SUMMARY DETERMINATION OF INVALIDITY**

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined to extend to September 13, 2023, the date for the Commission's decision on whether to review an initial determination ("ID") (Order No. 19) issued by the presiding administrative law judge ("ALJ") granting in part the respondents' motion for summary determination of invalidity.

SUPPLEMENTARY INFORMATION: On December 13, 2022, the Commission instituted this investigation based on a complaint, as supplemented, filed on behalf of Dometic Corporation of Rosemont, Illinois and Dometic Sweden AB of Solna, Sweden (collectively, "Dometic"). 87 FR 76216-17 (Dec. 13, 2022) ("Notice of Investigation"). The complaint alleges violations of section 337 based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain marine air conditioning systems, components thereof, and products containing the same by reason of the infringement of certain claims of U.S. Patent No. 8,056,351 ("the '351 patent"). *Id.* The complaint further alleges that a domestic industry exists. *Id.* The Notice of Investigation named four (4) respondents: (1) Shanghai Hopewell Industrial Co. Ltd. of Shanghai, China; (2) Shanghai Hehe Industrial Co.

Ltd. of Shanghai, China; (3) CitiMarine, L.L.C. of Doral, Florida; and (4) Mabru Power Systems, Inc. of Dania Beach, Florida (collectively, “Respondents”). *Id.*

On June 12, 2023, Respondents filed a motion and supporting memorandum (the “Motion”) for summary determination of invalidity based on anticipation and/or obviousness for claims 1-5, 7, and 18-22 of the ’351 Patent. On June 22, 2023, Dometic filed an opposition.

On July 18, 2023, the ALJ issued the subject ID (Order No. 19) pursuant to Commission Rule 210.18(b) (19 CFR 210.18), granting in part Respondent’s Motion. More specifically, the ID finds that the “Vector Compact” marine air-conditioner (also called the “VCP12K product”) qualifies as prior art “at least based on the on-sale provision” of 35 USC 102(b) and that it anticipates claims 1-2, 4-5, and 7 of the ’351 Patent. *See* ID at 9-29.

On July 25, 2023, Dometic filed petition for review of the ID with the Commission, and on August 1, 2023, Respondents filed an opposition to Dometic’s petition.

The Commission has determined to extend the deadline for determining whether to review the subject ID (Order No. 19) to September 13, 2023.

The Commission vote for this determination took place on August 14, 2023.

The authority for the Commission’s determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission’s Rules of Practice and Procedure (19 CFR Part 210).

By order of the Commission.

Lisa R. Barton
Secretary to the Commission
