A. INTRODUCTION

1. Coverage. This index lists all publications issued by the Tariff Commission and U.S. International Trade Commission during the period from January 1, 1951, through September 15, 1977 (i.e., through USITC Publication 832).

This publication supersedes TC Publication 422 issued in September 1971.

Publications issued before 1951 are, in most cases, out of print. Special needs for such publications should be taken up in writing or in person with the Secretary's Office.

2. Depository Libraries. In many cases, the publications listed herein may be found in Federal Depository Libraries. These include leading public, university, and college libraries throughout the country. A complete list of depository libraries may be obtained from the Superintendent of Documents of the U.S. Government Printing Office, Washington, D.C., 20402.

3. Requests and Orders. Publications which are listed as available from the Commission may be obtained without charge as long as the supply lasts.

Publications shown as available at the U.S. Government Printing Office may be ordered from the Division of Public Documents, U.S. Government Printing Office, Washington, D.C., 20402. Orders should be accompanied by check or money order. All such orders and checks should be made out to the Superintendent of Documents, not to the Commission.

4. Explanation of Symbols. In the following sections publications are listed under the several categories shown in the Outline of Contents. Summarized information concerning each report is shown in a series of six columns. For columns 1, 2, and 5, the headings are sufficiently explanatory. The symbols used in columns 3 and 4 are as follows:
