Changes Since the Preliminary Determination

Based on our analysis of the comments received and our findings at verification, we made certain changes to the margin calculations. For a discussion of these changes, see the “Margin Calculations” section of the Issues and Decision Memorandum.

Verification

As provided in section 782(i) of the Act, in December 2013 and January 2014, we verified the sales and cost information submitted by Camesa for use in our final determination. We used standard verification procedures including an examination of relevant accounting and production records, and original source documents provided by Camesa.⁵

Continuation of Suspension of Liquidation

Pursuant to 735(c)(1)(B) of the Act, we will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of all entries of subject merchandise from Mexico, entered, or withdrawn from warehouse, for consumption on or after December 12, 2013, the date of publication of the preliminary determination in the **Federal Register**. CBP shall require a cash deposit equal to the estimated amount by which the normal value exceeds the U.S. price as shown below. These instructions suspending liquidation will remain in effect until further notice.

Final Determination Margins

The weighted-average dumping margins are as follows:

Exporter/manufacturer	Weighted-average dumping margin (percent)
Aceros Camesa S.A. de C.V.	9.99
All Others	9.99

The “All Others” rate is based on the weighted-average dumping margin calculated for Camesa, the only company individually examined and for which the Department calculated a rate.⁶

Disclosure

We will disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

ITC Notification

In accordance with section 735(d) of the Act, we notified the U.S. International Trade Commission (ITC) of our final determination. As our final determination is affirmative, the ITC will determine within 45 days whether imports of the subject merchandise are causing material injury, or threat of material injury, to an industry in the United States. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing CBP to assess antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

Return or Destruction of Proprietary Information

This notice will serve as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing this determination and notice in accordance with sections 735(d) and 777(i) of the Act.

Dated: April 28, 2014.

PRC on December 12, 2013.¹ The following events occurred since the preliminary determination was issued. Between January 8 and 14, 2014, the Department conducted verification of the mandatory respondent Silvery Dragon Group Technology and Trading Co., Ltd. Tianjin and its affiliated producers, Silvery Dragon Prestressed Materials Co., Ltd. Tianjin and Silvery Dragon Prestressed Materials Co., Ltd. Tianjin—Hejian Branch (collectively “Silvery Dragon”).² On March 18, 2014, the petitioners³ withdrew their January 3, 2014, request for a hearing.⁴ As no other party in this proceeding requested a hearing, no hearing was held. On March 21, 2014, Silvery Dragon and the petitioners submitted case briefs.⁵ On March 28, 2014, both interested parties submitted rebuttal briefs.⁶

Period of Investigation

The period of investigation (POI) is October 1, 2012, through March 31, 2013. This period corresponds to the two most recent fiscal quarters prior to the month of the filing of the petition, which was April 2013.⁷

Scope of the Investigation

The product covered by the scope of this investigation is high carbon steel wire; stress relieved or low relaxation; indented or otherwise deformed; meeting at a minimum the physical, mechanical, and chemical requirements of the American Society of Testing Materials (ASTM) A881/A881M

specification; regardless of shape, size or alloy element levels; suitable for use as prestressed tendons in concrete railroad ties (PC tie wire). High carbon steel is defined as steel that contains 0.6 percent or more of carbon by weight.

PC tie wire is classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheading 7217.10.8045, but may also be classified under subheadings 7217.10.7000, 7217.10.8025, 7217.10.8030, 7217.10.8090, 7217.10.9000, 7229.90.1000, 7229.90.5016, 7229.90.5031, 7229.90.5051, 7229.90.9000, and 7312.10.3012. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the investigation is dispositive.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this investigation are addressed in the Issues and Decision Memorandum.⁸ A list of the issues which the parties raised and to which the Department responded in the Issues and Decision Memorandum is attached to this notice as an Appendix.
