Preface to the 12th Edition

The Harmonized Tariff Schedule of the United States, Annotated for Statistical Reporting Purposes (HTS 2000) is being published pursuant to section 1207 of the Omnibus Trade and Competitiveness Act of 1988 (P.L. 100-418; 19 U.S.C. 3007),<sup>1</sup> embracing the legal text of the Harmonized Tariff Schedule, as amended and modified, together with statistical annotations formulated pursuant to section 484(f) of the Tariff Act of 1930, as amended (19 U.S.C. 1484(f)).<sup>2</sup>

---

<sup>1</sup>Section 1207(a) of the Act provides that "[t]he Commission shall compile and publish, at appropriate intervals, and keep up to date the Harmonized Tariff Schedule and related information in the form of printed copy....". Section 1207(b) of the Act provides that the published copy of the HTS "shall contain-- (1) the then current Harmonized Tariff Schedule; (2) statistical annotations and related statistical information formulated under section 484(f) of the Tariff Act of 1930 (19 U.S.C. 1484(f)); and (3) such other matters as the Commission considers to be necessary or appropriate to carry out the purposes enumerated in the Preamble to the Harmonized System convention." The first edition consisted of the original publication and four supplements. The second edition consisted of the original publication and two supplements. The third edition consisted of the original publication and one supplement. The fourth edition consisted of the original and one supplement. The fifth edition consisted of the original and one supplement. The sixth edition consisted of the original and two supplements. The seventh edition consisted of the original and one supplement. The eighth edition consisted of the original and one supplement. The ninth edition consisted of the original and one supplement. The tenth edition consisted of the original and one supplement. The eleventh edition consisted of the original and one supplement.

<sup>2</sup>Sec. 484(f) reads as follows:

"(f) Statistical Enumeration.--The Secretary of the Treasury, the Secretary of Commerce, and the United States International Trade Commission are authorized and directed to establish from time to time for statistical purposes an enumeration of articles in such detail as in their judgment may be necessary, comprehending all merchandise imported into the United States and exported from the United States, and shall seek, in conjunction with statistical programs for domestic production and programs for achieving international harmonization of trade statistics, to establish the comparability thereof with such enumeration of articles. All import entries and export declarations shall include or have attached thereto an accurate statement specifying, in terms of such detailed enumeration, the kinds and quantities of all merchandise imported and exported and the value of the total quantity of each kind of article."

The legal text of the HTS consists of the General Rules of Interpretation; the Additional U.S. Rules of Interpretation; the General Notes; Sections I through XXII, inclusive (encompassing chapters 1 - 99, and including all Section and Chapter notes, heading/subheading numbers through the 8-digit level, article descriptions and tariff and other treatment accorded thereto); the Chemical Appendix; the Pharmaceutical Appendix; and the Intermediate Chemicals for Dyes Appendix. The statistical annotations, notes, annexes, suffixes, units of quantity and other matters formulated under section 484(f) of the Tariff Act of 1930 comprise the statistical parts of the HTS. Such elements as the Table of Contents, footnotes, Schedule C and Schedule D, and published index are inserted for ease of reference only.

The principal changes in this edition reflect (1) the stage of duty reductions that becomes effective January 1, 2000, pursuant to concessions granted by the United States to Mexico under the North American Free Trade Agreement (Pres. Proc. 6641); (2) the stage of duty reductions that becomes effective January 1, 2000, pursuant to concessions granted by the United States under the Uruguay Round Of Multilateral Trade Negotiations (Pres. Proc. 6763); (3) the stage of duty reductions that becomes effective January 1, 2000, pursuant to previous concessions granted by the United States that were affected by modifications to the Harmonized System (Pres. Proc. 6857); (4) the stage of duty reductions that becomes effective January 1, 2000, pursuant to concessions granted by the United States under the World Trade Organization Ministerial Declaration on Trade in Information Technology Products and the Agreement on Distilled Spirits (Pres. Proc. 7011); (5) Presidential Proclamation 7214 (To Provide for the Efficient and Fair Administration of Action Taken with Regard to Imports of Lamb Meat and for Other Purposes, effective July 22, 1999); (6) Office of the United States Trade Representative Notice implementing the WTO recommendations concerning EC-Measures concerning meat and meat products (hormones), effective July 29, 1999; (7) changes approved by the Committee for Statistical Annotation of Tariff Schedules (formulated pursuant to section 484(f), Tariff Act of 1930, as amended), effective January 1, 2000.

The statistical annotations contained in the HTS prescribe the statistical information to be supplied on customs entry and withdrawal forms or electronic filings with respect to articles imported into the customs territory of the United States. Thus, this publication is designed to enable importers, customs brokers, customs officers and other interested persons to determine (1) the classification of and rates of duty applicable to imported articles and (2) the requirements for reporting statistical data with respect to such imports. Except as specified in the Notice to Exporters, this publication may also be used in place of the reporting codes of Schedule B for reporting exports on the Shipper's Export Declaration or under the program for electronic reporting of exports.

Requests from interested parties for changes in any of the requirements for statistical reporting should be submitted no later than April 1, for changes to be effective July 1, and August 1, for changes to be effective January 1. These requests should be submitted to:

The Chairman  
Committee for Statistical Annotation  
of Tariff Schedules  
United States International Trade Commission  
Washington, D.C. 20436

Such requests should indicate precisely the nature of each desired change and give detailed reasons in support of the requests. In addition, the requestor should provide the names of importers and foreign manufacturers and indicate the countries from which the commodities are being imported.

## GENERAL RULES OF INTERPRETATION

Classification of goods in the tariff schedule shall be governed by the following principles:

1. The table of contents, alphabetical index, and titles of sections, chapters and sub-chapters are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative section or chapter notes and, provided such headings or notes do not otherwise require, according to the following provisions:
2.
  - (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as entered, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or falling to be classified as complete or finished by virtue of this rule), entered unassembled or disassembled.
  - (b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to goods of a given material or substance shall be taken to include a reference to goods consisting wholly or partly of such material or substance. The classification of goods consisting of more than one material or substance shall be according to the principles of rule 3.
3. When, by application of rule 2(b) or for any other reason, goods are, *prima facie*, classifiable under two or more headings, classification shall be effected as follows:
  - (a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to part only of the materials or substances contained in mixed or composite goods or to part only of the items in a set put up for retail sale, those headings are to be regarded as equally specific in relation to those goods, even if one of them gives a more complete or precise description of the goods.
  - (b) Mixtures, composite goods consisting of different materials or made up of different components, and goods put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.
  - (c) When goods cannot be classified by reference to 3(a) or 3(b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration.
4. Goods which cannot be classified in accordance with the above rules shall be classified under the heading appropriate to the goods to which they are most akin.
5. In addition to the foregoing provisions, the following rules shall apply in respect of the goods referred to therein:
  - (a) Camera cases, musical instrument cases, gun cases, drawing instrument cases, necklace cases and similar containers, specially shaped or fitted to contain a specific article or set of articles, suitable for long-term use and entered with the articles for which they are intended, shall be classified with such articles when of a kind normally sold therewith. This rule does not, however, apply to containers which give the whole its essential character;
  - (b) Subject to the provisions of rule 5(a) above, packing materials and packing containers entered with the goods therein shall be classified with the goods if they are of a kind normally used for packing such goods. However, this provision is not binding when such packing materials or packing containers are clearly suitable for repetitive use.
6. For legal purposes, the classification of goods in the subheadings of a heading shall be determined according to the terms of those subheadings and any related subheading notes and, *mutatis mutandis*, to the above rules, on the understanding that only subheadings at the same level are comparable. For the purposes of this rule, the relative section, chapter and subchapter notes also apply, unless the context otherwise requires.

## ADDITIONAL U.S. RULES OF INTERPRETATION

1. In the absence of special language or context which otherwise requires--

- (a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of goods of that class or kind to which the imported goods belong, and the controlling use is the principal use;
- (b) a tariff classification controlled by the actual use to which the imported goods are put in the United States is satisfied only if such use is intended at the time of importation, the goods are so used and proof thereof is furnished within 3 years after the date the goods are entered;
- (c) a provision for parts of an article covers products solely or principally used as a part of such articles but a provision for "parts" or "parts and accessories" shall not prevail over a specific provision for such part or accessory; and
- (d) the principles of section XI regarding mixtures of two or more textile materials shall apply to the classification of goods in any provision in which a textile material is named.

## GENERAL NOTES

1. Tariff Treatment of Imported Goods and of Vessel Equipments, Parts and Repairs. All goods provided for in this schedule and imported into the customs territory of the United States from outside thereof, and all vessel equipments, parts, materials and repairs covered by the provisions of subchapter XVIII to chapter 98 of this schedule, are subject to duty or exempt therefrom as prescribed in general notes 3 through 14, inclusive, and general note 16.
2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia and Puerto Rico.
3. Rates of Duty. The rates of duty in the "Rates of Duty" columns designated 1 ("General" and "Special") and 2 of the tariff schedule apply to goods imported into the customs territory of the United States as hereinafter provided in this note:
  - (a) Rate of Duty Column 1.
    - (i) Except as provided in subparagraph (iv) of this paragraph, the rates of duty in column 1 are rates which are applicable to all products other than those of countries enumerated in paragraph (b) of this note. Column 1 is divided into two subcolumns, "General" and "Special", which are applicable as provided below.
    - (ii) The "General" subcolumn sets forth the general or normal trade relations (NTR) rates which are applicable to products of those countries described in subparagraph (i) above which are not entitled to special tariff treatment as set forth below.
    - (iii) The "Special" subcolumn reflects rates of duty under one or more special tariff treatment programs described in paragraph (c) of this note and identified in parentheses immediately following the duty rate specified in such subcolumn. These rates apply to those products which are properly classified under a provision for which a special rate is indicated and for which all of the legal requirements for eligibility for such program or programs have been met. Where a product is eligible for special treatment under more than one program, the lowest rate of duty provided for any applicable program shall be imposed. Where no special rate of duty is provided for a provision, or where the country from which a product otherwise eligible for special treatment was imported is not designated as a beneficiary country under a program appearing with the appropriate provision, the rates of duty in the "General" subcolumn of column 1 shall apply.
    - (iv) Products of Insular Possessions.
      - (A) Except as provided in additional U.S. note 5 of chapter 91 and except as provided in additional U.S. note 2 of chapter 96, and except as provided in section 423 of the Tax Reform Act of 1986, and additional U.S. note 3(e) of chapter 71, goods imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column 1 of the tariff schedule, except that all such goods the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 70 percent of their total value (or more than 50 percent of their total value with respect to goods described in section 213(b) of the Caribbean Basin Economic Recovery Act), coming to the customs territory of the United States directly from any such possession, and all goods previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.
      - (B) In determining whether goods produced or manufactured in any such insular possession contain foreign materials to the value of more than 70 percent, no material shall be considered foreign which either--
        - (1) at the time such goods are entered, or
        - (2) at the time such material is imported into the insular possession,may be imported into the customs territory from a foreign country, and entered free of duty; except that no goods containing material to which (2) of this subparagraph applies shall be exempt from duty under subparagraph (A) unless adequate documentation is supplied to show that the material has been incorporated into such goods during the 18-month period after the date on which such material is imported into the insular possession.
    - (C) Subject to the limitations imposed under sections 503(a)(2), 503(a)(3) and 503(c) of the Trade Act of 1974, goods designated as eligible under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such goods imported from a beneficiary developing country under title V of such Act.

    - (III) have not been subjected to operations other than loading, unloading or other activities necessary to preserve the articles in good condition.

- (a) Motor vehicles and original motor-vehicle equipment which are Canadian articles and which fall in provisions for which the rate of duty "Free (B)" appears in the "Special" subcolumn may be entered free of duty. As used in this note--

    - (ii) The term "original motor-vehicle equipment", as used with reference to a Canadian article (as defined above), means such a Canadian article which has been obtained from a supplier in Canada under or pursuant to a written order, contract or letter of intent of a bona fide motor vehicle manufacturer in the United States, and which is a fabricated component originating in Canada, as defined in general note 12, and intended for use as original equipment in the manufacture in the United States of a motor vehicle, but the term does not include trailers or articles to be used in their manufacture.
    - (iii) The term "motor vehicle", as used in this note, means a motor vehicle of a kind described in headings 8702, 8703 and 8704 of chapter 87 (excluding an electric trolley bus and a three-wheeled vehicle) or an automobile truck tractor principally designed for the transport of persons or goods.
    - (iv) The term "bona fide motor-vehicle manufacturer" means a person who, upon application to the Secretary of Commerce, is determined by the Secretary to have produced no fewer than 15 complete motor vehicles in the United States during the previous 12 months, and to have installed capacity in the United States to produce 10 or more complete motor vehicles per 40-hour week. The Secretary of Commerce shall maintain, and publish from time to time in the *Federal Register*, a list of the names and addresses of bona fide motor-vehicle manufacturers.

The symbol "E" indicates that all articles provided for in the designated provision are eligible for preferential treatment except those described in subdivision (e). The symbol "E" indicates that some articles provided for in the designated provision are not eligible for preferential treatment, as further described in subdivision (d) of this note. Whenever an eligible article is imported into the customs territory of the United States in accordance with the provisions of subdivision (b) of this note from a country or territory listed in subdivision (a) of this note, it shall be eligible for duty-free treatment as set forth in the "Special" subcolumn, unless excluded from such treatment by subdivisions (d) or (e) of this note. - (a) The products of Israel described in Annex 1 of the Agreement on the Establishment of a Free Trade Area between the Government of the United States of America and the Government of Israel, entered into on April 22, 1985, are subject to duty as provided herein. Products of Israel, as defined in subdivision (b) of this note, imported into the customs territory of the United States and entered under a provision for which a rate of duty appears in the "Special" subcolumn followed by the symbol "IL" in parentheses are eligible for the tariff treatment set forth in the "Special" subcolumn, in accordance with section 4(a) of the United States-Israel Free Trade Area Implementation Act of 1985 (99 Stat. 82).
- (b) For purposes of this note, goods imported into the customs territory of the United States are eligible for treatment as "products of Israel" only if--
  - (i) each article is the growth, product or manufacture of Israel or is a new or different article of commerce that has been grown, produced or manufactured in Israel;
  - (ii) each article is imported directly from Israel (or directly from the West Bank, the Gaza Strip or a qualifying industrial zone as defined in general note 3(a)(v)(G) to the tariff schedule) into the customs territory of the United States; and
  - (iii) the sum of--
    - (A) the cost or value of the materials produced in Israel, and including the cost or value of materials produced in the West Bank, the Gaza Strip or a qualifying industrial zone pursuant to general note 3(a)(v) to the tariff schedule, plus
    - (B) the direct costs of processing operations performed in Israel, and including the direct costs of processing operations performed in the West Bank, the Gaza Strip or a qualifying industrial zone pursuant to general note 3(a)(v) to the tariff schedule, is not less than 35 percent of the appraised value of each article at the time it is entered.

If the cost or value of materials produced in the customs territory of the United States is included with respect to an article to which this note applies, an amount not to exceed 15 percent of the appraised value of the article at the time it is entered that is attributable to such United States cost or value may be applied toward determining the percentage referred to in subdivision (b)(iii) of this note.

- (c) No goods may be considered to meet the requirements of subdivision (b)(i) of this note by virtue of having merely undergone--
  - (i) simple combining or packaging operations; or
  - (ii) mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the goods.
- (d) As used in this note, the phrase "direct costs of processing operations" includes, but is not limited to--
  - (i) all actual labor costs involved in the growth, production, manufacture or assembly of the specific merchandise, including fringe benefits, on-the-job training and the cost of engineering, supervisory, quality control and similar personnel; and
  - (ii) dies, molds, tooling and depreciation on machinery and equipment which are allocable to the specific merchandise.

Such phrase does not include costs which are not directly attributable to the merchandise concerned, or are not costs of manufacturing the product, such as (A) profit, and (B) general expenses of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising and salesmen's salaries, commissions or expenses.

- (c) Regional value content. Except as provided in subdivision (c)(iv) of this note, the regional value content of a good shall be calculated, at the choice of the exporter or producer of such good, on the basis of either the transaction value method set out in subdivision (c)(i) or the net cost method set out in subdivision (c)(ii).

- (i) Transaction value method. The regional value content of a good may be calculated on the basis of the following transaction value method:

$$RVC = \frac{TV - VNM}{TV} \times 100$$

where RVC is the regional value content, expressed as a percentage; TV is the transaction value of the good adjusted to a F.O.B. basis; and VNM is the value of non-originating materials used by the producer in the production of the good.

- (ii) Net cost method. The regional value content of a good may be calculated on the basis of the following net cost method:

$$RVC = \frac{NC - VNM}{NC} \times 100$$

where RVC is the regional value content, expressed as a percentage; NC is the net cost of the good; and VNM is the value of non-originating materials used by the producer in the production of the good.

- (iii) Except as provided in subdivisions (d)(i) and (d)(ii)(A)(2) of this note, the value of non-originating materials used by the producer in the production of a good shall not, for purposes of calculating the regional value content of the good under subdivision (c)(i) or (c)(ii) of this note, include the value of non-originating materials used to produce originating materials that are subsequently used in the production of such good.
- (iv) The regional value content of a good shall be calculated solely on the basis of the net cost method set out in subdivision (c)(ii) of this note where--
- (A) there is no transaction value for the good;
  - (B) the transaction value of the good is unacceptable under section 402(b) of the Tariff Act of 1930, as amended (19 U.S.C. 1401a(b));
  - (C) the good is sold by the producer to a related person and the volume, by units of quantity, of sales of identical or similar goods to related persons (as defined in article 415 of the NAFTA) during the six-month period immediately preceding the month in which the good is sold exceeds 85 percent of the producer's total sales of such goods during that period;
  - (D) the good is--
    - (1) a motor vehicle provided for in headings 8701 or 8702, subheadings 8703.21 through 8703.90, inclusive, or headings 8704, 8705 or 8706;
    - (2) identified in annex 403.1 or 403.2 to the NAFTA and is for use in a motor vehicle provided for in headings 8701 or 8702, subheadings 8703.21 through 8703.90, inclusive, or headings 8704, 8705 or 8706;
    - (3) provided for in subheadings 6401.10 through 6406.10, inclusive; or

  - (F) the good is designated as an intermediate material under subdivision (c)(viii) of this note and is subject to a regional value-content requirement.
- (v) If the regional value content of a good is calculated on the basis of the transaction value method set out in subdivision (c)(i) of this note and a NAFTA party subsequently notifies the exporter or producer, during the course of a verification of the origin of the good, that the transaction value of the good, or the value of any material used in the production of the good, is required to be adjusted or is unacceptable under section 402 of the Tariff Act of 1930, as amended (19 U.S.C. 1401a), the exporter or producer may then also calculate the regional value content of the good on the basis of the net cost method set out in subdivision (c)(ii) of this note.
- (vi) For purposes of calculating the net cost of a good under subdivision (c)(ii) of this note, the producer of the good may--
- (A) calculate the total cost incurred with respect to all goods produced by that producer; subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs that are included in the total cost of all such goods; and then reasonably allocate the resulting net cost of those goods to the good;
  - (B) calculate the total cost incurred with respect to all goods produced by that producer; reasonably allocate the total cost to the good; and then subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs that are included in the portion of the total cost allocated to the good; or
  - (C) reasonably allocate each cost that forms part of the total cost incurred with respect to the good so that the aggregate of these costs does not include any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs;
- provided that the allocation of all such costs is consistent with the provisions regarding the reasonable allocation of costs set out in regulations issued by the Secretary of the Treasury. The term "total cost" means all product costs, period costs and other costs incurred in the territory of Canada, Mexico and/or the United States.

  - (B) in the event that there is no transaction value or the transaction value of the material is unacceptable under section 402(b) of the Tariff Act of 1930, as amended, be determined in accordance with subsections (c) through (h), inclusive, of such section; and
  - (C) where not included under subdivision (A) or (B), include--
    - (1) freight, insurance, packing and all other costs incurred in transporting the material to the location of the producer;
    - (2) duties, taxes and customs brokerage fees on the material that were paid in the territory of Canada, Mexico, and/or the United States; and

(ix) The value of an intermediate material shall be—

(A) the total cost incurred with respect to all goods produced by the producer of the good that can be reasonably allocated to that intermediate material; or

(x) The value of an indirect material shall be based on the Generally Accepted Accounting Principles applicable in the territory of Canada, Mexico, and/or the United States in which the good is produced.

- (h) Accessories, spare parts and tools. Accessories, spare parts or tools delivered with the good that form part of the good's standard accessories, spare parts or tools, shall be considered as originating if the good originates and shall be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (t) of this note, provided that--
  - (i) the accessories, spare parts or tools are not invoiced separately from the good;
  - (ii) the quantities and value of the accessories, spare parts or tools are customary for the good; and
  - (iii) if the good is subject to a regional value-content requirement, the value of the accessories, spare parts or tools shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.
- (i) Indirect materials. An indirect material shall be considered to be an originating material without regard to where it is produced. The term "indirect material" means a good used in the production, testing or inspection of a good but not physically incorporated into the good, or a good used in the maintenance of buildings or the operation of equipment associated with the production of a good, including the following: fuel and energy; tools, dies and molds; spare parts and materials used in the maintenance of equipment and buildings; lubricants, greases, compounding materials and other materials used in production or used to operate other equipment and buildings; gloves, glasses, footwear, clothing, safety equipment and supplies; equipment, devices and supplies used for testing or inspecting the goods; catalysts and solvents; and any other goods that are not incorporated into the good but whose use in the production of the good can reasonably be demonstrated to be a part of that production.
- (j) Packaging materials and containers for retail sale. Packaging materials and containers in which a good is packaged for retail sale shall, if classified with the good, be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (t) of this note, and, if the good is subject to a regional value-content requirement, the value of such packaging materials and containers shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.
- (k) Packing materials and containers for shipment. Packing materials and containers in which the good is packed for shipment shall be disregarded in determining whether--
  - (i) the non-originating materials used in the production of the good undergo an applicable change in tariff classification set out in subdivision (t) of this note; and
  - (ii) the good satisfies a regional value-content requirement.
- (l) Transshipment. A good shall not be considered to be an originating good by reason of having undergone production that satisfies the requirements of this note if, subsequent to that production, the good undergoes further production or any other operation outside the territories of the NAFTA parties, other than unloading, reloading or any other operation necessary to preserve it in good condition or to transport the good to the territory of Canada, Mexico and/or the United States.
- (m) Non-qualifying operations. A good shall not be considered to be an originating good merely by reason of--
  - (i) mere dilution with water or another substance that does not materially alter the characteristics of the good; or
  - (ii) any production or pricing practice with respect to which it may be demonstrated, on the basis of a preponderance of evidence, that the object was to circumvent this note.

Products in the pharmaceutical appendix include the salts, esters and hydrates of the International Non-proprietary Name (INN) products enumerated in table 1 of the appendix that contain in their names any of the prefixes or suffixes listed in table 2 of the appendix, provided that any such salt, ester or hydrate is classifiable in the same 6-digit tariff provision as the relevant product enumerated in table 1.
14. Intermediate chemicals for dyes. - (f) any aircraft part or equipment that was removed from a United States-registered aircraft while being used abroad in international traffic because of accident, breakdown, or emergency, that was returned to the United States within 45 days after removal, and that did not leave the custody of the carrier or foreign customs service while abroad,

are not goods subject to the provisions of the tariff schedule. No exportation referred to in subdivision (e) may be treated as satisfying any requirement for exportation in order to receive a benefit from, or meet an obligation to, the United States as a result of such exportation.

### 17. Commingling of Goods.

- (a) Whenever goods subject to different rates of duty are so packed together or mingled that the quantity or value of each class of goods cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:
  - (i) sampling,
  - (ii) verification of packing lists or other documents filed at the time of entry, or
  - (iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled goods shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the goods pursuant to subparagraph (b) hereof.

- (b) Every segregation of goods made pursuant to this note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the goods are commingled and that the quantity or value of each class of goods cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.
- (c) The foregoing provisions of this note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof—
  - (i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and
  - (ii) that the commingling was not intended to avoid the payment of lawful duties.

Any goods with respect to which such proof is furnished shall be considered for all customs purposes as a part of the goods, subject to the next lower rate of duty, with which they are commingled.

- (d) The foregoing provisions of this note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof—
  - (i) that the value of the commingled goods is less than the aggregate value would be if the shipment were segregated;

- (ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and
- (iii) that the commingling was not intended to avoid the payment of lawful duties.

Any goods with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

- (e) The provisions of this note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled goods.

(e) the terms "wholly of", "in part of", and "containing", when used between the description of an article and a material (e.g., "woven fabrics, wholly of cotton"), have the following meanings:

(i) "wholly of" means that the goods are, except for negligible or insignificant quantities of some other material or materials, composed completely of the named material;

The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this note.

21. Methods of Ascertainment. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

  - (x) the statistical reporting number under which the goods are classifiable, including the appropriate symbol placed as a prefix to the statistical reporting number when claiming special tariff treatment as provided for in general note 3(c)(i) (asterisks, however, are not to be reported with or in place of the symbol prefix, e.g. for the Generalized System of Preferences only the "A" and not the asterisk shall be reported);
  - (xi) gross weight in kilograms for the goods covered by each reporting number for all modes of transportation;
  - (xii) the net quantity in the units specified herein for the classification involved and with the units noted;
  - (xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

- (ii) in the event that information for the purposes of subparagraph (xiv) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

## 2. Statistical Annotations.

- (a) The statistical annotations to the Harmonized Tariff Schedule of the United States consist of—
  - (i) the 2-digit statistical suffixes and any article descriptions applicable thereto,
  - (ii) the indicated units of quantity, and
  - (iii) the statistical notes and annexes.
- (b) The legal text of the Harmonized Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

## 3. Statistical Reporting Number.

- (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit subheading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under subheading 0106.00.50 is "0106.00.5010".
- (b) Whenever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the 10-digit subheading number of the provision from which the rate is derived. Thus, the statistical reporting number for certain mountings for optical telescopes is "9005.90.8000-9005.80.4040". If multiple statistical reporting numbers are shown for the subheading from which the duty rate is derived and the shipment contains articles covered by more than one statistical reporting number from the subheading, then report the last applicable statistical reporting number only.
- (c) Whenever an article is eligible for reduced Merchandise Processing Fee (MPF), and a claim therefor is made under one of the following programs, the statistical reporting number is, in absence of specific instructions to the contrary elsewhere, the 10-digit number prefixed by the appropriate symbol indicated below:

Automotive Products Trade Act .....	B#

Butter does not contain added emulsifiers, but may contain sodium chloride, food colors, neutralizing salts and cultures of harmless lactic-acid-producing bacteria.
  - (b) The expression "dairy spreads" means a spreadable emulsion of the water-in-oil type, containing milkfat as the only fat in the product, with a milkfat content of 39 percent or more but less than 80 percent by weight.
3. Products obtained by the concentration of whey and with the addition of milk or milkfat are to be classified as cheese in heading 0406 provided that they have the three following characteristics:
  - (a) A milkfat content, by weight of the dry matter, of 5 percent or more;
  - (b) A dry matter content, by weight, of at least 70 percent but not exceeding 85 percent; and

#### Subheading Note

1. For the purposes of subheading 0404.10, the expression "modified whey" means products consisting of whey constituents, i.e., whey from which all or part of the lactose, proteins or minerals have been removed, whey to which natural whey constituents have been added, and products obtained by mixing natural whey constituents.
