GENERAL INFORMATION

Background.---These investigations were instituted in response to a petition filed on October 31, 2006 by NewPage Corporation, Dayton, OH. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these investigations if the Commission makes affirmative determinations of injury, threat, or material retardation, and if the U.S. Department of Commerce makes affirmative determinations of subsidization and/or dumping.

Additional questionnaires will be supplied promptly upon request, or photocopies of the enclosed questionnaire(s) may be used. Address all correspondence to the United States International Trade Commission, Washington, DC 20436. INSTRUCTIONS

Consolidate all establishments in China, Indonesia, and/or Korea (i.e., the subject countries) and each nonsubject country.--Report the requested data for your establishment(s) located in each of the countries for which you are reporting. Firms operating more than one establishment in any one country should combine the data for all establishments into a single report for that country. If your firm produces **coated free sheet paper** in more than one country, prepare a separate questionnaire response for each country.

Answer all questions.--Do not leave any question or section blank unless a questionnaire expressly directs you to skip over certain questions or sections. If the answer to any question is "none," write "none." **If information is not readily available from your records in exactly the form requested, furnish carefully prepared estimates--designated as such by the letter "E"--and explain the basis of your estimates.** Answers to questions and any necessary comments or explanations should be supplied in the space provided or on separate sheets attached to the appropriate page of the questionnaire(s). If your firm is completing more than one questionnaire in connection with these investigations (i.e., a producer, importer, purchaser, and/or foreign producer questionnaire), you need not respond to duplicated questions in the questionnaires.
