On February 3, 2026, the Commission terminated the investigation as to claims 2-11, 15-17 of the '280 patent, claims 2, 4, 7-9, 11, 12, 14-20 of the '004 patent, claims 1, 3-8, 10-29 of the '953 patent, claims 2, 3, 5-7, 9, 11-21 of the '103 patent, claims 1-3, 6, 8-14, 17-27 of the '241 patent, and all asserted claims of the '915 patent. On July 1, 2026, the presiding administrative law judge ("ALJ") issued the final initial determination ("FID"), finding that there is a violation of section 337 based on infringement of the '004 patent by the accused products (but not the redesigned products), and no violation of section 337 with respect to the '280, '103, '953, and '241 patents.

The FID also includes a recommended determination ("RD") on remedy and bonding, and recommends, should the Commission find a violation of section 337, that the Commission issue: (1) a limited exclusion order ("LEO") against respondents Samsung with a service, warranty, and repair exemption; and (2) a cease-and-desist order ("CDO") against Respondent SEA. The RD recommends that the Commission set the bond at zero percent (0%) during the period of Presidential review.

On July 8, 2026, the Commission published its post-RD *Federal Register* notice seeking submissions on public interest issues raised by the relief recommended by the ALJ should the Commission find a violation. 91 FR 42248 (July 8, 2026). No responses from the public were filed.

On July 13, 2026, Maxell petitioned for Commission review of the FID's findings concerning non-infringement of Samsung's redesigned products as to the '004 patent, and the finding of no violation as to the '103, '953, and '241 patents. On the same day, Samsung petitioned for Commission review of the FID's findings that support a violation of section 337 based on infringement of the '004 patent by the accused products. Samsung also contingently petitioned for Commission review of certain FID's findings relating to the '280, '103, '953 and '241 patents.

On July 21, 2026, Maxell and Samsung filed responses to each other's petition for Commission review. On August 6, 2026, Maxell and Samsung each filed statements on public interest.

On August 31, 2026, the Commission issued a notice determining to review the FID in part and requesting written submissions on the issues under review as well as remedy, the public interest, and bonding. 91 FR 56667 (Sep. 3, 2026) ("Review Notice"). Specifically, the Commission determined to review: (1) the entirety of the FID's findings with respect to

the ’004, ’103, ’953, and ’241 patents, and (2) the FID’s findings on the economic prong of the domestic industry requirement for the ’280 patent.

On September 14, 2026, Maxell and Samsung filed their written submissions in response to the Review Notice. On September 21, 2026, Maxell and Samsung filed their replies to each other’s written submissions.

On October 2, 2026, Samsung filed a motion to strike Maxell’s estoppel argument raised in its reply to Samsung’s written submission based on waiver. On October 9, 2026, Maxell filed an opposition to Samsung’s motion to strike.

The Commission has determined to extend the target date for completion of the investigation to November 24, 2026.

The Commission vote for this determination took place on November 12, 2026.
