**SUPPLEMENTARY INFORMATION:** This investigation was instituted on June 8, 2005, based on a complaint filed by Power Integrations, Inc. ("Power Integrations") of San Jose, California. The complaint alleges violations of section 337 in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain power supply controllers and products containing the same by reason of infringement of claims

1-3, 6, 9, and 17-19 of United States Patent No. 6,212,079 (“the ‘079 patent”), claims 1-3, 5, 6, 24, 28, and 29 of the ‘398 patent, claims 8 and 12 of United States Patent No. 6,366,481 (“the ‘481 patent”), and claims 1, 4, 9-11, 13, 17, 19, 20, 22, 23, 26, 27, 30, 31, and 34 of the ‘908 patent. The Commission previously allowed Power Integrations to terminate the investigation with regard to each of the asserted claims of the ‘079 patent and the ‘481 patent and claims 1, 4, 19, 20, 22, and 23 of the ‘908 patent. The complaint named a single respondent, System General Corporation (“System General”).

On January 17, 2006, Power Integrations moved to terminate the investigation with regard to claims 30 and 31 of the ‘908 patent and claims 24 and 28 of the ‘398 patent. Neither System General nor the Commission investigative attorney opposed the motion.

On January 18, 2006, the ALJ issued an ID granting Power Integrations’ motion. The ALJ found that there were no extraordinary circumstances that would prevent the partial termination of the investigation. No petitions for review of the ID were filed.

Having examined the record of this investigation, the Commission has determined not to review the ALJ’s ID.

The authority for the Commission’s determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. § 1337), and in section 210.42 of the Commission’s Rules of Practice and Procedure (19 C.F.R. § 210.42).

By order of the Commission.

Secretary to the Commission
