BACKGROUND: On February 12, 2004, the USTR notified the Congress of the President's intent to initiate free trade agreement negotiations with Thailand. Accordingly, the USTR, pursuant to section 131 of the Trade Act of 1974 (19 U.S.C. 2151), requested the Commission to provide a report including advice as to the probable economic effect of providing duty-free treatment for imports of products of Thailand (i) on industries in the United States producing like or directly competitive products, and (ii) on consumers. In preparing the advice, the Commission's analysis will consider each article in chapters 1 through 97 of the Harmonized Tariff Schedule of the United States for which U.S. tariffs will remain after the United States fully implements its Uruguay Round tariff commitments. The import advice will be based on the 2004 Harmonized Tariff System nomenclature and 2003 trade data. The advice with respect to the removal of U.S. duties on imports from Thailand will assume that any known U.S. nontariff barrier will not be applicable to such imports. The Commission will note in its report any instance in which the continued application of a U.S. nontariff barrier to such imports would result in different advice with respect to the effect of the removal of the duty.

Also as requested, pursuant to section 2104(b)(2) of the Trade Act of 2002 (19 U.S.C. 3804(b)(2)), the

Commission will provide advice as to the probable economic effect of eliminating tariffs on imports of certain agricultural products of Thailand on (i) industries in the United States producing the product concerned, and (ii) the U.S. economy as a whole.

The Commission expects to provide its report to the USTR by August 19, 2004. The USTR indicated that the Commission's report will be classified and that USTR considered it to be an interagency memorandum containing pre-decisional advice and subject to the deliberative process privilege.
