General information concerning the Commission may also be obtained by visiting its Web site at www.usitc.gov.

SUPPLEMENTARY INFORMATION: The preamble below is designed to assist readers in understanding these proposed changes to Commission procedures during the adequacy phase of five-year reviews. This preamble provides background information, a regulatory analysis of the proposed amendment to the Commission’s Rules of Practice and Procedure, an explanation of the procedural changes proposed, and a description of the proposed amendment to the rules. The Commission encourages members of the public to comment, in addition to any other comments they wish to make on the proposed amendment, on whether

the proposed amendment is in language that is sufficiently clear for users to understand.

If the Commission decides to proceed with this rulemaking after reviewing the comments filed in response to this notice, the proposed rule revision concerning the period for responding to notices of institution will be published in the **Federal Register** and will be codified in 19 CFR part 207.

Background

The Tariff Act of 1930, as amended, directs the Commission to conduct five-year reviews of antidumping and countervailing duty orders and suspension agreements. 19 U.S.C. 1675(c). Subpart F of Chapter 207 of Title 19 of the Code of Federal Regulations contains regulations concerning procedures the Commission uses in five-year reviews.

Under section 207.60(d) of the Commission's Rules of Practice and Procedure, 19 CFR 207.60(d), the Commission publishes a notice of institution when it institutes five-year review proceedings pursuant to 19 U.S.C. 1675(c). In the notice of institution, the Commission directs interested parties to provide certain information. Neither the statute nor the Commission's regulations specify the information the Commission requests in the notice of institution. The Commission's Rules of Practice and Procedure, however, require that any response to the notice of institution be filed within 50 days after publication of the notice in the **Federal Register**. 19 CFR 207.61(a).

In this notice, the Commission seeks comments on two sets of proposed modifications to its procedures in five-year reviews. The first, which does not require a change to the Commission's regulations, would modify the information the Commission requests in the notice of institution. The second proposes to amend section 207.61(a) of the Commission's Rules of Practice and Procedure to require that responses to the notice of institution be filed within 30 days after its publication.

Regulatory Analysis of Proposed Amendment to the Commission's Rules

The Commission has determined that the proposed rule does not meet the criteria described in section 3(f) of Executive Order 12866 (58 FR 51735, Oct. 4, 1993) and thus does not constitute a significant regulatory action for purposes of the Executive Order.

The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) is inapplicable to this rulemaking because it is not one for which a notice of proposed rulemaking

is required under 5 U.S.C. 553(b) or any other statute. Although the Commission has chosen to publish a notice of proposed rulemaking, the proposed regulation falls within the exemption from the notice requirements imposed by 5 U.S.C. 553(b) for "agency rules of procedure and practice."

The proposed rule does not contain federalism implications warranting the preparation of a federalism summary impact statement pursuant to Executive Order 13132 (64 FR 43255, Aug. 4, 1999).

No actions are necessary under the Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1501 *et seq.*) because the proposed rule will not result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100,000,000 or more in any one year, and will not significantly or uniquely affect small governments.

The proposed rule is not a major rule as defined by section 804 of the Small Business Regulatory Enforcement Fairness Act of 1996 (5 U.S.C. 801 *et seq.*). Moreover, it is exempt from the reporting requirements of the Contract With America Advancement Act of 1996 (Pub. L. 104-121) because it is a rule of organization, procedure, or practice that does not substantially affect the rights or obligations of non-agency parties.

The proposed rule is not subject to section 3504(h) of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), because it does not contain any new information collection requirement. The information collection requirements that are discussed in this notice are the subject of a generic survey clearance proceeding currently pending before the Office of Management and Budget. See 72 FR 68896 (Dec. 6, 2007).

The Commission, as an independent regulatory agency as defined in Executive Order 12866 of Sept. 30, 1993, is exempt from the memorandum dated May 9, 2008, Issuance of Agency Regulations at the End of the Administration.

Explanation of Proposed Changes in Commission Data Collection

The Commission has modified the information it requests interested parties to provide in response to its notice of institution in only minor respects since it began instituting five-year reviews in 1998.¹ The Commission now seeks to

¹ The Commission first published a sample notice of institution in the June 5, 1998, **Federal Register**. 63 FR 30599, 30609-10 (June 5, 1998). Since that time, the only material change the Commission has made to the notice is to request that producers of the domestic like product provide quantity and value data on internal consumption and company transfers.

make more substantial changes to its information requests. Based on its decade of experience in conducting five-year reviews, the Commission believes that requesting additional information in its notice of institution will aid it both in deciding whether to expedite a review pursuant to 19 U.S.C.

1675(c)(3)(B) and 19 CFR 207.62 and in conducting expedited reviews.

The Commission is proposing to modify its notice of institution. As illustrated in Appendix A, the revised model notice contains the following additional information requests:

- All interested parties will be requested to provide a listing of the three to five leading purchasers of the domestic like product and the subject merchandise in the U.S. market.
- All interested parties will be requested to provide sources of information concerning prices for the domestic like product and the subject merchandise in the U.S. market and other world markets.
- Both producers of the domestic like product and producers of subject merchandise will be requested to provide capacity information for the most recent calendar year.
- Domestic producers will be requested to provide financial information on their operations producing the domestic like product for the most recent fiscal year, including the value of net sales; cost of goods sold; gross profit; selling, general, and administrative expenses; and operating income.

The Commission has two principal objectives in requesting additional information in its notice of institution. First, the Commission believes that the additional information it seeks will better enable it to ascertain whether to expedite a review pursuant to section 207.62 of the Commission's Rules of Practice and Procedure. As explained further below, the Commission believes that asking interested parties to identify three to five leading purchasers will enable it, in certain circumstances, to direct information requests to purchasers for use in the adequacy phase of the review. Second, the Commission seeks to have additional information in those reviews that it does expedite. The Commission believes that requesting additional information concerning capacity, financial performance, and pricing will enable it to achieve this objective. It further believes that the additional data requests it is proposing will not unduly burden interested parties.

In those reviews where the Commission does not receive responses to the notice of institution from both

domestic interested parties and respondent interested parties, the Commission will transmit brief questionnaires to purchasers shortly after it receives responses to the notice of institution.² A sample of this questionnaire appears as Appendix B to this Notice. These questionnaires will ask purchasers to identify significant changes, if any, in supply or demand conditions or the business cycle that have occurred in the United States for the domestic like product, or in world markets for the subject merchandise, since the date the order or suspension agreement under review became effective.

When there is inadequate response to the notice of institution from an interested party group, the Commission has the authority to conduct an expedited review. The Commission has found, however, that conducting an expedited review is not always appropriate when an interested party group response is inadequate. For example, if there have been major changes in the conditions of competition since the time of the original investigation pertaining to the domestic like product or the subject merchandise in the U.S. market, the subject countries, or worldwide, the Commission may find conducting a full review to be appropriate notwithstanding the inadequate response. The Commission believes that seeking information from purchasers concerning current conditions of competition, and asking purchasers to compare current conditions to those prevailing at the time the order or suspension agreement under review was imposed, will enable it better to ascertain whether it should conduct a full review notwithstanding inadequate response from an interested party group.

Explanation of Proposed Change to Commission Rule 207.61(a)

The changes proposed above, if implemented, will require the Commission staff to devote additional time during the adequacy phase of five-year reviews to analyze the additional information requested in the notice of institution, to circulate the brief adequacy phase questionnaires to purchasers in appropriate circumstances, and to analyze the responses to the purchaser questionnaires. To permit the

² When the Commission receives responses to the Notice of Institution from both domestic and respondent interested parties, it typically does not require further information to determine whether to conduct a full or expedited review. In such circumstances, it would not normally contemplate circulating the brief questionnaire to purchasers.

Commission staff the additional time it needs to engage in such additional information collection and analysis, the Commission proposes amending section 207.61(a) of the Commission's Rules of Practice and Procedure to require that responses to the notice of institution be submitted within 30 days after publication of the notice, as opposed to the current 50 days. The Commission believes that the 30-day period will provide interested parties sufficient time to respond to the notice. Moreover, there will continue to be no need for respondent interested parties to file a response to the Commission's notice of institution in reviews where no domestic interested party has responded to the notice of initiation issued by the Department of Commerce ("Commerce"), which results in Commerce terminating the review (and revoking any pertinent orders under review) pursuant to 19 CFR 351.218(d)(1)(iii). Responses to the Commission's notice will not be due until 10 days after Commerce would notify the Commission pursuant to 19 CFR 351.218(d)(1)(iii)(B)(2) that no domestic interested party has responded to Commerce's notice of initiation.

Request for Comment

The Commission solicits comments from interested parties and practitioners concerning these proposals. All comments should be filed in writing no later than 60 days after publication of this notice in the **Federal Register**.

With respect to the proposed changes in information collection, the Commission is particularly interested in comments concerning whether the additional information it intends to collect: (1) Will satisfy the objective of augmenting the record before the Commission when it determines whether to conduct an expedited or full review; (2) will satisfy the objective of augmenting the record before the Commission in expedited reviews; and (3) will satisfy the objective of not unduly burdening interested parties and purchasers requested to provide the information. The Commission also seeks comment concerning whether requesting additional or alternative types of information will better enable the Commission to achieve these objectives. With respect to the proposed amendment to Commission rule 207.61(a), the Commission seeks comment concerning whether a 30-day response period will impair interested parties' ability to respond fully to the notice of institution.

Revisions to Notice of Institution

Note: The portions of the revised notice of institution that seek information from interested parties are reproduced below. The Commission does not contemplate modifying the introductory portions of the notice. Proposed new information requests are indicated by {bold text surrounded by curved brackets}. These are requests 7, 8, 9b, 9e, and 11b.

Background.—On DATE, the Department of Commerce issued a countervailing duty order/an antidumping duty order/suspended a countervailing duty/antidumping duty investigation on imports of PRODUCT from COUNTRY (xx FR xxxxx). The Commission is conducting a review to determine whether revocation of the order/termination of the suspended investigation would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. It will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct a full review or an expedited review. The Commission's determination in any expedited review will be based on the facts available, which may include information provided in response to this notice.

Definitions.—The following definitions apply to this review:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year review, as defined by the Department of Commerce.

(2) The *Subject Country* in this review is COUNTRY.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determination, the Commission defined the *Domestic Like Product* as INSERT DEFINITION. (Add the following if applicable). One Commissioner/Certain Commissioners defined the *Domestic Like Product* differently.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determination, the Commission defined the *Domestic Industry* as producers of INSERT DEFINITION. (Add the following if applicable). One Commissioner/Certain Commissioners defined the *Domestic Industry* differently.

(5) The *Order Date* is the date that the countervailing duty order under review became effective/antidumping duty order under review became effective/investigation was suspended. In this review, the *Order Date* is DATE.

(6) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

Participation in the review and public service list.—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the review as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the review.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation. The Commission's designated agency ethics official recently has advised that a five-year review is no longer considered the "same particular matter" as the corresponding underlying original investigation for purposes of 18 U.S.C. 207, the post-employment statute for Federal employees, and Commission rule 201.15(b)(19 CFR 201.15(b)), 73 FR 24609 (May 5, 2008). This advice was developed in consultation with the Office of Government Ethics.

Consequently, former employees are no longer required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Carol McCue Verratti, Deputy Agency Ethics Official, at 202–205–3088.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in this review available to authorized applicants under the APO issued in the review, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the review. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission's rules, any person submitting information to the Commission in connection with this review must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will be deemed to consent, unless otherwise specified, for the Commission, its employees, and contract personnel to use the information provided in any other reviews or investigations of the same or comparable products which the Commission conducts under Title VII of the Act, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

Written submissions.—Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is DATE. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct an expedited or full review. The deadline for filing such comments is DATE. All written submissions must conform with the provisions of sections 201.8 and 207.3 of the Commission's rules and any submissions that contain BPI must also conform with the requirements of sections 201.6 and 207.7 of the Commission's rules. The Commission's rules do not authorize filing of submissions with the Secretary by facsimile or electronic means, except to the extent permitted by section 201.8 of the Commission's rules, as amended, 67 FR 68036 (November 8, 2002). Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the review must be served on all other parties to the review (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the review you do not need to serve your response).

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and

indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act in making its determination in the review.

[Docket No. SSA-2007-0093]

RIN 0960-AG02

Technical Revisions to Overpayment Rules

AGENCY: Social Security Administration.
ACTION: Notice of proposed rulemaking.

SUMMARY: These proposed rules would amend our title II regulations to explicitly provide that we apply an underpayment due an individual to reduce an overpayment to that individual in certain cases. Our title XVI regulations already state this policy. Additionally, these proposed rules reflect our procedures for collecting overpayments when a payment of more than the correct amount is made to a representative payee on behalf of a beneficiary after the beneficiary's death. These proposed rules would clarify that we would collect overpayments in this situation from only the representative

payee or his estate but would not collect these overpayments from the representative payee's spouse or from the spouse's estate.
