SUPPLEMENTARY INFORMATION: The information requested by the questionnaire is for use by  
the U.S. International Trade Commission in connection with Investigation No. 332-608, USMCA  
Automotive Rules of Origin: Economic Impact and Operation, 2027 Report, instituted under section  
202A(g)(2) of the United States–Mexico–Canada Agreement (USMCA) Implementation Act (19  
U.S.C. 4532(g)(2)) (the Act). The Act requires that the Commission prepare a series of five biennial  
reports on the USMCA automotive rules of origin (ROOs) and their impact on the U.S. economy,  
effect on U.S. competitiveness, and relevancy in light of technological changes, and to provide  
those reports to the President, the House Committee on Ways and Means, and the Senate  
Committee on Finance.

The second of the five reports was delivered on July 1, 2025, with three additional reports due in 2027, 2029, and 2031.

This investigation was instituted on February 11, 2026, and the notice of investigation was published in the Federal Register on February 23, 2026 (91 FR 8521), and corrected in a notice published February 26, 2026 (91 FR 9640). The Commission will deliver the third of its five reports to the President and Congress by July 1, 2027. The Commission indicated in its notice of investigation that it will need to obtain data and information through a survey. The survey will assist the Commission in gathering responses and data from motor vehicle producers in the United States to determine the direct impacts of the ROOs on the aforementioned factors. Such data are not publicly available, and without this information collection, certain aspects of the Commission's analysis of the impact of the ROOs will be less robust in, or absent from, its report to be submitted in compliance with the requirements under the Act.

The Commission intends to submit the following draft information collection plan to the OMB:

- (1) Number of forms submitted: 1.
- (2) Title of form: The USMCA Automotive Rules of Origin Motor Vehicle Producer Questionnaire.
- (3) Type of request: New.
- (4) Frequency of use: Industry questionnaire, single data gathering, scheduled for 2026.
- (5) Description of respondents: North American motor vehicle producers with U.S. production operations.
- (6) Estimated number of questionnaire requests to be emailed: 25.
- (7) Estimated total number of hours to complete the questionnaire per respondent: 25 hours.
- (8) Information obtained from the questionnaire that qualifies as confidential business information will be so treated by the Commission and not disclosed in a manner that would reveal the individual operations of a business.
