only with respect to products covered by provisions which make specific reference to "additional duties" in the "Rates of Duty" columns.</p>

			Subpart C. - Copper				
			Subpart C headnotes:				
			1. This subpart covers copper, its alloys, and their so-called basic shapes and forms, and in addition covers copper waste and scrap.				
			2. For the purposes of the tariff schedules, the following terms have the meanings indicated:				
			(a) <u>Alloys of copper</u> : Copper-base alloys or metals in which the copper content is, by weight, less than 99.3 percent, but not less than any other metallic element. For the purposes of this subpart --				
			(i) <u>nickel silver</u> is an alloy of copper which contains by weight 5 percent or more of zinc and 5 percent or more of nickel, with or without small quantities of other elements;				
			(ii) <u>brass</u> is an alloy of copper (not including nickel silver) in which zinc is the principal alloying element, with or without small quantities of other elements;				
			(iii) <u>cupro-nickel</u> is an alloy of copper in which nickel is the principal alloying element and which does not contain by weight over 2 percent of any other single element.				
			In the absence of context which requires otherwise, the term " <u>copper</u> ", wherever used in the tariff schedules, includes alloys of copper.

			<p>(b) <u>Master alloys</u>: Alloys of copper with other materials in any proportion, not usefully malleable and commonly used as raw material in the manufacture of other alloys or as de-oxidants, de-sulphurizing agents or for similar uses in the metallurgy of non-ferrous metals. For the purposes of this subpart --</p> <p>(i) <u>manganese copper</u> is a master alloy which contains copper and manganese, in which the manganese content ranges by weight from 5 to 45 percent, with copper the balance; and</p> <p>(ii) <u>phosphor copper</u> is a master alloy which contains phosphorus and copper, in which the phosphorus content ranges by weight from 5 to 16 percent, with copper the balance.</p> <p>3. For the purposes of this subpart, the following terms have the meanings indicated:</p> <p>(a) <u>Bars and plates</u>: Products of solid rectangular cross section over 0.188 inch in thickness, in coils or cut to length, whether or not corrugated or crimped. Bars are not over 12 inches in width and plates are over 12 inches in width.</p> <p>(b) <u>Sheets and strips</u>: Products of solid rectangular cross section not over 0.188 inch but over 0.006 inch in thickness, in coils or cut to length, whether or not corrugated or crimped. Sheets are over 20 inches in width; strips are not over 20 inches in width and do not include flat wire, as defined in (d) below.</p> <p>(c) <u>Rods</u>: Products of round, half-round, quarter-round, oval, half-oval, triangular, pentagonal, hexagonal, octagonal, or decagonal solid cross section, in straight lengths or in coils, and which if in coils are over 0.375 inch in maximum cross-sectional dimension.</p> <p>(d) <u>Wire</u>: A non-tubular product of any cross-sectional configuration, which if flat is in coils or straight lengths, not over 1.25 inches in width, not over 0.188 inch in thickness, and has all surfaces rolled or drawn, and which if not flat is not over 0.375 inch in maximum cross-sectional dimension and is in coils.</p> <p>(e) <u>Angles, shapes, and sections</u>: Products which do not conform completely to the respective definitions set forth in this headnote for bars, plates, sheets, strip, rods, or wire, and do not include any tubular products.</p> <p>4. For the purposes of this subpart, any continuous cast product, whether or not machined or otherwise processed, which is substantially comparable to, and suitable for the same general purposes as, a wrought product provided for in this subpart shall be classified under the same provision and at the same rate as such wrought product, notwithstanding the provisions of headnotes 3(a) and 3(c) of this part.</p>

			<p>5. <u>Determination of Market Price of Copper for Rate of Duty Purposes.</u>—(a) In this subpart, column 1 of the Rates of Duty columns has been divided into two columns, viz., 1-a and 1-b. The rates of duty in column 1-a apply when the market price of copper is 24 cents or more per pound, and the rates of duty in column 1-b apply when the market price of copper is under 24 cents per pound.</p> <p>(b) For the purposes of the provisions of items 602.28, 602.30, and 603.49 through 603.55 in part 1 of this schedule relating to copper-bearing materials, and of the provisions of this subpart, the market price of copper is the average market price per pound for one calendar month of electrolytic copper in standard shapes and sizes, delivered Connecticut Valley, as determined by the United States International Trade Commission and reported to the Secretary of the Treasury in accordance with procedures set forth below.</p> <p>(c) The market price of copper, as defined above, shall be considered to be below 24 cents per pound only on and after the 20th day after the date of a report by the United States International Trade Commission to the Secretary of the Treasury that it has determined that the said market price has been below 24 cents per pound for one calendar month.</p> <p>(d) After any report by the United States International Trade Commission to the Secretary of the Treasury as provided for in (b) above, the said market price shall be considered as not being below 24 cents per pound only on and after the 20th day after the date of a report by the said Commission to the said Secretary that it has determined that the said market price has been 24 cents or more per pound for one calendar month.</p> <p>(e) Determinations by the said Commission of the market price of electrolytic copper shall be based upon sources commonly resorted to by the buyers of copper in the usual channels of commerce, including, but not limited to, quotations of the market price for electrolytic copper, in standard shapes and sizes, delivered Connecticut Valley, reported by the Engineering and Mining Journal's "Metal and Mineral Markets".</p> <p>6. The deductions provided for in headnote 4(b) of part 1 of this schedule shall apply to cement copper and copper precipitates (item 612.02) subject to the conditions specified in headnote 4 of said part 1.</p> <p><u>Subpart C statistical headnote:</u></p> <p>1. For the purposes of this subpart—</p> <p>(a) the term "<u>beryllium copper</u>" refers to an alloy of copper as defined by the Tariff Schedules which contains by weight not less than 0.02 percent but less than 3 percent of beryllium with or without small quantities of other elements, and</p> <p>(b) the term "<u>beryllium copper master alloy</u>" refers to a master alloy which contains beryllium and copper, in which the beryllium content ranges by weight from 3 to 5 percent with copper the balance.</p>

			<p>Subpart D. - Aluminum</p> <p><u>Subpart D headnotes:</u></p> <p>1. This subpart covers aluminum, its alloys, and their so-called basic shapes and forms and also covers aluminum waste and scrap.</p> <p>2. <u>Alloys of aluminum:</u> For the purposes of the tariff schedules, alloys of aluminum are metals in which the aluminum content is, by weight, less than 99.0 percent, but not less than any other metallic element. <u>Aluminum silicon</u> is an alloy of aluminum containing not less than 25 percent of silicon. In the absence of context which requires otherwise, the term "<u>aluminum</u>", wherever used in the tariff schedules, includes alloys of aluminum.</p> <p>3. For the purposes of this subpart, the following terms have the meanings indicated:</p> <p>(a) <u>Bars:</u> Products of solid rectangular cross section, 0.25 inch or more in thickness and over 0.375 inch but not over 12 inches in width, in coils or cut to length; and products of solid hexagonal or octagonal cross section, 0.375 inch or more in thickness (measuring the perpendicular distance between opposite faces) in coils, or of any thickness in straight lengths.</p> <p>(b) <u>Rods:</u> Products of solid round cross section, which, if 0.375 inch or more in diameter, are in coils or cut to length, and which, if under 0.375 inch in diameter, are in straight lengths.</p> <p>(c) <u>Plates, sheets, and strips:</u> Products of solid rectangular cross section, in coils or cut to length, whether or not corrugated or crimped. Plates are 0.25 inch or more in thickness and over 12 inches in width; sheets and strip are under 0.25 but not under 0.006 inch in thickness.</p> <p>(d) <u>Wire:</u> A product of solid round, rectangular, hexagonal, or octagonal cross section, in coils, whose diameter, width, or perpendicular distance between opposite faces is less than 0.375 inch.</p> <p>(e) <u>Angles, shapes, and sections:</u> Products which do not conform completely to the respective definitions set forth in this headnote for bars, plates, sheets, strips, rods, or wire and do not include any tubular products.</p> <p><u>Subpart D statistical headnote:</u></p> <p>1. For purposes of this subpart, the term "<u>beryllium aluminum master alloy</u>" refers to an alloy of aluminum which contains not less than 4 percent of beryllium.</p>

			Subpart K. - Other Base Metals				
			Subpart K headnotes:				
			1. This subpart covers base metals not provided for in subparts B through J of this part, and their alloys, wrought and unwrought, and also includes the waste and scrap of such base metals. This subpart does not cover ferrocerium and other pyrophoric alloys (see part 9A of schedule 7).				
			2. <u>Alloys</u> : For the purposes of the tariff schedules, alloys of each of the base metals provided for in this subpart are metals in which the content of the respective base metal is, by weight, less than 99.0 percent, but not less than any other metallic element. In the absence of context which requires otherwise, a reference to one of the base metals by name, wherever used in the tariff schedules, includes alloys of such base metal.

			<p>PART 3. - METAL PRODUCTS</p> <p><u>Part 3 headnotes:</u></p> <p>1. For the purposes of this part -- (a) "wire" is deemed to be a base-metal product which conforms to the respective cross-sectional measurements for base-metal wires in part 2, whether or not conforming otherwise to the specifications set forth therein. In the provisions of this part which describe wire in terms of its cross-sectional dimension, the dimension specified is that of such wire without its metal coating, if any.</p> <p>2. The provisions in this part which specifically refer to kitchen or table ware, or to table, kitchen, or household utensils and articles, include articles of types which are used outdoors as well as those which are used indoors.</p> <p>-----</p> <p>Subpart A. - Metallic Containers</p> <p><u>Subpart A headnotes:</u></p> <p>1. The provisions in this subpart for containers include such containers whether or not equipped with fittings such as taps, valves, level gauges, and manometers. This subpart, however, does not include -- (i) containers with provision made for circulating heating or cooling fluids between the walls, or with mechanical or thermal equipment such as agitators, heating or cooling coils, or electrical elements (see parts 4 and 5 of this schedule); (ii) luggage, handbags, or flat goods (see part 1D of schedule 7); (iii) furniture (see part 4 of schedule 7); (iv) cases for musical instruments (see part 3B of schedule 7); or (v) articles of precious metal or rolled precious metal, or articles coated or plated with precious metal.</p> <p>2. General principles with respect to containers are set forth in headnote 6 of the General Headnotes. Special classification provisions relating to substantial containers suitable for reuse are included in parts 1C and 5C of schedule 8.</p> <p>-----</p>

			<p>5. For the purposes of the tariff schedules hand-held Citizens Band (CB) radio transceivers are Citizens Band (CB) radio transceivers designed for operation in the hand, having a permanently affixed antenna and an internal microphone, and not designed for use with an external power source.</p> <p><u>Part 5 statistical headnotes:</u></p> <p>1. For statistical reporting purposes in this part (item 685.40), "<u>audio machines</u>" are those machines designed specifically for recording, reproducing, or recording and reproducing frequencies in the sound spectrum only.</p> <p>2. For statistical reporting purposes in this part (item 685.40), "<u>video machines</u>" are those designed specifically for recording or recording and reproducing video signals. An audio track may or may not be included on the recording medium.</p> <p>3. For statistical reporting purposes in this part, "<u>stereo</u>" apparatus will be considered to be capable of reproducing two (and no more) discrete audio signals.</p> <p>4. To determine the video display diagonal in items 685.11, 685.14, 685.50, and 687.35, measurements shall be taken of the maximum straight line dimension across that part of the face-plate used for displaying video, and shall be rounded to the nearest inch. Measurements falling exactly on the 1/2 inch shall be rounded to the next larger integer.</p> <p>5. For statistical reporting purposes in this part (items 685.21 and 685.24), "<u>entertainment broadcast band receivers</u>" are those receivers designed principally to receive signals in the AM (550-1650 KHz) and FM (88-108 MHz) entertainment broadcast bands whether or not capable of receiving signals on certain other bands (e.g., aviation, television, marine, public safety, industrial, and citizens band).</p> <p>6. For statistical reporting purposes in this part (item 685.24), the lowest operating frequency will determine the classification.</p> <p>7. For statistical reporting purposes in this part (item 687.58), "<u>memory integrated circuits</u>" are integrated circuits consisting principally of cells capable of storing retrievable data and "<u>micro-processor integrated circuits</u>" are integrated circuits capable of executing a processing program and of storing at least the data necessary for the execution of the program.</p> <p>8. For statistical reporting purposes in this part (item 685.14), the term "<u>incomplete receivers</u>" refers to assemblies other than kits containing all parts necessary for assembly into complete color television receivers, which consist at least of, or are covered in the same entry with, a color picture tube and a printed circuit board or ceramic substrate, with components assembled thereon, designed to perform the intermediate frequency amplification functions or the picture and audio demodulation functions of a color television receiver.</p>

			<p>9. For statistical reporting purposes in this part (item 685.2941), "marine VHF-FM radio transceivers" are those transceivers capable of transmitting on frequencies from 156.025 to 157.425 MHz (FM) and which have been granted an appropriate type-acceptance by the Federal Communications Commission. These transceivers are capable of receiving signals on frequencies between 156 and 163 MHz (FM), as well as on other bands (e.g., weather, AM/FM entertainments, etc.).</p> <p>10. For the purpose of item 688.36--</p> <p>(a) The term "watches" embraces timepieces (including timepieces having special features such as chronographs, calendar watches, stopwatches, and watches designed for use in skin diving) suitable for wearing or carrying on or about the person, whether or not the module therein is within the definition of "watch module" in headnote 10(b) below.</p> <p>(b) The term "watch module" means a device, measuring less than 1.77 inches in width and less than 0.50 inch in thickness, regulated by a quartz crystal or any other system capable of determining intervals of time, with a display or system to which a display can be incorporated.</p> <p>(c) The term "clock module" means any device, other than a "watch module" as defined in headnote 10(b) above, intended or suitable for measuring time.</p> <p>-----</p> <p>Generators, motors, motor-generators, converters (rotary or static), transformers, rectifiers and rectifying apparatus, and inductors; all the foregoing which are electrical goods, and parts thereof:</p> <p>Transformers:</p> <p>Rated at less than 1 kva.....</p> <p>Rated at less than 40 kva.....</p> <p>Rated at 40 kva or more.....</p> <p>Other.....</p> <p>Unrated transformers.....</p> <p>Rated at 1 kva or more, but not over 50 kva.....</p> <p>Rated over 50 kva, but not over 100 kva.....</p> <p>Rated over 100 kva, but not over 500 kva.....</p> <p>Rated over 500 kva, but not over 2,500 kva.....</p>

			<p>Subpart E. - Watches, Clocks, and Timing Apparatus</p> <p><u>Subpart E headnotes:</u></p> <p>1. This subpart covers watches and clocks, time switches and other timing apparatus with clock or watch movements, and parts of these articles. This subpart, however, does not cover --</p> <p>(i) asynchronous or subsynchronous motors (see part 5 of schedule 6);</p> <p>(ii) screws, nuts, and bolts (see part 3D of schedule 6);</p> <p>(iii) music boxes and their mechanisms (see part 3 of schedule 7);</p> <p>(iv) combination articles provided for elsewhere in the tariff schedules; or</p> <p>(v) clock and watch glasses and glass domes (see part 3 of schedule 5).</p> <p>2. For the purposes of this subpart --</p> <p>(a) the term "<u>watches</u>" embraces timepieces (including timepieces having special features, such as chronographs, calendar watches, stopwatches, and watches designed for use in skydiving) suitable for wearing or carrying on or about the person, whether or not the movement therein is within the definition of "watch movement" in headnote 2(b), below;</p> <p>(b) the term "<u>watch movement</u>" means a timepiece movement measuring less than 1.77 inches in width and less than 0.50 inch in thickness;</p> <p>(c) the term "<u>clock movement</u>" means any movement or mechanism, other than "watch movements" as defined in headnote 2(b), above, intended or suitable for measuring time;</p> <p>(d) the term "<u>cases</u>" embraces inner and outer cases, containers, and housings for movements, together with parts or pieces, such as, but not limited to, rings, feet, posts, bases, and outer frames, and any auxiliary or incidental features, which (with appropriate movements) serve to complete the watches, clocks, time switches, and other apparatus provided for in this subpart; and</p> <p>(e) the term "<u>jewels</u>" includes substitutes for jewels.</p> <p>3. (a) The complete citation for watches covered by item 715.05 and clocks covered by items 715.15 and 715.16 shall be each of such item numbers, followed by the appropriate item numbers for the respective movements and cases comprising such watches or clocks. Thus, item 715.05-716.04-720.20 is the correct citation for a watch in a gold case with a movement having over 17 jewels and valued not over \$15.</p>

			<p>(b) In this subpart, each of the rates of duty provided for watch movements, having no jewels or not over 17 jewels, not adjusted, not self-winding, and not constructed or designed to operate for a period in excess of 47 hours without rewinding (items 716.10 through 716.44, inclusive) is also the "base rate" for watch movements having the same width and number of jewels covered by item 719.--. For citation purposes, the two blanks on the end of such item number shall be filled in with the last two digits of the item number for the applicable base rate. Thus, "item 719.38" would be the citation for a watch movement, 0.7 inch wide, having 17 jewels, which is adjusted or self-winding or constructed or designed to operate for a period in excess of 47 hours without rewinding, and valued not over \$15.</p> <p>(c) The width of a watch or clock movement, as defined in headnote 2(b) and (c) of this subpart, is the shortest surface dimension through the center of the pillar or bottom plate, or its equivalent, not including in the measurement any portion not essential to the functioning of the movement; and the thickness of a "watch movement", as so defined, is the maximum thickness between the outside surfaces of the plate and bridges, or their equivalents.</p> <p>(d) The additional duty for adjustments to watch movements applies to each adjustment of whatever kind (treating adjustment to temperature as two adjustments), in accordance with the marking as hereinafter provided for.</p> <p>(e) Bimetallic balance wheels which are not part of balance assemblies, and mainsprings with riveted ends, are each to be considered as one part or piece, for the purposes of assessing duties on assemblies and subassemblies provided for in items 720.75, 720.80, 720.82, 720.84, and 720.86.</p> <p>4. <u>Special Marking Requirements:</u> Any movement, case, or dial provided for in this subpart, whether imported separately or attached to an article provided for in this subpart, shall not be permitted to be entered unless conspicuously and indelibly marked by cutting, die-sinking, engraving, or stamping, as specified below:</p> <p>(a) Watch movements shall be marked on one or more of the bridges or top plates to show --</p> <p>(i) the name of the country of manufacture,</p> <p>(ii) the name of the manufacturer or purchaser,</p> <p>(iii) in words, the number of jewels, if any, serving a mechanical purpose as frictional bearings; and</p> <p>(iv) in words, the number and classes of adjustments, or, if unadjusted, the word "unadjusted".</p>

In such circumstances, the movement and its dial shall also be subject to the same marking requirements provided for in headnote 4 of this subpart. However, such separate assessment and special marking shall not be applicable to movements which, when imported, are installed as the usual equipment of vehicles or craft provided for in part 6 of schedule 6 or as integral and essential parts of laboratory, industrial, or commercial apparatus or equipment.</p> <p>6. <u>Products of Insular Possessions.</u>--(a) Except as provided in paragraph (b) of this headnote, any article provided for in this subpart which is the product of an insular possession of the United States outside the customs territory of the United States and which contains any foreign component shall be subject to duty--</p> <p>(i) at the rates set forth in column numbered 1, if the countries of origin of more than 50 percent in value of the foreign components are countries to products of which column numbered 1 rates apply, and</p> <p>(ii) at the rates set forth in column numbered 2, if the countries of origin of 50 percent or more in value of the foreign components are countries to products of which column numbered 2 rates apply.</p>

			<p>(b) If the requirements for free entry set forth in general headnote 3(a) are complied with, watches (provided for in item 715.05) and watch movements (provided for in items 716.04 through 719.--) which are the product of the Virgin Islands, Guam, or American Samoa and which contain any foreign component may be admitted free of duty, but the total quantity of such articles entered free of duty during each calendar year shall not exceed a number equal to 1/9 of the apparent United States consumption of watch movements during the preceding calendar year (as determined by the International Trade Commission), of which total quantity--</p> <p>(i) not to exceed 87.5 percent shall be the product of the Virgin Islands,</p> <p>(ii) not to exceed 8.33 percent shall be the product of Guam, and</p> <p>(iii) not to exceed 4.17 percent shall be the product of American Samoa.</p> <p>(c) On or before April 1 of each calendar year (beginning with 1967), the International Trade Commission shall determine the apparent United States consumption of watch movements during the preceding calendar year, shall report such determination to the Secretary of the Treasury, the Secretary of the Interior, and Secretary of Commerce, and shall publish such determination in the Federal Register, together with the number of watches and watch movements which are the product of the Virgin Islands, Guam, and American Samoa which may be entered free of duty under paragraph (b) during the calendar year.</p> <p>(d) The Secretary of the Interior and the Secretary of Commerce, acting jointly, shall allocate on a fair and equitable basis among producers of watches and watch movements located in the Virgin Islands, Guam, and American Samoa the quotas for each calendar year provided by paragraph (b) for articles which are the product of the Virgin Islands, Guam, and American Samoa, respectively. Allocations made by the Secretaries shall be final. The Secretaries are authorized to issue such regulations as they determine necessary to carry out their duties under this paragraph.</p> <p><u>Subpart E statistical headnote:</u></p> <p>1. (a) The statistical reporting numbers for watches (item 715.05) and for clocks containing movements measuring less than 1.77 inches in width (items 715.15 and 715.16) are a combination of three 7-digit numbers, viz., the 7-digit number for the imported watch (715.0500) or clock (715.1500 or 715.1600), and the 7-digit numbers which would have applied to the movement and to the case if they had been imported separately. Thus, the correct reporting number for a watch with a 15-jewel adjusted or self-winding movement, not over 0.6 inch in width, having a balance wheel and hairspring, and valued not over \$15, and a gold case is "715.0500-719.3735-720.2000".</p>

		<p>PART 4. - IMPORTATIONS OF RELIGIOUS, EDUCATIONAL, SCIENTIFIC, AND OTHER INSTITUTIONS</p> <p><u>Part 4 headnotes:</u></p> <p>1. Except as provided in items 850.50, 852.20, and 854.20, or as otherwise provided for in this headnote, the articles covered by this part must be exclusively for the use of the institutions involved, and not for distribution, sale, or other commercial use within 5 years after being entered. Articles admitted under any items in this part may be transferred from an institution specified with respect to such articles to another such institution, or may be exported or destroyed under customs supervision, without duty liability being incurred. However, if any such article (other than an article provided for in item 850.50 or 852.20) is transferred other than as provided by the preceding sentence, or is used for commercial purposes, within 5 years after being entered, the institution for which such article was entered shall promptly notify customs officers at the port of entry and shall be liable for the payment of duty on such article in an amount determined on the basis of its condition as imported and the rate applicable to it (determined without regard to this part) when entered. If, with a view to a transfer (other than a transfer permitted by the second sentence) or the use for commercial purposes of an instrument or apparatus, a repair component admitted under item 851.65 has been assembled into such instrument or apparatus, such component shall, for purposes of the preceding sentence, be treated as a separate article.</p> <p>2. 		<p>(c) Upon receipt of the application the Secretary of Commerce shall, by publication in the <u>Federal Register</u>, afford interested persons and other Government agencies reasonable opportunity to present their views with respect to the question whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. After considering any views presented pursuant to this paragraph, including any written advice from the Secretary of Health, Education, and Welfare, the Secretary of Commerce shall determine whether an instrument or apparatus of equivalent scientific value to such article, for the purposes for which the instrument or apparatus is intended to be used, is being manufactured in the United States. Each finding by the Secretary of Commerce under this paragraph shall be promptly reported to the Secretary of the Treasury and to the applicant institution. Each such finding shall be published in the <u>Federal Register</u>, with a statement of the reasons therefor, on or before the ninetieth day following the date on which the application was made to the Secretary of the Treasury in accordance with applicable regulations.</p> <p>(d) Item 851.60 shall not apply with respect to any instrument or apparatus unless a bona fide order therefor has been placed, by the institution making the application under this headnote, on or before the sixtieth day following the day on which a finding of the Secretary of Commerce favorable to the institution has become final and conclusive.</p> <p>(e) Within 20 days after the publication in the <u>Federal Register</u> of a finding by the Secretary of Commerce under paragraph (c) of this headnote, an appeal may be taken from said finding only upon a question or questions of law and only to the United States Court of Customs and Patent Appeals --</p> <p>(i) by the institution which made the application under paragraph (b) of this headnote,</p> <p>(ii) by a person who, in the proceeding which led to such finding, represented to the Secretary of Commerce in writing that he manufactures in the United States an instrument or apparatus of equivalent scientific value for the purposes for which the article to which the application relates is intended to be used,</p> <p>(iii) by the importer thereof, if the article to which the application relates has been entered at the time the appeal is taken, or</p> <p>(iv) by an agent of any of the foregoing.</p> <p>Any appeal under this paragraph shall receive a preference over all other matters before the Court and shall be heard and determined as expeditiously as the Court considers to be practicable. Part 1. - Temporary Legislation

- A. Temporary Provisions for Additional Duties
- B. Temporary Provisions Amending the Tariff Schedules

Part 2. - Temporary Modifications Proclaimed Pursuant to Trade-Agreements Legislation

- A. Escape-Clause Actions
- B. Temporary Modifications Pursuant to Section 252 of the Trade Expansion Act of 1962
- C. Reduced Duties, Pursuant to Temporary Trade Agreements
- D. Deleted

Part 3. - Additional Import Restrictions Proclaimed Pursuant to Section 22 of the Agricultural Adjustment Act, as AmendedAppendix Headnotes:

1. The provisions of this Appendix relate to legislation and to executive and administrative actions pursuant to duly constituted authority, under which --

- (a) one or more of the provisions in schedules 1 through 8 are temporarily amended or modified, or
- (b) additional duties or other import restrictions are imposed by, or pursuant to, collateral legislation.

2. Unless the context requires otherwise, the general headnotes and rules of interpretation and the respective schedule, part, and subpart headnotes in schedules 1 through 8 apply to the provisions of this Appendix.

Appendix statistical headnotes:

1. For statistical reporting of merchandise provided for herein --

- (a) unless more specific instructions appear in the parts or subparts of this appendix, report the 5-digit item number (or 7-digit number, if any) found in the appendix in addition to the 7-digit number appearing in schedules 1-7 which would be applicable but for the provisions of this appendix; and
- (b) the quantities reported should be in the units provided in schedules 1-7.

2. For those items herein for which no rate of duty appears (i.e., those items for which an absolute quota is prescribed), report the 5-digit item number herein followed by the appropriate 7-digit reporting number from schedules 1-7. The quantities reported should be in the units provided in schedules 1-7.

		<p>PART 1. - TEMPORARY LEGISLATION</p> <p>Subpart A. - Temporary Provisions for Additional Duties</p> <p><u>Subpart A headnotes:</u></p> <p>1. The duties provided for in this subpart are cumulative duties which apply in addition to the duties, if any, otherwise imposed on the articles involved. The duties provided for in this subpart apply only with respect to articles entered during the period specified in the last column.</p> <p>2. Sections 336 and 350 of this Act (the so-called flexible tariff and trade-agreements provisions, respectively) shall not apply with respect to the duty provided for in item 901.00.</p> <p>3. With respect to any articles upon which the duty imposed under item 901.00 has been paid and which, on the date of termination of the tax provided for in section 4501, I.R.C., are held by the importer and intended for sale or other disposition, there shall be refunded (without interest) to such importer an amount equal to the duty paid on such articles under item 901.00, if claim for such refund is filed with the Secretary or his delegate within 90 days after the date of termination of the tax.</p>

Item	Stat. Suf- fix	Articles	Units of Quantity	
		<p>(iii) Notwithstanding any other provision of this part, if the Secretary of Agriculture determines that a quantity specified in the column entitled "Quota Quantity" opposite the name of any country is not likely to be entered from such country within any calendar year, he may provide with respect to such article for the adjustment for that calendar year, within the aggregate quantity of such article permitted to be entered from all countries during such calendar year, of the quantities of such article which may be entered during such year from the countries specified as countries of origin for such article. The Secretary of Agriculture shall notify the Secretary of the Treasury of such adjustment and, with respect to country of origin adjustments for any article for which a license is not required, file notice thereof with the <u>Federal Register</u>. With respect to articles for which a license is not required, such adjustment shall become effective 3 days after the date of publication in the <u>Federal Register</u>.</p> <p>(iv) For the purposes of this part, the term "<u>soft ripened cow's milk cheese</u>" means cheese which--</p> <ol style="list-style-type: none"> (1) has a prominent crust formed on the exterior surface as a result of curing or ripening by biological curing agents such as molds, yeasts, or other microorganisms, (2) visibly cures or ripens from the surface toward the center, (3) has a fat content by weight (on a moisture-free basis) of not less than 50 percent, and (4) has a moisture content (calculated by weight of the non-fatty matter) of not less than 65 percent, but does not include cheese with mold distributed throughout its interior. <p>(b) <u>Cotton Waste</u>.--For the purposes of item 955.05, the minimum quota in column (A) is that part of the total quota in column (C) which must be reserved for comber waste made from cotton 1-3/16 inches or more in staple length, and the unreserved quota in column (B) is that part of the total quota available for any quota-type waste, including comber waste made from cotton 1-3/16 inches or more in staple length.</p> <p>(c) <u>Suspension</u>.--Notwithstanding any other provision of this part, the quantitative limitations for the articles provided for in item 950.60 are suspended beginning January 26, 1974.</p>

		<p>4. Sugars and sirups.--</p> <p>(a) Licenses may be issued by the Secretary of Agriculture or his designee authorizing the entry of articles exempt from the fees provided for in items 956.05, 956.15, and 957.15 of this part on the condition that such articles will be used only for the production (other than by distillation) of polyhydric alcohols, except polyhydric alcohols for use as a substitute for sugar in human food consumption. Such licenses shall be issued under regulations of the Secretary of Agriculture which he determines are necessary to insure the use of such articles only for such purposes.</p> <p>(b) "Not to be further refined or improved in quality" as used in item 956.05 means not to be further refined or improved in quality by being subjected substantially to the processes of (1) affination or defecation, (2) clarification, or (3) further purification by absorption or crystallization.</p> <p>(c)(i) The quarterly adjusted fee provided for in items 956.05 and 957.15 shall be the amount of the fee for item 956.15 plus one cent per pound.</p> <p>(ii) The quarterly adjusted fee provided for in item 956.15 shall be the amount by which the average of the adjusted daily spot (domestic) price quotations for raw sugar for the 20 consecutive market days immediately preceding the 20th day of the month preceding the calendar quarter during which the fee shall be applicable (as reported by the New York Coffee, Sugar and Cocoa Exchange) expressed in United States cents per pound, in bulk, is less than the applicable market stabilization price: Provided, That whenever the average of the daily spot (domestic) price quotations for 10 consecutive market days within any calendar quarter, (1) exceeds the market stabilization price by more than one cent, the fee then in effect shall be decreased by one cent per pound, or (2) is less than the market stabilization price by more than one cent, the fee then in effect shall be increased by one cent per pound. The adjusted daily spot (domestic) price quotation for any market day shall be the daily spot (domestic) price quotation for such market day less the amount of the fee for item 956.15 that is in effect on that day.</p>

		<p>(iii) The market stabilization price for the remainder of the second, and the third calendar quarters of 1982 shall be 19.8800 cents per pound. The market stabilization price that shall be applicable to each subsequent fiscal year shall be determined and announced by the Secretary of Agriculture (hereafter the "Secretary") in accordance with this headnote no later than 30 days prior to the beginning of the fiscal year for which such market stabilization price shall be applicable. The market stabilization price shall be equal to the sum of: (1) the price support level for the applicable fiscal year, expressed in cents per pound of raw cane sugar; (2) adjusted average transportation costs; (3) interest costs, if applicable; and (4) 0.2 cent. The adjusted average transportation costs shall be the weighted average cost of handling and transporting domestically produced raw cane sugar from Hawaii to Gulf and Atlantic Coast ports, as determined by the Secretary. Interest costs shall be the amount of interest, as determined or estimated by the Secretary, that would be required to be paid by a recipient of a price support loan for raw cane sugar upon repayment of the loan at full maturity. Interest costs shall only be applicable if a price support loan recipient is not required to pay interest upon forfeiture of the loan collateral.</p> <p>(iv) The Secretary shall determine the amount of the quarterly fees in accordance with this headnote and shall announce such fees not later than the 25th day of the month preceding the calendar quarter during which the fees shall be applicable. The Secretary shall certify the amount of such fees to the Secretary of the Treasury and file notice thereof with the Federal Register prior to the beginning of the calendar quarter during which the fees shall be applicable. The Secretary shall determine and announce any adjustment in the fees made within a calendar quarter in accordance with the first proviso of paragraph (ii) hereof, shall certify such adjusted fees to the Secretary of the Treasury, and shall file notice thereof with the Federal Register within 3 market days of the fulfillment of that proviso.</p>

Chemical Appendix Headnotes:

1. This appendix enumerates those chemicals and products which the President has determined were imported into the United States before January 1, 1978, or were produced in the United States before May 1, 1978. For convenience, the listed articles are described (1) by reference to their registry number with the Chemical Abstracts Service (C.A.S.) of the American Chemical Society, where available, or (2) by reference to their common chemical name or trade name where the C.A.S. registry number is not available. For the purposes of these schedules, any reference to a product provided for in this appendix includes such products listed herein, by whatever name known.

SUPPLEMENT 1

to

TARIFF SCHEDULES OF THE UNITED STATES ANNOTATED (1983)

The pages of this supplement are to be substituted for the corresponding pages in the Tariff Schedules of the United States Annotated (1983). The principal changes in this supplement reflect--

- (1) Presidential Proclamation 4980 (duty concessions that became effective January 1, 1983 pursuant to concessions granted by the United States in a trade agreement with Taiwan);
- (2) Presidential Proclamation 4993 (termination in part of the proclamations carrying out agreement between the governments of the United States of America and Argentina concerning hide exports);
- (3) Public Law 97-446 (providing for the reduction of certain duties, the temporary suspension of certain duties and the extension of the suspension of certain duties);
- (4) Office of the United States Trade Representative notice modifying the sugar import quota allocations effective with the quota period beginning October 1, 1982;
- (5) Expiration of import relief actions concerning certain ferrochromium (item 923.18).

The provisions in which changes have been made are identified with the symbol ①.

GENERAL HEADNOTES AND RULES OF INTERPRETATION

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general headnote 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the schedules, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 and the column designated LDDC of the schedules apply to articles imported into the customs territory of the United States as hereinafter provided in this headnote:

(a) Products of Insular Possessions.

(i) Except as provided in headnote 6 of schedule 7, part 2, subpart E, and except as provided in headnote 3 of schedule 7, part 7, subpart A, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either-

(A) at the time such article is entered, or

(B) at the time such material is imported

into the insular possession,

may be imported into the customs territory from a foreign country, other than Cuba or the Philippine Republic, and entered free of duty; except that no article containing material to which (B) of this subdivision applies shall be exempt from duty under subdivision (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under section 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Cuba. Products of Cuba imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. Preferential rates of duty for such products apply only as shown in the said column 1. ^{1/}

^{1/} By virtue of section 401 of the Tariff Classification Act of 1962, the application to products of Cuba of either a preferential or other reduced rate of duty in column 1 is suspended. See general headnote 3(f), *infra*.

(c) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP).

(i) The following countries, territories, and associations of countries eligible for treatment as one country (pursuant to section 502(a)(3) of the Trade Act of 1974 (19 U.S.C. 2462(a)(3))) are designated beneficiary developing countries for the purposes of the Generalized System of Preferences, provided for in Title V of the Trade Act of 1974, as amended (19 U.S.C. 2461 *et seq.*):

(ii) Articles for which the designations "A" or "A*" appear in the column entitled "GSP" of the schedules are those designated by the President to be eligible articles for purposes of the GSP pursuant to Section 503 of the Trade Act of 1974. The designation "A" signifies that all beneficiary developing countries are eligible for preferential treatment with respect to all articles provided for in the designated TSUS item, while the designation "A*" indicates that certain beneficiary developing countries, specifically enumerated in subdivision (c)(iii) of this headnote, are not eligible for such preferential treatment with regard to any article provided for in the designated TSUS item. Whenever an eligible article is imported into the customs territory of the United States directly from a country or territory listed in subdivision (c)(i) of this headnote, it shall receive duty-free treatment, unless excluded from such treatment by subdivision (c)(iii) of this headnote, provided that, in accordance with regulations promulgated by the Secretary of the Treasury the sum of (A) the cost or value of the materials produced in the beneficiary developing country or any 2 or more countries which are members of the same association of countries which is treated as one country under section 502(a)(3) of the Trade Act of 1974, plus (B) the direct costs of processing operations performed in such beneficiary developing country or such member countries is not less than 35 percent of the appraised value of such article at the time of its entry into the customs territory of the United States.

(iii) The following designated eligible articles provided for in TSUS item numbers preceded by the designation "A*", if imported from a beneficiary developing country set opposite the TSUS item numbers listed below, are not entitled to the duty-free treatment provided for in subdivision (c)(ii) of this headnote:

(d) Products of Least Developed Developing Countries.

(i) The following countries are designated least developed developing countries (LDDC's) and, subject to restrictions of subparagraph (ii), products of such countries imported into the customs territory of the United States, whether imported directly or indirectly, and which are entered under TSUS item numbers for which rates of duty appear in the column entitled "LDDC" of the schedules, are eligible for full tariff reductions without staging in accordance with Section 503(a)(2)(A) of the Trade Agreements Act of 1979 (93 Stat. 251):

Bangladesh	Malawi
Benin	Maldives
Bhutan	Mali
Botswana	Nepal
Burundi	Niger

1/ Pursuant to section 4(b)(1) of the Taiwan Relations Act (22 U.S.C. 3303(b)(1)) the reference to countries includes Taiwan.

Cape Verde	Rwanda
Central African Republic	Somalia
Chad	Sudan
Comoros	Tanzania
Gambia	Uganda
Guinea	Upper Volta
Haiti	Western Samoa
Lesotho	Yemen (Sana)

(ii) Imported articles, the products of least developed developing countries as designated in paragraph (i) above, provided for under the TSUS items for which rates of duty appear in the column entitled "LDDC" of the schedules, and which are not entitled to duty-free treatment under subdivision (c) of this headnote, are subject to those rates of duty rather than the rates of duty provided for in column numbered 1, except that articles subject to temporary modifications under any provisions of the Appendix to these schedules shall be subject to the rates of duty set forth therein. If no rate of duty is provided in the "LDDC" column for a particular item, the rate of duty provided in column numbered 1 shall apply.

(e) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. The rates of duty for a Canadian article, as defined in subdivision (e)(ii) of this headnote, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the schedules, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(f) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this headnote, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder or pursuant to Presidential Proclamation 4991, dated October 27, 1982: 2/

2/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended general headnote 3(f) by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

(g) Products of All Other Countries. Products of all countries not previously mentioned in this headnote imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the Tariff Schedules --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Intangibles. For the purposes of headnote 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) electricity,

(d) securities and similar evidences of value,

(e) records, diagrams, and other data with regard to any business, engineering, or exploration operation whether on paper, cards, photographs, blueprints, tapes, or other media; and

1/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

(f) vessels which are not "yachts or pleasure boats" within the purview of subpart D, part 6, of schedule 6, are not articles subject to the provisions of these schedules.

6. Containers or Holders for Imported Merchandise.

For the purposes of the tariff schedules, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are subject to tariff treatment as follows:

(i) The usual or ordinary types of shipping or transportation containers or holders, if not designed for, or capable of, reuse, and containers of usual types ordinarily sold at retail with their contents, are not subject to treatment as imported articles. Their cost, however, is, under section 402 of the tariff act, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

(ii) The usual or ordinary types of shipping or transportation containers or holders, if designed for, or capable of, reuse, are subject to treatment as imported articles separate and distinct from their contents. Such holders or containers are not part of the dutiable value of their contents and are separately subject to duty upon each and every importation into the customs territory of the United States unless within the scope of a provision specifically exempting them from duty.

(iii) In the absence of context which requires otherwise, all other containers or holders are subject to the same treatment as specified in (ii) above for usual or ordinary types of shipping or transportation containers or holders designed for, or capable of, reuse.

7. Commingleing of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subdivision (b) hereof.

(b) Every segregation of articles made pursuant to this headnote shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under

This subpart covers all furskins, except carroated furskins, but does not cover fur or hair which has been removed from the skin. (Carroated furskins and fur or hair removed from the skin are covered in subpart D of part 15 of schedule 1).</p> <p>2. As used in this subpart -- (a) the terms "furskins" or "skins" include the whole skins, or cuttings, heads, paws, tails, or other parts of whole skins, whether or not assembled into plates, mats, linings, strips, crosses, or similar forms, but do not cover such skins or parts of skins assembled in the rough form of garments, of parts or accessories of garments, or of other articles (see part 13B of schedule 7); (b) the term "raw or not dressed" refers to raw, unprocessed skins, or to processed skins which have not been subjected to any processing which preserves them indefinitely in a pliant state; and (c) the term "dressed" refers to skins which have been subjected to any processing which preserves them indefinitely in a pliant state, whether or not dyed or otherwise processed and whether or not in condition ready for manufacture into garments or other articles.</p> <p>3. If the wool or hair on any skins which have been released from customs custody under item 123.00 is removed from such skins otherwise than as an unsought residue resulting from the processing of the skins for use as furs, the entire importation shall be subject to duty at the appropriate rate for such wool or hair on the skin under subpart C of part 1 of schedule 3, and for the purposes of this headnote, the clean content of such wool or hair shall be deemed to be 100%.</p> <p>4. The entry, or withdrawal from warehouse, for consumption of ermine, fox, kolinsky, marten, mink, muskrat, and weasel furskins, raw or not dressed, or dressed, which are the product of the Union of Soviet Socialist Republics is prohibited. ①</p> <p><u>Subpart B statistical headnote:</u></p> <p>For the purposes of this subpart, the term "whole skins" includes whole skins from which heads, paws, or tails or any combination thereof have been removed.</p>

			<p>(h) For the purposes of this headnote, the term "raw value" means the equivalent of such articles in terms of ordinary commercial raw sugar testing 96 degrees by the polariscope as determined in accordance with regulations issued by the Secretary of the Treasury. Such regulations may, among other things, provide:</p> <p>(1) for the entry of such articles pending a final determination of polarity; and (2) that positive or negative adjustments for differences in preliminary and final raw values be made in the same or succeeding quota periods. The principal grades and types of sugar shall be translated into terms of raw value in the following manner:</p> <p>(i) For articles described in item 155.20, by multiplying the number of pounds thereof by the greater of 0.93, or 1.07 less 0.0175 for each degree of polarization under 100 degrees (and fractions of a degree in proportion).</p> <p>(ii) For articles described in item 155.30, by multiplying the number of pounds of the total sugars thereof (the sum of the sucrose and reducing or invert sugars) by 1.07.</p> <p>(iii) The Secretary of the Treasury shall establish methods for translating sugar into terms of raw value for any special grade or type of sugar for which he determines that the raw value cannot be measured adequately under the above provisions.</p> <p>① (j) The Secretary may exempt the entry of articles described in items 155.20 and 155.30 from the requirements or limitations established pursuant to this headnote on the condition that such articles:</p> <p>(1) be used only for the production (other than by distillation) of polyhydric alcohols except polyhydric alcohols for use as a substitute for sugar in human food consumption; or</p> <p>(2) be re-exported in refined form or in sugar containing products. Such articles shall be entered under licenses issued pursuant to regulations promulgated by the Secretary. In promulgating such regulations, the Secretary shall give due consideration to the interests in the U.S. sugar market of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade. Such regulations may contain any terms, conditions, bonds, or other limitations as the Secretary determines are appropriate to ensure that articles imported under licenses are used only for the purposes specified in this paragraph. This paragraph shall terminate whenever paragraphs (b), (c), (d), and (e) of this headnote are terminated under paragraph (f) of this headnote.</p>

			Subpart C headnotes:				
			1. The term "rags", as used in this subpart, covers new fabric clippings, and fabrics, wearing apparel, furnishings, and other textile articles which are worn out, soiled, torn, or otherwise damaged, all the foregoing, whether or not carbonized, fit only -- (i) for the recovery of their constituent fibers or materials, (ii) for use in paper making, (iii) for manufacture into polishing wheels and similar articles, (iv) for use as wiping rags of any size, or (v) for similar uses.				
			2. Any shipment of rags which has not exceeded 5 percent by weight of yarn wastes commingled therewith shall be treated as if it were entirely rags (see item 307.40 in part 1C of schedule 3).

SCHEDULE 4. - CHEMICALS AND RELATED PRODUCTS
Part 1. - Benzenoid Chemicals and Products

G S P	Item	Stat. Suf- fix	Articles	Units of Quantity	Rates of Duty		
					1	LDDC	2
			<p>Subpart B. - Industrial Organic Chemicals ^{1/}</p> <p><u>Subpart B headnotes:</u></p> <p>1. The provisions of items 402.00 to 406.63, inclusive, in this subpart shall apply not only to the products described therein when obtained, derived, or manufactured in whole or in part from products described in subpart A of this part, but shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in said subpart A.</p> <p>2. For the purpose of classification of merchandise provided for under items 402.36 to 406.63, inclusive, the following provisions shall govern:</p> <p>(a) The term "<u>derivatives</u>" refers to only those derivatives which may be obtained by one or more of the following processes: Halogenation, nitration, nitrosation, or sulfonation, and is to be understood to include sulfonyl halides.</p> <p>(b) A compound with functional groups described in two or more items under items 402.36 to 406.63, inclusive, is to be classified in the latest applicable item. For example, 4-acetamido-2-aminophenol, which contains three functional groups, will be classified in 405.12 (Amides), rather than in 404.92 to 405.09, inclusive (Aminophenols), or in 404.84 to 404.90, inclusive (Amines), or in 403.51 (Phenols). When applicable, classification should be made in accordance with the following principles:</p> <p>(i) Salts of organic acids (including phenols) with inorganic bases and salts of organic bases with inorganic acids are to be classified under the same superior heading as the organic acid or base; salts of organic acids with organic bases are to be classified either under the superior heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free base, whichever is listed later.</p> <p>(ii) Esters of organic acids are to be classified either under the superior heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free alcohol or phenol, whichever is listed later.</p> <p>(iii) The above provisions apply also in cases where the component having the functional groups described under the later superior heading is not of benzenoid origin. For example, benzyl acetate is classified under carboxylic acids (404.24 to 404.47, inclusive) rather than under alcohols (403.45).</p>				
			<p>^{1/} Articles exported to the United States prior to July 1, 1980, must be appraised under the valuation standards provided for in sections 402 and 402a of the Tariff Act of 1930 in effect on June 30, 1980, and are subject to classification under the items of the Tariff Schedules in effect on that date.</p>

The provisions of this subpart providing for products obtained, derived, or manufactured in whole or in part from products described in subpart A or B of this part shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in the said subpart A or B.</p> <p>2. For the purposes of the Tariff Schedules, the term "pesticides" means products, such as insecticides, rodenticides, fungicides, herbicides, fumigants, and seed disinfectants, chiefly used to destroy undesired animal or plant life.</p> <p>3. The term "plastics materials" in items 408.44 to 409.18, inclusive, embraces products formed by the condensation, polymerization, or copolymerization of organic chemicals and to which plasticizers, fillers, colors, or extenders may have been added.</p> <p>1/ Duty on mixtures of 3-ethylbiphenyl (methylbiphenyl) and 4-ethylbiphenyl (p-ethylbiphenyl) temporarily suspended. 			<p>The term includes, but is not limited to, phenolic and other tar-acid resins, styrene resins, alkyd and polyester resins based on phthalic anhydride, coumarone-indene resins, urethane, epoxy, toluene sulfonamide, maleic, fumaric, aniline, and polyamide resins, and other synthetic resins. The plastics materials may be in solid, semi-solid, or liquid condition, such as flakes, powders, pellets, granules, solutions, emulsions, and other basic forms not further processed.</p> <p>4. For the purpose of the classification of merchandise provided for under items 408.44 to 409.18, inclusive, the following provisions shall apply:</p> <p>(a) The term "<u>thermoplastic resins</u>" means those materials in unfinished forms which in their final state as finished articles are capable of being repeatedly softened by increase of temperature and hardened by decrease of temperature.</p> <p>(b) The term "<u>thermosetting resins</u>" (or thermosets) means those materials in unfinished forms which in their final state as finished articles are substantially infusible. Thermosetting resins are often liquids at some stage in their manufacture or processing and are cured by heat, catalysis, or other chemical means. After being fully cured, thermosets cannot be resoftened by heat.</p> <p>(c) Copolymers and terpolymers not specially provided for shall be classified as if they consisted entirely of that monomer which is present in the largest amount by weight on a resin content basis (i.e., excluding the weight of plasticizers, liquid diluents, fillers, or other additives). Any polymer consisting of two or more monomers which are present in equal amounts shall be classified as if it consisted entirely of that monomer whose polymer is listed first under the thermoplastic or thermosetting resins, as appropriate.</p> <p>5. The term "<u>paints and enamel paints</u>" in this subpart covers dispersions of pigments or pigment-like materials with a liquid (vehicle) which are suitable for application to surfaces as a thin layer, and which dry (harden) to an opaque, solid film. The vehicle of paints consists of drying oils or resins which bind the pigment particles together in the film; the vehicle of enamel paints is principally varnish. Paints and enamel paints may also contain thinners, driers, plasticizers, or other agents.</p> <p>6. The term "<u>stains</u>" in this subpart covers liquids containing transparent or semi-transparent pigments, dyes, or chemicals, chiefly used to deepen or otherwise alter the color of wood, but which will not obscure its grain, texture, or markings.</p> <p>7. For the purposes of this subpart --</p> <p>(a) The term "<u>surface-active agents</u>" means synthetic organic compounds, or mixtures thereof, which function as surface tension modifiers and are chiefly used for any one or combination of the following purposes: as detergents, wetting agents, emulsifiers, dispersants, or foaming agents.</p>

			<p>(b) <u>Master alloys</u>: Alloys of copper with other materials in any proportion, not usefully malleable and commonly used as raw material in the manufacture of other alloys or as de-oxidants, de-sulphurizing agents or for similar uses in the metallurgy of non-ferrous metals. For the purposes of this subpart --</p> <p>(i) <u>manganese copper</u> is a master alloy which contains copper and manganese, in which the manganese content ranges by weight from 5 to 45 percent, with copper the balance; and</p> <p>(ii) <u>phosphor copper</u> is a master alloy which contains phosphorus and copper, in which the phosphorus content ranges by weight from 5 to 16 percent, with copper the balance.</p> <p>3. For the purposes of this subpart, the following terms have the meanings indicated:</p> <p>(a) <u>Bars and plate</u>: Products of solid rectangular cross section over 0.188 inch in thickness, in coils or cut to length, whether or not corrugated or crimped. Bars are not over 12 inches in width and plates are over 12 inches in width.</p> <p>(b) <u>Sheets and strips</u>: Products of solid rectangular cross section not over 0.188 inch but over 0.006 inch in thickness, in coils or cut to length, whether or not corrugated or crimped. Sheets are over 20 inches in width; strips are not over 20 inches in width and do not include flat wire, as defined in (d) below.</p> <p>(c) <u>Rods</u>: Products of round, half-round, quarter-round, oval, half-oval, triangular, pentagonal, hexagonal, octagonal, or decagonal solid cross section, in straight lengths or in coils, and which if in coils are over 0.375 inch in maximum cross-sectional dimension.</p> <p>(d) <u>Wire</u>: A non-tubular product of any cross-sectional configuration, which if flat is in coils or straight lengths, not over 1.25 inches in width, not over 0.188 inch in thickness, and has all surfaces rolled or drawn, and which if not flat is not over 0.375 inch in maximum cross-sectional dimension and is in coils.</p> <p>(e) <u>Angles, shapes, and sections</u>: Products which do not conform completely to the respective definitions set forth in this headnote for bars, plates, sheets, strip, rods, or wire, and do not include any tubular products.</p> <p>4. For the purposes of this subpart, any continuous cast product, whether or not machined or otherwise processed, which is substantially comparable to, and suitable for the same general purposes as, a wrought product provided for in this subpart shall be classified under the same provision and at the same rate as such wrought product, notwithstanding the provisions of headnotes 3(a) and 3(c) of this part.</p>

			<p>5. Determination of Market Price of Copper for Rate of Duty Purposes.--(a) In this subpart, and for items 870.50 and 870.55 column 1 of the Rates of Duty columns has been divided into two columns, viz., 1-a and 1-b. The rates of duty in column 1-a apply when the market price of copper is 24 cents or more per pound, and the rates of duty in column 1-b apply when the market price of copper is under 24 cents per pound.</p> <p>(b) For the purposes of the provisions of items 602.28, 602.30, and 603.49 through 603.55 in part 1 of this schedule relating to copper-bearing materials, and of the provisions of this subpart, the market price of copper is the average market price per pound for one calendar month of electrolytic copper in standard shapes and sizes, delivered Connecticut Valley, as determined by the United States International Trade Commission and reported to the Secretary of the Treasury in accordance with procedures set forth below.</p> <p>(c) The market price of copper, as defined above, shall be considered to be below 24 cents per pound only on and after the 20th day after the date of a report by the United States International Trade Commission to the Secretary of the Treasury that it has determined that the said market price has been below 24 cents per pound for one calendar month.</p> <p>(d) After any report by the United States International Trade Commission to the Secretary of the Treasury as provided for in (b) above, the said market price shall be considered as not being below 24 cents per pound only on and after the 20th day after the date of a report by the said Commission to the said Secretary that it has determined that the said market price has been 24 cents or more per pound for one calendar month.</p> <p>(e) Determinations by the said Commission of the market price of electrolytic copper shall be based upon sources commonly resorted to by the buyers of copper in the usual channels of commerce, including, but not limited to, quotations of the market price for electrolytic copper, in standard shapes and sizes, delivered Connecticut Valley, reported by the Engineering and Mining Journal's "Metal and Mineral Markets".</p> <p>6. The deductions provided for in headnote 4(b) of part 1 of this schedule shall apply to cement copper and copper precipitates (item 612.02) subject to the conditions specified in headnote 4 of said part 1.</p> <p>Subpart C statistical headnote:</p> <p>1. For the purposes of this subpart--</p> <p>(a) the term "beryllium copper" refers to an alloy of copper as defined by the Tariff Schedules which contains by weight not less than 0.02 percent but less than 3 percent of beryllium with or without small quantities of other elements, and</p> <p>(b) the term "beryllium copper master alloy" refers to a master alloy which contains beryllium and copper, in which the beryllium content ranges by weight from 3 to 5 percent with copper the balance.</p>

			Subpart K. - Other Base Metals				
			Subpart K headnotes:				
			1. This subpart covers base metals not provided for in subparts B through J of this part, and their alloys, wrought and unwrought, and also includes the waste and scrap of such base metals. This subpart does not cover ferrocerium and other pyrophoric alloys (see part 9A of schedule 7).				
			2. Alloys: For the purposes of the tariff schedules, alloys of each of the base metals provided for in this subpart are metals in which the content of the respective base metal is, by weight, less than 99.0 percent, but not less than any other metallic element. In the absence of context which requires otherwise, a reference to one of the base metals by name, wherever used in the tariff schedules, includes alloys of such base metal.

			<p>① (d) (i) In calendar year 1983 the total quantity of such articles which may be entered free of duty shall not exceed 4,800,000 units.</p> <p>(ii) In subsequent calendar years, the Secretary of Commerce and the Secretary of the Interior (hereinafter referred to as the "Secretaries"), acting jointly, shall establish a limit on the quantity which may be entered free of duty during the calendar year, and shall consider whether such limit is in the best interest of the insular possessions and not inconsistent with domestic or international trade policy considerations. The quantity the Secretaries establish in any calendar year under this paragraph shall not--</p> <p>(I) exceed 10,000,000 units, or one-ninth of apparent domestic consumption (as determined by the International Trade Commission pursuant to paragraph (d) of this headnote), whichever is greater;</p> <p>(II) be decreased by more than 10 percent of the quantity established for the immediately preceding calendar year; and</p> <p>(III) be increased to more than 7,000,000 units, or by more than 20 percent of the quantity established for the immediately preceding calendar year, whichever is greater.</p> <p>② (e) On or before April 1 of each calendar year (beginning with the first year in which watch imports from the United States insular possessions exceed 9,000,000 units), the International Trade Commission shall determine the apparent United States consumption of watches and watch movements (including solid state timepieces) during the preceding calendar year, shall report such determination to the Secretaries, and shall publish such determination in the <u>Federal Register</u>.</p> <p>③ (f) (i) In calendar year 1983, not more than 3,000,000 units of the total quantity of articles described in paragraph (d) which may be entered free of duty shall be the product of the Virgin Islands, not more than 1,200,000 units shall be the product of Guam, and not more than 600,000 units shall be the product of American Samoa.</p> <p>(ii) For calendar year 1984 and thereafter, the Secretaries may establish new territorial shares of the total amount which may be entered free of duty, taking into account the capacity of each territory to produce and ship its assigned amounts. A territory's share in any year shall not be reduced--</p> <p>(I) by more than 200,000 units in calendar year 1984 or 1985, and</p> <p>(II) by more than 500,000 units in calendar year 1986 or thereafter, except that no territorial share shall be established at less than 500,000 units.</p> <p>④ (g) The Secretaries, acting jointly, shall allocate the calendar year duty exemptions provided by paragraphs (b), (d), and (f) of this headnote on a fair and equitable basis among producers located in the insular possessions, and shall issue appropriate licenses therefor. Allocations made by the Secretaries shall be final. In making the allocations, the Secretaries shall consider the potential impact of territorial production on domestic production of like articles and shall establish allocation criteria (including minimum assembly requirements) that will reasonably maximize the net amount of direct economic benefits to the insular possessions.</p>

			<p>(vii) Any certificate issued under subparagraph (i) shall expire 1 year from the date of issuance and may be applied against duties on imports of watches and watch movements the entry of which were made within 2 years prior to the date of issuance of the certificate.</p> <p>(viii) For purposes of determining the applicable amount of any producer's certificate to be issued during calendar year 1983, the greater of--</p> <p>(I) the producer's creditable wages for calendar year 1982, or</p> <p>(II) 60 percent of the producer's creditable wages for calendar year 1981, shall be considered the creditable wages for calendar year 1982.</p> <p>(i) The Secretaries are authorized to issue such regulations, not inconsistent with the provisions of this headnote, as they determine necessary to carry out their respective duties under this headnote. Such regulations shall include minimum assembly requirements. Any duty-free entry determined not to have been made in accordance with applicable regulations shall be subject to the applicable civil remedies and criminal sanctions, and, in addition, the Secretaries may cancel or restrict the license or certificate of any manufacturer found in willful violation of the regulations.</p> <p><u>Subpart E statistical headnote:</u></p> <p>1.(a) The statistical reporting numbers for watches (item 715.05) and for clocks containing movements measuring less than 1.77 inches in width (items 715.15 and 715.16) are a combination of three 7-digit numbers, viz., the 7-digit number for the imported watch (715.0500) or clock (715.1500 or 715.1600), and the 7-digit numbers which would have applied to the movement and to the case if they had been imported separately. Thus, the correct reporting number for a watch with a 15-jewel adjusted or self-winding movement, not over 0.6 inch in width, having a balance wheel and hairspring, and valued not over \$15, and a gold case is "715.0500-719.3735-720.2000".</p> <p>(b) The number and value of imported watches or clocks, and of their movements and cases must be reported separately with their respective 7-digit numbers.</p> <p>(c) The statistical suffixes to be used in the reporting of watch movements classifiable in items 716.37 through 716.44, inclusive, shall be as follows: movements having a balance wheel and hairspring shall have a statistical suffix comprised of the sum of 20 plus the actual number of jewels in the movement; movements not having a balance wheel and hairspring shall have a statistical suffix comprised of the sum of 40 plus the actual number of jewels in the movement. For example, the statistical suffix for a balance wheel and hairspring movement having 12 jewels would be "32"; similarly, a movement not having a balance wheel and hairspring which has 8 jewels, would have a statistical suffix of "48".</p> <p>(d) The statistical suffixes to be used in the reporting of item 719.-- shall be the statistical suffix for the applicable items 716.10 through 716.44, inclusive, from which the "base rate" was derived.</p>

			<p>Subpart E. - Models; Dolls, Toys, Tricks, Party Favors</p> <p>Subpart E headnotes:</p> <p>1. The articles described in the provisions of this subpart (except parts) shall be classified in such provisions, whether or not such articles are more specifically provided for elsewhere in the tariff schedules, but the provisions of this subpart do not apply to --</p> <p>(i) doll carriages, doll strollers, and parts thereof (see part 5C of this schedule);</p> <p>(ii) wheeled goods designed to be ridden by children, and parts thereof (see part 5C of this schedule); or</p> <p>(iii) games and other articles in items 734.15 and 734.20, toy balls (items 735.09-.12), and puzzles and games in item 735.20 (see part 5D of this schedule).</p> <p>2. For the purposes of the tariff schedules, a "toy" is any article chiefly used for the amusement of children or adults.</p> <p>3. For the purposes of the superior heading to items 737.47 and 737.49 and of item 737.51, "toy figures of inanimate objects" are only imaginary creatures that either--</p> <p>(i) do not possess features of human or other earthly creatures;</p> <p>(ii) possess both earthly and non-earthly features but are predominantly non-earthly in nature; or</p> <p>(iii) possess features which are a hybrid of features of more than one animate object.</p> <p>This definition does not cover toy figures of objects which are readily recognizable as vegetables, minerals, robots, or machines, whether or not such figures possess humanoid or earthly features.</p> <p>4. Items 737.23, 737.28, 737.30, and 737.47 do not include any doll or toy that either--</p> <p>(i) will maintain the three dimensional shape of its torso if the stuffing or filler is removed, or</p> <p>(ii) is constructed such that the "filler" material consists of one piece (such as one piece of foam rubber) or more than one piece that achieves the same effect as one piece.</p> <p>5. For the purposes of items 737.26 and 737.51, "skins" are the outer coverings or shells of those dolls or toy figures which, if imported stuffed or filled, would be classified in items 737.23, 737.28, 737.30, and 737.47, but do not contain stuffing or filling in the torso when imported.</p>

			<p>PART 4. - IMPORTATIONS OF RELIGIOUS, EDUCATIONAL, SCIENTIFIC, AND OTHER INSTITUTIONS</p> <p><u>Part 4 headnotes:</u></p> <p>1. Except as provided in items 850.50, 852.20, 854.20, and 854.30, or as otherwise provided for in this headnote, the articles covered by this part must be exclusively for the use of the institutions involved, and not for distribution, sale, or other commercial use within 5 years after being entered. Articles admitted under any items in this part may be transferred from an institution specified with respect to such articles to another such institution, or may be exported or destroyed under customs supervision, without duty liability being incurred. However, if any such article (other than an article provided for in item 850.50 or 852.20) is transferred other than as provided by the preceding sentence, or is used for commercial purposes, within 5 years after being entered, the institution for which such article was entered shall promptly notify customs officers at the port of entry and shall be liable for the payment of duty on such article in an amount determined on the basis of its condition as imported and the rate applicable to it (determined without regard to this part) when entered. If, with a view to a transfer (other than a transfer permitted by the second sentence) or the use for commercial purposes of an instrument or apparatus, a repair component admitted under item 851.65 has been assembled into such instrument or apparatus, such component shall, for purposes of the preceding sentence, be treated as a separate article.</p> <p>2. The term "regalia" as used in this part (items 850.40 and 851.30) embraces only such insignia of rank or office, emblems, or other articles as may be worn upon the person or borne in the hand during public exercises of the institution, and does not include articles of furniture or fixtures, nor regular wearing apparel, nor personal property of individuals.</p> <p>3. Architectural, engineering, industrial, or commercial drawings and plans, and reproductions thereof, are not covered by this part unless they are intended solely for exhibition or for educational use under item 851.10 (see part 5 of schedule 2).</p> <p>4. Painted, colored, or stained glass windows, and parts thereof, not covered by item 850.30 are provided for in part 3B of schedule 5.</p> <p>5. Part 5B of this schedule contains provisions under which certain institutions may import articles free of duty for permanent exhibition under bond.</p>

Part 1. - Temporary Legislation

- A. Temporary Provisions for Additional Duties
- B. Temporary Provisions Amending the Tariff Schedules

Part 2. - Temporary Modifications Proclaimed Pursuant to Trade-Agreements Legislation

- A. Escape-Clause Actions
- B. Temporary Modifications Pursuant to Section 252 of the Trade Expansion Act of 1962
- C. Reduced Duties, Pursuant to Temporary Trade Agreements
- D. Deleted

Part 3. - Additional Import Restrictions Proclaimed Pursuant to Section 22 of the Agricultural Adjustment Act, as AmendedAppendix Headnotes:

1. The provisions of this Appendix relate to legislation and to executive and administrative actions pursuant to duly constituted authority, under which --

- (a) one or more of the provisions in schedules 1 through 8 are temporarily amended or modified, or
- (b) additional duties or other import restrictions are imposed by, or pursuant to, collateral legislation.

2. Unless the context requires otherwise, the general headnotes and rules of interpretation and the respective schedule, part, and subpart headnotes in schedules 1 through 8 apply to the provisions of this Appendix.

Appendix statistical headnotes:

1. For statistical reporting of merchandise provided for herein --

- (a) unless more specific instructions appear in the parts or subparts of this appendix, report the 5-digit item number (or 7-digit number, if any) found in the appendix in addition to the 7-digit number appearing in schedules 1-7 which would be applicable but for the provisions of this appendix; and
- (b) the quantities reported should be in the units provided in schedules 1-7.

2. For those items herein for which no rate of duty appears (i.e., those items for which an absolute quota is prescribed), report the 5-digit item number herein followed by the appropriate 7-digit reporting number from schedules 1-7. The quantities reported should be in the units provided in schedules 1-7.

UNITED STATES INTERNATIONAL TRADE COMMISSION

SUPPLEMENT 2

to

TARIFF SCHEDULES OF THE UNITED STATES ANNOTATED (1983)

The pages of this supplement are to be substituted for the corresponding pages in the Tariff Schedules of the United States Annotated (1983). The principal changes in this supplement are:

- (1) Presidential Proclamation 5201 (temporary duty reduction on certain articles pursuant to legislation implementing the Nairobi Protocol to the Florence Agreement on the importation of educational, scientific, and cultural materials) effective as to articles entered, or withdrawn from warehouse for consumption, on and after February 11, 1983, and before the close of August 11, 1985;
- (2) Executive Order 12413 (amending the General System of Preferences (GSP) and other technical corrections) effective with respect to articles imported on or after January 1, 1976, and entered, or withdrawn from warehouse for consumption, on and after March 31, 1983;
- (3) Public Law 97-424 (temporary duty increase on ethyl alcohol (Surface Transportation Assistance Act of 1982)) effective with respect to articles entered, or withdrawn from warehouse for consumption, after March 31, 1983; and
- (4) Changes in statistical annotations effective April 1, 1983 (formulated pursuant to section 484(e), Tariff Act of 1930, as amended), involving--
 - (a) Mens' or boy's and women's, girls' or infants' reversible sweater jackets;
 - (b) Women's, girls' or infants' coveralls, overalls, jump suits and similar apparel; whether or not known as playsuits;
 - (c) Mens' or boy's and women's, girls' or infants' vests with attachments for sleeves; and
 - (d) 1-1'azobisformamide.

The provisions in which changes have been made are identified with the symbol ②.

Alphabetical Index -----	X - 1

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general headnote 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the schedules, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 and the column designated LDDC of the schedules apply to articles imported into the customs territory of the United States as hereinafter provided in this headnote:

(a) Products of Insular Possessions.

(i) Except as provided in headnote 6 of schedule 7, part 2, subpart E, and except as provided in headnote 3 of schedule 7, part 7, subpart A, articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules, except that all such articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value (or more than 70 percent of their total value with respect to watches and watch movements), coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which either—

(A) at the time such article is entered, or

(B) at the time such material is imported

into the insular possession,

may be imported into the customs territory from a foreign country, other than Cuba or the Philippine Republic, and entered free of duty; except that no article containing material to which (B) of this subdivision applies shall be exempt from duty under subdivision (i) unless adequate documentation is supplied to show that the material has been incorporated into such article during the 18-month period after the date on which such material is imported into the insular possession.

(iii) Subject to the limitations imposed under section 503(b) and 504(c) of the Trade Act of 1974, articles designated eligible articles under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such articles imported from a beneficiary developing country under title V of such Act.

(b) Products of Cuba. Products of Cuba imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. Preferential rates of duty for such products apply only as shown in the said column 1. ^{1/}

^{1/} By virtue of section 401 of the Tariff Classification Act of 1962, the application to products of Cuba of either a preferential or other reduced rate of duty in column 1 is suspended. See general headnote 3(f), *infra*.

(c) Products of Countries Designated Beneficiary Developing Countries for Purposes of the Generalized System of Preferences (GSP).

(i) The following countries, territories, and associations of countries eligible for treatment as one country (pursuant to section 502(a)(3) of the Trade Act of 1974 (19 U.S.C. 2462(a)(3))) are designated beneficiary developing countries for the purposes of the Generalized System of Preferences, provided for in Title V of the Trade Act of 1974, as amended (19 U.S.C. 2461 *et seq.*):

(ii) Articles for which the designations "A" or "A*" appear in the column entitled "GSP" of the schedules are those designated by the President to be eligible articles for purposes of the GSP pursuant to Section 503 of the Trade Act of 1974. The designation "A" signifies that all beneficiary developing countries are eligible for preferential treatment with respect to all articles provided for in the designated TSUS item, while the designation "A*" indicates that certain beneficiary developing countries, specifically enumerated in subdivision (c)(iii) of this headnote, are not eligible for such preferential treatment with regard to any article provided for in the designated TSUS item. Whenever an eligible article is imported into the customs territory of the United States directly from a country or territory listed in subdivision (c)(i) of this headnote, it shall receive duty-free treatment, unless excluded from such treatment by subdivision (c)(iii) of this headnote, provided that, in accordance with regulations promulgated by the Secretary of the Treasury the sum of (A) the cost or value of the materials produced in the beneficiary developing country or any 2 or more countries which are members of the same association of countries which is treated as one country under section 502(a)(3) of the Trade Act of 1974, plus (B) the direct costs of processing operations performed in such beneficiary developing country or such member countries is not less than 35 percent of the appraised value of such article at the time of its entry into the customs territory of the United States.

(iii) The following designated eligible articles provided for in TSUS item numbers preceded by the designation "A*", if imported from a beneficiary developing country set opposite the TSUS item numbers listed below, are not entitled to the duty-free treatment provided for in subdivision (c)(ii) of this headnote:

If no rate of duty is provided in the "LDDC" column for a particular item, the rate of duty provided in column numbered 1 shall apply.

(e) Products of Canada.

(i) Products of Canada imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. The rates of duty for a Canadian article, as defined in subdivision (e)(ii) of this headnote, apply only as shown in the said column numbered 1.

(ii) The term "Canadian article", as used in the schedules, means an article which is the product of Canada, but does not include any article produced with the use of materials imported into Canada which are products of any foreign country (except materials produced within the customs territory of the United States), if the aggregate value of such imported materials when landed at the Canadian port of entry (that is, the actual purchase price, or if not purchased, the export value, of such materials, plus, if not included therein, the cost of transporting such materials to Canada but exclusive of any landing cost and Canadian duty) was --

(A) with regard to any motor vehicle or automobile truck tractor entered on or before December 31, 1967, more than 60 percent of the appraised value of the article imported into the customs territory of the United States; and

(B) with regard to any other article (including any motor vehicle or automobile truck tractor entered after December 31, 1967), more than 50 percent of the appraised value of the article imported into the customs territory of the United States.

(F) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this headnote, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(e)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder or pursuant to Presidential Proclamation 4991, dated October 27, 1982: 2/

2/ In Proclamation 4697, dated October 23, 1979, the President, acting under authority of section 404(a) of the Trade Act of 1974 (88 Stat. 1978) amended general headnote 3(f) by deleting "China (any part of which may be under Communist domination or control)" and "Tibet", effective February 1, 1980, the date on which written notices of acceptance were exchanged, following adoption on January 24, 1980 by the Congress of a concurrent resolution of approval extending nondiscriminatory treatment to the products of the People's Republic of China.

(g) Products of All Other Countries. Products of all countries not previously mentioned in this headnote imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the Tariff Schedules --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Intangibles. For the purposes of headnote 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) electricity,

(d) securities and similar evidences of value,

(e) records, diagrams, and other data with regard to any business, engineering, or exploration operation whether on paper, cards, photographs, blueprints, tapes, or other media; and

^{1/} In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

(f) vessels which are not "yachts or pleasure boats" within the purview of subpart D, part 6, of schedule 6, are not articles subject to the provisions of these schedules.

6. Containers or Holders for Imported Merchandise.

For the purposes of the tariff schedules, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are subject to tariff treatment as follows:

(i) The usual or ordinary types of shipping or transportation containers or holders, if not designed for, or capable of, reuse, and containers of usual types ordinarily sold at retail with their contents, are not subject to treatment as imported articles. Their cost, however, is, under section 402 of the tariff act, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

(ii) The usual or ordinary types of shipping or transportation containers or holders, if designed for, or capable of, reuse, are subject to treatment as imported articles separate and distinct from their contents. Such holders or containers are not part of the dutiable value of their contents and are separately subject to duty upon each and every importation into the customs territory of the United States unless within the scope of a provision specifically exempting them from duty.

(iii) In the absence of context which requires otherwise, all other containers or holders are subject to the same treatment as specified in (ii) above for usual or ordinary types of shipping or transportation containers or holders designed for, or capable of, reuse.

7. Commingle of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subdivision (b) hereof.

(b) Every segregation of articles made pursuant to this headnote shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under

			<p>PART 5. - BOOKS, PAMPHLETS, AND OTHER PRINTED AND MANUSCRIPT MATERIAL</p> <p><u>Part 5 headnotes:</u></p> <p>1. Except for decalcomanias, labels, flaps, and bands, all of which are covered by the provisions therefor in this part, regardless of the nature of the printing thereon, this part covers only printed matter consisting essentially of textual or pictorial matter produced by any printing process, and similar matter in manuscript or typewritten form. The text may be set forth in any language by means of any kind of characters. With the exceptions above indicated, this part does not cover any article in which printing is merely incidental to the primary use of the article or in which printing is employed mainly for coloration or to produce a decorative or novelty effect (see part 4 of this schedule).</p> <p>2. For the purposes of this part -- (a) the term "<u>paper</u>" includes paperboard; (b) the term "<u>books</u>" includes books, bound and not bound, and pamphlets; (c) the term "<u>periodicals</u>" embraces only paper-covered or unbound publications issued regularly at stated periods, such as weekly, monthly, or quarterly, and bearing the date of issue; and (d) the term "<u>photographs</u>" embraces only pictures other than motion pictures, produced on photosensitive materials, and includes positive and negative images on exposed, or exposed and developed, photographic film.</p> <p>3. For the purposes of determining the classification of printed matter produced in whole or in part by a lithographic process, the thickness of such printed matter is that of the thinnest paper contained therein, except that the thickness of a permanently mounted lithograph is the combined thickness of the lithograph and its mounting.</p>

			<p>Subpart B. - Industrial Organic Chemicals ^{1/}</p> <p><u>Subpart B headnotes:</u></p> <p>1. The provisions of items 402.00 to 406.63, inclusive, in this subpart shall apply not only to the products described therein when obtained, derived, or manufactured in whole or in part from products described in subpart A of this part, but shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in said subpart A.</p> <p>2. For the purpose of classification of merchandise provided for under items 402.36 to 406.63, inclusive, the following provisions shall govern:</p> <p>(a) The term "<u>derivatives</u>" refers to only those derivatives which may be obtained by one or more of the following processes: Halogenation, nitration, nitrosation, or sulfonation, and is to be understood to include sulfonyl halides.</p> <p>(b) A compound with functional groups described in two or more items under items 402.36 to 406.63, inclusive, is to be classified in the latest applicable item. For example, 4-acetamido-2-aminophenol, which contains three functional groups, will be classified in 405.12 (Amides), rather than in 404.92 to 405.09, inclusive (Aminophenols), or in 404.84 to 404.90, inclusive (Amines), or in 403.51 (Phenols). When applicable, classification should be made in accordance with the following principles:</p> <p>(i) Salts of organic acids (including phenols) with inorganic bases and salts of organic bases with inorganic acids are to be classified under the same superior heading as the organic acid or base; salts of organic acids with organic bases are to be classified either under the superior heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free base, whichever is listed later.</p> <p>(ii) Esters of organic acids are to be classified either under the superior heading which describes the functional groups present in the free acid or under the one which describes the functional groups present in the free alcohol or phenol, whichever is listed later.</p> <p>(iii) The above provisions apply also in cases where the component having the functional groups described under the later superior heading is not of benzenoid origin. For example, benzyl acetate is classified under carboxylic acids (404.24 to 404.47, inclusive) rather than under alcohols (403.45).</p>				
			<p>^{1/} Articles exported to the United States prior to July 1, 1980, must be appraised under the valuation standards provided for in sections 402 and 402a of the Tariff Act of 1930 in effect on June 30, 1980, and are subject to classification under the items of the Tariff Schedules in effect on that date.</p>

<p style="text-align: center;">¹ Subpart C. - Finished Organic Chemical Products ²/₁</p> <p>Subpart C headnotes:</p> <p>1. The provisions of this subpart providing for products obtained, derived, or manufactured in whole or in part from products described in subpart A or B of this part shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in the said subpart A or B.</p> <p>2. For the purposes of the Tariff Schedules, the term "pesticides" means products, such as insecticides, rodenticides, fungicides, herbicides, fumigants, and seed disinfectants, chiefly used to destroy undesired animal or plant life.</p> <p>3. The term "plastics materials" in items 408.44 to 409.18, inclusive, embraces products formed by the condensation, polymerization, or copolymerization of organic chemicals and to which plasticizers, fillers, colors, or extenders may have been added.</p> <p>¹ ¹/₁ Duty on mixtures of 3-ethylbiphenyl (methylbiphenyl) and 4-ethylbiphenyl (P-ethylbiphenyl) temporarily suspended. See item 907.17 in part 1B, Appendix to the Tariff Schedules.</p> <p>¹ ²/₁ Articles exported to the United States prior to July 1, 1980, must be appraised under the valuation standards provided for in sections 402 and 402a of the Tariff Act of 1930 in effect on June 30, 1980, and are subject to classification under the items of the Tariff Schedules in effect on that date.</p> <p>Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).</p>

			<p>The term includes, but is not limited to, phenolic and other tar-acid resins, styrene resins, alkyd and polyester resins based on phthalic anhydride, coumarone-indene resins, urethane, epoxy, toluene sulfonamide, maleic, fumaric, aniline, and polyamide resins, and other synthetic resins. The plastics materials may be in solid, semi-solid, or liquid condition, such as flakes, powders, pellets, granules, solutions, emulsions, and other basic forms not further processed.</p> <p>4. For the purpose of the classification of merchandise provided for under items 408.44 to 409.18, inclusive, the following provisions shall apply:</p> <p>(a) The term "<u>thermoplastic resins</u>" means those materials in unfinished forms which in their final state as finished articles are capable of being repeatedly softened by increase of temperature and hardened by decrease of temperature.</p> <p>(b) The term "<u>thermosetting resins</u>" (or thermosets) means those materials in unfinished forms which in their final state as finished articles are substantially infusible. Thermosetting resins are often liquids at some stage in their manufacture or processing and are cured by heat, catalysis, or other chemical means. After being fully cured, thermosets cannot be resoftened by heat.</p> <p>(c) Copolymers and terpolymers not specially provided for shall be classified as if they consisted entirely of that monomer which is present in the largest amount by weight on a resin content basis (i.e., excluding the weight of plasticizers, liquid diluents, fillers, or other additives). Any polymer consisting of two or more monomers which are present in equal amounts shall be classified as if it consisted entirely of that monomer whose polymer is listed first under the thermoplastic or thermosetting resins, as appropriate.</p> <p>5. The term "<u>paints and enamel paints</u>" in this subpart covers dispersions of pigments or pigment-like materials with a liquid (vehicle) which are suitable for application to surfaces as a thin layer, and which dry (harden) to an opaque, solid film. The vehicle of paints consists of drying oils or resins which bind the pigment particles together in the film; the vehicle of enamel paints is principally varnish. Paints and enamel paints may also contain thinners, driers, plasticizers, or other agents.</p> <p>6. The term "<u>stains</u>" in this subpart covers liquids containing transparent or semi-transparent pigments, dyes, or chemicals, chiefly used to deepen or otherwise alter the color of wood, but which will not obscure its grain, texture, or markings.</p> <p>7. For the purposes of this subpart --</p> <p>(a) The term "<u>surface-active agents</u>" means synthetic organic compounds, or mixtures thereof, which function as surface tension modifiers and are chiefly used for any one or combination of the following purposes: as detergents, wetting agents, emulsifiers, dispersants, or foaming agents.</p>

Subpart B. - Iron or Steel							
Subpart B headnotes:							
1. This subpart covers iron and steel, their alloys, and their so-called basic shapes and forms, and in addition covers iron or steel waste and scrap.							
2. Grades of Iron, Steel, and Ferrous alloys.--For the purposes of the tariff schedules, the following terms have the meanings hereby assigned to them:							
^{1/} Report value only of stated metal content.							
Note: For explanation of the symbol "A" or "A*" in the column entitled "GSP", see general headnote 3(c).

			<p>Subpart D. - Aluminum</p> <p><u>Subpart D headnotes:</u></p> <p>1. This subpart covers aluminum, its alloys, and their so-called basic shapes and forms and also covers aluminum waste and scrap.</p> <p>2. <u>Alloys of aluminum:</u> For the purposes of the tariff schedules, alloys of aluminum are metals in which the aluminum content is, by weight, less than 99.0 percent, but not less than any other metallic element. <u>Aluminum silicon</u> is an alloy of aluminum containing not less than 25 percent of silicon. In the absence of context which requires otherwise, the term "<u>aluminum</u>", wherever used in the tariff schedules, includes alloys of aluminum.</p> <p>3. For the purposes of this subpart, the following terms have the meanings indicated:</p> <p>(a) <u>Bars:</u> Products of solid rectangular cross section, 0.25 inch or more in thickness and over 0.375 inch but not over 12 inches in width, in coils or cut to length; and products of solid hexagonal or octagonal cross section, 0.375 inch or more in thickness (measuring the perpendicular distance between opposite faces) in coils, or of any thickness in straight lengths.</p> <p>(b) <u>Rods:</u> Products of solid round cross section, which, if 0.375 inch or more in diameter, are in coils or cut to length, and which, if under 0.375 inch in diameter, are in straight lengths.</p> <p>(c) <u>Plates, sheets, and strips:</u> Products of solid rectangular cross section, in coils or cut to length, whether or not corrugated or crimped. Plates are 0.25 inch or more in thickness and over 12 inches in width; sheets and strip are under 0.25 but not under 0.006 inch in thickness.</p> <p>(d) <u>Wire:</u> A product of solid round, rectangular, hexagonal, or octagonal cross section, in coils, whose diameter, width, or perpendicular distance between opposite faces is less than 0.375 inch.</p> <p>(e) <u>Angles, shapes, and sections:</u> Products which do not conform completely to the respective definitions set forth in this headnote for bars, plates, sheets, strips, rods, or wire and do not include any tubular products.</p> <p><u>Subpart D statistical headnote:</u></p> <p>1. For purposes of this subpart, the term "<u>beryllium aluminum master alloy</u>" refers to an alloy of aluminum which contains not less than 4 percent of beryllium.</p>

			Subpart G. - Lead				
			Subpart G headnotes:				
			1. This subpart covers lead, its alloys, and their so-called basic shapes and forms, and also includes lead waste and scrap.				
			2. Alloys of lead: For the purposes of the tariff schedules, alloys of lead are metals in which the lead content is, by weight, less than 99.0 percent, but not less than any other metallic element. In the absence of context which requires otherwise, the term "lead", wherever used in the tariff schedules, includes alloys of lead.				
			3. For the purposes of this subpart, the following terms have the meanings indicated:				
			(a) Plates, sheets, and strips: Products of solid rectangular cross section, in coils or cut to length, whether or not corrugated or crimped. Plates are 0.25 inch or more in thickness and over 12 inches in width; sheets are under 0.25 inch but not under 0.006 inch in thickness and over 6 inches in width; strips are under 0.25 inch but not under 0.006 inch in thickness and are not over 6 inches in width.				
			(b) Wire: A non-tubular product of any cross-sectional configuration under 0.25 inch in maximum cross-sectional dimension, in coils.				
			(c) Bars, rods, angles, shapes, and sections: Products which do not conform completely to the respective definitions set forth in this headnote for plates, sheets, strips, or wire and do not include any tubular products.

			Subpart K. - Other Base Metals				
			<u>Subpart K headnotes:</u>				
			1. This subpart covers base metals not provided for in subparts B through J of this part, and their alloys, wrought and unwrought, and also includes the waste and scrap of such base metals. This subpart does not cover ferrocerium and other pyrophoric alloys (see part 9A of schedule 7).				
			2. <u>Alloys:</u> For the purposes of the tariff schedules, alloys of each of the base metals provided for in this subpart are metals in which the content of the respective base metal is, by weight, less than 99.0 percent, but not less than any other metallic element. In the absence of context which requires otherwise, a reference to one of the base metals by name, wherever used in the tariff schedules, includes alloys of such base metal.

			<p>PART 5. - ELECTRICAL MACHINERY AND EQUIPMENT</p> <p><u>Part 5 headnotes:</u></p> <p>1. This part does not cover --</p> <ul style="list-style-type: none"> (i) electrical insulators or insulating materials (classifiable in other schedules according to materials of which made); (ii) certain carbons, electrodes, and brushes provided for in part 1E of schedule 5; (iii) ceramic electrical ware (part 2D of schedule 5); (iv) electric blankets and other electrically warmed bedding (see part 5B of schedule 3); (v) washing machines, ironing machines, sewing machines, and other machines provided for in parts 4 or 6 of this schedule; or (vi) electrical instruments and apparatus provided for in schedule 7. <p>2. For the purposes of this part (items 682.05 and 682.07), the rated kva of a transformer is the kilovolt-ampere output on a continuous duty basis at the rated secondary voltage (or amperage, when applicable) and at the rated frequency without exceeding the rated temperature limitations.</p> <p>3. The provisions of this headnote apply to "<u>television apparatus and parts thereof</u>" provided for in items 685.11 through 685.19, inclusive, of this part.</p> <ul style="list-style-type: none"> (a) The term "<u>complete</u>", as used to describe <u>television receivers</u>, means a television receiver, fully assembled, whether or not packaged or tested for distribution to the ultimate purchaser. (b) For the purposes of items 685.15 and 685.16-- <ul style="list-style-type: none"> (i) each subassembly that contains as a component, or is covered in the same entry with, one or more of the following television components, viz., tuner, channel selector assembly, antenna, deflection yoke, degaussing coil, picture tube mounting bracket, grounding assembly, parts necessary for fixing the picture tube or tuner in place, consumer operated controls, or speaker, shall be classified in item 685.15; and (ii) each subassembly shall be counted as a single unit, except that two or more different printed circuit boards or ceramic substrates covered by the same entry and designed for assembly into the same television models shall be counted as one unit. <p>4. For the purposes of this part "<u>transceivers</u>" are combinations of radio transmitting and receiving equipment in a common housing, employing common circuit components for both transmitting and receiving, and which are not capable of simultaneously receiving and transmitting.</p>

			<p>5. For the purposes of the tariff schedules hand-held Citizens Band (CB) radio transceivers are Citizens Band (CB) radio transceivers designed for operation in the hand, having a permanently affixed antenna and an internal microphone, and not designed for use with an external power source.</p> <p>Part 5 statistical headnotes:</p> <p>1. For statistical reporting purposes in this part (item 685.40), "<u>audio machines</u>" are those machines designed specifically for recording, reproducing, or recording and reproducing frequencies in the sound spectrum only.</p> <p>2. For statistical reporting purposes in this part (item 685.40), "<u>video machines</u>" are those designed specifically for recording or recording and reproducing video signals. An audio track may or may not be included on the recording medium.</p> <p>3. For statistical reporting purposes in this part, "<u>stereo</u>" apparatus will be considered to be capable of reproducing two (and no more) discrete audio signals.</p> <p>4. To determine the video display diagonal in items 685.11, 685.14, 685.50, and 687.35, measurements shall be taken of the maximum straight line dimension across that part of the face-plate used for displaying video, and shall be rounded to the nearest inch. Measurements falling exactly on the 1/2 inch shall be rounded to the next larger integer.</p> <p>5. For statistical reporting purposes in this part (items 685.21 and 685.24), "<u>entertainment broadcast band receivers</u>" are those receivers designed principally to receive signals in the AM (550-1650 KHz) and FM (88-108 MHz) entertainment broadcast bands whether or not capable of receiving signals on certain other bands (e.g., aviation, television, marine, public safety, industrial, and citizens band).</p> <p>6. For statistical reporting purposes in this part (item 685.24), the lowest operating frequency will determine the classification.</p> <p>7. For statistical reporting purposes in this part (item 687.74), "<u>memory integrated circuits</u>" are integrated circuits consisting principally of cells capable of storing retrievable data and "<u>micro-processor integrated circuits</u>" are integrated circuits capable of executing a processing program and of storing at least the data necessary for the execution of the program.</p> <p>8. For statistical reporting purposes in this part (item 685.14), the term "<u>incomplete receivers</u>" refers to assemblies other than kits containing all parts necessary for assembly into complete color television receivers, which consist at least of, or are covered in the same entry with, a color picture tube and a printed circuit board or ceramic substrate, with components assembled thereon, designed to perform the intermediate frequency amplification functions or the picture and audio demodulation functions of a color television receiver.</p>

SPECIAL STATISTICAL REPORTING NUMBERS

<u>Reporting Number</u>	<u>Provision</u>
	EQUIPMENT AND REPAIRS OF VESSELS AND AIRCRAFT
	Provisions for imposing a duty of 50 percent ad valorem on the cost of equipment purchased or repairs made abroad for merchant vessels of the United States, and for remission of the duty under certain circumstances are contained in section 466 of the Tariff Act of 1930, as amended. ^{1/} These provisions are extended to repairs and equipment of aircraft registered in the United States by section 6.10 of the Customs Regulations:
999.1030	Equipments, or parts thereof, repair parts, materials or costs of repairs with respect to a U.S. civil aircraft (within the meaning of headnote 3 to schedule 6, part 6, subpart C) which are exempt from duty under subsection (f) of section 466 of the Tariff Act of 1930, as amended.
999.1050	Other
	SALVAGE
999.2000	When a vessel has been sunk for 2 years in territorial waters of the United States and has been abandoned by its owner, any dutiable merchandise recovered therefrom may be brought into the nearest port free of duty under the authority of section 310 of the Tariff Act of 1930.

^{1/} There are certain exceptions to these provisions, which became effective Jan. 5, 1971 (Pub. L. 91-654). Certain refunds to departments or agencies of the United States for duties paid before January 5, 1971 not allowed (Pub. L. 93-368).

CHEMICAL APPENDIX TO THE TARIFF SCHEDULES ^{1/}

^{1/} Most of the products listed in the Chemical Appendix are identified only by the applicable Chemical Abstracts Service (C.A.S.) registry number. The C.A.S. registry numbers applicable to imported chemicals and products may be obtained from USITC Publication 1073 -- Chemicals and Products Provided for in the Chemical Appendix to the Tariff Schedules of the United States.

Chemical Appendix Headnotes:

1. This appendix enumerates those chemicals and products which the President has determined were imported into the United States before January 1, 1978, or were produced in the United States before May 1, 1978. For convenience, the listed articles are described (1) by reference to their registry number with the Chemical Abstracts Service (C.A.S.) of the American Chemical Society, where available, or (2) by reference to their common chemical name or trade name where the C.A.S. registry number is not available. For the purposes of these schedules, any reference to a product provided for in this appendix includes such products listed herein, by whatever name known.
