

## EXPLANATION OF COMMISSION DETERMINATIONS ON ADEQUACY

in

### *Calcium Hypochlorite from China* Inv. Nos. 701-TA-510 and 731-TA-1245 (Review)

On March 6, 2020, the Commission determined to conduct expedited five-year reviews in the above-referenced proceedings pursuant to section 751(c)(3)(B) of the Tariff Act of 1930, as amended, 19 U.S.C. § 1675(c)(3)(B).

The Commission received a response to its notice of institution filed on behalf of Innovative Water Care, LLC d/b/a Sigura (“Innovative Water”), a domestic producer of calcium hypochlorite (“calhypo”). The Commission found that the individual response from Innovative Water was adequate. Because Innovative Water accounted for the majority of domestic production of calhypo in 2018, the Commission determined that the domestic interested party group response was adequate.

The Commission did not receive a response to the notice of institution from any respondent party. The Commission therefore determined that the respondent interested party group response was inadequate.

The Commission did not find any circumstances that would warrant conducting full reviews. The Commission therefore determined to conduct expedited reviews of these orders.<sup>1</sup>

A record of the Commissioners’ votes is available from the Office of the Secretary and the Commission’s website ([www.usitc.gov](http://www.usitc.gov)).
