Board members are not considered Federal government employees by virtue of their service as a member of the Board and will receive no compensation from the Federal government for their participation in Board activities. Background

This preliminary determination is made in accordance with section 703(b) of the Tariff Act of 1930, as amended (the Act). Commerce published the notice of initiation of this investigation on April 22, 2020.¹ On June 2, 2020, Commerce postponed the preliminary determination of this investigation and reset the deadline to August 24, 2020.²

Decision Memorandum.³ A list of topics discussed in the Preliminary Decision Memorandum is included as Appendix II to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed and electronic versions of the Preliminary Decision Memorandum are identical in content.

Scope of the Investigation

The products covered by this investigation are non-refillable cylinders from China. For a complete description of the scope of this investigation, see Appendix I.

Scope Comments

In accordance with the Preamble to Commerce's regulations,⁴ the Initiation Notice set aside a period of time for parties to raise issues regarding product coverage (*i.e.*, scope).⁵ The petitioner⁶ commented on the scope of the investigation as it appeared in the Initiation Notice.⁷ Commerce intends to issue its preliminary decision regarding comments concerning the scope of the antidumping duty (AD) and countervailing duty (CVD) investigations in the preliminary determination of the companion AD investigation, the deadline for which is October 23, 2020.⁸

Methodology

Commerce is conducting this investigation in accordance with section 701 of the Act. For each of the subsidy programs found countervailable,

⁸ See *Certain Non-Refillable Steel Cylinders from the People's Republic of China: Postponement of the Preliminary Determination in the Less Than Fair Value Investigation*, signed August 14, 2020 (*AD Postponement Notice*).

Commerce preliminarily determines that there is a subsidy, *i.e.*, a financial contribution by an "authority" that gives rise to a benefit to the recipient, and that the subsidy is specific.⁹ For full description of the methodology underlying our preliminary conclusions, see the Preliminary Decision Memorandum.

In making the preliminary findings, Commerce relied, in part, on facts available. For further information, see "Use of Facts Otherwise Available and Adverse Inferences" in the Preliminary Decision Memorandum.

Alignment

As noted in the Preliminary Decision Memorandum, in accordance with section 705(a)(1) of the Act and 19 CFR 351.210(b)(4), and based on the petitioner's request,¹⁰ Commerce is aligning the final CVD determination in this investigation with the final determination in the companion AD investigation of non-refillable cylinders from China. Consequently, the final CVD determination will be issued on the same date as the final AD determination, which is currently scheduled no later than January 6, 2021, unless postponed.¹¹

All-Others Rate

Sections 703(d) and 705(c)(5)(A) of the Act provide that in the preliminary determination, Commerce shall determine an estimated all-others rate for companies not individually examined. This rate shall be an amount equal to the weighted average of the estimated subsidy rates established for those companies individually examined, excluding any zero and de minimis rates and any rates based entirely under section 776 of the Act.

In this investigation, Commerce calculated individual estimated countervailable subsidy rates for Ningbo Eagle Machinery & Technology Co., Ltd. and Wuyi Xilinde Machinery Manufacture Co., Ltd. that are not zero, de minimis, or based entirely on the facts otherwise available. Commerce calculated the all-others rate using a weighted average of the individual estimated subsidy rates calculated for the examined respondents using each company's publicly ranged values for

the value of their exports of subject merchandise to the United States.¹²

Rate for Non-Responsive Companies

Seven potential producers and/or exporters of non-refillable cylinders from China did not respond to Commerce's Quantity and Value (Q&V) Questionnaire.¹³ We find that, by not responding to the Q&V Questionnaire, these companies withheld requested information and significantly impeded this proceeding. Thus, in reaching our preliminary determination, pursuant to sections 776(a)(2)(A) and (C) of the Act, we are basing the CVD rate for these seven companies on facts otherwise available.

We further preliminarily determine that an adverse inference is warranted, pursuant to section 776(b) of the Act. By failing to submit responses to Commerce's Q&V Questionnaire, the seven companies did not cooperate to the best of their ability in this investigation. Accordingly, we preliminarily find that an adverse inference is warranted to ensure that the seven companies will not obtain a more favorable result than had they fully complied with our request for information. For more information on the application of adverse facts available to the non-responsive companies, see "Use of Facts Otherwise Available and Adverse Inferences" in the Preliminary Determination Memorandum.

Preliminary Determination

Commerce preliminarily determines that the following estimated countervailable subsidy rates exist:

¹² With two respondents under examination, Commerce normally calculates (A) a weighted-average of the estimated subsidy rates calculated for the examined respondents using each company's proprietary U.S. sale quantities for the merchandise under consideration; (B) a simple average of the estimated subsidy rates calculated for the examined respondents; and (C) a weighted-average of the estimated subsidy rates calculated for the examined respondents using each company's publicly-ranged U.S. sale quantities for the merchandise under consideration. Commerce then compares (B) and (C) to (A) and selects the rate closest to (A) as the most appropriate rate for all other producers and exporters. See, *e.g.*, *Ball Bearings and Parts Thereof from France, Germany, Italy, Japan, and the United Kingdom: Final Results of Antidumping Duty Administrative Reviews, Final Results of Changed-Circumstances Review, and Revocation of an Order in Part*, 75 FR 53661, 53663 (September 1, 2010).

¹³ The seven companies are Jiangsu Kasidi Chemical Machinery Co., Ltd.; Jinhua Sinoble Machinery Manufacturing Co., Ltd.; Ningbo Runkey CGA Cylinders Co., Ltd.; Ninhua Group Co., Ltd.; Shanghai Ronghua High-Pressure Vessel Co., Ltd.; Zhejiang Ansheng Mechanical Manufacture Co., Ltd.; and Zhejiang Nof Chemical Co., Ltd.

Suspension of Liquidation

In accordance with section 703(d)(1)(B) and (d)(2) of the Act, Commerce will direct U.S. Customs and Border Protection (CBP) to suspend liquidation of entries of subject merchandise as described in the scope of the investigation section entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**. Further, pursuant to 19 CFR 351.205(d), Commerce will instruct CBP to require a cash deposit equal to the rates indicated above.
