## BACKGROUND

On February 26, 2021, the Coalition of American Manufacturers of Mobile Access Equipment (“CAMMAE” or “the Coalition”)<sup>3</sup> filed petitions with the Commission and Commerce, alleging that an industry in the United States is materially injured and threatened with material injury by reason of subsidized and LTFV imports of certain mobile access equipment from China. Accordingly, effective February 26, 2021, the Commission instituted countervailing duty investigation No. 701-TA-665 and antidumping duty investigation No. 731-TA-1557 (Preliminary).

Notice of the institution of the Commission’s investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the *Federal Register* of March 4, 2021 (86 FR 12711). In light of the restrictions on access to the Commission building due to the COVID–19 pandemic, the Commission conducted its conference through written testimony and video conference on March 19, 2021. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to §§ 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)). It completed and filed its determinations in these investigations on April 12, 2021. The views of the Commission are contained in USITC Publication 5186 (April 2021), entitled *Certain Mobile Access Equipment and Subassemblies Thereof from China: Investigation Nos. 701-TA-665 and 731-TA-1557 (Preliminary)*.

By order of the Commission.

Secretary to the Commission
