Technical comments:3

The Commission suggests that the article description as used on page 1 of this report be used in the proposed new heading in order to provide the chemical name without extraneous chemical information, to eliminate the uppercase “E” in the chemical name, and to add the CAS number.

---

3 The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.
