BACKGROUND: In its original request letter received on October 14, 2008, the Committee requested that the Commission provide statistical reports every 2 weeks on the volume, value, unit value, and import market share of certain textile and apparel imports from China, based on preliminary Customs data and final Census data. The Committee asked that the Commission compile these data for each product covered by a Memorandum of Understanding between the United States and China, set to expire December 31, 2008, at both the three-digit textile/apparel category level and at the 10-digit Harmonized Tariff Schedule level for each product within each of the three-digit textile/apparel

categories. The Committee also requested that the Commission publish a compilation of monthly Census data on an annual basis. The Committee asked that the Commission continue to provide these reports until such time that the Committee terminates or amends the request. As requested by the Committee, the Commission has published these reports on its website (with any confidential business information deleted).

Notice of the Commission's institution of this investigation was published in the *Federal Register* of November 5, 2008 (73 Fed. Reg. 65882); it is also posted at <https://www.govinfo.gov/content/pkg/FR-2008-11-05/pdf/E8-26362.pdf>.

CHANGE IN REPORT FORMAT AND FREQUENCY: Through its October 3, 2019 letter, the Committee has now modified its request to ask that the Commission's statistical reports no longer include the preliminary Customs data and that the Commission, in future reports, (1) provide only the updated final Census data, (2) provide these reports on a quarterly basis, and (3) post them on the Commission's website. The Committee also stated that the Commission may discontinue publication of the annual reports because the data in these reports are already included in the statistical reports.

By order of the Commission.

Lisa R. Barton
Secretary to the Commission
