Introduction

The Commission instituted this investigation on August 20, 2014, pursuant to section 1205 of the Omnibus Trade and Competitiveness Act of 1988 (19 U.S.C. 3005) (Trade Act of 1988). Section 1205(a) of the Trade Act of 1988 requires the Commission to keep the Harmonized Tariff Schedule of the United States (Harmonized Tariff Schedule or HTS) under continuous review and periodically to recommend to the President such modifications in the HTS as the Commission considers necessary or appropriate to conform the HTS with amendments made to the International Convention on the Harmonized Commodity Description and Coding System (Convention), and for certain other purposes. The Annex to the Convention contains the Harmonized System nomenclature.

In formulating recommended modifications in the HTS under section 1205(a), section 1205(b) of the Trade Act of 1988 requires the Commission to solicit, and give consideration to, the views of interested federal agencies and the public. To obtain such public views, the Commission is to give notice of the proposed recommendations and afford reasonable opportunity for interested parties to present their views in writing. In January 2015, the Commission issued such proposed recommendations, posted them on the Commission's website,¹ and solicited public comments by issuing a *Federal Register* notice.² As provided in the *Federal Register* notice, the deadline for the submission of written comments from interested federal agencies and the public was April 20, 2015.

Following the receipt and consideration of the views of interested federal agencies and the public, the Commission finalized its recommended modifications. In accordance with section 1205(c) of the Trade Act of 1988, the Commission is submitting its recommended modifications in the HTS to the President in the form of a report that includes a summary of the information on which the recommendations were based, together with a statement of the probable economic effect of each recommended change on any industry in the United States. The report also includes a copy of all written views submitted by interested federal agencies and a copy of the views of all other interested parties.

² 80 Fed. Reg. 8686 (Feb. 18, 2015).

On the basis of the investigation and the written views received, the Commission recommends that the President:

- (1) modify the HTS to incorporate the recommended amendments to the Harmonized System adopted by the World Customs Organization (WCO) in its Recommendation of June 27, 2014, expected to enter into force on January 1, 2017;
- (2) delete one of the two HTS subheadings that apply to taro (also known as dasheen); and,
- (3) modify the HTS nomenclature for corned beef such that corned beef will be provided for under a superior subheading for cured meat of bovine animals.

The Commission report also includes background information about the Harmonized System Convention, and a more detailed description of section 1205 of the Trade Act of 1988 and the Commission's role thereunder. Appendix A contains a copy of the Commission notice published in the *Federal Register* that announced the institution of Investigation No. 1205-11, and a copy of the *Federal Register* notice that notified federal agencies and the public of the Commission's proposed recommendations and solicited public comments thereon. The Commission's recommended modifications in the HTS are contained in Appendix B. Appendix C contains a table that correlates proposed new HTS subheadings and statistical reporting numbers with current HTS subheadings and statistical reporting numbers. Appendix D contains a table that correlates current HTS subheadings and statistical reporting numbers with proposed HTS subheadings and statistical reporting numbers. Appendix E contains a copy of the WCO Council Recommendation of June 27, 2014. Appendix F contains a copy of all written views submitted by interested federal agencies and by all other interested parties.

Background

The Harmonized System and the HTS

The United States acceded to the Harmonized System Convention in 1988.³ The Convention established the Harmonized System (HS), a standardized tariff nomenclature that provides uniform product architecture for the customs tariffs and statistical nomenclatures of all major trading countries of the world, including the United States.⁴ The Harmonized System establishes the general arrangement or structure of product categories, set forth in sections, chapters, 4-digit headings, and 6-digit subheadings. It also includes general rules of interpretation, and section and chapter legal notes that define the scope of sections, chapters, 4-digit headings and 6-digit subheadings. All Contracting Parties to the HS Convention follow the HS structure at the 4-digit and 6-digit level, facilitating international trade.

The Harmonized Tariff Schedule of the United States (Harmonized Tariff Schedule or HTS) is based on the Harmonized System nomenclature. In addition, however, the HTS includes national subdivisions (8-digit subheadings and 10-digit statistical reporting numbers), as well as additional U.S. chapter notes, and other national provisions that facilitate the administration of U.S. customs, tariff, and statistical programs. For purposes of this investigation, the Commission's recommended modifications in the HTS, which are contained in Appendix B, focus on 8-digit HTS subheadings. Eight-digit subheadings contain the legal tariff nomenclature and rates of duty for purposes of the HTS; they are subordinate to the 4- and 6-digit headings and subheadings that comprise the Harmonized System. It should be noted, however, that in addition to recommended legal modifications to 4-, 6-, and 8-digit headings and subheadings in the HTS, Appendix B also contains associated 10-digit statistical reporting numbers for informational purposes.

Section 1204 of the Trade Act of 1988 approved and enacted the Harmonized Tariff Schedule, which incorporates the structure of the Harmonized System nomenclature into the HTS. Section 1204(c) of the Trade Act of 1988 provides that the Harmonized Tariff Schedule is to be considered, “a statutory provision of law for all purposes.” Section 1207(a) of the Trade Act of 1988 provides that the Commission shall compile and publish the Harmonized Tariff Schedule.

³ See *International Convention on the Harmonized Commodity Description and Coding System*, done at Brussels on June 14, 1983, and the Protocol thereto, done at Brussels on June 24, 1986 (Harmonized System Convention). The Harmonized System Convention entered into force on January 1, 1988, and it entered into force for the United States on January 1, 1989, under section 1203 of the Trade Act of 1988, in which Congress approved the accession of the United States to the Convention and authorized the President to accept for the United States the final legal instruments embodying the Convention. The Harmonized System Convention is available at http://www.wcoomd.org/en/topics/nomenclature/instrument-and-tools/hs_convention.aspx.

⁴ The full name of the Harmonized System is the Harmonized Commodity Description and Coding System. It was established by the Harmonized System Convention and is set out in the Annex to the Convention. See http://www.wcoomd.org/en/topics/nomenclature/instrument-and-tools/hs_nomenclature_2012/hs_nomenclature_table_2012.aspx.

Section 1205(a) of the Trade Act of 1988 provides that the Commission shall keep the HTS under continuous review.

The WCO Role in Maintaining the Harmonized System

The World Customs Organization (WCO) administers and maintains the Harmonized System and has completed four systematic reviews of the Harmonized System nomenclature since 1988.⁵ The reviews are conducted to ensure that the Harmonized System is kept up-to-date in light of changes in technology or patterns of international trade. As part of the review process, the WCO also considers proposed amendments to the Harmonized System that may facilitate the monitoring and enforcement of international agreements, including, but not limited to, those relating to chemical and biological weapons, hazardous chemicals, ozone depleting chemicals, hazardous waste, and endangered species.

The so-called Fifth Review Cycle of the Harmonized System concluded when the WCO approved recommended amendments to the Harmonized System nomenclature on June 27, 2014.⁶ At the WCO, these amendments are informally referred to as “HS 2017” because the amendments enter into force on January 1, 2017, and the Contracting Parties have committed to implement them by that date.

Commission Recommendations under Section 1205

Under section 1205 of the Trade Act of 1988 the Commission is required to keep the HTS under continuous review and to recommend to the President the modifications in the HTS that it considers necessary or appropriate to achieve five objectives, including to conform the HTS with amendments to the Harmonized System Convention. More specifically, section 1205(a) provides:

“The Commission shall keep the Harmonized Tariff Schedule under continuous review and periodically, at such times as amendments to the [Harmonized System] Convention are recommended by the [World Customs Organization] for adoption, and as other circumstances warrant, shall recommend to the President such modifications in the Harmonized Tariff Schedule as the Commission considers necessary or appropriate -

⁵ It should be noted that, while section 1205 of the Trade Act of 1988 refers to the Customs Cooperation Council (CCC), the CCC adopted “World Customs Organization” as a working name in 1994.

⁶ See the Recommendation of 27 June 2014 of the Customs Cooperation Council Concerning the Amendment of the Nomenclature Appended as an Annex to the Convention, available at http://www.wcoomd.org/en/media/newsroom/2014/july/~/_media/WCO/Public/Global/PDF/Media/Newsroom/Press/2014/HS%202017%20RECOMMENDED%20AMENDMENTS.ashx.

- (1) to conform the Harmonized Tariff Schedule with amendments made to the Convention;
- (2) to promote the uniform application of the Convention, and particularly the Annex thereto;
- (3) to ensure that the Harmonized Tariff Schedule is kept up-to-date in light of changes in technology or in patterns of international trade;
- (4) to alleviate unnecessary administrative burdens; and
- (5) to make technical rectifications.”⁷

Section 1205(d) of the Trade Act of 1988 sets out certain limitations on the modifications in the HTS that the Commission is authorized to recommend. In particular, section 1205(d) provides that –

“The Commission may not recommend any modification to the Harmonized Tariff Schedule unless the modification meets the following requirements:

- (1) The modification must –
 - a. be consistent with the [Harmonized System] Convention or any amendment thereto recommended for adoption;
 - b. be consistent with sound nomenclature principles; and
 - c. ensure substantial rate neutrality.
- (2) Any change to a rate of duty must be consequent to, or necessitated by, nomenclature modifications that are recommended under this section.
- (3) The modification must not alter existing conditions of competition for the affected United States industry, labor, or trade.”

Section 1205(b) of the Trade Act of 1988 requires that the Commission, in formulating its recommendations, solicit and give consideration to the views of interested federal agencies and the public. In order to obtain such public views, the Commission is to provide notice of proposed recommendations and afford reasonable opportunity for interested parties to present their views in writing. The Commission is also authorized, but not required, to provide for a public hearing. Consistent with those requirements, the Commission published a notice in the Federal Register announcing that its proposed recommendations had been posted on its website and also announcing the procedure and deadline for filing written views. The Commission also notified

⁷ Section 1202(6) of the Trade Act of 1988 defines the term “technical rectifications” to mean:

“rectifications of an editorial character or minor technical or clerical changes which do not affect the substance or meaning of the text, such as—
errors in spelling, numbering, or punctuation;
errors in indentation;
errors (including inadvertent omissions) in cross-references to headings or subheadings or notes; and
other clerical or typographical errors.”

directly the several federal agencies it believed might have an interest in the matter. The Commission did not hold a hearing in connection with this investigation.

Section 1205(c) of the Trade Act of 1988 provides that the Commission is to submit its recommended modifications to the President in the form of a report that includes a summary of the information on which the recommendations are based, a probable economic effect statement, and copies or summaries of written views. Section 1205(c) provides as follows --

“The Commission shall submit recommendations under this section to the President in the form of a report that shall include a summary of the information on which the recommendations were based, together with a statement of the probable economic effect of each recommended change on any industry in the United States. The report also shall include a copy of all written views submitted by interested federal agencies and a copy or summary, prepared by the Commission, of the views of all other interested parties.”

Executive Authority under Section 1206

Section 1206(a) of the Trade Act of 1988 authorizes the President to proclaim modifications to the Harmonized Tariff Schedule, based on the recommendations by the Commission under section 1205, if the President determines that the recommended modifications are in conformity with U.S. obligations under the Harmonized System Convention and do not run counter to the national economic interest of the United States.

Section 1206(b) of the Trade Act of 1988 provides that a modification may be proclaimed only after the expiration of a 60-day layover period that begins on the date the President submits a report to the Committee on Ways and Means of the House of Representatives and to the Committee on Finance of the Senate.⁸ The President’s report must set forth the proposed modifications and the reasons for making them. The President has delegated the responsibility to notify the Congressional Committees under section 1206(b) of the Trade Act of 1988 to the United States Trade Representative (USTR).⁹

Under section 1206(c) of the Trade Act of 1988, modifications to the Harmonized Tariff Schedule that are proclaimed by the President cannot become effective before the 30th day after the implementing proclamation is published in the *Federal Register*.

⁸ It should be noted that the 60-day layover period is not 60 calendar days; it is defined as 60 days when the Congress is in session. See section 1206(b)(2) of the Trade Act of 1988 (19 U.S.C. 3006(b)(2)), which provides that the 60-day period shall be computed by excluding the days on which either House is not in session because of an adjournment and any Saturday or Sunday when either House is not in session.

⁹ See Memoranda of the President, 56 Fed. Reg. 65413 (Dec. 12, 1991).

Methodology

In preparing its recommended modifications to the HTS, the Commission considered: (1) the text of each WCO amendment to the Harmonized System (HS); (2) whether the amendment broadens or narrows the scope of a 4-digit HS heading or a 6-digit HS subheading; (3) whether the amendment simply provides for a product specifically by name, thereby removing it from a basket category; (4) whether the amendment transfers products from one HS heading or subheading to another HS heading or subheading; and (5) whether the amendment transfers products from one HS chapter to another HS chapter.

The review involved a careful reading and analysis of each amendment, a review of the existing HS nomenclature, and a review of the section and chapter legal notes in the HS that may govern the classification of the products. In addition, the Commission consulted the Explanatory Notes that contain the official WCO guidelines to the product coverage of headings and subheadings in the Harmonized System.¹⁰ Although the HS Explanatory Notes are not legally binding on Contracting Parties to the HS Convention, they are nonetheless useful in understanding the scope of headings and subheadings in the Harmonized System.¹¹

In addition to reviewing the text of the HS amendments and the HS itself, the Commission reviewed the Harmonized Tariff Schedule as well, to examine how the HS amendment might affect the HTS. The review process involved an analysis of the relevant 8-digit subheadings in the HTS, as well as any applicable additional U.S. notes or classification decisions by U.S. Customs and Border Protection (CBP). The Commission consulted with CBP and obtained views that were taken into consideration, along with other comments, in the preparation of this report.

¹¹ See H.R. Rep. No. 100-576, at 549 (1988) (Conf. Rep.) and T.D. 89-80, 54 Fed. Reg. 35127 (Aug. 23, 1989).

Recommended Modifications Relating to WCO HS Amendments

This section of the report summarizes the information related to the Commission's recommended modifications in the HTS to conform the HTS with amendments made to the Harmonized System nomenclature in the WCO Council Recommendation of June 27, 2014.¹² The Commission's recommended modifications in the HTS are set out in Appendix B.

The WCO Council Recommendation contains amendments to the Harmonized System nomenclature relating to 234 products and products groups, including, for example: fish and fishery products; forestry products, including tropical wood and certain bamboo and rattan products; antimalarial products; substances controlled under the Chemical Weapons Convention; hazardous chemicals controlled under the Rotterdam Convention; persistent organic pollutants controlled under the Stockholm Convention; ceramic tiles; newsprint; light-emitting diode lamps; multi-component integrated circuits; and hybrid, plug-in hybrid, and all-electric vehicles.¹³

The recommended modifications in Appendix B would make corresponding conforming modifications in the Harmonized Tariff Schedule with respect to the same 234 products and product groups that were affected by the WCO Recommendation. Appendix B contains conforming modifications to the HTS nomenclature, including modifications of article descriptions, and HTS heading and subheading numbers. Some recommended modifications in Appendix B would modify section notes, chapter notes, additional U.S. notes, and the general notes to the HTS. Some recommended modifications in Appendix B would delete existing HTS headings or subheadings, and insert new headings and subheadings in lieu thereof. In cases in which a modification in the Harmonized Tariff Schedule would indirectly alter the scope of an existing HTS subheading without modifying its article description, the subheading is renumbered to indicate that its scope has been changed.

¹² See the Recommendation of 27 June 2014 of the Customs Cooperation Council Concerning the Amendment of the Nomenclature Appended as an Annex to the Convention, available at http://www.wcoomd.org/en/media/newsroom/2014/july/~/_media/WCO/Public/Global/PDF/Media/Newsroom/Press/2014/HS%202017%20RECOMMENDED%20AMENDMENTS.ashx.

¹³ See WCO, *New Harmonized System Standards to Enter Into Force on January 1, 2017*, <http://www.wcoomd.org/en/media/newsroom/2014/july/new-harmonized-system-standards-to-enter-into-force-on-1-january-2017.aspx>.

Appendix B contains the rates of duty as they appear in the Harmonized Tariff Schedule: (1) the column 1 general, or normal trade relations (NTR), rate of duty;¹⁴ (2) the column 1 special rates of duty for preferential tariff treatment under tariff preference programs or free trade agreements; and, (3) the column 2 rates of duty. Any proposed new HTS subheading in Appendix B contains the current applied NTR rate of duty that applies to the product or product groups, thereby maintaining existing tariff treatment. In other words, Appendix B contains modifications in tariff nomenclature and heading and subheading numbers of the Harmonized Tariff Schedule, but it does not change the applicable NTR rates of duty or the special rates. As a result, the recommended modifications in Appendix B meet the statutory goal of ensuring substantial rate neutrality (section 1205(d)(1)(C) of the Trade Act of 1988).

The column 1 special rates of duty in Appendix B are the rates of duty that are scheduled to be in effect as of January 1, 2017, the date that the WCO-approved amendments to the HS are to enter into force. They reflect the staged rate reductions that would be in effect under U.S. bilateral free trade agreements as of January 1, 2017. Therefore, they do not reflect the current applied rate of duty.

Finally, in proposing these modifications, the Commission considered the requirements of section 1205(d) of the Trade Act of 1988. The Commission is of the view that the modifications are consistent with the Convention, consistent with sound nomenclature principles, and ensure substantial rate neutrality. Particularly in light of the rate neutrality of such modifications, the Commission is unaware of any evidence that the recommended modifications would alter existing conditions of competition for the affected U.S. industry, labor, or trade.

¹⁴ The NTR (normal trade relations) rate of duty is known under international law as “most-favored-nation” treatment, or MFN. See Article 1 of the General Agreement on Tariffs and Trade.

Recommended Modifications Relating to Taro and Corned Beef

This section of the report summarizes the information related to the Commission's recommended modifications to modify the HTS for taro and corned beef. As noted above, section 1205(a) of the Trade Act of 1988 authorizes the Commission to recommend to the President such modifications in the HTS as the Commission considers necessary or appropriate to promote the uniform application of the Harmonized System, to alleviate unnecessary administrative burdens, and to make technical rectifications. Pursuant to this authority, the Commission has prepared recommended modifications in the HTS relating to the tariff nomenclature for taro (also known as dasheen) and the tariff nomenclature for corned beef.

Tariff Nomenclature for Taro (also known as Dasheen)

The Commission recommends that the HTS be modified to delete HTS subheading 0714.90.10, which covers fresh or chilled dasheens, and that HTS subheading 0714.40.10 be amended to incorporate the rates of duty from HTS subheading 0714.90.10. The Commission considers this modification to be necessary or appropriate to promote the uniform application of the Harmonized System, to alleviate unnecessary administrative burdens, and to make technical rectifications. Taro is a root vegetable that has hundreds of varieties or cultivars around the world and many common names, one of which is dasheen.¹⁵ The Commission's recommended modification regarding taro (dasheen) is based on the fact that there are two different subheadings for taro (dasheen) in the Harmonized Tariff Schedule. Given that taro and dasheen are used interchangeably to describe the same product, the Harmonized Tariff Schedule should not have one HTS subheading for taro and another HTS subheading for dasheens.

As shown in the following excerpts from the Harmonized Tariff Schedule, fresh or chilled taro (*Colocasia spp.*) is provided for in HTS subheading 0714.40.10, while fresh or chilled dasheens (also known as taros) are provided for in HTS subheading 0714.90.10.¹⁶

¹⁵ See, e.g., USDA, Natural Resources Conservation Service, Plant Guide, *TARO Colocasia esculenta* (L.) Schott ("dasheen is an alternate name for taro"), and Food and Agriculture Organization of the United Nations, FAOSTAT Commodity List item 0136 Taro (Cocoyam) ("dasheen and taro are common names for *Colocasia esculenta*"), <http://www.fao.org/economic/ess/ess-standards/comm-items/details-items/en/c/1377>.

¹⁶ See Harmonized Tariff Schedule of the United States (2015), available at <http://www.usitc.gov/tata/hts/index.htm>.

HTS subheading 0714.40.10 provides for fresh or chilled taro (*Colocasia spp.*):

Heading/ subheading	Article Description	Col. 1 general	Col. 1 Special	Col. 2
0714	Cassava (manioc), . . . and similar roots and tubers with high starch or inulin content, fresh, chilled, frozen or dried . . .			
0714.40	Taro (<i>Colocasia spp.</i>):			
0714.40.10	Fresh or chilled	16%	Free (A+,AU,CA,CL, CO,D,E,IL,JO,MX, OM,P,PA,PE,SG) 1.6% (BH,MA) 6.4% (KR)	50%

Similarly, HTS subheading 0714.90.10 provides for fresh or chilled dasheens:

Heading/ subheading	Article Description	Col. 1 general	Col. 1 Special	Col. 2
0714	Cassava (manioc), . . . and similar roots and tubers with high starch or inulin content, fresh, chilled, frozen or dried . . .			
0714.90	Other:			
	Fresh or chilled:			
0714.90.10	Dasheens	2.3%	Free (A,AU,BH,CA, CL,CO,E,IL,JO,KR, MA,MX,OM,P,PA, PE,SG)	50%

The HTS subheading for fresh or chilled dasheens, 0714.90.10, appeared in the first edition of the Harmonized Tariff Schedule, which took effect in 1989. HTS subheading 0714.90.10 was derived from item 136.00 in the former Tariff Schedules of the United States, which provided explicitly for dasheens and which was in effect prior to 1989. HTS subheading 0714.90.10 has a column 1-general, or normal trade relations (NTR), rate of duty of 2.3 percent *ad valorem*. Fresh or chilled taros have been classifiable as fresh or chilled dasheens in HTS subheading 0714.90.10 continuously since 1989.

In 2009, as part of the Fourth Review Cycle of the Harmonized System at the World Customs Organization, the WCO recommended that a new HS subheading be created for taro (*Colocasia spp.*). Prior to 2009, taro (also known as dasheen) was not provided for by name in the Harmonized System; rather, it was classifiable in HS subheading 0714.90, a basket category for other roots and tubers with high starch or inulin content. In the Fourth Review Cycle, the WCO created an *eo nomine* HS subheading for taro (*Colocasia spp.*). Accordingly, as part of its report to the President relating to the WCO's Fourth Review Cycle, the Commission recommended a

modification in the Harmonized Tariff Schedule to establish new HTS subheading 0714.40.10 for fresh or chilled taro (*Colocasia spp.*),¹⁷ and the President proclaimed the modification in the HTS based on the Commission recommendation.¹⁸

The new HTS subheading for fresh or chilled taro (*Colocasia spp.*), 0714.40.10, was established with an NTR rate of duty of 16 percent, effective February 3, 2012. The rate of duty was derived from HTS subheading 0714.90.39, a basket category for other fresh or chilled roots and tubers with high starch or inulin content where, at the time, taro was thought to be classified. However, taro was actually classifiable as dasheen in HTS subheading 0714.90.10 because taro and dasheen are used interchangeably to describe the same product for purposes of the Harmonized System. At the time that new HTS subheading 0714.40.10 for fresh or chilled taro (*Colocasia spp.*) was created in 2012, HTS subheading 0714.90.10 for fresh or chilled dasheens (also known as taros) should have been deleted, and the rates of duty from HTS subheading 0714.90.10 should have been incorporated in the new HTS subheading for fresh or chilled taro (*Colocasia spp.*) in order to maintain the applied rates of duty and to ensure substantial rate neutrality.

Accordingly, the Commission considers it necessary or appropriate to modify the Harmonized Tariff Schedule so that there is a single HTS subheading for fresh or chilled taro (also known as dasheen). In consideration of the requirements of section 1205(d) of the Trade Act of 1988, the Commission is of the view that the modification is consistent with the Convention, consistent with sound nomenclature principles, and ensures substantial rate neutrality. Particularly in light of the rate neutrality of such a modification, the Commission is unaware of any evidence that the modification would alter existing conditions of competition for the affected U.S. industry, labor, or trade.¹⁹

Thus, in summary, as reflected in item 07-1 in Appendix B of this report, the Commission recommends that the HTS be modified to delete HTS subheading 0714.90.10, which covers fresh or chilled dasheens, and that HTS subheading 0714.40.10 be amended to incorporate the rates of duty from HTS subheading 0714.90.10. The rates of duty under HTS subheading 0714.90.10 are the rates of duty that had applied to fresh or chilled dasheens (also known as taros) since prior to 1989. Therefore, those rates of duty should continue to apply to fresh or chilled taro (also known as dasheen) under HTS subheading 0714.40.10.

¹⁹ Review of the trade volumes for the products reveals that in excess of 95 percent of imports of taro and dasheens enter under the lower rates for dasheens.

Tariff Nomenclature for Corned Beef

The Commission recommends that the HTS be modified to delete HTS subheading 1602.50.10, which covers corned beef in airtight containers, and to insert a new HTS subheading for corned beef in airtight containers that is subordinate to a superior subheading for cured or pickled meat of bovine animals. The Commission considers this modification to be necessary or appropriate to promote the uniform application of the Harmonized System, to alleviate unnecessary administrative burdens, and to make technical rectifications.

Corned beef is beef that has been cured, or preserved, by the use of salt (i.e., sodium chloride) and sodium nitrite, in combination with one or more other ingredients, such as curing accelerators and seasonings.²⁰ Historically, coarse pellets of dry salt (i.e., so-called 'corns' of salt) were rubbed into beef to preserve it and to keep it from spoiling; in current practice, corned beef is typically cured or preserved in a salt water brine or immersion, which contain sodium nitrite and other ingredients, but the name “corned” beef is still used to describe the beef, rather than brined or pickled beef.²¹

As shown in the excerpt from the Harmonized Tariff Schedule below, cured or pickled meat of bovine animals is provided for in HTS subheading 1602.50.09. On the other hand, corned beef in airtight containers is provided for by name in HTS subheading 1602.50.10.²² On its face, this creates an apparent conflict as to whether corned beef should be classified as a cured or pickled meat in HTS subheading 1602.50.09, or whether it should be classified by name in HTS subheading 1602.50.10. An additional interpretative issue is raised by the fact that a superior subheading to subheading 1602.50.10 provides for prepared or preserved meat of bovine animals that is other than cured or pickled. In other words, the HTS subheading for corned beef is subordinate to a superior subheading that provides for prepared or preserved meat of bovine animals that is not cured or pickled, despite the fact that corned beef is a cured product.

Moreover, the superior subheading appears at the same level of indentation as HTS subheading 1602.50.09. Under the General Rules of Interpretation, classification is to be determined in accordance with the terms of the subheadings “on the understanding that only

²² It should be noted that the HTS subheading for corned beef appeared in the first edition of the Harmonized Tariff Schedule, which took effect in 1989. It was derived from item 107.48 in the former Tariff Schedules of the United States, which provided explicitly for corned beef and which was in effect prior to 1989.

subheadings at the same level are comparable.”²³ Therefore, for purposes of classifying corned beef in airtight containers, it first is necessary to determine whether corned beef is cured or pickled, within the meaning of HTS subheading 1602.50.09, or whether it is other than cured or pickled, within the meaning of the superior subheading to HTS subheading 1602.50.10, which is at a comparable level of indentation as subheading 1602.50.09.

Because corned beef is a cured meat product, it is classifiable in HTS subheading 1602.50.09, a subheading that covers cured meat of bovine animals. The *eo nomine* subheading for corned beef in airtight containers in HTS subheading 1602.50.10 appears to be subordinate to a superior subheading that does not cover cured meat of bovine animals. Therefore, any subordinate subheading indented thereunder cannot cover cured meat such as corned beef. The location or placement of the *eo nomine* subheading for corned beef is not consistent with the intended hierarchical structure of the Harmonized System and the Harmonized Tariff Schedule, in which specific product descriptions are indented under superior headings and subheadings that describe or include the specific product.

The following excerpt from the Harmonized Tariff Schedule shows HTS subheading 1602.50.10 and the relevant related headings, subheadings and superior subheadings.²⁴

Accordingly, the Commission considers it necessary or appropriate to modify the Harmonized Tariff Schedule to provide for corned beef under a superior subheading for cured or pickled meat of bovine animals. In accordance with the requirements of section 1205(d) of the Trade Act of

²³ See Rule 6, General Rules of Interpretation, Harmonized Tariff Schedule of the United States (2015) (19 U.S.C. 3007), available at www.usitc.gov.

²⁴ See Harmonized Tariff Schedule of the United States (2015) (19 U.S.C. 3007), available at www.usitc.gov.

1988, the Commission is of the view that the modification in the HTS is consistent with the Convention, consistent with sound nomenclature principles, and ensures substantial rate neutrality. Particularly in light of the rate neutrality of such a modification, the Commission is unaware of any evidence that the modification would alter existing conditions of competition for the affected U.S. industry, labor, or trade. There should be no trade effect because the modification will merely shift the placement of an existing subheading and its rates of duty into a more appropriate location within the tariff schedule.

Thus, in summary, as reflected in item 16-3 in Appendix B of this report, the Commission recommends that the HTS be modified to delete HTS subheading 1602.50.10, which covers corned beef in airtight containers, and to insert a new HTS subheading for corned beef in airtight containers that is subordinate to a superior subheading for cured or pickled meat of bovine animals. The same rates of duty would continue to apply to corned beef in airtight containers to maintain the applied rates of duty and to ensure substantial rate neutrality. There should therefore be no economic effect if this modification is made.

Public Comments on Proposed Recommendations

In response to its request for public comments on the proposed recommendations in this investigation, the Commission received two written comments from interested parties regarding the proposed recommendations.²⁵ The written comments are reproduced in Appendix F.

FedEx Trade Networks filed written comments raising some technical questions about the HS 2017 amendments for chapters 3 and 44 of the Harmonized Tariff Schedule and noting that the HS 2017 amendments to chapter 95 of the HTS were not included in the Commission's proposed recommendations. In response, the Commission made all necessary or appropriate changes to chapters 3 and 44, and inserted the HS 2017 amendments to chapter 95. The changes are included in the Commission's recommended modifications in the HTS, which are contained in Appendix B of this report.

Titan International, Inc. and the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Services Workers International Union filed written comments about the HS 2017 amendments for chapter 40 and suggested that existing statistical reporting numbers for certain new pneumatic tires, of rubber, be maintained. In response, the Commission made all necessary or appropriate changes to chapter 40. The statistical reporting numbers for certain new pneumatic tires, of rubber, have been included in the Commission's recommended modifications in the HTS, which are contained in Appendix B of this report.

No public comments were received on the proposed recommendations regarding taro (also known as dasheen) or corned beef.

²⁵ An additional response was received from the United States Council for International Business expressing appreciation for the roles that the Commission and U.S. Customs and Border Protection play in representing the United States at the World Customs Organization on matters relating to the Harmonized System.

Probable Economic Effect of Recommended Modifications

Section 1205(c) of the Trade Act of 1988 requires the Commission to include in its report a statement of the probable economic effect of each recommended change on any industry in the United States. The Commission is of the view that the recommended modifications, if adopted, will have little or no economic effect on any industry in the United States as described in more detail in this section.

First, the Commission examined each of the recommended amendments to the HS adopted by the WCO. As indicated above, section 1205(d) of the Trade Act of 1988 provides that the Commission may not recommend any modification to the HTS unless the modification meets three specific requirements: (1) the modification must be consistent with the Convention or any amendment thereto recommended for adoption, be consistent with sound nomenclature principles, and ensure substantial rate neutrality; (2) any change to a rate of duty must be consequent to, or necessitated by, nomenclature modifications that are recommended under section 1205; and (3) the modification must not alter existing conditions of competition for the affected U.S. industry, labor, or trade. In the view of the Commission, the recommended modifications in the HTS meet these requirements.

Second, the Commission considered whether the establishment of a single HTS subheading for fresh or chilled taro (also known as dasheen) would promote the uniform application of the Harmonized System and alleviate an unnecessary administrative burden. In consideration of the requirements of section 1205(d) of the Trade Act of 1988, the Commission views the modification as consistent with the Convention, consistent with sound nomenclature principles, and ensures rate neutrality. Review of the trade volumes for the two products reveals that in excess of 95% of imports of taro and dasheens enter under the lower rates for dasheens. Moreover, all imported fresh or chilled taro currently is eligible to be entered into the Customs territory of the United States as dasheens under HTS subheading 0714.90.10, which has a 2.3 percent rate of duty. Even were all trade in taro to shift to dasheens, less than \$2 million of total imports out of a total volume of taro imports exceeding \$50 million would be affected. This volume of trade would not alter existing conditions of competition for the affected U.S. industry, labor, or trade, in the view of the Commission.

Finally, the Commission also considered whether the recommended modification concerning corned beef would be consistent with the HS Convention, consistent with sound nomenclature principles and ensure substantial rate neutrality. As noted above, the recommended

modification would not change a rate of duty, and would not alter existing conditions of competition for the affected U.S. industry, labor, or trade.

For the reasons stated above, the Commission is of the view that the recommended modifications in the HTS, which are set forth in Appendix B, are necessary or appropriate to provide for the goods concerned under the proper HTS headings or subheadings. Furthermore, the Commission views the recommended modifications as unlikely to alter existing conditions of competition for the affected U.S. industries, labor, or trade. Consequently, the information collected by the Commission indicates that the recommended modifications, if proclaimed, would ensure substantial rate neutrality and would have little or no economic effect on U.S. industry, labor or trade.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 1205-11]

Recommended Modifications in the Harmonized Tariff Schedule To Conform With Amendments to the Harmonized System Recommended by the World Customs Organization, and To Address Other Matters

AGENCY: United States International Trade Commission.

ACTION: Notice of institution of investigation.

SUMMARY: The Commission has instituted investigation No. 1205-11, *Recommended Modifications in the Harmonized Tariff Schedule to Conform with Amendments to the Harmonized System Recommended by the World Customs Organization, and to Address Other Matters*, pursuant to section 1205 of the Omnibus Trade and Competitiveness Act of 1988 (the 1988 Act) (19 U.S.C. 3005), in order to recommend to the President modifications in the Harmonized Tariff Schedule of the United States (HTS).

The recommended modifications concern (1) the World Customs Organization's (WCO) Recommendation of June 27, 2014 that Contracting Parties to the International Convention on the

Harmonized Commodity Description and Coding System (Convention) modify their tariff schedules to conform with amendments to the Harmonized System expected to enter into force on January 1, 2017; and (2) whether one of the two HTS subheadings that apply to taro (also known as dasheens) should be deleted, and whether the HTS nomenclature for corned beef should be provided for under a superior subheading for cured meat of bovine animals.

DATES: August 20, 2014: Posting of the WCO's Recommendation of June 27, 2014, on the Commission Web site. December 2014 (actual date to be announced later): Posting of the Commission's proposed recommendations on the Commission's Web site.

February 2015 (actual date to be announced later): Deadline for interested Federal agencies and the public to file written views on the Commission's proposed recommendations. July 2015 (actual date to be announced later): Transmittal of the Commission's report to the President.

ADDRESSES: All Commission offices, including the Commission's hearing rooms, are located in the United States International Trade Commission Building, 500 E Street SW., Washington, DC. All written submissions should be addressed to the Secretary, United States International Trade Commission, 500 E Street SW., Washington, DC 20436. The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <http://www.usitc.gov/secretary/edis.htm>.

Shepherdson, Attorney-Advisor, Office of Tariff Affairs and Trade Agreements (202-205-2598, or Daniel.Shepherdson@usitc.gov) or John Kitzmiller, Nomenclature Analyst, Office of Tariff Affairs and Trade Agreements (202-205-3387, or John.Kitzmiller@usitc.gov). The media should contact Margaret O'Laughlin, Office of External Relations (202-205-1819, or Margaret.OLaughlin@usitc.gov). Hearing-impaired individuals may obtain information on this matter by contacting the Commission's TDD terminal at 202-205-1810. General information about the Commission may be obtained by accessing the Commission Web site at www.usitc.gov. Persons with mobility impairments who will need special assistance in gaining access to the Commission should

contact the Office of the Secretary at 202-205-2000.

SUPPLEMENTARY INFORMATION:

Background: Section 1205(a) of the 1988 Act requires that the Commission keep the Harmonized Tariff Schedule of the United States (Harmonized Tariff Schedule or HTS) under continuous review and periodically recommend to the President such modifications in the HTS as the Commission considers necessary or appropriate, including to conform the HTS with amendments made to the International Convention on the Harmonized Commodity Description and Coding System (Convention), which contains the Harmonized System nomenclature in the Annex to the Convention.

The Harmonized System nomenclature provides uniform product architecture for the customs tariffs and statistical nomenclatures of all major trading countries of the world, including the United States. The Harmonized System establishes the general arrangement or structure of product categories, set forth in chapters, 4-digit headings and 6-digit subheadings. It also includes the general rules of interpretation, and section and chapter legal notes that define the scope of sections, chapters, 4-digit headings and 6-digit subheadings. The Harmonized Tariff Schedule is based on the Harmonized System nomenclature. In addition, however, the HTS includes national subdivisions (8-digit subheadings and 10-digit statistical annotations), as well as additional U.S. chapter notes, and other national provisions that facilitate the administration of U.S. customs, tariff and statistical programs.

On June 27, 2014, the WCO adopted recommended amendments to the Harmonized System nomenclature that are scheduled to enter into force on January 1, 2017. The amendments are the fifth in a series of such amendments and are part of the WCO's ongoing program of periodically reviewing and updating the Harmonized System nomenclature. The Commission has posted a copy of the WCO amendments on its Web site at www.usitc.gov. The Commission will recommend to the President such modifications in the HTS as it considers necessary or appropriate to conform the HTS with such amendments.

The Commission will also consider two additional possible modifications in the HTS identified by U.S. Customs and Border Protection as part of this investigation. The first relates to the HTS nomenclature for taro (also known as dasheens). In the HTS, fresh or

chilled taro is provided for in HTS subheading 0714.40.10, while fresh or chilled dasheens are provided for in HTS subheading 0714.90.10. As part of this investigation, the Commission intends to consider whether it is necessary or appropriate to recommend to the President that one of the two subheadings be deleted from the HTS. The second additional possible modification relates to the HTS nomenclature for corned beef, which is provided for in HTS subheading 1602.50.10. The superior subheading to subheading 1602.50.10 provides for certain meat of bovine animals that is not cured. However, corned beef is a cured meat product. As part of this investigation, the Commission intends to consider whether it is necessary or appropriate to recommend to the President that the HTS be modified to provide for corned beef under a superior subheading for cured meat of bovine animals.

An up-to-date copy of the HTS, which incorporates the Harmonized System in its overall structure, can be found on the Commission Web site at www.usitc.gov. Hard copies and electronic copies on CD can be found at many of the 1,400 Federal Depository Libraries located throughout the United States and its territories; further information about these locations can be found at www.gpoaccess.gov or by contacting GPO Access by telephone at (866) 512-1800.

Proposed Recommendations, Opportunity To Comment: In preparing its recommended modifications, the Commission will first prepare proposed recommendations and provide opportunity to interested Federal agencies and the public to present their views in writing on those proposed recommendations. The Commission expects to publish the proposed recommendations on its Web site in December 2014, and will publish a notice in the **Federal Register** at that time providing notice of their availability and the procedures for filing written views, including the date by which such written views must be filed. To assist the public in understanding the proposed changes and in developing comments, the Commission will include, with the proposed recommendations and in its report to the President, a non-authoritative cross-reference table linking the proposed tariff codes to the corresponding current tariff codes. Persons using the successive versions of this table should be aware that the cross-references shown are subject to change during the course of the investigation.

Recommendations to the President: The Commission will submit its recommended modifications to the President in the form of a report that will include a summary of the information on which the recommendations were based, together with a statement of the probable economic effect of each recommended change on any industry in the United States. The report also will include a copy of all written views submitted by interested Federal agencies and a copy or summary, prepared by the Commission, of the views of all other interested parties. The Commission expects to submit that report in July 2015.

By order of the Commission.

[Docket No. DEA-378]

Controlled Substances: Adjustment to the Established 2014 Aggregate Production Quota for Marijuana

AGENCY: Drug Enforcement Administration, Department of Justice.

ACTION: Notice.

SUMMARY: This notice addresses a comment received as a result of a notice with request for comments published May 5, 2014, adjusting the established 2014 aggregate production quota for marijuana, a schedule I controlled substance under the Controlled Substances Act.

DATES: Effective August 26, 2014.

SUPPLEMENTARY INFORMATION:

Legal Authority

The Drug Enforcement Administration (DEA) implements and enforces titles II and III of the Comprehensive Drug Abuse Prevention and Control Act of 1970, as amended. Titles II and III are referred to as the "Controlled Substances Act" and the "Controlled Substances Import and Export Act," respectively, and are collectively referred to as the

"Controlled Substances Act" or the "CSA" for the purpose of this action. 21 U.S.C. 801-971. The DEA publishes the implementing regulations for these statutes in title 21 of the Code of Federal Regulations (CFR), parts 1300 to 1321. The CSA and its implementing regulations are designed to prevent, detect, and eliminate the diversion of controlled substances and listed chemicals into the illicit market while providing for the legitimate medical, scientific, research, and industrial needs of the United States. Controlled substances have the potential for abuse and dependence and are controlled to protect the public health and safety.

Section 306 of the CSA (21 U.S.C. 826) requires the Attorney General to establish aggregate production quotas for each basic class of controlled substance listed in schedules I and II each year. The Attorney General has delegated this authority under 21 U.S.C. 826 to the Administrator of the DEA, 28 CFR 0.100.

Background

The DEA established the initial 2014 aggregate production quotas and assessments for annual need on September 9, 2013 (78 FR 55099). The notice stipulated that, as provided for in 21 CFR 1303.13, all aggregate production quotas and assessments for annual need are subject to adjustment. On May 5, 2014, a notice titled, "Controlled Substances: Adjustment to the Established 2014 Aggregate Production Quota for Marijuana," was published in the **Federal Register** (79 FR 55099). That notice adjusted the established 2014 aggregate production quota for marijuana for reasons stated therein. All interested persons were invited to comment on or object to the adjusted 2014 aggregate production quota for marijuana on or before June 4, 2014.

Comments Received

The DEA received one comment on the notice with request for comments. The commenter supported the adjusted 2014 aggregate production quota for marijuana. The DEA appreciates the support for this adjusted 2014 aggregate production quota for marijuana which will provide for the estimated scientific, research, and industrial needs of the United States.

Determination for Adjusting the Established 2014 Aggregate Production Quota for Marijuana

The DEA has taken into consideration the one comment received during the 30-day period and the Administrator has determined, pursuant to Section 306

Commission, 500 E Street SW., Suite 401, Washington, DC 20436; and

(3) For the investigation so instituted, the Chief Administrative Law Judge, U.S. International Trade Commission, shall designate the presiding Administrative Law Judge.

Responses to the complaint and the notice of investigation must be submitted by the named respondents in accordance with section 210.13 of the Commission's Rules of Practice and Procedure, 19 CFR 210.13. Pursuant to 19 CFR 201.16(e) and 210.13(a), such responses will be considered by the Commission if received not later than 20 days after the date of service by the Commission of the complaint and the notice of investigation. Extensions of time for submitting responses to the complaint and the notice of investigation will not be granted unless good cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice may be deemed to constitute a waiver of the right to appear and contest the allegations of the complaint and this notice, and to authorize the administrative law judge and the Commission, without further notice to the respondent, to find the facts to be as alleged in the complaint and this notice and to enter an initial determination and a final determination containing such findings, and may result in the issuance of an exclusion order or a cease and desist order or both directed against the respondent.

Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000.

Background: On August 20, 2014, the Commission instituted Investigation No. 1205-11, *Recommended Modifications in the Harmonized Tariff Schedule to Conform with Amendments to the Harmonized System Recommended by the World Customs Organization, and to Address Other Matters*, pursuant to section 1205 of the Omnibus Trade and Competitiveness Act of 1988 (the Trade Act of 1988) (19 U.S.C. 3005), for purposes of recommending to the President possible modifications in the Harmonized Tariff Schedule of the United States (HTS) (79 FR. 50943, Aug. 26, 2014).

The modifications under consideration concern: (1) The World Customs Organization's (WCO) Recommendation of June 27, 2014 that Contracting Parties to the International Convention on the Harmonized Commodity Description and Coding System (Convention) modify their tariff schedules to conform with amendments to the Harmonized System expected to enter into force on January 1, 2017; and (2) whether one of the two HTS subheadings that apply to taro (also known as dasheen) should be deleted, and whether the HTS nomenclature for corned beef should be provided for under a superior subheading for cured meat of bovine animals.

Section 1205(b) of the Trade Act of 1988 provides that, in formulating recommendations under section 1205(a), the Commission shall solicit, and give consideration to, the views of interested Federal agencies and the public. Section 1205(b) further provides that, for the purposes of obtaining public views, the Commission shall give notice of "proposed recommendations" and afford reasonable opportunity for interested parties to present their views in writing, particularly as to whether any of the proposed recommendations would have an economic effect on an industry in the United States.

The Commission has posted its "proposed recommendations" relating to the investigation on the Commission Web site at http://www.usitc.gov/tariff_affairs.htm. Interested Federal agencies and the public are invited to submit written comments on the "proposed recommendations" by April 20, 2015.

After considering written public comments, the Commission will prepare and submit to the President a report in accordance with section 1205(c) of the Trade Act of 1988. The Commission expects to submit its report on July 31, 2015.

Written Submissions: Interested parties are invited to file written submissions concerning the "proposed recommendations." All written submissions should be addressed to the Secretary, and should be received not later than 5:15 p.m., April 20, 2015. All written submissions must conform with the provisions of § 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8). Section 201.8 and the Commission's Handbook on Filing Procedures require that interested parties file documents electronically on or before the filing deadline and submit eight (8) true paper copies by 12:00 p.m. eastern time on the next business day. In the event that confidential treatment of a document is requested, interested parties must file, at the same time as the

eight paper copies, at least four (4) additional true paper copies in which the confidential information must be deleted. (See the following paragraph for further information regarding confidential business information.) Persons with questions regarding electronic filing should contact the Secretary (202-205-2000).

Any submissions that contain confidential business information (CBI) must also conform with the requirements of § 201.6 of the *Commission's Rules of Practice and Procedure* (19 CFR 201.6). Section 201.6 of the rules requires that the cover of the document and the individual pages be clearly marked as to whether they are the "confidential" or "non-confidential" version, and that the confidential business information be clearly identified by means of brackets. All written submissions, except for confidential business information, will be made available for inspection by interested parties.

The Commission may include some or all of the confidential business information submitted in the course of this investigation in the report it sends to the President and the U.S. Trade Representative. The Commission will not otherwise publish any confidential business information in a manner that would reveal the operations of the firm supplying the information.

By order of the Commission.

Community Oriented Policing Services Public Meetings With Members of the Research Community, Subject-Matter Experts and the Public To Discuss Topics Relating to Policing; Correction

AGENCY: Community Oriented Policing Services, Justice.

ACTION: Notice; correction.

SUMMARY: The U.S. Department of Justice published a document in the *Federal Register* of February 6, 2015, concerning a public teleconference notice to discuss topics relating to policing. This document contains an updated agenda for the day, which includes additional witness testimony on The Future of Community Policing. The notice for this revision is given less than 15 calendar days prior to the additional listening session because the

Task Force has deemed it necessary to add this topic to fully inform its deliberations prior to the March 2 deadline for submitting its report.

FOR FURTHER INFORMATION CONTACT:

Ronald L. Davis, 202-514-4229 or PolicingTaskForce@usdoj.gov.

Correction

In the *Federal Register* of February 6, 2015, in FR Doc. 2015-02463, on page 6767, in the first and second column, correct the **SUMMARY, DATES, ADDRESSES, and SUPPLEMENTARY INFORMATION** captions to read:

SUMMARY: On December 18, 2014, President Barack Obama signed an Executive Order titled "Establishment of the President's Task Force on 21st Century Policing" establishing the President's Task Force on 21st Century Policing ("Task Force"). The Task Force seeks to identify best practices and make recommendations to the President on how policing practices can promote effective crime reduction while building public trust and examine, among other issues, how to foster strong, collaborative relationships between local law enforcement and the communities they protect. The Task Force will be holding a public meeting to address the topic of The Future of Community Policing and a public teleconference to discuss best practices and recommendations.

The agenda is as follows:

8:30 a.m.—Call to order of the public meeting;

8:35 a.m.—Invited witness testimony on The Future of Community Policing;

10:00 a.m.—Conclusion of the public meeting;

1:00 p.m.—Call to order of the public teleconference;

Discussion of best practices and recommendations;

7:00 p.m.—Conclusion of the public teleconference.

DATES: The public meeting will be held Tuesday, February 24, 2015 from 8:30 a.m. to 10:00 a.m. Eastern Standard Time. The public teleconference will be held Tuesday, February 24, 2015 from 1:00 p.m. to 7:00 p.m. Eastern Standard Time.

For disability access please call 1-800-888-8888 (TTY users call via Relay).

ADDRESSES: The public meeting location is the Ronald Reagan Building, 1300 Pennsylvania Avenue NW., Horizon Ballrooms A & B. The public teleconference will only be available via phone. To access the conference line, please call 1-866-906-7447 and, when prompted, enter access code 8072024#.

SUPPLEMENTARY INFORMATION:

The meeting is open to the public with limited seating.

Accommodations requests: To request accommodation of a disability, please contact Jessica Drake at 202-457-7771 prior to the meeting to give the Department of Justice as much time as possible to process your request.

Electronic Access and Filing Addresses

The Task Force is interested in receiving written comments including proposed recommendations from individuals, groups, advocacy organizations, and professional communities. Additional information on how to provide your comments will be posted to www.cops.usdoj.gov/PolicingTaskForce. Comments must be received by 10:00 a.m. on February 24, 2015.

Availability of Meeting Materials: The agenda and other materials in support of the meeting and the teleconference will be available on the Task Force Web site at www.cops.usdoj.gov/PolicingTaskForce in advance of the meeting and the teleconference.

Dated: February 11, 2015.

85-1. Notes 3 through 9 to chapter 85 are renumbered as notes 4 through 10, respectively.

85-2. New note 3 to chapter 85 is inserted in numerical order:

“3. For the purposes of heading 8507, the expression “electric accumulators” includes those presented with ancillary components which contribute to the accumulator’s function of storing and supplying energy or protect it from damage, such as electrical connectors, temperature control devices (for example, thermistors) and circuit protection devices. They may also include a portion of the protective housing of the goods in which they are to be used.”.

85-3. New subdivision (iv) is inserted in numerical order in note (9)(b), as renumbered in 85-1, above:

[9. For the purposes of headings 8541 and 8542:]

(b) “Electronic integrated circuits” are:]

“(iv) Multi-component integrated circuits (MCOs): a combination of one or more monolithic, hybrid, and multi-chip integrated circuits with at least one of the following components: silicon-based sensors, actuators, oscillators, resonators or combinations thereof, or components performing the functions of articles classifiable under heading 8532, 8533, 8541, or inductors classifiable under heading 8504, formed to all intents and purposes indivisibly into a single body like an integrated circuit, as a component of a kind used for assembly onto a printed circuit board (PCB) or other carrier, through the connecting of pins, leads, balls, lands, bumps, or pads.

For the purpose of this definition:

1. “Components” may be discrete, manufactured independently then assembled onto the rest of the MCO, or integrated into other components.
2. “Silicon based” means built on a silicon substrate, or made of silicon materials, or manufactured onto integrated circuit die.
3. (a) “Silicon based sensors” consist of microelectronic or mechanical structures that are created in the mass or on the surface of a semiconductor and that have the function of detecting physical or chemical quantities and transducing these into electric signals, caused by resulting variations in electric properties or displacement of a mechanical structure. “Physical or chemical quantities” relates to real world phenomena, such as pressure, acoustic waves, acceleration, vibration, movement, orientation, strain, magnetic field strength, electric field strength, light, radioactivity, humidity, flow, chemicals concentration, etc.
 (b) “Silicon based actuators” consist of microelectronic and mechanical structures that are created in the mass or on the surface of a semiconductor and that have the function of converting electrical signals into physical movement.
 (c) “Silicon based resonators” are components that consist of microelectronic and/or mechanical structures that are created in the mass or on the surface of a semiconductor and have the function of generating a mechanical or electrical

oscillation of a predefined frequency that depends on the physical geometry of these structures in response to an external input.

(d) "Silicon-based oscillators" are active components that consist of microelectronic and/or mechanical structures that are created in the mass or on the surface of a semiconductor and that have the function of generating a mechanical or electrical oscillation of a predefined frequency that depends on the physical geometry of these structures."

LE CONSEIL DE COOPERATION DOUANIERE,

VU la Convention internationale sur le Système harmonisé de désignation et de codification des marchandises, du 14 juin 1983,

VU le protocole d'amendement à ladite Convention du 24 juin 1986,

VU la Nomenclature jointe en annexe à ladite Convention,

VU la Recommandation du 5 juillet 1989 et celles du 6 juillet 1993, du 25 juin 1999, du 26 juin 2004, 26 juin 2009 et du 26 juin 2010, portant amendement à cette Nomenclature,

CONSIDERANT qu'il est nécessaire d'apporter de nouveaux amendements à ladite Nomenclature, afin de tenir compte, en particulier, de l'évolution technologique et des modifications dans les échanges internationaux,

Sur l'avis du Comité du Système harmonisé,

RECOMMANDE aux Parties contractantes, conformément à l'article 16 de la Convention, les amendements à la Nomenclature indiqués ci-après :

THE CUSTOMS CO-OPERATION COUNCIL,

HAVING REGARD to the International Convention on the Harmonized Commodity Description and Coding System, concluded on 14 June 1983,

HAVING REGARD to the Protocol of Amendment to the said Convention, dated 24 June 1986,

HAVING REGARD to the Nomenclature appended as an Annex to the said Convention,

HAVING REGARD to the Council Recommendation of 5 July 1989 and to those of 6 July 1993, 25 June 1999, 26 June 2004, 26 June 2009 and 26 June 2010, amending that Nomenclature,

CONSIDERING that it is necessary to make further amendments to that Nomenclature in order to take account of, in particular, changes in international trade and technology,

On the advice of the Harmonized System Committee,

RECOMMENDS to the Contracting Parties, in accordance with Article 16 of the Convention, the following amendments to the Nomenclature :

In re: Proposed Recommendations Relating to Recommended Modifications in the Harmonized Tariff Schedule To Conform With Amendments to the Harmonized System Recommended by the World Customs Organization, and To Address Other Matters

- The WCO amendment for 2017 replaced "carp (Cyprinus carpio, Carassius carassius, Ctenopharyngodon idellus, Hypophthalmichthys spp., Cirrhinus spp., Mylopharyngodon piceus)" with "carp (Cyprinus spp., Carassius spp., Ctenopharyngodon idellus, Hypophthalmichthys spp., Cirrhinus spp., Mylopharyngodon piceus, Catla catla, Labeo spp., Osteochilus hasselti, Leptobarbus hoeveni, Megalobrama spp.)" throughout chapter 3. The proposed modifications to the HTS consistently retain "Cyprinus carpio, Carassius carassius".
- The WCO amendment deletes 0302.90 and 0303.90 and replaces them with 0302.91, 0302.92, 0302.99, and 0303.91, 0303.92, 0303.99, respectively. The WCO amendment then makes repeated references to "subheading 0302.9" and "subheading 0303.9" in the new descriptions. The proposed modifications to the HTS replicate this. [The WCO has informally indicated that they meant those to be read as "subheadings 0302.91 to 0302.99" and "subheadings 0303.91 to 0303.99".]
- New subheading 4409.22 includes a number of statistical suffixes which match the existing statistical suffixes in subheading 4409.29. The proposed modifications do not specify changes to the statistical suffixes in subheading 4409.29. If there are no such changes, it is unclear to me whether the proper classification of, e.g., "Wood flooring (end-matched) of Jatoba (Hymenaea spp.), also known as Brazilian Cherry" will be 4409.22.0515 or 4409.29.0615.
- The WCO amendment lists changes to the notes for chapter 95. The proposed changes to the HTS do not.

USCIB Comments Re: International Trade Commission Proposed Recommendations Investigation No. 1205-11

Lisa R. Barton
Acting Secretary
United States International Trade Commission
500 E Street SW
Washington, D.C. 20436

Dear Acting Secretary Barton:

The United States Council for International Business would like to commend the U.S. International Trade Commission on its recommended modifications in the Harmonized Tariff Schedule (HTS) to conform with the amendments to the Harmonized System (HS) nomenclature.

The United States Council for International Business (USCIB), represents our international affiliate, the International Chamber of Commerce, at the World Customs Organization Harmonized System Committee (HSC). We serve as technical business experts to the Committee, and provide guidance when called upon during discussions regarding the functionality of products in question. As one of the ICC Representatives we have been very involved with the classification of various technology products within the HS 2017 amendments. To provide feedback and proposed recommendations on the WCO HS 2017 is no easy feat, and the technology industry is growing quickly.

The constant review and update of the Harmonized System and U.S. Harmonized Tariff Schedule is needed for the future of American competitiveness and job growth. The HTS at the four, six, eight and ten digit levels, allows for the easier flow of goods across borders. Updating the HTS enables business to understand where their products are classified, allowing them to determine the duty rate on their products and if their products are imported into a country duty-free.

We applaud U.S. Customs and Border Protection (CBP) and ITC for their work in advocating on behalf of U.S. business during this process. The working relationship between USITC, as the agency that provides analysis for the HTS, and CBP as the lone agency that can provide guidance on import rulings regarding duties, is an important relationship. We look forward to continuing to work with you as the HS 2017 process comes to a close and the HS 2022 review cycle begins.

USCIB as an international trade association promotes open markets, competitiveness and innovation, sustainable development and corporate responsibility, supported by international engagement and prudent regulation. USCIB's vision and strength are provided by an active membership of over 300 leading corporations

and organizations, while our unique global network helps turn the vision into reality. USCIB also provides a range of business services, including the ATA Carnet in partnership with CBP (since 1969), for temporary imports and exports, to facilitate overseas trade and investment.

USCIB advances the global interests of American business both at home and abroad. We are the American affiliate of the International Chamber of Commerce (ICC), the Business and Industry Advisory Committee (BIAC) to the OECD, and the International Organization of Employers (IOE). We officially represent U.S. business positions both in the main intergovernmental bodies and vis-à-vis foreign business communities and their governments. We formulate our positions in numerous committees and other working bodies composed of business experts drawn from our membership and we advocate these positions to the U.S. government and to intergovernmental organizations such as the OECD, the WTO, the ILO and other bodies in the UN system. USCIB also represents our international affiliate.

The work the U.S. International Trade Commission and United States Customs and Border Protection at the WCO Harmonized System Committee is vital in the facilitation of international trade and innovation. We look forward to continuing to work with you to advance our common interests.

Investigation No. 1205-11

Re: Comments on the Commission's Proposed Recommendations Relating to Recommended Modifications in the Harmonized Tariff Schedule

Dear Secretary Barton;

On behalf of Titan International, Inc. ("Titan") and the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO-CLC (the "USW"), we hereby submit the following comments under section 1205(b) of the Trade Act of 1988 on the Commission's proposed recommended modifications to the Harmonized Tariff Schedule (the "HTS") to conform with amendments to the Harmonized System that were recommended by the World Customs Organization (Investigation 1205-11). These comments are timely filed per the deadline of April 20, 2015 contained in the Commission's announcement of the proposed recommendations.¹

Titan's and the USW's Interest in Statistical Reporting of OTR Tire Imports

Titan and the USW are among the users of import statistics on OTR tires. Titan is a leading provider of OTR tires for agriculture, construction, forestry and mining at multiple plants

¹ *Proposed Recommendations Relating to Recommended Modifications in the Harmonized Tariff Schedule To Conform With Amendments to the Harmonized System Recommended by the World Customs Organization, and To Address Other Matters*, 80 Fed. Reg. 8686 (Feb. 18, 2015).

in the United States. The USW represents workers at various Titan facilities. Titan and the USW were the original domestic-industry petitioners in the 2008 antidumping (“AD”) and countervailing duty (“CVD”) investigations on certain OTR tires from China, and have remained involved since in annual administrative reviews of the orders before the Department of Commerce and the five-year sunset review of the orders before the Commission. Titan and the USW have an interest in useful statistical reporting on imports of OTR tires, including the ability to determine what portion of imports are covered by the AD and CVD orders on OTR tires from China.

The Commission’s Proposed Modification of Certain Off-the-Road Tire Subheadings

Among the proposed modifications published by the Commission are changes to subheadings covering off-the-road (“OTR”) tires under HTS heading 4011. The Commission’s current recommendation is to eliminate subheadings 4011.61.00 through 4011.99.85 and the superior subheading to subheading 4011.61.00, and to replace them with subheadings 4011.70.00 through 4011.90.30. Under this proposal, the following fourteen current OTR subheadings would be eliminated.

4011.61.00	00	Other, having a "herring-bone" or similar tread:

These subheadings would be replaced by the following seven subheadings.

While the current proposal simplifies the structure of the OTR tire subheadings, it also eliminates subheadings that domestic producers of comparable domestic OTR tires and their workers view as important, included subheadings that were added less than a year ago at their request. We ask the Commission to modify its recommendation so that the proposal maintains these important subheadings while implementing the desired changes at the six-digit level. We describe below the changes to the proposal we would like the Commission to incorporate.

Effect of the Current Proposed Modifications on OTR Tires Subheadings

The Commission’s current proposed recommendation on subheadings under 4011 drops a number of existing subheadings that currently provide useful information on OTR tire imports. Without these subheadings, the import statistics would lack important detail sought by domestic users of this data, including Titan and the USW as well as the government agencies administering the AD and CVD orders on OTR tires.

The current proposal does not include separate subheadings for OTR tires used on all-terrain vehicles, and vehicles for turf, lawn and garden, golf, and trailer applications (currently subheadings 4011.69.00.10, 4011.99.45.10 and 4011.99.85.10). As indicated, the subheadings for these tires were added to the HTS less than a year ago at the request of Titan and the USW. Titan and the USW petitioned the Committee for Statistical Annotation of Tariff Schedules (the

Hon. Lisa Barton, Secretary
Investigation No. 1205-11
April 20, 2014

Page 5

“Committee”) in 2014 under 484(f) of the Tariff Act of 1930 to add a number of subheadings to better distinguish between OTR tires of concern and those excluded from the orders.

Subheadings 4011.69.00.10, 4011.99.45.10 and 4011.99.85.10 were added to cover tires of a kind used on all-terrain vehicles, and vehicles for turf, lawn and garden, golf, and trailer applications, as these types of OTR tires are not included in the scope of the AD and CVD orders.² By creating separate categories for these non-covered tires, these subheadings allow domestic data users to identify what imports are of covered types and are of concern.

Eliminating these categories would result in OTR tire imports being segregated only by traits unrelated to the AD and CVD orders (such as whether the tire has herring-bone tread or not).

In addition, the current proposal also removes the separate subheadings for different sizes of construction and industrial tires that are currently included in the HTS. Existing OTR tire subheadings segregate between construction and industrial tires (including mining tires) at the 61 cm rim diameter size. The AD and CVD orders do not cover mining tires with a rim diameter above exceeding 39 inches (99 cm). While the existing subheadings for construction and industrial tires do not match the OTR tires orders exactly, the existing subheadings provide at least some indication of what proportion of imports are larger-size OTR tires.³ Without these size subheadings, all sizes of construction and industrial tires would be reported together by the

² The Committee also granted other Titan and USW requests for additional breakouts under different HTS headings to capture imports of OTR tires that are already mounted on wheels. These new subheadings fall under various machine-parts categories (*e.g.*, 8431.49.90.38: wheel and tire assemblies for backhoes, shovels, clamshells and draglines), and would not be modified under the Commissions current proposal.

³ In addition to their petition for subheadings for all-terrain vehicle, *etc.*, OTR tires, Titan and the USW petitioned for additional construction and industrial tire subheadings for tires with a rim diameter exceeding 99 cm, which would have separated the OTR tires covered by the orders. Due to due to low trade and possible disclosure of proprietary information in the import statistics under the revised categories the Committee was unable to grant this request.

Hon. Lisa Barton, Secretary
Investigation No. 1205-11

three tire types (herring-bone tread, radial construction, and other), eliminating a useful aspect of import data on OTR tires.

Subcategories Identifying Different Types of OTR Tires Can Be Retained in the Proposal

We ask that the Commission revise its proposal to preserve the subheadings important to domestic data users. The Commission's current recommended modification can be revised simply to include the subcategories that separate tire imports in a manner beneficial to interested parties. As laid out in the table below, the existing simplified structure of the proposed modifications can be maintained but the desired detail on types of OTR tires can also be included by keeping the current categories as superior subheadings and adding two subheadings for the different tire types of concern under each. For all-terrain vehicle, *etc.*, tires, this would include adding an all-terrain vehicle, *etc.*, category and an "other" category under the "Other" categories of 4011.90.10 (herring-bone tread), 4011.90.20 (radial construction), and 4011.90.30 (other tires).

We ask that the Commission include these subheadings in its proposal so that OTR tire types that are covered by the orders are discernable in the reported import statistics.

Subheadings Identifying Different Sizes of Mining OTR Tires Can Also Be Maintained in the Proposal

Additionally, we ask that the proposed recommendation for the modification of the OTR tires subheadings be revised to include the size subheadings for construction and industrial tires. As discussed above, these size subheadings currently provide useful information on OTR tire imports. As shown in the table below, the inclusion of the size subheadings in the Commission's proposed modification requires only a division of two subheadings in the three superior categories.

Conclusion

Titan and the USW ask that the Commission revise its proposed recommendation on HTS subheadings under 4011 for OTR tires as described above. Certain additional subheadings covering various types and sizes of OTR tires are necessary to make the import statistics more useful to interested domestic private parties and to government agencies concerned with the existing AD and CVD orders on certain OTR tires. By making the straightforward adjustments to the proposed modifications that we have recommended in these comments, the Commission may effect the advantage it seeks in modifying the subheadings under 4011 while maintaining the usefulness that the data reported will provide to domestic data users.

We appreciate your assistance on these matters. Please contact William A. Fennell at 202-785-4185 or wfennell@stewartlaw.com if you should have any questions.
