- Same
- Different (see Technical Comments section)

**III. Other product information, including uses/applications and source(s) of imports**

The subject products are cases for electronic drawing toys, electronic games, or educational toys or devices. The cases are made of molded silicone and are designed for transporting, storing, and protecting particular games, toys, or devices. These cases are primarily imported from China.

**IV. Estimated effect on customs revenue**

Note: Customs revenue loss is provided for 5 years, although the effective period of the proposed legislation may differ. Regarding the HTS subheading listed in the article description of the bill, the Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only U.S. Customs and Border Protection is authorized to issue a binding ruling on this matter. The Commission believes that Customs should be consulted prior to enactment of the bill.

Dutiable imports were based on (more than one may apply):

- Official statistics of the U.S. Department of Commerce
- Provided by industry sources
- Industry information
- Commission estimates

- This bill is not a duty reduction
- This bill is a temporary duty reduction. Rates are shown below.

Col.1-general duty rate (%)  Temporary rate (%)  Percentage point reduction (%)

**V. Technical comments**

The article description set forth above was modified for greater clarity. However, we note that Customs would be required to determine if any case that would be entered under the proposed heading is "protective" with respect to the particular device involved, and that term is not defined by the bill.
