was changed from 2020 to 2021 and the estimated respondent burden hours was reduced from 20,000 to 7,804. In addition, new COVID–19 pandemic related questions were added to the instrument. The addition of this new content is not expected to affect the estimated average hours per response because a similar number of questions were removed from the survey.

Agency: U.S. Census Bureau.
Title: 2021 New York City Housing and Vacancy Survey.

OMB Control Number: 0607–0757.
Form Number(s): N/A—Electronic forms.

Type of Request: Reinstatement, with change, of a previously approved collection.

Number of Respondents: 12,000.
Average Hours per Response: 0.66 (40 minutes).

Burden Hours: 7,804.

Needs and Uses: The Census Bureau will conduct the survey for the City of New York in order to determine the vacancy rate of rental housing stock, which the city uses to enact specific policies. New York City will also use the data to help measure the quality of its housing and learn specific demographic characteristics about the city’s residents.

Affected Public: Households and rental offices/realtors (for vacant units).
Frequency: every three years.

Respondent’s Obligation: Voluntary.
Legal Authority: Title 13 U.S.C.—Section 8b, and the Local Emergency Rent Control Act, Laws of New York (Chapters 8603 and 657).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website <www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0607–0757.

DEPARTMENT OF COMMERCE
Bureau of Industry and Security
Emerging Technology Technical Advisory Committee; Notice of Open Meeting

The Emerging Technology Technical Advisory Committee (ETTAC) will meet on November 9, 2020, at 1:00 p.m. to 3:00 p.m., Eastern Standard Time. The meeting will be available via teleconference. The Committee advises the Office of the Assistant Secretary for Export Administration on the identification of emerging and foundational technologies with potential dual-use applications as early as possible in their developmental stages both within the United States and abroad.

Agenda
Open Session
1. Welcome and Introductions.
2. Introduction by the Bureau of Industry and Security Leadership.
3. Presentation on ETTAC Structure and Work Plan (Chair/Vice Chair).
5. Open Discussion (Comments, Q&A).
6. Conclusion/Adjournment.

The open session will be accessible via teleconference to 20 participants on a first come, first serve basis. To join the conference, submit inquiries to Ms. Yvette Springer at Yvette.Springer@bis.doc.gov no later than November 2, 2020.

A limited number of slots will be available for the public session. Reservations are not accepted. To the extent that time permits, members of the public may present oral statements to the Committee. The public may submit written statements at any time before or after the meeting. However, to facilitate the distribution of public presentation materials to the Committee members, the Committee suggests that presenters forward the public presentation materials prior to the meeting to Ms. Springer via email.

For more information, call Yvette Springer at (202) 482–2813.

Yvette Springer,
Committee Liaison Officer.

DEPARTMENT OF COMMERCE
International Trade Administration

Certain Aluminum Foil From the Sultanate of Oman and the Republic of Turkey: Initiation of Countervailing Duty Investigations

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: John Conniff; AD/CVD Operations, Office III (Oman) and Eliza Siordia; AD/CVD Operations, Office V (Turkey).

On September 29, 2020, the Department of Commerce (Commerce) received countervailing duty (CVD) petitions concerning imports of certain aluminum foil (aluminum foil) from the Sultanate of Oman (Oman) and the Republic of Turkey (Turkey), filed in proper form on behalf of the petitioners.\(^1\) domestic producers of aluminum foil.\(^2\) The Petition was accompanied by antidumping duty (AD) petitions concerning imports of aluminum foil from Armenia, Brazil, Oman, Russia, and Turkey.

On October 2, 2020, Commerce requested supplemental information pertaining to certain aspects of the Petition in separate supplemental questionnaires.\(^3\) The petitioners filed

\(^2\) See Petitioners’ Letter, “Certain Aluminum Foil from Armenia, Brazil, Oman, Russia, and Turkey—Petition for the Imposition of Antidumping and Countervailing Duties,” dated September 29, 2020 (Petitions).

In accordance with section 702(b)(1) of the Tariff Act of 1930, as amended (the Act), the petitioners allege that the Government of the Sultanate of Oman (GSO) and the Government of Turkey (GOT) are providing countervailable subsidies, within the meaning of sections 701 and 771(5) of the Act, to producers of aluminum foil in Oman and Turkey, and that imports of such products are materially injuring, or threatening material injury to, the domestic aluminum foil industry in the United States. Consistent with section 702(b)(1) of the Act and 19 CFR 351.202(b), for those alleged programs on which we are initiating a CVD investigation, the petitioners provided reasonably available information in the Petitions to support their allegation.

Commerce finds that the petitioners filed the Petitions on behalf of the domestic industry, because the petitioners are interested parties, as defined in section 771(9)(C) of the Act. Commerce also finds that the petitioners demonstrated sufficient industry support necessary for the initiation of the requested CVD investigations.6

Periods of Investigation

Because the Petitions were filed on September 29, 2020, the periods of investigation are January 1, 2019 through December 31, 2019.

Scope of the Investigations

The product covered by these investigations is aluminum foil from Oman and Turkey. For a full description of the scope of these investigations, see the appendix to this notice.

Scope Comments

As discussed in the Preamble to Commerce’s regulations, we are setting aside a period for interested parties to raise issues regarding product coverage (i.e., scope).6 Commerce will consider all comments received from interested parties and, if necessary, will consult with interested parties prior to the issuance of the preliminary determinations. If scope comments include factual information,7 all such factual information should be limited to public information. To facilitate preparation of its questionnaires, Commerce requests that all interested parties submit such comments by 5:00 p.m. Eastern Time (ET) on November 9, 2020, which is 20 calendar days from the signature date of this notice.8 Any rebuttal comments, which may include factual information, must be filed by 5:00 p.m. ET on November 19, 2020, which is 10 calendar days from the initial comment deadline.

Commerce requests that any factual information parties consider relevant to the scope of the investigations be submitted during this period. However, if a party subsequently finds that additional factual information pertaining to the scope of the investigations may be relevant, the party may contact Commerce and request permission to submit the additional information. All such submissions must also be filed on the records of the concurrent AD and CVD investigations.

Filing Requirements

All submissions to Commerce must be filed electronically via Enforcement and Compliance’s AD and CVD Centralized Electronic Service System (ACCESS), unless an exception applies.9 An electronically filed document must be received successfully in its entirety by the time and date it is due.

Consultations

Pursuant to sections 702(b)(4)(A)(i) and (ii) of the Act, Commerce notified representatives of the GSO and the GOT of the receipt of the Petitions and provided them the opportunity for consultations with respect to the petitions.

See 19 CFR 351.102(b)(21) (defining “factual information”).10 Commerce practice dictates that where a deadline falls on a weekend or Federal holiday, the appropriate deadline is the next business day (in this instance, April 20, 2020). See Notice of Clarification: Application of “Next Business Day” Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended, 70 FR 24531 (May 4, 2005).

Information on how to use ACCESS can be found at https://access.trade.gov/help.aspx, and a handbook can be found at https://access.trade.gov/help/Handbook%20on%20Electronic%20Filing%20Procedures.pdf.

4 See Petitioners’ Letters, “Certain Aluminum Foil from Armenia, Brazil, Oman, Russia, and Turkey—Petitioners’ Amendments to Volume I Relating to General Issues,” dated October 6, 2020; “Certain Aluminum Foil from Armenia, Brazil, Oman, Russia, and Turkey—Petitioners’ Supplement to Volume VII Relating to a Request for the Imposition of Countervailing Duties on Imports from the Sultanate of Oman,” dated October 6, 2020; and “Certain Aluminum Foil from Armenia, Brazil, Oman, Russia, and Turkey—Petitioners’ Supplement to Volume VII Relating to a Request for the Imposition of Countervailing Duties on Imports from the Republic of Turkey,” dated October 6, 2020.

5 See the “Determination of Industry Support for the Petition” section, infra.

like product in order to define the industry. While both Commerce and the ITC must apply the same statutory definition regarding the domestic like product, they do so for different purposes and pursuant to a separate and distinct authority. In addition, Commerce’s determination is subject to limitations of time and information. Although this may result in different definitions of the like product, such differences do not render the decision of either agency contrary to law. Section 771(10) of the Act defines the domestic like product as “a product which is like, or in the absence of like, most similar in characteristics and uses with, the article subject to an investigation under this title.” Thus, the reference point from which the domestic like product analysis begins is “the article subject to an investigation” (i.e., the class or kind of merchandise to be investigated, which normally will be the scope as defined in the petition).

With regard to the domestic like product, the petitioners do not offer a definition of the domestic like product distinct from the scope of the investigations. Based on our analysis of the information submitted on the record, we have determined that aluminum foil, as defined in the scope, constitutes a single domestic like product, and we have analyzed industry support in terms of that domestic like product.

In determining whether the petitioners have satisfied the scope of section 702(c)(4)(A) of the Act, we considered the industry support data contained in the Petitions with reference to the domestic like product as defined in the “Scope of the Investigations,” in the appendix to this notice. To establish industry support, the petitioners provided the 2019 production of the domestic like product by U.S. producers that support the Petitions. The petitioners estimated the production of the domestic like product for the remaining U.S. producers of aluminum foil based on the Aluminum Association’s knowledge of the industry. We relied on data provided by the petitioners for purposes of measuring industry support.

Our review of the data provided in the Petitions, the General Issues Supplement, and other information readily available to Commerce indicates that the petitioners have established industry support for the Petitions. First, the Petitions established support from domestic producers (or workers) accounting for more than 50 percent of the total production of the domestic like product and, as such, Commerce is not required to take further action in order to evaluate industry support (e.g., polling).

Second, the domestic producers (or workers) have met the statutory criteria for industry support under section 702(c)(4)(A)(i) of the Act because the domestic producers (or workers) who support the Petitions account for at least 25 percent of the total production of the domestic like product. Finally, the domestic producers (or workers) have met the statutory criteria for industry support under section 732(c)(4)(A)(i) of the Act because the domestic producers (or workers) who support the Petitions account for more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the Petitions. Accordingly, Commerce determines that the Petitions were filed on behalf of the domestic industry within the meaning of section 702(b)(1) of the Act.

**Injury Test**

Because Oman and Turkey are “Subsidies Agreement Countries” within the meaning of section 701(b) of the Act, section 701(a)(2) of the Act applies to these investigations. Accordingly, the ITC must determine whether imports of aluminum foil from Oman and/or Turkey materially injure, or threaten material injury to, a U.S. industry.

The petitioners allege that imports of aluminum foil from Oman and/or Turkey benefit from countervailable subsidies conferred by the GSO and the GOT, respectively. In accordance with section 703(b)(1) of the Act and 19 CFR 351.205(b)(1), unless postponed, we will make our preliminary determinations no later than 65 days after the date of this initiation.

**Oman**

Based on our review of the petition, we find that there is sufficient information to initiate a CVD investigation on all 8 of the alleged programs. For a full discussion of the basis for our decision to initiate on each program, see the Oman CVD Initiation Checklist. A public version of the

**Allegations and Evidence of Material Injury and Causation**

The petitioners allege that imports of the subject merchandise are benefiting from countervailable subsidies and that such imports are causing, or threaten to cause, material injury to the U.S. industry producing the domestic like product. In addition, the petitioners allege that subject imports exceed the negligibility threshold provided for under section 771(24)(A) of the Act.

The petitioners contend that the industry’s injured condition is illustrated by a significant and increasing volume of subject imports; reduced market share; underselling and price depression or suppression; lost sales and revenues; declining domestic production, shipments, and capacity utilization; negative effects on domestic industry employment; and a decline in financial performance and profitability. We have assessed the allegations and supporting evidence regarding material injury, threat of material injury, causation, as well as negligibility, and we have determined that these allegations are properly supported by adequate evidence, and meet the statutory requirements for initiation.
initiation checklist for this investigation is available on ACCESS.

**Turkey**

Based on our review of the petition, we find that there is sufficient information to initiate a CVD investigation on all 25 of the alleged programs. For a full discussion of the basis for our decision to initiate on each program, see the Turkey CVD Initiation Checklist. A public version of the initiation checklist for this investigation is available on ACCESS.

**Respondent Selection**

**Turkey**

In the Petition, the petitioners named ten companies from Turkey as producers/exporters of aluminum foil. Commerce intends to follow its standard practice in CVD investigations and calculate company-specific subsidy rates in these investigations. In the event Commerce determines that the number of companies is large and it cannot individually examine each company based upon its resources, where appropriate, Commerce intends to select mandatory respondents based on U.S. Customs and Border Protection (CBP) data for U.S. imports under the appropriate Harmonized Tariff Schedule of the United States numbers listed in the appendix to this notice.

On October 15, 2020, Commerce released CBP data on imports of aluminum foil from Turkey under Administrative Protective Order (APO) to all parties with access to information protected by APO and indicated that interested parties wishing to comment on the CBP data must do so within three business days of the publication date of the notice of initiation of these investigations. Commerce will not accept rebuttal comments regarding the CBP data or respondent selection.

**Oman**

In the Petition, the petitioners named only one company as a producer/exporter of aluminum foil in Oman, Oman Aluminum Rolling Company. Furthermore, we placed CBP import data onto the record of this proceeding, which corroborates the existence of Oman Aluminum Rolling Company as the sole producer/exporter in the foreign market.

and we currently know of no additional producers/exporters of subject merchandise from Oman. Accordingly, Commerce intends to examine all known producers/exporters in this investigation (i.e., the company cited above). As noted in the aforementioned Oman CBP Import Data Release Memo, we invite interested parties to comment on this issue within three days of the publication of this notice in the Federal Register. Commerce will not accept rebuttal comments regarding respondent selection for Oman. Because we intend to examine all known producers, if no comments are received or if comments received further support the existence of only this sole producer/exporter in Oman, we do not intend to conduct respondent selection and will proceed to issuing the forthcoming initial countervailing duty questionnaire to the company identified. However, if comments are received which compel the necessity of the respondent selection process, we otherwise intend to finalize our decisions regarding respondent selection within 20 days of publication of this notice.

Interested parties must submit applications for disclosure under APO in accordance with 19 CFR 351.305(b). Instructions for filing such applications may be found on Commerce’s website at [http://enforcement.trade.gov/apo](http://enforcement.trade.gov/apo).

**Distribution of Copies of the Petitions**

In accordance with section 702(b)(4)(A)(i) of the Act and 19 CFR 351.202(f), copies of the public version of the Petitions have been provided to the GSO and the GOT via ACCESS. To the extent practicable, we will attempt to provide a copy of the public version of the Petitions to each exporter named in the Petitions, as provided under 19 CFR 351.203(c)(2).

**ITC Notification**

We will notify the ITC of our initiation, as required by section 702(d) of the Act.

**Preliminary Determinations by the ITC**

The ITC will preliminarily determine, within 45 days after the date on which the Petitions were filed, whether there is a reasonable indication that imports of aluminum foil from Oman and Turkey are materially injuring, or threatening material injury to, a U.S. industry. A negative ITC determination in any country will result in the investigation being terminated with respect to that country.

Otherwise, these investigations will proceed according to the statutory and regulatory time limits.

**Submission of Factual Information**

Factual information is defined in 19 CFR 351.102(b)(21) as: (i) Evidence submitted in response to questionnaires; (ii) evidence submitted in support of allegations; (iii) publicly available information to value factors under 19 CFR 351.408(c) or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2); (iv) evidence placed on the record by Commerce; and (v) evidence other than factual information described in (i)–(iv). 19 CFR 351.301(b) requires any party, when submitting factual information, to specify under which subsection of 19 CFR 351.102(b)(21) the information is being submitted and, if the information is submitted to rebut, clarify, or correct factual information already on the record, to provide an explanation identifying the information already on the record that the factual information seeks to rebut, clarify, or correct. Time limits for the submission of factual information are addressed in 19 CFR 351.301, which provides specific time limits based on the type of factual information being submitted. Interested parties should review the regulations prior to submitting factual information in these investigations.

**Extensions of Time Limits**

Parties may request an extension of time limits before the expiration of a time limit established under 19 CFR 351.301, or as otherwise specified by Commerce. In general, an extension request will be considered untimely if it is filed after the expiration of the time limit established under 19 CFR 351.301. For submissions that are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. ET on the due date. Under certain circumstances, we may elect to specify different time limits by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, we will inform parties in the letter or memorandum setting forth the deadline (including a specified time) by which extension requests must be filed to be considered timely. An extension request must be made in a separate, stand-alone submission; under
SUMMARY: In accordance with the regulations implementing the Marine Mammal Protection Act (MMPA) as amended, notification is hereby given that NMFS has issued two incidental harassment authorizations (IHAs) to the U.S. Navy (Navy) to incidentally harass, by Level A and Level B harassment only, marine mammals during construction activities associated with the Transit Protection Program Pier and Support Facilities Project at Naval Base Kitsap Bangor in Silverdale, Washington over two years.

DATES: These authorizations are effective from July 16, 2021 to January 15, 2022, and July 16, 2022 to January 15, 2023, respectively.

FOR FURTHER INFORMATION CONTACT: Leah Davis, Office of Protected Resources, NMFS, (301) 427–8401. Electronic copies of the application and supporting documents, as well as a list of the references cited in this document, may be obtained online at: https://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-construction-activities. In case of problems accessing these documents, please call the contact listed above.

SUPPLEMENTARY INFORMATION: Background

The MMPA prohibits the “take” of marine mammals, with certain exceptions. Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 et seq.) direct the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed incidental take authorization may be provided to the public for review.

Authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s) and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant). Further, NMFS must prescribe the permissible methods of taking and other “means of effecting the least practicable adverse impact” on the affected species or stocks and their habitat, paying particular attention to rookeries, mating grounds, and areas of similar significance, and on the availability of the species or stocks for taking for certain subsistence uses (referred to in shorthand as “mitigation”); and requirements pertaining to the mitigation, monitoring and reporting of the takings are set forth. The definitions of all applicable MMPA statutory terms cited above are included in the relevant sections below.

Summary of Request

On January 14, 2020, NMFS received a request from the Navy for an IHA to...
