SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on January 27, 2015, based on a complaint filed on behalf of Cisco Systems, Inc. ("Complainant") of San Jose, California. 80 *Fed. Reg.* 4314-15 (Jan. 27, 2015). The complaint was filed on December 19, 2014 and a supplement was filed on January 8, 2015. The complaint alleges

violations of section 337 based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain network devices, related software and components thereof by reason of infringement of certain claims of U.S. Patent No. 7,162,537; U.S. Patent No. 8,356,296; U.S. Patent No. 7,290,164; U.S. Patent No. 7,340,597; U.S. Patent No. 6,741,592; and U.S. Patent No. 7,200,145, and alleges that an industry in the United States exists as required by subsection (a)(2) of section 337. The complaint named Arista Networks, Inc. of Santa Clara, California as the respondent. A Commission investigative attorney is participating in the investigation.

On January 27, 2016, the ALJ issued an ID (Order No. 27) extending the target date for completion of the investigation by four business days due to the inclement weather that impacted the operation of the federal government, including the Commission, on January 22-27, 2016. The Commission has determined not to review this ID.

The Commission has determined to further extend the target date by an additional seven (7) days to June 9, 2016. The Commission also has extended the date for determining whether to review the final ID to April 11, 2016.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. § 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 C.F.R. Part 210).

By order of the Commission.
