2. Description of supplies or Services Required to Meet Agency:			
HeinOnline is a leading online research platform offering access to over 244 million pages of multidisciplinary periodicals, essential government documents, international resources, case law, and more. Featuring fully searchable, image-based PDFs at an affordable price, HeinOnline provides researchers with authoritative, true-to-print digital content—eliminating the need for multiple databases.			
3. Justification for Limited Competition:			
HeinOnline serves as a comprehensive digital repository for historical and contemporary legal and multidisciplinary research materials. Its precise image-based PDF's, advanced search tools and wide breath of authoritative content make it a valuable tool for researchers and legal professionals seeking reliable fully searchable primary and secondary sources. It would be cost prohibitive to source all these resources individually from different vendors. HeinOnline offers the most comprehensive platform that would be valuable to the Commission staff.			
4. Description of Market Research Conducted and Results:			
Market research shows that HeinOnline's law journal coverage, both indexing and full text, is the most comprehensive of the six databases reviewed here.			
5. Requiring Officer's Certification:			
I certify that the facts and representations in this justification, included herein, meet the Government's need and that the supporting data which forms the basis for this justification is complete and accurate.
