**BACKGROUND:** As requested by the Committees, the Commission will conduct an investigation and prepare a report that provides, to the extent practical, the following information:

- A brief overview of key U.S. industry sectors producing COVID-related goods, including, but not limited to, medical devices; personal protective equipment; and medicines (pharmaceuticals). These overviews should include, to the extent practicable, information on U.S. production, employment, and trade.
- More detailed case studies on key products within each relevant industry sector, such as N95 respirators, ventilators, vaccines, and COVID-19 test kits. The Committees stated that they are particularly interested in case studies on products for which there were reported shortages in the first half of 2020, including those affected by supply chain fragility, blockages, or barriers. The Committees stated that the case studies should draw upon all available information including the relevant literature, and to the extent practicable, should include information on:
  - The U.S. industry, market, and trade, including, to the extent available:
    - An overview of the product, including key components and the production process;
    - Information on the size and characteristics of the U.S. market;
    - An overview of the U.S. manufacturing industry, including key producers of finished goods and intermediate inputs, the extent of U.S. production, and employment;
    - Information on U.S. imports of finished goods and inputs, including leading source countries and supplying firms (to the extent available); and
  - Information on supply chain challenges and constraints, including, but not limited to:
    - Information on factors affecting domestic production, including, to the extent practicable, regulatory requirements that may impact entry into the market; and
    - Information on foreign trade barriers and restrictions and other factors that may affect U.S. imports of finished goods or inputs needed for domestic production.

The Committees asked that the Commission deliver the report no later than December 15, 2020. The Committees stated that they intend to make the Commission’s report available to the public and asked that the report not include any confidential business information.
