ACTION: Notice and opportunity for public comment.

Pursuant to Section 251 of the Trade Act 1974, as amended (19 U.S.C. 2341 *et seq.*), the Economic Development Administration (EDA) has received petitions for certification of eligibility to apply for Trade Adjustment Assistance from the firms listed below. Accordingly, EDA has initiated investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each of these firms contributed importantly to the total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Verification

As provided in section 782(i) of the Tariff Act of 1930, as amended (the Act), we verified the U.S. sales and factors of production information submitted by Prinx Chengshan (Shandong) Tire Co., Ltd. (PCT) in October 2016.³ We used standard verification procedures, including an examination of relevant accounting and production records, and original source documents provided by PCT.

Changes to the Dumping Margin Calculations

Based on our analysis of the comments received and our findings at verification, we made certain changes to our dumping margin calculations.⁴

Affirmative Final Determination of Critical Circumstances

We preliminarily determined that critical circumstances exist for PCT, the non-selected separate rate respondents, and the PRC-wide entity.⁵ For the final determination, we continue to determine that critical circumstances exist for PCT, the non-selected separate rate respondents, and the PRC-wide entity.⁶

Combination Rates

Consistent with *Preliminary Determinations*⁷ and Policy Bulletin 05.1,⁸ the Department calculated combination rates for the respondents that are eligible for a separate rate in this investigation.

PRC-Wide Entity	22.57

As detailed in the Issues and Decision Memorandum, Double Coin Holdings Ltd., a mandatory respondent in this investigation, did not demonstrate that it was entitled to a separate rate.⁹ Accordingly, we consider this company to be part of the PRC-wide entity.

Suspension of Liquidation

In accordance with sections 735(c)(4)(A) of the Act, because we continue to find that critical circumstances exist, we will direct U.S. Customs and Border Protection (CBP) to suspend liquidation of all entries of truck and bus tires from the PRC, as described in Appendix I, that were entered, or withdrawn from warehouse, for consumption on or after June 8, 2016, which is 90 days prior to the date of publication of the *Preliminary Determinations*, and to require a cash deposit for such entries.

Pursuant to 19 CFR 351.205(d), upon the publication of this notice, the Department will instruct CBP to require a cash deposit¹⁰ equal to the weighted-average amount by which the normal value exceeds U.S. price as follows: (1) The cash deposit rate for the exporter/producer combinations listed in the table above will be the rate identified in the table; (2) for all combinations of PRC exporters/producers of merchandise under consideration that have not received their own separate rate above, the cash-deposit rate will be the cash

deposit rate established for the PRC-wide entity; and (3) for all non-PRC exporters of merchandise under consideration which have not received their own separate rate above, the cash-deposit rate will be the cash deposit rate applicable to the PRC exporter/producer combination that supplied that non-PRC exporter. These suspension of liquidation instructions will remain in effect until further notice.

If the U.S. International Trade Commission (ITC) makes an affirmative final determination,¹¹ we will adjust the cash deposit rates by deducting applicable domestic pass-through and export subsidies rates from the final margins. With respect to PCT, the non-selected respondents eligible for a separate rate, and the PRC-wide entity, the applicable domestic pass-through subsidies and export subsidies respectively constitute 16.58 percent¹² and 11.01 percent¹³ of the final

¹¹ See the International Trade Commission Notification section, *infra*.

¹² See the Memorandum to the File entitled, "Truck and Bus Tires from the People's Republic of China: Final Double Remedy Memorandum," dated concurrently with this notice (Final Double Remedy Memorandum).

¹³ The Department determined that Export Buyer's Credit from State-Owned Banks and Export Seller's Credit from State-Owned Banks were export specific and, from these programs, Double Coin Holdings Ltd. and Guizhou Tyre Co., Ltd., received countervailable subsidies. See the signed **Federal Register** notice of *Truck and Bus Tires from the People's Republic of China: Final Affirmative Countervailing Duty Determination, Final Affirmative Critical Circumstances Determination, in Part*, and accompanying Issues and Decision Memorandum for the Final Determination in the Countervailing Duty Investigation of Truck and Bus Tires from the People's Republic of China; and Final Affirmative Determination of Critical Circumstances, in Part, issued on January 19, 2017,

calculated countervailing duty rate in the concurrent countervailing duty investigation. Thus, if the ITC makes an affirmative final determination, we will offset the rate of 9.00 percent for PCT and the non-selected respondents eligible for a separate rate and the rate of 22.57 percent for the PRC-wide entity by the countervailing duty rate attributable to domestic pass-through subsidies and export subsidies, *i.e.*, 27.59 percent, to calculate the cash deposit rate for this investigation. Accordingly, the cash deposit rates will be zero percent for PCT, the non-selected respondents eligible for a separate rate, and the PRC-wide entity.

Disclosure

We intend to disclose the calculations performed to parties in this proceeding within five days after public announcement of the final determination in accordance with 19 CFR 351.224(b).

International Trade Commission Notification

In accordance with section 735(d) of the Act, we will notify the ITC of our final affirmative determination of sales at LTFV. Because the final determination in this proceeding is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of subject merchandise from the PRC no

at 20. See also Final Double Remedy Memorandum at Attachment 1 for our calculation of the export subsidies rate.

⁹ See Issues and Decision Memorandum at Comments 2 through 7.

¹⁰ See *Modification of Regulations Regarding the Practice of Accepting Bonds During the Provisional Measures Period in Antidumping and Countervailing Duty Investigations*, 76 FR 61042 (October 3, 2011).

later than 45 days after our final determination. If the ITC determines that such injury does not exist, this proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing CBP to assess, upon further instruction by the Department, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

Notification Regarding Administrative Protective Order

This notice will serve as a reminder to the parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This determination is issued and published in accordance with sections 735(d) and 777(i)(1) of the Act and 19 CFR 351.210(c).

Dated: January 19, 2017.

Ronald K. Lorentzen,

Acting Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The scope of the investigation covers truck and bus tires. Truck and bus tires are new pneumatic tires, of rubber, with a truck or bus size designation. Truck and bus tires covered by this investigation may be tube-type, tubeless, radial, or non-radial.

Subject tires have, at the time of importation, the symbol "DOT" on the sidewall, certifying that the tire conforms to applicable motor vehicle safety standards. Subject tires may also have one of the following suffixes in their tire size designation, which also appear on the sidewall of the tire:

TR—Identifies tires for service on trucks or buses to differentiate them from similarly sized passenger car and light truck tires; and

HC—Identifies a 17.5 inch rim diameter code for use on low platform trailers.

All tires with a "TR" or "HC" suffix in their size designations are covered by this investigation regardless of their intended use.

In addition, all tires that lack one of the above suffix markings are included in the scope, regardless of their intended use, as long as the tire is of a size that is among the numerical size designations listed in the "Truck-Bus" section of the *Tire and Rim*

Association Year Book, as updated annually, unless the tire falls within one of the specific exclusions set out below.

Truck and bus tires, whether or not mounted on wheels or rims, are included in the scope. However, if a subject tire is imported mounted on a wheel or rim, only the tire is covered by the scope. Subject merchandise includes truck and bus tires produced in the subject country whether mounted on wheels or rims in the subject country or in a third country. Truck and bus tires are covered whether or not they are accompanied by other parts, e.g., a wheel, rim, axle parts, bolts, nuts, etc. Truck and bus tires that enter attached to a vehicle are not covered by the scope.

Specifically excluded from the scope of this investigation are the following types of tires: (1) Pneumatic tires, of rubber, that are not new, including recycled and retreaded tires; (2) non-pneumatic tires, such as solid rubber tires; and (3) tires that exhibit each of the following physical characteristics: (a) The designation "MH" is molded into the tire's sidewall as part of the size designation; (b) the tire incorporates a warning, prominently molded on the sidewall, that the tire is for "Mobile Home Use Only;" and (c) the tire is of bias construction as evidenced by the fact that the construction code included in the size designation molded into the tire's sidewall is not the letter "R."

The subject merchandise is currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 4011.20.1015 and 4011.20.5020. Tires meeting the scope description may also enter under the following HTSUS subheadings: 4011.69.0020, 4011.69.0090, 4011.70.00, 4011.90.80, 4011.99.4520, 4011.99.4590, 4011.99.8520, 4011.99.8590, 8708.70.4530, 8708.70.6030, 8708.70.6060, and 8716.90.5059.¹⁴

While HTSUS subheadings are provided for convenience and for customs purposes, the written description of the subject merchandise is dispositive.
