1/ The proponent imports this product under the Temporary Importation Bond (TIB) program which allows importers to post a bond rather than pay duties. The importer must then export or destroy the imported material within a specified time frame. Dutiable imports are effectively negligible. The proponent wants the temporary duty suspension to avoid the costs incurred in processing TIB filings. Source of estimated dutiable import data: Industry estimates.

The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.
