SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on March 1, 2013, based on a complaint filed by STMicroelectronics, Inc., of Coppell, Texas. 78 *Fed. Reg.* 22293 (April 15, 2013). The complaint alleges violations of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. § 1337), in the importation into the United States, the sale for importation, and the sale within the United States after importation certain microelectromechanical systems (“MEMs Devices”) and products containing the same by reason of infringement of five U.S. patents. The notice of investigation names InvenSense, Inc., of Sunnyvale, California; Roku, Inc, of Saratoga, California; and Black & Decker, Inc., of New Britain, Connecticut, as respondents.

The target date for completion of the investigation was originally set to be September 2, 2014. On November 5, 2013, the presiding administrative law judge (“ALJ”) issued an initial determination (Order No. 42) extending the target date by three weeks, until September 23, 2014. The ALJ stated that the extension was necessary due to the transfer of the investigation from another ALJ. No petitions for review of the ID were filed.

The Commission has determined not to review the ID.

The authority for the Commission’s determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. § 1337), and in Part 210 of the Commission’s Rules of Practice and Procedure (19 C.F.R. Part 210).
