Question	D-GRID number	Columns	Rows
FOR Question II-3a (Overall capacity)	111	8	2
FOR Question II-11 (Trade data)	147	8	18
FOR Question II-12 (Resales exported in-scope)	299	8	10
FOR Question II-13 (Total shipments to end users by sector)	384	1	5
FOR Question II-14 (Exports to the United States by affiliate status)	390	8	2

Note: Columns and Rows numbers relate to data entry fields only. D-GRIDs does not work with rows containing calculated fields. In relation to the table on subject purchases by importer in the U.S. producers' questionnaire (Q II-10), while the data begins on the 3rd column the D-GRIDs tool has to pull the first two text columns to keep the data structure. Note that any text information from the first two columns within MS Word will not be overwritten when data are pushed into Word from the D-GRIDs tool.

Legend
PRO = U.S. producers' questionnaire
IMP = U.S. importers' questionnaire
PUR = U.S. purchasers' questionnaire
FOR = Foreign producers' /exporters' questionnaire

The **D-GRIDs tool** is a custom MS Excel application that allows USITC questionnaire respondents (and/or their APO counsel) to extract numeric data from the standard USITC questionnaire forms in MS Word as well as populate numeric data into the standard USITC questionnaire in MS Word. This document provides the inputs needed for the D-GRIDs tool in relation to the above referenced antidumping and/or countervailing duty investigation(s).
